- WEST END HOSPITAL FOR NERVOUS DISEASES**, 73 Welbeck St, W 1. *Sec*, J P Wetenhall, B A

CONSUMPTION AND CHEST DISEASES.

The number of deaths from tuberculosis in the United Kingdom and the rate per 100,000 of the population for each year since 1915 were as follows —

Year	Deaths	Rate per 100,000
1915	54,295	151 5
1916	53,858	152 9
1917	55,934	162 4
1918	58,073	169 4
1919	46,312	125 8
1920	42,545	112 8

The fall in the rate of 56.6 per 100,000 between 1918 and 1920 is attributable partly to the cessation of the War and consequent better living conditions, and partly to the valuable work done by Local Government Authorities. The increase of facilities for the treatment since 1912 is as follows —

Year	No of beds in public institutions	Dispensaries.
1912	1,500	8
1918	6,749	375
1921	9,879	470

At the same time the beds in voluntary institutions increased from 2,800 in 1912 to 7,563 in 1921, a total increase of beds from 4,300 in 1912 to 17,447 in 1921

BROMPTON HOSPITAL FOR CONSUMPTION, Fulham Road, S.W. 3 Visiting-days: Tuesday and Friday, 2 to 3, Sunday, 2 to 4. *Sec*, Frederick Wood. *Res Medical Officer*, L S Morgan, M.R.C.S., L.R.C.P.

THE BANKERS' CLEARING HOUSE.

THE BANKERS' CLEARING HOUSE, in Post Office Court, Lombard Street, is the medium through which Bankers obtain the amount of Cheques and Bills in their hands for collecting from other Bankers. The amount passing through this channel is enormous. The total for the year ending December 31, 1923, was £36,627,502,000, a decrease of £533,869,000 as compared with the year 1922. The Town Clearing in 1923 amounted to £32,270,373,000, a decrease as compared with 1922 of £510,226,000; the Metropolitan Clearing to £1,446,565,000, a decrease of £28,006,000, and the Country Clearing to £2,810,664,000, an increase of £4,480,000. The establishment is managed by a Committee of Bankers—Chairman, E H Tennant; Deputy Chairmen, Sir Felix Schuster, Bart.; Hon. Sec., R. Holland-Martin, C.B.; Acting Managers, A. E. Salt (Chief Inspector); Herbert J Woodcock (Deputy Inspector).

Principal Banks in the British Empire.

A list of the principal Banks in the British Empire, with the date of their establishment and particulars of their Capital, Reserve Fund, Deposits, and Dividends. LIFE ASSURANCE.

THE list on the following two pages contains the names of all the more important British Life offices, and of eight Colonial companies (marked C), all of which transact business in this country.

CLASS OF BUSINESS—The second column shows whether the company is conducted on the Mutual system, whereby the whole of the divisible profit is allotted to participating policy-holders (M), or whether the company has proprietors by whom part (usually a very small proportion) of such profit is received (P). Life offices transacting other insurance business are marked O in this column, and those having an Industrial branch are indicated by letters I. In such cases the life funds are kept separately, and are not liable for the claims of other departments. The Share Capital is usually liable for the claims of all branches.

FIGURES—These are taken from the latest annual accounts available at date of going to press, and in the majority of cases refer to annual reports for the financial year ended 31 December, 1923.

LIFE FUNDS—The amounts of these funds, though interesting, are not in themselves a sufficient indication of the financial stability of a company, which cannot be judged unless liabilities are actually compared with assets.

PREMIUM INCOME—The annual premium income is in all cases stated after deduction of the amount paid to other companies for re-assuring parts of the risks.

EXPENSES—The expenses of a Life office include, in all cases where paid, commission to agents. The amount of expenses is less important in itself than in relation to premium income, consequently the percentage of the premium income absorbed in expenses is shown. The average percentage of British offices is about 12½%, of which about 5% is expended on commission and 7½% on other expenses. This ratio taken by itself is frequently misleading,

because, if the proportion of new business is large, the percentage of the total premiums absorbed in expenses may legitimately be higher than where the new business is small. Moreover, where rates of premium are below the average, any comparisons of percentage should be considered, with due regard to this feature, a gain to the policyholder through reduced premium being equivalent to an immediate cash bonus.

INTEREST—The rate of interest earned is important for comparison with the rate assumed in valuing liabilities, since the greater the margin between these rates the greater is the surplus available from this source for bonus. The rate of interest given is less Income Tax except where marked (G)—gross.

VALUATIONS—The last two columns of the table are derived from the valuation returns made by the companies to the Board of Trade. A valuation indicates liability under existing policies after making allowance for the amounts to be paid and received. It is assumed that deaths will occur in accordance with a mortality table, and that interest will be earned at a certain rate. Various mortality tables are employed, those most usual being known as the H^m and O^m, and the corresponding Tables H^m(+) and O^m(+) which exclude mortality in the first five years of assurance. If a company assumes that it will earn a high rate of interest in the future, the net liability will appear less than if it assumes a low rate, while the liability on account of mortality appears greater by some tables than by others. The position of an office is most satisfactory when a stringent basis of valuation is adopted, because the margin between the calculated and experienced liability is larger and the surplus available for bonuses is greater. The O^m and O^m(+) tables in conjunction are more stringent than the O^m table alone, the H^m is more stringent than the American, and with every table the lower the rate of interest assumed the more stringent is the valuation.

FIRE INSURANCE RATES.

MOST large fire offices belong to the tariff association, charging identical rates of premium. There are, however, a number of non-tariff offices which claim to assess individual risks independently on merits. Tariff rates of premium per £100 insured against fire for the more common classes of risk are as follows—

Private Dwelling Houses, built of brick or stone and tiled or slated and in no hazardous proximity, 1s 6d.

Household goods therein, usually 2s.

Policies are issued by a number of companies embracing all risks incidental to private houses, in one amount.

Shops and Warehouses, similarly built and circumstanced, in which no hazardous goods are deposited nor hazardous trades carried on, from 2s.

Stock and Utensils in trade, fixtures, and household furniture in such shops and warehouses, from 2s.

Private Dwelling Houses, brick and timber built and tiled or slated, in no hazardous proximity, from 2s 6d.

MOST fire insurance companies transact accident and miscellaneous business, and if a strong company be selected with a reputation for liberal dealing it will probably be found to the advantage of a householder that he should effect with it all such policies as he may require, in place of dividing them amongst several companies. A number of fire offices are prepared to issue policies of an inclusive character for household purposes, combining in one contract protection against damage by fire to the contents of a house, or from burglary, housebreaking, larceny, theft, &c., and insurance against domestic servants' employers' liability, damage from storm or tempest, third party risks, and other hazards. This can usually be arranged for an annual premium of 5s per £100 of the full value of the contents of the house. Fire insurance of the house itself is not included, however, in this estimate. The advantage of a policy of this description is that it obviates the inconvenience of payments of small amounts in insurance premiums at different dates, and that in one comprehensive form it supplies protection at a moderate cost for all a householder's ordinary insurance requirements.

* Wesleyan and General With profit business ; With out profit business

INCOME TAX ALLOWANCES ON PREMIUMS PAID

Where an allowance is due in respect of premiums paid for Life Assurance or for contracts for Deferred Annuities, the allowance is deducted from the amount of tax on the "Taxable Income" (i.e., that part of the income on which the tax is actually charged—the first £225 of the taxable income being charged at half the standard rate of tax, the remainder at the standard rate of tax). The allowance is made on the premiums paid, and is calculated at the following rates—one-half the standard rate in

the £ on the amount of the premium paid on policies taken out since June 22, 1916, irrespective of the claimant's total income, and on policies taken out before June 22, 1916, a deduction of tax at one-half the standard rate in the £ is allowed on the premiums paid by a claimant whose income does not exceed £1,000, of three-fourths of the standard rate in the £ where his income exceeds £1,000 and does not exceed £2,000, and at the standard rate in the £ where his income exceeds £2,000. The *Repayments of Income Tax* on account of Life Insurance Premiums are shown for a series of years on p 365.

BONUSES.

The following table shows the average annual rate of Bonus declared on Whole Life and Endowment Assurances for £100. In each case the rate given is in respect of a policy effected at age 30 next birthday, and the Endowment Bonus is based on a Policy maturing at age 60. It will be noticed, in the case of the Offices whose Valuations are made quinquennially, that the last Valuation included part of the War period, when conditions were abnormal. Owing to the depreciation in securities, and the strain of War claims, etc., some Offices were only able to grant a low rate of Bonus, whilst others declared no Bonus at all. At the next Valuation, however, these Offices should resume their pre-War rate at least, but intending Assurers would be well advised to ascertain the possibilities of this before effecting a Policy.

Office	Last Valuation	Annual rate of Bonus declared on Whole Life Assurances	Annual rate of Bonus declared on Endowment Assurances	Interim Bonus

1916-17 . . .	25,502	343,189	1922-23 . . .	83,886	610,464

ANNUAL PREMIUMS FOR WHOLE LIFE ASSURANCE

Life assurance may be effected either with or without participation in profits. If without participation, both sum assured and premium remain unchanged. If with participation, a higher premium is charged, and bonuses can either be payable with the sum assured, applied to reduce the premium, or surrendered for cash. An alternative plan is available in some offices whereby future bonuses are anticipated and used to reduce premiums from the outset. This is called the "Discounted Bonus" or "Cost Price" system.

If the bonuses actually declared exceed those anticipated, the difference is credited to the policyholder, if, however, the anticipated bonuses exceed those declared, the balance has to be liquidated by the policyholder or remains as a debt. Policies should only be effected on this system in companies which can point to good and consistent bonus records, and whose valuation reserves are particularly strong.

The ages applicable to the life and endowment assurance (but not the annuity) rates as hereafter given are "next birthday" unless otherwise stated.

AVERAGE ANNUAL PREMIUMS FOR WHOLE LIFE ASSURANCE OF £100.

The next table shows the annual premiums payable throughout life for a policy of £100 payable at death, with profits. It is not sufficient to judge a life office by premium rates only. An office charging a high premium may give higher bonuses than one charging a low premium, and therefore bonus results and prospects as well as premiums have to be considered. Some offices only allow bonuses to be taken in reduction of premium, and on this plan the rates are usually

high to commence with, but are greatly reduced after a few years. Some reserve bonuses for the older classes of policyholders, and in these cases lower premiums than the average are usually charged. Most offices grant interim bonuses between valuation periods, and it is important to ascertain if this is the case before an assurance is effected, and how such interim bonuses compare with valuation bonuses, especially in cases of endowment assurance.

‡‡ University Life—Total Bonus guaranteed to amount to at least 30/- per cent per annum for first 10 years and 35/- per cent per annum thereafter

§§ Wesleyan and General—Rates quoted are for nearest birthday

ENDOWMENT ASSURANCES

Endowment Assurances are very popular, and are extremely attractive to persons who desire to combine a provision for their dependants, in event of premature death, with the investment of savings for the realisation of a fund for their own personal enjoyment in later life. For the investment of small annual sums there is no medium promising more satisfactory results than an Endowment assurance participating in profits in a good bonus-paying life office. The selection of such an office is all-important, as so much depends upon profit-earning capacity—see first page of Life Assurance section

ANNUAL PREMIUMS FOR ENDOWMENT ASSURANCE OF £100. WITH PROFITS

Under endowment assurances the sum assured is paid after a given number of years, or on the attainment of a fixed age. Should the life assured, however, die during the endowment period, the sum assured is paid at death.

The following table shows the annual premiums, for various ages at entry, charged by the offices named, to secure £100 with profits at the age of 55 or 60, or at death, if previous.

NAME OF OFFICE	SUM ASSURED PAYABLE AT AGE 55 OR AT PREVIOUS DEATH										SUM ASSURED PAYABLE AT AGE 60 OR AT PREVIOUS DEATH

Assurances in Force as shown by the Dec., 1915. Returns published by the Board of Trade	3,233,771	£869,738,964	38,004,956	£433,900,645

IMMEDIATE ANNUITIES.

THIS Table shows amount of Annuity granted for every £100 paid. The age is calculated from the last birthday, but many offices quote intermediate rates for every half of quarter year. By some a proportionate amount is payable to day of death. Some Companies pay whole or part of stamp duty. See note as to rates on introductory page.

The Annuity is calculated as payable half-yearly. In some cases the quarterly rate is the same, in others it is a little less. Some offices grant special terms in case of impaired lives.

ADVICE REGARDING LIFE ASSURANCE

Apart from the immediate protection thereby given, a life or endowment assurance policy, if effected in a first-class bonus-paying company, provides exceptional opportunity for the remunerative investment of savings. Policyholders can claim relief from Income Tax in respect of life assurance premiums not exceeding in amount one sixth of their income, where the death risk is involved.

The selection of the office best suited to require ments and likely to produce the best results should be carefully made, but the study of any tables or suggestions is not sufficient to enable persons without technical knowledge to gauge the respective merits of the various companies. There are many good offices, and in the most select class some are better adapted than others for particular purposes, and large sums may be saved or earned by intending proposers through obtaining reliable advice before a proposal is made.

Medical examinations are sometimes dispensed

with in the case of new proposals, but policies in these instances are usually subject to certain restrictive conditions of a temporary character.

INQUIRIES—On receipt of an inquiry containing particulars of requirements (accompanied by 5s.) addressed to "The Insurance Editor, 12, Watwick-lane, E C 4," advice will be given as to the system and policies best adapted to the special requirements. Inquiries should state the age at and date of next birthday. The following are suggested as the policies most likely to be required—

- (a) *Whole Life*—With and without profits
- (b) " " —With limited number of payments
- (c) " " —Reduced premium for first 5 years
- (d) *Endowment*—With and without profits
- (e) " " —Reduced premium for first 5 years
- (f) *Children's Insurances*—Educational, &c
- (g) " *Non-Medical* " Insurances

374 Postal Regulations of Great Britain and Northern Ireland.

" " 8 lb " 1s 0d
" " 11 lb (limit of weight) 1s 3d
Limit of size length, 3 ft 6 in, length and girth combined, 6 ft

GENERAL REGULATIONS

UNPAID PACKETS (letters, newspapers, post-cards) are charged double postage on delivery, UNPAID PACKETS, double the deficiency

RE-DIRECTION.—(1) By agent of addressee Letters, post-cards, printed papers, and newspapers may be re-posted free not later than the day after delivery (Sundays and public holidays not being counted), and must not have been opened or tampered with. Packages may be re-directed free of charge, within the same time limits, if the original and the corrected addresses are both within the same Town Delivery Area (the whole London Postal District being regarded for this purpose as one Town Delivery Area), otherwise they are charged on delivery at the ordinary prepaid rate. Registered packets, which must be taken to a Post Office, are re-registered free only up to day after delivery. (2) By the Post Office (not undertaken during temporary absence, unless house be left empty, or from clubs, hotels, &c.) Notice for re-direction of letters, &c., must be given on printed forms, to be obtained from the local postmaster or from postmen, and signed by the person to whom the letters are to be addressed. The notice holds good for twelve months, and may be extended by payment of 1s for second, 1s third, and 6s each subsequent year. Separate forms must be filled in for parcels, and for the (postal) forwarding of telegrams.

REGISTRATION.—All kinds of postal packets intended for registration must be marked "Registered" in bottom left-hand corner, and must be handed to an officer of the Post Office, and a receipt taken. Parcels (or the string with which they are tied) and letters, must be fastened with wax or other adhesive. The registration fee is 3d exclusive of postage. With a further 3d the sender may obtain advice of delivery. The latest time for registering is usually half an hour before the latest time for posting ordinary packets, at Head Offices this may be done later for an additional 6d, late fee. Unregistered packets containing coin or

jewellery, or found open and containing stamps, uncrossed bearer cheques, etc., over 10s. in value, or any marked "registered" and found in a letter-box, undergo compulsory registration (3d), carrying no compensation.

COMPENSATION for loss or damage is granted, though not as a legal right even if fee is paid and packing adequate.—The fees for compensation inclusive of registration are—Fee 3d, compensation up to £5, 4d, £20, and 1d for each additional £20 up to the maximum 1s 11d for £400. Compensation up to £2 is given on (a) unregistered parcels (for loss, only if certificate of posting is obtained at the time of posting), (b) unregistered packets conveyed by Express Delivery Service No (1). Compensation in respect of money of any kind (coin, notes, orders, cheques, stamps, &c.) is only given if particulars (for identification) are kept and the money is sent by Registered Letter Post in one of the special envelopes sold officially (see next page), the maximum compensation for coin is £5. Compensation for jewellery, watches, &c., is only given on registered packets, for glass, crockery, greases, colour-powders, fish, meat, fruit, and vegetables only when sent as parcels. Compensation is not given for damage to (1) eggs, soft fruit, liquids and semi-liquids or exceptionally fragile articles, in any case, (2) registered packets other than parcels, unless "Fragile, with care" is written above the address.

CERTIFICATE OF POSTING unregistered parcels, free, other unregistered postal packets, 1d.

EXPRESS DELIVERY SERVICE.—There are five services of which (4) and (5) alone are available on Sundays.—(1) By special messenger all the way, from most offices which deliver telegrams inclusive charge, which must be prepaid, in cash or by stamps, 6d per mile, or part of a mile, with 1d on each separate packet after the first, up to ten, the maximum, also a special charge of 3d on each packet over 1 lb in weight. Live animals, liquids, and money may be delivered by this service, and persons may be conducted. The messenger may take back an inland telegram gratis. (2) By special messenger after transmission by post. (3) From the ordinary delivery office, if it is a telegraph office (maximum charge in London 6d), or if so marked. (4) "Express Delivery from Head Office" in large provincial towns, and (5) in London "from Head District Office" or "from G P O". Charges as before (without weight fee) in addition to postage. (3) In advance of the ordinary deliveries upon previous application by addressee (6d per mile for one packet, and 1d for every ten or less additional packets). (4) see p 383. (5) By special messenger, of a message telephoned to an express delivery office (30 words for each express fee, besides telephone charges), (see p 383). For (1), packets must be handed over the counter with "Express" clearly marked in left hand top corner, for (2), may be handed in or posted, and must be marked "Express," with a broad vertical line back and front. Waiting fees 10 minutes free, each additional 15 minutes or part thereof, 2d. For Sundays and Holidays, see p 383, and next paragraph.

RAILWAY LETTERS.—On payment of 4d extra at a Parcel or Booking Office of most railways, during such hours as the station is open,

whether on week-days or Sundays, an unregistered letter not exceeding 2 oz. will be forwarded by the next available train or steamship, and passed on from one company to another. The letter may be called for at the station of address, or posted there in the nearest letter-box, or (except on Sundays) delivered as an Express Letter under Service *2a* (or from the first Express Delivery office it reaches), or (by telegraphing for a messenger to meet it) under Service *1*.

IMPORT OF UNREGISTERED POSTAL PACKETS.—Inland packets chargeable with a postage of 1d or more, undelivered, are returned unopened if bearing sender's name and address, others are opened by the Returned Letter Office and returned to senders without charge. Packets containing neither sender's address nor any enclosure of importance are destroyed except parcels which, if not applied for, are generally disposed of after 3 months, or if perishable are dealt with as a request. Packets chargeable with postage not exceeding 1d are re-delivered to sender on payment of a second postage; if his name and address, or "to be called for," in the address, or non-delivery appear on the outside, those without such request are disposed of. Foreign letters &c. undelivered in *India*, are returned unopened, after a short detention, to the countries whence received, parcels sent by air, after a reasonable time for inquiry. If containing sender's address, he is advised, and parcel will be returned on payment of fresh postage. British packets undelivered abroad are returned to sender here on payment of charges due, see for parcels *see p. 377*.

POST OFFICES.—Only for the accommodation of strangers and travellers and for three months only) — (correspondence of any kind may be addressed as a rule to all Post Offices except Town Sub-Offices. It should have the words "Post Restante" or "to be called for," in the address. If addressed to initials, or fictitious name, or Christian name only, it is not taken in, but is at once treated as undelivered. All persons applying for "Post Restante" letters must furnish sufficient particulars to enable delivery to the proper owner. Route Restante letters, parcels &c. from abroad, or letters at a seaport for an export ship, are kept two months, others, only one fortnight. After these intervals they are treated as undelivered (see above) unless sending a request for return at end of the interval, or some specified shorter period.

Letter Post

The Normal Post of the Country. Most things may be sent by it (except explosive, offensive or obscene matter, eggs, fish, game rabbits, meat, fruit, and vegetables) (*see p. 374*)

Post Cards

Postage, *1d*. The left-hand half of the address side may be used for correspondence (the same holds for abroad). Plain cards (maximum size 5½ × 3½, minimum 4 × 2½ in.), like but not thinner than official cards, may also be used both inland and abroad. Reply postage, *2d*.

Printed Papers Post (*see p. 374*)

For printed or written matter not in the nature of a letter, and not exceeding 2 lb.

By this post may be sent books and other works of literary character with or without written dedications, and any other written or printed matter not being in the nature of a letter, drawings, paintings, photographic prints, engravings, maps, &c., together with their binding provided that the materials are those ordinarily used for the purpose and are not brittle or very fragile, together with anything necessary for the safe transmission of the packet. Commercial printed forms, legal documents, printers' copy and proofs, examination papers, answers and corrections, the writing on which refers solely to the subject matter of the document, Christmas and picture cards with date, names and addresses of sender and addressee, and with conventional formulas not exceeding 5 words or initials, are also admitted. For full conditions see the official Guide.

All printed papers being subject to examination in the post, the cover, if any, must be capable of easy removal and replacement for purposes of examination, i.e. without breaking, tearing, ungumming or cutting

Newspaper Post (*see p. 374*)

For newspapers registered at the G.P.O.

The cover, if any, must be open at both ends and easily removable, and copies should be folded so that title is readily inspected. No writing or printing is permitted, other than the words "with compliments" name and address of sender request for return if undelivered, and a reference to a page. Newspapers not registered at G.P.O., Christmas or special issues of registered newspapers or supplements apart from their ordinary publications, may be charged at printed paper, letter, or parcel rate.

Parcel Post

For bulky and heavy matter (*see p. 374*). The parcel should be marked "Parcel Post" and handed across the counter or given to a rural postman, and the postage must be prepaid by stamps, affixed by the sender. The hours for Parcel Post business are the same as for general postal business. Parcels are neither accepted nor delivered on Sundays. The name and address of sender should be inside or (not too prominent) on the outside of every parcel. More than 11 lb. must not be accepted from one person by a rural postman on foot or bicycle, without notice on the previous day, and he may refuse parcels if already loaded, a postman with a cart must accept what he can conveniently carry.

Parcels to Irish Free State, Channel Is or I of Man are liable to customs duty, the sender must, except in last case, declare contents when posting. 6d. customs clearance fee is charged on parcels from I.F.S. or Channel Is, delivered in Britain or N. Ireland.

Literature for the Blind

Papers, periodicals and books, if printed in special type and subject to certain conditions, may be sent by our Blind Literature, with name and address of sender, 1 lb., 1d. 5 lb. 1d. 6 lb. (maximum) 2d. Maximum size 2 × 2 × 1 ft. or if a roll 30 × 4 in.

STAMPS, ENVELOPES, POST CARDS, &c.

POSTAGE STAMPS (used also for receipts, telegrams, and certain Inland Revenue duties up to 2s. 6d. — for list of latter *see p. 389*) are sold of the respective values of ½d., 1d., 1½d., 2d., 2½d., 3d., 4d., 5d., 6d., 9d., 10d., 1s., 2s., 6d., 5s., and 10s. Books of 6 1d., and 6 ½d. stamps, together with (a) 28 1½d. stamps, 3s. or (b) 10 1½d. stamps, 2s. Rolls of ½d., 1d., 1½d. and 2d. stamps (480, 960, 500 or 1000 in a roll) are also sold at 1d., 2d. and 4d. extra. Stamps may be purchased at most offices between 9 a.m. and 7 p.m., and at any office open for telegraph business. Rural postmen carry ½d., 1d., and 1½d. stamps and registered letter envelopes.

REGISTERED LETTER ENVELOPES for foreign and inland letters, with a 4/4 embossed stamp (for registration and postage) of one of four sizes: F. 5½ in. × 3½ in. 5d. each, G. 5½ in. × 3½ in. 5½d. each, H. 8 in. × 5 in. 6d. each, K. 11½ in. × 6 in. 6½d. each.

LETTER CARDS with 1½d. stamp, one 2d., 2, 3½d., 5, 9d.

POST CARDS with impressed stamp. Inland, single, thin — one, 1½d.; 2, 2½d.; 5, 5½d.; 11, 1s.; stout — one, 1½d.; 5, 6d.; 10, 1s. Reply — 1, 2½d.; 4, 8½d.; 11, 2s. Foreign, single — one, 1½d.; 4, 7d.; 7, 1s.; Reply — one, 3½d.; 5, 1s. 4d.; 6, 2s. 8d.

EMBOSSED ENVELOPES (a) with 1½d. stamp. "A" (4¾ × 3½ in.) — 1, 1½d.; 3, 5d.; 5, 8½d.; 11, 1s. 6d.; "Commercial" (5½ in. × 3½ in.) — 1, 1½d.; 2, 3½d.; 5, 8d.; (b) with 1½d. stamp, ungummed "Commercial" ("N") 1, 3d.; 2, 1½d.; 5, 3d.

NEWSPAPER WRAPPERS with $\frac{1}{2}$ d. stamp
1, $\frac{3}{4}$ d., 2, $1\frac{1}{4}$ d., 3, $1\frac{1}{2}$ d., 7, 4d., with 1d. stamp
1, $1\frac{1}{4}$ d., 2, $2\frac{1}{4}$ d., 5, $5\frac{1}{4}$ d., 8, $8\frac{1}{4}$ d.; 11, 1s.

Embossed or impressed postage stamps (except of Queen Victoria's reign) cut out of envelopes, post-cards, letter cards, newspaper wrappers, or telegram forms may be used as adhesive stamps in payment of postage or telegrams respectively, provided they are not imperfect, mutilated, or defaced in any way.

LONDON POSTAL ARRANGEMENTS

The Metropolitan is divided for postal (not telegraphic) purposes into eight *Hund Districts*, each comprising the number of Delivery Districts indicated below.

East Central (E.C.)	4	South Western (N.W.)	30
West Central (W.C.)	4	South Eastern (S.E.)	27
Eastern (E.)	17	South Western (S.W.)	27
Northern (N.)	22	Western (W.)	14

To avoid delay in delivery the initials of the Head District, and the number of the proper delivery office should appear in the address of all post packets. Each Head District has Head Office (address given on p. 224), Branch Offices, and others, the total number of offices in the London Postal Area being about a thousand.

FOREIGN AND COLONIAL MAILS (latest times for posting without late fee on week days at G.P.O.)—*Letters*.

Surrey, E. Sussex), Liverpool St. 5.0 a.m. (Essex, Norfolk, Suffolk), 10.12 p.m. (Herts, Cambs, Norfolk), Kings + 4.45 a.m. (E. Mid. & N. England, put off Scotland), 6.25 p.m. (Towns on E. Coast route in England, S.E. Scotland), Finsbury 5.0 a.m. (Midlands, N. Wales), 8.15 a.m. (N. Wales, Ireland, rd. Holyhead), 7.30 p.m. (N.W. & Mid. England, Mid. Wales, Ireland, rd. Stranv.), 8.50 p.m. (Sat. 7.30 p.m. (N. Wales, Ireland, rd. Holyhead), 9.30 p.m. (N.W. & Mid. England, N. & Mid. Wales), Finsbury 5.30 a.m. and 9.5 p.m. (West of England & Wales), Waterloo 5.40 a.m. and 10 p.m. (Dorset, Hants I. of Wight). Registered letters can be received in the Sorting Carriages up to the same time on payment of 1s. 6d. late fee, and those for the Finsbury trains marked $\frac{1}{2}$ above can also be posted at Finsbury Square Post Office between 5.0 p.m. and 8.0 p.m. at fees varying from 3d. to 1s. 6d. according to lateness.

SUNDAY MAILED, &c., see p. 383.

POSTAGE, &c., ABROAD.

N.B.—For times of despatch see "London Postal Arrangements" above.

Letters

The letter rate from Great Britain to British Dominions generally,* to countries outside the Postal Union,† and to Egypt, Tangiers and Veihai-wei, to the United States and Territories (incl. Hawaii) but not Panama zone or island Dependencies), as well as to H.M. Forces on the Rhine, and H.M. Ships in Foreign Waters (address c/o G.P.O., London, E.C. 2) is $1\frac{1}{2}$ d. the first ounce and 1d. for each succeeding ounce or fraction. The charge to all other destinations is $2\frac{1}{2}$ d. the first ounce and $1\frac{1}{2}$ d. per ounce afterwards. Limits of size to Foreign Countries in the Postal Union,† except Egypt, 18 in. in any direction, elsewhere, $2 \times 1\frac{1}{2} \times 1\frac{1}{2}$ in., but in form of a roll, limits in all cases 30 in. \times 4 in. diameter. Max. weight 4 lb.

Post Cards

Postage $1\frac{1}{2}$ d. single, 3d. reply (See also p. 375). Reply Post Cards must have the heading "Carte Postale avec réponse payée" on first half, and on the second half (available only to the country of origin) "Carte Postale à réponse".

Reply Coupons

For the purpose of prepaying replies to letters, coupons (3d. each) may be bought at any Money Order Office in this country. Two coupons are exchangeable in any country in the Postal Union for stamps representing a minimum letter postage from that country to another, but must be exchanged within 6 months (2 months if both countries are in Europe).

Books, Newspapers, Samples, &c.

(a) **PRINTED PAPERS** Newspapers, Books, Catalogues, Photographs, Engravings, Music, and other wholly printed matter, $\frac{3}{4}$ d. per 2 oz. For Literature for the Blind, in other respects

* Including all places in the lists under "Imperial British Parcel Rates" below. This list applies also to Dubai and Kuwait on the Persian Gulf.

† Afghanistan, Bahrain, Friendly Is. (Tonga) John, M. east, Nigeria, Nyasaland, N. Rhodesia, Pitcairn I., Tregannu are not in the Postal Union.

REGISTRATION may be effected on packets to many countries (not U.S.A.) at the following rates—5d for £12; and 2d for every additional

* Rate to Dushare, Bunder Abbas, Langah, Mohammedrah, Dourad.

† Casablanca, Fez, Marrakech, Mazagan, Mogador, Rabat, Safi in French, La-ache, Tetuan in Spain's zone.

£12 up to 5s 11d for £400. COMPENSATION up to £1 is also given on uninsured parcels to or from Egypt, Newfoundland, India and the smaller colonies, with many larger foreign countries, except U.S.A. If certificate of posting is produced. Other securities, etc., can be insured by letter post, only valuable articles should be sent as insured parcels, or as "insured boxes" (see below) —

INSURED BOX POST—Jewellery and similar articles (not money, bearer securities, letters or commercial papers) may be sent in strong boxes by letter mail to Argentine, Austria, Belgium, Brazil, Danzig, Denmark, Egypt, France, Germany, Holland, Hungary, Italy, Luxembourg, Palestine, Portugal, Sarre, Sweden, Switzerland and Postage 2d per 2oz (minimum 6d); maximum weight 2lb, size 12x4x4 in. Customs declarations must be filled in. Insurance rates and limit as above.

CASH ON DELIVERY—A reciprocal service of "cash on delivery" of parcels has been established between the U.K. and various Overseas Dominions, Colonies and Protectorates, and certain Foreign Countries. Fees for collection, 4½d, for Trade Charges (amount to be collected) not exceeding £1, with 2½d extra for each additional £1 of Trade Charge up to the maximum, which is £60 (fee 5s 6d) but in some countries £20 or less. Addressee has generally also to pay on delivery. Besides Customs if any, 6d, (as in U.K.) for not prepayable. If Trade Charge cannot be collected at first

one alternative address, parcel is returned at sender's expense unless abandonment is definitely requested.

INTERNATIONAL EXPRESS SERVICE—Delivery by special messenger of correspondence (locally including parcels) to or from certain countries (e.g. West and Central Europe except Spain), and Union of S. Africa, or certain towns in the same, has now been arranged. *Ed* is paid by the sender, the rest by addressee.

AIR MAIL SERVICES change frequently; latest information should therefore always be obtained from the nearest Head Office. Their general scope, however, may be gathered from the following table, showing services which have been in operation at one time or another (during 1924, those marked * have been discontinued during the winter. The hour of closing of mail at G. P. O., London, is given, and relative time of delivery is shown after each destination.

(1) Every week-day from London:—(a) at 3 a.m. to Paris (central arrondissements) 10.30 a.m. places near Paris same day, 11 a.m. (Paris same evening, most of France next morning), saving up to 24 hours by connecting with night mails from Paris to Spain, Austria and Balkan Peninsula, *up* at 3 a.m. to Cologne (same day) at 4.45 a.m. to Brussels (same evening, Antwerp ditto), Cologne (afternoon or evening) with saving for occupied areas, Bavaria, &c. (c) at 8 a.m. Amsterdam (same afternoon), Hanover, Hamburg, Berlin (same afternoon or evening, if * express), Dresden, Breslau, &c. (first post next morning) with saving (by connecting with night mails from Berlin) for Czechoslovakia, Austria, Hungary, Poland, Russia and East Baltic States, at 9.15 p.m. to Rotterdam, Amsterdam (same evening), with saving up to 24 hours for Germany, Berlin (next morning) and countries beyond. (2) Each week-day except Saturday:—(a) at 7.30 a.m. to Copenhagen (next afternoon) and South Sweden (red Hamburg (Copenhagen morning air service), (b) at 6.0 p.m. by ordinary route to Rotterdam, thence by air to Hamburg (next afternoon), Copenhagen (next evening) with saving, by connecting with night mails from Copenhagen, up to 24 hours for Norway and Sweden (Christiana afternoon and Stockholm forenoon, of next day but one), and for Finland, (c) Daily 6.0 p.m. (Sunday 7.0 a.m. with late fee) by air to Toulouse (for *Andalucía*, and evening inclusive) for Morocco (Tangier, Tetuan, Larache, and French zone), saving 2 4 days, (d) *Oran* (Fri evening or 4th morning) for Western Algeria (with saving up to 8 hours for Algiers), (e) Alternate Thursdays, 6.0 p.m. by air to Cairo to Baghdad (saving up to 16 days for Iraq and Persia N and W—Tehran, Isfahan, &c., as far as Bushire).

It should be noted that where ordinary mails are frequent, and the air passage short (e.g. to France, Holland and Belgium), time is saved by air mail only if packet reaches G. P. O., London, between the closing of the ordinary mail (see p. 379) and that of the next following air mail. "Air Mail" letter which would arrive sooner if forwarded by the ordinary mail are so forwarded unless specially marked otherwise.

The special Air Fee is (a) 3d. per oz. France, Belgium, Holland, Germany (occupied areas) and countries served by France, (b) 3d. per oz. Germany (unoccupied) and countries served by Air Mail to Germany, (c) 4d. per oz. Denmark and countries served by Air Mail to Denmark. Except parcels (see below) any kind of packet can be sent by Air Mail, registered or unregistered, but cannot be insured. "By Air Mail" must be very prominently marked (preferably the special labels obtainable gratis should be used), and the Air Fee *prepaid* as well as (if any) the express fee *ed* (see preceding section).

AIR PARCELS are accepted for (1) Paris only (not the rest of France), delivery by Imperial Airways Ltd. (charge to addressee 2.75 fr. within, 6.50 fr. without the city walls, for customs clearance and delivery) Fee (inclusive of everything else) non-express, 1s. 6d. to 4s. 3d., "express," 1s. 1s. to 6s. (1) to Holland (1st part) saving 2 3 days. Fees (all inclusive): 3d., 3d., 4d., 6d., 1d. U.S., 6s. 6d. (2) Germany (incl. Cologne), Rhine Army, 2s. to 8s., civil addressee, 3s. 6d. to 8s. 6d.

MONEY AND POSTAL ORDERS.

The Chief Money Order Office is at Manor Gardens, Holloway, N. 7.

ADVICE OF PAYMENT 2d. for inland, 3d. for foreign and colonial orders (to certain countries). Payment may also be stopped. Fee, 4d.

Inland Ordinary Money Orders.

The poundage charged is, for sums not exceeding £3, 4d., £10, 6d.; £20, 8d.; £30,

10d., £40 (maximum), 1s. No order may contain a fractional part of 1d. The rules and regulations are on the forms issued. *No poundage is charged for M. O. in payment of many Customs, Excise and Inland Revenues (including Income Tax) if the official "notice to pay" is produced, or of Savings Certificates.*

Inland Telegraph Money Orders

Money may be transmitted by Telegraph Money Order from any Money Order office which also despatches telegrams, and may be made payable at any Money Order office which also delivers telegrams.

Poundage at the same rate as for Ordinary Inland Money Orders, *plus* supplementary fee of 2d., and cost of official Telegram of Advice. If the order is to be delivered at payee's address any charge for postage must be prepaid.

Postal Orders

British Postal Orders are issued and paid at nearly all post offices in the United Kingdom during the ordinary hours of business on week-days. They are also issued and paid in almost all parts of the Empire, in Egypt, Palestine, and at the British Agencies in Morocco (tip. 378 except Rabat) including Tangier. They are paid (but not issued) at 53 Canadian offices, in Iraq, and (to soldiers only) in Australia. They are issued, with a counterfoil to be retained by the sender, for every 6d. up to 20s., and for 21s. Poundage: 6d. to 2s. 6d., 1d., 3s. to 15s., 1½d., 15s. 6d. upward, 2d. The name of payee must be inserted. They must be presented for payment within 3 months from last day of the month of issue, or a fresh poundage will be charged. Adhesive British Postage Stamps (not perforated, and not exceeding 3 in number) may (except for Canada) be affixed to the face of an order, to increase its value by 1, 2, 3, 4 or 5 pence. Half-pence are not paid.

Ordinary Money Orders Abroad

These, which are payable in nearly all countries, should be taken out 1 or 2 days before despatch of mail. Poundage, £1, 6d. £2, 1s., £3, 1s. 6d., and thereafter 3d. per £1 or part thereof. (Special rates temporarily chargeable for M. O. to Australia, South Africa and Mozambique, owing to exchange conditions; at present 6d. per £1 or part thereof.) Limit of amount, £20 or £40. Period of validity, 6-12 months.

Telegraph Money Orders Abroad

Only to certain countries, e.g. to Canada, India and U.S.A., and to certain towns only in others, e.g. Australia, New Zealand, South Africa, Egypt and Palestine. Poundage at same rate as for Ordinary Money Orders abroad, *plus* cost of official Telegram of Advice (at deferred rate if desired, in most British Possessions), *plus* supplementary fee of 6d. for Newfoundland and foreign countries, 1s. for British Possessions, Egypt and Palestine (for Canada 6d. if the telegram is sent at full rates).

TELEGRAMS.

Inland.

Telegrams may be handed in at a telegraph office, or, if prepaid, posted or handed to a rural postman. Rate throughout British Isles, 12 words or less 1s., each further word 1d.; the address, which may be telephonic (e.g., "Jones, London North 154"), is charged for; (an abbreviated address may be registered for £3 per annum, and is then inserted free of charge in

Sell's Directory, published at 8 & 9 Johnson's Court, Fleet Street, London, E.C. 4). Payment in stamps affixed to the form by the sender. Original or redirected telegrams, or replies, handed in on *Sundays*, and (except in Scotland) *Good Friday*, or *Christmas Day* are charged 6d extra. Replies may be prepaid up to 48 words, the voucher issued to addressee may be used, or its value refunded to sender, within 12 months. Receipt for charges 1d. Certified copy 6d, sometimes more. The charge includes delivery within 3 miles (1 in Irish F.S.) of the nearest telegraph office, or, if this be a head office, within the town postal limits—beyond that limit the charge is 6d per mile, calculated from the free delivery limit, to be paid by sender (in I.F.S. by addressee). Telegram forms are issued gratis. Usual hours 9 a.m. to 7 p.m., larger offices 8 a.m. to 7 p.m. (see below and p. 383). For Sunday and Holiday telegrams, see above, below, and p. 383.

LATE FEES.—A telegram may often be got through from an office which is open to one which may, perhaps, be closed for telegraphic business by payment of the following extra fees: 1s for the telegraphist, 1s for the messenger, and 6d an hour for the telegraphist if he has to wait for a reply. In the same way postmasters may accept telegrams after the usual hours on payment of 1s for the postmaster, 1s for the telegraphist, and 1s for a messenger if it be necessary to call the telegraphist.

CONVENTIONS.—(1) Plain language, i.e. Latin or any modern European language, is charged for according to the number of words, all other words or unintelligible combinations of letters are charged one word per 5 letters. *The following count one word*—(a) All names of towns and villages in U.K. (not of branch or sub-office, or districts in towns, unless in addition to street name), (a) all names of railway and coastguard stations (not in communication with public telegraph), (3) words ordinarily written as one or with hyphen, including "couldn't," etc., (4) Names with prefix "St." "De," "De la," "O' the," "Mc," but not hyphenated surnames, (5) each five figures (th, &c., in ordinals count as two figures), (6) each initial, except London Postal Districts (p. 376), (7) — — — — — (8) initials (in address), which are one word each group, (9) signs of punctuation, and the symbols &c., but, &c., (10) counts as one and (11) as three figures, (12) names of telegraph offices abroad if and written in the form in which they occur in the International List of Telegraph Offices.

NIGHT TELEGRAPH LETTERS with full ordinary address, in plain language, for delivery (except on Sundays) by first morning post, may be sent before midnight between towns marked *z* below (with the addition of Inverness and London) and at 1s for 36 words or less, and 1d per 3 words beyond 36.

TELEGRAPH OFFICES ALWAYS OPEN. London—Central (Newgate St.), and West Strand st., and the following railway stations (nd) Kings Cross (G.N.), London Bridge (G.E.), Liverpool Street (G.E.), St. Pancras, Stratford Marylebone. *Some Head and other Telegraph Offices in the Provinces*—Birmingham st., Bradford t (exc Sun to 8.30 a.m.), Brighton (exc Sun to 7 a.m.), Bristol st., Cardiff st., Derby (Midland Rd.) t (exc Sun 3.30-9, 10-8.15), Dover (for despatch) t, Exeter (exc 3-7 a.m., Sun to 7, 10-5), Holyhead t, Hull st., Leeds st., Liverpool st., Manchester st., Newcastle on Tyne st., Newport (Mon) t, Norwich t (exc 12.7 a.m., Sun 12-8.30, 10-7), Nottingham (for despatch) t, Plymouth t, Portsmouth t, Sheffield st., Southampton Docks (branch office) t, Swan sea t, Bournemouth—Bournemouth st., Glasgow st., and (for despatch), Aberdeen t, Dundee t, Ireland—Belfast st., Cork t, Dublin st., Queenstown. *Mo t Wireless Stations (nd), and Railways or Signal Stations at* Alnmouth, Bedford (M.R.), Berwick, Blackburn a, Bradford (M.R.) a, Broxbourne (exc Sun 6 a.m. to 7 a.m.), Cambridge (G.E.), (exc Sun noon 11.5-1.30 a.m.), Carlisle (L.M.S.), Chesham, Chesterfield (L.M.S.), Chevington, Christon Bank, Crewe*, Darlington (nd), Derby, Doncaster, Durham (exc Sun), Ely (Sun 8.15-12.15 and 4.15-8.15 only), Exeter (G.W.), Ferry Hill a, Fishguard Harbour, Flixborough Head a, Fleetwood (exc Sun, morn boat train—Mon, 6 a.m.), Folkestone Harbour (exc 1.30-4 a.m., Sun also 1.30-4.30 p.m., d. Abroad.

In the following list the names of countries or places are followed first by the ordinary or FULL RATE per word (minimum charge, 10d) from any part of the United Kingdom, whether transmitted by cable or by radio-telegraphy (wireless). Various OTHER RATES are then given (indicated by signs referred to in footnotes).

Besides the *Imperial Cable* to Canada, W. Indies, Australia, New Zealand, etc., the State maintains several public wireless services to the Continent, as well as that from Oxford to Cairo. (See pp. 382-3).

Rules for counting of words are more or less as for inland. In address, name of terminal office, coming under class (8) p. 380 counts as one word. In plain language telegrams (which must be in roman characters) 15 letters in each 10 in cipher 10 in the system number counting as one word. *Prepaid Replies* (must not 10d) are allowed from most places, but not at any Reduced Rate. The indication for this 'RP', counting as one word, must be paid for (RP if Urgent qv).

URGENT TELEGRAMS or replies at three times Full Rate are allowed to or from all places or regions in the list except those followed by the sign *nx* and *except* by Marconi or North Atlantic Cable Co. Minimum charge, 2s 6d, the word 'Urgent' must be paid for. Where the Urgent service is not available, *PREPAID* Telegrams are accepted for certain places under which in the list, the sign *p* occurs, followed by the indication per word beyond ordinary rate.

REDUCED RATES (not available for radio telegrams). (1) *Deferred Telegrams*, in plain English (indication LCO, charged one word) French (LCP) or sometimes language of country of destination (LTD), are accepted at (usually) half the Full Rate on condition that they may, if necessary, be deferred during transmission in favour of Full-rate Telegrams. This service applies to all regions, places or rates in the list except (i) Europe, (ii) those marked thus *z*. When the deferred rate is other than half the full rate it is given next after the sign *d*. (2) *Night Letter Telegrams*, charged at about quarter rates, must be in English or French. *Week-end Letter Telegrams* (TWT) normally delivered on Monday mornings, must reach Central Telegraph Office London, by Saturday night. *Night Letter Telegrams* (NTL) may be handed in at any time of any day for delivery next morning (unless it is Sunday). *Day Letter Telegrams* (DLT) are for delivery not less than 48 hours after acceptance. The indication (shown above) must be paid for (one word) according to the kind of letter telegram sent. The signs *nd*, *nd* in the list below follow the full rates of the countries to which the respective

z Night Telegram Letters allowed (see above)

z Express Sunday Delivery, Service 4, p. 383

z Accepts only urgent telegrams and telegrams from railway passengers on Sundays in at Wigan between 7 p.m. and 8 p.m. on week days also

z Railway, &c., Station offices are purely telegraphic, and unless marked *d* do not deliver outside the station, *nd* = no delivery at all, despatch only

z Except 6 a.m. Sun—6 a.m. Mon

services extend, the two prices following the sign denoting (i) the cost of the first 20 words or less, (ii) the rate for each further word

EUROPE—*Albania* -1/4, *Andorra* -1/2; *Austria* -1/2, *Belgium* -1/2 (c-1/4 m), *Bulgaria* -1/4 (c-1/3 m), *Czechoslovakia* -1/2, *Danzig Free City* -1/3 (c-1/4), *Denmark* -1/2 (c-1/3 m), *Estonia* -1/2 (c-1/3), *Finland* -1/4 (c-1/3 m), *France* -1/2, *Germany* -1/2 (c-1/3 m), *Gibraltar* -1/3 (c-1/6), *Greece* -1/3 (c-1/3 m), *Italy* -1/2 (c-1/3 m), *Latvia* -1/4 (c-1/2 m), *Lithuania* -1/2, *Luxembourg* -1/2, *Norway* -1/2 (c-1/3 m), *Poland* -1/2, *Portugal* -1/2 (c-1/3 m), *Romania* -1/4, *Russia in Europe and Caucasus* -1/2 (c-1/6), *Sarajevo* -1/2, *Spain* -1/2 or -1/4 (c-1/2 m), *Sweden* -1/2 (c-1/3 m), *Switzerland* -1/2, *Turkey in Europe* -1/6, *Yugoslavia* -1/2

§§RADIOTELEGRAMS.

The Address of a radiotelegram should contain name of addressee, of ship, and of coast-station to be used. Messages for H. M. Navy for transmission through coast stations in Great Britain and Ireland to ships known by the sender to be within 50 miles of the British Isles must have in the address "Warship" followed by the name of the vessel and the word "Wireless." Such messages will be routed by the Post Office to the appropriate coast station after enquiry of the Admiralty. Messages for transmission through coast stations abroad must have in the address "Warship" followed by the name of the vessel and the name of the coast station through which the message is to be sent. If the coast station is not known, the sender should enquire of the Secretary, Admiralty, London, by telegram with prepaid reply, or by letter stating when it is proposed to send the radiotelegram. Radios to H. M. ships cannot be sent through Oxford Radio. In the case of the Mercantile Marine "Steamship" should precede the name if confusion with name of some telegraph office is otherwise possible, if name of nearest coast station is uncertain the message may yet be got through by other means (see Notes 1 and 2), while if the name of

1 No Deferred Rate See "Reduced Rates (A)," p. 380.
2 Via Marconi 2d (def. rate 1d) less.
3 Via Marconi 4d (def. rate 1½d) less.
4 Via Marconi 4d (def. rate 1½d) less.
5 Via Brazilian Land Lines 3d (def. rate 1½d) less.
6 Via Marconi 2d less than full rate.
c m—Coast station charges See "Radiotelegrams" below.

d, p.—See "Deferred Telegrams" and "Preferred" do respectively (p. 380).
nu.—See "Urgent Telegrams" p. 380.
tr—"TR," charged as one word must appear in address.
twt, dlt, dlt.—Letter Telegrams See "Reduced Rates (B)," p. 380.
vm, w.—Denote "via Marconi," "via Indo-European Co.," respectively.
w.—Via Egypt-India-Aden (def. rate where any, 2½d) less.
p.—Denotes rate via Pango-Slavic.
† The term "Radiotelegram," as used in the official Postal Guide, denotes only a message sent by radio at sea, and includes no other kind of radiotelegraphic message.

the ship is not known, sufficient particulars of the voyage (names of ports, &c.) may be substituted, at least a *via*, under services *B1*, and *B3* only. *Prepayment of Replies* is admissible except for messages through Athens or St Pierre and Miquelon. *Counting of words*, etc., is subject to the rules for ordinary Telegrams Abroad, the name of ship and (if written in standard form) name of coast station count as one word each.

The *Cost of Transmission (per word)* from any telegraph office in the same time zone, *or* for a coast station message to the coast station (denoted by *t* below), coast station charge (*c*), and ship charge (*s*). The charges and services may be classified as follows—

A ORDINARY DISTANCE. To all ships. **1 Through Post Office coast stations** (range 200-500 miles) (*t*) + (*c*) = *1d* ship charges (*s*) are as follows—(i) H.M. Navy, *nil*, (ii) ships of most nationalities, including British, *4d*, (iii) Argentine, Belgian, Danish, Dutch, Greek, Norwegian and Portuguese ships, *4d*, but with a minimum *3s 4d*, (iv) Spanish and Swedish ships *2d*, minimum *2s 6d*, (v) German ships, *4d*, with a minimum equal to *6d*. **2 Through coast stations abroad** (*t*) = rate for *full rate* telegram to the country in which coast station is situated (see list under heading Telegrams Abroad, p. 380), (*c*) which varies from $2\frac{1}{2}d$ to *9d*, is given in the same list, after the name of a country or place with a coast station, preceded by the sign *c* (see Note 3), (*s*) is the same as given under *A1* (s).

B LONG-DISTANCE COMMUNICATION with certain ships beyond range of ordinary stations. **1 Via P.O. station "Devises adio"** (range about 1,500) to *or* from certain ocean liners (at present about 228) rates same as under *A1*. **2 Via P.O. station "Oxfordradio"** (which must appear in address) at night only (range about 3,000 miles or more) to the above mentioned 228 liners as well as 520 others, but not H.M. Navy, the ships are unable to reply to this station. Rates (*t*) (*c*) and (*s*) = same as under *A1* (s). **3 Via "Lignes maritimes"** (which must appear in address) to those of the 228 liners mentioned under *B1*, which are in the N Atlantic services, when out of range of *Devises*, rates (*t*) = *9d*, (*c*) = *6d*, (*s*) = same as under *A1* (s).

C REDUCED RATES FOR CROSS CHANNEL AND SHORT VOYAGE SHIPS **1 Through home stations** the inclusive (inland, coast and ship) rates per word are as follows, in each case subject to a minimum charge equal to that for 10 words, (*c*) to 333 words, $3\frac{1}{2}d$, (*d*) to 433 words, $5\frac{1}{2}d$, (*e*) to Mecklenburg PDA, *Gianie Assaua PDE*, *Prins Hendrik*, *Prinses Juliana PDE*, $2\frac{1}{2}d$, (*d*) to *Bata*, *Peris II*, *III*, *IV*, *V*, *VI*, $3d$. **2 Through foreign coast stations** for the same groups of vessels respectively (*a*) Charges calculated as under *A1* but ship charge is reduced to *1d*, with minimum of *10d*. (Exceptions in group (*a*) are (i) To the 8 Dovei Ostend Packets, through Antwerp or Ostend, $t = 2\frac{1}{2}d$, $c + s = 2s 8d$ for 10 words or less, *2d*, each further word, (ii) To 15 cross-Channel boats through Roulemez, Cherbourg or Havre, $t = 2\frac{1}{2}d$, $c = 1\frac{1}{2}d$, $s = 1d$. (*b*) Charges calculated as under *A1*, but ship charge is $1\frac{1}{2}d$, with a minimum of *1s 3d*. (*c*) and (*d*) Through Scheveningen Haven the all *inclusive* charge per word is (*c*) 10 words or less ($3s 4d$) + ($2\frac{1}{2}d$ per word) over 10 words, $6\frac{1}{2}d$ per word, (*d*) 10 words or less ($3s 9d$) + ($2\frac{1}{2}d$ per word) over 10 words, *7d* per word.

NOTE 1—In the case of services *A1* and *B1* but not *C1*, the word "Wireless" may be substituted for name of P.O. coast station, and must be so substituted in messages for one of H.M. ships known by the sender to be within 250 miles of the British Isles (service *A1*).

NOTE 2—Messages intended to pass through ordinary distant coast stations in Newfoundland or coast coast of Canada (not Louisbourg) may have "Montreal" in place of the name of any particular station, similarly those for coast stations on eastern coast of Canada (except Cape Race) or either coast of U.S.A. may bear "New York". The total inclusive charge in both cases is *1s 11d* per word.

NOTE 3—If in follow the coast station charge shown after *c* in list, and not otherwise, this charge is subject to a minimum equal to the cost of 10 words, but if a number follow the *m*, then the minimum is equal to the cost of that number of words. Thus *c 2s 8d* denotes a coast-station charge of *2d* per word, with a minimum of *16d*.

SUNDAY AND HOLIDAY ARRANGEMENTS.

ON SUNDAY throughout the U.K. no Parcel Post, Money and Postal Order, or Savings Bank business is transacted, nor is there any delivery even to callers of letters, etc., except by Express Services (*4*) and (*6*) before 10 a.m. in London, all but 24 post offices are closed. Those open in the morning, 26 of them (including those mentioned in the next paragraph, on p. 380, or on p. 214, also in evening stations, telegrams) 62 stations, chiefly S of the Tinnies, besides those on p. 380, send telegrams, mostly at train times. There is a general collection for Mon mails and deliveries between 10 p.m. and midnight. Correspondence for Sun night mails, if not posted in time for last Sat. collections, must bear an extra $2\frac{1}{2}d$ stamp (late fee) and be either (*a*) posted in special boxes at one of 24 among the 28 offices already referred to as open on Sundays, or at one of 8 other offices up to times ranging from 4.45 p.m. to 6 p.m. lit may be registered at the counter of the same 24 offices not less than 5 minutes before closing of box, or (*b*) posted in special boxes, open from Sat. night till 6 p.m. at Purvis, at St. Pancras, Victoria (S.E.), or any of the railway termini listed under "Late Fees, Inland Mails" (p. 370), or (*c*) posted at sorting carriage at the appropriate terminus (same list p. 376, but for Cannon St. substitute (Basing+)) up to times ranging from 4.45 p.m. to 3.30 p.m. (registration may be effected at the sorting carriage, up to the same times on payment of *1s 6d* late fee). *Outside London* all Head Offices and most country telegraph Sub offices open from 9-10.30 a.m. (Scotland 9-10 a.m.) for stamps, telegrams registration, but all town Sub offices and usually all non telegraphic offices, are closed. Many railway stations send telegrams at train times. There is a collection and night despatch in most towns.

Express Sunday Delivery (Service *4*) is available *only* in and to London and a few Head Offices in the Provinces. The offices marked *a* on p. 380 together with the following in London, complete the list G.P.O. W and J.W. District Offices, and among Branch Offices—Camberwell Green (Clapham Common, Hammersmith Broadway, Holloway, Stratford, and Swiss Cottage, Except locally to Belfast, packets (other than parcels) are accepted up to time of posting for general Saturday night mails, fee *1s* besides postage and usual express fees (calculated in London from G.P.O.—*6d*, to *8s 6d*).

Express Delivery by messenger of a telephoned message (Service *5*, p. 374) is on Sundays restricted to the London Postal District, and if addressee is a telephone subscriber in the London Telephone Area, a messenger reaching "Central Telegraph Office, London, E.C. 1," early on Sunday morning will be telephoned to him, if the envelope be marked conspicuously "For Sunday telephone delivery" with a broad perpendicular line back and front, and if the usual postage be prepaid on the envelope, and *9d* per 30 words or part thereof be paid by stamps affixed to the enclosed paper bearing the message.

CHRISTMAS DAY AND GOOD FRIDAY—In London there is one morning delivery of letters, parcels &c., on Christmas Day, none even to callers, on Good Friday. Offices open on Sundays are usually opened on these days also for the same kind of business, but in some cases for shorter hours. *Outside London*, in Scotland business is as on week days. In England and Ireland there is no delivery of letters and parcels, no acceptance of parcels, and no Express (Service *1*). Offices open on Sundays.

BANK HOLIDAYS—London. One morning delivery of letters and parcels. Collection of letters, evening (from Head District and Branch Offices only) and late (general) parcels are accepted, in the morning, but are not despatched. Head District Offices (pp. 214) open for most business except Savings, ordinary M.O. P. Drafts and Pensions. *Outside London*, in Scotland, business is generally as usual. In England and Ireland only one letter and parcel delivery and generally one despatch (early in rural districts) no Savings Bank, ordinary M.O. P. Draft or Pension business is transacted. Smaller offices are closed, the more important open in morning (Postal orders), some also in evening. Telegraph offices nearly all open 9 to 10.30 a.m. and generally at the same hours, if any, as on Sunday evenings.

PUBLIC HOLIDAYS in Scotland Telegraph as usual (delivery only up to 10.30 a.m. from rural sub offices under Glasgow), other business as English Bank Holidays. One delivery only on Local Holidays. On New Year's Day one delivery of letters and parcels, no parcel, M.O., P.O. &c., and hours as on Sunday.

384 Customs Tariff of Great Britain and Northern Ireland (1924-1925).

Showing the several Articles subject to Import and Export Duties in Great Britain and Northern Ireland, and the Duty levied upon each Article, according to the Tariff in operation upon the 1st day of November, 1924

INCOME TAX.

In the £

The tax is chargeable under five Schedules, A, B, C, D, and E, and the standard rate for the year 1924-25 is

Schedule A: Lands, Tenements, &c. 0 4 6

Owner must allow deduction from next payment of rent when tax paid by tenant.

Relief is given in certain cases in respect of Income Tax under Sch. A to the extent of $\frac{1}{2}$ part of the assessment in the case of lands, and in the case of houses, where the amount of the assessment—

Does not exceed, £40 $\frac{1}{2}$
Exceeds £40, but not £100 $\frac{1}{4}$
Exceeds £100. { £20 plus $\frac{1}{2}$ of amount in excess of £100

Allowance to Owners of Land and Houses, for average cost of maintenance, repairs, insurance and management, may be claimed in addition. Five years' average taken

A Clergyman or Minister using part of his house mainly for his duties may obtain an allowance not exceeding the tax on one-eighth of the rent, or annual value

Schedule B: In respect of the Occupation of lands used for the purposes of husbandry only, or mainly for those purposes, on an amount equal to the Annual Value, or, by special request, if made before 5th June (5th August in Scotland) in the current income-tax year, on profits of husbandry, as in case of Trades, under Schedule D. In the case of all other lands on an amount equal to one-third of the annual value

Schedule C: Dividends or Annuities from public revenue (Government Stocks, &c)

Schedule D Trades, Professions, Remittances from Abroad, Interest, &c.

Schedule E Salaries, pensions, and other emoluments of Officers of Army, Navy, Civil Service, Ecclesiastical Bodies, Corporations, Public Companies, &c

LIFE INSURANCE—Allowance of duty may be claimed on the amount of premiums paid for insurance of self or wife in approved Companies legally carrying on business in the United Kingdom, if not exceeding one-sixth of the net personal income, but the amount allowable in respect of any premium for securing a capital sum on death not to exceed 7 per cent of the actual sum assured, nor in respect of any premium for securing any other benefits, more than £100 in all

RESIDENTS ABROAD—No exemption or other relief is given to persons not residing in the United Kingdom. Exceptions British subjects, present or former servants of the Crown, widows whose late husbands were in the service of the Crown, missionaries, servants of native States under British protection, residents in the Channel Islands or the Isle of Man, and persons, previously resident in the United Kingdom, residing abroad for the sake of their health or the health of a member of their family

DOMINION INCOME TAX—Relief is granted under certain conditions in the case of a taxpayer who has paid, or is liable to pay, United Kingdom Income Tax on any part of his income, and who proves that he has paid Dominion Income Tax for the same year in respect of the same part of his income.

SCHOLARSHIPS—Income from a scholarship held by a person receiving full-time instruction at a university, college, school, or other educational establishment is exempted from Income Tax (including Super-Tax).

STANDARD RATES OF INCOME TAX—The Income Tax year is from April 6 to the following April 5. The following were the standard rates for the years mentioned—

	£	s	d
1907-8 and 1908-9	0	1	0
1909-10 to 1913-14	0	1	2
1914-15	0	1	8
1915-1916	0	3	0
1916-17 and 1917-18	0	5	0
1918-19 to 1921-22	0	6	0
1922-1923	0	5	0
1923-1924	0	4	6

SUPER TAX—An additional duty of Income Tax imposed at the following rates on persons whose total incomes exceed £2,000—

In respect of the first £2,000	Nd
In respect of the excess over £2,000—	
For every £ of the first £500 of the excess	0 1 6
For every £ of the next £500 of the excess	0 2 0
For every £ of the next £1,000 of the excess	0 2 6
For every £ of the next £1,000 of the excess	0 3 0
For every £ of the next £1,000 of the excess	0 3 6
For every £ of the next £1,000 of the excess	0 4 0
For every £ of the next £1,000 of the excess	0 4 6
For every £ of the next £12,000 of the excess	0 5 0
For every £ of the next £10,000 of the excess	0 5 6
For every £ of the remainder of the excess	0 6 0

Notes on Income Tax.

Under the Finance Act of 1920 a radical alteration was made in the method of granting relief in the Income Tax in favour of earned income as compared with investment income, and in the method of graduating the burden of the tax according to the size of a taxpayer's income and his family responsibilities. The previously existing exemptions, abatements, and reliefs were replaced by the various reliefs set out below. In introducing the new system, the Act employs two terms not previously used in connection with the Income Tax, viz., "assessable income" and "taxable income".

"Assessable Income" means, in the case of "earned" income, the amount of such income as computed for Income Tax purposes, after deducting the amount of the "earned" income allowance mentioned below, and in the case of other income, the actual amount of such income as computed for Income Tax purposes.

"Taxable Income" means that part of the "assessable income" upon which Income Tax is

actually charged, that is, the "assessable income" less the various deductions referred to below.

Deduction in arriving at Assessable Income.

Earned Income Allowance.—The differentiation in favour of "earned" income is made, not as heretofore by reducing the rate of tax chargeable upon such income as compared with investment income, but by deducting one-tenth of the "earned" income in order to arrive at the assessable income. The deduction is given irrespective of the amount of the total income, but must not exceed £500 for any one individual. The "assessable income" of a taxpayer is, therefore, his total income, as computed for Income Tax purposes, after making the appropriate deduction in respect of any "earned" income.

Total Exemption.—Exemption from tax may be claimed where the total assessable income does not exceed £135, or, in the case of an individual whose wife is living with him, £225. Where the income is wholly earned, these limits are equivalent to £150 and £250 respectively. See above.

Deductions from Assessable Income in order to arrive at Taxable Income.—Where the taxpayer is not totally exempt, the following deductions may be claimed from the total assessable income in order to arrive at the "taxable income". The deductions may be claimed irrespective of the amount of the taxpayer's total income.

Personal allowance may be claimed of £135, or, in the case of an individual whose wife is living with him, £225.

Wife's Earned Income.—When a taxpayer's total income includes any earned income of his wife, the personal allowance of £225 is increased by a sum equal to nine-tenths of the amount of such earned income, subject to a maximum additional allowance of £45.

Deduction for a Widower's (or Widow's) House-keeper taking Charge of Children.—A deduction of £60 may be claimed, under certain conditions, by a widower who has living with him a female relative for the purpose of having the charge and care of any child or adopted child of his in respect of whom the deduction for children (see below) is given or by a widow who has a female relative resident with her for the like purpose. If the widower or widow proves that he or she has no such female relative who is able or willing to take such charge, the same deduction may be claimed in respect of some other female person employed for that purpose.

Deduction in respect of Widowed Mother, &c., taking Charge of Children.—A deduction of £60 may be claimed, under certain conditions, by an Unmarried Person who has living with him and maintains at his own expense either his mother (being a widow or living apart from her husband) or some other female relative, for the purpose of having the charge and care of any brother or sister of his in respect of whom the deduction for children or adopted children (see below) is given.

Deduction for Children.—A deduction may be claimed in respect of each child, step-child, or adopted child under the age of 16 years, or who, if over that age, is receiving full-time instruction at any university, college, school, or other educational establishment. The deduction allowable is £36 in respect of one child, and £27 in respect of each additional child for whom the relief is due. No deduction is, however, allowed in respect of any child or adopted child who is entitled in his or her own right to an income which, after excluding any income to

which the child is entitled as the holder of a scholarship, bursary, or other similar educational endowment, exceeds £40 a year

Deduction in respect of Dependent Relatives—A deduction of £25 may be claimed in respect of (a) any person whom the taxpayer maintains at his own expense, and who is a relative of his or of his wife and incapacitated by old age or infirmity from maintaining himself or herself, or (b) his or his wife's widowed mother, whether incapacitated or not, or (c) a daughter who is resident with the taxpayer, and upon whose services he is compelled to depend, by reason of old age or infirmity. The deduction under (a) or (b) is conditional, however, upon the income of the dependent relative not exceeding £50 a year. The deduction applies in the case of a female taxpayer, with the substitution of "husband" for "wife" above.

Rates of Tax chargeable on the "Taxable Income"—The following provisions as to the rates of tax chargeable on the taxable income (i.e. that part of the income on which tax is actually charged) apply, *whatever the total amount of the income*. The first £225 of the taxable income is chargeable at half the standard rate of tax, i.e. for the year ending April 5, 1925, at 2s 3d in the £. The remainder of the taxable income is chargeable at the standard rate of tax, i.e. at 4s 6d in the £.

Relief in respect of Life Assurance Premiums—Where allowance is due in respect of premiums paid for Life Assurance or for contracts for Deferred Annuities, the allowance is deducted from the amount of tax arrived at under the preceding paragraph, and calculated at following rates—One-half the standard rate in the £ on the amount of the premium paid on policies taken out since June 22, 1916, irrespective of the claimant's total income, and on policies taken out before June 22, 1916, a deduction of tax at one-half the standard rate in the £ is allowed on the premiums paid by a claimant whose income does not exceed £1,000, of three-fourths of the standard rate in the £ where his income exceeds £1,000 and does not exceed £2,000, and at the standard rate in the £ where his income exceeds £2,000.

Lease of any kind not specially charged

1 0 0

Agreement for lease not exceeding 35 years, same as actual lease.

* Section 15 of the Revenue Act, 1911, provides that in cases where the consideration or any part

of the consideration consists of any money, stock, or security (other than rent), the amount or value of which does not exceed £500, and the instrument contains a certificate that the transaction does not form part of a larger transaction or of a series of transactions in respect of which the consideration other than rent exceeds £500, duty shall be charged at half the rates set out under the heading "Conveyance or Transfer on sale of any property," &c.

The Section, however, does not apply in any case where part of the consideration for any lease or tack consists of rent, and that rent exceeds £20 a year.

LEGACY AND SUCCESSION DUTIES.—Also see "Estate Duty."

If the deceased died on or after the 1st June, 1881, every pecuniary Legacy or Residue, or share of Residue, although not of the amount or value of £20, is chargeable with Duty by the 44 Vict. c. 12, s. 42.—Except in the cases of small estates, see note to Estate Duty.

No succession duty is payable where the principal value of all the successions on the same death does not amount to £100 (16 & 17 Vict. c. 51, s. 18).

Rates of duties payable on legacies, annuities, and residues, and of Succession Duties where deceased died before 1st July, 1883, or where Estate Duty, Finance Act, 1894, is payable

To Husband or Wife or Children of the Deceased, or their Descendants, or to the Father or Mother or other Lineal Ancestor of the Deceased (see above)

£1 per cent

Exceptions—Estates not exceeding £15,000—legacies and successions of less than £1,000 (£2,000 in the case of widow or child under the age of 21 of deceased), whatever may be value of whole estate

To Brothers and Sisters of the Deceased, or their Descendants £5 per cent

To Brothers and Sisters of the Father or Mother of the Deceased, or their Descendants £1 per cent

To Brothers and Sisters of the Grandfather or Grandmother of the Deceased, or their Descendants £1 per cent

To any Person in any other degree of collateral Consanguinity, or to a Stranger in Blood to the Deceased £1 per cent

Where deceased died on or after 1 July, 1883, and Probate or Estate Duty is not payable, Succession Duties for the relationships above are at rates of 1½, 4½, 6¾, 7½, and 11½ respectively

The Husband or Wife is chargeable with Estate Duty and Legacy and Succession Duty, and the Husband or Wife of a relation is chargeable at the rate at which the relation would be charged

Penalties—Persons paying or receiving any Legacy, Residue, or Share of Residue liable to Duty, without taking or signing the proper Receipt for the same, persons not giving notice of a succession, or not delivering an account, are subject to certain Penalties.

LETTERS OF ALLOTMENT AND OF RENUNCIATION
Less than £5, nil; £5 and upwards, 6d.

LETTERS OF MARQUE AND REPRISAL £5

LETTERS PATENT, GRANT OF, to any honour or dignity, viz.: Duke, £350; Marquis, £300;

Earl, £250; Viscount, £200; Baron, £150; Precedence, £100; Baronet, £100, *Congé d'élire* to elect an Archbishop or Bishop, £30; any other honour, dignity, or franchise, £30. Change of surname or arms, in accordance with will, £50, upon voluntary application, £10.

BIRTHS.

WHEN a birth takes place, personal information of it must be given to the Registrar, and the register signed in his presence, by one of the following persons — 1. The father or mother of the child. If they fail, 2. The occupier of the house in which the birth happened; 3. A person present at the birth, or, 4. The person having charge of the child. The duty of attending to the registration therefore rests firstly on the parents. One of them must, within 42 days of the birth, give to the Registrar by word of mouth the information needed to enable him to register, and must sign the register in his presence. If they fail to do this without reasonable cause, they will become liable to a penalty of forty shillings. In case of their failure, one of the other persons above named must give personal information and sign the register within the same period. If at the end of 42 days no one has given information and signed the register, the Registrar may write to any one of the above-mentioned persons, requiring him or her to come to him for that purpose, at a stated time and place. Any person who fails to comply with this requisition will become liable to a penalty of forty shillings. Not only will liability to a penalty be avoided, but the registration of a birth will be free when it takes place within 42 days (but in Scotland the period is 21 days), unless either of the persons above named sends to the Registrar a written request to come and register at his or her residence or at the house where the child was born, when the Registrar on so attending may claim a fee of one shilling. After three months a birth cannot be registered except in the presence of the Superintendent Registrar, and on payment of fees, amounting to five shillings, to him and the Registrar. After twelve months a birth can be registered only on the Registrar-General's express authority, and on payment of further fees, amounting to ten shillings. In Scotland, after the lapse of three months, it can only be registered on the authority of the Sheriff of the County. The regulation which provides that no birth in England and Wales could be registered after the lapse of seven years was revoked in 1925, but late registration cannot be allowed unless satisfactory evidence is supplied to the Registrar General. The only legal proof of age and place of birth is afforded by the civil registers, which the law now requires to be made as above described. In districts where the Notification of Births Act, 1907, has been adopted by the local authority, notice of every birth must (subject to a penalty in case of default) be given by the father, or person in attendance on the mother, to the district medical officer of health. The notice must be sent by post within 36 hours of the birth, and is to be in addition to, and not in substitution for the notices above mentioned.

Birth Control

The relative fertility of different occupations in England and Wales is shown by the following table, which gives the number of children per 1,000 married couples, when the age of the occupied husband is below 35 years —

Teachers	95	Policemen	153
Nonconformist ministers	96	Postmen	159
Church of England ministers	101	Carmen	207
Doctors	103	Dock labourers	231
Authors & Editors	104	Barnen	234
		Miners	258
		General labourers	438

Ireland	99,536	90,726	88,380
Total	1,193,864	1,062,735	983,589

BRITISH NATIONALITY.

The law as to British Nationality is mainly to be found in the British Nationality and Status of Aliens Act, 1914, as amended by certain Acts passed in 1918 and 1920. It is important to notice, however, that the first section of the Act of 1914—which defines a natural-born British Subject does not affect the status on any person born before Jan 1, 1915.

The following are deemed to be natural-born British Subjects, namely.

- 1 Any person born within His Majesty's dominions and allegiance.
- 2 Every person born out of His Majesty's Dominions, before Jan 1, 1915, whose father's father was born within His Majesty's Dominions, provided that the grandfather was, at the time of the father's birth, a British subject.
- 3 * Every person to whom a Certificate of Naturalization under the British Nationality and Status of Aliens Act, 1914 or of Re-Admission to British Nationality has been granted or who has acquired British nationality by special Act of Parliament or by conquest or annexation.
- 4 The wives (whatever their nationality of origin) of British subjects, save in certain cases where the man changes his nationality after marriage.
- 5 The children of naturalized British subjects born out of His Majesty's Dominions, provided that they comply with one of the following conditions —

(a) in the case of a child born before January 1st, 1915,

- (i) if a Certificate of Naturalization has been granted to his father or his mother (being a widow) before January 1, 1915, and he has become resident with such father or mother (being a widow) in the United Kingdom before that date while under age, or
 - (ii) if a Certificate of Naturalization is granted to his father or his mother (being a widow) after January 1, 1915 and his name is included therein
- (b) in the case of a child born after January 1, 1915,
- (i) if before his birth a Certificate of Naturalization had been granted to his father or his mother, or
 - (ii) if a Certificate of Naturalization is granted to his father or his mother (being a widow) after January 1, 1915, and his name is included therein

6 Any person born out of His Majesty's dominions whose father was, at the date of the birth a British subject, and who fulfils any of the following conditions—e.g., if either

- (i) his father was born within His Majesty's allegiance, or
- (ii) his father had a certificate of Naturalization, or

* See "Acquisition of British Nationality," p. 397.

- (iii) his father had become a British subject by reason of any annexation of territory; or
- (iv) his father was, at the date of the birth, in the service of the Crown, or
- (v) his birth was registered at the British Consulate within one year or, in special cases, two years or, in the case of a person born on or after Jan 1, 1925, who would have been a British Subject if born before that date, within 12 months after August 1, 1922.

A child of a British Subject is deemed to have been born within the allegiance if born anywhere where by treaty, &c., His Majesty exercises jurisdiction over British subjects.

A person whose British nationality depends upon his registration at a Consulate ceases to be a British Subject unless he asserts his nationality by declaration within a year after attaining 21, and abandons any other nationality he may have acquired.

7 A person born on a British ship

LOSS OF BRITISH NATIONALITY.—A British subject loses his British nationality —

- (a) if by any voluntary or formal act he becomes naturalized in a foreign country,
 - (b) if, in certain cases, he makes a declaration of alienage. These cases are —
 - (i) where a person is a British subject by reason of birth in His Majesty's Dominions and allegiance or on board a British ship and is also by birth or becomes during minority a subject of any foreign State,
 - (ii) where a person is a British subject, but was born out of His Majesty's Dominions, and
 - (iii) where a Convention has been made between this country and any foreign State, to the effect that any subject of that State who has been naturalized as a British subject may divest himself of that status,
 - (c) if during his minority his father loses British nationality in circumstances which involve the acquisition by the child of a new nationality,
 - (d) in the case of a woman, if she marries an alien.
- (N.B.) A woman who was originally a British subject and loses British nationality by marriage with an alien does not regain British nationality on the death of husband or the dissolution of her marriage. If in such a case she desires to resume British nationality she must apply for a Certificate of Naturalization.)
- (e) in the case of a person to whom a Certificate of Naturalization is granted after January 1, 1925, if the Secretary of State revokes the Certificate,
 - (f) if the territory of which he is an inhabitant is severed from the Crown, *e.g.*, the cases of the inhabitants of Hanover and Heligoland.

ACQUISITION OF BRITISH NATIONALITY.—An alien may acquire British nationality.—

- (a) by special Act of Parliament,
- (b) by the conquest, annexation, or cession of the territory of which he is an inhabitant;
- (c) in the case of a woman, by marriage with a British subject, and
- (d) by naturalization.

Naturalization.—All Certificates of Naturalization granted in the United Kingdom between May 13, 1870, and December 31, 1914, were granted in accordance with the provisions of the Naturalization Act, 1870. And this Act did not secure that a Certificate granted in any part of the Empire should be valid throughout the Empire.

Under the British Nationality and Status of Aliens Act, 1914, every person to whom a Certificate of Naturalization is granted in accordance with its provisions after Jan 1, 1925, is a British subject, not only in that part of the British Empire where the Certificate is granted, but also in the United Kingdom and in any Dominion which has adopted the Act, and in any other British Possession.

Persons naturalized prior to January 1, 1925, may, after that date, apply for a fresh Certificate of Naturalization under the new conditions.

In order to be eligible for the grant of such a Certificate in the United Kingdom, an alien must.—

- (a) during the eight years preceding his application have resided for not less than five years in His Majesty's Dominions (of which not less than one year immediately preceding the application must have been spent in the United Kingdom) or have been for not less than five years in the service of the Crown,
- (b) be of good character and have an adequate knowledge of the English language; and
- (c) intend to reside in His Majesty's Dominions or to enter or continue in the service of the Crown.

Instructions for the guidance of persons desiring to apply for a Certificate of Naturalization may be obtained free on application to the Home Office, Whitehall, London, S.W.

The fee payable to the Home Office in respect of the grant of a Certificate of Naturalization is fixed by the Government of the day, and is at present £20, of which £1 is payable on submission of the application and the remainder on the grant of the Certificate. The £1 payable on submission of the application is *not returnable*, whether or not a Certificate is granted.

N.B.—In the case of a woman who was a British subject previously to her marriage to an alien, and whose husband has died or whose marriage has been dissolved, the above requirements, both as to residence and as to fee, are relaxed.

STATUS OF ALIENS.—Property may be held by an alien in the same manner as by a natural-born British subject, but the title to such property does not confer any right on an alien to hold real property out of the United Kingdom, or qualify him for any franchise.

Aliens are not entitled to be tried by a jury *de medietate lingue*, but are triable in the same manner as if they were natural-born subjects.

UNDESIRABLE ALIENS.—An undesirable alien—*e.g.*, one who is without means, or who is a lunatic, or an idiot, or who has been guilty in another country of an extraditable offence—may be prevented landing in the United Kingdom. An alien may also be expelled from this country if he prove to be "undesirable" within the meaning of the Aliens Act, 1905. His Majesty may by Order in Council impose further restrictions on aliens (see Aliens Restriction Act, 1914 as extended and amended 1925).

ALIEN IMMIGRATION.

During the year 1922 a total of 316,159 alien passengers landed at United Kingdom ports, and 315,765 embarked for destinations overseas. The arrivals in 1921 were 294,569, and the departures 305,886, 1,997 were refused leave to land in 1922, as against 1,712 in 1921. The arrivals consisted of the following—

Residents returning from abroad	61,117
Passengers in transit to other countries	33,305
Visitors on holiday	127,380
Visitors on business	68,554
Foreign diplomatic and other missions	5,492
Seamen	11,029
Other passengers	9,387

Total . 316,159

BUSINESS NAMES REGISTRATION.

REGISTRATION OF BUSINESS NAMES ACT, 1916

This Act received the Royal Assent on 22 Dec., 1916, and its provisions were explained on pp. 414-415 of the 1921 "WHITAKER." The Office of the Registrar of Business Names is at Somerset House, W.C.2

CERTIFICATES

OF BIRTHS, MARRIAGES, OR DEATHS

England and Wales—Certificates of Births, Deaths, or Marriages can be obtained at the General Register Office, Somerset House, on payment of fees amounting to 2s 7d, viz., 1s for search, 2s 6d for the certificate, and 1d for the stamp affixed thereto (When application is made by post the charges are 5s 1d.) They can also be obtained from the registration officer having the legal custody of the register book containing the entry of which a certificate is required. Certificates of marriages in churches of the Church of England can also be obtained from the incumbent of the church in which the marriage took place.

Certificates at reduced rates can be obtained for the purposes of certain Acts of Parliament: Friendly Societies Act, 1886, Birth or Death, 1s; Factory and Workshop Act, 1901, and for purposes of Elementary Education, Birth, 6d; Savings Banks Act, 1887, Birth, Death, or Marriage, 1s; National Insurance Acts, 1911 and 1913, Birth, 6d; Marriage, 1s; Industrial Assurance Companies Act, 1866, and Trade Unions Amendment Act, 1876, death of child under 10 years of age, 1s, but only from the local Registrar.

English Registers—Birth registration exists at Somerset House from 1837. An index to 1,000,000 earlier entries can be consulted at the *Society of Genealogists* at 5 Bloomsbury Square, London, W.C.1.

Scottish Registers of Births, Marriages, and

Deaths—Parish registers were instituted for these in 1551, but until the Registration of Births, &c (Scotland), Act, 1854, they were not properly kept in many cases. Extracts may, however, be obtained from them on payment of 2s 1d for each entry, but to be valid evidence it must be shown that the registers from which the entries are taken were regularly kept. Lists of the old parish registers may be consulted in the offices of the Registrar-General, H.M. General Register House, Edinburgh, or of local Registrars. These old registers are in the charge of the Registrar-General, and since 1854 local registers have been transmitted to him at stated periods. Registers up to the end of 1919 are now in his possession. There is a general index to the registers which may be searched on payment of 2s. A search of the index of a particular parish is 1s. A fee of 20s is payable for a search of all the Scottish registers, and 1s is payable for a search of a particular parish. An extract of an entry may be obtained on payment of 2s 1d. The office of the Registrar-General is open on weekdays between 10 a.m. and 4 p.m.

COPYRIGHT

The law of copyright is contained in the Copyright Act, 1911, which repeals all the earlier acts. It should be stated that no registration of copyright at Stationers' Hall is now necessary, copyright arises from mere authorship. The provisions of the Copyright Act, 1911, were explained on pp. 415-416 of the 1921 "WHITAKER."

DAYS OF GRACE.

Bills of Exchange or Promissory Notes, payable at any time after date, have *three days of grace* allowed, thus, a bill dated 1 Jan. at two months' date is not due until March 4. If a bill or note is payable by instalments to be paid "punctually," this does not exclude the days of grace (*Schaff v. Morris*, 37 T.L.R. 366). There is, however, no such extension in the case of bills drawn at sight, or on demand, and these must be paid on presentation. In the United Kingdom, bills falling due on Sunday are payable the previous Saturday, and in England and Wales and in Ireland bills falling due on Good Friday or Christmas Day are similarly payable on the previous day. Bills falling due on Bank Holidays are payable the day after.

DEATHS.

In England and Wales.—When a death takes place, personal information of it must be given to the Registrar, and the register signed in his presence, by one of the following persons—1. A relative of the deceased present at the death, or in attendance during the last illness. If they fail, 2. Some other relative of the deceased. In default of any relatives, 3. A person present at the death, or the occupier of the house in which the death happened. If all the above-named fail, 4. An inmate of the house, or the person causing the body to be buried. Relatives present or in attendance are first required to attend to the registration. One of them must, within five days of the death, give to the Registrar by word of mouth the information needed, and must sign the register, or must within the same time send him written notice of the death, accompanied by a certificate of the cause of death, signed by a registered medical practitioner, if any such attended the deceased during his last illness. The written notice will be useless without a legal medical certificate. If notice is

sent, information must nevertheless be given and the register signed within fourteen days from the death. If relatives present or in attendance fail without reasonable cause to carry out these provisions, they will become liable to a penalty of forty shillings. In case of their failure, one of the other persons above named must give personal information and sign the register in their stead. It is important that every death should be registered and a certificate of registry be obtained from the Registrar before the funeral. This certificate should be delivered to the clergyman or other person who performs the funeral or religious service. Failure to obtain this certificate need not, however, delay the funeral, as it is the duty of the clergyman, if the certificate is not produced to him at the burial, to notify the Registrar thereof within seven days. If at the end of fourteen days one of the persons above mentioned has not attended to the registration, the Registrar may, by written application, require any one of them to come to him and do so at a stated time and place. Any person failing to attend on this application will be liable to a penalty of forty shillings. Whenever the deceased has been attended during his last illness by a registered medical practitioner, a certificate of the cause of death, signed by him, must be delivered to the Registrar. Any person receiving such a certificate from the practitioner and not so delivering it will incur a penalty of forty shillings. The registration of a death is free of charge when it takes place within the above-mentioned periods, unless on request it is effected at an informant's house, or at the house where the death happened, when a fee of one shilling will be payable to the Registrar. After twelve months a death can be registered only on the Registrar-General's express authority, and on payment of fees amounting to ten shillings.

In *Scotland*, the rules of registration are similar, but (1) the death must be registered within 8 days, (2) the medical man concerned must give a certificate of death to the Registrar in terms of the Registration of Births, &c. (*Scotland*) Act, 1854, within 7 days, (3) the informant of a death receives from the Registrar a certificate that the death has been registered. This is given to the undertaker, who delivers it to the keeper of the cemetery. Failure to comply is under penalty in all cases.

CORONERS' INQUESTS—Sudden deaths are supposed by the law to demand inquiry, and Coroners' inquests are held in cases of violent and unnatural deaths, such as the case of a person slain or drowned, or dying suddenly, and of any person dying in prison. Coroners do not obtrude into the houses of persons for the purpose of holding inquests, but are sent for by the peace officers, to whom it is the duty of those in whose houses violent or unnatural deaths occur to make immediate communication, whilst the body remains in the same situation as when the death occurred. Inquests are not to be held on Sunday. When the Coroner receives due notice of a violent death, casualty, or misadventure, he issues his warrant or precept to summon a jury to appear at a particular time and place for the purpose of instituting the inquiry, when, how, and by what means the deceased came by his death. The jury must consist of at least twelve lawful and honest men, "*probi et legales homines*," and the number is immaterial provided twelve agree. The jury is usually summoned from the house-

holders residing in the neighbourhood in which the death took place. Any person summoned as a witness is bound to attend, or renders himself liable to be fined in any sum not exceeding 40s., the fine for defaulting jurymen being 25s.

In *Scotland* there is no Coroner. In ordinary cases of sudden death a private inquiry is held by the Procurator Fiscal (a Crown official who is the Public Prosecutor in criminal cases in every County, see p. 549). The result of such inquiry is reported to the Lord Advocate. In the case of a death occurring in the course of an industrial employment, and in every case in which the Lord Advocate may so order, a public enquiry is held before the Sheriff and a jury.

Statistics of Deaths

	1900	1901	1902
England & Wales	466,130	458,639	468,780
Scotland	68,179	66,210	72,905
Ireland	66,538	63,838	64,322
Total	600,847	588,677	624,007

DIVORCE.

Preliminary—Matrimonial suits may be conveniently divided into three classes, viz. (1) those in which a declaration against marriage is sought, (2) those in which the marriage is sought to be upheld, and (3) those in which, the marriage being admitted, partial or complete divorce is sought.

(1) **Nullity of Marriage**—Marriage is void *ab initio* if the parties were in the prohibited degrees of affinity, if it was bigamous, if there was no consent, or if one of the parties was insane, but it is only voidable if one of the parties was under the age of consent (14 in the case of males and 12 in the case of females). Inability to consummate a marriage may also be a ground for avoiding it. In such a case a decree of nullity may be obtained.

(2) **Restitution of Conjugal Rights**—This is a form of relief generally sought by a spouse who has been deserted. Disobedience to a decree of restitution of conjugal rights, although two years have not elapsed, at once constitutes desertion (as to the significance of which see paragraph (6) *infra*), and such desertion, if coupled with the husband's adultery, whether committed before or after the decree of restitution, is a ground for granting to the wife a decree of dissolution of marriage.

(3) **Judicial Separation and Divorce**—The third class of suit mentioned in paragraph (1) *supra* includes the suit for judicial separation (which does not dissolve a marriage), and the suit for divorce proper (which, if successful) dissolves the marriage contract altogether and leaves the parties at liberty to marry again). Either spouse may petition for judicial separation on the ground of adultery, or cruelty, or of desertion without cause for two years or upwards. In such a petition a husband may claim damages from the co-respondent. A decree of judicial separation is often made the ground of a petition for divorce. A petitioner who has committed adultery which has not been condoned cannot obtain a judicial separation or a decree of restitution of conjugal rights unless there has been condonation. The fact that a petitioner has been guilty of cruelty or desertion does not, however, debar him from a decree of judicial separation on the ground of adultery unless his conduct has conduced to the adultery.

Divorce.—Where partial or complete divorce is sought, relief can only be obtained upon proof of certain offences which fall under two heads, namely (1) those which are offences under ecclesiastical law, e.g., cruelty, adultery, and unnatural offences, (2) those which are offences by statute, e.g., incestuous adultery, bigamy with adultery, rape, and desertion.

If a husband seeks divorce, it is sufficient for him to prove the wife's adultery, in which case he may obtain damages from the adulterer. If a wife seeks divorce it was formerly not sufficient that she prove mere adultery. But now, by an Act which came into force on July 18, 1923, a wife may petition for divorce on the ground that, since the marriage and the passing of the Act, her husband has been guilty of adultery. A wife can also obtain divorce if the husband has been guilty of bigamy with adultery, of rape or certain other criminal offences, or of adultery coupled with such cruelty as without adultery would have entitled her to a divorce. *a mensa et thoro* or of adultery coupled with desertion. "Cruelty" is conduct of such a character as to have caused damage to life, limb, or health (bodily or mental), or as to give rise to a reasonable apprehension of such danger. It is cruelty to wilfully and recklessly communicate a venereal disease, and a course of conduct calculated to break the spirit of the sufferer (generally the wife), continued until health breaks down or is likely to break down under the strain, is also a ground for relief.

If a wife gives birth to a child of which her husband could not possibly be the father, that is sufficient proof of adultery.

It is desertion in the legal sense if one party to a marriage, without the consent or against the will of the other wilfully without cause or reasonable excuse makes the other live apart for two years or more. It is, however, a question of intention. *Powell v. Powell* (1922) P. 278. Formerly the only remedy for desertion was a suit for the restitution of conjugal rights, but now desertion without cause may enable the deserted spouse to obtain a decree of judicial separation. If coupled with adultery, it enables a wife to obtain a divorce.

When the decree will be refused.—A decree must be refused, even if the suit is undefended, if the allegations in the petition for divorce are not proved. There is no such thing in the Divorce Court as judgment by default. Other absolute bars to relief are (i) connivance at the adultery of the respondent, (ii) collusion, as where the initiation of the suit is procured by agreement or bargain (but this does not prevent a fresh suit being brought free from collusion), (iii) condonation, i.e. complete forgiveness which restores the *status quo*. Forgiveness, without restoration of the wife to her former position, cannot amount to condonation (*Crocker v. Crocker* (1921), P. 15. There are also certain discretionary bars, as, e.g. where the petitioner has been guilty of unreasonable delay, or has been guilty of such wilful neglect or misconduct as has conduced to the adultery.

Intervention by King's Proctor.—At any time during the progress of a suit for dissolution or nullity of marriage, and before the decree *est* is made absolute, the King's Proctor may intervene to show cause against making a decree absolute.

Decree Absolute.—Every decree of dissolution or nullity is in the first instance a decree *est*,

and is not made absolute until the expiration of six calendar months. The marriage subsists until the decree is made absolute. After that date either spouse may marry again, but a man may not marry the sister of his divorced wife whilst the divorced wife is alive. A divorced wife may call herself by her late husband's name. Persons who have been divorced may re-marry.

Children.—When a suit has been commenced, the children should not be removed from the person in whose custody they are *de facto*. Until a suit for judicial separation, nullity, or dissolution of marriage has been dismissed, the Court may make orders for the custody, maintenance, and education of children. Either spouse may make applications for access to the children.

Alimony.—A wife may in any cause file a petition for alimony (i.e. means of support) pending suit, provided *prima facie* evidence of the marriage is adduced. The right to alimony continues until there is a decision against the wife in the court of first instance. The amount may be agreed between the parties, otherwise one-fifth of the joint incomes is generally allowed. An order for permanent alimony may be obtained by a wife who has obtained a final decree of judicial separation.

Protection Orders.—A deserted wife may apply to a court of petty sessions or to the Divorce Division for an order to protect any money which has come to her after such desertion against her husband and his creditors. Disobedience to the order renders a party retaining the property liable to restore it and to pay twice the value thereof.

Costs.—Where a suit is about to be set down for hearing, the wife, if she has not sufficient separate estate, may obtain payment from her husband of a sum sufficient to cover her costs to date, and where a decree has been obtained against her for judicial separation on the ground of adultery, she may defend herself at his expense should he afterwards bring a suit for dissolution of marriage. If a suit be decided against a wife who has separate estate, she may be condemned to pay the whole or any part of the costs of the proceedings.

SEPARATION BY AGREEMENT

Husband and wife may agree, with or without consideration, to separate and live apart, but the agreement, to be valid, must be followed by an immediate separation. Although usually made by deed, a mere oral agreement is binding. If made, however, with a view to facilitating divorce proceedings it is void. A wife is not bound by a separation agreement if she was forced to make it by threats of violence. A clause which binds the husband to give up the custody of the children will be enforced, unless the Court is of opinion that it is not for their benefit. The agreement usually contains mutual covenants not to sue for the restitution of conjugal rights—a covenant by the husband not to molest the wife, and a covenant by the wife or her trustee to indemnify the husband against debts contracted by her during the separation. The remedy for a breach of the agreement is specific performance.

SUMMARY JURISDICTION.

When a husband has been guilty of assault or has deserted his wife, or has been guilty of per-

sistent cruelty, or of wilful neglect to maintain her or her infant children, and by such cruelty or neglect has caused her to leave him, or where he is an habitual drunkard, the wife may obtain relief from a Court of Summary Jurisdiction. Relief may also be obtained by a husband whose wife is an habitual drunkard. The Court may declare that the applicant is no longer bound to cohabit with the other spouse. Where a wife is the applicant, the legal custody of children under sixteen may be given to her, and the husband may be ordered to pay a weekly sum not exceeding £2. Where the husband applies, the custody of all the children of the marriage may be given to him, and the wife may be committed to an inmates home. If the wife has been guilty of adultery, no order will be made on her application unless there was condonation, and if, having obtained an order, she commits adultery, the order may be discharged. An order may be altered, varied or discharged at any time on cause being shown. All applications for relief must be made within six months of the ground of complaint.

DIVORCE STATISTICS *England and Wales*

Year	Poor Persons	Other Suits	Total
1914	88	1,260	1,348
1918	1,034	1,655	2,689
1919	2,341	3,422	5,763
1920	2,126	3,058	5,184
1921	677	2,787	3,464

In the occupation groups of husbands' professional employments account for 1,148 cases: manufactures 816, trade 899, inland transport 215, mining 83, agriculture 102, navigation and fishing 46, and domestic service 26. Among the professions are included—

DIVORCE FOR THE POOR

England and Wales—A special department in the High Court of Justice for the assistance of poor persons in litigation, including divorce, was established in 1914. The official name of the department is "London Prescribed Officers (Poor Persons)."

Under the procedure of this department, Solicitor and Counsel are provided for a litigant who is not possessed of the means to employ legal assistance.

Although no fees are payable for the help given by the department, the applicants must find the solicitor's out-of-pocket expenses, and those incidental to witnesses—a point which has been criticised by the adherents of divorce law reform. However, if witnesses are not brought from a long distance, the whole proceedings need not cost more than £10, and can in some cases be completed for less, compared with from £50 to £60 necessitated by the normal procedure. Before a case is taken up, the applicant has to satisfy the department that he or she is really poor—not possessed of more than £50, exclusive of wearing apparel and trade tools. She must also show that her own income does not exceed £2 a week, or in special cases, £4. If this condition is fulfilled, and if he has reasonable grounds for bringing or defending a suit in the Divorce Court, he may apply to the Court for leave to do so. An application for leave is submitted to and is reported on by counsel and solicitor, who give their services voluntarily. If the report is favourable the Court may give the necessary leave, and thereupon another solicitor and counsel are assigned to the poor person to act for him. Such a litigant is not liable for Court fees, nor (generally) is he liable to pay costs to any other party. Counsel acting for him must charge him no fee, while the solicitor assigned to him generally gets nothing but his out-of-pocket expenses. Where, however, property of value is recovered for such litigant, the solicitor may (under the rules) get his usual costs. Numbers of persons take advantage of this procedure in *forma pauperis*. This explains the very large number of cases in the Divorce Court.

Scotland—In every town there are Solicitors for the Poor, and in the Court of Session there are Counsel for the Poor, all of whom act gratuitously. Any class of litigation may be undertaken for poor persons, but the operation of the "Poor's Roll" is chiefly important in matrimonial and bastardy cases. Legal services are rendered free of charge, and no Court dues are payable. In cases of divorce application must be made to the Court of Session. In cases of separation simply, application may be made to the Sheriff Court. The means that preclude a person from the benefit of the Poor's Roll are not fixed, and each application depends on its own circumstances. The Poor's Roll was established in 1424.

THE FRANCHISE.

The Representation of the People Act, 1918, abolishes the voting qualifications of property owners, freemen, and lodgers but extends the franchise to women, subject to certain limitations. To be entitled to be registered as Parliamentary or as Local Government electors, the following conditions are now required:—

PARLIAMENTARY

MEN—21 years of age. Residence only, for the qualifying six months in any one constituency or in any contiguous constituency or county. The occupation of land or premises of £10 annual value, for business purposes, for the same period.

A man of full age who has received a degree at any university forming, or part of, a constituency, is entitled to be registered as a voter for that constituency. Honorary degrees do no qualify.

WOMEN—30 years of age, must be entitled to be registered as a Local Government elector for

the occupation of land or premises of £5 yearly value, or of a dwelling house, or is the wife of a husband who is entitled to be so registered.

A woman is entitled to be registered as a parliamentary voter for a university constituency if she is of the required age, and has been admitted to a degree, or has passed the final examination and followed the conditions required of a woman by such university which did not at the time the examination was passed admit women to degrees.

ABSENT VOTERS AT GENERAL ELECTION

In the lists which came into force on Oct. 15, 1922, the absent voters for Great Britain and Northern Ireland totalled 184,570, and for the contested constituencies in the General Election of 1922 172,451. Excluding these constituencies (in the Borough of Stoke-on-Trent) for which particulars are not available, 97,530 ballot papers were issued to absent voters whose recorded addresses were in the United Kingdom, and 40,895 of them were returned in time for the counting of the votes at the General Election of 1922. The number of absent voters who had appointed proxies in the contested constituencies was 4,173.

LOCAL GOVERNMENT

MEN—21 years of age. Must have occupied for the qualifying six months, as owner or tenant, any land or premises in a local government electoral area. A person who occupies rooms as a lodger is entitled, provided the rooms are let unfurnished.

WOMEN—21 years of age. Is entitled to be registered as a local government elector where the conditions of her occupation of property would entitle her if she were a man.

Thirty years of age where she is the wife of a man who is entitled to be so registered in respect of premises in which they both reside.

REGISTRATION

The qualifying periods (at present fixed by Order in Council) are for six months ending 15 Dec for the Spring Register, and 15 June for the Autumn Register. It is the duty of the Registration Officer (in counties, the clerk to the county council, in boroughs, the town clerk) to compile the Spring and Autumn Registers containing the names of all persons entitled to vote. For this purpose instructions may be issued to the overseers of parishes, who cause house-to-house enquiries to be made to ascertain the names of all qualified voters. A householder's return may be issued, and the failure of the householder to give the required information renders such person liable to a penalty of £20. The prepared lists are publicly exhibited by the Registration Officer, together with a notice specifying the mode in which, and the time within which, claim and objections are to be made. Subsequently the Registration Officer shall make all necessary corrections of the electors' lists, and carry out all that is required to form those lists into a register, with a separate index letter and a separate series of numbers for each polling district.

ILLEGITIMACY.

England and Wales—A man may be summoned to petty sessions on the application of the mother of a bastard child, or by the Guardians of the Poor where the child becomes chargeable to the Union or Parish, and the Justices, on his being proved to be the father of the child, may make an order requiring him

to pay for its maintenance and education a sum not exceeding 5s. a week. By an Act which came into force on Sept. 30, 1923, the putative father may be ordered to pay 20s. a week, instead of 10s. as hitherto. The mother has the custody of her bastard children. No person is required as father of an illegitimate child to give information concerning the birth of such child, and the registrar is forbidden to enter in the register the name of any person as father of the child unless at the joint request of the mother and father. Such person is in that case required to sign the register, together with the mother. A domestic servant found to be *enconcinate* may be peremptorily dismissed without notice, but any attempt to examine without her consent a servant supposed to be *enconcinate* renders the employer liable to an action.

In 1922 the Home Secretary introduced a Bill for legitimating illegitimate children on the marriage of their parents, but the Bill had not passed both Houses of Parliament at the time of going to press.

Scotland—The mother of an illegitimate child may obtain a decree of affiliation and aliment against the father. The process may be raised either in the Court of Session or the Sheriff Court, but usually is in the Sheriff Court. The father pays half of the minding expenses, the amount usually decreed being £2 2s. The rate of aliment varies, but in 1919 it was settled by a decision of the Court of Session that £11 14s. per annum was a proper amount. The mother has the custody of the child until the age of 7 if a male and 10 if a female.

By Scots Law an illegitimate child is legitimated by the subsequent marriage of its parents provided there was no impediment to the marriage of the parents at the time of the conception of the child. Such legitimation is recognised by International Law so far as the laws of particular countries allow it. It is valid in England except that such a child cannot succeed to real estate in England on intestacy. After the marriage of the parents such a child may be registered as legitimate by warrant of the Sheriff.

INFECTIOUS DISEASES.

PRECAUTIONS NECESSARY TO BE OBSERVED.—By the Public Health Act, 1875 (as amended by the Public Health Act, 1907), it is provided

that any person who—(1) While suffering from any dangerous infectious disorder wilfully exposes himself without proper precautions against spreading the said disorder in any street, public place, shop, inn, or public conveyance, or enters any public conveyance without previously notifying to the owner, conductor, or driver thereof that he is so suffering, or, (2) Being in charge of any person so suffering, so exposes such sufferer, or causes or permits such sufferer to be so exposed, or, (3) Gives, lends, sells, transmits, or exposes, without previous disinfection, any bedding, clothing, rags, or other things which have been exposed to infection from any such disorder, shall be liable to a penalty of £5. A person suffering from such disorder who enters a public conveyance is liable to a fine of 40s., and if he so enters without notifying to the owner or driver that he is so suffering, shall be ordered by the Court to pay the owner and driver the amount of any loss and expense they may incur in respect of the disinfection of the conveyance. Every owner or driver of a public conveyance must provide for the disinfection of such conveyance after it has conveyed any person suffering from dangerous infection, but he cannot be required to convey any person so suffering until he has been paid a sum sufficient to cover any loss or expense incurred in disinfecting the conveyance. No person may knowingly let for hire any house, &c., in which any person has been suffering from any dangerous infectious disorder without having the same disinfected to the satisfaction of a medical practitioner, as testified by a certificate signed by him—penalty not exceeding £50, or imprisonment with or without hard labour, not exceeding one month. By the Public Health Act, 1907, the Local Government Board (i.e. the Ministry of Health), since the passage of the Ministry of Health Act, 1919 has power to declare that this Act shall be in force in any specified district. Under this Act, a person suffering from an infectious disease must not engage in any trade unless he can do so without spreading the disease, nor may he take any book from a public or circulating library, or allow any such book to be returned after it has been exposed to infection. Clothes exposed to infection must not be sent to a public laundry unless they have been disinfected. A child who has been suffering from an infectious disease must not attend school without a medical certificate. Dairywomen must notify infectious diseases existing among their servants, and the owner or driver of a public vehicle which has conveyed an infectious person must notify the same to the district medical officer. No wake may be held over the body of a person who died of an infectious disease. Where the Infectious Disease (Prevention) Act, 1890, is in force, where any suitable hospital is provided, any person who is suffering from any dangerous infectious disorder, and is without proper lodging or accommodation, or is lodged in a room occupied by more than one family, or cannot be effectually isolated, may, on a certificate signed by a medical practitioner, and with the consent of the hospital, be removed by order of any justice to such hospital. Similar provisions apply to the Metropolis. The occupier of a house in which there has been infectious disease within six weeks before he ceases to occupy it, must have the premises disinfected and inform the owner of the disease. Where it appears to any District Council that

any house is in such a condition that the health of any person is affected or endangered thereby, or that whitewashing, &c., would tend to prevent or check infectious disease, they may give notice in writing to the owner or occupier of such house to whitewash, &c., the same.

NOTIFICATION OF INFECTIOUS DISEASES

By the Infectious Disease (Notification) Extension Act, 1895, the provisions of the Infectious Disease (Notification) Act of 1889 were extended to the whole of England and Wales on the January 1, 1899. Every case of infectious disease, as defined by the Act, is to be notified to the Medical Officer of Health of the district in which it occurs. The notice may be by letter or even verbal, and must be given by the head of the family, or by the nearest relatives present in the building or in attendance on the patient, or any other person in attendance, or by the occupier of the building. In addition to this, the medical man in attendance is required to send a certificate to the Medical Officer of Health. Failure to send the notice or certificate renders the defaulters liable to 40s. fine. No payment is made for the notices required to be given by persons in the house, but the medical man gets 2s. 6d. for every case in his private practice and 1s. for every case in a public institution of which he is officer.

The diseases to which the Act applies are small-pox, cholera, diphtheria, membranous croup, erysipelas, scarlatina or scarlet fever, and the following fevers: typhus, typhoid, enteric, relapsing, continued, or puerperal. Plague must also be notified, in consequence of an Order issued in 1900. The local authority may order that the Act shall apply to any infectious disease other than those just mentioned, but such an order must be approved by the Local Government Board. In some districts the following have been declared infectious: measles, rubeola or German measles, whooping cough, chicken-pox, mumps, and yellow fever. In the case of London the provisions of the Public Health (London) Act, 1891, are similar to those now extended to the rest of the country.

Statistics of Notifiable Diseases—The total numbers of cases of the chief notifiable diseases in England and Wales, excluding cases among soldiers and sailors, are set out below—

	Cases notified	Rate per 1,000 of population.
Tuberculosis (pulmonary)	61,555	1.65
Tuberculosis (other forms)	15,851	0.41
Small pox	263	0.02
Typhus fever	2	0.00
Scarlet fever	119,490	3.19
Diphtheria	69,481	1.86
Enteric fever	3,709	0.08
Continued fever	35	0.00
Relapsing fever	7	0.00
Puerperal fever	1,898	0.03
Erysipelas	16,051	0.43
Cerebro-spinal fever	583	0.01
Pollomyelitis	293	0.01
Ophthalmia neonatorum	10,304	10.75*
Encephalitis lethargica	890	0.02
Polio-encephalitis	36	0.00
Trench fever	39	0.00
Dysentery	1,353	0.04
Malaria (contracted in England)	32	0.00
Pneumonia	38,859	1.04

* Rate per 1,000 births.

JURY SERVICE.

Preliminary.—The juries with which the public are most concerned are, first and foremost, the grand juries; secondly, those which are summoned to try causes in the High Court, at assizes and county courts; and thirdly, those summoned to try criminal cases at assizes, the Old Bailey, and courts of Quarter Sessions, and to assist at coroners' inquests.

Qualifications.—All natural-born subjects of the King and aliens domiciled for ten years or more, being men or women between 21 and 65, (60 after March 1, 1902), are liable to serve as jurors.

Although women could not formerly serve, the sex disqualification was removed in 1919, and women are now liable to serve, subject to this, that a judge may make an order that the jury shall be composed of men only or of women only, or may, on an application made by a woman to be exempted from service on a jury in respect of any case by reason of the nature of the evidence to be given or of the issues to be tried, grant such exemption.

The qualification of a juror is a *property* one—that is to say, he or she must be a person who owns property or pays rates. A householder or shopkeeper in the City of London who owns personal estate worth £100; a resident in a county or borough owning £10 a year in real estate or rent charge, or £20 in leaseholds, or a householder in a county or borough assessed to the poor rate at not less than £30 a year in Middlesex and the County of London, or £20 in other counties, and occupiers of houses with not less than fifteen windows, are all compellable to serve as jurors unless exempted or disqualified.

Exemptions and Disqualifications.—Aliens (subject as above), felons, lunatics, imbeciles, deaf or blind persons are disqualified from serving on juries, while the following classes of persons (amongst others) are exempt—peers, members and officers of both Houses of Parliament, clergymen and priests, ministers of any congregation of protestant dissenters and Jews, whose meeting place is duly registered, judges, barristers, solicitors (if practising), officers of the supreme court, magistrates, clerks of the peace, sheriffs' officers and servants of such officers, justices of the peace, members of local bodies, governors of prisons and gaols, superintendents, &c., of lunatic asylums, doctors and chemists (if actually practising), dentists, officers and men in Army, Navy, and Territorial Forces, licensed pilots, postal, custom and inland revenue servants.

Special exemption.—A judge, and, by virtue of S. 3 of the Juries Act, 1922, the sheriff, may for good reason excuse attendance of any particular jury.

Jury Lists.—Lists of juries are now prepared in accordance with the Juries Act, 1922. Persons who deem themselves to be entitled to be exempted should communicate with the registration officer, for all whose names appear on the lists are liable to serve.

Grand Juries.—The function of the grand jury is to make presentments on oath to judicial bodies or personages, mainly of accusation against persons against whom criminal proceedings are pending. The jurors have to say in effect whether there is a *prima facie* case against the accused, against whom an indictment has been prepared, and if they are satisfied of this they find "a true bill"; if not, they "ignore the bill" and the accused is discharged.

Lunacy Juries.—A jury is sometimes summoned by the judge in lunacy to enquire whether a man is or is not of sound mind.

Juries in Criminal and Civil cases.—An accused person against whom a true bill has been found is tried by a "jury sworn." A "panel" of jurors are summoned to attend the court on a particular day, and it is from amongst them that the jury who are to try the prisoners are selected at random (an interesting note on the selection of jurors will be found in *Halbury's Laws of England*, Vol. 28, p. 246). In a criminal case the prisoner has a right of challenge which is of two kinds—a challenge to the array—i.e., the whole number of jurors summoned (which is so rare that it need not be further considered) and a challenge to the poll, i.e., to individual jurors, which may be peremptory or for cause. Peremptory challenge, or challenge without cause, exists only as of right in treason and felony, and the prisoner can only challenge a limited number without reason. In the exercise of this right prisoners frequently object to the women on the jury. "Challenge for cause" sometimes takes place on the ground that the proposed juror is a peer or is alleged to have committed some crime which makes him infamous.

Except upon trials for murder, treason, and treason felony juries after being sworn may separate, e.g., for lunch and at night. The verdict must be given in open court in the presence of all the jurors, and in cases of treason and felony in the presence of the defendant. It must be unanimous, except that in civil cases the parties may agree to take a majority verdict.

Special Juries.—Special Jurors are selected from persons having larger property qualifications, e.g., the occupier of dwelling house in a large town rated at not less than £100. Trial is generally by Common Jury, but in any cause or matter at Assizes or in the High Court an order for a Special Jury may be obtained in certain cases.

Payment of Jurors.—A Special Juror is entitled to a fee of one guinea for each case in which he is sworn to act, whereas a Common Jury is only entitled to 1s on each cause tried in the High Court or a County Court; and on Circuit, 8d. In Criminal Cases the jury is entitled to and, in fact, receives nothing. At Inquests, held before Coroners, the jurors are entitled to such fee as the local authority may permit the coroner to pay.

A juror is not accountable for, nor will any action lie against him, in respect of anything said or done by him in discharge of his office. If he fail to appear in the High Court or at assizes when duly summoned he may have to pay a fine of £10, while non-appearance at a county court may involve a fine of £5.

Coroners' Juries.—A coroner who has decided to hold an inquest must summon a jury to inquire into the cause of death. This absolute duty, however, was suspended during the War and for six months thereafter by an Act passed in 1918. A coroner's jury may be fined £5 for non-attendance. Broadly speaking, any "good and lawful" man or woman may be summoned on a coroner's jury. Although there is no age limit fixed by statute, the custom is to summon only persons of full age. Not less than twelve must be summoned, and at least twelve must agree on a verdict.

MARRIAGES.

BY BANNS OR LICENCE.

BANNS OF MARRIAGE—"Banns" formerly applied to any public kind of proclamation, and now refer only to marriages, so that the word signifies the public announcement in the parish church, the object being to ensure notoriety, and exclude clandestine marriages. The Marriage Act, 26 Geo II. c. 33, prescribes audible publication according to the rubric, on three Sundays preceding the ceremony, after the Second Lesson. The law is now chiefly contained in the Marriage Act, 4 Geo IV c. 76, which repealed most of the laws then in force (see also 6 & 7 Will IV c. 85, and 1 Vict c. 22). Where the parties reside in different parishes, the banns must be published in both, the minister giving his certificate of the same to be handed to the minister of the parish where the marriage takes place. The law provides specially for the case where one of the parties resides in Scotland, the publication being then in the parish church. In like manner in Scotland the publication takes place in the parish church, in whatever church the parties are married. It may be noted that, by Scottish law only, omission to publish the banns does not invalidate the marriage, because it would still stand as an irregular marriage carried out by consent before witnesses (see sub-tit., "Marriages in Scotland," *post*). The names by which the parties are known are sufficient for publication of banns, so that a variance from the strict baptismal name is not important. But where wrong names are designedly given, for the purpose of concealment or otherwise, the case is different, and the marriage may be null and void (*Midgeley v Wood*, 4 Sw & Tr 267). Where a wrong and fraudulent name is given by one party only, and the other party is innocent, the validity of the marriage is not affected.

The Bishop may license a Chapel of Ease for the celebration of marriages, but where a district has been assigned to a chapel, and it becomes a vicarage, or "ecclesiastical parish," the option ceases, and the banns must be proclaimed and marriage celebrated therein, and not in the "mother church" or that of the civil parish.

If three months be permitted to elapse, the banns become useless, and the parties must either obtain a licence, or submit to the republication of banns. The minister ought to satisfy himself that the parties are of full age, or that the consent of parents is obtained, and it is usually on the score of insufficiency of age that banns are "forbidden." By the Act 6 & 7 Will IV. c. 85, a marriage may be performed in church on the superintendent registrar's certificate without banns, provided that the incumbent's consent is obtained. One of the parties must be resident within the Ecclesiastical parish of the church in which the marriage is to take place.

Marriage licences are of two kinds—(1) the Common or Ordinary Licence granted by the Archbishops and Bishops, through their Surrogates, for marriage in any church or chapel duly licensed for marriages; (2) the Special Licence granted by the Archbishop of Canterbury for marriage at any time or in any place on good reason being shown (see p. 406). The Act of 1833 is severe on the clergy, making it a felony for any clergyman to marry the parties in the absence of banns or licence; and every Registrar or other person who knowingly unduly solemnizes

a marriage is also guilty of felony. By a subsequent alteration in the law, the hours for marriage were extended, and they are now from 8 a.m. to 3 p.m.

The minister should be careful that there are two or more witnesses present, and that two witnesses attest the entries in the register books, which are kept in duplicate.

All civil jurisdiction over marriage was taken away from the Ecclesiastical Courts by the Divorce Act of 1857. An incumbent may, under Section 96 of this Act, refuse to marry a divorced person whose marriage has been dissolved for his or her adultery, but must allow another clergyman of the diocese to perform the service.

Marriage with a deceased wife's sister—including a sister of half blood—was legalised in 1907. No clergyman, however, can be compelled to solemnize such a marriage, but he can allow his church to be used for the purpose by another minister.

Marriage with deceased brother's widow. This was legalised in 1921 by the statute 11 and 12 Geo 5, c. 24.

A marriage certificate is nothing more than a copy of the entry in the church register, and the customary fee is 2s 6d, and a stamp duty of 1d. Searches in the register-books may be made on payment of small fees, viz., 1s for a single year, and 6d additional for every other year. There are small fees, regulated by custom, on the certificate given of banns in one parish for marriage in another. Marriage fees are not uniform, and if excessive there is power with the Diocesan Chancellor to moderate them. With those who are in a position to afford it, it is usual to pay a guinea to the clergyman, and 5s. to the clerk; and the usual fees are paid although a stranger-clergyman be invited to perform the service.

MARRIAGE LICENCES.

MARRIAGE LICENCES can be obtained in London by application at the Faculty Office (33 Knightrider St., Doctors' Commons, E.C. 4), at the Vicar-General's Office (1 The Sanctuary, Westminster, S.W. 1), and at the Bishop of London's Diocesan Registry (1 Dean's Court, Doctors' Commons, E.C. 4), by one of the parties about to be married. In the country they may be obtained at the offices of the Bishops' Registrars, but licences obtained at the Bishop's Diocesan Registry only enable the parties to be married in the diocese in which they are issued, those procured at the Faculty Office are available for London and all England and Wales, those procured at the Vicar-General's Office (hours in both offices 10 to 4, Saturdays 10 to 2) are available for London and all England, except the Province of York. No instructions, either verbal or in writing, can be received, except from one of the parties. Affidavits are prepared from the personal instructions of one of the parties about to be married, and the licence is delivered to the party upon payment of fees amounting to thirty shillings, in addition to the cost of stamp, 10s. 6d. No previous notice is required and the licence is available as soon as it is issued. The cost of licences through a clerical surrogate in the country varies, according to the diocese, from £1 15s. to £2 12s. 6d. By the 4th George IV. c. 76, it is enacted, in order to avoid fraud and collusion in obtaining licences for marriage, that before any such licence be granted one of the parties shall make a declaration, on oath, that there is no legal impediment to the intended marriage; and also that one of such parties hath had his or her usual

place of abode for the space of fifteen days immediately preceding the issuing of the licence within the boundary of the parish church, or the district parish in the church of which the marriage is to be solemnized

It may be added that in the country there may generally be found a parochial clergyman who is also a surrogate, before whom the above-mentioned affidavit may be taken, and whose office it is to deliver the licence personally to the applicant (In some parts of the country it is necessary for the surrogate to procure the licence from the Bishop's registry)

SPECIAL MARRIAGE LICENCES

SPECIAL LICENCES are granted by the Archbishop of Canterbury, under special circumstances, for marriage at any place with or without previous residence in the district, or at any time, &c., but the persons assigned must meet with his Grace's approval. Application must be made to The Faculty Office, 23 Knightbridge Street, Doctors Commons, E.C. 1 (tel. 6834 Central). Fees for licence stamp, &c., £25

BEFORE A REGISTRAR AND IN NON-CONFORMIST BUILDINGS

Marriages can take place in a District Register Office or in a Nonconformist building registered for marriages, (1) by Certificate, (2) by Licence. Notice of such marriages must be given personally to the Superintendent Registrar, a Registrar of Births and Deaths, a Registrar of Marriages, or the deputy of such officer. A marriage at a register office takes place in the presence of the Registrar of Marriages and the Superintendent Registrar, a marriage at a registered building takes place in the presence of the Registrar of Marriages, unless it is had under the provisions of the Marriage Act, 1898, respecting which see below. In each case the presence of at least two witnesses is necessary.

NOTICE OF MARRIAGE BY CERTIFICATE

If both parties reside in the same registration district, they must both have resided there for seven days before the notice can be given. It may then be given by either party.

If the parties reside in different registration districts, notice must be given by each to a registration officer in the district in which he or she resides, and the preliminary residential qualification of seven days must be fulfilled by each before the notice can be given.

NOTICE OF MARRIAGE BY LICENCE

One notice only is necessary, whether the parties live in the same or in different registration districts, and either party may give the notice.

If both live in the same district, one of them must have lived there for fifteen days before the notice can be given.

If they live in different districts, and both have fulfilled the necessary residential qualification, notice may be given in either district. If one only has fulfilled the qualification, the notice must be given in the district in which the residence has been fulfilled, and the other party must be resident in England or Wales when the notice is given.

The notice contains particulars as to names, ages, residence, length of residence, and the building in which the marriage is to take place. It also contains a declaration that there is no legal impediment to the marriage, and, in the case of minors, that the consent of the person

whose consent to the marriage is required by law, has been duly given. A person making a false declaration renders himself or herself liable to prosecution for perjury.

ISSUE OF CERTIFICATE (WITHOUT LICENCE) FOR MARRIAGE

After the lapse of twenty-one clear days from the date of the entry of the notice in the notice-book, the Superintendent Registrar may, provided no impediment is shown, issue his certificate for the marriage, which can then take place at any time within three calendar months from the date of the entry of the notice.

ISSUE OF CERTIFICATE AND LICENCE FOR MARRIAGE

After the lapse of one week-day (not Christmas Day or Good Friday) from the date of entry of the notice, the Superintendent Registrar may, provided no impediment is shown, issue his certificate and licence for the marriage, which can then take place on any day within three calendar months from the date of entry of the notice.

DOCUMENTS TO BE PRODUCED AT THE MARRIAGE

(1) Marriage by Certificate —

a. If both parties live in the same district — The certificate of the Superintendent Registrar of that district.

b. If they live in different districts — A certificate from the Superintendent Registrar of each district.

(2) Marriage by Licence — The certificate and licence of the Superintendent Registrar of the district in which the notice is given.

PLACE OF MARRIAGE

The marriage must generally take place at a building within the district of residence of one of the parties, but there are exceptions, as follows —

a. Section 14 of 19 & 20 Vict. cap. 119, provides that, if the usual place of worship of either of the parties is outside the district of his or her residence, the marriage may take place in such usual place of worship, provided that it is not more than two miles distant from the boundary of the district in which the notice is given.

b. The Act 3 and 4 Vict. cap. 72, provides that, if there is not within the district of residence of either party a registered building within which marriages are solemnized according to the rites and ceremonies of the religious denomination to which the parties belong, the marriage may take place in a registered building of the required denomination in the nearest district.

A marriage which has been duly celebrated in a register office in Ireland may be proved by the certificate of such marriage (*Gillet v. Guillet*, 27 T.L.R. 416).

MARRIAGE CEREMONY

The marriage must be solemnized between the hours of 8 a.m. and 3 p.m., with open doors. Each of the parties must declare as follows: — "I do solemnly declare that I know not of any lawful impediment why I, A. B., may not be joined in matrimony to C. D." and each of the parties must say to the other, "I call upon these persons here present to witness that I, A. B., do take thee, C. D., to be my lawful wedded wife [or husband]." A wedding-ring may be, and is generally, used at a marriage at a register office.

MARRIAGE ACT, 1896.

The presence of a Registrar of Marriages is not necessary at marriages at Nonconformist registered buildings which have adopted the provisions of this Act. The Act (which does not apply to Scotland or Ireland, or to marriages according to the usages of the Jews or of the Society of Friends) provides for the appointment of an "authorised person" (a person, usually the minister or an official of the building certified by the trustees or governing body as having been duly authorised for the purpose) who must be present at and must register the marriage. If the presence of a Registrar is required at a marriage at a building at which the provisions of the Act have been adopted, the fact must be stated when notice of the marriage is given, and the consent of the minister or trustees to the Registrar's attendance must be obtained.

The parties must at some time during the ceremony make the following declarations—

"I do solemnly declare that I know not of any lawful impediment why I, A B, may not be joined in matrimony to C D."

Also each of the parties must say to the other—

"I call upon these persons here present to witness that I, A B, do take thee, C D, to be my lawful wedded wife (or husband)"; or, in lieu thereof—

"I, A B, do take thee, C D, to be my wedded wife (or husband)."

Rules and Regulations relating to this Act were published in October, 1909. (See *Statutory Rules and Orders*, 1909, No. 1332.)

NAVAL MARRIAGES ACT, 1908.

This Act, which came into force on January 1, 1909, was framed with the object of relieving sailors of the Royal Navy of the difficulties under which they laboured as regards fulfilling the necessary residential qualification for the purpose of marriage.

It provides that any officer, seaman, or marine borne on the books of one of His Majesty's ships who wishes to marry may, if the marriage is to take place at a register office or a Nonconformist registered building, give notice to his commanding officer, who, after the lapse of twenty-one clear days, can issue a certificate for the marriage. The other party must give notice in the usual way to a registration officer in the district in which she resides.

If the marriage is to take place at a church of the Church of England, the chaplain or commanding officer must publish the banns on board the ship on three successive Sundays. He can then issue a certificate of publication of banns. The banns must also be published in the church in which the marriage is to take place.

No marriage by licence can take place under this Act.

FEES

For entering notice of a marriage by certificate in the marriage notice-book	s d
For entering notice of a marriage by licence in the marriage notice-book	1 0
For a certificate for marriage without licence	1 0
For a certificate for marriage by licence	1 0
For a licence for marriage	30 0
Stamp duty on a licence for marriage	10 0
For a marriage by certificate in the presence of a Registrar	5 0
For a marriage by licence in the presence of a Registrar	10 0

Exclusive of the fee for a certificate of the marriage (marriage lines), the total fees for a marriage by certificate, when the parties live in the same district, amount to 7s., if they live in different districts, to 9s.

For a marriage by licence the total fees are £2 12s. 6d.

MISCELLANEOUS INFORMATION RESPECTING MARRIAGES

Parties should be married in the name in which they are generally known.

A marriage may take place at a registered building before a Registrar without religious ceremony if the consent of the trustees is obtained.

If parties who have been married at a register office desire to go through a religious ceremony at a church, they may do so on production to the incumbent of a certificate of the register office marriage, but this ceremony is not recorded as a marriage in the register books.

A divorced person desiring to marry again in a register office or registered building must give notice to the Superintendent Registrar, to whom a copy of the divorce decree must be produced.

In Wales, and in places where the Welsh tongue is used, the declaration and contracting words may be said in Welsh, as provided by Section 23 of the Marriages and Registration Act, 1837.

If both parties are Jews, they must give notice to a registration officer in the usual way, and may marry according to their usages in a synagogue or private dwelling-house at any hour, the marriage must be registered by the secretary of the synagogue of which the man is a member.

If both parties are members of the Society of Friends (Quakers), or if, not being in membership, they have been authorised by the Society of Friends to solemnize their marriage in accordance with its usages, they must give notice to a registration officer, and may be married in a Friends' meeting-house, the marriage must be registered by the registering officer of the Society appointed to act for the district in which the meeting-house is situated. The presence of a Registrar of Marriages is not necessary at such marriages of Jews or members of the Society of Friends.

Marriage with a deceased wife's sister was rendered legal by the Deceased Wife's Sister Act, 1907, the Act forbids the marriage of a man with the sister of his divorced wife during the wife's lifetime. The marriage of a woman with her deceased husband's brother was rendered legal in 1921.

MARRIAGE IN ENGLAND OR WALES WHEN ONE PARTY LIVES IN SCOTLAND OR IRELAND

Notice for a marriage by a Superintendent Registrar's certificate in a register office or registered building may be given in the usual way by the party resident in England. As regards Scotland, the party there, after a residence of fifteen days, should apply to the session clerk to publish banns; as regards Ireland, the party there, after a residence of seven days, must give notice to the District Registrar of Marriages. Notice cannot be given for such marriages to take place by the licence of the Superintendent Registrar.

Marriage of such parties may take place in a church of the Church of England after the publication of banns, or by Ecclesiastical licence.

MARRIAGES OF BRITISH SUBJECTS
ABROAD

Act passed June 27, 1892, came into force Jan 1, 1893. Order in Council dated Nov 22, 1913, whereby previous Orders are repealed and regulations for marriages under the Act are laid down.

British subjects may contract a valid marriage in a foreign country provided they conform to the provisions of the Foreign Marriages Act, 1892. One of the parties to the marriage only need be a British subject.

Where a marriage according to the local law of a foreign country is valid by English law, then, before the marriage is solemnized in that country under the Act, the marriage officer as defined by the Act must be satisfied—

- (a) That both the parties are British subjects, or,
- (b) If only one of the parties is a British subject, that the other is not a subject or citizen of the country, or,
- (c) If only one of the parties is a British subject and the other a subject or citizen of the country, that sufficient facilities do not exist for the solemnization of the marriage in the foreign country in accordance with the law of that country, or,
- (d) If the man is a British subject and the woman a subject or citizen of the country, that no objection will be taken by the authorities of the country to the solemnization of the marriage under the Act.

In the case of any marriage under the Act, where the woman is a British subject and the man a foreigner, the marriage officer must be satisfied—

- (a) That the marriage will be recognized by the law of the country to which the foreigner belongs, or,
- (b) That some other marriage ceremony in addition to that under this Act has taken place, or is about to take place, between the parties, and that such other ceremony is recognized by the law of the country to which the foreigner belongs, or,
- (c) That the leave of the Secretary of State has been obtained.

The marriage must be solemnized by or before a marriage officer as defined by the above-named Act.

It is necessary for one of the parties to the intending marriage to sign a notice stating the name, surname, profession, condition, and residence of each of the parties, and whether each of the parties is or is not a minor, and to give the notice to the marriage officer within whose district both of the parties have had their residence not less than one week then next preceding, and the notice must state that they have so resided.

If the parties reside in different districts, such notice must be given to the marriage officer of the district before whom the intended marriage is to be solemnized, by the party who has resided for a period of not less than one week within the district of such marriage officer.

If one of the parties resides (a) in the United Kingdom, or (b) in a Colony or India (a) notice must be given in like manner as if the party so resident were about to be married in that part of the United Kingdom in which he or she resides, and in England or Ireland must be given to the superintendent registrar or registrars,

and in Scotland must be given by proclamation of banns, and (b) such notice must be given by the party dwelling in such Colony or in India as may be provided by any law of that Colony or of the Governor-General of India in Council, or in like manner as if the party were about to be married in that place.

If the non-resident party has dwelt in the district of a marriage officer in a foreign country notice must be given by that party in like manner as if the marriage were to be solemnized by or before such marriage officer, or if the place in a foreign country at which the non-resident party has dwelt is not within the district of a marriage officer the notice may be given to any person authorised by the Secretary of State to receive such notices. Where neither party has resided for a period of not less than one week within the district of the marriage officer before whom the intended marriage is to be solemnized, and (a) the marriage cannot conveniently be solemnized at the place where either of the parties has had his or her usual place of abode, or (b) the permission of the Secretary of State has been obtained, notice must be given by each of the parties in the place where he or she has had his or her usual place of abode for a period of not less than one week immediately preceding the giving of such notice in the prescribed manner, and a certificate of the giving of such notice obtained.

If the Secretary of State is satisfied that for some good reason the party has not been able to give the required notice and that the marriage is not clandestine and that adequate notice has been given he may permit the marriage to be solemnized.

Before the marriage is solemnized each of the parties must make an oath.

- (a) That he or she believes that there is no impediment.
- (b) That both the parties have had their usual place of residence in the district of the consular marriage officer for three weeks immediately preceding, or if they have not both resided there during three weeks then that one of them has so resided, and stating the place where the party who has not so resided has within three months immediately preceding had for three consecutive weeks his or her usual place of abode, and the notice that has been given in that place, or, if neither party has resided there, stating the place or places where each party has within three months immediately preceding had for three weeks, his or her usual place of abode, and the notices that have been given in those places.

After the expiration of 14 days after the notice of an intended marriage has been entered, then if no lawful impediment to the marriage is shown, and the marriage has not been forbidden in manner provided by the Act, the marriage may be solemnized. A consular officer holding a warrant for a district can only solemnize a marriage at his own official house. Parties residing within a consular district who may wish to be married under the Act must go to the consular officer provided with a warrant for that district, two or more witnesses are required to be present.

The following fees for marriages under the Foreign Marriage Act are leviable under the Consular Fees Order in Council of August 18,

1892, and are payable to His Majesty's Government:—

For receiving notice of an intended marriage	£ s d.
For receiving notice of a caveat	0 10 0
For every marriage solemnized by or in the presence of a Marriage Officer and registered by him	1 0 0
For certificate by a Marriage Officer of notice having been given and posted up, in case of one of the parties residing outside the consular district in which the marriage is to take place	0 10 0
For attendance by consular officer at a marriage solemnized in accordance with the local law and for registration of the same	0 5 0
	1 0 0

Marriages may be solemnized 8 a.m. to 3 p.m. No religious ceremony is required, but any form according to the creed of the contracting parties may be used. The presence of the duly authorized Marriage Officer is, however, necessary to render the marriage valid. If the ceremony be that of the Church of England, it can only be performed by a clergyman of that Church.

Marriages solemnized under the Foreign Marriage Acts are legal by English law when both parties are British subjects, and also when only one of them is a British subject, but such marriages are not necessarily valid out of His Majesty's dominions. In cases where one of the parties is a subject of the country where the marriage is proposed to take place, or of a third country, the party in question must previously comply with the requirements of the marriage law of the country to which he or she belongs, so far as it may be possible to do so, in order to render such marriage also valid by the law of that country.

An Englishwoman married to a foreigner follows the nationality of her husband.

In Germany and Switzerland marriages by any foreign consular officer are, in the absence of any treaty stipulations, strictly prohibited.

A marriage which would not be valid in England would be equally invalid if solemnized in an embassy, legation, or consulate abroad. For instance, marriages within the prohibited degrees of consanguinity or affinity would not be valid.

A marriage between Christians in India may be proved in England by an India Office certificate (*Baid v. Baid*, 1909, 25 T.L.R. 646).

Marriages may also be solemnized under the "Foreign Marriages Act, 1892," before the commanding officer of any of His Majesty's ships on a foreign station provided he be of such rank and of such vessel as is for the time being authorized for that purpose by Admiralty instructions.

MARRIAGES ABROAD WITH FOREIGNERS ACCORDING TO FOREIGN LAW

ACT OF 1906.—Under the *Marriage with Foreigners Act, 1906*, any British subject desiring to be married in a foreign country to a foreigner according to the law of the country may, after giving notice of the marriage, obtain a certificate from the registrar that there is no legal impediment to the marriage. In order to obtain the certificate, the rules set out in the schedule to the Act must be complied with. Any persons may enter an objection to a certificate, the validity of which will be decided by the Registrar-General.

A marriage by repute which is valid by the law of the domicile in a foreign country will be

recognized as valid by the English courts (*re Green Noyes v. Putkin*, 1909, 25 T.L.R. 222).

MARRIAGES IN SCOTLAND

According to the law of Scotland marriage is a contract which is completed by the mutual consent of parties. No formalities are required and no consent of parents or guardians is necessary. It can be contracted by a male over 14 years of age and a female over 12. Marriages may be "regular" or "irregular."

A regular marriage is one which is celebrated by a Minister of religion after due notice by the publication of banns or publication by the Registrar. Any Minister of any denomination (including a person officiating at a Quaker wedding) who performs the ceremony is reckoned to be a minister of religion. It must be performed before two witnesses and one of the parties must have resided in Scotland for at least 15 days before the ceremony. Public proclamation is made by (a) banns or (b) notice by the Registrar. Banns must be proclaimed in the parish church of both parties. It is ordered that the proclamation of banns should be made three times, but by immemorial practice proclamation on one Sunday is sufficient. The Clerk of the Kirk Session of the Parish takes in notices of banns and issues certificates of proclamation. The fee for proclamation may not exceed 2s 6d. A certificate of proclamation of banns is only valid for three months.

Under the *Marriage Notices (Scotland) Act 1878* a notice posted up in a conspicuous or accessible place on the board or outer wall of the Registrar's office is equivalent to the proclamation of banns. Exhibition is made for seven consecutive days. Objection may be made within other seven days. If no objections are lodged the Registrar issues a certificate fee, 1s 6d. Such certificate of publication is only valid for three months. Under the *Naval Marriages Act 1908* banns may be published on board one of His Majesty's ships where an officer, seaman or Marine on the ship's books wishes to contract a marriage in Scotland. A declaration under the *Marriage Notices (Scotland) Act* already referred to may also be filed up and the officer commanding the ship may grant a certificate.

Irregular Marriages are survivals of modes of marriage which were general throughout Europe in mediæval times, Scotland having disregarded the decrees of the Council of Trent invalidating irregular marriages, Scotland following the ancient Canon law. These marriages may be contracted in three ways: (1) by exchange of consent before two witnesses (called in legal language *per verba de presenti*); (2) by promise of marriage followed by intercourse on the faith of the promise (called marriage by promise, *subsequente copula*), the promise, however, can only be proved by the writing or the oath of the party when action is brought; (3) by constant living together as husband and wife (called marriage by *habit and repute*), i.e., the general repute of the neighbourhood supported by consistent conduct. Marriage by the first mode is only valid if one of the parties has been resident in Scotland for 21 days before the contract is entered into. (This is the result of legislation and not part of the common law of Scotland.) "Gretna Green" marriages were abolished in 1856 by the Act 19 and 20 Victoria, Chap. 95. Marriages thus contracted may be registered if

the parties appear before the Sheriff with their witnesses and petition for registration within three months. On the Sheriff granting warrant the Registrar registers the marriage for a fee of *5s. 2d.* The other two forms of marriage before they are held to be valid must be declared by a decree in the Court of Session.

Marriage with a foreigner may be solemnized regularly if one of the parties has a residential qualification and provided that one party has resided in Scotland for *21* days and the minister agrees to dispense with the proclamation of banns in the case of the foreigner. Marriage of a Scottish person with a foreigner, or marriage of two foreigners, may be contracted irregularly if one or other of the parties has resided in Scotland for *21* days.

Statistics of Marriages

	1920	1921	1922
England & Wales	379,982	320,852	299,524
Scotland	46,754	39,273	34,394
Ireland	26,226	23,223	23,223
Total	453,962	383,348	357,141

PASSPORTS.

Applications for Foreign Office Passports must be made in the form printed on the back of the Regulations (to be had on application), and must be accompanied by two copies of a photograph of the applicant, one copy being duly certified by the recommender. Applications should be enclosed in a cover addressed to "The Passport Office, 1 Queen Anne's Gate Buildings, Dartmouth Street, Westminster, S.W. 1" or to "The Branch Passport Office, 56 Dale Street, Liverpool." Applications should, if possible, reach the Passport Office not less than *four* days before that on which the Passport is to be issued. The charge for a Passport is *7s. 6d.* Passports are issued in London between the hours of *10* and *4* (Saturdays, *10* to *1*), and in Liverpool, *9.30* to *4* (Saturdays, *9.30* to *1*), except on Sundays and Public Holidays, when the Passport Offices are closed. They may also be obtained through the post if a Postal Order for *7s. 6d.*, made payable to the Passport Office, is forwarded with the application. Postage stamps will not be received in payment.

Foreign Office Passports are granted (1) to natural-born British subjects, (2) to the wives and widows of such persons, and (3) to persons naturalised in the United Kingdom, in the British Dominions or Colonies, or in India.

A married woman is deemed to be a subject of the State of which her husband is for the time being a subject.

Passports are granted (1) in the case of natural-born British subjects and persons naturalised in the United Kingdom, upon the production of a Declaration by the applicant in the form printed at the back of the Regulations, verified by a Declaration made by a member or official of any Banking Firm established in the United Kingdom, or by any Mayor, Magistrate, Provost, Justice of the Peace, Minister of Religion, Barrister-at-law, Physician, Surgeon, Solicitor, or Notary Public, resident in the United Kingdom, the applicant's Certificate of Birth and other evidence may also be required. Applicants serving in His Majesty's Forces may have their declarations verified by their Commanding Officers; (2) in the case of children under

the age of *16* years requiring a separate Passport, upon production of a Declaration made by the child's parent or guardian in a Form (B), to be obtained upon application to the Foreign Office, (3) in the case of persons naturalised in any of the British self-governing Dominions, upon production of a letter of recommendation from the High Commissioner or Agent-General in London of the State concerned, and in the case of natives of British India, and persons naturalised therein, upon production of a letter of recommendation from the India Office. Persons naturalised or ordinarily resident in any of the Crown Colonies must obtain a letter of recommendation from the Colonial Office.

If the applicant for a Passport be a naturalised British subject, his certificate of naturalisation must be forwarded to the Foreign Office with the Declaration or letter of recommendation. Naturalised British subjects will be described as such in their Passports, which will be issued subject to the necessary qualifications.

British Passports are only available for travel to the countries named thereon, but may be endorsed for additional countries. The possession of a Passport so endorsed does not, however, exempt the holder from compliance with any *Immigration Regulations* in force, or from the necessity of obtaining a *visa* where required.

Foreign Office Passports are not available beyond two years from the date of issue. They may be renewed for four further periods of two years each, after which fresh Passports must be obtained. The fee for each renewal is *2s.*

A Passport cannot be issued on behalf of a person *already abroad*, such person should apply for one to the nearest British Mission or Consulate. Passports must not be sent out of the United Kingdom by post.

PAWNBROKERS' REGULATIONS.

For the TICKET on goods pledged for *10s.* or less

On goods pledged for more than *10s.* $\frac{1}{2}d.$

For INTEREST on pledges not exceeding *40s.* *1d.*

for every *2s.* or part of *2s.* per month $\frac{1}{4}d.$

And after the first month any time not exceeding

14 days to be charged as half a month.

Note.—In addition to the above charge, an additional charge of $\frac{1}{4}d.$ for each *5s.* or part of *5s.* lent is authorized (*Pawnbrokers' Act, 1922*).

On pledges exceeding *40s.* for every half-

crown or part of half a crown, per month $\frac{1}{2}d.$

FORFEITURE.—Pledges for *10s.* and under must

be redeemed within twelve calendar months and

seven days from the date of pledging. After that

they become the property of the pawnbroker.

Pledges above *10s.* if not redeemed within

twelve calendar months and seven days from the

day of pledging, may be sold by auction by the

pawnbroker, but may be redeemed at any time

before the day of sale.

Within three years after sale the pawner may

inspect the account of the sale in the pawnbroker's

books on payment of one penny, and receive any

surplus produced by the sale. Should there be a

deficit, the pawner, or the person producing the

ticket, is liable to pay the deficiency. Any deficit

on sale of one pledge may be set off by the pawn-

broker against surplus on another.

If any pledge is destroyed or damaged by fire,

the pawnbroker will be bound to pay the value of

the pledge after deducting the amount of the loan

and profit—i.e., the loan and profit and *25* per

cent. on the amount of the loan.

If any ticket is lost, mislaid, or stolen, the pawnor should at once apply to the pawnbroker for a form of declaration to be made before a magistrate, or the pawnbroker will be bound to deliver the pledge to any person who produces the ticket to him and claims to redeem the same.

When the loan is 5s or under, the charge on form of declaration is one halfpenny, when the loan is above 5s, one penny.

SPECIAL CONTRACTS.—A pawnbroker may make a special contract with a pawnor in respect of a pledge on which the pawnbroker makes a loan of above 40s, provided always that—

(1) The pawnbroker at the time of the pawning shall deliver to the pawnor a special contract pawn-ticket, signed by the pawnbroker.

(2) The duplicate of the special contract pawn-ticket shall be signed by the pawnor.

The pawnbroker may also charge—For ticket, profit per calendar month, for storage of the pledge, and payment to inspect account of sale, such sums and rates as may be agreed upon at the time of making the contract.

After the first calendar month any time not exceeding fourteen days will be charged as half a month, and any time exceeding fourteen days and not more than one month as one month.

The charge for storage of the pledge will be per calendar month, or any part of a month, in addition to the charges above mentioned.

Pledges may be pawned under special contract for a period of not less than three months.

In all other respects pledges under special contract are subjected to the same rules as to sale by auction, inspection of account of sale, payment of surplus produced by sale, and loss of ticket, as are set forth above in the case of ordinary pledges for more than 10s.

RECEIPTS.

RECEIPTS should be kept for six years from the date of payment, after which period no action can be brought concerning the goods, &c., received.

RENT RESTRICTION

AND OTHER MODIFICATIONS OF THE LAW OF LANDLORD AND TENANT

The Increase of Rent and Mortgage Interest (Restrictions) Act, 1920, was dealt with on pp. 427-428 of the 1921 edition of "WHITAKER."

STREETS AND FOOTPATHS.

STREETS AND FOOTPATHS.—The scavenging of streets and the cleansing of footways and pavements is generally undertaken by the sanitary authorities. It is unlawful to place or leave on any footway any furniture, goods, wares or merchandise, or any cask, tub, basket, pail, &c., or to place over any footway any blind, shade, covering, awning, or other projection less than eight feet in height from the ground, or to place any goods, wares, merchandise, matter, or thing whatsoever, so that the same project in such a manner as to obstruct or incommode the passage of any person over or along a footway, or to roll any cask, tub, hoop, or wheel upon any footway, except for the purpose of crossing the footway; or to throw or lay down any materials in any street, or beat or shake any carpet, rug, or mat in any street after the hour of eight in the morning.

VACCINATION.

The parent of every child born in England must within six months after the birth of the child, or the person having custody of a child must within six months after receiving it, have the child vaccinated by a registered private

medical practitioner or by the Public Vaccinator for the district. If the vaccination is performed by a private medical practitioner a certificate in the form prescribed by the Vaccination Order, 1898, of successful vaccination must be sent to the Registrar of Births within seven days. The Public Vaccinator is required on the request of the parent or guardian of a child to visit the home of the child and vaccinate it free of charge with glycerinated calf lymph or with such other lymph as may be issued by the Local Government Board at the option of the parent. If a child is not vaccinated within 4 months of its birth, the Public Vaccinator is required to give 24 hours' notice to the parent and to visit the home of the child and offer to vaccinate it. No parent or other person will be liable to any penalty under the Vaccination Acts if within four months from the birth he makes a statutory declaration before a commissioner for oaths or one justice of the peace that he conscientiously believes that vaccination would be prejudicial to the health of the child, and within seven days thereafter delivers the statutory declaration (which requires no stamp) to the Vaccination Officer for the district. A conscientious objector can thus escape all penalties, but a person who does not obtain a certificate, or make the declaration, will still be liable to penalties for not having a child vaccinated, and by the Vaccination Order, 1898, issued under the Vaccination Act, 1898, by the Local Government Board, the due vaccination of every child not exempted is secured by a very complete system of registration, and in future the Vaccination Officers will be able to undertake prosecutions without directions from Boards of Guardians, and the Boards will have no power to prevent such prosecutions. [See also Vaccination Order, 1907.]

WILLS

REASONS FOR MAKING A WILL.—Every man having a wife and family should make his will. However small his estate, it is an imperative duty in most cases, and is safer in every case, to protect the interest of the survivors by a will, and by the appointment of one or more trustworthy persons to carry his wishes into effect. When persons die intestate, having foolishly put off making a will until it is too late, their negligence may deprive those for whom they were most anxious to provide. Thus a widow may find that the estate, a life policy perhaps, is not all hers, but has to be shared with a distant cousin of her husband's. Negligence, or unreasonable dislike to making a will, becomes an irreparable crime against those who have the first claim to protection. The help of a lawyer in making a will is not in every case essential, but it is always advisable, particularly where there is a desire on a testator's part to provide for his property being "settled" as it is called—*e.g.*, the income being paid to his widow for her life, or until remarriage, and on her death or remarriage the capital being divided among his children equally. The tying-up or postponing the enjoyment of income or capital requires the skill of a practised lawyer. Assuming that a lawyer is not employed, a person having resolved to make a will must not regard it as a light matter, to be got rid of in a few minutes, like writing a letter, but one demanding the most serious attention. It is only after a person is dead, and cannot explain his meaning, that his will can be open to dispute. It is the more necessary, therefore, to

express what is meant in language of the utmost clearness, avoiding the use of any word or expression that seems to admit of another meaning than the one intended. The lawyers have a maxim that the unforeseen (i.e., the event not provided for) always happens. It is better to be prolix than to leave the smallest room for doubt or uncertainty, although the same name or word be repeated over and over again. Sounding phrases are entirely out of place. Avoid the use of "legal terms," such as "heirs" and "issue," when the same thing may be expressed in plain language. If in writing the will a mistake be made, it is better to rewrite the whole. Before a will is executed, that is, signed by the testator in presence of two witnesses, an alteration may be made by striking through the words with a pen, but opposite to such alteration the testator and witnesses should write their names or place their initials. Never scratch out a word with a knife or other instrument, and no alteration of any kind whatever must be made after the will is executed. If the testator afterwards wishes to change the disposition of his estate, it is better to make a new will, revoking the old one, or to add a codicil to the first, which must be duly executed and attested in the same manner as the original will. *A will should be written in ink and very legibly on a single sheet of paper.* Although, of course, forms of wills must vary to suit different cases, the following directions may be found useful to those who, in cases of emergency, are called upon to draw up wills, either for themselves or others.

TESTATOR OR TESTATRIX.—The person who makes the will is the testator, or if the will-maker be a woman, the testatrix.

ESTATE.—By this word is to be understood property of all kinds, both real and personal. Real property includes tithes and advowsons, as well as freehold land and houses, while personal property includes debts due, arrears of rents, money, leasehold property, house furniture, goods, assurance policies, stock in public companies, and the like.

RESIDUARY LEGATEES.—It is well in all cases to leave to some person or persons "the residue of my estate and effects," although it may be thought that the whole of the property has been disposed of in legacies already mentioned in the will. It should be remembered that a will operates on property acquired after it has been made.

TO BEGIN A WILL.—A form in which a will may be commenced is:—"This is the last will of me, Thomas Smith, of Vine Cottage, Silver Street, Reading, in the county of Berks."

TO END A WILL.—After disposing of the property, the will may be ended as follows:—"And I hereby appoint the said — sole (or joint) executor(s) of this my Will, and I revoke all former wills and codicils. Dated this — day of —, 19—"

EXECUTION OF A WILL.—The testator should sign his name at the foot or end of the will, in presence of two witnesses, who will immediately sign their names in his and in each other's presence. A person who has been left a legacy or share of residue in the will, or whose wife or husband has been left a legacy, should not be an attesting witness. Their attestation would be good, but they would forfeit the legacy. It is better that a person named as executor should not be a witness. Husband and wife may both be witnesses, provided neither is a legatee. If a solicitor be appointed executor, it is lawful to direct that his ordinary fees and charges shall

be paid, but in this case he (as an interested party) must not be a witness to the will.

ATTESTING EXECUTION.—Opposite to or beneath the testator's signature should be written the attestation clause. The following form of attestation will be found sufficient:—

Signed by the testator [or testatrix, as the case may be], in the presence of us, both present at the same time who in his (or her) presence and in the presence of each other have hereunto set our names as witnesses

THOMAS SMITH
[Signature of Testator]
William Jones, of Vine Cottage, Silver Street, Reading, Tailor. Henry Morgan, of North Street, Reading, Esq.

It is desirable that the witnesses should be fully described, as they may possibly be wanted at some future time. If the testator should be too ill to sign, even by a mark, another person may sign the testator's name to the will for him, in his presence and by his direction, and in this case it should be shown that the testator knew the contents of the document. The attestation clause should therefore be worded "Signed by Thomas Brown, by the direction and in the presence of the testator, Thomas Smith, in the joint presence of us, who thereupon signed our names in his presence and in the presence of each other, the will having been first read over to the testator, who appeared fully to understand the same." If the testator be blind the will should be read aloud to him in the presence of the witnesses, and the fact mentioned in the attestation clause. If by inadvertence the testator should have signed his will without the witnesses being present, then the attestation should be—"The testator acknowledged his signature already made as his signature to his last will and testament, in the joint presence," &c. Any omission in the observance of these details causes delay and expense, and sometimes great difficulty is experienced in procuring an affidavit by one of the attesting witnesses before the will can be admitted to Probate.

CODICIL.—When any change is required to be made in the disposition of property as stated in the will, the change should be embodied in a codicil. A codicil should begin—"This is a codicil to the will of me, Thomas Smith, of Vine Cottage, Silver Street, Reading, in the county of Berks, the said will bearing date," &c. A codicil must be dated at the end, and signed and witnessed with exactly the same formalities as the will.

EXECUTORS.—It is usual to appoint two executors, although one is sufficient. The name and address of each executor should be given in full, as follows:—"I appoint John Jones, of number twenty-one, London Street, Ipswich, and Edward Matthews, of number seventeen, Market Street, Lincoln, executors of this my will." An executor may be a legatee. Thus a child or wife to whom the whole or a portion of the estate is left may be appointed sole executor, or one of two executors. The addresses of the executors are not necessary; but it is desirable, here as elsewhere, to avoid ambiguity or vagueness.

APPOINTMENT OF TRUSTEES.—The form of appointment of executors will also serve when the estate is left in care of trustees, except that the persons should be designated "executors and trustees." The Public Trustee may be appointed executor or trustee of a will. See PUBLIC TRUSTEE, post.

TRUSTS OF THE WILL.—When the estate is wholly for the children, the will may read, after the appointment of the executors and trustees—“I give and devise all my estate and effects, real and personal, of which I may die possessed or entitled to, unto the said John Jones and Edward Matthews, upon trust in equal shares for all or any my children or child living at my death who being sons or a son attain the age of 21 years or being daughters or a daughter attain that age or marry. And for all or any the children or child living at my death, who being male attain the age of 21 years or being female attain that age or marry of any child of mine who dies in my lifetime leaving children or a child living at my death, such last-mentioned children or child to take the share or shares which their parent would have taken if living at my death, and so that no grandchild of mine shall take whose parent is living and capable of taking.” Where the widow is to have a life-interest use the following words: “upon trust for my wife during her life (or during her widowhood), and after her death (or second marriage, which first happens) upon trust in equal shares for all or any my children or child” &c as before. The words in square brackets will only be used where the widow is to lose her interest if she marries again.

TESTAMENTARY CAPACITY.—A minor cannot make a will. A married woman (married since January 1, 1883) may dispose by will of any real or personal property as her separate property as if she were a *feme sole* (Married Women's Property Act, 1882, s. 1 (1)). As to the powers of a woman married before that date it is advisable to consult a solicitor.

REVOCATION.—A will is revoked by a subsequent will (but only so far as such subsequent will operates as a virtual revocation, as by making other provisions inconsistent with the previous will; for this reason a will should always have a clause revoking previous testamentary dispositions), or by burning, tearing, or otherwise destroying the same. It is not sufficient to obliterate the will with a pen. Marriage in every case acts as the revocation of a will: so that after marriage the old will should be re-acknowledged, or a new one made.

LAPSED LEGACIES.—If a legatee die in the lifetime of the testator, the legacy or share of residue lapses and falls into the residue, excepting only in cases where the legatee is a child or “other issue” of the testator and leaves issue living at the testator's death, and the will does not provide for the class of children or issue being ascertained at some period other than the death of the testator. For instance, if a share of residue is left to “all my children living at my wife's death,” the share of a child who died in the wife's lifetime would lapse even though the child should leave issue.

TO ONE PERSON ABSOLUTELY.—When it is the intention to leave all the property to one person, as for instance a wife or child, the will may read:—“I devise and bequeath all my estate and effects, real and personal, which I may die possessed of or entitled to, unto my wife Mary Smith, absolutely.”

TO CHILDREN UNDER AGE.—When estates are left wholly or in part to children under the age of 21 years, trustees should be appointed to hold the property in trust for those to whom it will ultimately belong. The trustees will have power to apply the annual income for their maintenance.

A wife may be appointed a trustee, or may be sole trustee. It is also usual to appoint the executors or some near relative, guardians of children under age. By the Guardianship of Infants Act, 1886, the mother of a child, if she survives the father, becomes the guardian of such child, either alone, if no guardian is appointed, or jointly with any guardian appointed by the father.

ALL PROPERTY TO BE INVESTED.—Executors and trustees may be empowered to sell and dispose of an estate, and after the payment of all just debts and expenses to invest the remainder. For this purpose the section headed “Trust Investments” should be consulted.

The stringency of the law as to the due execution of wills is only relaxed in favour of sailors and soldiers while on service. The law of wills is mostly contained in the Wills Act, 1 Vict. c. 27.

DUTIES OF EXECUTORS.—After the death of the testator, the duties of the executor may be stated briefly as follows.—The first duty of the executors, or of one of them, is to see that the funeral takes place in a suitable and becoming way, then to make lists or schedules of the debts and the assets or property. For purposes of duty it is necessary to estimate the value of the real and personal property left, or get it valued. Under the Finance Act, 1894, duties are charged on all property in which the testator had a life interest, even though the property may not have been under his personal control. The executor must take the will to the Probate Registry, Somerset House, or to the Probate Registry of the district in which the testator had a fixed place of abode, or to a solicitor, and prove the will, to collect all the property of the deceased and pay all his just debts, and before distributing the estate, if it be a large one, it is necessary in order to relieve the executors from personal liability to duly advertise in certain London and local newspapers for all claims against the estate to be sent in before a specified date. Pay the legacy or succession duty. Dispose of the residue of the property as directed in the will. By the Land Transfer Act, 1897, all the testator's real estate becomes vested in the executors, who hold the same as trustees for the persons beneficially entitled under the will or otherwise, and such persons can only acquire a title to the estate through the executors, after payment of all charges and liabilities to which the same is subject. Executors are not obliged to act, neither is it necessary that all the executors should act. One alone is competent to prove a will and carry out its provisions. In small estates, probate and letters of administration may be obtained through an Inland Revenue Office.

ADMINISTRATORS.—If an executor has not been appointed in the will, or if the executor be dead, or does not wish to act, the residuary legatee nearest of kin to the deceased, or a legatee under the will, is entitled to act and administer the will, and is called administrator.

WHERE TO FIND A PROVED WILL.

To find a will proved before Jan. 1, 1898, the date on which the Court of Probate Act, 1897 (see & 21 Vict. c. 77), came into operation, it is best to search first—if the testator was a man of substance—the index to the wills proved in the Prerogative Court of Canterbury, which is kept at Somerset House. Failing this, the will is probably to be found in the registry of the district

in which it was proved. The wills proved prior to 1858 were all distributed among the district registries when these institutions came into existence. This is the only broad rule which can be laid down to guide a searcher. To find a will proved since 1858 is a far simpler task. It must have been proved either at the Principal Registry at Somerset House, or in the registry of the district in which the testator lived. In the former case the original will itself is carefully preserved at Somerset House, the copy of which probate has been granted is in the hands of the executors who proved the will, and another copy for Parliament is bound up in a folio volume of wills made by testators of that initial and date, the indices to these volumes fill a room of considerable size at Somerset House, where the indices may be examined and any will read on payment of a search fee of one shilling. In the latter case, the original will, proved in the District Registry, is there kept, and may be seen or a copy obtained, but a copy is sent to and filed at Somerset House, where also it may be seen. A general index of grants, both probate and administrations, is prepared and printed annually in lexicographical form, and may be seen at either the Principal or a District Registry. This index is usually ready by about June or July of the following year. The reader may not copy any part of the will except the names and addresses of the executors and the date and private number of the will. If he desires a copy, he can order one to be made, for which he will pay according to the length of the will, at the rate of sixpence a folio (ninety words) for an ordinary copy, and ninepence a folio for a certified copy, which, with a shilling stamp impressed thereon, can be produced and read in any court of law. The District Probate Registries were enumerated on p. 431 of the 1921 "WHITAKER."

SAFE CUSTODY OF WILLS

There is a depository for the safe custody of the Wills of *living persons* at Somerset House. A will may be deposited through the Registrar of a District Registry, who will transmit the will to London in a registered letter on receiving a fee of 10s for the deposit, of 2s 6d for entering a minute thereof, and 2s for filing the affidavit which is required. A will once deposited will not be given up to anybody, but must remain in the registry until the testator dies, unless he goes to the registry with the original minute of deposit and other proof of his identity, and destroys his will in the presence of the Registrar. (See also PUBLIC TRUSTEE, post.)

PROBATE OF WILLS

OBTAINING PROBATE OR ADMINISTRATION WITHOUT THE AID OF A SOLICITOR

The entrance to the office for personal applications is in the south-east corner of the Quadrangle of Somerset House, Strand, Room 44. The applicant should bring the registrar's certificate of the death of the deceased, or an official certificate of burial, and the will, if there be one, and full details of the property and debts of the deceased.

If there be no will or no executor be appointed, or the executor will not act, two sureties must also attend and enter into a bond for the faithful administration of the estate, unless the whole personal estate does not exceed £50, or the husband is the applicant, when one surety only will be required.

The scale of probate duty as at present in force will be found in detail under "Estate Duty."

In no case can any correspondence be entered into, nor can an interview be given to any agent. The business of the department can be transacted only with the applicant in person.

Where the deceased resided within the district of one of the "District Probate Registries" (q.v.) application may be made at that registry instead of at Somerset House.

Where the whole real and personal estate, without the deduction of debts or funeral expenses, does not exceed £500, application may be made at one of the Inland Revenue Offices in the suburbs and many principal towns throughout the country.

Where the deceased has left no will, and the whole personal estate does not exceed £500, and the widow resides at more than three miles from any Probate Registry, application may be made to the Registrar of the County Court.

Scotland—“Confirmation” is the Scottish equivalent of Probate. That is obtained in the Sheriff Court of the County in which the deceased was domiciled at the date of his death or where he had no fixed domicile or died abroad, in the commissariat of Edinburgh. Executors are either “nominate” or “dative.” An Executor nominate is one nominated by the deceased in his will. An Executor dative is one appointed by the Court (1) in the case of intestacy or (2) where the deceased had failed to name an executor in his will. In the former case the deceased's next-of-kin are all entitled to be declared executors dative. An inventory of the deceased's estate and a schedule of debts, together with an affidavit, must be given up. If the deceased had personal property in England or Ireland it is shown in the inventory, and then the confirmation is produced in the principal Court of Probate in England or Ireland. It is then sealed in such Courts and has the effect of probate or letters of administration in England or Ireland. In estates under £500 confirmation is obtained at reduced fees.

SCOTS LAW OF WILLS

The only formalities required by the Law of Scotland as regards due execution of a will are for purposes of authentication. A will must be in writing (except that a person may leave a legacy verbally if the amount of that legacy does not exceed 100 Scots (£8 6s 8d sterling). A will may be either (1) *holograph*, i.e., written by the testator himself, in which case no witnesses are necessary, (2) *testated*, which means that it is signed in presence of two witnesses. It is not necessary that these witnesses should sign in presence of one another, or even that they should see the testator signing so long as the testator acknowledges his signature to the witnesses. If the testator cannot write, his will may be authenticated by a notary and two witnesses. A parish minister may act as a notary for the purpose of subscribing a will in his own parish. Wills are registered for execution purposes in the Books of the County in which the deceased died domiciled, and in the Books of Council and Session, H.M. General Register House, Edinburgh, for preservation. The original deed may be inspected in the General Register House on payment of a small fee. A certified official copy may be obtained from either register on payment of stamp duties and writing fees.

TRUST FUNDS AND INVESTMENTS.

The Act of 1893 enacts that Trustees may invest in any Parliamentary Stocks or Government Securities of the United Kingdom on real or heritable Securities in Great Britain or Ireland in Bank of England Stock in Bank of Ireland Stock in India $3\frac{1}{2}$ per cent and 3 per cent Stocks, any Stock hereafter issued by authority of Parliament charged on revenues of India: any Securities having interest guaranteed by Parliament Metropolitan Board of Works or London County Council Stocks Debenture Stock created by Metropolitan Police District Receiver Debenture, Rent-charge, Guaranteed or Preference Stocks of any railway in Great Britain or Ireland that has paid not less than 3 per cent per annum on Ordinary Stock for each of the 10 years preceding date of investment any railway or canal Stock in Great Britain or Ireland leased for 200 years or more at a fixed rental to any railway specified above: Indian Railway Debenture Stocks of companies with interest paid or guaranteed by Indian Council "B" Annuities, Eastern Bengal, East Indian, and Scinde, Punjab, and Delhi Railway, "C" and "D" Annuities of the East Indian Railway, and any like annuities of any other railway hereafter created any Indian railway with fixed or minimum dividend paid or guaranteed by Indian Council any Debenture, Guaranteed or Preference Stocks of any incorporated or chartered Water Company in Great Britain or Ireland that has paid not less than 5 per cent per annum on Ordinary Stock for each of the 10 years preceding date of investment any Corporation Stock of any borough having 50,000 inhabitants any County Council Stock authorised by Act of Parliament or Provisional Order any Water Stocks issued by incorporated Commissioners levying compulsory rates over areas containing 50,000 inhabitants, such rates not having exceeded 80 per cent of authorised amount for 10 years and in any Securities authorised by order of the High Courts of Justice of England or Ireland Provided Stocks redeemable within 15 years are not purchased at a premium over the redemption price, or at more than 15 per cent premium over such redemption price if redeemable after 15 years.

The Rule of the Supreme Court, 1883, authorises investment in—Debenture, Preference, Guaranteed, or Rent-charge Stocks of railways in Great Britain or Ireland having for ten years next before the date of investment paid a dividend on Ordinary Stock or Shares, and in like Stocks if guaranteed by Railway Companies of the same description and in Nominal Debentures or Nominal Debenture Stock under the Local Loans Act, 1875, or under the Isle of Man Loans Act, 1880, provided such Stocks are not liable to redemption within fifteen years from the date of investment.

The Trusts Amendment Act, 1884 (Scotland only), excludes Irish real or heritable Securities or Stocks, and British Railway contingent Preference and Waterworks Stocks, admits all Railway Debenture Stocks and Guaranteed Stocks of railways that have paid Ordinary Dividends for the past ten years, and all Municipal Loans, and East India Stocks, and registered Colonial Stocks if approved by Court of Session.

The Colonial Stock Act, 1900, permits Trustees, both English and Scottish, to invest in certain Colonial Stocks registered in the United Kingdom which the Treasury publishes a list of in

the London and Edinburgh Gazettes, but subject to the clause as to Redeemable Stocks in the Trustee Act, 1893.

THE PUBLIC TRUSTEE.

This is a Government Office (opened in 1908) by means of which the State acts as Executor and as Trustee under a Will, or as Trustee under a Settlement, whether new or old, and in other capacities of a like nature. The public demand for the services of the Public Trustee is well maintained. The value of the trusts accepted up to March 31, 1924, was £216,858,552.

The facts of any trust, new or old, in which it is desired that the Public Trustee should act may be brought to his notice by letter or by personal interview. Upon his assenting to act, his appointment is effected in the same simple way as in that of a private trustee, or he can be appointed by an Order of the Court. He can act solely or jointly with others.

In the case of a Will about to be made, all that the testator need say is, "I appoint the Public Trustee executor and trustee of this my Will", or the appointment may be a joint one with friends or relations. In the case of a Will already made, the appointment of the Public Trustee can be effected by means of a codicil. Executors who have obtained probate can transfer their duties to him under an Order of the Court. He can also act as Administrator with, or without, the Will annexed.

The Public Trustee being a permanent trustee, the expense of fresh appointments is saved. His integrity is guaranteed by the State, while the public demand for his services should ensure a valuable experience and skill in the execution of his office, and a wide knowledge in the work of investment.

The Public Trustee is not, as such, limited in his powers of investment to trustee securities, but, like a private trustee, he is bound by such powers of investment as may be given him in the Will or trust instrument under which he acts. He makes a point of giving the personal attention of himself or of his senior officials to the personal details of any trust. The statutory rules require that strict secrecy shall be observed in respect of all matters dealt with in the Department. Accounts of every trust, in simple form, are furnished to the beneficiaries as required.

The Public Trustee Act provides that the fees to be charged shall be arranged from time to time so as to produce an annual amount sufficient to discharge the salaries and other expenses of the Department and no more. A profit is not intended. An important Committee of Investigation, presided over by Sir George Murray, G.C.B., was appointed by the Lord Chancellor in April, 1919, to inquire into the organisation of the Office and any alteration which might be required in the scale of fees.

An interview with the Public Trustee or with any of his senior officers can be arranged at any time by letter or telephone.

A pamphlet giving full particulars and details of the fees can be obtained free of cost upon application to the Office of the Public Trustee, Kingsway, W.C.2 (tel., Holborn 2,400), or at any Post Office.

A branch office has been opened in Northern Assurance Buildings, Albert Square, Manchester.

416 Intestates' Estates, England & Wales and Ireland.

I.—PERSONAL PROPERTY, INCLUDING LEASEHOLDS.

The person entitled to administer is shown in brackets.

In each instance it is supposed there are no nearer relations than those named.

By the Intestates' Estates Act, 1890, the widow of a man dying intestate and without issue is entitled to the whole estate both real and personal if under £500 in value, if over that amount she takes £500 out of the real and personal estate rateably before any division is made, and after that the share in the remainder to which she was entitled before the passing of the Act

His representatives take in the proportions following —

<i>If the Intestate die, leaving</i>	
Widow only	Half to widow Half to the Crown [Widow]
Widow and child or children	One-third to widow, two-thirds to children in equal shares In case of deceased children who have left issue, such issue take amongst them their deceased parent's share [Widow.]
Widow and father	Half to widow. Half to father [Widow]
Widow and mother, no father	Half to widow Half to mother. [Widow]
Widow, brothers or sisters	Half to widow Half equally amongst brothers and sisters, whether of the whole or half blood, if a deceased brother or sister has left issue, such issue take amongst them their deceased parent's share [Widow]
Widow, mother, nephews or nieces	Half to widow One-fourth to mother One-fourth to nephews and nieces <i>per stirpes</i> [Widow]
Husband, with or without children	All to husband [Husband]
Father, brothers, and sisters	All to father [Father]
Mother, brothers, and sisters	All equally [Mother]
Mother, but no other kin	All to mother [Mother]
Children, and grandchildren by deceased children	Amongst children in equal shares, the grandchildren taking amongst them their deceased parent's share [Any number of children not exceeding three]
Brother or sister, and nephews or nieces	Amongst brothers or sisters in equal shares, the children of deceased brothers or sisters taking amongst them their deceased parent's share [Brother or sister]
Brother or sister, and grandfather	All to brother or sister [Brother or sister]
Brother or sister, and uncles or aunts	All to brother or sister [Brother or sister]
Grandfather, no nearer relation	All to grandfather [Grandfather]
Father's father, and mother's mother	Equally to both [Either or both]
Grandmother, uncles, and aunts	All to grandmother [Grandmother]
Great-grandfather, uncles, and aunts	Equally <i>per capita</i> [To either or any number not exceeding three]
Uncles and aunts	All equally [To either or any number not exceeding three]
Uncle, and deceased uncle's child	All to uncle [Uncle]
Uncle by mother's side, and deceased uncle or aunt's child	All to uncle. [Uncle]
Aunts, nephew, and niece	All equally [Either not exceeding three]
Cousins	Equally <i>per capita</i> [Any number not exceeding three]
Nephew by brother, and nephew by half sister	Equally <i>per capita</i> . [Any number not exceeding three]

NOTE A —Taking *per capita* is taking by head individually. Taking *per stirpes* is taking by descent or representation. Thus, if A die leaving three brothers or sisters, and no nearer kin, they each take an equal part of his personal estate in his or her own right, *i.e.*, *per capita*. If there are also children of a deceased brother or sister their share in the estate by taking amongst them the share which their deceased parent would have taken had he or she survived, *i.e.*, *per stirpes*.

NOTE B —By English Law, brothers and sisters of the half blood share equally with the whole blood

II.—REAL PROPERTY.

(N.B.—Leaseholds are Personal Property.)

Table of Descent of Real Property in England & Wales and Ireland on death of an intestate. No illegitimate child is capable of inheriting real estate. Custom of *Gavelkind* (descent to all sons alike) still exists in Kent, and custom of *Borough English* (descent to youngest son) in divers ancient boroughs. The *Dower* (*viz.*, widow's thirds) of widows married since 1533 is in the majority of cases barred.

In each instance it is supposed there are no nearer relations than those named.

<i>If Intestate die, leaving</i>	<i>Real Property would descend to—</i>
Wife only, no blood relations	One-third to wife for life, rest to Crown, copyholds to lord of manor.

<i>If Intestate die, leaving</i>	<i>Real Property would descend to—</i>
Wife and child or children, and children of a deceased child . . .	One-third to wife for life in any case Rest to eldest son or his issue, such son and his issue, whether male or female, being preferred to any other son and his issue, and all sons and their issue, whether male or female, being preferred to all daughters and their issue, whether male or female If no son, rest to daughters equally If daughters and grandchildren (sons and daughters of deceased daughter), rest to daughters and eldest son of deceased daughter
Wife and father . . .	One-third to wife for life, rest to father, if deceased purchased same, or had it left him by will
Wife and mother	One-third to wife for life, rest to mother, there being no heirs on father's side
Wife, brother, or sister, and children of a deceased brother or sister	One-third to wife for life in any case, rest to eldest brother or his issue (<i>See above</i> , "Rest to eldest son or his issue," under head "Wife and child," &c) Sister and children of deceased sister, rest equally between sister and nephew (eldest). Sisters and nieces, only, children of deceased sister, rest equally between sisters and nieces, nieces taking <i>per stirpes</i>
Wife, mother, nephews, and nieces	One-third to wife for life; rest to nephew (eldest), or nieces, if brother left no son
Wife, mother, brother, sisters, and nieces (children of deceased brothers and sisters)	One-third to wife for life in any case, rest to eldest brother
No wife or child or issue of a deceased child	Rest to nieces, equally, if children of elder brother deceased
Children by one or more wives, and the issue of deceased children	Lineal ancestor paternal, males of whole blood first
Husband and child or children	All to eldest son, or his issue (<i>See above</i> , "Rest to eldest son or his issue," under head "Wife and child," &c) Daughters equally Husband for life (provided the wife, or the husband in her right, was at some time during the coverture solely seized in possession of the legal or equitable estate), afterwards to only child or to eldest son or issue of a deceased eldest son If all daughters, to them equally
Mother, but no wife, child, or issue of a child, father, brother, sister, nephew, or niece, or more distant descendants of father	All to mother in default of lineal ancestors on the father's side, or issue of such ancestors
Mother, and brothers and sisters	All to eldest brother
Mother and sisters	All to sisters
Father, and brothers and sisters	All to father
Child and grandchild by deceased child	<i>See above</i> , "Rest to eldest son or his issue," under head "Wife and child," &c
Brother and grandfather	All to brother
Brother's grandson, and brother or sister's daughter	All to great-nephew, if eldest brother's grandson
Brother and two aunts . . .	All to brother's daughter, if child of eldest brother
Brother and wife . . .	Brother, all
Grandfather (no nearer)	One-third to wife for life, rest to brother
Father's father & mother's mother	All to grandfather
Grandmother & uncle, or aunt on father's side (no nearer)	All to father's father
Uncle, and deceased uncle's child . . .	All to uncle or aunt
Uncle by mother's side, and deceased uncle or aunt's child	Uncle, unless deceased uncle was elder brother, when his child takes all
Two aunts, nephew, and niece, children of deceased brother	Child of deceased uncle on father's side, or (if none) child of deceased aunt on father's side
Uncle or aunt's children, and brother's grandchildren through a son	Nephew
Nephew by brother, and nephew by half-sister	Eldest brother's grandson, or if granddaughters between them equally
Nephew by deceased brother, and nephews and nieces by deceased sister . . .	Nephew by brother
	All to eldest nephew, son of deceased brother

NOTE A—By the Land Transfer Act, 1897, the real estate of a deceased person devolves to the personal representative of the deceased, and probate and letters of administration may be granted in respect of real estate only, although there is no personal estate. The ultimate ownership of real estate is not affected by these provisions, which are for the convenience of administration. As to the persons entitled to administration of real estate, they are substantially the same as in the case of personal estate; but the Court shall, in granting letters of administration, have regard to the rights and interests of persons interested in the real estate, and the heir-at-law, if not one of the next-of-kin, shall be equally entitled to the grant with the next-of-kin.

Intestates' Estates, Scotland.

I.—MOVABLES.

In each instance it is supposed there are no nearer relations than those named.

By the Intestate Husband's Estate (Scotland) Act, 1911, the widow of a man dying intestate and without issue is entitled to the whole estate both heritable and movable if under £500 in value, if over that amount she takes £500 out of the heritable and movable estate rateably before any division is made, and after that the share in the remainder to which she was entitled before the passing of the Act

<i>If the Intestate die, leaving</i>	<i>His representatives take in the proportions following —</i>
Widow only	Half to widow, half to next of kin, or if none, then to the Crown
Widow and child or children	{ One-third to widow Remaining two thirds to child or among children equally
Widow and children and issue of predeceasing children	{ One-third to widow, one third to living children equally, remaining third amongst living children <i>per capita</i> * and issue of deceased children <i>per stirpes</i> *
Widow and father	Half to widow, half to father
Widow and mother, no father	Half to widow, one-half to mother
Widow, brothers or sisters	{ Half to widow, half equally amongst brothers and sisters whether of the whole or half blood consanguinean If a deceased brother or sister has left issue, such issue take amongst them their deceased parent's share.
Widow, mother, nephews or nieces	Half to widow, one half to mother
Husband, with or without children	Half to husband, half to wife's next of kin
Father and mother	Whole to father
Father, mother, brothers and sisters	Half to father, half to brothers and sisters equally
Father and mother and their grandchildren	{ Half to father, half to grandchildren equally <i>per stirpes</i>
Father, brothers and sisters	{ One-half to father, one half equally amongst brothers and sisters
Mother, brothers and sisters	Mother one-half, brothers and sisters one half equally
Mother, but no other kin	Whole to mother
Child, children or grandchildren by deceased children	{ Amongst children in equal shares, the grandchildren by deceased children taking amongst them their deceased parent's share
Brothers or sisters and nephews or nieces	{ Amongst brothers or sisters in equal shares, the children of deceased brothers or sisters taking amongst them their deceased parent's share
Brother or sister and grandfather	All to brother or sister
Brother or sister and uncles or aunts	All to brother or sister.
Grandfather, no nearer relation	All to grandfather
Father's father and mother's mother	{ All to father's father
Grandmother, uncles and aunts	All to uncle and aunts, if paternal
Great-grandfather, uncles and aunts	{ All to uncles and aunts, if paternal, if not, then to paternal great-grandfather
Uncles and aunts	.. All equally.
Uncle and deceased uncle's child	All to uncle
Uncle by mother's side, and deceased uncle or aunt's child	{ Child of deceased paternal uncle or aunt takes to exclusion of maternal uncle
Aunts, nephew and niece	Nephew and niece
Cousins	Equally <i>per capita</i> .*
Nephew by brother, and nephew by half-sister	{ All to nephew by brother

NOTE A —Illegitimate children do not succeed to their father or mother as heirs in intestacy

NOTE B —In Scotland, a lease on intestacy and in the absence of any destination descends to the heir-at-law

NOTE C.—When a person dies intestate leaving heritable estate as well as movables, the heir to the heritage, if he is also one of the next-of-kin, is not entitled to any of the movables if he takes the heritage. He may, however, "collate" the heritage, i.e., share it with the other next-of-kin and thus get an equal share of the mixed estate

* *Per Capita* means by the head, *per stirpes* means inheriting through a parent deceased. Movables taken *per capita* divide into as many shares as there are children. Where representatives of a deceased parent take *per stirpes* they take equally amongst them the share that would have fallen to the deceased had he or she survived.

II.—HERITAGE.

Table of Succession to heritable property in Scotland on intestacy and in the absence of any destination in the property writs, other than "to heirs and successors"

In each instance it is supposed there are no nearer relations than those named.

<i>If Intestate die leaving</i>	<i>Heritage would descend to —</i>
(1) Wife only, no blood relations	One-third to wife for life, rest to Crown as <i>ultimus haeres</i>
(2) Wife and child or children, and children of a deceased child	One-third to wife for life Fee to eldest son or his heir male If no son then to daughters equally The eldest son of a deceased daughter taking his mother's place
(3) Wife and father	One-third to wife for life, rest to father
(4) Wife and mother	One-third to wife for life Fee to nearest heir male
(5) Wife, brother, or sister, and children of a deceased brother or sister	One-third to wife for life Fee to immediate younger brother and his heir male, if none, then to immediate elder brother
(6) Wife, mother, nephews and nieces	One-third to wife for life, rest to nephew (eldest) or nieces equally if brother left no son See No 2
(7) Wife, mother, brother, sisters and nieces (children of deceased brothers and sisters)	One-third to wife for life, rest to younger brother and his heirs If the only heirs are nieces they will take equally If no younger brother then to immediate elder brother and his heirs in the same way If sisters but no brothers the sisters take equally, and if the sisters have predeceased leaving only daughters they succeed equally
(8) No wife or child or issue of a deceased child	To brother as in (5) whom failing to lineal ancestor paternal and his heirs
(9) Children by one or more wives and the issue of deceased children	All to eldest son or his issue If no male issue then to female issue as in (2)
(10) Husband and child or children	Liferent of whole to husband Fee to eldest son
(11) Mother, but no wife, child or issue of a child, father, brother, sister, nephew or niece or more distant descendants of father	Nearest paternal collateral (uncle or his heirs) If none, then to grandfather and his heirs
(12) Mother and brothers and sisters	All to younger brother whom failing to immediate elder brother
(13) Mother and sisters	All to sisters equally
(14) Father and brothers and sisters	Fee as in (5)
(15) Child and grandchild by deceased child	(See No 2) "Rest to eldest son or his issue," under head, "Wife and child," etc
(16) Brother and grandfather	All to brother
(17) Brother's grandson, and brother or sister's daughter	All to great-nephew, if grandson of brother (conforming to Nos 2 and 7) All to brother's daughter, if child of eldest brother.
(18) Brother and two aunts	Brother, all
(19) Brother and wife	One-third to wife for life, rest to brother.
(20) Grandfather (no nearer)	All to grandfather
(21) Father's father and mother's mother	All to father's father
(22) Grandmother and uncle, or aunt on father's side (no nearer)	All to uncle or aunt
(23) Uncle and deceased uncle's child	If deceased uncle was younger brother, then to child If both brothers older than intestate, then to the younger of them or his heir male
(24) Uncle by mother's side, and deceased uncle's or aunt's child	Child of deceased uncle on father's side, or (if none) child of deceased aunt on father's side.
(25) Two aunts, nephew and niece, children of deceased brother	Nephew
(26) Uncle or aunt's children, and brother's grandchildren through a son	Brother's grandson, or if granddaughters between, then equally (conforming to Nos 2 and 7).
(27) Nephew by brother, and nephew by half-sister.	Nephew by brother
(28) Nephew by deceased brother, and nephews and nieces by deceased sister	All to eldest nephew, son of deceased brother.

NOTE.—In Scotland succession to heritage on intestacy NEVER ascends to the mother and her relations. Even the mother's own estate, after vesting in her son or daughter, never ascends to the maternal line again.

SOLICITORS' CHARGES.

These are now usually regulated in conveyancing and non-contentious business by the Solicitors' Remuneration Act, 1881, and the Scale thereunder—we say "usually" because that Act allows an option to a solicitor of declining to adopt it. In practice, most solicitors (although some old-established firms are found to prefer the old system) are willing to adopt the Scale, and especially on mortgages and sales. Looking first at the old system, we find that an Act of 1843 made solicitors' charges on conveyancing liable to taxation by a public official, and in 1870 a further Act enabled the taxing officer to have regard to "skill, labour, and responsibility" as well as to mere length of documents. The Act of 1881 enabled the high legal authorities, with the consent of certain representative solicitors, to frame a Scale, and this has been done. It chiefly relates to sales, purchases, and mortgages, and is based upon the value of the property or amount of the money involved. Besides this, it is legal for a client to make a bargain beforehand for a fixed sum. The amount coming to the solicitor, whether under Scale or agreement, is intended to cover the services of himself and his clerks, while it is, of course, exclusive of actual outlay for stamps, &c. On purchase or mortgage money exceeding £300 and not exceeding £1,000, the Scale charge for each party's solicitor is $\frac{1}{2}$ per cent., thus does not apply to sales by auction. Where a negotiation fee is chargeable, in addition, by the vendors, purchasers, or mortgagees (not mortgagors) solicitor, the Scale charge on sums exceeding £300 and not exceeding £3,000 is 1 per cent. It should be noted that if the solicitor negotiates the purchase or mortgage, he is entitled to an additional fee of substantial amount under the Scale referred to. *All charges (except scale and certain County Court matters) are now subject to an increase of 33 1/3 per cent.*

Scotland—Solicitors' fees for Conveyancing and General business are regulated by a joint table approved by the different societies of Law Agents (Solicitors). Fees for litigation are regulated by the Court of Session. The tables of fees are published in "The Parliament House Book" and in "The Scottish Law Directory." When a solicitor sues for payment of a professional account it is remitted to the Auditor of the Court for taxation of his charges.

MEDICAL FEES

Patients are charged according to their supposed incomes, the income being indicated by the rental of the houses in which they reside. The following are the charges usually made by general practitioners—

GENERAL PRACTITIONERS	RENTALS		
	£10 to £25.	£25 to £50	£50 to £100
Ordinary Visit	5s to 7s 6d.	5s to 10s 6d.	7s 6d. to 12s.
Night Visit	Double an ordinary visit		
Mileage beyond two miles from Home	2s 6d.	3s	4s
Detention per hour	5s to 7s 6d.	5s to 10s 6d.	7s 6d. to 15s
Letters of Advice	Same charge as for an ordinary visit.		
Attendance on servants	1s 6s	2s to 4s 6s	4s to 7s 6d.
Midwifery	1s 6s	2s to 4s 6s	4s to 7s 6d.
Administering Chloroform	1s 6s	2s to 4s 6s	4s to 7s 6d.
CONSULTANTS			
Advice or Visit alone	2s 6s	3s 6s	4s 6s
Advice or Visit with another Practitioner	1s 6s	2s to 3s 6s	3s to 4s 6s
Mileage beyond two miles from Home	2s 6s	3s 6s	4s 6s

Special visits—i.e., of which due notice has not been given before the practitioner starts on his daily round, are charged at the rate of a visit and a half. Patients calling upon the doctor are charged at the same rate as if visited by him.

When the ordinary medical attendant is called upon to meet another in consultation, he is entitled to charge double his ordinary fee. When he himself is called in in consultation he is entitled to the minimum fee.

When more members of one family are ill at the same time, half a fee is charged for each beyond the first.

In midwifery cases the fee generally covers all charges for visits, &c., if all goes well, but if the illness be protracted, or if any special operation has to be performed, there is an extra charge.

If attendance on servants is paid for by employer or if he send for the doctor, the charge is the same as to himself.

Certificates of health are to be charged for same as visits, except where special investigation is needed, as in certificates for lunacy, insurance offices, &c., when the charge may be from half a guinea to two guineas.

Vaccination is usually charged for according to the number of visits required.

Medical bills are commonly rendered once or twice a year.

ACCOUNTANTS' CHARGES

Scale of fees approved by the Institute of Chartered Accountants. On Nov 6, 1918, the Institute resolved that a substantial increase in fees is justifiable. The Incorporated Society (Jan 15, 1920) expressed opinion that increase should be 50 per cent on pre-war standard, and the Scottish Chartered Accountants recommended a similar increase (June, 1920).

Audits.—Fees fixed by Shareholders in General Meeting.

Preparing Balance Sheets, Investigating Accounts, &c.—Principals' time, per day of seven hours, 5 Gs. Managing Clerks (if Chartered Accountants), 2 Gs. (not Chartered Accountants), 1 1/2 Gs., other Clerks, 1 G. If at a distance: (a) in the U.K., Principal, 5 to 21 Gs.; Managing Clerks (C.A.), 2 to 3 Gs. (not C.A.), 1 1/2 to 2 Gs., others, 1 G. (b) outside U.K. Principal, 7 to 30 Gs., Managing Clerk (C.A.), 3 to 10 Gs. (not C.A.), 2 to 5 Gs., others, 2 to 3 Gs. (The above rates are exclusive of travelling and hotel expenses).

Arbitrations.—£10 10s per day and upwards.

Liquidators and Trustees in Bankruptcy.—Usually by percentage on realisation of assets and dividends paid.

Voluntary Liquidation.—Usually fixed by title Company in General Meeting.

ARCHITECTS

Fees on New Works.—For taking the Client's instructions, preparing sketch design, making approximate estimate of cost by cubic measurement, or otherwise, preparing drawings and specifications for the purpose of estimates, obtaining tenders, advising on tenders and in preparation of contract, selecting and instructing of consultants, furnishing to the Contractor one copy of the drawings and specification and such other details as are necessary for the proper carrying out of the works, general supervision as above defined, issuing certificates for payment, and passing and certifying accounts, a percentage on the total cost of all executed works as follows:—

(a) If the contract or order exceeds £2,000 the percentage is to be 6 per cent.

(b) If the contract or order does not exceed £2,000 the percentage is to be 10 per cent. in the case of works costing £100 graduated to 6 per cent in the case of works costing £2,000 as the special character of such works may render appropriate.

Alterations and Additions.—A percentage not exceeding twice the amount due for new works of the same cost.

Fittings, Decorations, &c.—In works in which designs for fittings, appointments, decorations, or complex detail or construction are main features, special fees may be charged according to the circumstances, and also for designs for furniture.

Omitted Works.—In addition to the percentage on the total cost of executed works, the Architect is to be paid in respect of all works included in the tender or order, but not executed, two-thirds of the charge which would have been due upon them had they been carried out.

Partial Service.—If the project or part of it be abandoned, or if the services of the Architect cease or are dispensed with before a contract is entered into or order given, the charges in respect of the works abandoned or for which the Architect was employed (as the case may be) are as follows—

(a) For making approximate estimate of cost by cubic measurement, or otherwise, one-fourth of the percentage on the estimated cost of such works.

(b) For making approximate estimate of cost by cubic measurement, or otherwise, and preparing drawings and particulars sufficient to enable quantities to be prepared or a tender obtained, two-thirds of the percentage on the estimated cost of such works.

Installments.—On a contract being entered into or order given for the works the Architect shall be entitled to an instalment of two-thirds of the charge calculated on the total amount of the contract or order, and no part of such payment shall be reclaimable from the Architect in the event of the subsequent abandonment of the works. The remainder of the Architect's remuneration shall be payable by instalments from time to time as the work proceeds.

Work Executed with Old Materials, &c.—In all cases where work is executed wholly or in part with old materials, or where material, labour or carriage is provided by the Client, the percentage shall be calculated as if the works had been executed throughout by a Contractor, and with new material.

Services Not Included in Percentage.—The foregoing percentages do not cover the following services, for which, and for any other services not covered by any payment herein provided for, additional charges may be made in accordance with the amount of work involved—

Advising as to the selection and suitability of site. Negotiations relating to the site or building. Surveying the site or building and taking levels, and making surveys, measurements, and plans of existing buildings.

The preparation of further sketch designs necessitated by a material alteration in, or addition to the Client's instructions, or altering the working drawings and specification in consequence thereof prior to the commencement of the works. Altering drawings, or preparing new drawings, and other services involved in consequence of variations or additions desired by the Client after the commencement of the

works. Making extra drawings for the Client's or Contractors' use, and making drawings for and negotiations with ground landlords, adjoining owners, public authorities, or others, and making applications for licences and consents.

Making arrangements in respect of party walls and rights of light and other easements, reservations or restrictions. Services in connection with litigation or arbitration. Services consequent upon or resulting from the death or bankruptcy of Contractors or the failure or neglect of Contractors from any cause whatever to carry out the works in accordance with the contract or order or consequent upon the fraud or negligence of the Clerk of Works. Services in connection with fire, flood, or tempest during the execution of the works, and services in connection with the planning of grounds or gardens.

Housing Schemes and Laying Out Estates.—The fees are those approved by the Ministry of Health, the Board of Agriculture and Fisheries, and the Scottish Board of Health.

Approval of Lessee's Plans.—For approving plans submitted by a lessee and for inspecting the work during its progress so far as may be necessary to ensure the conditions being fulfilled, and certifying for lease when required, the charge is as follows—

For each £100 or part of £100 of the total cost up to £500, 1½ per cent (minimum fee, £3 3s)

For each £100 or part of £100 from £500 to £5,000, 1¼ per cent

For each £100 or part of £100 above £5,000, 1 guinea per cent

Litigation and Arbitration.—For qualifying to give evidence, settling proofs, conferences with Solicitors and Counsel, attendances in Court or before Arbitrators or other tribunals, and for other services in connection with litigation and arbitration the charges are based upon the time occupied and the professional standing of the Architect.

Land Surveying and Levelling.—For surveying and making a plan of a town, village, street or road, estate or grounds, or any part thereof, for taking levels, setting out streets or roads, and for other services in connection with land not otherwise specifically provided for, the charges are by time in accordance with Clause 22.

Sanitary Surveys.—For inspecting, reporting and advising on the sanitary condition of premises, the charge is by time in accordance with Clause 22, the minimum fee being £3 3s, in addition to the cost of assistance and appliances.

Expenses.—The above-mentioned fees are, in all cases, exclusive of the cost of copies of documents, lithography, travelling and hotel expenses, and all other disbursements, which are to be charged in addition.

QUANTITY SURVEYORS

A fee of 1½ per cent upon the amount of the lowest tender received for the contemplated building, or upon its estimated cost should the work be abandoned before tenders are received, is charged by Quantity Surveyors for preparing Bills of Quantities.

FOR MEASURING AND ADJUSTING VARIATIONS the fees are 1½ per cent. on the amount of additions, and 1¼ per cent. on the amount of omissions brought into account.

FOR SERVICES IN CONNECTION WITH LITIGATION OR ARBITRATION, a charge per day (depend-

dent upon the Surveyor's professional position) is made.

The above charges are exclusive of the cost of printing, lithography, and fair copies of accounts, and in all cases travelling and other out-of-pocket expenses are payable in addition to the fees

CONSULTING ENGINEERS

On *Constructional Work* the payment is usually an agreed fee or a commission (which includes the necessary drawings, &c) of 5 per cent on the cost of the works where the contract exceeds £5,000 and 7½ to 10 per cent where the amount does not exceed £5,000

For *Quantities and Accounts* (the services which in architectural work would not be covered by the Architect's fee but would be Quantity Surveyor's work) the usual charge is 1½ to 2 per cent where the amount exceeds £5,000 and 2 to 2½ per cent on amounts below £5,000

AUCTIONEERS, SURVEYORS AND ESTATE AGENTS

1. Sales by Auction

Freehold, Leasehold, and Copyhold Properties, including the preparation of particulars, and advising as to reserves—On the first £300, 5 per cent, on the next £4,700, 2½ per cent, on the residue, 1½ per cent

In addition to the above charges:—On amounts paid by the purchaser for *Chattels, Fixtures, Fittings, Trade Stocks*, and other *Movable Effects, Timber*, and *Tenant-right* under the conditions of sale, in addition to the purchase-money of the property—5 per cent on £500, and 2½ per cent on residue, to include inventory and valuation

Sale before Auction

After issue of advertisements, the same scale as by auction

Non-Sale

Charge equivalent to one-fourth of the commission which would have been earned on a sale up to £5,000 calculated on the reserve price, to include valuation for reserves, on larger amounts by arrangement

Sale after Auction

In the event of the property being sold within three months after the auction, the charges for non-sale would merge into the ordinary commission then payable

Furniture, Trade Stocks, and Chattels, on the *Vendor's Premises*—5 per cent on the amount realised, exclusive of preparation of catalogues

Plant and Machinery—5 per cent on the amount realised, exclusive of preparation of catalogues

Livestock and Farming Stock (except *Horses and Pedigree Cattle*)—2½ per cent on live stock, and 5 per cent on dead stock, on the amount realised

Horses and Pedigree Cattle—5 per cent on the amount realised

On *Lots referred to in the last four paragraphs, reserved or bought in by or on behalf of the vendor*—One half the commission on sale, calculated on the amount of reserve or buying-in price.

2. Private Treaty Sales.

Freehold and Copyhold Estates and Houses, and Ground Leases.—On the first £300, 5 per cent; on the next £4,700, 2½ per cent, on the residue, 1½ per cent, and a commission, in addition, on the amount paid for *Chattels, Fixtures, Fittings, Furniture, Trade Stocks*, and other

Movable Effects, Timber, and Tenant-right, of 5 per cent up to £500, and 2½ per cent on the residue, to include inventory and valuation

3. Purchases.

Freehold, Copyhold, or Leasehold Property—One-half of the scale for sale by private treaty, calculated upon the amount of the purchase-money, but including inspection, advising as to value, and negotiating or bidding. If no purchase is effected, the usual scale for valuation should be charged: one guinea per cent on first £1,000; half a guinea on next £9,000; and a quarter of a guinea per cent beyond on the value of the property. Minimum fee, £5 5s

4. Lettings.

Business Premises, Unfurnished Houses, Flats, &c, or on *Disposing of all Leases (other than Ground Leases)* by assignment or otherwise—If the annual value be £100 or less 5 per cent on one year's rent, where the term is for one year or less, and 7½ per cent on one year's rent where the term is for more than one year. If the annual value be over £100 the above scale shall apply to the first £100 and on the excess rental over that amount, where the term is for three years or less, 5 per cent on one year's rent; where the term is for more than three years, 7½ per cent on one year's rent, in the case of *leases requiring the lessee to repair the demised premises* the commission is 10 per cent on one year's rent, whatever the term. Upon the premium or consideration (in all cases), 5 per cent up to £1,000, and 2½ per cent on the residue, and the commission on any sum obtained for fixtures, furniture, or effects of any kind, of 5 per cent up to £500, and 2½ per cent on the residue. In the case of a progressive rent the commission is based on the average rent receivable. When a property, which an agent has been instructed to let or sell, is let by him, and the tenant afterwards purchases, the commission for selling, less the commission already paid on the letting, will then become payable

For negotiating the Renting of Unfurnished Houses or Flats, excluding Survey or Valuation—Half the commission payable for a letting

On Letting Furnished Houses or Flats in Town or Country, or Shootings, including Collection of Rent—5 per cent on the first year's rental, and 2½ per cent for the remainder of the term.

For negotiating the Renting of Furnished Houses or Flats, excluding Survey or Valuation—Half the commission payable for a letting

For Making or Checking Inventories of Furniture and Effects—A minimum fee of two guineas per day, exclusive of expenses

On Letting Land on Building Lease—One year's ground rent on first £50, three quarters ditto on next £50, half ditto on next £500; quarter ditto on residue.

5. Collections or Receiverships.

10 per cent upon gross rental of weekly property, 5 per cent upon gross rental of other property or tithes, 7½ per cent upon the gross rental for the management and collection of rents on agricultural estates; 2½ to 5 per cent on ground rents, according to the amount of the rents and the number of collections.

6. Laying Out or Development of Estates.

For Road Construction, 5 per cent. upon the outlay, exclusive of expenses.

7 Valuations.

1 Valuation of Freehold, Copyhold, or Leasehold Properties—A guinea per cent on the first £1,000, half a guinea per cent on the next £9,000, and a quarter of a guinea per cent beyond on the value of the property, subject to a minimum fee of five guineas.

2 Of Property taken under Compulsory Powers—The charge is on Ryde's Scale. The fee is exclusive of five guineas per day for attendances. Plans and disbursements extra.

3 Valuing for Annual Rental—(a) *Agricultural Property*— $7\frac{1}{2}$ guineas per cent up to £250, 5 guineas per cent on the next £250, and $2\frac{1}{2}$ guineas per cent beyond. (b) *Urban and Residential Property*—5 guineas per cent up to £100, and $2\frac{1}{2}$ guineas per cent beyond. Minimum fee 3 guineas.

4 Valuation of Furniture, Fixtures, and Effects—5 per cent up to £500, and $2\frac{1}{2}$ per cent on the residue.

5 Valuation of Plant, Machinery, and Trade Stocks—5 per cent on first £100, and $2\frac{1}{2}$ per cent on the residue.

6 Valuation of Live and Dead Farming Stock—5 guineas per cent on first £100, and $2\frac{1}{2}$ guineas per cent on the residue.

7 Valuation of Hotel and Public House Furniture, Fittings, and Stock—5 guineas per cent up to £1,000, and £3 3s per cent on the residue.

8 Valuation for Probate and Estate Duty Purposes—(a) *Freehold, Copyhold, and Leasehold Property*—One guinea per cent on the first £1,000, half a guinea per cent on the next

£4,000, and one quarter-guinea per cent on the remainder. Minimum fee, £5 5s. on each property.

(b) *Of Furniture and Effects*—5 guineas per cent on the first £100, and $2\frac{1}{2}$ guineas per cent on the next £400, and $1\frac{1}{2}$ guineas per cent of the remainder of the amount of valuation, to include inventory. Minimum fee, £5 5s.

9 Valuations under the Finance (1909-10) Act, 1910 For Survey, Completion of Government Returns, Valuation, and Report.

Country Residential Properties, Agricultural Land, and Undeveloped Land—One half-guinea per cent up to a "total value" of £20,000, and one quarter-guinea per cent on the balance above that amount.

Urban Properties—One quarter-guinea per cent on a "total value" of £20,000, and one eighth guinea per cent on the balance above that amount. Minimum fee, £3 3s.

10 Preparing Specification of Dilapidations and settling the amount if required—5 guineas per cent on the amount. Minimum fee, £5 5s.

11 Valuation or Sale of Timber—5 guineas per cent on amount realised. When valuing only, 5 guineas per cent on first £100, and $2\frac{1}{2}$ guineas per cent on the residue.

12 Valuation of Tenant-Right—5 guineas per cent on the first £100, and $2\frac{1}{2}$ guineas per cent on the next £500, and $1\frac{1}{2}$ guineas per cent on the residue.

Where one valuer acts between both parties the minimum charge shall be scale and a half, divisible between both parties.

THE UNION JACK CLUB, Waterloo Road, S E 1. Tel. Hon 3511

Patron-in-Chief His Majesty the King

Patrons

H R H The Prince of Wales, K G, etc.,
President Colonel Sir W R Lawrence, Bt,
G C V O, G C I E, C B
Vice-President

H R H The Duke of Connaught, K G, etc.

Active List of the Regular Forces, below the rank of Officer, but Honorary membership is open to those belonging to the Royal Malta Artillery, the West India Regiments and the Colonial Permanent Forces, as well as the Navies and Armies of foreign powers visiting England. The Club is managed by a Council and General Committee, which includes representatives elected by the members. Already firmly established before 1914, the Union Jack Club was an inestimable boon to Service men in the Great War, during which period alone sleeping accommodation was provided for no fewer than 1,131,338 men and 3,054,809 meals were served, whilst many millions of whom no record was kept passed through its doors for rest and refreshment, many of them straight from the trenches in France.

Work was commenced late in 1900 on a considerable extension of the Club with funds raised in all parts of the Empire to commemorate the services of our gallant fighting forces in the Great War of 1914-18 and to provide the increased accommodation so much needed. By permission of His Royal Highness, the new building, which is now complete, is known as "The Prince of Wales's Wing."

Hon Treasurer Sir G J Marjoribanks, K C V O
Comptroller of Club Brig-General E F O
Gascoigne, C M G, D S O

This is one of our great National Institutions, where Sailors, Soldiers and Airmen can go when on leave or passing through London, a place where they may deposit their kit and valuables, where they may obtain at moderate charges good meals and comfortable bedrooms to themselves, and where they find the usual amenities of a club, including Library and Writing Room, Billiard Room, Baths, Barber's Shop, and also a Club Shop in which articles of everyday use and almost everything that Service men require may be purchased. The Club is open throughout the day and night.

The Union Jack Club was erected by public subscription as a National Memorial to those who had fallen in the South African War, and other campaigns, and was opened on July 1st, 1907, by His late Majesty King Edward VII. Membership is limited to those serving on the

THE ORDER OF ST JOHN OF JERUSALEM.

Ribbon, Black

The Order had its origin in Jerusalem and Acre, as an international lay confraternity for the relief of crusaders, and was later sovereign in Rhodes and in Malta, where its Knights kept galleys and galleons, to attack the Barbary Corsairs and to prevent the spread of Turkish rule in the Mediterranean, from 1530 till 1798. The work of the British Order is the control of the St. John's Association Ambulance and Brigade, and of the Ophthalmic Hospital, Jerusalem. *Sovereign Head and Patron*, H M King George V; *Grand Prior*, H R H Duke of Connaught and Strathearn; *Secretary-General*, Maj.-Gen. Sir Percival S Wilkinson, K C M G, C S. *Chapter-General*, the "Knights of Justice" and selected "Chaplains," "Knights of Grace" and "Esquires." There are also "Ladies of Justice," "Ladies of Grace," and "Esquires." These distinctions are notified in the *London Gazette*, but do not confer any rank or title.

Farthing ¼d	43 75000	—	0 875

Standard Gold contains twenty-two twenty-fourths (carats) of fine gold and two twenty-fourths of alloy, fineness, 916 66, or 22 carats, 240 troy ounces of standard gold are coined into 934 sovereigns and one half-sovereign, one troy ounce is, therefore, worth £3 17s 10½d, and one ounce of pure gold, on the same basis, £4 4s 11½d. During 1922, the market price of gold has been above these figures.

Standard Silver formerly consisted of thirty-seven-fortieths of fine silver and three-fortieths of alloy, fineness, 925. Silver for coinage, by an Amending Act (10 Geo V ch 3), consists of one-half silver, one-half alloy, or in millesimal fineness, 500, 12 troy ounces of 500 fineness are coined into 66 shillings + [Another Standard, called the "New Sterling" or Britannia, of the fineness 11 oz 10 dwt (958 33), is practically obsolete. It is occasionally used, however, for high-class plate.]

On account of the high price of precious metals, the melting of British gold and silver coin is prohibited, as well as their export. The Average Yearly Price of Silver per standard Troy Ounce in the London Market during the last ten years was as follows—1914, 25½d, 1915, 31½d, 1916, 31½d, 1917, 40½d, 1918, 47½d, 1919, 57½d, 1920, 61½d, 1921, 36½d, 1922, 34½d; 1923, 31½d. On Oct 2, 1924, the price of silver was 35½d per oz.

In the United States the price of silver is quoted in cents per troy ounce *fine*. In order to convert an English quotation into cents per ounce *fine*, first express the pence as a whole number and decimal fraction and then multiply by a 100, to express a United States price on the English system, multiply the cents by 0 4562.

†Bronze is an alloy of copper 95 parts, tin 4 parts, and zinc 1 part, or of copper 95½ parts, tin 3 parts and zinc 1½ parts

* Issued on special occasions

† By law a shilling weighs one sixty-sixth of 1202 Troy, 1202 of pure silver would be used in coining 72 shillings of 999 fineness and 120 of 500 fineness.

‡ The legal weight of a penny is one third, of the halfpenny one fifth, and of the farthing one tenth of an ounce avoirdupois, the halfpenny is one inch in diameter

§ Discontinued

The "Remedy" is the amount of variation from standard permitted in fineness and in weight of coins when first issued from the Mint.

Tokens.—No person is allowed to coin any token to pass for, or as representing, bronze or other money, under a penalty of £20.

Light Gold.—Any person to whom it is tendered may break, cut, or deface any gold coin below the least current weight, but under the provisions of the Coinage Act, 1891, and an Order in Council of 16 March, 1892, light gold coin which has not been illegally dealt with is received by the Bank of England on behalf of the Mint at its full nominal value.

Bank of England Notes are issued for sums of £5, £10, £20, £50; also for £100, £200, £500, and £1,000.

Treasury Notes of the value of £1 and 10s are issued, and are legal tender to any amount.

Bank Post Bills can be obtained at the Bank of England for amounts of £10 and over at seven days' sight. They are issued for the full sum named thereon, without allowance for discount. No charge is made for bills so drawn; they may be obtained at the Chief Office of the Bank of England in London, or at any of the branches.

Legal Tender of Money.—The tender of Bank of England Notes is legal in England and Wales for every purpose, and by anyone (except by the Bank of England). No one can be compelled to give change Gold, if above the least current weight, and Treasury notes are legal tender to any amount. Silver is not a legal tender for sums over two pounds, nor bronze, including farthings, for sums over one shilling.

British Coinage Statistics.—During 1923 the number of coins struck at the Royal Mint was 154,321,926, of which 91,022,173 were Imperial, 61,918,827 Colonial, and 1,380,926 Foreign.

BRITISH DOMINIONS ABROAD.

Imperial Sterling Coins are the sole legal metallic currency in —

NEW ZEALAND — FALKLAND ISLANDS.

FIJI — GIBRALTAR — ST HELENA

WEST INDIES. See also JAMAICA, below.

Special Coins are current in addition to the Imperial series in —

AUSTRALIAN COMMONWEALTH — Special florins, shillings, sixpences, and three-pences in silver, and pence and half-pence in bronze, of the same weights and composition as Imperial coins of these denominations, but of special designs, while the silver coins are of 995 fineness.

UNION OF SOUTH AFRICA — Silver and bronze coins, bearing special designs, and corresponding to Imperial coins in denominations, weights and composition, except that the fineness of the silver is 800.

BRITISH GUIANA — A special groat or four-pence.

BRITISH WEST AFRICA.—Silver and also "alloy metal," 2s, 1s, 6d, and 3d, One penny, one halfpenny, and one-tenth penny (nickel-bronze).

GUERNSEY.—Eight doubles (= 1 penny), 4, 2, and 1 double.

JAMAICA.—Nickel-bronze pence, halfpence, and farthings.

JERSEY.—Special pence, halfpence, and farthings.

ALTA.—One-third of a farthing (bronze).

WEST AFRICA	British Sovereign	20 0	1	British	Silver and Mixed Metal on "Alloy"—2s, 1s., 6d, 3d Nickel (perforated) — 1d, ½d, ¼d

* Variable with the price of silver—(Oct. 2, 1924) 35 5/16 pence per standard ounce
 † The only gold coin in general use in Egypt and the Sudan is the British sovereign, which is current at 97½ piastres.
 ‡ The Exchange values of the Canadian Dollar, the Egyptian Pound, Indian Rupee, and Malaya Dollar (and the relative value of the £ sterling) will be found on p. 423.

In many cases silver coins are reduced in fineness, in others coins in low value metals are substituted, as a consequence of the War

§ The par value and rate of exchange of Foreign Monies and Sterling at certain dates in 1923-1924 are shown on p 428

HALL MARKS ON PLATE.*

Assay Office Marks—The official marks stamped on gold and silver plate at Assay Offices are distinguished as under:—

<i>Assay Office</i>	<i>Distinguishing Mark</i>
London (Goldsmiths' Hall)	Leopard's Head (crowned, until 1853)
Birmingham	Anchor (square frame for gold, pointed shield for silver)
Chester	City Arms (3 Garbs and a Sword)
Sheffield	Crown.
Edinburgh	Castle
Glasgow	Tree, Fish & Bell
Dublin	Harp crowned

In addition to the above, there have been Assay Offices at Bristol, Exeter, Newcastle-upon-Tyne, Norwich and York, all of which have long been closed.

Makers' Mark (instituted in 1363)—This is impressed by the maker, and consists of initial letter (or letters) indicating the Surname (or Christian and Surname) of the maker

Date Mark—The year in which the article is marked at the Assay Office is indicated by a letter on a shield, the type of letter and the shape of the shield being changed in cycles of 20, 25 or 26 years. In 20-year cycles (London, invariably, Chester, alternately with 25, and Sheffield, alternately with 25), the letters J, V, W, X, Y, Z are omitted; in 25-year cycles (Birmingham, Edinburgh and Dublin, and alternately at Chester and Sheffield) the letter "I" is omitted from the alphabet, at Glasgow all the letters are employed in a 26-year cycle.

The Sovereign's Mark—The "Lion passant" introduced in the reign of Edward I (1300) for silver articles only.

The Sovereign's Head—The portrait of the reigning Sovereign was impressed on all plate chargeable to duty assayed from 1784—1890—90. The duty on plate was removed in 1890, and the Sovereign's head does not appear on plate assayed before 1784, or after 1890.

The Crown—On gold articles only, in lieu of the "Lion passant" on silver.

Britannia—A full-length figure of Britannia was impressed on silver plate of a special standard of fineness (11 oz 10 dwt of fine metal to each 10 dwt of alloy) during a short period only, 1697—1720, since that date the Britannia quality has been manufactured in small quantities, bearing the figure of Britannia, with the lion's head erased and the date mark.

Sterling Silver—Articles of silver plate marked at an assay office are guaranteed to be of the requisite standard of purity and to contain 11 oz 2 dwt. of fine metal to each 18 dwt. of alloy.

Sterling Gold—Articles of gold plate marked at an assay office are guaranteed to contain such amount of pure gold as is marked thereon by the assaying office in carats and decimals thereof. The relative values of the various standards is shown below:—

	£	s.	d.
Pure gold, 24 carats	4	4	11½
Standard, 22 carats	3	17	10½
and ditto, 20 carats	3	3	8½
3rd ditto, 18 carats	2	13	1
4th ditto, 16 carats	2	2	5½
5th ditto, 14 carats	1	11	10½

* For the greater part of the material for this article readers of the ALMANACK are indebted to the late Mr. Wilfrid Cripps (author of "Old English Plate") by whose courtesy also many of the illustrations were provided.

London (Goldsmiths' Hall) Date Marks
From 1438 to 1936.

	Lombardic, simple...	1438-9 to 1457-8
	Lombardic, external cusps	1458-9 ,, 1477-8
	Lombardic, double cusps	1478-9 ,, 1497-8
	Black letter, small	1498-9 ,, 1517-8
	Lombardic	1518-9 ,, 1537-8
	Roman and other capitals	1538-9 ,, 1557-8
	Black letter, small	1558-9 ,, 1577-8
	Roman letter, capitals	1578-9 ,, 1597-8
	Lombardic, external cusps	1598-9 ,, 1617-8
	Italic letter, small	1618-9 ,, 1637-8
	Court hand	1638-9 ,, 1657-8
	Black letter, capitals	1658-9 ,, 1677-8
	Black letter, small	1678-9 ,, 1696-7
	Court hand	1697 ,, 1715-6 (From March 1697 only)
	Roman letter, capitals	1716-7 ,, 1735-6
	Roman letter, small	1736-7 to 1755-6

	Old English, capitals	1756-7 to 1775-6
	Roman letter, small	1776-7 „ 1795-6
	Roman letter, capitals	1796-7 „ 1815-6
	Roman letter, small	1816-7 „ 1835-6
	Old English, capitals	1836-7 „ 1855-6
	Old English, small	1856-7 „ 1875-6
	Roman letter, capitals	1876-7 „ 1895-6
	Roman letter, small	1896-7 „ 1915-6
	Old English, small	1916-7 „ 1935-6

The Collector will find but little difficulty in distinguishing a letter of one cycle from that of another, presuming his knowledge to be insufficient to judge by the style and period of the article itself, e.g.

An article marked with the letter F 1721-2 can be distinguished from letter F 1801-2 by the difference in the shape of the respective shields, as also those containing the crowned leopard's head and the lion passant, the absence of the sovereign's head in the former as against its presence in the latter case, the different form of the leopard's head (which was "crowned" until 1823), and lastly, the irregularity of the stamp in the first case as compared with the uniformity of the latter stamp. These again can be distinguished from F 1861-2 as before, by the different shield of the date letter only (the shields of the remaining marks being the same as those of 1801-2), the absence of crown on leopard's head, and the presence of the Queen's *vice* the King's head.

Imported Plate.

Any gold or silver plate or article manufactured out of the United Kingdom and brought to be assayed, stamped or marked at a British or an Irish Assay Office must be marked in the manner prescribed by the Order in Council of May 11, 1906, under which the mark for each Assay Office is ordained to be—*London*, the sign of the Constellation Leo, *Birmingham*, Equilateral Triangle, *Chester*, Acorn and two leaves, *Sheffield*, the sign of the Constellation Libra, *Edinburgh*, St Andrew's Cross, *Glasgow*, double block letter F inverted, *Dublin*, Bouquet. The annual date letter is to be added by the Assay Office, as for plate, etc., of home manufacture.

The Periods of English Architecture.

Date		Style
I	Before B.C. 55	Ancient British
II	B.C. 55 to A.D. 420	Roman Period
III	A.D. 449 to Norman Conquest (1066)	Anglo-Saxon
IV	1066-1189 (i.e. to end 12th cent.)	Norman
V	1189-1307 (i.e. 13th cent.)	Early English (Lancet, or Geometrical).
VI	1307-1377 (i.e. 14th cent.)	Decorated (or Curvilinear)
VII	1377-1485 (i.e. 15th cent.)	Perpendicular (or Rectilinear).
VIII	1485-1558 (i.e. first half 16th cent.)	Tudor
IX	A.D. 1558-1625	Early Renaissance
X	A.D. 1625-1830	Late Renaissance
Modern Architecture (The Age of Revivals)		19th cent. to present time

This Comparative Table shows the approximate period of each style. It must, however, be remembered that the transition from one style to the next was slow and gradual, and can often hardly be traced, so minute are the differences. It is only for convenience in alluding to the different stages of evolution that the division is made, for it must not be forgotten that the Architecture of England is one continuous development.

Note.—The first portion (I-VIII) of this table is based upon that given on p. 319, Parts IX, and X on p. 701, and "Modern" on p. 764, of "A History of Architecture on the Comparative Method" (6th ed.), by Sir Banister Fletcher, F.R.S. (Batsford).

The Weights and Measures Act of 1878, superseding all previous laws, enacts the legal measures for Great Britain, basing them upon the Standard Yard and the Standard Pound, in the custody of the Standards Department of the Board of Trade.

The YARD and the POUND are the only two independent standards for weights and measures. The GALLON, the capacity standard, wet or dry, is based upon the Pound. The Act of 1878 defines the Gallon as the volume of ten standard pounds of distilled water weighed in air against brass weights, both water and air at the temperature of 62° Fahrenheit, with the barometer at 30 inches.

Apothecaries' Weight.

Measures of Weight.

- 20 grains = 1 scruple (3r) (= 1.296 Grammes)
 3 scruples = 1 drachm (3r) (= 3.888 Grammes)
 8 drachms = 1 ounce (= 31.1035 Grammes)

Measures of Capacity.

- 60 minims (min) = 1 fluid drachm (= 3.552 Millilitres)
 8 fluid drachms = 1 fluid ounce (= 8.413 Centilitres)
 20 fluid ounces = 1 pint (= 0.568 Litre)
 8 pints = 1 GALLON (= 4.5459631 Litres)

The Apothecaries' grain is the Avoirdupois grain, and the Apothecaries' ounce is the Troy ounce, of 480 grains. The Apothecaries' drachm is not the same as the Avoirdupois dram, and is spelt differently. A fluid ounce of distilled water at a temperature of 62° Fahrenheit is equal in weight to the Avoirdupois ounce (437.5 grains). A fluid drachm (54.6875 grains) is equal in weight to two Avoirdupois drams.

Approximate Equivalents —

1 "table-spoon" = ½ fluid oz., 1 "dessert-spoon" = ¼ fluid oz., 1 "tea-spoon" = ⅛ fluid oz.

Avoirdupois Weight.

- 7000 grains (gr) = 1 pound (lb.)
 16 drams (dr) = 1 ounce (oz.) (= 28.350 Grammes)
 16 ounces = 1 POUND (= 0.45359243 Kilogram)
 14 pounds = 1 stone* (= 6.350 Kilograms)
 28 pounds = 1 quarter (of a cwt) (= 12.70 Kilograms)
 100 pounds = 1 cental (= 45.359243 Kilograms)
 4 quarters (112 lb) = 1 hundredweight (cwt) (= 50.8023 Kilograms)
 20 hundredweight (2,240 lb) = 1 ton (= 1.016 Tonnes or 1016.0 Kilograms)

Troy Weight.

- 24 grains = 1 pennyweight (dwt) (= 1.5552 Grammes)
 20 dwt = 1 ounce (= 31.1035 Grammes)

For gold and silver the ounce, divided decimally, and not into grains, is the sole unit of weight. The Troy ounce is the same as the Apothecaries' ounce, = 480 Avoirdupois grains (31.1035 Grammes) in weight. There is no Troy POUND.

Jewellers' Weight.

The metric carat of 200 milligrammes is the legal standard of weight for precious stones and pearls.

* The Smithfield stone (for dead meat) is 8 lb only.

Measures of Capacity.

- 4 gills = 1 pint (= 0.568 Litre)
 2 pints = 1 quart (= 1.136 Litres)
 4 quarts = 1 GALLON (= 4.5459631 Litres)
 2 gallons = 1 peck (= 9.0919 Litres)
 8 gallons = 1 bushel (= 3.637 Dekalitres)
 8 bushels = 1 quarter (= 2.909 Hectolitres)
 A chaldron is 36 bushels = 4½ quarters.

Measures of Length.

- 12 inches (in) = 1 foot (ft) (= 0.30480 Metre)
 3 feet = 1 yard (yd) (= 0.914399 Metre)
 6 feet = 1 fathom (= 1.8288 Metres)
 5½ yards = 1 pole (= 5.0292 Metres)
 22 yards = 1 chain (= 20.1168 Metres)
 220 yards = 1 furlong (= 201.168 Metres)
 8 furlongs = 1 mile (= 1.6093 Kilometres)
 3 miles = 1 league (seldom used)
 100 links = 1 chain (22 yards)
 10 chains = 1 furlong
 8 furlongs = 1 mile
 A Pole of 5½ yards is a quarter of a chain.
 A Cricket Pitch is 22 yards (one chain) between the stumps.
 A Lawn Tennis Court is 78 × 36 feet (double) and 78 × 27 feet (single).
 A Croquet Lawn is 105 × 84 feet (full size) or a smaller multiple of 5 × 4 feet.
 A Badminton Court is 44 × 20 ft., with net 30 ins deep and 5 ft high at centre.

Birmingham Gauge.

The Weights and Measures Act of 1878 made standards on and after Nov. 1, 1914, certain new divisions of an inch. The equivalent of an inch is 15/16 B.G. The numbers proceed by units down to 1/16 B.G., which = 0.3964 inch, and from 1 B.G. (3532 inch) by units to 50 B.G. (0.0095 inch).

Square or Surface Measure.

- 144 sq inches = 1 sq foot (= 9.2903 Sq Decimetres)
 9 sq feet = 1 sq yard (= 0.836126 Sq Metre)
 30¼ sq yards = 1 perch, or 10d, or pole (= 25.293 Sq Metres)
 40 perches = 1 rood (= 10.117 Acres)
 4 roods (4840 sq yards) = 1 acre (= 0.40468 Hectare)
 10 square chains = 1 acre
 640 acres = 1 square mile (= 5.0995 Sq Kilometres)

Note.—The Anglo-Saxon acre's-length is the furlong, and the acre's-breadth the chain.

Cubic Measure.

- 1,728 cubic inches = 1 cubic foot (= 0.028317 Cubic Metre)
 27 cubic feet = 1 cubic yard (= 0.764553 Cubic metre)

Angular or Circular Measure.

- 60 seconds (") = 1 minute (')
 60 minutes = 1 degree (°)
 30 degrees = 1 sign
 90 degrees = 1 right angle or quadrant
 12 signs (4 quadrants) = 1 circumference
 Diameter of circle × 3.1416 = circumference.
 Diameter squared × .7854 = area of circle.
 Diameter squared × .3436 = surface of sphere.
 Diameter cubed × .5236 = solidity of sphere.
 One degree of circumference × 57.3 = radius.
 Diameter of cylinder × 3.1416, product by length or height, gives the surface.
 Diameter squared × .7854, product by length or height, gives solid content.

Note.—A circle of 7 yards diameter has, in practice, a circumference of 22 yards = 1 chain.

Miscellaneous Weights and Measures.

Ballast (Pig) = 56 lb
 Beef (Barrel) = 200 lb
 Biscuits (Bag) = 105 lb
 Blacklead (Cask) = 11½ cwt.
 Butter (Barrel) = 4 firkins = 224 lb
 Camphor (Box) = 1 cwt
 Cloves (Matt) = 80 lb
 (Chest) = 200 lb
 Coal (Sack) = 224 lb
 (Bushel) = 80 lb
 (Chaldron) = 85 bushels
 (Ton) = 10 sacks
 Cocoa (Bag) = 112 lb
 (Cask) = 1 cwt 28 lb
 Coffee (Bag) = 140 to 168 lb
 (Bale of Mocha) = 224 to 280 lb
 (Barrel) = 112 to 168 lb
 (Tierce) = 5 to 7 cwt
 Cotton (U S Bale) = 400 to 500 lb
 (Egyptian Bale) = 700 to 740 lb
 (Indian Bale) = 500 to 600 lb
 Currants (Caroteel) = 5 to 9 cwt
 Flour (Peck) = 14 lb
 (Sack) = 280 lb
 (U S Barrel) = 196 lb
 Glass (Seam) = 24 stone of 5 lb = 120 lb
 Gunpowder (Barrel) = 100 lb
 Hides (Last) = 12 dozen
 Honey (Gallon) = 12 lb
 Hops (Bag) = 280 lb
 (Pocket) = 1½ to 2 cwt
 Lead (Fodder)
London and Hull = 19½ cwt
Derby and Newcastle = 22½ cwt
 Meat (Stone) = 8 lb
 Nuts (Barcelona, Bag) = 126 lb
 Oats (Barrel) = 14 stone
 Pepper (Bag of black) = 316 lb
 (Bag of white) = 168 lb
 Pork (Barrel) = 224 lb
 Potatoes (Sack) = 168 lb
 Raisins (Barrel) = 112 lb
 Rice (Bag) = 168 lb
 Sago (Bag) = 112 lb
 Saltpetre (Bag) = 168 lb
 Soft Soap (Barrel or Pack) = 256 lb
 (Firkin) = 64 lb
 Steel (Faggot) = 120 lb
 Sugar (Bag) = 112-196 lb
 (Hogshead) = 13 to 16 cwt
 (Tierce) = 7 to 9 cwt
 Tar (Barrel) = 26¼ gallons.
 Tea (Chest) = 84 lb
 Tobacco (Hogshead) = 12 to 18 cwt
 Turpentine (Barrel) = 224 to 280 lb
 Wood (Cord) = 128 cubic feet
 Wool (Sack) = 364 lb

Wheat, Corn, and Flour

Wheat and other cereals are commonly sold by weight, the bushel being thus reckoned.—

Wheat, English, 60 lb Foreign, 62 lb
 Barley, English, 56 lb French, 52½ lb
 Mediterranean, 50 lb

Oats, English, 39 lb Foreign, 38 and 40 lb
 Rye and Maize, 60 lb Buckwheat, 52 lb

Under the *Corn Sales Act of 1921* the Corn Returns Act of 1882 is amended, and provision is made for the sale of cereals by weight in terms of the hundredweight of 112 imperial standard pounds

100 lb. wheat produces 70 lb. flour

100 lb flour produces 130 lb. bread.

A quartern loaf = 4 lb

A last of grain = 80 bushels

NOTE—A *Quarter* is a heaped measure of 8 bushels A bushel of English wheat is reckoned as 60 lb weight, and a *Quarter* as 480 lb.

Hay and Straw

Truss of Straw, 36 lb Truss of Old Hay, 56 lb

Truss of New Hay (to September 1st), 60 lb

Load of hay or straw = 36 trusses.

Ton of hay = 36 trusses

An acre of grass should yield 1 to 2 tons of hay

Sizes of Barrels and Bottles

	Gals.
Firkin or Quarter Barrel	9 = 9 × 1
Kilderkin, Rundlet, or ½ Barrel	18 = 9 × 2
Barrel	36 = 9 × 4
Hogshead (1½ barrels)	54 = 9 × 6
Punchon (2 barrels)	72 = 9 × 8
Butt of Ale (3 barrels)	108 = 9 × 12
An <i>Anker</i> = 10 gallons, a <i>Tierce</i> = 42 gallons;	
a <i>Pipe</i> of Port or Maslew = 115 gals, Teneriffe	
= 100 gals, Marsala = 93 gals, Madeira and	
Cape = 92 gals, Sherry and Tent = 108 gals,	
Butt of Lisbon and Bucellas = 117 gals, <i>Aum</i>	
of Hock and Rhenish = 30 gals, <i>Hogshead</i> of	
Bandy, 60 gals, Claret, 46, Port, 57, Sherry, 54,	
Madeira, 46 gallons, <i>Punchon</i> of Bandy or	
Rum = 120 gals	

Bottles—The customary glass bottle of wine or spirits should contain one sixth of a gallon = 26½ fluid ounces

In the drug trade two large bottles are used —

Corbyn = 40 fluid oz (1 quart)
 Winchester quart = 80 " (½ gallon)

Water

The British Ton is the weight of a cubic British Metre of pure water at the temperature of melting ice, very nearly At present, the following relations hold good —

Cubic inch	= 252 458 grains
Gallon (277 274 cub in)	= 10 lb (distilled)
Cubic foot	= 62 321 lb
35 943 cubic ft (224 gals) = 1 ton	
Water for Ships Tun, 210 gals, Butt 110, Pun-	
cheon 72, Barrel 36, Kilderkin 18 gals	
<i>Cisterns</i> A cistern 4 feet by 2½ and 3 deep will	
hold brimful 186 963 gallons, weighing 16 cwt	
2 qrs 21 6 lb in addition to its own weight	

Railway Gauges.

In Great Britain = 4 ft 8½ in

Ireland = 5 ft 3 in

U S A = 4 ft 8½ in

The 4 ft 8½ in gauge is also used in Canada, France, Germany, Netherlands, Belgium, Denmark, Austria, Hungary, Italy, Switzerland, Sweden and European Turkey

Australia —

N S W = 3 ft 6 in and 4 ft 8½ in

Victoria and South Australia = 5 ft 3 in
 Queensland and Western Australia = 3 ft 6 in

New Zealand = 3 ft 6 in

India = 2 ft 6 in, 3 ft 3½ in and 5 ft 6 in.

South Africa = 3 ft 6 in

Egypt = 4 ft 8½ in and 3 ft 6 in.

Ceylon = 5 ft. 6 in

Japan = 3 ft 6 in.

Russia = 5 ft. 0 in

Spain and Portugal = 5 ft. 6 in

Asia Minor = 4 ft. 8½ in and 3 ft. 5½ in

A single track of 4 ft 8½ in gauge requires 12 ft of roadway; a double track requires 23 ft. of roadway.

Electrical Measures.

It is customary to express electrical measurements in terms of the centimetre, the gramme, and the second (C.G.S. units), and the value of the units has been fixed by international agreement. The principal units are as follow—

As a unit of resistance, the international *Ohm*, which is based upon the ohm equal to 10^9 units of resistance of the C.G.S. system of electro-magnetic units, and is represented by the resistance offered to an unvarying electric current by a column of mercury at the temperature of melting ice, 14532 grammes in mass, of a constant cross sectional area, and of a length of 1063 centimetres.

As a unit of current, the international *Ampère*, which is one tenth of the unit of current of the C.G.S. system of electro-magnetic units and which is represented sufficiently well for practical use by the unvarying current which, when passed through a solution of nitrate of silver in water, in accordance with a certain specification, deposits silver at the rate of 0.001118 of a gramme per second.

As a unit of electro-motive force, the international *Volt*, which is the E.M.F. that, steadily applied to a conductor whose resistance is one international ohm, will produce a current of one international ampère, and which is represented sufficiently well for practical use by 1.101 of the E.M.F. between the poles or electrodes of the voltaic cell known as Clark's cell at a temperature of 15° C., and prepared in the manner described in a certain specification.

As a unit of quantity, the international *Coulomb*, which is the quantity of electricity transferred by a current of one international ampère in one second.

As a unit of capacity, the international *Farad*, which is the capacity of a conductor charged to a potential of one international volt by one international coulomb of electricity. The unit generally used in practice is one-millionth part of this, or the microfarad.

As the unit of work, the *Joule*, which is 10^7 units of work in the C.G.S. system, and which is represented sufficiently well for practical use by the energy expended in one second by an international ampère in an international ohm. In practice the watt-hour is usually employed. It represents the work done by such a current in an hour, and equals 3,600 joules.

As the unit of power, the *Watt*, which is 10^7 units of power in the C.G.S. system, and which is represented sufficiently well for practical use by the work done at the rate of one joule per second. 746 watts = 1 horse power, and the value of a Board of Trade unit (B.O.T.U.) is 1,000 watt-hours, or 3,600,000 joules, or $1\frac{1}{2}$ horse-power hours.

As the unit of induction, the *Henry*, which is the induction in the circuit when the E.M.F. induced in this circuit is one international volt, while the inducing current varies at the rate of one international ampère per second.

Builders' Measurements.

Stock or kiln bricks	8 $\frac{1}{4}$ inches	\times 4 $\frac{1}{2}$ \times 2 $\frac{3}{4}$
Welsh fire-bricks	9 " "	\times 4 $\frac{1}{2}$ \times 2 $\frac{3}{4}$
Paving bricks	9 " "	\times 4 $\frac{1}{2}$ \times 1 $\frac{3}{4}$
Square tiles	9 $\frac{1}{2}$ " "	\times 9 $\frac{1}{2}$ \times 1
	6 " "	\times 6 \times 1
Dutch clinker bricks	9 $\frac{1}{2}$ " "	\times 3 \times 1 $\frac{1}{2}$

A Rod of Brickwork 16 $\frac{1}{2}$ feet \times 10 $\frac{1}{2}$ feet \times 1 $\frac{1}{2}$ brick thick = 306 cubic feet, or 11 $\frac{1}{2}$ cubic

yards, and contains about 4,500 bricks with about 75 cubic feet of mortar. The rod being 5 British metres, a rod of brickwork is 25 square metres. 1 $\frac{1}{2}$ bricks thick = very nearly 10 cubic metres.

Ordinary bricks weigh about 7 lb each, a load of 500 weighs about 1 ton 11 cwt 1 qr.

A Piece of Wall Paper is 12 yd long \times 21 in wide (English), and 9 yd \times 18 in (French).

Timber and Wood

100 superficial feet = 1 square of flooring

50 cubic feet of plank = 1 load

42 do timber = 1 shipping ton

108 do do = 1 stack

128 do do = 1 cord

A standard hundred of deals contains 120 pieces.

The Petriograd standard consists of 165 cubic feet, or 120 pieces $1\frac{1}{2}$ in \times 11 in \times 12 ft, or 120 pieces 3 in \times 11 in \times 6 ft.

A Batten is not more than 7 inches wide, a Deal not more than 9 inches, Planks are 2 to 4 inches thick, and 10 inches and up in width.

Sizes of Staves

Empress	in	in	Ladies	in	in
	26	\times 16		16	\times 10
" Small	26	\times 14	" Small	16	\times 8
Princesses	24	\times 14	" Large	14	\times 12
Duchesses	24	\times 12	" "	14	\times 8
Marchionesses	22	\times 12	Plantation	13	\times 11
" Small	22	\times 11	Doubled	13	\times 10
Countesses	20	\times 10	"	13	\times 7
" Wide	20	\times 12	Small	12	\times 8
Viscountesses	18	\times 10	Ditto	12	\times 6
" Small	18	\times 9	Ditto	11	\times 5 $\frac{1}{2}$

Specific Gravities.

Weight of any volume of following substances compared with the weight of the same volume of water.

Alcohol	0.79	Mercury	13.60
Aluminium	2.67	Milk	1.03
Basalt	2.86	Olive Oil	0.92
Beer	1.02	Petroleum	0.88
Blood	1.06	Platinum	21.45
Brandy	0.84	Portland Stone	2.00
Brass	8.00	Sand, river	1.90
Chalk	1.08	" pit	1.80
Cider	1.02	Shingle	1.60
Clay	1.90	Silver	10.51
Coal, Welch	1.60	Sodium	0.97
" Newcastle	1.24	Steel	7.75
Copper	8.94	Thames ballast	1.80
Cork	0.24	Tin	7.29
Earth	1.60	Turpentine	0.87
Glass	2.80	Ume	1.01
Glycerine	1.26	WATER	1.00
Gold	19.32	Wine, Bordeaux	0.99
Gravel, coarse	1.85	Wood —	
Gunpowder	0.93	Ash	0.84
Honey	1.45	Beech	0.85
Ice	0.92	Cedar	0.61
Iridium	22.38	Cherry	0.78
Iron, cast	7.20	Ebony	1.33
" wrought	7.79	Mahogany	1.06
Ivory	1.83	Oak	1.17
Lead	11.35	Poplar	0.58
Limestone	2.50	Walnut	0.67
Marble	2.70	Zinc	7.29
Marl	1.90		

To find the weight of a cubic foot, multiply 62.321 lb by the specific gravity. To find the number of cubic feet in one ton, divide 35 493 by the specific gravity.

Weight of Cubic Foot and Cubic Yard.

A cubic foot of fresh water = $62\frac{1}{2}$ lb. salt water $63\frac{1}{2}$ lb. Timber—ash 49 lb., beech 43 lb., birch 49 lb., cork 15 lb.; elm 36 lb., pine 41 lb., oak 59 lb. A cubic foot of clay weighs 125 lb., of loose earth 95 lb.

A cubic yard of anthracite coal, solid, weighs 1,600 lb., bituminous 1,025 lb., and 1,400 lb. A cubic yard of compressed hay = 225 lb., of hay in stack, 126 lb., of compressed straw, 145 lb., of straw in stack, 90 lb., of grain, 20 bushels.

Fish.

In Scotland, and at certain places in England and Wales at which the Cran Measures Act, 1908, has been put into operation, fresh herrings must be sold by the *Cran*, containing 37½ imperial gallons, or *Quarter Cran* of 9½ imperial gallons. In the Isle of Man and in Ireland herrings are sold by the *Maze*, which contains 5 long hundreds of 126 each. On the East Coast of England, at places where the above-mentioned Act is not in force, they are sold by the *Last*, which contains 13,200 fish. They are counted by the *Warp*, which is 4 fish. 33 Warps = 1 Long Hundred, 132 = 1 Hundred = 1 Thousand, 1,320 = 10 Thousand = 1 Last, 13,200. Cured herrings are sold in barrels, the capacity of which, in Scotland, must always be 26¼ imperial gallons, or in half-barrels of 13¼ gallons. Herring barrels or half-barrels must be of corresponding capacity in England and Wales if they are presented for the Government Brand at any place at which the Herring Fishery (Branding) Act, 1913, is in force.

A *Quintal* of fish (Newfoundland, &c.) is 100 lb., a barrel of anchovies = 30 lb. a "box of fish" is about 90 lb.

Geographical Measures.

The *North and South Poles* are two points at the opposite extremities of that diameter of the earth round which it revolves. The *Equator* is a great circle, equally distant from the North and South Poles. For geographical purposes, the surface of the earth is divided by circles, called the circles of Latitude and Longitude. The circles of *Latitude* are small circles parallel to the Equator. The circles of *Longitude* are great circles perpendicular to the Equator, and passing through the North and South Poles. These circles are divided into Degrees, Minutes, and Seconds. Degrees of Latitude are numbered from the Equator to the North and South Poles. Degrees of Longitude are numbered from the primary circle of Longitude, or Meridian, which passes through the astronomical observatory of Greenwich (England).

A *Geographical Mile* is the length of one minute of Latitude. If the earth was a sphere, every minute of Latitude would be of the same length, but, as it is a spheroid, the length of a minute increases from 6,046 feet at the Equator to 6,108 feet at the Poles. The mean length of the geographical mile is 6,076 feet. The *Nautical Mile* is (strictly speaking) the length of a minute of the meridian, and is thus identical with the geographical mile. In practice, however, it is taken as the *Admiralty Knot* of 6,080 feet, divided into 10 cables, which are assumed to be 100 fathoms, or 600 feet.

The *Polar diameter of the Earth* is 7,999 English miles. The mean equatorial diameter is 7,926 miles. The circumference at the Equator is 24,902 miles.

Thermometer Comparisons.

Comparison between Scales of Fahrenheit, Réaumur, and Centigrade.

CENT.	FAH°	RMR.	CENT.	FAH°	RMR.
100B	212B	80B	25	77	30.0

Let F = Fahr
C = Cent
R = Réaumur

CONVERSION

Let F = Fahr
C = Cent
R = Réaumur

NOTE.—The normal temperature of the human body is 98.4° F., or 37° (35.5°) C., or 86° R. ; Boiling point = 212° F. = 100° C. = 80° R. ; "Absolute" Temperature is reckoned from "Absolute Zero," which is at 273° C. below 0° C., 459.4° below 0° F., and 273.15° below 0° R.

Nautical Measures.

6 feet = 1 fathom
 100 fathoms = 1 cable length
 10 cables = 1 nautical mile
 60 nautical miles = 1 degree.

The assumed length of the cable is 600 feet (= 182.87 metres), but it is strictly 606.97 feet (= 185 metres). The conventional Nautical Mile (the *Knot* in speed measurements) is 10 cables, assumed at 6,080 feet (strictly 6,069.7 feet), but the Nautical Mile is strictly the length of a minute of the meridian and differs according to latitude.

Ship Measurement

The Ton measurement of cargo was originally the space occupied by 4 hogsheads (= a Tun) of wine = 50 cubic feet. It is now 40 cubic feet, which is approximately the bulk of 4 quarters, or a short ton, of wheat.

The *Ton-register*, the unit of capacity of a ship, was originally the space occupied by a Last of 10 Quarters of wheat = 100 cubic feet. This cubic space is the *Ton-register* used by all maritime nations, 100 English cubic feet.

Gross tonnage is the sum in cubic feet of all the various enclosed spaces of a vessel, divided by 100.

Net tonnage is the gross tonnage less certain deductions on account of crew spaces, engine room, water ballast, and other spaces not used for passengers or cargo.

Dead-weight tonnage, or carrying capacity, is the number of tons (of 2,240 lb.) of cargo that a vessel is capable of carrying when charged to the load water line (*q.v.*).

Displacement tonnage is the number of tons of sea water displaced by a vessel when charged to the load water line (*q.v.*), i.e., it is the *weight* of vessel and contents in tons.

Load water-line is the line that would be made round the shell of a vessel when loaded as deep as the minimum freeboard regulations permit.

Draught is the distance in feet from the lowest part of the bottom of a vessel to the actual water line at which the vessel is floating. Thus the load-water-line marks the greatest, or loaded, draught of a vessel. A vessel without any cargo in her hold or passengers or their luggage aboard is said to be "light ship," or "light," or "in ballast."

Free Board is the distance from the main or upper deck to the load-water-line of a vessel. As a general rule the minimum free board provides an amount of reserve buoyancy that will keep a vessel afloat with two compartments holed.

Bells and Watches on Board Ship.

Bells—Time is kept by means of a bell, which is struck every half hour, except at certain times towards the end of a watch, when the bell is struck 10 or 15 minutes before the expiration of the regular half hour, partly as a signal to the Commanding Officer that the watch is about to be changed, and partly as a signal to the Officer of the next watch to prepare for duty.

Watches.—For purposes of discipline, and to divide the work fairly, the crew is mustered in two divisions: the *Starboard* (right side, looking forward) and the *Port* (left). The day commences at noon, and is thus divided:—

Afternoon Watch . . . noon to 4 p.m.
 First Dog " . . . 4 p.m. to 6 p.m.
 Second Dog " . . . 6 p.m. to 8 p.m.
 First " . . . 8 p.m. to midnight
 Middle " . . . midnight to 4 a.m.
 Morning " . . . 4 a.m. to 8 a.m.
 Forenoon " . . . 8 a.m. to noon.

This makes seven Watches, enabling the crew to keep them alternately, as the Watch which is on duty in the forenoon one day has the afternoon next day, and the men who have only four hours' rest one night have eight hours the next. This is the reason for having *Dog Watches*, which are made by dividing the hours between 4 p.m. and 8 p.m. into two Watches.

For TIME AT SEA see p. 78.

Speed of Ships

The *Knot* is a measure of speed of ships. The following table shows the equivalents of 1 to 42 knots in land (statute) miles per hour:—

Knots	Miles	Knots	Miles	Knots	Miles
1	1.1515	15	17.2727	30	33.9393
2	2.3030	16	18.4242	31	34.5454
3	3.4545	17	19.5757	32	35.0606
4	4.6060	18	20.7272	33	36.8484
5	5.7575	19	21.8787	34	38.0000
6	6.9090	20	23.0303	35	39.1515
7	8.0606	21	24.1818	36	40.3030
8	9.2121	22	25.3333	37	41.4545
9	10.3636	23	26.4848	38	42.6060
10	11.5151	24	27.6363	39	43.7575
11	12.6666	25	28.7878	40	44.9090
12	13.8181	26	29.9393	41	46.0606
13	14.9696	27	31.0909	42	47.2121
14	16.1212	28	32.2424	42	48.3636

Measures of Energy, &c.

In Physics the unit of force is the *dyne*, the amount that, acting for one second on one gramme mass, gives it a velocity of one centimetre per second. The British unit is the *poundal*, which in one second gives one pound a velocity of one foot per second. One *poundal* = 13.825 *dynes*. In Meteorology the unit of atmospheric pressure is the *Bar*, equal to the pressure of 1,000,000 dynes (1 megadyne) per sq. centimetre. The Meteorological *Bar* is thus 1,000,000 Chemical *Bars*.

Horse power is energy exerted at the rate of 550 foot-pounds per second, an alternative unit is the *kilowatt* (100 kilogram-meters per second) = 737.59 foot pounds per second.

Thermal Unit—The British thermal unit (B.T.U.) is the amount of heat required to raise one pound of water one degree Fahrenheit. The *Gas Therm* = 100,000 B.T.U. If *V* = cu ft consumed, *H* = declared heat value of the Company's gas (in B.T.U. per cu ft), *P* = cost of that in pence, *B* = total bill in pence, then $B = V \times H \times P \div 100,000$, whence equivalent cost (in pence) per 1,000 cu ft. = $B \times 1,000 \div V = H \times P \div 100$.

Yarn Measures

Cotton and Spun Silk Count—

Thread = $1\frac{1}{2}$ yards

Lea or Skein, *skn* = 120 yards

Hank, *hk* = 7 Skeins, or Leas = 840 yards.

Spindle, *spdl* = 18 Hanks

Counts = the number of Hanks in 1 lb

Bundle Hanks, either of 5 lb or 10 lb

Reels of cotton vary from 30 to 1,760 yards; they must be marked correctly.

Bundles of Cotton are chiefly made up for export.

Worsted Count—Wrap, 80 yards, Hank = 560 yards = 7 Wraps. Counts or Numbers are the number of hanks in 1 lb.

Linen Count—The Hank or Lea is 300 yards, and the number of these in 1 lb is the count of the yarn. A Spindle is 48 hanks, a Bundle is 200 hanks.

Wool of England Count—The Hank is 300 yards, and the number of hanks in 1 lb is the count of the yarn.

Paper and Book Measure.

Writing Paper	Printing Paper.
24 sheets = 1 quire	316 sheets = 1 ream
20 quires = 1 ream.	2 reams = 1 bundle.
	5 bundles = 1 bale

Regular Sizes of Printing Paper

Foolscap	= 17	X	13½	inches
Double Foolscap	= 27	X	17	"
Crown	= 20	X	15	"
Double Crown	= 30	X	20	"
Post	= 19½	X	15½	"
Double Post	= 31½	X	19½	"
Double Large Post	= 33	X	21	"
Sheet and ½ Post	= 23½	X	19½	"
Demy	= 22½	X	17½	"
Double Demy	= 35	X	22½	"
Music Demy	= 20	X	15½	"
Medium	= 23	X	18	"
Royal	= 25	X	20	"
Super Royal	= 27½	X	20½	"
Elephant	= 28	X	23	"
Imperial	= 30	X	22	"

NOTE.—Books are usually bound up in sheets of 16 or 32 pages. Octavo books are generally printed 64 pages at a time (32 pages on each side of a sheet of quad), a crown octavo book of 320 pages will therefore require 5 sheets of quad crown, and a ream will provide 100 books, the odd 16 sheets being reckoned as waste. Newspapers (and books circulating in large numbers) are printed on rotary presses, for which the paper is supplied on reels (and not in cut reams) "Whitaker" is printed on a rotary press, 192 pages at a time, the paper being seized to the press from a reel, and 6 sheets of 32 pages are delivered, printed and folded, at the opposite end of the press

Sizes of Writing and Drawing Papers.

Emperor	= 72	X	48	inches
Antiquarian	= 53	X	31	"

Demy Folio	= 17½	X	11½	"
Royal Folio	= 20	X	12½	"
Music	= 14	X	10½	"

Sizes of Type.

All Founders cast their type to one uniform height ("type high"), which is 1½ inch, though the letters may vary considerably in their breadth

The type chiefly used in "Whitaker" is named *Nonpareil* (6 point). The column contains 75 lines, and is 12 Pica ems wide, on an average every column contains about 3,000 letters, or 600 words

The Point System—The basic unit in American (and many British) type foundries is the "point" of 0.013837 inch (72 points to the inch), and the names of the various types in the point system are added in parentheses

Brilliant (3½ point). A column the size of this in "Whitaker," if set in Brilliant would contain 124 lines, and about 7,500 letters

Diamond (4½ point) is the next size, the column would contain 107 lines, and about 6,000 letters.

Pearl (5 point), 95 lines, 4,370 letters—Printing is the art of producing impressions, from characters or figures

Ruby (5½ point), 87 lines, 3,740 letters—Printing is the art of producing impressions, from characters or figures

Nonpareil (6 point), 75 lines, 3,000 letters—Printing is the art of producing impressions, from characters or figures

Mignon (7 point), 64 lines, 2,360 letters—Printing is the art of producing impressions, from characters or figures

Bremer (8 point), 58 lines, 1,970 letters—Printing is the art of producing impressions, from characters or figures

Bourgeois (9 point), 53 lines, 1,590 letters—Printing is the art of producing impressions, from characters or figures

Long Primer (10 point), 47 lines, 1,360 letters—Printing is the art of producing impressions, from characters or figures

Small Pica (11 point), 43 lines, 1,120 letters—Printing is the art of producing impressions, from characters or figures

Pica, (12 point) 37 lines, 890 letters—Printing is the art of producing impressions, from characters or figures

English (14 point), 34 lines, 680 letters—Printing is the art of producing impressions, from characters or figures

Great Primer (18 point), 27 lines, 430 letters—Printing is the art of producing impressions, from characters or figures

Double Pica (22 point), 22 lines, 280 letters—Printing is the art of producing impressions, from characters or figures

Printing is the

METRIC WEIGHTS AND MEASURES.

See also "Double Conversion Tables for Weights and Measures."

In addition to the Imperial standard weights and measures, the use of the French or Metric system of weights and measures was made permissive in Great Britain in 1877.

In the Metric system, the standard of length is the METRE, the standard of weight is the KILOGRAM, and the standard of capacity is the LITRE. Accurate copies of the Metre, Kilogram, and Litre are kept in the custody of the Standards Office of the Board of Trade.

1.—MEASURES OF LENGTH

10 millimetres = 1 centimetre = 0.39370113 inch (<i>mm</i>) (<i>cm</i>)	
10 centimetres = 1 decimetre = 3.9370113 inches (<i>dm</i>)	
10 decimetres = 1 METRE (<i>m</i>) = 1.0936143 yards (<i>dm</i>)	
10 metres = 1 dekametre = 10.936143 yards (<i>dm</i>)	
10 dekametres = 1 hectometre = 109.36143 yards (<i>hm</i>)	
10 hectometres = 1 kilometre = 0.62137 mile (<i>km</i>)	

A kilometre is approximately five eighths of a mile, so that 8 kilometres may be regarded by pedestrians as 5 miles.

2.—MEASURES OF WEIGHT

10 milligrams = 1 centigram = 0.15432 grains (<i>mg</i>) (<i>cg</i>)	
10 centigrams = 1 decigram = 1.5432 "	
10 decigrams = 1 grammme = 15.432 "	
10 grammes = 1 dekagram = 5.6438 drams. (<i>gm</i>) (<i>dag</i>)	
10 dekagrams = 1 hectogram = 3.5274 oz (<i>hg</i>)	
10 hectograms = 1 KILOGRAM = 2.2046223 lb. (<i>kg</i>)	
10 kilograms = 1 myriagram = 22.046223 lb	
10 myriagrams = 1 quintal (<i>q</i>) = 1.9684 cwt	
10 quintals = 1 tonne (<i>t</i>) = 0.9842 ton	

3.—MEASURES OF CAPACITY

10 millilitres = 1 centilitre = 0.0704 gill (<i>ml</i>) (<i>cl</i>)	
10 centilitres = 1 decilitre (<i>dl</i>) = 0.17598 pint.	
10 decilitres = 1 LITRE (<i>lt</i>) = 1.7598 pints.	
10 litres = 1 dekalitre = 2.1997 gals. (<i>dal</i>)	
10 dekalitres = 1 hectolitre = 2.1997 bushels (<i>hl</i>)	

1 cubic cm. (water) = 1 gram, 1,000 cubic cm (water) or 1 litre = 1 kilogram, 1 cubic metre (1,000 litres, 1,000 kilograms) = 1 metric ton.

4.—MEASURES OF LAND

100 sq metres = 1 are (<i>a</i>) = 0.0022 rood.	
100 ares = 1 hectare (<i>ha</i>) = 2.4711 acres	
100 hectares = 1 sq kilometre = 0.38611 sq mile	

NOTES

1 hectolitre	= 2.75 bushels.
1 hectolitre per hectare	= 1.12 bushels per acre.
1 quintal per hectare . . .	= 3.67 bushels.
1 quintal per hectare . . .	= 4.49 bushels per acre.
1 franc a hectolitre . . .	= 3.65 a bushel (par)
" " a quintal	= { 4.32 a cental (par)
" " " " " " " " " " " "	= { 3.2 a quarter (par)
7 francs " (duty)	= 22.62 a quarter (par).

THE UNITED STATES.

The weights and measures of the U S A are identical with those of Great Britain, with the following exceptions—

Weight—In the short ton of 2,000 lb, the Cental of 100 lb takes the place of the Cwt in the long ton. There are two tons, therefore, the long ton of 2,240 lb, the short ton of 2,000 lb.

Capacity—For grain, the old bushel of 2,150.48 cubic inches, its gallon = 268.8 cubic inches. This is commonly called the Winchester bushel, though really of the slightly different London standard.

For liquids, the old wine-gallon of 231 cubic inches, five-sixths of the British gallon and = 58,317.8 grains of water. It is divided into 8 pints = 7,289.7 grains of water = 16.6 Imperial ounces. In medicine the pint is divided into 16 fluid ounces = 455.6 grains of water, and the ounce into 8 fluid drachms of 60 minims.

BRITISH DOMINIONS.

Australia and New Zealand.—Same as British Canada and Newfoundland.

Same as British but with short ton of 2,000 lb, as in U S A.

Channel Islands.

The weights and measures in use in the Channel Islands are those of Great Britain, the cental of 100 lb. being used as well as the cwt of 112 lb. The Old Island Measures are as follows—

Vergee (Normandy)	Jersey	Guernsey
rood)	= 44 acre	4 acre
Bushel	= 8.9 gallons	5.8 gallons
Pound	= 7.561 grains	7.623 grains
Cwt. (104 lb)	= 112 3 lb	(100 lb) = 108.9 lb

British India.

Ungul	= 7.561 inch.
Guz, usually 33 inches, also the yard.	
Koss	= 8,000 yards
Bigha (Bengal)	usually = 625 acre
Cawny (Madras)	" = 133 "
Tola (rupee-weight)	" = 180 grains
Chittak	= 3.02 av
Seer, 16 chittak, or 80 tolas	= 2.204 lb
Maund, 40 seers	= 82.287 lb.
" (Madras)	= 24.68 lb
Seer (Liquid)	= 1.760 pints
Candy	= 500 lb
Visham = 3 lb, Dangali	= 3 pints
Parah	= 15 gallons
Catty (Singapore)	= 1 1/2 lb
Pikul	100 catties = 133 lb.

Irish Free State—Same as British.

Malta.

Piede	= 11.166 inches
Canna	= 2.223 yards
Libbra	= 12 oncia = 488.6 Troy gr
Rotolo	= 1.745 lb.

Sudan.—See Egypt

South Africa.

Money, Weights, and Measures—The Metric System is compulsory in the case of chemists, and is permissible (along with British standard of weights and measures) in other cases. In addition, the following old Dutch measures are still used—*Liquid Measure* Leaguer—about 1.28 Imperial gallons, half aum = 15 1/2 Imperial gallons, anker = 7 1/2 Imperial gallons. *Capacity* Muid = 3 bushels. The general surface measure is Morgen, equal to 2.126402 acres; 1,000 Cape lineal feet are equal to 1.033 British feet. The short ton of 2,000 lb. is used.

FOREIGN WEIGHTS AND MEASURES.

The *Metric System* has been adopted by the whole of Europe (except *Great Britain* and *Russia*) and is *permissible* in all countries

China.

Tael weight	=	1 33 oz
Catty	"	= 1 33 lb
Picul	"	= 133 33 lb
Ts'un	"	= 1 41 inches
Ch'ih	"	= 1 75 feet
Chang	"	= 11 75 feet
Li	"	= 2,115 feet

Egypt.

The *Metric System of Weights and Measures* and the foot and pound and their multiples, are legal in Egypt. The foot and pound are rarely used and the *Metric System* is little known except in the large towns.

The *Weights and Measures* in common use, with their British equivalents, are as follows—

Length—

Dira Baladi (used for piece goods)	=	29 83 inches
Dira Mamari, or Pic (used by architects)	=	29 53 inches
Qasaba (used for agricultural land)	=	11 65 feet

Area—

1 Qirat	=	209 3 sq yards
1 Feddan (= 24 quats)	=	1 038 acres

Capacity—

1 Kela	=	454 bushel
1 Ardeb (= 12 kela)	=	5 444 bushels

Weight—

1 Rotl	=	99 lb
1 Oke	=	2 75 lb
1 Qantar (= 100 rotls)	=	99 05 lb

A *Qantar* of unginned cotton = 315 lb, of ginned cotton = 300 lb, an *Ardeb* of wheat = 150 kilogrammes, of barley = 120 kilogrammes, of beans = 155 kilogrammes, of maize = 140 kilogrammes, of whole lentils = 157 kilogrammes, of split lentils = 132 kilogrammes

Greece.

1 ocque	=	2 84 lb
1 quintal	=	132 2 lb
	1 livre	= 1 1 lb
	1 drachma	= 0 11 oz

Japan and Formosa.

The *Metric System* from July 1, 1924

Old Japanese Measures

Shaku (10 Sun)	=	11 931 inches
Ken (6 Shaku)	=	1 9884 yards
Ri	=	2 4403 miles
Square ri	=	5 9553 sq miles
Cho	=	5 423 chains
Square cho	=	2 4507 acres
Tsubo	=	3 9538 sq yards
Liquid koku	=	39 7033 gallons
Dry koku	=	4 9629 bushels
Koku of capacity	=	0 1 ton
Liquid sho	=	1 588 quarts
Dry sho	=	0 1985 pecks
Kin (160 Monme)	=	1 322 lb
Kwan (1000 Monme)	=	8 2673 lb

Russia.

The standard of length is the *Sajen*, which is equal to seven British feet, the standard of weight is the *Funt* = 0 6922 lb

Length

16 vershok	=	1 arshin.
3 arshin	=	1 sajen
500 sajen	=	1 verst
1 verst	=	1166 66 yards (0 66288 mile).

Surface.

1 sq vershok	=	3 0625 sq inches
1 sq arshin	=	5 4444 sq feet
1 sq sajen	=	5 4444 sq yards
1 sq verst	=	0 4394 sq miles

Weight

1 zolotnik	=	65 8306 grains
3 zolotnik	=	1 loth
32 loth	=	1 funt
40 funt	=	1 pood (36 1128 lb)
10 poods	=	1 berkovatz.

Capacity

1 tcharka	=	0 2164 pint
1 shloff (10 tcharkas)	=	1 0822 quarts
1 vedro (10 shloffs)	=	2 702 British gallons
1 chetvert (8 chetverks)	=	5 771 British bushels

Siam.

Nin	=	83 inch
Rut'p	=	10 inches
Sen	=	44 4 yards
Roengeng	=	2 525 miles
Tael	=	936 25 Tr gr
Chang	=	2 675 lb

Turkey.

Oke	=	400 drams = 2 8264 lb.
Batman	=	5 okes = 16 958 lb
Qantar	=	44 okes = 124 3616 lb
Cheki	=	180 okes = 508 751 lb
Kileh	=	0 9120 bushel
Muscal (Egg of Rose)	=	1 5 diams = 74 171 grains
Arshin (cloth)	=	26 96 inches
Eudaze	=	25 555 inches
Arshin (land)	=	29 830 inches
Dennum	=	1098 765 sq yards
Djerib (hectare)	=	2 47 acres

OLD MEASURES.

Old British and Irish Measures.

Cubit	=	18 inches
English Ell	=	45 inches.
Scottish Ell	=	37 2 inches
Hand (horses)	=	4 inches
Scottish mile	=	1 984 yards
Irish mile	=	2 240 yards.
Scottish acre	=	6 150 4 sq yards
Cunningham acre	=	6 250 sq yards
Irish acre	=	7 840 sq yards
Cheshire acre	=	10 240 sq yards.
Hide	=	120 acres (average)
Yard of land	=	¼ of a hide

Old French Measures.

Toise of 6 feet	=	Foot = 12 789 in
Aune (ell) of 4 Roman feet	=	46 77 in
League, 3,000 toises	=	3 6 miles
Perch, 22 feet or 6 aunes	=	23 44 feet
A pent, 100 sq perches	=	1 26 acres
Pound = 7,554 grains	=	Setier = 34 317 gallons
Bolsseau (½)	=	2 86 gallons
Pinte	=	1 76 pints.

Old Hebrew Measures.

Talmud Cubit	=	21 914 in, Egyptian Cubit = 18 24 in
Cubit of Ezekiel	=	25 26 in; Reed = 151 6 in.
Kikkar (Alexandrian talent)	=	50 minas of 60 shekels
Shekel	=	½ oz., of 8 gerah, or (Shekel of the Sanctuary) of 2 beka, 4 reba, 80 gerah
Bath (fluid), Ephra (corn) of 6 hin, 18 cab, 72 log	=	6 477 British gallons.
Cor or Homer (10 ephas)	=	8 351 bushels.

DOUBLE CONVERSION TABLES FOR WEIGHTS AND MEASURES.

NOTE.—The central figures in heavy type represent either of the two columns beside them, as the case may be. *Examples*—1 centimetre = 0.394 inch and 1 inch = 2.54 centimetres
1 metre = 1.094 yards and 1 yard = 0.914 metre 1 kilometre = 0.621 mile and 1 mile = 1.609 kilometres

Centimetre	Inches	Metres	Yards	Kilo metres	Miles	Hectares	Acres	Square Kilometres	Square Miles
2 540	1	0.394	0.914	1	0.621	0.404	1	2 590	1

EQUIVALENT INVESTMENTS.

Examples — To ascertain the yield of Consols at a price of £57 10s *od* look in the column headed $\frac{2}{3}\%$ Pr Ct for 57½, and it will be seen that the yield (column headed Return Per Cent) is £4 6s 11d. Similarly, shares paying a fixed dividend of 6 per cent, if purchased at £105, will yield £5 14s 3d per cent, while 5 per cent shares at £105 yield £4 15s 3d per cent.

						IN PERPETUITY					
						33 33	25 00	20 00	16 66	14 28	

EXAMPLE 1.—What is the present value of a Lease having 37 years to run of the net annual value of £500, interest being reckoned at 4 per cent? ANSWER.—19 14 years' purchase, or £5,914.

EXAMPLE 2.—A man, aged 54, in the receipt of a pension or annuity of £500 a year net, wishes to commute that for a present payment, interest being reckoned at 4 per cent. How much will he receive? ANSWER.—Looking at the Table of Expectation of Life (p. 11), it will be seen that the expectation for age 54 is about 17 years, and

from the above table an annuity certain for 17 years, interest at 5 per cent, is worth 12 27 years' purchase. The present payment required would therefore be £5,127 approximately.

Note to Example 2.—This method is only approximate. The values of annuities which depend on lives of a given present age, when properly calculated according to a given mortality table and a given rate of interest, are always somewhat less than those given by the method used in this example.

DISTANCE FROM LONDON TO EUROPEAN CITIES (with the Mails).

FROM this table the distance which separates twenty-one cities of Europe can be ascertained at a glance. <i>e.g.</i> (1) London is 270 miles from (6) Antwerp and 1,925 from (18) Moscow, while (3) Paris is 1,843 miles from (18) Moscow and 1,212 miles from (21) Stockholm.

REDEMPTION OF CAPITAL BY ANNUAL PAYMENTS

THE following are the rates charged by certain first-class Insurance Companies for "Redemption Policies," to secure the payment of £100 in return for so many annual premiums, e.g., an Insurance Company will undertake to pay £100 on Midsummer Day, 1951, in return for the payment of £2 5s. 6d. on Midsummer Day, 1953, and each year afterwards until 1950, or 28 payments in all, for £1,000 the annual premium would be £2 11s. 8d., and so on. This table is of particular interest to purchasers of *Leasehold* property, as it enables such purchasers to see, at a glance, the amount to be paid out of the income from the property for a redemption policy to provide the sum originally expended (with a margin for dilapidations, if necessary), by the time the leasehold interest has expired.

THE RULE OF THE ROAD.

The Rule of the Road is a paradox quite,
For in driving your carriage along,
If you bear to the left you are sure to go right,
If you bear to the right you go wrong.

But in walking the streets 'tis a different case,
To the right it is right you should steel,
On the left should be left enough of clear space
For the people who wish to walk there

THE RULE OF THE ROAD AT SEA.

1 Two steamships meeting.

When both side-lights you see ahead,
Port your helm, and show your RED

2 Two steamships passing

GREEN to GREEN, or RED to RED,
Perfect safety—Go a-head!

3. Two steamships crossing.

If to your starboard RED appear,
It is your duty to keep clear,
To act as judgment says is proper ;—
To Port—or Starboard—Back, or Stop her.

But when upon your port is seen
A Steamer's starboard light of GREEN,
There's not so much for you to do,
For GREEN to Port keeps clear of you.

Both in safety and in doubt,
Always keep a good look-out ;
In danger, with no room to turn,
Ease her—stop her—go astern.

SIMPLE INTEREST FROM DAY TO DAY.

Showing the simple interest on £100 in pence for 1 to 300 days at various rates per annum

When the annuity is payable at the beginning instead of at the end of the year, the amount for the following year, less £1 must be taken. Thus, for £1 at 4 per cent for 25 years, take 25 years, £56 012, and deduct £1—£55 012.

REPAYMENT OF PUBLIC LOANS.

Sums needed annually for the liquidation of a debt (principal and interest) of £100, at the stated percentage, in 10, 20, 30, 40, 50, 60 and 80 years. If the loan be for £1,000, each annual instalment must be multiplied by 10, and so on. Thus, a municipal loan of £1,000,000 at 5 per cent, repayable in 50 years, would cost the ratepayers £54,781 5s annually for that period.

THE DERBY, 1881-1924.

For particulars of the Derby from 1780-1880 see 1921 edition.

The Distance of the Derby is 1 mile 4 furlongs 29 yards. Sir J Hawley scored four successes with Teddington Headman, Mugid, and Blue Gown, the second and third being consecutive victories. The late Duke of Westminster also scored four wins with Bend Or, Shotover, Ormonde, and Flying Fox. Lady James Douglas was the first lady to win the Derby.

THE TURF IN 1924.

THE feature of racing in 1924 was the success of the French invasion. Our neighbours carried off the Lincolnshire Handicap with Sir Gallahad III, but more important still the Ascot Gold Cup with Massine and the Alexandra Stakes with Rose Prince. It would appear that the French horses are at present the better stayers. As our five classic races were won by five different animals, no three-year-old of outstanding merit appeared on the racecourse. Lord Derby won his first Derby with Sansovino. There had been a period of 123 years since the house of Stanley had been credited with its first win in the race named after its founder. The Aga Khan won the Two Thousand Guineas with Diophon and the St Leger with Salmon Trout, Lord Rosebery won the One Thousand Guineas with Plack, and Sir E. Hulton the Oaks with Straitlance, which had been second to Plack in the earlier race.

The race for the St Leger will go down to history as the "Coughing Leger," on account of a disastrous epidemic of coughing which led to the elimination of Straitlance, St Germans and four other Manton candidates. Sansovino, a son of Swynford, and others were slightly attacked, but were able to run. The winner, Salmon Trout, is the third St Leger winner sired by The Tetrarch, the previous two being Caligula and Polemarch.

As mentioned above, the Ascot Gold Cup was taken by the French four-year-old Massine, but the remarkable thing was that another French horse, Filibert de Savole, was second, only a short head behind, while a third, Le Capucin, was fourth, just in the rear of our English champion Inkerman. The valuable Eclipse Stakes was won by Mr. S. B. Joel's Polyphones,

who had finished fifth in the Derby. This colt subsequently won the Ascot Derby, but starting favourite in the St Leger was beaten into third place behind the second, Santorb, a son of Santol.

Amongst the two-year-old colts the best seen out were Dioneides and Black Friar. The former is by the almost unknown sire Argos, and unfortunately he is not heavily engaged for the present season. Black Friar is a son of Friar Marcus, who promises to become one of the best stallions of the near future. Other good two-year-olds were Game Shot, Saucy Sue, Picaroon and Zionist. Margaritta, a daughter of Charles O'Malley, was probably the best of the two-year-old fillies. Heverswood proved himself the fastest three-year-old by winning the Portland Plate at Doncaster with 8st 12lb on his back.

Bloodstock was in great demand at the Doncaster sales of yearlings. Top price was paid by the Aga Khan for a colt by Pharlaris—Silver Wand, which fetched 9,700 guineas. The aggregate of the sales was 322,856 guineas, which is 45,000 guineas higher than the previous best. The Aga Khan headed the list of winning owners with a total of over £40,000, with Lord Derby and Mr. S. B. Joel next. Son-in-Law was top of winning sires list. Mr. R. C. Dawson was the most successful trainer, and Elliott headed the winning jockeys.

Trotting—Fastest m in America, 1 min 54 1/2 secs. by Ulnia, 1923. Fastest pacing m., 1 min 55 1/2 secs., Dan Patch, at St. Paul, U.S.A., Sept. 8, 1906. At Lexington (Ky.) last October Peter Manning trotted a mile in 1 min 52 1/2 sec., unpaced and without wind shields, which were used in Ulnia's case.

CRICKET IN 1924.

Yorkshire for the third year in succession won the County Championship. Middlesex jumped up from eighth to second place, and Surrey also made an ascent from fourth to third, displacing Lancashire. Notts fell from second to sixth, Kent occupying fifth position as in the former year. Owing to the rainy season there was an abnormal number of matches either abandoned altogether or decided on the first innings scores.

The highest individual scores of the year were 255 by Sutcliffe (Yorkshire), 247 by Dipper (Gloucestershire), 225 by G. J. Bryan, 219 by M. D. Lyon, 211 by Hobbs (Surrey), 202 by F. E. Woolley (Kent), and Holmes (Yorkshire). F. E. Woolley (Kent) scored most runs—2,344.

A South African team toured in England with poor results. They were beaten in three test matches, the other two being drawn. An England team was sent out to Australia in the autumn, and another, financed by Mr. S. B. Joel, went out to South Africa.

COUNTY CHAMPIONSHIP TABLE

County	Played	Won	Won on 1st Innings	Lost on 1st Innings	Lost	No Result	Points	Points Possible	Percentage
Yorkshire (1)	30	16	2	2	3	7	88	115	76.5
Middlesex (8)	22	11	1	1	2	7	69	100	69.00

*Leicestershire (14)	25	7	4	2	12	4	49	125	39.20
Hampshire (7)	28	15	4	6	0	4	43	120	35.83
*Glamorgan (16)	21	5	4	1	11	1	35	100	35.00
Worcester (15)	24	4	3	5	11	1	34	115	29.56
*Essex (13)	26	2	4	1	15	3	27	125	21.60
Northants (27)	22	2	0	6	9	5	16	85	18.82
Derbyshire (10)	24	0	4	4	13	3	16	105	15.23

* Exclusive of the following matches abandoned without a ball being bowled: Warwickshire v. Notts, Surrey v. Essex, Leicestershire v. Surrey, Somerset v. Essex, and Glamorgan v. Somerset.

† Match, Kent v. Somerset, a tie on 1st innings the four points being equally divided.

The figures in parentheses indicate the positions in the table at the close of the season 1923.

ETON AND HARROW

Yr	Winner
1912	Eton won by 6 wickets
1913	Eton won by 9 wickets
1914	Eton won by 4 wickets
1915	28, no match
1916	War
1919	Eton won by 202 runs
1920	Eton won by 9 wickets
1921	Eton won by 7 wickets
1922	Match drawn
1923	Match drawn
1924	Match drawn

Totals, Eton 39, Harrow 35, drawn 21

BATTING AVERAGES, 1924.

Batsman	Number of Innings	Times Not Out	Total Runs	Most in an Innings	Average
Sandham	37	2	2028	169	59.48
Hobbs	43	7	2004	211	58.16
Hendren	48	11	2100	148	50.75
Woolley (F. E.)	49	2	2344	200	49.87
Bryan, G. J.	45	1	2044	209	47.87
Sutcliffe	52	8	2124	255	48.58
Whysall	44	4	1852	151	46.30
Tyldesley (F.)	48	6	1844	148*	43.42
Blackie, K. G.	13	1	597	120	45.92
Mead	45	6	1644	154	42.15
MacBryan, J. C. W.	45	2	1608	132	41.25
Hearn, J. W.	43	6	1508	112	40.75
Jardine, D. R.	38	7	1249	126	40.25
Holmes	55	6	1954	200	39.85
Raches, N. V. H.	48	2	1821	170	39.78
Dipper	48	2	1821	247	39.67
Shepherd	38	4	1302	129	38.26
Oldroyd	51	6	1607	138	35.71
Stevens, G. T. S.	22	2	774	112	36.80
Lyon, M. D.	25	1	837	219	34.68
Makepeace	49	1	1531	120	34.84

* Signifies not out.

After topping the list for three years Hendren falls below the two Surrey men, Sandham and Hobbs. Woolley though only fourth moved himself a very fine batsman. It will be noted that there are no new batsmen in the above list.

BOWLING AVERAGES, 1924.

Bowler	Overs	Maidens	Runs	Wickets	Average	
Macanlay	1220	4	243	2514	190	23.23
Kilner (R.)	1150	4	404	1227	145	13.28
Parkin	1104	5	357	2735	200	13.67
Tate	1169	2	357	2018	101	11.71
Tyldesley (R.)	1075	3	246	2574	184	13.98
Parker	1303	5	411	2913	204	14.27
Rhodes	747	3	240	1576	109	14.46
Ryan	650	5	157	1750	120	14.58
Wells	452	1	125	951	64	14.86
Freeman (A. P.)	1075	2	250	2518	167	15.07
Dunston	460	5	152	1023	67	15.26
White, J. C.	1099	4	357	2248	147	15.29
Marnett, C. S.	206	0	69	727	40	15.80
Thomas	703	2	253	1200	75	16.12
Root	1007	3	281	2508	163	16.39
Browne, F. B. R.	173	1	45	412	25	16.48
Fowler	63	1	7	201	12	16.75
Geary	958	5	329	1950	116	16.89
Wright (P. A.)	424	1	130	986	58	17.00
Wright (Kent)	500	2	119	1170	68	17.20

W. Rhodes descends from first to seventh position, but despite increasing years he keeps his form wonderfully well. Tate and Parkin again conceded 200 wickets, and they are joined by Parker of Gloucestershire, Rhodes for the fifteenth time in his career completed the double feat of scoring 1000 runs and taking 200 wickets, beating George Hirst's record of fourteen.

MISCELLANEOUS CRICKET RECORDS

Highest individual scores, A. E. Stoddart, 425, for Hampshire v. Sussex, 1905. In first-class cricket in England A. C. MacLaren, 424, for Lancashire v. Somerset, at Taunton, July, 1906, in Australia W. H. Ponsford, 420, for Victoria v. Tasmania, Feb. 5, 1923.

Highest totals.—In England, Yorkshire 887 v. Warwickshire, 1906. In Australia, New South Wales, 628, v. South Australia, Jan. 1901. Victoria, 1059, v. Tasmania, Feb. 5, 1923.

Smallest, totals.—Oxford University (one man absent), 12 v. M. C. C. at Oxford, May, 1877, Northants, 12, v. Gloucester, June 11, 1907.

Most runs made in a year.—T. Hayward (Surrey), 3,518 in 1920. T. Hayward (1906), C. B. Fry (1902), and E. Hendren (1923) hold the record of 13 centuries in one season. T. Hayward exceeded 2,000 runs in 10 seasons.

Aggregates of 3,000 runs in a season—Hayward, R. Abel, Mead, K. S. Ranjitsinhji, C. B. Fry, J. Tyldesley and E. Hendren.

British-American Yachting Cup

The British team of four yachts of the International Six-Metre class beat the American team in the Bay last September by 4 events to 3. The match was for 6 events, but a 7th was necessary on account of a tie. The British boats were Mr. G. E. Halpin's *Betty*, Lady Baird's *Thistle*, Sir Thomas Glen-Coats's *Boho*, and Mr. J. L. Lewis's *Zenith*.

RUGBY UNION FOOTBALL.

ENGLAND & SCOTLAND	COUNTY CHAMPIONSHIP
1920 England	1-2-1-0 Gloucestershire
1921 England	3-1-0-0 Gloucestershire
1922 England	2-1-0-0 Gloucestershire
1923 England	1-1-0-0 Somerset
1924 England	1-1-0-0 Cumberland

The record attendance for a football match is 127,307, at the International between Scotland and England at Hampden Park on May 2, 1923. The largest gate receipts were £27,775 at Cup Final at Wembley Stadium, April 26, 1923, between Bolton Wanderers and West Ham, when 126,047 persons passed the turnstiles, besides many who broke in. This is a record England attendance the previous best being 120,081 at Crystal Palace in 1913.

ASSOCIATION FOOTBALL IN 1923-24.

THE INTERNATIONALS

Wales, who the previous season was at the bottom of the International contest, won the championship beating Scotland, Ireland and Wales. Scotland won 2 games, lost 2 and drew 2. Ireland won 2 and lost 2, and England lost 2 and drew 2. Results—

Oct. 20, at Belfast, Ireland beat England, 2-1

Feb. 26, at Cardiff, Wales beat Scotland 2-0

Mar. 2, at Glasgow, Scotland beat Ireland 2-0

Mar. 3, at Blackburn, Wales beat England 2-1

Mar. 15, at Belfast, Wales beat Ireland, 2-0

April 22, at Wembley, England drew with Scotland 1-1

Totals (including ties) Scotland, 19, England, 19, Wales, 3, Ireland, 3. This series started in 1883-84.

From 1915-16 there was no contest.

In Paris, England beat France, 3-2, and drew with Belgium at Antwerp, 2-2.

Two Amateur Internationals were played in which England beat Ireland at the Crystal Palace, 3-0, and England beat Wales at Llandudno, 2-1.

INTER-LEAGUE MATCHES

In the Inter-League Tournament, the English and Scottish Leagues tied with a win and a draw each, the former being ahead on goal average. The Irish League lost both their matches. Results—

Sept. 29, at Belfast, English L. beat Irish L., 6-2

Oct. 31, at Belfast, Scottish L. beat Irish L., 1-0

May 15, at Glasgow, Scottish L. drew with English L., 1-1

The Irish Free State League played a match with the Welsh League at Dublin, on Feb. 9, which resulted in a draw of 3 goals each.

PRINCIPAL CUPS

ENGLISH—Newcastle United beat Aston Villa, 2-0, at the Stadium, Wembley, on April 26, before 455 spectators.

AS EXETER—Clapton beat Frith, 3-0, on Millwall ground, before 25,000 spectators, a record for this competition.

AMATEUR F.A.—Bank of England beat Eastbourne, 3-1

SCOTTISH—Andermanns beat Hibernians, 2-0

IRISH—Queen's Island beat Willowfield, 1-0

WELSH—Wrexham beat Merthyr Town, 1-0

LEAGUE COMPETITIONS

LEAGUE I—Huddersfield Town, 57 pts. (Cardiff also got 57 pts., but had a slightly inferior goal average)

LEAGUE II—Leeds United, 54 pts

LEAGUE III (Southern Section)—Preston, 59 pts

LEAGUE III (Northern Section)—Wolverhampton Wanderers, 63 pts

SCOTTISH—Glasgow Rangers 59 pts

IRISH—Queen's Island 26 pts

WELSH (North)—Oswestry, 54 pts. (South) Pontypridd, 51 pts

CENTRAL—West Bromwich Albion, 62 pts., won on goal average from Huddersfield Town, 62 points.

LONDON—Leyton, 45 pts

LONDON COMBINATION—West Ham 61 pts., on goal average from Tottenham Hotspur, 61 pts

SOUTHERN (E. Section)—Peterborough, 42 pts. (W. Section) Yeovil and Petters, 52 pts

BIRMINGHAM—Stourbridge, 52 pts

MIDLAND—Mansfield Town, 66 pts

IRISHMAN—St. Albans City, 39 pts

ATHLETIC—Kingstonians, 36 pts

RUGBY UNION IN 1924

England retained the International Championship winning all her four matches against Scotland, Ireland, Wales and France. Scotland and Ireland had each two wins Wales and France each one win. There were no drawn games. Results—

Jan. 1, Paris—France beat Scotland 12 to 7

Jan. 10, Swansea—England beat Wales 17 to 9

Jan. 26, Dublin—Ireland beat France 6 to 0

Feb. 2, Edinburgh—Scotland beat Wales 25 to 10

Feb. 9, Belfast—England beat Ireland 14 to 3

Feb. 23, Twickenham—England beat France 19 to 7

Feb. 23, Edinburgh—Scotland beat Ireland 13 to 8

Mar. 8, Cardiff—Ireland beat Wales 13 to 10

Mar. 15, Twickenham—England beat Scotland 19 to 0

Mar. 26, Paris—Wales beat France 10 to 6

ASSOCIATION FOOTBALL.

ENGLAND & SCOTLAND	ASSOCIATION CUP.
ENGLAND	5 to 5
England	5 to 4 Aston Villa & Huddersfield T. 1-0.
Scotland	2 to 0 Tottenham & Wolverhampton W. 1-0.
Scotland	1 to 0 Huddersfield & Preston 1-0
Drawn	2 to 2 Bolton Wanderers & West Ham 2-0.
Cumberland	1 to 1 Newcastle & Aston V. 2-0

The record attendance for a football match is 127,307, at the International between Scotland and England at Hampden Park on May 2, 1923. The largest gate receipts were £27,775 at Cup Final at Wembley Stadium, April 26, 1923, between Bolton Wanderers and West Ham, when 126,047 persons passed the turnstiles, besides many who broke in. This is a record England attendance the previous best being 120,081 at Crystal Palace in 1913.

At Twickenham, Oxford beat Cambridge by 21 points to 14. Oxford have won in the series 21 games, Cambridge 20, and 9 have been drawn.

The County Championship was won by Cumberland, who beat Kent in the final by 14 points to 3.

An English XV touring in S. Africa lost the rubber in Test matches. An "All Black" team is touring in England.

THE RUGBY LEAGUE IN 1923-24.

Wigan headed the table of the Rugby League, followed by Batley Oldham and Leigh. In the play off by these four for the club championship, Batley beat Wigan in the final by 13 pts to 7. Wigan won the Challenge Cup, beating Oldham by 21 pts to 4. Hull beat Huddersfield, 16-4 for the Yorkshire Cup, and St. Helen's Recreation beat Swinton 17-0 for the Lancashire Cup. Lancashire, Yorkshire and Cumberland each won a game in the County Championship. A Rugby League team toured in Australasia with success.

AVIATION.

Aerial Derby (1914-24).

1923	J. L. G. G. G.	Nipper Lion 450 h p	194 4
1924	No Race	owing to failure of entries	

The King's Prize, 1924.

The King's Prize over a course round Great Britain, starting from Martlesham, Suffolk and flying via Leith, Dunblain, the West Coast, to Lee-on-Solent, approximately 1,000 miles, was won by Alan J. Colham on a D.H. 50 machine with a 430 h.p. Sudelev-Puma engine. It was a handicap, in which Colham received 3 hrs 4 min 12 sec allowance. He completed the course in 8 hrs 57 min., his average speed being 106.66 miles per hour.

The Schneider Cup, 1924.

England was unable to compete in the Schneider Cup for flying boats owing to the boat sinking on its trial.

Great Feats in 1924.

The first round of the world flight by aeroplane was made by American team starting together from Seattle and finishing there. Total elapsed time, 175 days, mileage 27,534, days actually in the air, 66, actual flying time, 351 hrs 13 mins., average speed, 75.36 m.p.h. A British attempt by Squadron Leader MacLaren failed, the machine being lost in the Behring Sea.

Mrs. A. J. Colham flew from Troydon to Tangiers and back in 5 hrs., flying time, 26 hrs. distance nearly 3,000 miles, average speed, 107 m.p.h., machine, D.H. 50.

The German airship ZR3 flew in October from Friedrichshaven (Lake Constance) to Lakehurst (N.J.), about 5,000 miles across the Atlantic, in 36 hours. This feat had been previously performed in 1919 by a British airship, which also made the return journey.

Ballooning.

Gordon Bennett Cup in 1924 was won outright by Belgium (E. Demuyter pilot), distance covered, about 470 miles. He was in the air 43 hours. It is probable that a new Cup will be offered for competition in 1925. The Ballooning Record is 1,895 miles, held by Germany (British record, 1,177 miles, French record (Blenheim), 1,375 miles).

BOXING IN 1924.

World's Professional Champions (Nov. 2, 1924) — Fly Weight (8 st.)—Pancho Villa, Bankum (8 st. 4 lb.)—Joe Lynch, (Feathers) (9 st.)—Johnny Dundee, Light (10 st.)—Benny Leonard, Welter (12 st. 7 lb.)—M. Walker, Middle (12 st. 6 lb.)—Harry Greb, Heavy (16 st. 7 lb.)—Mike McGuire, Heavy (any weight)—Jack Dempsey.

POLO IN 1924.

Buenos Aires Cup—Optimists beat Somerville House
Coccyo Cup—(timekeepers beat Worcester Park
Rewleigh Cup—Crawley Court beat Pilgrims
Rockampton Cup—Freebooters beat Optimists
Champion Cup—Emmett beat Templeton
Inter-Regimental—XXI-XII Lancers beat R. Artillery
Universiade—Oxford beat Cambridge Old Cantabs
 beat Old Oxoniens
Harrington Cup—Commons beat Lords
Oronotian Cup—Eastcott beat XVII-XII Lancers
Scholarship—XXI-XII Lancers beat Life Guards
Olympic Tournament—(Final positions) Argentina 1,
 U.S.A. 2, Gt. Britain 3, Spain 4, France 5

BILLIARDS IN 1924.

Thomas Newman of London regained the title of Professional Champion of Billiards, but the contest was almost farcical, for William Smith, the holder, did not compete owing to a late entry. Newman had only two moderate opponents—McConachy (New Zealand), whom he beat by 2,267, and Thomas Reece by 2,135 in 16,000 up. In the final heat with the latter, Newman made a break of 2,022, which is the highest ever scored in a championship match. Newman's previous breaks of over a thousand were 2,024, 2,274 and 2,208. Many other large breaks were made during the season by Newman and Smith. The latter raised his personal record break to 2,273 against Newman, and a break of 922 against human. Newman was prolific in large breaks. In addition to the break of 2,022 mentioned, he scored a world's record (over balls) of 1,320. Having the winner of the second class professional championship, made a break of 980 against Carpenter.

Amateur Championship—W. P. McLeod (Middlesex) retained the title by defeating J. Graham Symes (London) by 238 points in 3,000. The previous year McLeod had beaten J. Graham Symes by 232 points.

Breaks—On Nov. 2, 1924, T. Newman scored an all-round break of 1,370 with 107 balls this being the record under modern rules and conditions. Best "spot" break (exhibition match), 3,394 by W. J. Peall, 1890, match for money, 1923, by W. J. Peall, 1888. Best spot (under rules), 2,292, by John Roberts 1894 and 1,467, by T. Taylor 1895. With composition balls the highest breaks are 2,126/344 and 1,620 off the red, by George Gray, 1912, 1,016 by H. W. Stevenson (under R.C.C. Rules) Oct. 1912. Other large breaks with ivory balls under rules B.A. or B.C.C. Rules are 1,236 by G. Gray, 994 by H. W. Stevenson, 972 by T. Newman (October, 1922), and 822 by John Roberts, in 1905. By means of the now abandoned cradle cannon W. Cook in June, 1907, scored 42,746. The highest freak break was 499,225 by T. Reese with the anchor cannon in 1907. In Australia with composition balls Walter Lindrum made a break, in 1922, of 1,417.

CHIEF GOLF EVENTS IN 1924.

British Open—Walter Hagen (U.S.A.)
British Amateur—E. W. Horsburgh (Wilton Heath)
Ladies Open—Miss Joyce Wethered
French Open—C. J. Tolley (R. & A.)

CAPTAIN MATTHEW WEBB SWAM from Dover to Calais in 22 hrs 45 mins. August 24 and 25, 1875
THOMAS WHITMAN BEAT ROSS SWAM from Dover to Calais on Sept 5 and 6, 1921 in 22 hrs 35 mins
HENRY STEVENS, U.S.A., swam from Dover to Calais, on Aug 5 and 6, 1923, in 27 hrs 23 mins
SEBASTIAN TRAMONTA, Italy, swam from Calais to Dover on Aug 11 and 12, 1923, in 26 hrs 23 mins
CHARLES TOTIN, U.S.A., swam from Calais to Dover, on Sept 8 and 9, 1923, in 26 hrs 54 mins
Longest time under water, Georges Poulignen, 6 mins 20 sec. Piscine de la Gare, Paris, Nov 2, 1912

INTERNATIONAL POLO.
(ENGLAND) v AMERICA

In 1886 the Westchester Club of America invited the Hurlingham Club to send a team to the U.S.A. to compete for a challenge cup and the following matches have been played—

1886	England beat America	2 matches to 0
1902	England beat America	2 matches to 0
1909	America beat England	2 matches to 0
1911	America beat England	2 matches to 0
1913	America beat England	2 matches to 0
1914	America beat America	2 matches to 0
1921	America beat England	2 matches to 0
1923	America beat England	2 matches to 0
1924	America beat England	2 matches to 0
1924	Played in America	1 Played in England

In 1922 both the British and American Championships were won by Argentina

OLYMPIC GAMES OF PARIS, 1924.

Officer-in-Charge, London Ambulance Service,
 A. R. Dyer, A.M.I.C.E., Chief Officer, L.F.B.
Headquarters, 94 Southwark Bridge Rd., S.E. 1
 The Service is not, in ordinary circumstances, intended for the removal of persons suffering from illness in private houses. Urgent partition cases are removed from private houses, places of business, &c., to hospitals on the application of a duly qualified medical practitioner or a certified midwife, provided that either a certified midwife or doctor accompanies the case.

In addition to the above service and to that of the St. John's Ambulance and Brigade, an Electric Ambulance is maintained by the City of London.

Metropolitan Asylums Board.

Eastern Ambulance Station, Brookby's Walk, Hometon, E 9 (near Hometon Railway Station) Tel. No., City 7200

North-Western Ambulance Station, Lawn Road, Fleet Road, Hampstead, N.W. 3 (near Hampstead Heath Railway Station) Tel. No., City 7203

Western Ambulance Station, Seagrave Road, Fulham, S.W. 6 (near West Brompton Railway Station) Tel. No., City 7204

South-Western Ambulance Station, Landor Road, Stockwell, S.W. 9 (near Clapham Road Railway Station) Tel. No., City 7205

South-Eastern Ambulance Station, New Cross Road, S.E. 14 (near Old Kent Road Railway Station) Tel. No., City 7206

Brook Ambulance Station, Shooter's Hill, Woolwich, S.E. 18 (nearest Railway Station, Blackheath) Tel. No., City 7201

A fleet of 150 motor vehicles is maintained in connexion with the service.

The Board's ambulances are available for hire for private maternity, mental, medical and surgical cases, at any time of the day and night.

Full particulars may be had on inquiry from the Office of the Metropolitan Asylums Board, Victoria Embankment, London, E.C. 4, or from any of the Ambulance Stations mentioned above.

Applications for ambulances may be made by telephone or by messenger between 9 a.m. and 10 p.m., to the Office, Tel. No., City 7200, and at any hour of day or night, to one of the Stations.

Close-Times for Game, Wild Birds, and Fish.

457

CLOSE SEASON FOR GAME, WILD BIRDS, &c

It is illegal to pursue the different kinds of game between the following dates (inclusive) —

GAME	ENGLAND	SCOTLAND
Black Game or Heath Fowl	11 Dec to 19 Aug (31 Aug in Somerset, Devon, and New Forest)	11 Dec to 19 Aug
Bustard	1 Mar to 31 Aug	None
Deer, Male	None	None
" Fallow Male	None	None
*Grouse or Red Game	11 Dec to 31 Aug	11 Dec to 11 Aug
*Hare	None	None
*Heath or Moor Game	None	As "Mun-fowl"
Landrail, Quail	As "Wild Birds"	As "Wild Birds"
*Mun fowl, or Ptarmigan	None	11 Dec to 11 Aug
*Partridge	1 Feb to 31 Aug	1 Feb to 31 Aug
*Pheasant	1 Feb to 30 Sept	1 Feb to 30 Sept

It is also unlawful to kill the game marked * on a Sunday or Christmas Day

In *England and Wales*, hares, rabbits, woodcock, snipe, quail, landrail, and heath or moor game (and the eggs of swan, wild duck, teal, and wildgeon) are protected under the Game Laws, though no close-time is fixed for them by those laws. In *Scotland* the same remarks apply to deer and hares, to the first four birds, and to wild duck. The close-time for all these birds is, under the Wild Birds Protection Acts, 1880 to 1908, from 1 March to 31 July, both inclusive. Otherwise this close-time applies to all wild birds throughout Great Britain. The penalty for killing any wild bird in such close-time, or for selling or having in possession between 16 March and 31 July, both inclusive (unless the killing can be proved to have occurred at a time and place to which the Act does not apply), is a reprimand and costs for the first offence, and 5s and costs for each bird for every subsequent offence, or, in the case of the undomesticated birds, £1 for each bird for each offence. In any case the Court may also order the forfeiture of any bird (or egg, where protected—see next column) in respect of which the offence was committed. In the Island of St Kilda the fox-tailed petrel and St Kilda wren are deemed to be included in the following list, and the birds marked ‡ to be omitted.

American quail	Dotterel	‡Gullinot.
Auk	Dunbird.	Gull (except
Avocet	Dunlin	black-backed)
Bee-eater.	Eider-duck	Hoopoe
Bittern.	Fern-owl.	Kingfisher
Bonxie	‡Fulmar	Kittiwake
Colin	‡Gannet	Lapwing.
Cornish chough.	Goatsucker.	Lark.
Courteneb	Godwit.	Loon.
Cuckoo.	Goldfinch.	Mallard.
Curlew.	Grebe	Marrot.
Diver	Greenshank.	Merganser.

Murre	Redshank.	Spoonbill.
Night-hawk.	Reeve or Ruff	Stint.
Night-jar	Roller	Stone curlew
Nightingale.	Sanderling.	Stonehatch.
Oriole.	Sandpiper.	Summer snipe
Owl	Scout	Tarrock.
Ox-bird	Sealark	Teal.
Oyster-catcher	Scamew	Tern
Peewit.	Sea-pigeon	Thicknee.
Petrel	Sea swallow	Tystey
Phalarope	Shen water	Whaup
Plover	Sheldrake	Wildgeon.
Ploverspage	Shoveller	Wild duck
Pochard	Skin	Willoek
‡Puffin.	Smew	Wimbel
Purie	Snipe	Woodcock
‡Razorbill.	Solan goose	Woodpecker

Offenders refusing their names and addresses are liable to a further penalty of 10s, but the Acts do not apply to any person shooting on his own land, or authorising anyone so to shoot, any wild bird not included in the above list

On the application of the local authorities, the Secretary of State in England and Wales, or the Secretary for Scotland in Scotland, has power to vary or abolish the close-time for any bird or birds in any county by order to be published in the *Gazette*. They may also direct that the above enactments shall apply to any wild bird not specified in the list, and may further prohibit the taking of the eggs of any wild bird in any county or part thereof. The Secretary of State in England and Wales, or the Secretary for Scotland, may also on the application of the local authorities make an order providing that in any specified area the taking or killing of any particular kinds of wild birds shall be illegal during any period specified in the order. These various powers have been exercised in many cases—too numerous to recapitulate here

Penalties are imposed on persons setting springs, guns, &c, on poles, trees, mounds, &c, so as to injure wild birds. Persons permitting such acts are equally liable. The use of a hook or like instrument for taking wild birds is forbidden

HUNTING AND GROUND GAME

There is no statutory close-time for fox hunting or rabbit-shooting, nor for deer or hares, but there is an "unwritten law" which the sportsman respects as much as he does the enactments of Parliament. The first Monday in November is the recognised date for the opening of the fox-hunting season, which continues till the following April. Otter-hunting lasts from mid-April to mid-September. The period for deer-hunting or stalking varies from about 12 Aug to 12 Oct for stags, and from 10 Nov to the end of March for hinds. By an Act passed in 1892 the sale of hares or leverets in Great Britain is prohibited from March to July inclusive under a penalty of a pound.

ANNUAL CLOSE-TIME FOR SALMON

Salmon and Freshwater Fisheries Act, 1923.—This Act came into force on 1 Jan, 1924. It is "an Act to consolidate and amend the enactments relating to Salmon and Freshwater Fisheries in England and Wales" [18 July, 1923]. By this Act the numerous Acts relating to our inland fisheries have been consolidated and brought up to date with a view to meeting modern requirements.

This Act comprises 94 sections and it should be of considerable benefit to fishery boards, riparian owners, anglers, and to the inland fisheries generally. The so-called "coarse fish" (freshwater fish in the Act) have received additional protection. The important question of pollution is dealt with in three sections.—

Section 8 enables police court proceedings to be taken where an effluent causes water to be poisonous or injurious to fish or the spawning grounds, spawn or food of fish. The same section provides for notice being given to the fishery boards or to the Minister of Agriculture and Fisheries where the construction of new works or the alteration of existing works are contemplated.

Section 55 authorizes a fishing board to institute or aid any person or local authority in instituting proceedings under the Rivers Pollution Prevention Acts 1876 to 1893, and, subject to certain safeguards, to extend the scope of those Acts to tidal waters.

Section 59 (1) (p) enables fishery boards to regulate by bye-law the discharge of specified effluents. These sections do not interfere with the common law right of procedure by action for injunction and damages. Although the Act provides powers for dealing with pollution, procedure in the nature of peaceful persuasion on the lines adopted by the Standing Committee on Rivers Pollution is likely to have much more comprehensive results than litigation.

Power has been given fishery boards to acquire fisheries, by purchase or lease and to let the fishing rights and also to acquire obstructions to the passage of salmon and migratory trout.

Anglers who fish for trout and coarse fish are now entitled to representation on the Fishery Boards, the number of such representative members not to exceed one-third of the total number of members of the fishery board in the preceding year. These representatives will be appointed under schemes approved by the Minister and pending the constitution of schemes, by the Minister.

The Minister may by Order, on any application he may deem sufficient, require anglers to take out licences to catch freshwater fish, i.e., coarse fish, in a fishery district.

Coarse-fish, as well as salmon and trout, illegally bought, sold or exposed for sale or in the possession of any person for sale may be seized by an authorized officer.

WEEKLY CLOSE-TIME

In England and Wales net-fishing for salmon is prohibited from noon Saturday to 6 a.m. Monday, with an extension to 48 hours in certain districts.

In Scotland, from 6 p.m. Saturday to 6 a.m. Monday, and rod-fishing on Sundays.

I. ENGLAND AND WALES (including the Esk in Dumfries). The close time for salmon (including all migratory fish of the genus salmon) begins, for nets, on 1 Sept., and for rods on 1 Nov., for both nets and rods it ends on 1 Feb. For putts and putchers the annual close season is from 1 Sept. to 1 May. By an Act of 1907 the Ministry of Agriculture and Fisheries may make provisional orders varying the law on these and other points. The close-time may also be varied by bye-law by local boards of conservators, provided it begins for nets not later than 1 Nov., with a minimum of 154 days, and for rods not

later than 1 Dec., with a minimum of 92 days. The statutory dates have been varied as follows:—

Close-time for	Nets	Rods.
Home	1 Aug. to 28 Feb.	1 Aug. to 28 Feb.
Adm	1 Sept. to 1 Feb.	1 Oct. to 1 Feb.
Hampshire††	31 July to 1 Feb.	1 Oct. to 1 Feb.
Severn§§§	16 Aug. to " "	" "
Wye	" " to " "	16 Oct. to " "
Taff and Ely	31 Aug. to 30 Apr.	15 Nov. to 30 Apr.

No fresh salmon may be sold between 31 Aug. and 1 Feb., except such as come from parts beyond the seas, or as have been taken, if in the United Kingdom, by legal netting. During that period all packages containing salmon consigned by any common or other carrier must be clearly marked with the word "Salmon." Salmon, dried, pickled, or cured abroad, or, if within the United Kingdom, between 1 Feb. and 31 Aug., may be sold after that date. The onus of proof that the fish were caught out of the United Kingdom, or, if within the kingdom, that they were caught during the legal netting season by legal means, or that, if pickled, they were pickled between 1 Feb. and 31 Aug., lies with the person selling or exposing for sale. The exportation of salmon from any part of the United Kingdom is prohibited between 31 Aug. and 30 April, unless caught at a time at which its sale in the place where it was caught would be legal, if in the United Kingdom the onus probandi lies on the person exporting. The

* Except above Woodbury Road Station, 1 Sept. to 15 April. † Above S. Biddick. ‡ Below Old Sandfield for nets. For rods these dates do not apply in R. Eden above Irthing Foot, or in R. CLOSE-TIME FOR TROUT AND CHAR

In Scotland there is a close-time for trout from 15 Oct to 28 Feb. For pollen the close time is from 14 Nov to 31 Jan.

Between Sept 3 and Feb 1 all packages in England and Wales consigned by any common or other carrier and containing trout or char must be distinctly marked with the word "Trout" or "Char," as the case may be.

The capture of trout and char in England and Wales is prohibited between 2 Oct and 1 Feb, except (1) in the Thames and Lee, where the close season is from 11 Sept. to 31 March, and (2) in the cases noted below, where, under an Act of 1876, the close-time (for rods and nets, except where specified) has been varied by bye-law by local boards of conservators. In the districts marked * the close-time applies only to trout. The sale of trout and char is prohibited throughout England and Wales between 31 Aug and

1 March, unless for fish propagation, stocking or re-stocking of waters, or for some scientific purpose—

CLOSE-TIME FOR FRESHWATER FISH

By the Freshwater Fisheries Act, 1878, a close-time for catching, selling or buying "freshwater fish" (which are defined for this purpose to include all kinds of fish, other than pollen, trout, and char, which live in fresh water, except those kinds which migrate to or from the open sea) is fixed from 15 March to 15 June, both inclusive, for England and Wales except small parts of Norfolk and Suffolk, under a penalty of £2 for a first and £5 for a subsequent conviction. The close-season, however, does not apply to eels taken otherwise than by angling, or to freshwater fish other than grayling taken in certain private waters by leave of the owner, or to angling in public waters by leave of a board of conservators, or in private waters by leave of the owner, or to taking fish in certain cases for bait or for scientific purposes. Fishery districts may be wholly or partially exempted from this close-time with the sanction of the Ministry of Agriculture and Fisheries. The

† River Avon between Amesbury and Bickton only, above Amesbury 15 Oct. to 31 Mar.

† Char close time throughout district 1 Nov. to 1 Mar 1 Oct to 1 April for R. Duddon, and 16 Sept to 15 Feb for R. Bela.

†† April 30 between Lostwithiel and St. Winnow

†† 1 Oct to 30 June from R. Gwill to W. R. Bridge

†† 1 Oct to 14 Mar in certain reservoirs

** Or Thursday preceding Good Friday, whichever date is the earlier

†† In area of Norfolk Fisheries Provisional Order only, elsewhere in Norfolk close-time for nets 20 Sept. to 25 Jan.

†† Bala Lake 14 Sept to 14 Jan.

* Except Earm, rods, 1 Nov to 31 Jan

Ave, Avon (Devon), Wye, Eden, and Towy districts have been so exempted; also the Kent and Bela and Severn as regards pike; the Usk as regards eels, and parts of the Severn as regards fish other than prawns. For eels a separate close-time exists (so far as regards fixed engines in salmon rivers) in England from 1 Jan to 24 June; in Ireland, with one or two exceptions, from 11 Jan to 30 June. In the Severn, elvers, or eel fry, are protected between 1 Jan. and the last day of Feb., and between 25 April and 25 June both inclusive. Certain other local close-times exist for freshwater fish, under local Acts or bye-laws.

PROTECTION OF CRABS AND LOBSTERS

Under the Fisheries (Oyster, Crab, and Lobster) Act, 1877, it is prohibited to buy or sell crabs under $4\frac{1}{4}$ inches, measured across the largest diameter of the back, or lobsters under 8 inches, measured from tip of beak to end of tail when spread out flat. The capture of "soft" crabs and crabs with spawn is also prohibited. By local bye-laws of Sea Fisheries Committees (*vide infra*), the minimum size of lobsters and crabs that may be lawfully taken in different parts of the territorial seas has been increased, and in

some cases the taking of lobsters with spawn is prohibited, or a close season fixed.

CLOSE-TIME FOR OYSTERS

There are also local regulations for the protection of oysters, and by the Fisheries (Oyster, Crab, and Lobster) Act, 1877, a close-time for the capture and sale of "Deep-Sea Oysters" is fixed for England and Scotland, from 15 June to 4 Aug., and for all other kinds of oysters—except oysters taken in the waters of a foreign state—from 14 May to 4 Aug. By the Sea Fisheries Act, 1868, fishing for oysters is prohibited from 16 June to 31 Aug. in the English Channel between lines drawn (1) from North Foreland to Dunkirk, and (2) from Land's End to Ushant—the territorial seas of England and France being excepted. This close-time, however, cannot be enforced till the Convention between England and France, included in the Act, is ratified, until that is done, the Convention concluded in 1839, which prohibits oyster-fishing in those limits from 1 May to 31 Aug., remains in force so far as French fishermen are concerned. But both Powers usually agree to suspend the close season till 16 June in each year.

Licences for Fishing and Shooting.

FISHING LICENCES—In all fishery districts in England and Wales, and in Ireland, a licence to fish for salmon is necessary, and in most English and Welsh rivers a similar licence is necessary for trout or char, except that a salmon licence includes the latter. In the Lune, Derwent, Severn, and Wye and in Norfolk licences for "freshwater fish" are in force. No licence is required for Thames trout or general fish. In Scotland no licence is needed. A licence is available only in the district, and for the season, in which it is issued. The rates on salmon nets, and other like instruments range from £20 downwards in England and Wales. The rate on draft nets in England and Wales varies from £5 to £2. In England and Wales different rates are charged in different districts for a salmon rod and line as follows (an asterisk signifies that lower rates of duty are chargeable for short periods, or for certain parts of the district):—

*Dee, 40/-; *Eden, *Derwent, *Exc, Hampshire, *Wye, *Usk, 30/-; Taw and Torridge, 24/-; Lune, *Ribbles, Clwyd & Elwy, *Conway, *Dovey, *Teify, Avon (Devon), *Dart, *Teign, Frome, Stour (Kent), *Yorkshire, *Tees, *Tyne, 20/-; *Dwyfach, Towy, 21/-; *Seint, Avon, Brue & Parret, Axe, *Camel, *Fowey, 15/-; Cleddy, Taff & Ely, Ogmore, W. Cumberland, 10/8; *Kent & Leven, Rhymney, *Ayrion, Severn, Axe, Trent, Tamar & Plym, 10/-; *Esik (Yorkshire), 7/6; Ouse (Sussex), Wear, Coquet, Cuckmere, Rother, Adur, 6/-.

GAME AND GUN LICENCES—A licence is required by every person who hunts, shoots, or takes game, except persons (in Great Britain) taking woodcock and snipe with nets or springes, proprietors, or tenants, on enclosed land, killing rabbits, persons hunting deer, or hares, with hounds, owners or occupiers, or their servants, killing deer on their own enclosed land, or beaters and others, not holding guns, attending holders of game licences. Occupiers of enclosed land, or owners, having the right to kill game, may themselves kill hares, or authorise others to do so,

without a licence, but such authority must be limited to one person at a time in any one parish, and must be registered with the clerk of the Justices of the Petty Sessional Division in which the land is situate. Even when the quarry is not what is legally known as "game," a "gun" licence is necessary. A game licence, however, covers a gun licence. Sailors, soldiers, territorial soldiers, or constables, on duty, or at practice, need not take out a gun licence, nor need occupiers of land scaring birds or killing vermin on such land, or persons so acting under the orders of occupiers holding a licence. Unless, however, the occupier is himself licensed, he cannot authorise any unlicensed person to carry a gun. "Scaring" birds is not to be regarded as including killing of any birds, and "vermin" does not include rabbits. The rates of duty are as follows:—

GAME LICENCES, if taken out after	
31st July and before 1st Nov, to	
expire on 31st July following	£3 0 0
After 31st July, to expire following	
31st October	2 0 0
After 31st Oct., to expire 31st July	2 0 0
Licence for a continuous period of	
fourteen days	1 0 0
Gamekeeper's (Great Britain), to expire	
31st July	2 0 0
Game-Dealer's Licence, to expire 1st	
July, annually	2 0 0
DEPUTATION or Appointment of a	
Gamekeeper	0 10 0
GUN LICENCES (gun or pistol)	0 10 0

Payment is now rigidly enforced, even to the carrying of a revolver or air gun. Persons holding game licences, soldiers and volunteers carrying a gun in the performance of duty or when engaged on target practice are exempt; but the licence cannot be transferred to a son or to a servant. Expire 31st July.

Fishery Districts, Boards of Conservators, &c.

461

ENGLAND AND WALES.—The administration of the laws of close season, &c., for salmon and freshwater fish is placed by the Salmon and Freshwater Fisheries Act, 1863, and the Ministry of Agriculture and Fisheries Acts, 1869 to 1919, in the hands of local boards, with the Ministry of Agriculture and Fisheries as the central authority.

qualified by ownership of lands or fisheries of a certain value; and representative members, elected annually by persons who have paid licence duty on instruments other than rod and line for salmon fishing in public waters. In certain cases there are also members representative of freshwater anglers. Districts

ity Districts may be formed and Boards of Conservators appointed, and the following districts have been formed, including generally all rivers running into the sea between the points named. Except in the cases marked + they also include the sea for three miles from the shore, or to the mid-channel in estuaries.

These Boards of Conservators consist mainly of three classes of members—those appointed annually by the Councils of the various counties through which the rivers flow; *ex-officio* members,

where Provisional Orders are in force are marked thus *.

There are also certain bodies created by local statutes, having authority over the fisheries, e.g., the Thames Conservancy Board, Port of London Authority, Lee Conservancy Board, and Conservators of the Medway.

The above-mentioned Boards have power to make bye-laws, not only for the regulation of the fisheries for salmon and freshwater fish, but also, in certain cases, for the regulation of other

kinds of fishing which are prejudicial to such fisheries. They are also empowered to issue licences for fishing for salmon, trout, and in some cases freshwater fish generally.

SCOTLAND.—In Scotland there are 105 Fishery Districts, nearly each separate river forming a district of itself, but only 37 Boards of Conservators. The powers of these Boards are limited to the Salmon Fisheries.

IRELAND.—In Ireland there are 24 districts, embracing between them the whole country, each with a separate Board of Conservators.

SEA FISHERIES DISTRICTS.—Under the Sea Fisheries Regulation Acts, 1888 to 1894, the Ministry of Agriculture and Fisheries has power to form sea fisheries districts within the territorial waters of England and Wales, and to constitute local Fisheries Committees, either for a single county or borough, or for several jointly. These Committees have power to make bye-laws, to be confirmed by the Ministry of Agriculture and Fisheries, regulating or prohibiting the use of

instruments for the capture of sea fish (including shell fish and crustaceans, but excluding salmon), the deposit of rubbish on fishing grounds, &c. The following districts have been created, including in each case the adjoining coast and territorial seas between the points respectively mentioned—
1 Northumberland (coterminous with that county). 2 North Eastern, from Northumberland to Donna Nook in Lincolnshire. 3 Eastern, Donna Nook to Yarmouth. 4 Kent and Essex, Dovercourt to Dungeness, including the Thames estuary to London Stone near Yantlet Creek. 5 Sussex (coterminous with that county). 6 Southern, Western boundary of Dorset to Hayling Island. 7 Devon, and 8 Cornwall (each coterminous with the respective counties). 9 South Wales, Eastern boundary of Cardiff to Cemmaes Head. 10 Lancashire and Western, Cemmaes Head to Haverigg Point. 11 Cumberland, Haverigg Point to Saik Foot.

Similar districts may be formed in Scotland under the Sea Fisheries Regulation (Scotland) Act, 1895.

Seasonable and Unseasonable Fish.

THE following table shows the periods when the different kinds of edible fish mostly in use are "in season" and "out of season."

The letter *p* signifies that the fish are then

in their prime or most plentiful, the letter *x* signifies that the fish may be obtained, but are not at their best, the letter *c* signifies that it is "close-time" as fixed by statute.

(a) This is for sea crayfish (or crawfish). River crayfish can be obtained in the summer and autumn. It is illegal to take fresh-water crayfish from March to June.

(b) Foreign oysters can be sold in the close season, and are to be had almost all through the year, even though they have been laid down in English beds for temporary storage.

(d) In the close season, salmon from Holland, and also from certain British rivers where net fishing is permitted later in the year than usual, are largely sold.

(e) For the first six months the bulk of our London supply of shrimps comes from Holland, but Dutch shrimps are far inferior to the English, which are plentiful from July to December.

Staghounds.—England, 9 packs (130 couples), Ireland, 1 pack (35 couples).
Foxhounds.—England and Wales, 176 packs (about 5,000 couples); Scotland, 10 packs (329 couples); Ireland 8 packs (208 couples).
Harriers.—England and Wales, 48 packs (700 couples), Ireland, 3 packs (147 couples).
Beagles.—England and Wales, 55 packs (600 couples), Scotland and Ireland, 4 packs (37 couples).

Principal Charitable Bequests of the Year.

467

APPENDED is a list of the principal bequests for charitable purposes recorded during the year. The amount for charitable purposes is in a considerable proportion of the cases approximate, owing to the bequests including a share of the residuary estate, or consisting wholly or in part of business interests, or of blocks of shares, for which a definite value cannot be given. *Reversionary bequests* are included where the reversions are absolute, generally on the cession of life interests or of a certain period of years, but generally speaking are not included where they are *contingent reversions*, depending on certain happenings (usually failure of issue to certain persons, or failure to secure the observance of certain conditions) unless there is reason to believe that such contingency is likely to be fulfilled. The amounts of residuary bequests are also subject to variation on the final winding-up of the estate owing to possible variations in the amount of duty payable, as the final figures may place an estate for duty purposes in a different category (either higher or lower) as compared with the original valuation submitted on obtaining the grant of probate. This table records the chief bequests published during the year, not necessarily those becoming payable during the year, and it does not include bequests recorded in previous years which have since become payable, either by the winding-up of the estate, or by the falling-in of reversionary or contingent reversionary interests.

Name.	Gross Value of Estate	Approx Amount	Objects

French airmen, Coupet and Grouhin, set up new duration record, remaining in the air 37 hours 59½ secs. **18.** News received that MacLaren was safe, having landed on Urup Island. **23.** MacLaren reached Paramashiru. **26.** Signor Locatelli, Italian airman, left Pisa

on world flight. **26** Major Zanni, Argentine aviator, left Amsterdam on attempt to fly round the world. **28** While carrying out bombing operations on Indian frontier four of six machines crashed in fog; four airmen being killed and two captured by tribesmen. **30.** American airmen flew from Brough to Orkney. **Aug 2** One of American airmen reached Iceland, the others returning owing to fog. **3** Second American arrived in Iceland. **4** News arrived that MacLaren had abandoned his flight after he had reached islands off Siberia, machine being seriously damaged. **9** Locatelli arrived in the Orkneys. **12** Alan Cobham won King's Cup for all-British machines, completing 952 mile course round Britain in 8 hrs 57 mins 12 secs. **16** Locatelli reached Iceland. **19** While starting for Canton from Hanoi, Zanni's machine overturned and was damaged. **21** Two American airmen landed in Greenland after 800 mile dash from Iceland. Locatelli also started but was forced to alight on the water. **27** Z R 3, the last Zeppelin, had trial flight. **31** Americans flew from Greenland to Labrador. **Sept 6** Americans arrived at Boston. **9** Americans reached Washington. **19** Alan Cobham flew from Croydon to Tagger on a DH 50. British entry for Schneider Cup sank in alighting after test at Felixstowe. **23** The two American airmen, Lieuts. Smith and Nelson, arrived at Santa Monica, having completed their world-flight. **26** Z R 3 completed her final trial, flying over Berlin during 30 hours trip. **Oct 4.** First prize at light plane competitions at Lympne was won by Piercy on Beardmore monoplane, Unwins on Bristol Brownie being second. **12** Z R 3 left Friedrichshafen on her journey to United States. **15** Z R 3 arrived at Lakehurst, New Jersey, journey occupying 82 hours.

(CRIMES—Murder of a Footballer).—Aston Villa's centre half, Thomas Edgar Ball, was shot dead near his house at Perry Barr on **Nov. 11, 1923** by neighbor, George Stagg, after an altercation. At Stafford Assizes on Feb. 19, 1924, Stagg was sentenced to death. **Nov. 27, 1923.** At Hampshire Assizes at Winchester, Lance-Corporal Albert Edward Dearnley, Leicester Regiment, was sentenced to death for murder of Drummer Ellis at Aldershot on May 24. Execution was postponed at last minute and later sentence was commuted to penal servitude for life. *The Disappearance of Major Bailey*.—On **Dec. 7, 1923**, the young wife of Major Norman Percival Bailey was found dead from bullet wound and stab wound in flat at Hove. Her husband disappeared, and for many months nothing was heard of him although he was reported to have been seen all over the Continent and several persons were detained on suspicion. On **May 22** body of a man was taken from the Thames, and this was definitely identified as Major Bailey, who had evidently shot himself and fallen into river shortly after his disappearance. **Dec. 7** At Central Criminal Court George William Iggulden, 23, portrait painter, was sentenced to death for murder of Ethel Eliza Ireland in taxi-cab in Brompton Road on Nov. 15. Jury recommended Iggulden to mercy and death sentence was later commuted. **20.** Gustav Williams attacked lady passenger in Metropolitan train near King's Cross with iron bar and then jumped from carriage and was killed. **(1924) Jan. 16** Nurse named Dora

Martha Sadler, aged 37, was at Central Criminal Court sentenced to death for murder of her employer's two young children by gas poisoning, by which means she endeavoured to end her own life. Sentence was subsequently commuted to penal servitude. **31** At roadside inn near Fareham, Hants, licensee, Arthur Richard Gambitt, shot dead his wife, his son and his daughter and then killed himself. *Mother and Son Charged with Murder*—Five months after disappearance of patternmaker named Cooper, his body was found beneath floor of room in his home at Bristol. His widow and son, George William Cooper, were arrested, and at Somerset Assizes at Wells on May 30 the woman was bound over and son found guilty of manslaughter and sentenced to seven years penal servitude. **Feb 28** Dead body of 12 year old Chichester girl, Vera Hoad, missing for three days, discovered in grounds of mental hospital, child having been strangled. Her assailant was never found. *Bank Manager Murdered*—Mr W E Hall, manager of sub-branch of Lloyds Bank at Bordon Camp, found shot in his office on April 3, about £1,000 being missing. Five days later Lance Corporal Abraham Goldenberg, of East Lancashire Regiment, clerk at St Lucia Barracks, was arrested and charged with wilful murder. He confessed to crime, and though this statement was withdrawn and he pleaded not guilty, he was on June 19 sentenced to death at Hampshire Assizes at Winchester and was hanged on July 30. *Murder by Frenchman*—Licensee of Blue Anchor Hotel at Byfleet named Jones died suddenly on Mar 29, and death was found to be due to strychnine poisoning. On April 19 Jean Pierre Vacquer, a Frenchman who had been staying at the hotel, was arrested and charged with murder. The trial at Surrey Assizes at Guildford revealed liaison with Mrs. Jones, which had commenced in France, and on July 5 he was sentenced to death. After unsuccessful appeal and petition for reprieve, Vacquer was hanged on Aug 12 at Wandsworth. *The Bungalow Murder*—Through discovery of blood-stained clothing in bag left in cloak room at Waterloo station, police examined on May 3 bungalow at the Crumblies, near Eastbourne, and there found mutilated remains of young woman afterwards identified as Emily Beilby Kaye. The man who claimed the bag was arrested. He was Patrick Herbert Mahon, and on being placed on trial for the murder, declared there had been a quarrel because he refused to go abroad with her and that Miss Kaye fell during a struggle and hit her head against coal cauldron. At Sussex Assizes at Lewes on July 19, Mahon was found guilty and sentenced to death. An appeal failed and he was hanged at Wandsworth on Sept 3. **July 23** Teacher named William Holmes fatally wounded fellow teacher, George Kay, and then shot himself with revolver in a Rotherhithe street. **Aug 8** Capt T J R Geddes, young Indian Army officer, shot himself in flat in West End of London, and on discovering tragedy his wife shot herself with same revolver. **Sept 5** Bodies of Albert Michael Joshua and young woman named Irene Mercer found in flat where latter was employed as servant, the woman having shot the man and then committed suicide.

Paton, High Master of Manchester Grammar School for 22 years. **May 22** Mr A D Lindsay elected Master of Balliol in succession to late Mr. A L Smith.

IRELAND (1923) **Nov 29** Irish Deportees' Compensation Tribunal announced settlement of 43 claims, £20,342 damages being awarded. (1924) **Feb 1** Conference between representatives of Free State and Northern Ireland to discuss boundary question opened in London and adjourned on following day for a month. **11** Mr Cairn Healy, Sinn Féin M.P. for Tyrone and Fermanagh, released by Northern Government from internment camp, and later took his seat at Westminster. **Mar 8** Orders issued for arrest of Major-General Liam Tobin and Colonel Charles Dalton on charge of mutiny. **10** Mr. Joseph McGrath, Minister for Industry, resigned. **18.** Ten officers arrested by troops, but the Government disavowed the action and Army Council were called upon to resign. General Mulcahy also resigned. **21** Motor-car entered Queenstown and four occupants fired machine-gun at British soldiers, killing one and wounding 20. Assailants escaped in car. **24** Joint conference of Free State and Ulster representatives on boundary question was resumed at the Colonial Office and after prolonged discussion it was not found possible to reach an agreement. **May 5.** Colonial Secretary announced that Free State had appointed a Boundary Commissioner, and Ulster had been asked to do the same. **June 4**

Mr. MacDonald announced appointment of Mr Justice Feetham, of South African Supreme Court, as chairman of the Commission **27** In Dail a vote of censure on Free State Government for dismissal of Army Council was defeated without division. **July 31** Judicial Committee of Privy Council reported that deadlock following Ulster's refusal to appoint a Boundary Commissioner could only be solved by new legislation **Aug 1** Following conference of British signatories to the Irish Treaty, Mr Thomas announced Government's intention to introduce the necessary legislation **3** Mr. Thomas and Mr. Henderson visited Dublin to confer with Mr Cosgrave **6** The Bill was read first time without division in House of Commons **15** De Valera addressed his constituents at Ennis **Sept 19** Cabinet of Northern Ireland met at Sir James Craig's English home and adhered to former decision not to appoint a Boundary Commissioner **30** British Parliament reassembled to deal with Irish Bill. **Oct 2** Bill passed by House of Commons **9** House of Lords passed the Bill, which received Royal Assent **17** Treaty Bill passed by Dail Eireann **24** De Valera arrested by Ulster Constabulary at Newry **25** He was expelled from Ulster **26** De Valera re-arrested at Londonderry

LABOUR —(1923) **Nov 15** Coalowners rejected claims of Miners' Federation for increase of minimum wage and suggested appointment of joint enquiry on the wages agreement, which miners accepted **16** Boilermakers' strike, which had lasted over seven months, was settled after three days' conference in Edinburgh between shipbuilding employers and men, subject to a ballot **Dec. 3** Boilermakers resumed work, ballot having accepted terms arranged. **15** Miners' Federation delegate conference decided to take ballot on question of giving notice to terminate wages agreement. There was large majority in favour of termination **20** National Wages Board for the railways issued report against companies' proposal to interfere with operation of the sliding scale, in favour of maintenance of practice regarding Sunday and night duty, and amending classification of enginemmen **21** National Union of Railwaymen accepted these findings but Society of Locomotive Enginemmen and Firemen decided to take a ballot **23** Railway Clerks' Association accepted award. (1924) **Jan. 4** Locomotive men's ballot rejected award. **12** Railway companies declined to re-open negotiations **20** Strike of enginemmen began at midnight and services throughout country were disorganised **29** Settlement of strike reached at conference between managers and Society's executive and work resumed. Conference of dockers decided to strike at all British ports unless their demand for an increase in wages were conceded. **Feb 11** Employers offered advance of 1s., which was rejected **16** Dockers' strike commenced, when work ceased, about 200,000 men being affected **21** Representatives of employers and men arrived at terms of settlement, providing for immediate increase of 1s. and further increase of 1s. on June 1, with joint enquiry into de-casualisation **25** Following explanations to men on proposed settlement, delegate conference ratified terms and work was resumed on following day. **Mar. 15** After negotiations, miners' delegate conference refused terms offered by owners and urged Govern-

ment to pass Minimum Wage Bill. **22** London tramway and busmen came out on strike, former employees demanding increased wages of 8s a week and latter joining in sympathy **24** Court of Inquiry on dispute reported that only basis of re-opening negotiations was to set up co-ordinating authority to deal with passenger traffic in metropolitan area. Government promised Bill for that purpose **28** Miners' delegate conference rejected owners' final terms and called for Government inquiry on wages. **30** London transport strike ended, vote in favour of acceptance of owners' terms of 66 and 48. increase for various grades being 9.42s to 4.377 for continuation of strike. Building operatives at Wembley Exhibition decided to cease work for higher pay **April 3** Wembley strike collapsed **11** Miners' ballot gave majority of 16,258 against acceptance of owners' terms, and Government agreed to set up Court of Inquiry into wages **12** Lock-out began in shipyards of federated employers owing to failure of Southampton men to return to work after eight weeks' strike **19** Southampton shipyard workers decided to return to work **May 9** Court of Inquiry concerning miners' wages recommended resumption of negotiations with view to modifying 1921 agreement. **15** Representatives of Coalowners and Miners' Federation arrived at provisional agreement on wages question, minimum wage to be 33½ per cent above standard **29** By 473,000 votes to 311,000 miners accepted new agreement **June 5** Men in repair and construction shops of London Electric Railways and Great Western Railway struck for increased pay, stoppage being unauthorised by union. Tube services were seriously affected **13** Strike came to end, being "beaten by the union," as its leaders complained. **20** National Federation of Building Trades Employers decided upon national lock-out unless operatives undertook to adhere to agreements **July 4** Court of Inquiry into building trades dispute opened, employers postponing lock-out notices **5** Operatives declared a strike but this was not adopted everywhere **Aug. 15** Covent Garden porters came out on strike for minimum wage **22** Settlement of dispute reached in building trade **Oct 6** Labour Party Conference opened in London **8** Conference resolved that no Communists should be members of the Party.

LEAGUE OF NATIONS. —(1924) **Jan 10** Speaking at celebration of anniversary of birth day of the League Viscount Cecil expressed belief that League stood stronger than ever **21** League's scheme for economic reconstruction of Hungary approved by Hungarian Sub-Committee **Sept 1** M. Hymans, as President, opened fifth Assembly of the League at Geneva. M. Motta elected new President **4** Mr. MacDonald addressed Assembly and explained British Government's attitude on disarmament and security **6** Mr. MacDonald and French Premier submitted joint resolution on disarmament which was passed unanimously. This intimated that League would at earliest possible moment summon an international conference upon armaments. **22** Mr. Henderson, one of British delegates to the Assembly, announced there was no question of putting British Navy under direction of Council of League. **29** German Government presented memorandum stating conditions on which Germany would join

the League. **Oct 2.** Assembly concluded after adoption of the Arbitration and Sanctions Protocol and unanimous passage of resolution in favour of disarmament conference next year.

LEGAL—(1923) Nov 2 High Court held that window seats from which street processions are viewed were liable to entertainment tax. **12** Sir Charles Darling resigned his seat as Judge on King's Bench Division. **13.** Mr G. J. Talbot appointed to fill vacancy. **(1924) Jan 15** Mr E. C. Tennyson-D'Eyncourt, a Metropolitan magistrate, resigned and Mr A. J. Tassell was appointed to succeed him. **Feb 8** Mr Hugh Pattison Macmillan, K.C., appointed Lord Advocate, a non-political choice for first time. **27** After 16 days' hearing special jury awarded £25,000 to Mr W. S. Harnett against two doctors as damages for his detention in asylums for over eight years. **Mar 20** Mr Anthony Pickford elected City Solicitor by Corporation of London. **April 29** Thirteen judges sat in King's Bench Division to hear arguments as to whether a man found by a jury to be an habitual criminal is always to be regarded as such. **May 16** Court of Appeal upset verdict secured by Mr Harnett, allowed appeal of one doctor and ordered new trial in case of the other doctor. **30** By a majority of three to two House of Lords allowed appeal of Mrs Christabel Russell against granting of Decree nisi to her husband, Hon John Hugo Russell, Lord Amphill's heir. Decision rested upon point of law—as to whether husband's evidence was admissible. **June 5.** After lasting 16 days libel action brought by Sir Michael O'Dwyer, formerly Lieutenant-Governor of the Punjab, against Sir Sankaran Nair, ex-member of Government of India, arising out of Amritsar riots, ended in verdict for plaintiff for £500 damages. **23** Court of Appeal decided Poplar and Bethnal Green councillors should not pay £7,000 which they were surcharged in connection with payment of £4 a week to unskilled labourers. **26** Russell divorce petition formally withdrawn. **July 21** American Bar Association welcomed at Westminster Hall by Lord Chaucellor. **24** Statue of Blackstone presented by American Bar Association unveiled at Law Courts. **Sept 8** Death of Mr Justice Bailhache. **Oct 6** Mr F. D. MacKinnon, K.C., appointed Judge of King's Bench Division. **Oct 14** Judgment for £58,000 given for Crown against three defendants for carrying machine guns and mountings without licence.

MILITARY—(1924) Jan 14 Royal Warrant issued providing for formation into one corps of Royal Horse Artillery, Royal Field Artillery and Royal Garrison Artillery. **Mar 6** Army estimates reached total of £45,000,000, a reduction of £7,000,000 compared with previous year. **July 1** Committee of Imperial Defence decided against Channel Tunnel scheme. **15** South African won Kolapore Cup at Bisleigh and also the MacKinnon. **19** Private Desmond Burke, of Canada, aged 19, won King's Prize at Bisleigh

NAVAL—(1923) Nov 3 Review of Atlantic Fleet took place at Spithead for the Dominion Premiers. **(1924) Jan 10** During manoeuvres off Portland Submarine L 24 was rammed by H.M.S. *Resolution* and sunk with loss of all hands, numbering 43. **18.** Impressive funeral service for victims held above spot where L 24 had been located. **Feb. 21.** Government announced de-

cision to proceed immediately with construction of five cruisers and two destroyers. **Mar. 13.** Navy estimates totalled £55,800,000, a reduction of £2,200,000. **18** Government intimated that they would not proceed further with the Singapore dock scheme. **April 7** Submarine L 25 went aground in Needles Channel during exercises with Atlantic Fleet. **July 26.** Great naval review took place at Spithead. Official history of Battle of Jutland issued. **Aug. 12.** Largest British submarine, K 26, returned to Portsmouth after 20,000 mile trip without parent ship. **15** Sir John de Robeck relinquished command of Atlantic Fleet and was succeeded by Sir Henry Oliver. **Sept 29** Special Service Squadron arrived at Plymouth after its Empire cruise. **Oct. 15** Duke of York unveiled the Portsmouth naval war memorial.

IMPERIAL DOMINIONS

(1923) Nov 30 Canadian Premier, Mr Mackenzie King, arrived in Halifax after attending Imperial Conference. Major H. C. Funnis, Political Officer, killed by gang of Waziris while motoring in Baluchistan. **Dec 3.** Viscount Goschen appointed Governor of Madras. General Smuts arrived in South Africa from England. **10.** Lord Shaughnessy, the Canadian railway pioneer, died. **11** Prince Arthur of Connaught left South Africa on retiring from office of Governor-General. **17** The Swajist leader in Bengal, Mr C. R. Das, declined Lord Lytton's invitation to form Ministry. **22** The Special Service Squadron carrying out cruise round the Empire arrived at Cape Town and was enthusiastically welcomed. **(1924) Jan 2** Mr Brodeur, Lieutenant-Governor of Quebec, died after sudden illness. **12.** Sir W. M. Hailey appointed Governor of the Punjab. Prominent Calcutta merchant, Mr Day, shot dead in street by a Bengali, who was arrested. **14** The Kohat murder gang surrendered to Afghan Government. **19** Mr H. J. Stanley appointed first Governor of Southern Rhodesia. **20** Swajists carried vote of no confidence in two Ministers in Central Provinces Council. **25** Earl of Athlone, new Governor-General, opened South African Parliament. **26** Special Service Squadron arrived at Colombo. **30** Lord Reading delivered important speech on Indian internal situation to Upper and Lower Houses. Australian Cabinet held its first meeting at new capital, Canberra. **Feb 4** Bombay Government ordered release of Gandhi, the Nationalist leader, for reasons of health. **18** Indian Government defeated in the Assembly at Delhi in debate on self-government. **Mar 17** Indian Budget thrown out in the Assembly by 60 to 57. Special Service Squadron cordially welcomed on arrival at Melbourne. **April 9** State and Civil reception at Sydney to Special Service Squadron. **10.** H.M.A.S. *Australia* scuttled off Sydney in accordance with Washington Treaty. **22** Sir Richard Squires, former Premier of Newfoundland, arrested and charged with larceny. **23.** General Smuts opened his election campaign in Pretoria. **24.** Special Service Squadron arrived at Wellington. **28** New Zealand Premier, Mr Massey, announced that if contribution for Singapore were not required New Zealand would be willing to maintain a second cruiser. **May 9.** Proclamation issued dissolving South African Parliament. **15.** Lord Plumer left Malta after his term as Governor. **18.** Canadian Budget resolutions adopted by majority of 225.

June 8. Newfoundland elections resulted in victory for Opposition leader Mr Monroe **10** Serious outbreak of anti Sikh rioting occurred in Calcutta, several natives being killed **17.** South African elections resulted in defeat of Ministry **23** General Smuts, who lost his seat, resigned, and later General Hertzog formed a Ministry **27** Mr Bruce announced in Australian House of Representatives that two new Commonwealth cruisers would be built and regretted Imperial Government's decision on Singapore base **July 8.** Australian and New Zealand Governments proposed increase in proportion of British labour and material required to qualify goods for tariff preference **11** Rioting occurred at Delhi between Hindus and Moslems, troops being summoned to quell disorder **Aug 6** Annual Meeting of British Association opened at Toronto **19** Special Service Squadron arrived at Quebec **25.** Mr J H. Thomas and other British M.P.s. greeted at Cape Town by General Hertzog **27.** Bengal Legislative Council protracted owing to Ministers' defeat by Swarajists **29** Two passenger trains collided at Montgomery, India, and over 60 persons killed **Sept 7** Mr Thomas cordially welcomed in Johannesburg **12.** Lee Commission's report proposing changes in Indian Civil Service rejected in Legislative Assembly at Simla by 68 to 45 **26** Prince of Wales arrived at his ranch **Oct 3** Prince paid short visit to Vancouver Captain James O'Grady, M.P., appointed Governor of Tasmania **12** Prince of Wales left Western Canada for Chicago **15.** His Royal Highness visited Toronto **17.** Prince arrived at Ottawa **21** Prince suffering from slight chill but quickly recovered **23** Left for Hamilton, Mass **25** Police arrested over 50 Indian extremists in Bengal **29** By explosion in gas tank on Canadian Pacific train six people were killed and 13 injured

UNITED STATES

(1923) Nov. 3 Mr Lloyd George sailed for England **9** Government announced it would be useless to hold enquiry into Germany's capacity to pay under limitations demanded by France **Dec 8** State Department announced that Commercial Treaty had been signed with Germany to replace pre-war treaty Secretary of the Navy recommended appropriation of thirty million dollars for the Navy, including eight cruisers and three submarines **11** Senate confirmed appointment of Mr Frank B. Kellogg as Ambassador to Britain **31** Sir Esme Howard appointed British Ambassador at Washington in succession to Sir Auckland Geddes **(1924)** **Feb 3** Mr Woodrow Wilson, the ex-President, passed peacefully away in his sleep **6.** Funeral of Mr Wilson took place at Washington **11** Mr. William McAdoo gave evidence before Senate Committee investigating naval oil scandal **18.** Secretary of the Navy, Mr Denby, resigned. **Mar 1** By explosion at Nixon Nitration works, New Jersey, 30 people were killed **13** Bill appropriating \$65,245,000 for maintenance of Army at present strength of 12,000 officers and 125,000 men reported to House of Representatives **28** Mr Harry Dougherty resigned office of Attorney-General at President's request **31.** Many lives lost through Potomac, Ohio and other rivers overflowing their banks after storms **April 21.** Signora Eleanor Duse, the famous actress, died at Pittsburgh. **22** Mr Coolidge said when definite settlement of German repara-

tions had been established he would favour calling of new conference similar to Washington Conference **25** Charles F. Murphy, leader of Tammany Hall, died in New York. **June 11.** Mr. Coolidge nominated Republican candidate for Presidency by 1065 votes out of 1209, and General C G Dawes for Vice-Presidency. **12** Explosion on battleship *Massachusetts* during target practice killed 48 officers and men Bandits held up train 32 miles from Chicago and robbed it of mail valued at about £600,000 **14.** Five persons arrested in connection with train outrage **28.** Hurricane swept over Southern shore of Lake Erie, over 300 lives being lost and enormous damage done **July 5.** Senator La Follette adopted as Progressive candidate for Presidency **9** Mr John W Davis and Mr. Charles Bryan adopted as Democratic candidates for Presidency and Vice-Presidency **Aug. 29.** Prince of Wales arrived at New York, and was warmly greeted **30** Prince lunched with Mr. Coolidge at White House **Sept. 10.** Nathan Leopold and Richard Loeb youthful sons of wealthy men, sentenced at Chicago to imprisonment for life for murder of millionaire's son **13** United States won first polo match against British team by 16 goals to five **16** United States won second match and thus retained cup **18.** Prince of Wales visited Wall Street **Oct 13** Prince of Wales visited the stockyards in Chicago **26** Prince left New York for England on *Olympic*

FRANCE.

(1923) Nov. 19. Conference of Ambassadors met in Paris and considered situation in Germany **21.** Ambassadors agreed on Notes to Germany dealing with control of armaments and ex-Crown Prince's return **30.** Reparations Commission decided to appoint two committees to investigate German financial situation **Dec 4** M. Maurice Barres, the writer, died **18** Naval airship *Dixmude* left her base at Toulon for Algiers **23** Great anxiety felt regarding airship's safety **28** Body of *Dixmude's* commander picked up in sea off Sicily and vessel given up as lost with full complement of 48 **(1924) Jan 6** Seine reached its highest level, much damage being caused in many parts of Paris **7** Senatorial elections left political complexion of Senate practically unchanged **18** Chamber adopted by large majority motion of confidence in M. Poincaré **27** Belgian Foreign Minister visited M. Poincaré **28** Mr Ramsay MacDonald and M. Poincaré exchanged cordial letters **Mar 10** Riviera train derailed near Lyons, four passengers (three English) being killed and 25 injured **23** General Nivelle, once Commander-in-Chief on Western Front, died **26** M. Poincaré defeated in the Chamber and resigned, but later formed new Cabinet **April 14** Prince Roland Bonaparte, last representative of senior branch of family, died in Paris **May 12** General election resulted in severe losses to M. Poincaré, the Bloc National losing many seats **June 1** M. Poincaré handed Cabinet's resignation to the President **8.** M. Herriot having declined to form a Government, M. Francois-Marsal completed stop-gap Ministry to convey to Parliament message from the President **10** National Assembly resolved by 329 to 224 not to enter into relations with the Government **11** M. Millerand resigned Presidency as result of this vote. **13.** M. Gaston Doumergue elected Presi-

dent of Republic by 515 votes against 309 for M. Painlevé, and M. François-Marsal's Ministry resigned. **14** M. Edouard Herriot formed new Ministry. **20** New Premier obtained vote of confidence by 513 to 334. **22** M. Herriot spent week-end in discussions with Mr. MacDonald at Chequers. **July 5** Prince of Wales attended opening of Olympic Games. **13** Olympic Games concluded at Colombes, H. M. Abrahams, H. Eric Liddell and D. G. A. Lowe scoring triumphs for Britain, though United States secured first place in aggregate. **Aug. 24** Chamber approved London Agreement by 336 votes to 304. **Oct. 13** M. Anatole France died after long illness. **26** Government recognised the Soviet.

GERMANY.

(1923) **Nov. 23** Cabinet defeated in Reichstag, and Dr. Stresemann resigned. **30** Dr. Marx formed new Cabinet. **Dec. 8** Reichstag adjourned after passing bill abolishing new Chancellor and his Cabinet of all Parliamentary control for two months. **16** German representatives in Paris and Brussels submitted proposals for re-opening of negotiations. **20** British delegates of committee to consider measures to balance German Budget announced as Sir Robert Kindersley and Sir Josiah Stamp, and of committee to consider question of exported German capital as Mr. Reginald McKenna. (1924) **Jan. 9** The Separatist leader, Heintz, shot dead in hotel at Sperrgen. **14** Committee of Experts on German Budget held its first meeting in Paris. **21** Mr. McKenna elected chairman of second Committee of Experts at its first meeting. **Feb. 4** Germany sent Note to France regarding latter's alleged support for Separatists. **17** Separatists in the Palatinate suppressed. **26** Reduction in rate of levy on German goods under Reparation Act from 36 per cent. to 5 per cent. announced. **March 13** On Chancellor's advice, President Ebert dissolved the Reichstag. **April 1** General Ludendorff was acquitted of high treason charge arising out of Nationalist revolt at Munich in November, four men given 5 years' imprisonment in fortress, and five given 15 months' imprisonment in fortress. **9** Reports of two Expert Committees on Reparations issued. **10** Herr Hugo Stinnes died. **May 5** Elections to Reichstag brought many losses to Social Democrats, but they remained strongest party. **26** Negotiations between Nationalist and Middle Parties having broken down the Government resigned. **June 6** Herr Marx presented his old Cabinet to Reichstag and obtained vote of confidence. **30** German reply to Ambassadors' Note on military control virtually accepted proposals. **Aug. 18** French troops evacuated two towns in Baden occupied for 18 months. **29** Reichstag passed bill involving acceptance of Dawes Report and London Agreement. **Oct. 20** President signed declaration by which Reichstag was dissolved.

OTHER COUNTRIES.

(1923) **Dec. 1** As result of floods, dam at Lake Gleno gave way and swept through two villages with heavy death roll. **17** Greek Cabinet decided to expel King George. **18** Tangier Convention signed in Paris by delegates of France, Spain and Britain. **27** Japanese Crown Prince fired at while driving to open session of the Diet, but was not hit. **1924 Jan. 3** Enormous sarcophagus revealed as shrine of

Tutankhamen at Luxor. **6** M. Venezelos elected President of Greek National Assembly. **11** M. Venezelos accepted Premiership. **14** Followers of Zaghlul secured large majority in Egyptian elections. **15** 50 persons killed by earthquake in Japan. Britain recognised new Greek Government. **21** Lenin died suddenly at Gorky, near Moscow. **26** Japanese Crown Prince married to Princess Nagako. **27** Imposing funeral of Lenin took place at Petrograd, which was renamed Leningrad. **30** Text of Italo-Yugoslav Treaty issued. **Feb. 4** Owing to ill-health M. Venezelos resigned. **12** Tomb containing body of Tutankhamen opened by Mr. Howard Carter. **13** Owing to dispute with Egyptian authorities tomb closed. **20** Egyptian Government cancelled Mr. Carter's licence. **Mar. 3** Turkish Grand National Assembly passed motion for abolition of the Caliphate. **4** Caliph Abdul Mejid and his family compelled to leave Constantinople. **7** King Hussein accepted offer of Caliphate. **15** King Fuad inaugurated new Egyptian Parliament. **25** King George of Greece deposed and a Republic proclaimed. **26** Mount Everest Expedition started from Darjeeling. **27** By landslide on south side of Sorrento Peninsula, in Italy, over 100 lives were lost. **April 9** Three men and a woman sentenced to death by Russian Revolutionary Tribunal on charges of opposing Communists. **10** Signor Mussolini returned to Rome after elections which gave him large majority in Italian Chamber. **12** Archbishop Crepiak released and left Russia. **19** Byron centenary celebrated at Missolonghi, Greek Premier delivering address. **23** Two passenger trains collided near Bellinzona, Switzerland, about 30 persons being killed, including Herr Helfferich, former German Finance Minister. **May 4** In serious disturbances at Kirkuk, 150 miles north of Baghdad, about 100 persons were killed. **6** News received at Tangier that Britain had ratified Tangier Convention. **June 1** Dr. Seipel, Austrian Chancellor, dangerously wounded in Vienna by Socialist, who fired three shots. **10** Socialist deputy, Signor Matteotti, abducted in streets of Rome. **11** Baghdad Assembly accepted Anglo-Iraq Treaty by 36 votes to 25. **13** Signor Matteotti's dead body found. **19** News received that two members of Mount Everest Expedition, Mallory and Irvine, had been killed during the final attempt. Announced that Mr. Cummins, British Agent to Mexico, after being besieged in Legation, had withdrawn. **July 12** Zaghlul Pasha, Egyptian Premier, wounded by shot fired by student. **15** Treaty, by which Great Britain ceded Jubaland to Italy, signed. **Aug. 2** Mrs. Rosalie Evans, British subject living in Mexico, shot dead near her estate. **9** Disorders by military cadets in the Sudan culminated in rioting, and troops were compelled to fire, several mutineers being killed. **23** Egyptian Government's reply to British Note on Sudan disturbances received. Reinforcements kept unsettled areas quiet. **Sept. 3** Civil war began in China. **12** Signor Casarini, Fascist M.P. shot dead in train in Rome. **16** Spanish troops in Morocco forced to abandon positions by the Rif. **Oct. 3** King Hussein abdicated in favour of his eldest son as result of raid by Wahabis. **9** Britain demanded withdrawal of Turkish troops from Iraq. **13** Mecca cut off by the Wahabis, who later entered the famous place. **23** Troops under Feng Yushang entered Peking without opposition.

The British Empire.

AREA AND POPULATION.

Continental Distribution	English Square Miles	Estimated Population
In Europe	121,512	48,000,000
In Asia	1,824,550	333,000,000
In Africa	4,652,000	50,000,000
In North America	3,893,020	9,000,000
In Central America	8,600	50,000
In the West Indies	12,300	1,730,000
In South America	97,800	314,000
In Oceania	3,300,000	8,000,000
Total	13,909,782	450,094,000

GEOGRAPHICAL DISTRIBUTION—The British Commonwealth occupies over one-quarter of the known surface of the globe, and its population exceeds one quarter of the estimated number of the human race. The total area is distributed almost equally over the Northern and Southern Hemispheres, but more than two thirds lie in the Eastern and less than one-third in the Western Hemisphere. The distribution of the surface over the Northern and Southern Hemispheres causes a complete alternation of the seasons, one half of the Dominions enjoying summer while the other half is under winter conditions. In spite, however, of the uneven distribution east and west, daylight and darkness are almost equally divided, on account of the position of Australasia near the limit of east and west.

ETHNOLOGY—By far the greater portion of the Commonwealth lies within the temperate zones and is suitable for white settlement, the tropical areas being Southern India, West East and Central Africa, parts of the West Indies, British Guiana and Honduras, Northern Australia, Borneo, and the various settlements in the Malay Peninsula. The estimated white population of the Dominions in 1911 was 60,000,000, mainly British and Irish, but partly French, Dutch, and Spanish. The remaining 370,000,000 include 315,000,000 of the native races of India and Ceylon, 40,000,000 black races, 6,000,000 Arabs, 6,000,000 Malays, 1,000,000 Chinese, and 1,000,000 Polynesians, with various other elements, including 100,000 "Red Indians" in Canada.

RELIGIONS—Of the total population over 210,000,000 are Hindus, 100,000,000 Muhammadans, 80,000,000 Christians (67,000,000 Protestants, 13,000,000 Catholics), 12,000,000 Buddhists, 12,000,000 Animists, 4,000,000 Sikhs, Jains and Parsees, 750,000 Jews, and the remainder Polytheists and Idol worshippers.

CONSTITUTION AND GOVERNMENT—There is no fundamental law upon which the Constitution of the Commonwealth rests, but there are three main principles underlying its administration, viz., self-government, self-support, and self-defence. The first of these principles has been applied for many years and is fully developed in the case of Canada, Newfoundland, Australia, New Zealand, the Union of South Africa, and the Irish Free State. The second principle is equally developed, almost every unit being financially self-supporting, and few requiring aid from the central Government. The third principle is of modern growth, and may be said to

be the outcome of the *Imperial Conference* (post).

SELF-GOVERNMENT—(1) *Great Britain*—The Constitution recognises certain great principles, including the fair administration of justice, the prohibition of taxation without the consent of the people, and a limited monarchy, the power of the monarch being, in effect, wielded by a Ministry supported by a majority of the House of Commons, the members of which House are elected on a wide franchise, exercised by electors of both sexes. The component parts of the British Government are the King, the Legislature (House of Lords and House of Commons), the Executive, appointed by the Sovereign and responsible to Parliament and the Judiciary. (*See also* p. 491).

(2) *The Indian Empire*—India is governed by the King as Emperor, acting on the advice of the Secretary of State for India, who is assisted by a Council whose members are appointed by the Secretary of State. The latter is responsible to, and represents the authority of, Parliament. Subject to the Secretary of State's direction, the supreme executive authority in India is the Governor-General and his Executive Council, with a legislature of two houses, the Council of State of 60 members (of whom not more than 20 are government officials), and the Legislative Assembly of 144 members (26 official and the remainder elected).

(3) *Imperial Dominions*—All British Dominions are subject (except as regards taxation) to the legislation of the British Parliament, but no Act of Parliament affects a Dominion unless that Dominion is specially mentioned. If the legislature of a Dominion enacts a law which is repugnant to an Imperial law affecting the Dominion, it is to the extent to which it is repugnant absolutely void. Dominion legislatures may be controlled by the refusal of the Governor's assent to any measure passed, by reservation of a measure for the consideration of the Crown, and refusal of the Crown's assent, by a suspensory clause and the refusal of the Royal assent. Subject to such control the parliament of a self-governing Dominion exercises within its borders all the ordinary powers of a sovereign assembly. The Imperial Dominions may be divided into four classes, according to the way in which they are governed:—

(a) *Those having responsible government, i.e. "Dominion Status"* The executive is entrusted to political chiefs who are responsible, not

merely or mainly to the Crown, but to the elected legislature. The Dominions thus governed are the Irish Free State, Northern Ireland, Canada, Newfoundland, Australia, New Zealand, and the Union of South Africa. Malta, Southern Rhodesia and Northern Rhodesia have "responsible government," but certain powers are reserved.

(b) *Where there is government by legislative assembly wholly or partly elected, and an executive council nominated by the Crown, or the Governor representing the Crown.* In this class may be placed the Bahamas, Barbados, Bermuda, British Guiana, Jamaica, Leeward Islands, and Mauritius.

(c) *Where there is government by a Governor acting with an executive and a legislative council, the councils being nominated by the Crown or a Governor representing the Crown.* Dominions so governed include Ceylon, Falkland Islands, Fiji, Gambia, Gibraltar, Nigeria, St Vincent, Sierra Leone, Straits Settlements, Tanganyika, Trinidad.

(d) *Wherein both legislative and executive powers are vested in the Governor alone.* In this class are Labuan and St Helena, where power is also reserved to the Crown to legislate by Order in Council. In South Africa, Bechuanaland, Basutoland, and Zululand are governed in substantially the same way, but no power is reserved to the Crown.

(e) *Protectorates.* The protectorates are countries which, as regards their foreign relations, are under the exclusive control of the Crown. The protectorates of the British Commonwealth include Kenya, Nyassaland, Somaliland, Swaziland, Uganda.

(f) *Spheres of Influence.* A sphere of influence may be described as an area wherein other Powers undertake not to attempt to acquire influence or territory by treaty or annexation, such British spheres exist in the Persian Gulf and in Arabia. In addition to the Spheres of Influence are

(g) *Mandatory Spheres*, where the responsibility for securing good government and a reasonable development of natural resources is confided to an already established government by mandate from the League of Nations. Such British spheres are parts of the former German Colonies in West Africa, and the former Turkish governments of Palestine and Mesopotamia.

SELF-SUPPORT.—With but few exceptions the British Dominions are self-supporting, revenue being raised locally to meet the expenditure. Occasional grants are made by the Central Government to meet exceptional expenditure, or in aid of administration in the earlier stages of development. Certain capital expenses are also undertaken from time to time by the Central Authority, e.g., the Nigerian purchase, the Uganda Railway, &c. No taxes are imposed on the subjects of a Dominion or Colony by the Central Government, as such subjects are not directly represented in the British House of Commons, this principle, "No taxation without representation," was the mainspring of the revolt in the North American Colonies at the close of the eighteenth century. Since that disastrous attempt to impose taxes without the consent of the taxpayers, the principle, which had for many years been accepted in Great Britain, has become an accepted maxim of British Overseas administration.

SELF-DEFENCE.—The Dominions, generally, provide for the defence of their immediate area, but the general strategical defence of the Commonwealth is undertaken by the Central

Government. Questions affecting the general strategical defence of the Commonwealth are considered and determined by the *Imperial Defence Committee*, which co-ordinates the work of the sea, land and air forces of the Commonwealth. In the Great War of 1914-1918 the Dominions provided Armies or Contingents, which fought in every area and bore a full share of the sacrifices by which victory was achieved.

THE IMPERIAL CONFERENCE.—The origin of the Imperial Conference may be traced to the presence in London (in 1887) of the Premiers of the various self-governing Dominions, representing their nations at the celebrations of the Jubilee of Queen Victoria. Similar gatherings took place in 1897, 1902, 1907 and 1911, and in 1907 the title of "Colonial" Conference was changed to Imperial Conference. At the earlier meetings the Colonial Secretary presided, but with the change of title additional importance was given to the assembly by the assumption of the Presidency by the Prime Minister of Great Britain. In 1917 and 1918 the Conference was called the Imperial War Conference, and was held under the Chairmanship of the Secretary of State for the Colonies. In 1921, the *Premiers' Conference*, under the Presidency of the Prime Minister of Great Britain, discussed all matters of general interest to the Commonwealth as a whole. The constitution of the Conference, which met in 1923, is as follows—*President*, The Prime Minister of Great Britain, *Chairman (in the absence of the President)*, The Secretary of State for the Colonies; *Members*, The Prime Ministers and other Ministers of Canada, Australia, New Zealand, Union of South Africa, Newfoundland, and the Irish Free State, the Secretary of State for India and other representatives of India, *Secretary*, Sir H. C. M. Lambert, K.C.M.G., C.B., *Assistant do.*, C. T. Davis, C.M.G., E. J. Harding, C.M.G.

THE LEGISLATURE.—The Parliament of Great Britain is the supreme legislative authority of the Commonwealth. This Parliament has, with the consent of the King-Emperor, delegated its legislative authority to other parliaments constituted by itself, while retaining a general supervision of Commonwealth affairs. The Secretary of State for the Colonies is a Cabinet Minister, his active participation in the government of the nations of the Commonwealth varying with the measure of self-government accorded to them. Parliament also exercises a control over Indian affairs through a Secretary of State.

THE JUDICATURE.—The Supreme Judicial Authority of the Commonwealth is the Judicial Committee of the Privy Council, before which appeals may be brought (in the form of a petition to the Crown) from Consular Courts and Courts of Vice-Admiralty, and from the Courts of India and every British Dominion. The Committee (see p. 227) consists of such members of the Privy Council as have held or are holding high judicial office, provision being made for the inclusion of representatives of India and the self-governing Dominions. India and the Dominions have each a judicial system, with judges appointed by the Crown. The Supreme Judicial Authority for Great Britain and Northern Ireland is the House of Lords.

EDUCATION.—Educational systems, on a more or less uniform plan, are developed throughout the Commonwealth under the control of the respective governments. Universities and University

Colleges have been established and degrees are conferred. Under the will of Cecil Rhodes scholarships were founded at Oxford, his old University, for students from the British Dominions and Colonies, the United States of America, and the German Empire. The German scholarships were abolished by Act of Parliament in 1916, and re-allocated to various parts of the British Dominions, while the trustees have from time to time created other scholarships as the funds in their hands permitted. *Rhodes Scholarships* are awarded in each of the United States, in each State or Province of Canada, Australia and South Africa (where there are also scholarships for Rhodesia and for certain towns and schools in Cape Colony), in New Zealand, Newfoundland, Jamaica, Bermuda and Malta. They are of the annual value of £300 (with the addition in present circumstances of a bonus of £50) and are tenable at any College in Oxford. The normal number of Rhodes scholars in residence together is about 300, of whom 156 come from the British Empire and 144 from America. *Secretary to the Rhodes Trustees*, Lt.-Col. Sir E. W. M. Grigg, K.C.V.O., C.M.G., D.S.O., M.P., 17, Waterloo Place, London, S.W. 1. *Oxford Secretary*, F. J. Wylie, M.A., 9, South Parks Road, Oxford.

In 1923 the *Davison Scholarships* to enable 3 Undergraduates from Oxford and 3 from Cambridge to attend the Universities of Harvard, Yale and Princeton, U.S.A., were founded by Mrs. Henry P. Davison of New York, U.S.A. *Secretaries of the Selection Committee*, Prof. S. E. Morison, 5, Norham Gardens, Oxford, A. L. Goodhart, Corpus Christi College, Cambridge.

Statistics issued by the Universities Bureau of the British Empire show that the total number of students from overseas attending Universities and Colleges in the United Kingdom is 4,121, of whom 1,171 are from Africa, 764 from America, 1,401 from Asia, 542 from Europe, and 253 from Australasia. The principal figures are India, Burma, and Ceylon, 1,004; South Africa and Rhodesia, 803; United States, 402; Egypt, 208; Australia, 160; Canada and Newfoundland, 157; West Indies and Bermuda, 120; China, 119; Russia, 91; New Zealand, 90; France, 52; Japan, 51; Switzerland, 43; Rumania, 38; Greece, 37; Netherlands, 35; Denmark, 33; Norway, 32; Spain, 32; Poland 21.

FINANCE—Complete financial autonomy is enjoyed, in fact, by all British Dominions, and customs tariffs are in most cases the principal source of revenue. Until the close of the War of 1914-1918 the tariff of the United Kingdom was imposed without distinction on foreign and Commonwealth merchandise, but recent legislation foreshadows a general change of fiscal policy. The tariffs of the self-governing Dominions are generally lower for merchandise of British origin than for importations from foreign countries. There is no Commonwealth Debt, but certain obligations of Crown Colonies and Protectorates are met in the early stages of their development by the central Government, and occasional grants in aid of revenue are also made at need. Under "Estimated Assets," in the pages dealing with the National Debt, will be found certain sums advanced to various Dominions in aid of local expenditures. In the Finance Accounts of 1923-4 the following advances are shown to have been made during the financial year 1923-4: *Uganda* (£150,000 for Development Work),

Nyasaland (£24,500 Trans-Zambesia Railway guarantee and £20,000 for Famine Relief), *Nauru and Ocean Islands* (£106,504 Additional Capital), *Tanganyika* (£750,000 to meet current deficit), and *Kenya* (£3,500,000 for Railway extensions in Kenya and Uganda in connexion with cotton cultivation development).

PRODUCTION—In 1923 the wheat crop of the world was about 3,617,600,000 bushels, of which 690,000,000 bushels were produced in the British Commonwealth. Canada, India, Australia, and Great Britain are the principal wheat-producing units, and Mesopotamia (with irrigation) has great potentialities, in 1923 Canada produced nearly 500,000,000 bushels, a total yield surpassed by the U.S.A., but by no other country, and only one-sixth of the cultivable area of Canada has been occupied by cultivators. Barley, oats, rice and maize, and tea, coffee and rubber are largely cultivated, while 107,072 metric tons of cocoa were produced in British Dominions in 1922 out of a world production of 363,155 metric tons. In 1921 Great Britain imported 8,603,385 cwt. of frozen beef, of which about 25 per cent came from Australasia, and 6,738,700 cwt. of frozen mutton, of which more than two-thirds came from New Zealand and Australia. Nearly 6,800,000 cwt. of bacon and hams were also received, of which only 950,000 cwt. came from British Dominions (Canada). Cane sugar is produced in India (for local consumption), West Indies, Australasia, Natal, and Mauritius, and beet sugar in Canada and elsewhere. Australia and New Zealand are the greatest wool-producing countries of the world, and the output of coal in Great Britain exceeds that of every country except the U.S.A., coal is also abundant in Australia, Canada, India and South Africa. Cotton is extensively grown in India, West Africa, East Africa, Sudan, West Indies, and in the tropical parts of Australia (value of Australia output in 1922-3, £600,000), but of the 11,725,522 cwt. imported in 1922 only 500,000 cwt. came from British Dominions. The world consumption of cotton is about 13,000,000 bales, the U.S. producing 10,000,000 bales and consuming in 1922 5,911,000 bales (Southern Mills, 3,733,000; Northern Mills, 2,178,000). In 1921 the imports of chemical and mechanical wood pulp for paper making amounted to over 500,000 tons, but Canada produced half as much again, her product being largely sent to the United States, while Newfoundland sent 26,838 tons to Great Britain. Iron ore is found in many of the Dominions, and pig iron is largely produced, this produced mainly within the Commonwealth (particularly in the Malay peninsula), while more than half the world's supply of gold is drawn from South and South-West Africa and Australasia, it is produced also in Borneo, British East Africa, British Guiana, Canada, Ceylon, India, Malay States, Siam, Sudan, and West Africa. The output of various metals in 1921 was as under:—

Metal	World	Brit Empire
	Tons	Tons
Iron ore	73,000,000	5,754,000
Pig iron	36,500,000	3,957,000
Steel ingots and castings	38,700,000	4,719,000
Copper ore (metal)	537,000	46,000
Smelter copper	480,000	53,000
Lead ore (metal)	869,000	199,000
Smelter lead	849,000	136,000

Precious stones are found in various parts of the Commonwealth, South Africa producing the principal supply of diamonds, and India of rubies and emeralds. Petroleum is produced in India (293,116,834 gallons in 1920), Trinidad (72,204,947 gallons in 1920), and Canada, and there are vast resources available at Mosul (Mesopotamia) and in the neighbourhood of the Persian Gulf. The estimated total production of oil in the world (1921) was 759,000,000 barrels as against 695,000,000 in 1920, the output of the U.S.A. representing 61·9 per cent (1921), and that of Mexico 19·3 per cent (1921). Canada is the second greatest producer in the world of newsprint paper (2,150,251 tons of pulp, valued at \$84,947,598, paper and paper products 1,366,815 tons, value \$107,085,766).

SHIPPING.—On June 30, 1924, there were 11,008 vessels (over 100 tons) flying the British flag, of which total 8,559 (19,105,838 gross tons) were registered in Great Britain and Ireland, and 2,449 (2,772, 662 gross tons) in other parts of the

British Empire. These figures include 10,078 steam and motor vessels of 21,546,044 tons, and 930 sailing vessels of 332,456 tons. In the Great War of 1914-1918 there were lost through enemy action 2,774 merchant vessels of 9,538,918 gross tonnage, of this total 2,197 (7,638,020 tons) were British, 238 (696,845 tons) French, 230 (742,365 tons) Italian, 29 (120,176 tons) Japanese, and 80 (341,512 tons) U.S.A.

TOWNS.—Capital, London (England). Population (1921), 4,483,249 (with suburbs, 7,476,168).

At the Census of 1921 there were in the British Commonwealth 21 cities with over 1,000,000 inhabitants, 9 with 500,000 to 1,000,000 (see p. 88), and 88 others with over 100,000 inhabitants. Of these 99 cities 49 were in Great Britain (England 42, Wales 3, Scotland 4, Irish Free State 1, Northern Ireland 1), 29 India, 4 Canada, 5 Australia, 3 New Zealand, and 1 each in South Africa, Ceylon, Hong Kong, and the Straits Settlements.

THE NOBEL PRIZES, 1907-1924.

THE Nobel Prizes are awarded from the income of a fund bequeathed to trustees for distribution to those who have contributed most largely to the common good, and is divided into five shares, which are devoted to workers in the domains of (a) Physics, (b) Chemistry, (c) Medicine or Physiology, (d) Literature, and (e) the Preservation of Peace. The testator was the Swedish scientist Alfred Nobel, the inventor of dynamite, who died December 10 1896, leaving a fortune of about £1,750,000. The first awards were distributed on the fifth anniversary of Nobel's death, Dec 10, 1901 (for awards before those recorded below see former issues of

WHITAKER). The awarding authorities are the Swedish Academy of Science—(a) Physics, (b) Chemistry, the Stockholm Faculty of Medicine—(c) Medicine or Physiology, the Swedish Academy of Literature—(d) Literature, and a committee of five persons elected by the Norwegian Storting—(e) Peace. The fund is managed by a Board of Directors elected by fifteen deputies appointed by the authorities above named. The Swedish Government appoints a President of the Board of Directors. Particulars concerning conditions, &c., can be obtained from Nobelstiftelsen Styrelse, Norrlandsgatan 6, Stockholm, Sweden.

LIST OF AWARDS (Value about £6,500 each)

Year	(a) PHYSICS	(b) CHEMISTRY	(c) MEDICINE OR PHYSIOLOGY	(d) LITERATURE	(e) PEACE
1907	A. A. Michelson	E. Buchner	A. Laveran	R. Kipling	E. T. Moneta L. Renault
1908	G. Lippman	E. Rutherford	P. Ehrlich E. Metchnikoff	R. Eucken	K. P. Arnoldson F. Bajer
1909	G. Marconi P. Braun	W. Ostwald	T. Kocher	Selma Lagerlof	Bn. de Constant. M. Beernaert
1910	J. D. van der Waals	O. Wallach	A. Koscel	P. Heyse	Berne Intl. Peace Bureau
1911	W. Wien	Marie Curie	A. Gullstrand	M. Maeterlinck	T. M. C. Asser A. H. Fried
1912	G. Dalén	V. Gignard P. Sabatier	A. Carrel	G. Hauptmann	Elhu Root
1913	H. Kamerlingh Onnes	A. Werner	C. Richet	Rabindranath Tagore	H. La Fontaine.
1914	M. von Laue	Th. W. Richards	R. Barany	No award	No award
1915	W. H. Bragg	R. Willstätter	No award	Roman Rolland	No award
1916	W. L. Bragg	No award	No award	V. von Heiden- stam	No award
1917	Ch. G. Barkla	No award	No award	K. Gjellerup (H. Pontoppidan)	Comité Interna- tional de la Croix Rouge
1918	M. Planck	F. Haber	No award	No award	No award
1919	J. Stark	No award	J. Bordet	C. Spitteler	Woodrow Wilson
1920	Ch. E. Guillaume	W. Nerst	A. Krogh	Knut Hamsun	Léon Bourgeois
1921	Albert Einstein	F. Soddy	No award	Anatole France	K. H. Branting Chr. L. Lange
1922	Niels Bohr	F. W. Aston	A. V. Hill O. Meyerhof	J. Benavente	F. Nansen
1923	R. A. Millikan	F. Pregl	F. G. Banting J. J. R. Macleod	W. B. Yeats	Reserved.
1924	The decisions regarding the Nobel Prizes 1924 will be taken later in 1924				

COUNTRY	GOVERNMENT REPRESENTATIVE	CAPITAL
Europe—		
Irish Free State	{ Governor General Timothy Michael Healy K.C. } { William Cosgrave, Premier (Ulstermen) }	Dublin
Northern Ireland	{ Governor General, Duke of Abercorn, K.T. } { Rt. Hon. Sir James Craig, Bart. M.P., Premier }	Belfast
Malta	General Sir W. N. Congreve, K.C.B., C.M.G., Governor	Valletta
Gibraltar	Gen. Sir C. C. Monro, Bart., G.C.B., C.M.G., Governor	Gibraltar
Asia—		
Indian Empire	Earl of Reading, P.C., G.C.M.S.T., G.M.I.E., C.M.G., Viceroy	Delhi
Madras	Viscount Goschen, K.B., Governor	Madras
Bombay	Lt. Col. Sir Leslie O. Wilson, P.C., C.I.E., C.M.G., D.S.O., Governor	Bombay
Bengal	Earl of Lytton, P.C., C.I.E., Governor	Calcutta

Punjab	Sir William Hallcy, K.C.S.I., C.I.E., Governor	Lahore
Burma	Sir Spencer Harcourt Butler, C.I.E., K.C.S.I., Governor	Rangoon
Bihar and Orissa	Sir Henry Wheeler, K.C.S.I., K.C.I.E., Governor	Patna
Central Provinces	Sir Frank Sly, K.C.S.I., Governor	Nagpur
Assam	Sir John Henry Kerr, K.C.S.I., K.C.I.E., Governor	Shillong
Batavia	S. E. Peart, C.S.I., C.I.E., Chief Commissioner	Quetta
N.W. Frontier Province	H. N. Bolton, C.S.I., C.I.E., Chief Commissioner	Peshawar
Amye Mesoway	Lt. Col. R. E. Holland, C.S.I., C.I.E., Chief Commissioner	Amye
Cora	W. P. Barton, C.S.I., C.I.E., Chief Commissioner	Merkara
Andamans and Nicobars	Lt. Col. M. L. Peirar, C.I.E., O.B.E., Chief Commissioner	Port Blair
Cyprus	Sir Malcolm Stevenson, K.C.M.G., High Commissioner	Nicosia
Iraq (Mesopotamia)	Maj. Gen. Sir H. R. G. Hobbs, K.C.B., K.C.I.E., Administrator	Baghdad
Palestine	Rt. Hon. Sir Herbert L. Samuel, P.C., G.C.B., High Commissioner	Jerusalem
Ceylon	Sir Hugh Charles Clifford, C.M.G., Governor	Columbo
Strait Settlements	Sir I. N. Gullebrand, K.C.B., K.C.M.G., Governor	Singapore
Hong Kong	Sir R. E. Stubbs, K.C.M.G., Governor	Victoria
Welislawei	Sir P. Blunt, C.M.P., Governor	Welislawei
Borneo	Maj. Gen. Sir W. H. Rycroft, K.C.B., K.C.M.G., Governor	Sandakan
Samwak	II H. Raja Brooke, Raja	Kuching
Africa—		
UNION OF SOUTH AFRICA	{ Earl of Athlone, C.B., G.C.M.G., G.C.B., G.C.V.O. (Governor Gen.) } { Gen. Hon. J. B. M. Hertzog, Premier }	Pretoria
Basutoland	Lt. Col. Sir E. C. F. Gekway, K.C.M.G., Commissioner	Maseru
Bechuanaland Protectorate	Jules Ellenberger, I.S.O., Resident Commissioner	Mafeking (Cape)
Southern Rhodesia	{ Lt. Col. Sir J. R. Chambliss, C.M.G., D.S.O., Governor } { Sir C. P. J. Coghlan, Premier }	Salisbury
Northern Rhodesia	Sir Herbert James Stanley, K.C.M.G., Governor	Livingstone
Gambia	Capt. Cecil H. Armitage, C.M.G., Governor	Banjul
Gold Coast Colony & Togoland	Brig. Gen. Sir F. G. Guggisberg, K.C.M.G., D.S.O., Governor	Accra
Sierra Leone	Sir Alexander Ramsford Slater, K.C.M.G., C.B., Governor	Freetown
Nigeria and Cameroons	Governor General	Lagos
Sudan	Maj. Gen. Sir L. O. Fitz-Macaulay, C.B., G.C.B., Gov. Gen.	Khartoum
Somaland Protectorate	Lt. Col. G. H. Summers, C.M.G., Governor	Berbera
Kenya	Sir Robert T. Coryndon, K.C.M.G., Governor	Nairobi
Uganda Protectorate	Sir G. F. Archer, K.C.M.G., Governor	Entebbe
Zanzibar Protectorate	{ Beyved Khalifa bin Harab, K.C.M.G., Sultan } { Sir R. T. Coryndon, K.C.M.G., British Consul } { A. C. Hollis, C.M.G., C.B., British Resident } { Sir C. O. Bowring, K.C.B., C.M.G., Governor and Consul General }	Zanzibar
Nyasaland Protectorate	Sir Donald Charles Cameron, K.C.B., C.M.G., Governor	Zomba
Tanganyika	Sir Herbert James Ridd, K.C.M.G., C.B., Gov. Gen.	Dar es-Salaam
Mauritius	Brig. Gen. Sir Joseph A. Byrne, K.C.B., C.B., Governor	Port Louis
Seychelles		Victoria
St. Helena and Ascension		Jamestown
America—		
DOMINION OF CANADA	{ General Lord Byng, G.C.B., G.C.M.G., M.C. (Governor General) } { Rt. Hon. W. L. Mackenzie King, M.P., Premier }	Ottawa
NEWFOUNDLAND	{ Sir W. L. Allardice, K.C.M.G., Governor } { Hon. W. S. Monroe, Premier }	St. John's
Bermuda	Lt. Gen. Sir Joseph T. Asser, K.C.B., K.C.M.G., C.M.G., Governor	Hamilton
Jamaica	Brig. Gen. Sir N. H. Wilson, K.C.M.G., K.C.B., C.B., Capt. General	Kingston
Bahamas	Maj. Sir H. E. S. Cordeaux, K.C.M.G., C.B., Governor	Nassau
Leeward Isles	Lt. Col. Hon. Sir E. Piennes, Bart., Governor	St. John's
Windward Isles	Sir Frederick Seton James, K.C.B., C.M.G., Governor	St. George's
Barbados	Lt. Col. Sir C. R. M. O'Brien, K.C.M.G., Governor	Bridgetown
Trinidad and Tobago	Sir Horace Archer Byatt, K.C.M.G., Governor	Port of Spain
British Guiana	Sir Graeme Thomson, K.C.B., Governor	Georgetown
British Honduras	Sir Eyre Hutson, K.C.M.G., Governor	Belize
Falkland Islands	Sir John Middleton, K.B., C.M.G., Governor	Port Stanley
Oceania—		
COMMONWEALTH OF AUSTRALIA	{ Rt. Hon. Lord Forster, C.M.G., Governor General } { Rt. Hon. S. M. Bruce, M.P., Premier }	Melbourne
New South Wales	{ Admiral Sir D. R. S. De Chair, K.C.B., M.C. (Governor) } { Hon. Sir George Fuller, K.C.M.G., Premier }	Sydney
Victoria	{ Rt. Hon. Earl of Strathbride, K.C.M.G., C.B., C.V.O., Governor } { Hon. S. M. Friess, M.P., Premier }	Melbourne
South Australia	{ Lt. Gen. Sir G. T. M. Bridges, K.C.M.G., C.B., D.S.O., Governor } { Hon. John Gunn, Premier }	Adelaide
Queensland	{ Lt. Col. Rt. Hon. Sir Matthew Nathan, C.M.G., Governor } { Hon. E. G. Theodore, Premier }	Brisbane
Tasmania	{ Sir James O'Grady, K.C.M.G., O.B.E., Governor } { Hon. J. A. Lyons, Premier }	Hobart
Western Australia	{ Col. Sir W. R. Campion, K.C.M.G., D.S.O., Governor } { Hon. Philip Collier, Premier }	Perth
DOMINION OF NEW ZEALAND	{ Gen. Sir C. Ferguson, Bt. C.M.G., K.C.M.G., D.S.O., Gov. G. } { Rt. Hon. W. F. Massey, Premier }	Wellington
Fiji	Sir Cecil Hunter Rodwell, K.C.M.G., Governor	Suva
Papua	Sir H. P. Murray, C.M.G., Administrator	Port Moresby
Pacific Islands	Sir Cecil Hunter Rodwell, K.C.M.G., High Commissioner	Suva, Fiji

* Estimated, no Irish Census in 1921

Religion and Language.

The inhabitants of Great Britain and Ireland are almost entirely Christians, the exceptions being about 300,000 Jews and a small number of non-Christian immigrants. In England the Church of England (with an Episcopal form of Government), and in Scotland the Church of Scotland (with a Presbyterian form of Government), are the "Established Religions." The Church was disestablished in Ireland in 1869, and in Wales in 1920. There has been no religious census since 1851, but many of the religious bodies publish estimates of membership, the *Church of England* having 2,291,190 communicants in England at Easter 1922, the *Roman Catholic Church* claiming 2,000,000 members in England and Wales, 546,000 in Scotland, and 3,242,670 in Ireland (1920). The language of the people is English, with a large proportion of Welsh-speaking people in Wales, many of whom are bi-lingual. Attempts are being made to revive the Gaelic language in the Irish Free State. Gaelic is still spoken in the Highlands and Islands of Scotland, there being 10,314 persons speaking Gaelic only, and 151,159 speaking Gaelic and English at the Census of 1921.

Births, Marriages and Deaths.

(Great Britain, Northern Ireland and Irish Free State.)

* The totals given above refer to movements to and from *Places out of Europe*. The number of Passengers from and to Great Britain and Ireland and Europe in 1913 was, *Outwards* (to the Continent), 1,184,412, and *Inwards* from the Continent, 1,309,874. The figures for 1918-23 were *Outwards* (1918) 189,225, (1919) 569,022, (1920) 738,860, (1921) 830,558, (1922) 868,122, (1923) 1,038,254, *Inwards* (1918) 171,229, (1919) 425,183, (1920) 725,263, (1921) 855,343, (1922) 916,398, (1923) 1,103,016.

Nationality of Emigrants.—In 1913 the number of British and Irish Emigrants was 369,394, of whom 271,796 were English, 5,000 Welsh, 66,202 Scottish and 44,396 Irish. In 1923 the total number of British and Irish Emigrants was 236,284, of whom 120,691 were English, 4,509 Welsh, 58,264 Scottish, and 22,820 North Irish.

CENSUS POPULATION OF GREAT BRITAIN AND IRELAND

Previous to 1801 there existed no official return of the population of either England or Scotland, nor was it till 1823 that statesmen had anything more than surmise to guide them respecting Ireland, and the census then taken of that country was far from correct. The estimate formed of the English population at various periods, calculated from the numbers of baptisms, burials, and marriages, was in the years—

1570	4,160,221	1670	5,773,646
1600	4,811,718	1700	6,045,008
1630	5,600,517	1750	6,517,035

The first general Census of Great Britain and Ireland was taken in 1801, and since the time named there has been a fresh numbering every ten years, with the following results:

1801	16,245,546	1871	31,845,379
1811	18,509,116	1881	35,245,488
1821	21,272,187	1891	38,104,975
1831	24,392,485	1901	41,976,827
1841	27,036,450	1911	45,370,539†
1851	27,724,056	1921	48,767,530††
1861	29,321,288		

*. The population of Great Britain and Ireland a month before the outbreak of the Great War was officially estimated at 46,089,249. The number of persons to the square mile was in 1921: England and Wales, 649; Scotland, 164; Ireland (1911), 135 6

POPULATION ENUMERATED AT EACH DECENNIAL CENSUS IN ENGLAND AND WALES AND SCOTLAND, 1801-1921; IRELAND, 1831-1921; AND ISLANDS IN THE BRITISH SPAS, 1871-1921 †

CENTRAL GOVERNMENT.

THE BRITISH CONSTITUTION.—The British Constitution is mainly unwritten and customary, but its development is marked by certain outstanding and fundamental laws, of which the principal are *Magna Carta* (1215), which secured annual parliaments and the equal administration of justice, the *Habeas Corpus Act* (1679), securing the liberty of the person, the *Act of Settlement* (1701), providing for the Protestant succession to the throne, the *Act of Union with Scotland* (1707), the *Act of Union with Ireland* (1800), the *Parliament Act* (1911), which enabled the Commons to pass certain Acts without the concurrence of the other chamber, the *Government of Ireland Act* (1920), and the *Irish Free State (Agreement) Act*, 1922.

The constituent parts of the British Constitution may be thus briefly described

1 *The Sovereign*—The throne is hereditary in the British house of Windsor with mixed succession, the sons of the Sovereign and their descendants having precedence of daughters, but daughters and their descendants preference over lateral lines. The Monarchy is constitutional and limited. The King has a right to veto Bills passed by both Houses of Parliament, but in practice his veto is almost obsolete. "The King can do no wrong" is a maxim of the Constitution, and consequently no action for civil wrong will lie against the Crown. A petition of right will, however, enable an injured subject to obtain redress, while, if in the administration of an Act of Parliament a Government department exceeds its rights, a declaration of right may be obtained in an action against the Attorney-General.

2 *The Legislature*—Parliament consists of two Houses, the Lords and the Commons.

(a) *The House of Lords* consists of peers. A peer may hold his seat by (1) hereditary right, (2) creation by the King, (3) official position or election. English bishops (24), Irish peers (28) elected for life, and Scottish peers (16) elected for duration of Parliament, also sit in the House of Lords.

The powers of the House of Lords were much restricted by the Parliament Act, 1911. Thus, if a Money Bill is not passed unamended by the House of Lords within a month of its being sent up, it becomes law upon the Royal assent being signified. A Public Bill other than a Money Bill will become law without the consent of the Lords if it is passed by the Commons, and sent up to the Lords, in three successive sessions, provided two years elapse between the date of the second reading in the Commons in the first session and the date when it is passed by that body in the third session. Passing a Bill with amendments by the House of Lords is equivalent to rejection, unless the Commons approve the amendments. Any Bill by which the maximum duration of Parliament is increased is excepted from this Act. Members of the House of Lords are unpaid.

(b) *The House of Commons*—This body consists of 615 members, elected by the registered male and female electors in county, borough, and university constituencies. Roughly speaking, about one-third of the population are electors. The maximum duration of Parliament is five years. Members of the House of Commons receive annual salaries of £400 and travelling facilities over the railways to and from their constituencies.

3 *The Executive*.—The Crown (the King in Council) "makes peace and war, issues charters, increases the peerage, is the fountain of honour, of office, and of justice." The Cabinet, under the presidency of the Prime Minister, consists of Ministers, drawn from the ranks of the party in power and appointed by the Sovereign on the advice of the Prime Minister. Ministers receive salaries of varying amounts (see page 161). The Cabinet has no corporate existence. Ministers are severally responsible to Parliament for their actions, and the Cabinet as a whole is responsible to Parliament for its joint and several administration. Ministers hold their office during the Sovereign's pleasure; they may be dismissed at any moment.

4 *The Judiciary*.—(a) *England and Wales*.—The laws in England and Wales are administered by judges appointed by the Crown, who hold office for life, and cannot be removed save on petition presented by both Houses of Parliament. Two Courts of Appeal hear appeals from the High Court, the ultimate Court of Appeal from all the courts in Great Britain being the House of Lords. Civil cases arising in London and Middlesex are tried at the High Court in London, but civil cases arising in the country are tried on circuit by judges of the King's Bench (Assizes). The Chancery division has exclusive jurisdiction to try certain classes of actions. To the County Courts is relegated the duty of trying actions where the sum in dispute does not exceed a certain amount. The County Courts, too, have jurisdiction to try cases arising under certain special Acts of Parliament, e.g., the Workmen's Compensation Act. Bankruptcy cases arising in London are heard in the London Bankruptcy Court, those arising out of London are dealt with in the County Courts.

With regard to criminal law it is a general principle that, except for certain minor offences, every person charged is entitled to be tried by a jury. Courts of criminal jurisdiction in England are (1) The judges of the High Court sitting at Assizes for the trial of cases out of London, and at the Central Criminal Court ("The Old Bailey," see p. 575) for the trial of cases arising in and around London. (2) Courts of Quarter Sessions, holden for every county, and formed of justices of the peace, presided over by a chairman who is unpaid. The recorders of certain cities and boroughs have a jurisdiction similar to that of courts of Quarter Sessions. (3) Courts of Petty Sessions, consisting of at least two justices of the peace or a stipendiary magistrate. (4) *The Court of Criminal Appeal* has power to hear appeals against convictions and sentences.

(b) *Scotland*.—Scottish civil law is administered by the Court of Session, which is a court of law and equity. The High Court of Justiciary is the supreme criminal court in Scotland. It consists of all the judges, and as a rule it is confined to the trial of serious cases. The Sheriff of the county (see p. 548) exercises functions which correspond to those of the English County Court Judges and the Chairmen of Quarter Sessions. Burgh magistrates and justices of the peace have jurisdiction in petty cases.

(c) *Northern Ireland*.—The higher courts in Northern Ireland are very similar to the English courts, but the County Court Judges are also the Chairmen of Quarter Sessions.

LOCAL GOVERNMENT.

Local Government is carried out under the central control of the Ministry of Health (which superseded the various Local Government Boards in 1919). The subjects which local bodies administer are, *inter alia* the poor law; the laws relating to public health, the maintenance of the police, the control of the sale of intoxicating liquors, the provision of lunatic asylums. Local authorities also have to administer and carry into effect the laws as to elementary and other schools. The ruling principle has been to entrust special interests to those specially interested. In England and Wales there are elective Councils for each County (under Chairmen), for each City and County Borough (under Lord Mayors or Mayors), and for Urban and Rural Districts (under Chairmen), every parish being thus included. Scotland has elective County Councils under a Convener, Burgh Councils under a Lord Provost or Provost, or Parish Councils with Chairmen.

POLICE.

The strength of the Police force was 56,832 in England and Wales (1922), and 6,530 in Scotland (1922). The Police of England and Wales are administered by the Home Office, those of Scotland by the Scottish Office. The LONDON POLICE consists of the City Police and of the Metropolitan Police. The City Police district comprises an area of 675 statute acres, and contains two courts of justice, those of the Guildhall and Mansion House, where the Lord Mayor and the Aldermen are the magistrates (see p. 233). Although the area is comparatively small, the rateable value is enormous, and there are 19,657 night residents. The Force comprises 1 Assistant Commissioner, 3 Superintendents, 6 Chief Inspectors, 25 Inspectors, 17 Sub-Inspectors, 103 Sergeants, and 1,006 Constables, also 19 Constables on private service duty.

The Metropolitan Police district embraces an area of 447,626 statute acres, with a population of about seven millions. There are within this area fourteen Police Courts (see p. 233). The Force on Oct. 1, 1924, consisted of 37 Superintendents, 662 Inspectors, 2,975 Sergeants, and 16,843 Constables, making a total of 20,517, with 279 hoises. The strength of the Metropolitan Special Constabulary Reserve and its Auxiliary Force on Sept. 24, 1924, was 9,826. The gross expenditure of the Metropolitan Police and Metropolitan Police Courts for the year 1923-24 was £7,256,882. On March 31, 1924, there were 11,766 Police pensioners, and 424 pensioned widows.

LOSSES FROM FIRE.

The annual cost of fire defence in Great Britain may be estimated at about £25,000,000. The average annual direct loss from fire in Great Britain is about £12,000,000. In the United States it is estimated to have exceeded £100,000,000 in 1922. The number of fires attended by public fire brigades in Great Britain is about 22,500 per annum, varying from 77 per 100,000 population in London to half that figure in other large cities and urban districts. The average for England and Wales is 56 per 100,000 population, and 83 per 100,000 population in Scotland. The cost of public fire brigades in Great Britain amounts in the aggregate to about £2,000,000 per annum, and varies from the produce of a 3d rate in London to the produce of a halfpenny rate in an urban district.

CRIME.

England and Wales.

Indictable Offences—The number of persons tried for indictable offences at Assizes and Quarter Sessions and Summarily was lower in 1922 than in 1921, and considerably below the level of 1913. The figures for the principal groups of offences compare as follows—

Offences against	1913	1921	1922
The Person	3,226	3,071	2,969
Property (with Violence)	3,984	4,280	4,337
Do (without do)	54,256	53,022	50,067
Do (Malicious Injury to)	458	314	199
Currency (and Forgery)	346	269	285
Other Offences	899	399	320

Totals 63,269 61,355 58,177

Non-Indictable Offences.—Persons proceeded against for less serious offences numbered 524,678, compared with 523,718 in 1921, and 680,290 in 1913. The totals for certain groups of offences and the corresponding figures for 1921 and 1913 are—

	1913	1921	1922
Betting and gaming	5,247	7,945	10,790
Drunkenness	204,038	81,383	80,463
Education Acts	44,030	26,599	22,337
Game laws	4,262	5,620	4,622
Highway Acts	76,011	133,465	145,678
Police regulations	106,509	74,241	67,871
Poor law	6,256	3,128	4,457
Prostitution	10,629	5,715	5,013
Revenue laws	17,101	14,099	20,741
Sunday trading	11,555	18,426	21,364
Vagrancy	27,523	26,333	28,916

Assizes and Quarter Sessions.—Of 8,435 persons brought up for trial in Courts of Assize and Quarter Sessions, 133 were not actually tried—in 12 cases the prosecution was not proceeded with, in 101 cases the Grand juries found no bill, and in 20 cases the accused were insane and unfit to plead, 1,491 were acquitted, and 6,784 convicted, while 27 were found "guilty but insane."

Count of Criminal Appeal.—The Court of Criminal Appeal heard or otherwise disposed of 86 appeals out of 415 applications. In 19 cases the conviction was affirmed, and in 17 cases the conviction was quashed, in 18 cases the sentence was affirmed and in 28 cases the sentence was quashed and other sentences substituted, and in 2 cases the sentence was quashed.

Husbands and Wives, &c.—Separation orders granted in 1922 numbered 4,580, compared with 5,173 in 1913. 8,056 orders were made for the maintenance of illegitimate children (against 6,914), and 8,831 orders for the maintenance of wives (against 7,959).

Juvenile Offenders.—The total number of persons brought before juvenile courts in 1922 was 31,056, namely, 15,232 boys and 738 girls under the age of 14, and 14,489 boys and 597 girls over 14 and under 16, and 2,077 males and 156 females aged above 16. Of those brought before Juvenile Courts 3,800 were acquitted, orders

* Children under 14 may not be sentenced to imprisonment nor committed to prison in default of payment of fines, damages, or costs. Nor may young persons aged 14 to 16 years be so dealt with unless the Court certifies that the young person is of so unruly a character that he cannot be detained in a place of detention, or that he is of so depraved a character that he is not a fit person to be so detained. (Children Act, 1908, sec. 102.)

without conviction were made against 14,643, and 12,528 were convicted. Only 3 youthful offenders were sentenced to imprisonment; 564 were committed to reformatory schools, 508 males were ordered to be whipped, and 11,402 were sentenced to pay fines. In 5,529 cases the fine was ordered to be paid by the parent or guardian of the defendant. During the year probation orders were made in respect of 10,535 persons.

Bigamy—The increase in sexual crimes since 1913 is almost wholly in cases of bigamy, in 1913 there were 133 cases of bigamy, in 1922 there were 454, against 722 (1920) and 570 (1921).

Blackmail—There were 35 cases of "Extortion by Threats to accuse of crime or by other Threats" in 1922. Of 24 such persons tried at the Assizes, 4 were acquitted, 2 were sent to penal servitude and 14 were imprisoned, and of the 6 persons tried at Quarter Sessions for the crime of blackmail, 5 were acquitted and 1 sentenced to imprisonment.

Homicide—Apart from 45 cases of infanticide and deaths from illegal operations, 100 cases of supposed murder came to the knowledge of the police in England and Wales during 1922, compared with the annual average of 103 for the years 1918-1921. In 27 cases (1922) the murderer committed suicide at the time of the murder. In 65 cases arrests were made and 5 accused persons were discharged. In 1922 60 persons (41 males, 19 females) were tried for murder, 3 were found insane upon arraignment, 9 were acquitted, 13 were found guilty but insane, and 34 were sentenced to death, of whom 10 (6 males and 4 females) had the capital sentence commuted to penal servitude for life.

Suicide—A verdict of *felix de se* was recorded in 127 cases, and of other cases of suicide in 3,727 cases, after inquest by Coroners.

Drunkenness—The total number of persons proceeded against for drunkenness in 1922 was 81,150 (66,076 men and 15,074 women), against a total of 204,038 in 1913 and 81,383 in 1921.

Age of Criminals—In 1922 the ages of convicted persons received into prison were—(aged 14 to 16), 13, (16 to 21), 3,938, (21 to 30), 13,484, (30 to 40), 12,337, (40 to 50), 9,774, (50 to 60), 5,020, (60 and over), 2,840. Of those aged 60 and above 348 were convicted of larceny, 968 of drunkenness and 452 of begging.

Illiteracy of Criminals—In 1922 there were 47,666 convicted persons received into prison, of whom 82 per cent were born in England and Wales, and 2 per cent were aliens. Only 2,358 of the total number were illiterate, against 28,102 in 1900 and 55,793 in 1880. It is thus clear that the diminution of illiteracy in the general population extends to the criminal classes.

EDUCATION.

I.—ELEMENTARY

Statutes require parents in England and Wales to cause their children to receive efficient elementary instruction or to attend school from 5 to 14 years of age; in Scotland, to provide efficient education up to 15 years, in Ireland, to cause their children to attend school from 6 to 14 years.

In order to give effect to these requirements Local Authorities are empowered to make free provision for school accommodation, attendance of pupils and teaching-staffs, whilst the State supplies nearly one-half of the maintenance funds conditionally upon receipt of satisfactory

reports from government inspectors appointed by the Board of Education for England and Wales, by the Committee of Council on Education for Scotland, and by the Commissioners for National Education in Ireland. It may be remarked—(i) that there is no definition of "school" in the Acts; (ii) that efficiency of instruction given is not tested except in publicly-managed schools, (iii) that Local Authority schools increase in number though still fewer than voluntary (non-provided) schools. The latter are maintained by the Authorities whilst the responsibility for the buildings remains with the foundation-managers.

In 1922-23 there were 20,939 public elementary schools in England and Wales, with accommodation for over 7,096,642 pupils, and average attendance of 5,189,107, and in 1922 there were 2,904 primary schools in Scotland with accommodation for 888,634, and average attendance of 615,198. Teachers number 185,771 (128,123 women) in England and Wales, and 19,968 (15,928 women) in Scotland. Except in Scotland there is a considerable proportion of teachers who are not fully qualified. The War lessened the number of male teachers which was already diminishing. State grants for pensions on a more liberal scale than formerly are now offered under the Superannuation Act of 1918, by which it is hoped to render the profession more attractive.

Twenty per cent of the population are of the pupilage. School life is over in the great majority of cases after about seven years of schooling, the minority proceeding to some other kind of day-school. Recent legislation requires Local Authorities in England, Wales and Scotland to make schemes for consideration by the Board of Education to provide suitable practical instruction, to give advanced instruction to those pupils who stay beyond 14, and to improve the facilities towards preparing pupils for higher education and the teaching profession, also nursery-schools for children under five.

Elementary school education includes teaching in practical matters—needlework, drawing, gardening, handicrafts, cookery, &c.—and the sections upon health, medical attendance, physical training, evening play centres, home study, future employment, &c., show that the schools are valuable agencies in child-welfare generally.

II.—EDUCATION BEYOND ELEMENTARY.

The Education Act, 1918, has in view powers for compulsory, and therefore free, education of a continuative kind in part-time day schools up to 16 and ultimately 18 years, and implies free secondary education of some type hereafter.

Secondary

The aims, methods, and instructions are in marked contrast to the comparative simplicity of those in Elementary Education. In all the four countries it is now felt that although technical instruction was the first branch to be promoted by statute, undifferentiated 4-year secondary (intermediate) courses should be gone through before pupils proceed to specialisation for industrial, commercial, &c., employments.

(1) *England and Wales*.—The number of Secondary schools deemed efficient by the Board in 1922 was 1,249 in England and Wales, containing 185,076 boys and 176,949 girls, of whom about one-fourth come up from elementary schools with "free places," others with scholarships. Nine-tenths of these schools receive State

grants, and nearly one-third are controlled by Local Authorities. Fees are charged to most of the pupils. Of these "efficient" schools about 40 per cent receive boarders (about 27,000) in varying proportions and drawn in many cases from distant areas. Most of them are endowed or under trusts, and their trust incomes and property form a considerable asset in secondary school finance. The Authorities aim at securing graduate teachers as far as possible. As in Elementary schools, there is a shortage of fully-qualified teachers, but the recent Act for providing Pensions for School Teachers may be expected to make the posts more attractive. The system in Wales is much the same as in England, though the schools are under earlier statutory provisions, and are called "Intermediate" in many cases. In Wales there is a Central Welsh Board.

(ii) *Scotland: Intermediate and Secondary Schools*.—Three kinds of courses are provided: "Higher Grade and Intermediate with post-Intermediate." All are under the same Commissions and Local Authorities as are the Elementary schools.

Technical

Technical Education in England and Wales is provided in Evening and similar schools (mostly controlled by Local Authorities). State grants are paid on the number of students of whom about one-half are under 17 years of age. The average attendance of a student is about 50 hours per annum. There are also Teachers' Courses, Tutorial Classes, Technical Institution Courses, and Day Technical Classes, and also Schools of Art, Branch Schools of Art, and Art Classes. In Scotland Technical Education is provided in like manner.

Training.

Training is provided by the State for Elementary School Teachers, of whom 50 per cent have been trained in Colleges having nearly 13,000 places. Slight progress has been made lately towards providing for the Training of

Teachers for Secondary Schools, a small annual State grant being made for the purpose.

Universities

Many of these institutions now receive annual State grants, mainly in the form of "block" grants paid by the Treasury on the advice of the University Grants Committee. Substantial grants are also received from local Education Authorities in England and Wales. State grants to Irish Institutions were transferred from the Treasury to the Irish Governments as from April, 1922.

In 1922-3 the Professors and Undergraduates were approximately as under—

Universities	Professors, &c.	Under graduates
England (10)	3,077	31,030
Wales (1)	294	2,530
Scotland (4)	747	11,190
Total (15)	4,118	44,750

FINANCE.

The Revenue and Expenditure for the twelve years ended March 31, 1925, are stated as follows—

Year	Revenue	Expenditure
1913-14	£198,243,000	£197,493,000
1914-15	226,694,080	1,132,654,000
1915-16	336,767,000	1,559,706,000
1916-17	573,428,000	2,198,113,000
1917-18	707,335,000	2,696,221,000
1918-19	889,021,000	2,579,301,000
1919-20	1,339,571,000	1,665,773,000
1920-21	1,425,985,000	1,195,428,000
1921-22	1,124,880,000	1,079,187,000
1922-23	914,012,452	812,496,604
1923-24	837,169,000	788,840,000
1924-25*	794,050,000	790,026,000

* Budget Estimate (see also p. 495)

ESTIMATED AND ACTUAL REVENUE AND EXPENDITURE 1923-1924.

Revenue.		Expenditure.			
	Estimated	Actual			
Customs	£116,900,000	£119,958,000	National Debt Services	* Estimated £350,000,000	Actual £347,308,748
Excise	143,850,000	147,970,000	Road Fund	12,650,000	14,090,044
Motor Vehicles Duties	13,250,000	14,691,000	Payments to Local Taxation Accounts	10,348,000	13,662,631
Estate Duties	52,000,000	57,800,000	Payments to Northern Ireland	3,000,000	3,966,865

Ordinary	12,500,000	12,080,950			
Special	40,000,000	36,801,434			
Non-Tax Revenue	£118,500,000	£119,109,284			
Total Revenue	£818,500,000	£837,169,284			

* Including £3,243,000 Supplementary Grants.

THE RISE IN TAXATION.

In 1913-14 the amount raised by direct Taxation in the United Kingdom was £163,035,000, or £3 11s per head of the population at that period. In 1923-24 the amount raised was £15 18s per head.

Mr. Snowden, Chancellor of the Exchequer, in a written reply to a question in Parliament, gave the following comparative figures of taxation per head in some of the leading countries of the world.—

	1923 or 1923-24 (Actual) In Sterling at Par	1923 or 1923-24 (Estimated) In Sterling at Par
U.K.	£ 4 7	£ 4 7
France	3 11 0	15 18 0
U.S.A. (Federal)	3 7 0	6 18 2
Italy	2 7 11	6 14 10
Germany (Reich)	2 10 8	3 6 11
Canada (Dominion)	3 8 2	4 1 4
Australia		7 19 8
Commonwealth States	3 8 1	8 1 9
South Africa	1 5 11	3 4 2
Union	1 9 0	3 9 11
Provinces	0 4 9	0 11 9
New Zealand	6 3 0	12 5 3

Mr. Snowden added: "International comparisons of this nature require to be used with great caution owing to the differing national wealth, financial systems, and social and economic structure of the countries compared." The Chancellor of the Exchequer further pointed out that the figures for the United States, Germany and Canada show the taxation to cover expenditure of the Central Government only, and do not include the expenditure of the States, for which information is not available.

Relative Cost of The Great War

In an "Analysis of War and Post-War Finance," issued by the Bankers' Trust Company of New York and Paris, a table is published showing the relative cost of the Great War to certain of the Nations which took part therein.

The table shows in each case the gross cost per head of population and per cent of national wealth in U.S. dollars at pre-war rates of exchange.—

Nation	Per Capita \$	National Wealth Per cent
Great Britain	524 85	34 49
France	280 20	19 36
Italy	124 59	20 59
Russia	44 21	13 11
U.S.A.	176 51	8 67
Austria-Hungary	108 76	18 13
Germany	298 57	24 71

THE BUDGET, 1924-1925.

Summary of Provisions

The Budget of Great Britain for 1924-1925 was introduced on April 29, 1924, by the Chancellor of the Exchequer (Mr. Philip Snowden). The financial year 1923-1924 ended with a realized surplus of £48,329,073, which was applied in reduction of the National Debt, and the estimated revenue for 1924-1925 showed an estimated surplus of £4,024,000, after allowing for certain remissions of taxation.

Changes in Taxation.

Reductions—The *Tea Duty* is reduced from 8d to 4d per lb., the *Sugar Duty* from £1 5s 8d to 11s 8d per cwt., the *Coffee Duty* from £1 8s to 12s per cwt., the *Cocoa Duty* from 4s to 2s per cwt., the *Rare Chicory Duty* from £1 6s 6d to 13s 3d per cwt., the *Dried Fruits Duty* from 10s 6d to 7s per cwt., the *Entertainment Tax* is abolished on reduced on cheaper seats.

Repeals—The *Corporation Profits Tax*, *Inhabited House Duty*, and the "McKenna Duties" on Cinematograph Films, Clocks and Watches, Motor Cars and Motor Cycles, and Musical Instruments are repealed.

Other Changes—Certain concessions are made in charges to *Telephone Users*, and small reductions in *Motor License Duties*.

ESTIMATED AND ACTUAL REVENUE AND EXPENDITURE 1924-1925

	Revenue.		Expenditure	
	Budget	Six months	Budget.	Six months
Customs	£101,800,000	£49,593,000	National Debt	£350,000,000 £170,182,946
Excise	135,900,000	62,872,000	Northern Ireland	3,500,000 2,308,737
Motor Vehicle Duties	15,600,000	4,106,000	Road Fund	15,000,000 3,505,044
Estate Duties	56,000,000	31,520,000	Local Taxation	13,150,000 4,487,891
Stamps	21,000,000	8,810,000	Land Settlement	750,000 324,484
Land Tax, House Duty, and Mineral Rights Duty	1,250,000	640,000	Other Consolidated Fund Services	2,440,000 1,133,704
Income Tax	265,000,000	104,072,000	Navy	55,800,000
Super-Tax	61,000,000	24,530,000	Army	45,000,000
Excess Profits Duty	8,000,000		Air Force	14,511,000
Corporation Profits Tax	20,000,000	8,630,000	Civil Services	227,573,000 105,164,863

STATE EXPENDITURE, 1924-25.

THE expenditure of the various departments of the State is met from two main sources, (1) supply grants, (2) receipts appropriated in aid. Together these form the *gross* expenditure for the year, the *net* expenditure being the amount raised by taxation for the particular purpose. In order to measure the actual total expenditure of public departments the more significant figures are the *gross* estimates, that is, the supply grants and appropriations in aid combined, as these figures represent the total cash sums placed by Parliament at the disposal of departments. The Estimated Expenditure given below accounts only for the *net* expenditure, after taking credit for receipts appropriated in aid of expenditure.

THE CIVIL SERVICES

The Estimates for the Civil Services and Revenue Departments show a reduction of £37,338,000 for the year 1924-25, made up as follows—

Service	1923-4	1924-5
Civil Services	£264,750,141	£227,572,823
Customs and Excise	5,009,000	4,740,000
Inland Revenue	6,582,211	6,480,804
Post Office	50,871,530	50,081,100

£327,212,872 £289,874,727

Practically the whole of the net reduction is in respect of Civil Service, owing to an increase in the Post Office estimates, so that the net saving on the Revenue Departments amounts to £160,827 only.

While certain survivals of the war period again account for a considerable part of the decrease, it is clear that every effort has been made to reduce the expenditure of the departments to the lowest possible limits. The great majority of the items in this category show decreases, in some cases of substantial amount. Less than half the amount voted for Foreign and Colonial Services in the current financial year will be required in 1924-25, the total net estimate of £9,138,091 representing a reduction of £11,193,543. Colonial Services account for the major part of the decrease. The net reduction under this head of £7,703,917 is mainly due to the disappearance of non-recurring items, such as last year's loans to Kenya and Uganda, amounting to £3,500,000 and £150,000 respectively, the vote of £106,504 in respect of Nauru and Ocean Islands, and the settlement with the British South Africa Company on account of Rhodesia, involving a payment of £3,750,000. There is also a decrease of nearly £3,000,000 in the cost of Middle Eastern Services. War Pensions are down by £6,607,000, the estimate for the Ministry of Agriculture is lower by £2,700,000, and that of the Ministry of Labour by £1,116,000. The increases, which are relatively small, are mainly on account of additional grants for educational purposes and scientific research. The only new item is a vote of £13,000 for the mission of the Prince of Wales to South Africa.

The Cost of Education.

Estimates in respect of Education, Science, and Art amount to £49,859,068, and show a net reduction on those for the current year of £35,090 only. Against decreases of £353,008 have to be set increases amounting to £317,958. For the ordinary services of the Board of

Education increases are required totalling £224,228, but the anticipated additional expenditure will be more than met by savings on account of the higher education of ex-Service men, for which £68,100 is taken, against £326,375 in the current year. The main increase is in respect of teachers' pensions, which are expected to cost £3,467,000, or £1,067,000 more than in 1923-24. It is explained that since the estimates for 1923-24 were prepared, the number of retirements of teachers has been abnormally large. Reasons for the abnormal increase have been (1) That retirements have been retarded in recent years, (2) reduction in staffs, corresponding to the reduction in the number of children, and (3) substitution of younger for older teachers from motives of economy. Grants in aid of scientific investigation have been increased in the case of the Medical Research Council by £10,000 to £140,000, and in the case of the National Library of Wales by £5,000 to £21,000. On the other hand, the vote for the Welsh National Museum is reduced by £5,000 to £15,000. New grants of £2,000 and £500 are included for the British Academy and the Royal Academy of Dramatic Art respectively. The increase in respect of the Department of Scientific and Industrial Research is accounted for mainly by larger grants to the Fuel Research Board, the Geological Survey, and the National Physical Laboratory.

Health, Insurance and Housing.

The Ministry of Health is estimated to cost £19,486,861, a net decrease on 1923-24 of £17,959. Increases under various heads amount to £835,031, and there are decreases under others totalling £852,990.

Housing grants at £8,050,000 show a reduction of £597,000. Maternity and Child Welfare £830,000 (£70,000 less). Tuberculosis Grants £1,380,000 (£30,000 more), Unemployment Schemes £1,400,000 (£299,990 more), Health Insurance shows Medical Benefit £1,860,000 (£284,400 more) and Disablement Benefit £3,520,000 (£20,000 more), Sanatoria Grants £20,000 (£117,000 less), Welfare of the Blind £95,000 (£5,000 more), and Venereal Disease grants £340,000 (£30,000 less).

Ministry of Labour

At £14,060,339 the estimate for the Ministry of Labour shows a net reduction of £2,126,666. Unemployment insurance accounts for £12,827,000 of the total, this figure being less by £215,000 than the estimate for the current financial year, and £209,477 is saved on salaries and allowances, which are expected to cost £3,327,204. For the training of ex-Service officers and men £1,383,573 is to be voted, a decrease of £1,617,854, and grants for the resettlement in civil life of ex-Service men are expected to absorb £165,000 against £229,000 in 1924-25.

THE FIGHTING SERVICES

The Estimates for the Fighting Services show a reduction of £6,700,000 from the 1923-4 total, made up as follows:—

Service	1923-4	1924-5
NAVY	£58,000,000	£55,800,000
ARMY	52,000,000	45,000,000
AIR	12,017,000	14,571,000

The Navy Estimates.

The Navy Estimates for 1924-5 show a decrease of £2,200,000 from the figure proposed for the year 1923-4. The provision for new construction is £17,512,454, the ships to be laid down being five light cruisers of the County class and two destroyers, while the light cruisers, *Eglington*, *Prother* and *Emerald*, the *Tallal* leader *Keppel* and *Brake* and five submarines are to be completed during the year. Work upon Singapore as a "great naval base" is stopped, but £200,000 is provided for storage accommodation for oil fuel at the "Clapham Junction" of the Empire. In explanation of the general trend of the Navy Estimates, the First Lord of the Admiralty (Viscount Chelmsford) states: "Estimates, in their main features, are dependent upon policy, and the Estimates now presented have in view simply the maintenance, with the strictest regard to economy, of the Navy at the accepted standard of strength and in a state of efficiency. They do not provide for any increase of that standard, nor for any new developments that could lead to the impression in any quarter that an increase of naval strength is our ultimate objective."

The Army Estimates

The Army Estimates show a net reduction for the year 1924-5 of £7,000,000, made up as follows.—

	1923-4	1924-5
Effective Charges ..	£40,804,000	£36,091,000
Non-Effective Charges	7,518,000	7,834,000
War Terminal Charges	3,588,000	1,075,000

£52,000,000 £45,000,000

The principal details for two years are as under:—

	1923-4	1924-5
Standing Army ..	£28,132,000	£24,209,000
Territorial and Reserve	7,200,000	7,033,000
Education, Hospitals		
and Depôts ..	7,416,000	6,778,000
War Office and Staffs ..	2,691,000	2,398,000
Half Pay, Retired Pay,		
and Pensions ..	7,518,000	7,834,000

The Air Estimates.

The Air Estimates show an increase for 1924-5 of £2,200,000, the Net Estimates being £14,511,000 against £12,011,000 in 1923-4.

The actual increase in normal expenditure is £2,240,000, the difference between this sum and the £2,500,000 shown above is accounted for by the decline in the provision for outstanding war liabilities from £525,000 in 1923-4 to £185,000 in the coming financial year. This effective increase of £2,240,000 is attributable to the progress of the approved expansion of the Air Force for home defence, to the increased requirements of Navy and Army co-operation, and to the necessity of replenishing war-time stocks of technical equipment.

In the general abstract of the estimates are given the following net figures under the various heads of expenditure.

Pay, &c., of the Air Force	£2,941,000
Quartering, Stores (except Technical),	
Supplies and Transport	1,452,000
Technical and Warlike Stores (in-	
cluding Experimental and Research	
Services)	5,700,000
Works, Buildings and Lands	2,127,000
Medical Services	195,000

Educational Services ..	£480,000
Auxiliary and Reserve Forces ..	284,000
Civil Aviation	355,000
Meteorological and Miscellaneous	
Effective Services	134,000
Air Ministry	710,000
Half-pay Pensions, and other Non-	
effective Services	133,000

Total £14,511,000

Increases aggregating £2,561,740 include the following. Technical and warlike stores (aero-planes, &c.), £1,832,700, works and buildings, £328,000, quartering stores and transport, £268,400; civil aviation, £68,000, Air Ministry, £62,000, auxiliary and reserve forces, £46,000; and pay, £31,740. Medical and meteorological services show small decreases. In the case of technical and warlike stores the provision made under the various heads compares as follows with the current year's votes

	1923-4	1924-5
Aeroplanes, Seaplanes,		
and Engines	£3 620,000	£3,144,500
Aircraft Establishment,		
Farnborough	35 500	40,000

Warlike Stores	66 800	94,500
Armament and Ammu-		
nition	253 000	328,000
Electrical Stores	143,500	204,000
Miscellaneous Research		
Miscellaneous Materials	219,500	264,500
Balloons and Hangars ..	160,500	258,000
Mech & other Transport		
Petrol and Oil	9,000	7,500
War Liabilities (rewards		
to inventors & miscell		
claims)	222,500	293,000
	385,500	396,000
	385,000	130,000

LOCAL GOVERNMENT FINANCES.

In addition to the State Revenue and Expenditure large amounts are received and expended by Local Authorities in Great Britain, the total receipts (including the State contribution) being nearly £500,000,000 annually. The total amounts received from direct and indirect taxation, and from other sources of receipt by Local Authorities in England and Wales for 1920-21, and in Scotland for 1919-20, are stated below. The gross rental of Rateable Hereditaments in England and Wales in 1920-21 was £301,727,787, the rateable value being £236,024,438.

Total Expenditure £437,608,435 £41,062,701

PAYMENTS TO LOCAL TAXATION ACCOUNTS.

In addition to the amounts raised by Local Authorities from the Rates, the sum of £13,662,631 was paid by the Exchequer to Local Taxation Accounts in the financial year 1923-24. The amount estimated to be payable in this way during the financial year 1924-25 is stated at £13,150,000 in the Budget (see p. 495), and in the six months ended Sept. 30 the sum of £4,487,891 had been so paid by the Exchequer.

In the financial year 1923-24 England and Wales received £1,107,260 in respect of Additional Beer and Spirit Duties, £1,804,903 in respect of Liquor and £235,406 in respect of Other Licences, £3,547,030 in relief of Rates, £370,925 in relief of Rates on Tithe Rent Charges, £2,822,272 under the Agricultural Rates Act and £60,000 for the cost of collection of Licence Duties, a total of £11,880,537.

Scotland received a total of £1,782,094, of which £540,316 was in relief of Rates, and £388,418 additional grants under the Agricultural Rates Act 1923.

^a In addition to the above mentioned sum there was a loan expenditure on Housing of the Working Classes of £52,209,823 in England and Wales in 1920-21, and of £794,559 in Scotland in 1919-20.

THE WAR BONUS.

In order to counteract the increase in the Cost of Living the Government introduced a *Bonus Scheme*, under which salaried Civil Servants and wage-earning Government employees receive temporary additions to their salary or wages. The scheme was applied, irrespective of age or sex, as from March 1, 1920, the limit of the addition in any case being £750 per annum. The Government Bonus Scheme has been adopted generally by Public Authorities, certain modifications being made in particular instances. The scheme formulated a basic rate of increase, producing a basic addition to salaries or wages, and this basic rate rises or falls *twenty-ninth* in response to every *point* rise or fall in the Index figure average of prices over a six months' period. The standard cost of living in March, 1920, was 130 per cent. in excess of that of July, 1914, and the scheme of increase agreed by the *Whitley Council* is as follows—

Where the ordinary rate of remuneration does not exceed 30s. per week—130 per cent. increase.

Where the ordinary rate of remuneration exceeds 35s. a week but does not exceed £200 per annum—130 per cent. on the first 35s. a week (£91 5s. per annum) and 60 per cent. on the excess over £91 5s.

Where the ordinary rate of remuneration exceeds £200 per annum—130 per cent. on the first £91 5s., 60 per cent. on the next £108 15s. and 45 per cent. on the amount in excess of £200 up to £500.

In addition to the reduction caused by the automatic decline of the cost of living figure the following decreases have been introduced—

10 per cent. on salaries from £500 to £700, 15 per cent. on salaries from £700 to £800, 20 per cent. on salaries from £800 to £900, and so on until 60 per cent. is reached in the case of salaries of £1,600 a year.

Details of the Bonus addition to Salaries and Wages, under the scale in force at various dates, are shown below.—

THE NATIONAL DEBT.

The National Debt was raised almost entirely for foreign wars. There was a trifling sum of £664,263 until the "Glorious Revolution" of 1688, which added nearly £16,000,000 to the Debt. Under Queen Anne the campaigns of the Duke of Marlborough added nearly £38,000,000, part of which was paid off in the time of George I. In the reign of George II. about £87,000,000 were added, but the first twelve years of George III saw £10,000,000 of this paid off. The American War added £121,000,000, making the total nearly £250,000,000, which was reduced considerably until 1793, when the repayments ceased owing to the outbreak of the French Revolutionary War. In twenty-three years, £601,500,343 were added to the debt for the purposes of the war, the following amounts being raised—

Year	£	Year	£	Year	£
1793...	4,877,956	1801...	27,305,271	1809...	12,298,375
1794...	6,928,369	1802...	14,638,254	1810...	7,792,444
1795...	30,464,831	1803...	8,752,761	1811...	19,143,953
1796...	22,244,982	1804...	14,570,763	1812...	24,790,697
1797...	30,356,873	1805...	16,649,801	1813...	39,649,222
1798...	16,858,503	1806...	13,035,344	1814...	34,563,603
1799...	21,714,863	1807...	10,432,934	1815...	20,241,807
1800...	23,030,520	1808...	12,095,044	1816...	514,059

The amount of the Debt in January, 1816, was £900,436,000 (Funded, £816,312,000; Unfunded, £44,727,000; Annuities, £39,397,000), the annual charge being nearly £33,000,000, but the following amounts were paid off from 1817-1837:—

Year	£	Year	£	Year	£
1817...	1,866,814	1824...	7,456,559	1831...	2,673,858
1818...	1,624,606	1825...	9,900,723	1832...	5,606
1819...	3,162,130	1826...	1,195,531	1833...	1,023,784
1820...	1,918,019	1827...	2,023,028	1834...	1,776,378
1821...	4,104,457	1828...	4,667,965	1835...	1,270,050
1822...	2,962,564	1829...	2,760,003	1836...	1,590,727
1823...	5,261,725	1830...	1,935,465	1837...	1,965,885

At the accession of Queen Victoria the amount stood at nearly £788,000,000, with an annual charge of £29,000,000. Small sums were paid off annually from 1837-1854, when the Russian War added £33,000,000 to the Debt. Repayments were made from 1858 onwards, with slight increases in 1868, 1875, 1878, 1879 and 1886, the following being the actual amounts paid off:—

Year	£	Year	£	Year	£
1858...	2,971,727	1872...	3,443,023	1886...	Nil
1859...	58,441	1873...	6,899,370	1887...	5,993,723
1860...	2,888,254	1874...	15,004,207	1888...	30,703,615
1861...	381,691	1875...	Nil	1889...	7,446,812
1862...	1,038,371	1876...	7,094,132	1890...	8,636,931
1863...	686,099	1877...	1,106,831	1891...	4,709,820
1864...	9,236,915	1878...	Nil	1892...	5,412,351
1865...	4,054,429	1879...	Nil	1893...	6,894,803
1866...	8,789,050	1880...	4,034,595	1894...	4,543,540
1867...	1,886,986	1881...	5,350,543	1895...	8,943,417
1868...	Nil	1882...	15,647,752	1896...	7,620,502
1869...	1,092,700	1883...	6,669,421	1897...	7,630,258
1870...	4,073,603	1884...	9,952,555	1898...	6,643,365
1871...	5,303,406	1885...	6,093,283	1899...	6,673,119

On March 31, 1899, the "Dead Weight" total was £625,070,635, being a decrease since 1837 of £153,000,000. For the South African and China wars £122,752,190 was raised, but from April 1, 1903, to March 31, 1914, the sum of £115,518,571 was paid off, and the total Debt on March 31, 1914, was £661,473,765.

In the financial year 1914-15, and in the five subsequent years, the Great War caused enormous increases, the aggregate of the National Debt standing at its highest point (£7,876,607,126) on March 31, 1920; while the cost of Interest and Management increased from £24,500,000 in 1914-15 to £349,598,616 in 1920-21.

Gross Total of the National Debt.

(1923 and 1924)

On March 31, 1923 and 1924, the aggregate National Debt consisted of the following totals—

	1923	1924
External Debt	£1,155,650,657	£1,125,813,339
Internal Debt	6,586,582,629	6,515,233,613
Other Liabilities	70,229,238	66,490,593
	£7,812,562,525	£7,707,537,545

Cost of the Debt.

(Financial Year 1923-24.)

Interest—	
On Funded Debt	£31,918,276
On Terminable Annuities	427,943
On Unfunded Debt	273,422,978

Total Interest	£305,769,197
Management and Expenses	1,539,551
New Sinking Fund (1923)	40,000,000

Total Cost £347,308,748

The Internal Debt.

The Internal Debt consists of the *Funded Debt* ("The Funds"), of the Capital Liability in respect of *Terminable Annuities*; and of the *Unfunded Debt*. On March 31, 1924, the Internal Debt amounted to—

Funded Debt—	
2½% Consols	£276,671,281
2½% Annuities	2,412,679
2½% Annuities	21,297,780
2½% Conversion Loan	666,230,869
To Banks of England & Ireland	13,645,869

Total Funded Debt .. £980,258,478

Terminable Annuities	£31,451,342
----------------------------	-------------

Unfunded Debt—	
Treasury Bills	£588,320,000
Ways and Means Credit	126,155,500
3½% War Stock	62,744,997
4½%	12,804,441
5%	2,100,286,367
4%	65,271,765
4% Funding	397,761,244
4% Victory Bonds	351,898,945
Exchequer Bonds	150,296,703
National War Bonds	820,084,030
Treasury Bonds	457,024,216
Savings Certificates	366,138,685

Other Debt

Total Unfunded Debt

Total Internal Debt

The total of the *Floating Debt* outstanding on March 31, 1923 and 1924 was as follows:—

Advances by Public Departments	1923.	1924
Treasury Bills Outstanding	£193,897,500	£186,155,500
	616,045,000	588,380,000
	£809,942,500	£774,475,500

showing a decrease of nearly £500,000,000 since March 31, 1921

Paper Money.

Currency Notes (Paper Money) in circulation on Nov 6, 1924, amounted to £86,047,035, an increase since Nov 5, 1923 of £5,141,300

The External Debt.

The Debt payable abroad was stated at the following totals on March 31, 1924 —

Due to	
United States.—	
Government Loan	£940,479,452
5½% Ten Year Bonds (1929) .	13,088,671
5½% Twenty Year Bonds (1937)	29,504,178
6% Railway Bonds (1927)	3,084,192
Other Outstanding	2,846
Total to U S A	£986,157,339
Straits Settlements —	
5½% Loan (1928)	3,341,000
5% Loan (1929) .	4,315,000
Total to S S	7,656,000
Allied Governments.—	
France	*53,500,000
Russia	*60,000,000
Italy	*18,500,000
	£1,125,813,339

* See "Estimated Assets" below

The Debt to U.S.A

The Debt Funding Commission fixed the total repayable at \$4,604,128,085, of which \$4,128,085 was to be repaid at once in cash and the balance funded at 3 per cent for 10 years and 3½ per cent thereafter, until redeemed by the operation of an accumulative sinking fund of ½ per cent in 6½ years. Interest is payable on June 15 and Dec 15 in each year at the rate of 3½ per cent for the first 10 years, and 4 per cent thereafter, to include the sinking fund

OTHER CAPITAL LIABILITIES

These sums are not included in the capital on which interest is arranged for in the permanent charge. They consist of various loans contracted for Telegraph and Telephone extension, for the purchase of land for Government offices, &c. On March 31, 1924, these liabilities stood at £66,490,593, a decrease of £3,838,645 from the total for the previous year, an amount of £5,749,422 having been created and £9,588,067 having been redeemed during the year

There are also sundry Contingent or Nominal Liabilities which the State is not likely to be called upon to any material extent to discharge. These liabilities consist of Unclaimed Dividends and unclaimed amounts due to suitors or to creditors of bankrupt estates.

Loans Guaranteed by British Government — The Nominal Net Liability of the State in respect of loans guaranteed by the British Government

was stated on March 31, 1924, to be as follows — Turkish Loan, £3,815,200 Egyptian Loan, £5,271,200, Greek Loan, £3,667,300; Mauritius Loan, £213,294; Transvaal Loan, £25,736,128 Sudan Loan, £9,630,000, Welsh Church Loan £2,350,000, Local Loans, £217,309,766; Irish Land Purchase Stock, £122,745,733; Ulster Savings Certificates, £1,121,280 and 24½ per cent of the Austrian Guaranteed Loan, secured on the gross receipts of Austrian Customs and Tobacco monopoly

Unrepaid Advances — Against these Guaranteed Loans may be set the amounts remaining unpaid on March 31, 1924, on account of Advances made by Great Britain to various Governments. The amounts so outstanding on March 31, 1924, were — Gold Coast, £121,118, Crete £40,000, Uganda, £255,687, Nyassaland, £962,000, Persia, £269,500, Albania, £1503, Nauru and Ocean Islands, £1,573,470, Tanganyika, £2,385,891 Somaliland, £204,000, and Kenya, £3,500,000

The Sinking Funds.

Reductions in the Debt are made by means of the *New Sinking Fund*, a term formerly applied to the fund set up by Sir Stafford Northcote in 1875, and consisting of the balance of the Annual Charge after providing for interest and cost of management, but now applied to the fund set up by Mr Stanley Baldwin in 1923, and amounting to £40,000,000, the National Debt being decreased by that amount annually, the *Old Sinking Fund*, which is the application of the surplus revenue of any year for the redemption of debt when so determined by Parliament, *Terminable Annuities*, the capital value of which is deducted from the Debt upon the expiration of the term for which the annuities are payable (£229,723 in 1923-24), *Victory Bonds Sinking Fund*, by means of which Victory Bonds drawn for repayment on Sept 1 of each year are discharged (£2,031,228 in 1923-24), *Funding Loan Sinking Fund*, £2,410,830 applied in cancellation of Debt in 1923-24 *Conversion Loan Sinking Fund*, £13,586,705 applied in purchase and cancellation of £17,387,614 in 1923-24, *Issues from the Consolidated Fund*, £1,399,383 applied in Debt reduction in 1923-24, *Depreciation Fund*, under the Finance Act of 1917, by which sums are issued by the Exchequer and applied for the purchase of various Government Stocks, &c (£10,241,821 in 1923-24), (£156,751,000 of 5% Stock and £2,243,000 of 4% Stock had been so purchased up to March 31, 1924), *Payments for Death Duties*, under section 3 of the War Loan Act, 1919 amounting at March 31, 1924, to £8,922,755 cash and £39,765,006 securities

Decrease of Liabilities

By the operation of the various Sinking Funds the following decreases were caused in the Gross Liabilities of the State during the financial year 1923-24. The Funded Debt, from £997,840,225 to £980,258,479, a decrease of £17,581,746 Terminable Annuities from £13,682,065 to £13,451,342, a decrease of £230,723, the Unfunded Debt from £6,760,875,218 to £6,686,913,532, a decrease of £73,961,686, a total decrease of £22,773,155, to which must be added £9,413,180 under Payments for Death Duties, and £3,838,645 decrease under Other Capital Liabilities, a total reduction of the Gross Liabilities of the State of £105,024,980 in the financial year 1923-24

Estimated Assets.

Against the External Debt of £1,125,813,339 owing on March 31, 1924, may be set the amounts owing to Great Britain by certain of the British Dominions, and by various Countries in Europe, and against the Internal Debt may be set certain other assets. The amount owed to Great Britain far exceeds the External Debt, and the total Assets have a nominal value of £2,281,087,266.

The amounts remaining unpaid of the Debts owing to Great Britain, and the estimated value of Investments made by the British Government in various Loans and Undertakings, are shown below (as on March 31, 1924) —

War Loans

Dominions —	
Australia	£89,270,922
New Zealand	29,188,938
South Africa	11,884,000
Newfoundland	400,000
Trinidad	469,626
Jamaica	66,055
Fiji	210,124
	£131,489,666
Allies —	
Russia	£722,545,712
France	623,278,933
Italy	553,300,000
Yugo-Slavia	28,481,182
Poland	95,083
Rumania	24,778,000
Portugal	21,544,300
Greece	23,354,507
Belgian Congo	3,550,300
	£2,000,928,017

Relief Loans.

Austria	£10,794,052
Poland	4,394,251
Yugo-Slavia	2,251,636
Rumania	2,195,822
Czecho-Slovakia	473,597
Estonia	251,000
Hungary	116,430
Armenia	104,441
Lithuania	16,811
	£20,598,041

Reconstruction Loan

Belgium	£9,000,000
---------	------------

Other Loans

Armenia (Stores, &c)	£864,828
----------------------	----------

Total	£2,162,880,552
-------	----------------

Other Assets

Miscellaneous	£111,575,100
Exchequer Balances	6,631,614

Total	£118,206,714
-------	--------------

Total Assets	£2,281,087,266
--------------	----------------

Included in the "Miscellaneous Assets" are Suez Canal Shares, valued at £22,416,737, and investments in various registered companies, the amounts paid for the shares being Anglo-Persian Oil Company, £3,200,000; Cunard Steamship Company, £2,600,000; British Dyestuffs Corporation, £1,700,000; British Cellulose and Chemical Mfg. Co., £1,450,000; Commercial Bank of Siberia, £1,198,372; Standard Shipbuilding Co. (E. Finch, Ltd.) and Chepstow Property Co., £656,250; British America Nickel

Corp. of Canada, £629,618; British Farina Mills, £325,000; Home-Grown Sugar Ltd., £187,500; Turkish Petroleum Company, £22,105.

Dividend Paying Assets.

An item in the Revenue Accounts is Interest on *Sundry Loans*, &c., £12,666,000. This is made up by interest on Suez Canal Shares, £878,203. Receipts in respect of Loans, £1,816,186, and by the following receipts —

Interest &c. on War Loans —**Dominions and Colonies —**

Canada	£ 653,662
Australia	4,457,948
New Zealand	1,453,056
South Africa	522,280
Newfoundland	20,562
Crown Colonies, &c	36,566
	£7,144,074

Allied Powers —

France	£1,853,698
Belgium	449,180
Greece	22,665
Rumania	401
Belgian Congo	194,408
Portugal	160
	£2,520,512

Interest on Relief Loans, &c —

Austria	£ 32,025
Estonia	15,060
Latvia	1,210
Rumania	158,885
Lithuania	1,009
Czecho-Slovakia	29,933
	£238,123

Reparations

In addition to the above mentioned assets, the British share of the capital obligations of the ex-enemy Powers on the existing basis as determined by Inter-Allied Agreements is twenty-nine milliard gold marks (£2,450,000,000), to which approximately 2,200,000,000 gold marks (£110,000,000) must be added in respect of reimbursement of the Belgian War Debt to Great Britain, the liability for which was transferred to Germany. These figures are subject to adjustment on the one hand on account of sums already received, and, on the other, in respect of interest in arrear, but these adjustments are not sufficiently important in amount appreciably to modify the total figures. Figures are not given separately for Austria, Hungary, and Bulgaria, which are included in the figures given above.

Debit and Credit Balances

The figures presented to the Reparations Commission, as balanced on March 21, 1922, were stated in *milliards of gold marks* as under —

Country	Credits	Debits	Balance	
			Credit	Debit
U.S.A.	48 7	nil	48 7	
Gt. Britain	67 2	19 8	47 4	
France	68 6	21 5	47 1	
Belgium	8 8	1 1	7 7	
Italy	12 2	17 9		5 7
Other States	8 5	9 3		0 8
Russia		19 2		19 2
Germany		5 3		5 3
German Reparations		119 9		119 9
Totals	214 0	214 0	150 9	150 9

What Germany has Paid Great Britain

The amounts Germany has paid by way of reparations, under the *Treaty of Versailles* from Nov. 11, 1918, to Dec. 31, 1923, are stated below —

	Gold Marks
Paid in cash	641,335,000
Paid in kind	677,000,000
Paid in property.	538,000

Total 1,318,882,000

Against these receipts Great Britain has expended in Coal Advances to Germany 93,871,000 gold marks, and the cost of the Army of Occupation amounted to 972,251,000 gold marks, a total of 1,066,122,000 gold marks, the balance (in sterling) representing a net payment to Great Britain of about £126,800,000.

German Payments to the Allies.

The amounts actually accruing to the several Treasuries over the same period to December 31, 1923, are approximately as follows —

Belgium	£722,955,000
Serbia	131,000,000
France	94,888,000
Japan	33,802,000

The total distributed by Germany up to the close of 1923 was 5,692,246,000 gold marks, and after deduction of all costs of occupation, coal disbursements, &c., the total amount cleared and divided among the Allies was 2,683,369,000 gold marks, or about £1,341,694,500 sterling

U.S. Loans to Foreign Governments

The following figures show the amounts due to the United States by the different foreign Governments on May 15, 1922. The figures include interest accrued and unpaid up to the last interest period, as well as the principal amounts —

Armenia	\$21,227,466	Italy	\$1,801,514,624
Austria	26,220,723	Latvia	5,582,206

Defaulting Debtors.

The Council of Foreign Bondholders reported in 1923 that a total of £1,782,544,201 of principal is owing by states which do not pay their debts, in addition to over £486,000,000 for interest due. The principal defaulter is Russia (£1,746,274,182), and included in the list are certain Southern States of the U.S.A. and certain cities of South America.

LOCAL GOVERNMENT DEBTS.

In addition to the *National Debt* there are considerable amounts outstanding as Loans of *Local Authorities* in England and Wales, Scotland and Ireland. These amounts were raised for the provision of baths, cemeteries, electricity supply, gasworks, harbours, piers, docks, canals and quays, light railways, markets, tramways, waterways and other purposes. On March 31,

1922, there were outstanding loans in England and Wales to the amount of £467,760,825, including £53,003,145 Metropolitan Water Board Stock and £29,099,457 of the Port of London Authority, against the total sum of £62,250,149 stood at the credit of various Sinking Funds. The total amount of outstanding loans and capitalized annuities in Scotland (on March 31, 1920 (was £62,250,149, and in Ireland (on March 31, 1919) £25,453,114

OLD AGE PENSIONS.

Rates of pensions under the *Old Age Pensions Act, 1908*, as amended in 1919 and 1924, to persons who have attained the age of 70 years:

(a) In the case of a claimant or pensioner who is one of a married couple living together in the same house—

Where the combined means of husband and wife (with £39 deducted from the means of each derived from any source except earnings) do not exceed—

£52 10s a year	10s
£52 10s to £63	8s
£63 to £73 10s	6s
£73 10s to £84	4s
£84 to £94 10s	2s
£94 10s to £99 15s	1s
Exceed £99 15s	No pension

If each is pensionable, each would receive above weekly pension

(b) In other cases—Where the yearly means (with £39 deducted) do not exceed

£26 5s	10s
£26 5s to £31 10s	8s
£31 10s to £36 15s	6s
£36 15s to £42	4s
£42 to £47 5s	2s
£47 5s to £49 17s 6d	1s
Where the yearly means exceed £49 17s 6d	No pension

Universal Old Age Pensions, to all over the age of 70, irrespective of means, were estimated to cost £41,000,000 in the Financial Year 1921-22; if granted at the age of 65 the estimated cost was £70,000,000. The cost of Old Age Pensions under the scale in force for 1923-24 was £23,400,000.

GREAT WAR PENSIONS.

THE rates of disability retired pay and pensions in respect of disablement due to service in the Great War are contained in the Royal Warrant of July 2, 1920, (*Officers and Nurses*), the Royal Warrant of December 6, 1919, (*N.C.O.'s and Men*), and the corresponding Orders in Council and Orders applicable to the *Royal Navy and Royal Marines* and the *Royal Air Force*.

DISABLEMENT

The disablement pension is at the outset generally a temporary award based on a Medical Board's assessment of disablement arising out of injury and disease attributable to or aggravated by war service. Such temporary award usually runs for a period of 12 months, and is from time to time reviewed until the case is ripe for consideration for a final award under the War Pensions Act, 1921 and the Regulations made thereunder. Under that authority a system of final awards has been brought into operation, the effect of which is to stabilise pensions, gradually to eliminate recurring medical examinations, and to bring about finality as to the amount of pension to be awarded. A man, on receiving notification that a final award has been made to him, has a right of appeal, subject to certain conditions, to an independent Assessment Appeal Tribunal, whose decision is final and binding on both the Ministry of Pensions and the appellant.

Disablement, for the purpose of pension, is assessed on a percentage scale. Total disablement is reckoned at 100 per cent., and the lowest degree entitling to pension is 20 per cent. Where the disablement is assessed at less than 100 per cent. the disablement pension and any allowances attached thereto are proportionately reduced. For instance, a man 50 per cent disabled would receive 50 per cent of the full rate of pension and 50 per cent of any allowances for wife and children to which he might be entitled.

Disablement assessed at less than 20 per cent is compensated by a gratuity or a final weekly allowance paid over a definite number of weeks, subject in either case to a maximum payment of £200.

RATES OF PENSION

The following are the principal rates of weekly pension for a private soldier: 100 per cent disabled, and of pensions or allowances for dependants of a private soldier (except in the case of wife and children's allowances, the rates for other ranks are higher) —

Private—40s., wife's allowance 10s., children's allowances—7s. 6d. for first child and 6s. for each other child, (if there is no wife, 10s. for the first, 7s. 6d. for the second, and 6s. for each other child).

Widow—over 40 or with children 26s. 8d., under forty and without children 20s.; allowances for children 10s., 7s. 6d., 6s.

Parents—need-pensions not exceeding 20s. Provision is also made for other dependants.

A totally disabled man who is certified to

require constant attendance may receive an additional allowance not exceeding 20s. a week.

Alternative Pensions

Alternative pensions are based upon the man's ascertained pre-War earnings. Application for alternative pension must be made within a year after the notification of the first award of disablement pension.

Treatment

The Ministry of Pensions provide courses of treatment for disabilities accepted as attributable to or still aggravated by service, and if in consequence of and during a course of treatment a man is unable to provide for his own support and that of his family, treatment allowances may be granted in lieu of pension and allowances.

NUMBER OF AWARDS

Officers and Nurses—From the beginning of the War to March 31, 1924, the following awards of retired pay were made to officers (Navy, Army and Air Force) and their relatives, and to Nurses —

Officers	59,305
Widows	11,407
Children	12,567
Other Dependants	7,993
Nurses	2,367

Mens Awards—The following awards were made to N.C.O.'s and men (Navy, Army and Air Force) and their dependants from the beginning of the War to March 31, 1924 —

<i>Navy</i> —Seamen and Marines	32,819
Children's Allowances	20,778
<i>Army and Air Force</i> —N.C.O.s and Men	1,231,769
Children's Allowances	994,264
<i>Widows</i> (Navy, Army and R.A.F.)	244,554
Children of Widows	394,432
<i>Motherless Children</i>	15,435
<i>Other Dependants</i>	409,112

PENSIONS AND ALLOWANCES IN PAYMENT
(on March 31, 1924)

The following pensions (approx.) were in payment as at March 31, 1924 —

Officers	26,100
Nurses	1,100
Officers' Widows	9,300
Children	8,400
Dependants	6,400
Men	551,000
Men's Widows	151,000
Motherless Children	18,000
Dependants	351,000

The following allowances were also in payment as at March 31, 1924 —

Men's Final Weekly Allowances	95,000
Allowances for Men's Wives and Children	698,000
Allowances for Children of Men's Widows	300,000

PRODUCTION AND INDUSTRY OF GREAT BRITAIN AND IRELAND.

Occupations of the People.

According to the Census Returns of 1911, the occupations of the people of Great Britain and Ireland (aged 10 and upwards) were as shown in the following tables.

1923	Slightly above average	42	2	100,929,623	11,718,465		

NOTE.—When the yield of wheat per acre differed from the average for the 30 years 1871-1921 by less than one tenth of a bushel, the year has been noted as "Average". When the difference was between 0.1 and 0.5 bushel, the year has been noted as "Slightly above or below Average", when between 0.5 and 1.5 bushels, as "Decidedly above Average" or "Deficient", when between 1.5 and 2.5 bushels, as "Good" or "Bad", when between 2.5 and 3.5 bushels, as "Very good" or "Very bad", and when above 3.5 bushels, as "Extremely good" or "Extremely bad".

Production per Acre

The production per acre of cereal crops, roots and hay in the year of the outbreak of the War, and in 1923, is shown in the following table

Crop		England and Wales		Scotland		Ireland	
		1914	1923	1914	1923	1914	1923
Wheat	Cwt.	18.1	17.5	23.6	21.8	20.5	17.6

(a) Exclusive of Allotments under the Small Holdings & Allotments Act, 1908, of which there were estimated to be 500,000 (1922) and 1,300,000 (1921) in England and Wales. (b) Classification for Ireland only.

Fisheries.

The quantities and values of the sea fish of British taking landed in Great Britain and Ireland in 1923 (exclusive of river salmon) are shown in the following table. The total catch was 51,000 tons less than in 1922, 221,000 tons less

than in 1920 (by far the largest since the outbreak of the War) and 347,000 tons less than the record catch of 1913. Representing the 1913 catch by 100, the catches during 1920-3 were respectively 90, 70, 75, and 71. The total value in 1923 was £672,000 less than in the previous year

Tonnage and Value of Fish Landed, 1923

The selling value (at the mines and quarries) of all minerals won in 1920 was £427,445,000. The total number of persons employed in 1922 at the 3,240 mines in work was 1,175,280, and 940,100 (males) were employed underground, and 229,131 males and 6,049 females above ground. In the 5,207 quarries, 67,489 persons were permanently employed, of these, 41,903 (males) worked inside the quarries and 25,586 (263 females) outside the quarries.

Accidents in Mines and Quarries.

In 1922 1,073 fatal accidents, causing 1,153 deaths, occurred in the mines and quarries of Great Britain. In coal mines the number of reported fatal accidents was 1,020, while the number of deaths resulting was 1,100.

The year 1923 was marked by two serious colliery accidents. The first was on July 28 at the *Malby Main Colliery*, near Rotherham. As a result of gob-fires the work of coal getting had been given up, but 130 men were below endeavouring to stop the fire when an explosion took place in a byway off the main haulage road. The men were in small parties working at different spots, and consequently the majority escaped, but 27 lives were lost despite the efforts of rescue parties. The second occurred in the early morning of Sept. 25. The *Redding* pit, about two miles from Falkirk, was flooded by an inrush of water from disused workings at a higher level. There were 75 men working in the pit at the time, and of these 10 escaped at the first inrush, 21 were rescued a few hours later from the shaft of another disused working, and three bodies were brought up. Strenuous efforts were made to reach the remaining men, and splendid heroism was displayed. Day after day this work was continued, and when hope had been all but abandoned, early on the morning of Oct. 4, five men were brought up alive after 214 hours' imprisonment.

The World's Coal Output.

The United States Geological Survey has estimated the total output of coal for the world in 1922 at 1,332,000,000 short tons (2,000 lb.).

Country	Metric Tons (2,204 lb.)	
	1921	1922
United States	448,600,000	417,000,000
Germany .		
Coal	145,400,000	141,000,000
Lignite .	120,000,000	137,000,000
Great Britain	166,992,000	256,000,000
France ..	29,000,000	25,000,000
Japan ..		25,000,000
Poland..		24,000,000
Belgium	21,807,160	21,000,000

Coal Production of Great Britain and Ireland.

Year	Persons employed	Output	
		Tons	Value
			£
1913 .	1,127,890	287,411,869	145,535,669
1914	1,133,746	265,664,393	132,596,853
1915	953,642	253,206,081	157,830,670
1916 .	998,063	256,348,351	200,014,626
1917 .	1,021,340	248,473,119	207,786,894
1918	1,008,867	227,748,654	238,240,760
1919 ..	1,191,313	229,779,517	314,113,160
1920	1,248,224	229,295,000	396,871,864
1921	1,126,000	163,250,897	213,745,652
1922 ..		250,808,763	219,997,568

In 1921 there was a stoppage of production for 88 days, ending in a settlement of the "Coal Dispute" on June 28, 1921.

Coal Exports

Admiralty shipments of coal (34,500,000 tons in 1928) are not included in these figures. Before the Great War of 1914-1918 the value of the coal consumed by the ships of the Royal Navy was about £2,500,000 annually. Oil has taken the place of coal in most of the recently built ships.

Year	Exported		Bunkered
	Tons	Value £	
1913 .	73,400,118	50,727,252	21,023,693
1917 .	37,800,705	52,341,487	10,228,000
1918 ..	34,173,847	52,416,983	8,756,000
1919 .	35,249,568	92,297,685	12,021,000
1920 ..	24,931,853	99,627,146	13,840,360
1921 .	24,060,552	42,951,591	10,926,444
1922 .	64,198,384	72,529,500	18,273,017
1923 ..	74,449,678	99,835,646	18,158,188

The average F O B value of the coal exported was 13s 8d per ton in 1913, 34s 10d. in 1921, 22s. 7d. in 1922, and 25s. 2d. in 1923. The countries to which coal was exported are shown in the table at the top of the next column, the figures representing "long" tons of 2,240 lb., in the calendar years 1913, 1921 and 1922.

Iron Ore.

The production and importation of iron ore are as shown below. Values are not shown, as that of iron ore produced in Great Britain is taken at the place of production, while the value of imported ore is enhanced by transport and handling to the port of entry. The value of the iron ore produced in Great Britain in 1922 is stated at £2,393,683; that of the imported ore at £4,283,789.

Year	Tons Produced	Tons Imported
1913	15,997,000	7,441,000
1919 ..	12,254,195	5,200,696
1920 ..	12,707,000	6,501,000
1921 ..	3,477,925	1,687,872
1922	6,867,872	3,472,642

Pig Iron and Steel.

The quantity of pig iron and steel ingots and castings made is shown below. In 1905 the quantity of coal used in the manufacture of pig iron was 19,255,555 tons, in 1922 the quantity was 948,000 tons of coal and 5,819,000 tons of coke. In 1905 there were 345 blast furnaces at work, and in 1923 they numbered 200.

	1922	1923
Pig Iron (tons)	4,902,300	7,438,500
Steel Ingots and castings (tons)	5,880,600	8,488,900

Joint Stock Companies.

On Dec. 31, 1922, there were registered in Great Britain 84,104 Joint Stock Companies, with a total paid up capital of £4,180,785,838, the number of companies registered during 1922 was 8,495 with share capital £131,729,895.

Building Societies.

In 1922 there were 1,136 Incorporated Building Societies in Great Britain, with liabilities on shares £77,271,574, and to depositors, &c., £20,244,361, a total liability of £97,515,935, the assets consisted of mortgage securities, £80,702,228, and other assets, £22,561,086, showing a balance of undivided profits and reserve funds of £5,747,379, there were also 43 unincorporated societies in England and 1 in Scotland.

Trade Union Membership.

The International Labour Office stated in March, 1921, that the number of Trade Unionists in the twenty leading countries of the world was 32,680,000 at the end of 1920, Germany having the largest number (9,000,000), and Great Britain and Ireland 8,024,000, the smallest number being 20,000 in Serbia.

Returns for 1920 furnished to the Registrar of Friendly Societies relating to 602 Trade Unions in Great Britain and Ireland show that at the end of the year the total membership was 7,021,721, an increase in twelve months of over 400,000. The aggregate income of the Unions was £12,962,538 (against £9,723,255 in 1919) At the end of 1920 the funds amounted to £15,989,025.

Industrial and Provident Societies

In 1922 there were 2,467 Societies in Great Britain making returns to the Registrar of Friendly Societies, with 4,671,592 members, share capital, £23,365,751, liabilities, £7,865,083, and sales to the value of £72,289,997.

Co-Operators' Profits.

The half-yearly balance-sheet of the Co-operative Wholesale Society submitted to the business meetings in October, 1922, shows sales of £32,000,000. During the half-year the supplies from the various productive works were just over £10,000,000. After providing for all the expenses of production and distribution and £994,634 for interest on capital and depreciation of property, there is a net profit of £23,521.

Bankruptcy Statistics.

Eloquent testimony to the severity of the trade depression is provided by the report for 1922 of the Inspector-General in Bankruptcy. The previous year established a record alike in the number of failures and the amount of liabilities, the latter far exceeding the figures pertaining to any year since the Act of 1883 became operative. But the record of 1921 was eclipsed in 1922, the number of insolvencies rising from 4,840 to 6,580, and the liabilities from £21,887,000 to £24,919,000. What was the actual ultimate loss to creditors is not disclosed, but even on the debtors' own estimate it was approximately £17,400,000.

How the volume of insolvency has expanded since the end of the war when failures were at a minimum, is shown in the following table, giving the figures for the last ten years —

	Cases	Liabilities	Assets
1913	5,769	£7,857,104	£3,303,382
1914	4,643	9,878,188	3,792,206
1915	4,031	5,795,575	2,132,857
1916	2,607	4,197,008	1,756,993
1917 ...	1,701	2,959,676	1,759,272
1918 ...	826	1,321,355	1,057,879
1919	910	2,373,798	949,691
1920	2,016	6,853,308	3,048,993
1921	4,840	21,887,373	3,898,253
1922	6,580	24,918,995	7,503,086

As regards occupations, the list for 1922, as for 1921, is headed by farmers, of whom 403 were made bankrupt, with aggregate liabilities of £768,144, against £826,792 in 1921. Next come grocers (361), drapers (270), publicans (233), miscellaneous clothing trades (205), boot and shoe makers (203), miscellaneous metal workers (194), confectioners (176), tailors (160), green grocers (156), builders (134), general merchants (124), general provision dealers (108), carriers (107), bakers (106), coal merchants (104), fishmongers (103).

Unemployment Statistics.

The live registers of the employment changes in Great Britain contained the highest figures for unemployment on June 3, 1921, subsequent figures being appended for comparison —

	June 3 1921	June 4, 1923	Oct. 25, 1923	Sept. 22, 1924
Men	1,682,449	935,480	959,190	887,866
Boys	102,116	38,102	43,557	38,184
Women	695,952	213,554	253,480	220,034
Girls	99,912	33,258	40,555	34,206
Total	2,580,429	1,220,394	1,266,782	1,180,290

Cost of Unemployment.

Schemes to the value of approximately £466,000,000 undertaken in connexion with the relief of unemployment have been, or are being, assisted by the Exchequer. This total includes

the cost of the post-war resettlement of members of his Majesty's Forces, and is distributed as follows —

	Million £
Training, &c.	103
Unemployment insurance	195
Unemployment Grants Committee	74
Ministry of Transport	70½
Land settlement	20½
Women's training, &c.	1
Miscellaneous	2½

Contributions towards this sum by the Exchequer will, it is estimated, reach £189,250,000 by the end of the financial year 1924-25, while the additional future Exchequer liability under schemes already approved amounts to £89,250,000 (including £53,250,000 guarantees under Trade Facilities Guaranteed Schemes). A further Exchequer liability of £16,750,000 is involved by schemes which the Government has offered to assist if undertaken.

Unemployment Insurance

The actual expenditure upon unemployment insurance since the Armistice, including appropriations for administration and refunds, came to £192,703,000 (up to Sept. 27, 1924), and the income was derived from the following sources, in the proportions indicated —

Contributions —

Employers	£65,426,000
Employed	59,466,000
Exchequer	43,096,000
Exchequer (ex-Servicemen)	2,935,000
Interest (net)	949,000
Balance of old fund at Armistice	15,534,000
Loans from Treasury (net)	4,810,000
Miscellaneous	487,000
	<u>£192,703,000</u>

Unemployment and Emigration.

The following table shows the occupation of Emigrants of British birth in 1923 —

Occupations	Emigrants 1922	1923
Agricultural	12,937	26,223

Workmen's Compensation.

The figures for the four years following the Armistice compare as follows with those for 1913—

Year	Cases.		Compensation.	
	Fatal.	Non-fatal.	Fatal.	Non fatal.
			£	£
1913	3,748	476,920	595,012	2,766,638
1919	3,493	365,176	687,477	3,929,246
1920	3,531	381,986	755,657	5,222,352
1921	2,385	283,361	518,064	4,991,331
1922	2,489	390,423	546,889	5,948,839

In the seven groups of industries the aggregate number of workers employed in 1922 was 7,205,609, compared with 7,315,866 in 1921, 8,348,120 in 1920, and 7,509,323 in the pre-war year. In 1922 the average payment in case of death was £220, against £217 in 1920, and £161 in 1914. In case of disablement the average amount (including cases settled by payment of a lump sum) was £125 5s against £6 7s in 1914. In 1922 the average amount paid in lump sums was £65 3s, as against £73 in 1921, while the average amount in the weekly payment cases was £12 9s, as compared with £13 18s in 1921,

and £4 17s in 1914. The figures given above represent only the actual amount paid to workmen or their dependents, and not the total charge on the industries in respect of compensation. Adding the legal, medical, administrative, and other expenses, the aggregate outlay in respect of the 398,912 cases in 1922 can hardly have been less than £8,500,000. For a total of 448,116 cases in 1924 the estimate was £5,000,000. Taking the seven groups of industries together, the annual charge for compensation averaged 18s per person employed, compared with 9s 9d in 1914. Below are the figures for the various groups—

Group	Number employed	Total paid	Charge per employee
		£	s d
Shipping ...	216,281	180,918	16 9
Factories ...	5,119,388	2,241,336	8 9
Docks	122,030	224,683	36 10
Mines	1,122,511	3,424,604	61 0
Quarries	62,781	71,595	22 10
Constructional work	93,183	88,148	18 11
Railways ...	469,535	264,444	11 3
Totals	7,205,609	6,495,728	18 0

SHAKESPEARE AND STRATFORD-ON-AVON.

OVER 200,000 visitors, from all climes and countries, yearly visit Stratford-on-Avon. High street still appears mediæval, and many oak-timbered houses attest the town's great age and dignity.

Shakespeare's Birthplace (April 23, 1564), at Stratford-on-Avon, has been for over 200 years the goal of pilgrims. It was bought for £3,100 in 1847 and given to the nation (Restored in 1857.) Managed by 26 Trustees (16 *ex-officio*). Holds library of rare editions, pictures, and relics. In the garden are many trees and plants named by the poet.

Clopton Bridge, built of stone, on 19 arches, about 1490 by Sir Hugh Clopton, Stratford native, and Lord Mayor of London.

Guild Chapel and Guildhall—Built A.D. 1296. In the old hall young Shakespeare could witness strolling companies performing (mentioned in Records). In chapel were discovered beneath whitewash, 1804, mural allegorical paintings, done by mediæval priests.

Hall's Croft—Unaltered old-timbered residence of Susanna, poet's daughter, wife of Dr John Hall, churchwarden and poet's executor.

Harvard House—Built 1506 by Alderman Thomas Rogers, whose descendant (John Harvard) founded Harvard University, U.S.A.

Hathaway Cottage—At Shottery, one mile from Stratford, is the little thatched farmstead, the undisturbed birthplace of Anne Shakespeare, poet's wife, who bore him three children: Susanna, Hamnet, and Judith. Contains curious Tudor and Jacobean furniture. National property, controlled by Birthplace Trustees.

King Edward VI. School—Founded by Thomas Jollyffe, priest, in Henry VI. reign, incorporated by Edward VI. Here Shakespeare acquired his "little Latin, less Greek," and matchless English.

The Shakespeare Memorial—Mainly due to munificence of C. E. Flower (1830-92) and his wife. Group comprises *Library*, with 10,000 volumes of Shakespeare editions and ana, including rare Wm. Jaggard collection. *Gallery* of pictures (including unique "Droeshout" portrait). *Museum* of antiques and relics (including Irving collection). *Lecture rooms*. *Tower*, affording views of 50 miles. *Gardens*, and *Statuary* (Lord Ronald Gower's gift). *Theatre* (800 seats) holding recurring festivals of the poet's dramas with varying programme daily. Recently nine different plays were given in six days. Special celebrations and performances, with floral procession to tomb, mark the birthday, April 23, each year.

New Place—Site of the poet's retirement. Shakespeare bought this estate in 1597, retired to it about 1610, died there April 23, 1616. House was rebuilt about 1700, and demolished by Francis Gastrell, the iconoclast, 1759.

The Cage.—For 36 years the home of Judith, poet's younger daughter, who married Thomas Quiney, vintner.

Town Hall—Erected 1633, rebuilt 1768. Contains details of the unbroken sequence of Bailiffs and Mayors since A.D. 1292 (including the poet's father, John Shakespeare). Exhibits Gainsborough portrait of Garrick; four Corporation Maces, gilt silver of 15-16th Century, and ancient Corporate Sword.

Trinity Church.—Dates from A.D. 625. Of cathedral-like proportions. Shelters remains of poet and family.

EXTERNAL TRADE (MERCHANDISE).

IN statistics of Trade, the term GENERAL TRADE refers to the whole volume of Imports (including such as are temporarily detained and afterwards exported), and to the whole volume of Exports. The term SPECIAL TRADE includes only Imports for consumption in the country receiving them, and Exports of home produce or manufacture. Imports are taken at their C I F value (which includes the Cost of the merchandise

and the charges for Insurance and Freight), whereas Exports are taken at their F O B (free on board) value, which includes only the Cost of the merchandise delivered to the exporting ship. Exports have an added value by the time they reach their destination, having become loaded en route with Insurance and Freight. They leave the country of origin with an F O B value and arrive with an acquired C I F value.

BRITISH OVERSEAS TRADE IN 1923-4

In the twelve months, July 1, 1923, to June 30, 1924, the *Total Imports* into Great Britain and Northern Ireland were valued at £1,157,657,000, and the *Special Exports* (home produce or manufacture) at £772,125,000. Of the *Special Imports* (retained for consumption), £291,569,000 (or 25 per cent of the whole) came from the British Empire and £84,665,000 (or 73 per cent of the whole) came from foreign countries; while *Special Exports*, valued at £271,000,000 (or 37 per cent) were taken by the British Empire and £463,257,000 (62 per cent) by foreign countries.

DISTRIBUTION OF TRADE.

The British Trade of 1923-4 was distributed geographically as follows—

CONTINENT	Imports from	Exports to
Europe	33 42	34 02
Asia	13 31	24 29
Africa	8 07	10 26

VOLUME OF BRITISH TRADE

The quarterly analysis of the volume and value of our overseas trade made by the *Board of Trade Journal*, shows that in the first quarter of 1924 changes in prices in comparison with the first quarter of 1923 were comparatively small. The average values of imports were higher this year than last by 2.6 per cent., for British exports average values were lower by 2.3 per cent., and for re-exports higher by 2.2 per cent. After making allowance for the separation of the Irish Free State figures, the imports of the first quarter of 1924 appear to have been greater in volume than those of the first quarter of 1923 by about 4 per cent., the exports of British goods showed but a negligible change in volume, while re-exports increased by about 25 per cent. Net imports showed an expansion in volume of less than 2 per cent.

In relation to 1923 imports from April, 1923 to March, 1924 are less in volume than in 1923 by about 2.5 per cent. The adjustment in respect to Ireland would add about 3.5 per cent. to this figure. The exports are shown as reduced by 22 per cent. from the 1923 volume, and this figure also would need to be increased by about 3.5 per cent. For re-exports the reduction shown from the volume of 1923 trade, which is about 6 per cent., would need to be doubled in order to allow for the change in respect of Ireland.

BALANCE OF BRITISH TRADE.

The Board of Trade estimate of invisible exports for 1923, makes the figure £97,000,000 for 1923. This compares with £155,000,000 in 1922 and £181,000,000 in 1921. Total invisible exports for 1923 are put at £300,000,000, which compares with £325,000,000 (1922), £505,000,000 (1921), and £339,000,000 (1913). As compared with 1922, the net income from Overseas investments is reduced from £175,000,000 to £150,000,000, while there is no change in net national shipping income at £110,000,000, in commissions at £30,000,000, and other services at £10,000,000.

The new Overseas issues on the London market in 1923 are given as £136,000,000, but it is suggested that probably the whole of the Overseas issues was not taken up by British investors, on the other hand, at some periods of the year there was considerable purchasing of American and other securities on British account, though it cannot be said whether this was for permanent or temporary investment. The balance available for Overseas investment includes the amount actually invested, and sales to Overseas countries on long credit outstanding at the end of the year, so far as such credits exceed the corresponding amounts of a year earlier.

It is estimated by the *Board of Trade Journal* that, as the result of our overseas trading and other international transactions in 1923, there was a surplus available for investment of approximately £97,000,000. What is known as the adverse balance of trade—excess of imports over exports—amounted to £203,000,000. But

against this have to be set our "invisible" exports, consisting of income from overseas investments, shipping freights, commissions, &c., which accounted for £300,000,000. The details are:—

	Million £
Net income from Overseas Investments	150
Net National Shipping income	110
Commissions	30
Other services	10
Total "invisible" exports	300
Excess of imports	203
Surplus available for investment	97

The actual income from investments is estimated at £200,000,000, but from this has to be deducted the £50,000,000 paid on the U.S. debt.

TRADE OF THE NATIONS 1924.

Imports during the first three months of 1924, the figures for the United Kingdom, France, Germany, the Netherlands, and Italy, representing *Special Imports*, i.e. Imports retained for home consumption:—

United Kingdom	£262,450,000
United States	221,345,000
France	108,804,000
Germany	108,765,000
Canada	48,845,000
Netherlands	47,826,000
British India (by sea)	43,884,000
Italy	42,833,000
Australia	36,746,000
Irish Free State	15,949,000

The *Special exports*, i.e. Exports of home produce or manufacture, for the principal countries and Dominions, during the first three months of 1924, were as follow:—

United States	£251,802,000
United Kingdom	193,313,000
France	126,769,000
British India (by sea)	78,639,000
Germany	74,607,000
Canada	51,932,000
Australia	39,940,000
Netherlands	32,524,000
Italy	31,828,000
Irish Free State	10,665,000

International Trade Balances.

Statistics of world trade prepared by the *Index* (the organ of the New York Trust Company) show that five leading countries have now reached the pre-war stage as regards the trade balance. The value figures, with the exception of Germany are much higher than in 1913, but the following table shows that in 1922 Great Britain, France, Denmark, Sweden, and Japan had practically achieved pre-war balance:—

Country	Percentage of Exports to Total Trade	1913	1922
Brazil	49.4	58.3	3
Canada	35.6	54.1	7
Denmark	43.8	44.7	1
France	44.9	45.3	0
Germany	48.4	39.0	9
Great Britain	45.2	45.0	0
Italy	60.4	53.9	6
Japan	40.8	37.4	4
Sweden	46.4	45.3	0
U.S.A.	48.9	50.0	1
	58.1	55.1	1

Imported Foodstuffs.

The value of certain Imported Foodstuffs in 1913 and 1923 is shown below:—

	1913.	1923
Butter	£24,084,000	£44,234,534
Cheese	7,035,000	15,260,707
Eggs, in shell	9,591,000	13,816,896
Bacon	17,429,000	38,178,235
Hams	3,068,000	8,358,278
Lard	8,077,000	7,830,004
Fruit, fresh	9,844,000	31,578,054

In comparing the values of the imports of 1923 with those of 1913 the higher level of prices in 1923 must be taken into account. The imports in 1923 of the articles specified represent a value approximately 70 per cent. greater than if those imports had been returned at the same average values as in 1913, so that the aggregate increase in the volume of these goods imported was about 3 per cent. The increase of the population of the United Kingdom during the same period was about 4 per cent.

LONDON'S MEAT SUPPLIES, 1924.

The supply of meat and like produce to the London Central Markets during the ten months ended October, 1924, aggregated 401,369 tons as against 386,077 tons during the same period in 1923, an increase of 15,292 tons, or 4.0 per cent. Imported supplies, apart from produce originating in Ireland, formed 78.9 per cent. of the total quantity of produce marketed. British and Irish supplies aggregated 84,834 tons, or 21.1 per cent. of the total supply, New Zealand and Australia 78,436 tons, or 19.6 per cent., South America 193,068 tons, or 48.1 per cent., Netherlands and other Foreign Countries 45,031 tons, or 11.2 per cent.

Beef and Veal, 223,462 tons—83.2 per cent. imported. South America leading with 109,500 tons, or 75.8 per cent., Britain and Ireland 37,556 tons, or 16.8 per cent., New Zealand and Australia 5,734 tons, or 2.6 per cent., and other countries 10,663 tons, or 4.8 per cent.

Mutton and Lamb, 115,624 tons—83.6 per cent. imported. New Zealand and Australia leading with 69,394 tons, or 60.0 per cent.; South America 22,793 tons, or 19.7 per cent.; Britain and Ireland 19,058 tons, or 16.5 per cent.; and other countries, 4,379 tons, or 3.8 per cent.

Pork, 38,723 tons—62.2 per cent. imported. Netherlands leading with 20,430 tons, or 52.8 per cent., and Britain and Ireland 14,649 tons, or 37.8 per cent., and other countries 3,644 tons, or 9.4 per cent.

Poultry and Game, 12,704 tons—27.1 per cent. imported. Britain and Ireland leading with 9,255 tons, or 72.9 per cent.; and other countries 3,449 tons, or 27.1 per cent.

Miscellaneous Goods, 10,856 tons—60.2 per cent. imported. Other countries leading with 6,540 tons, or 60.2 per cent.; and Britain and Ireland 4,316 tons, or 39.8 per cent.

London's Theatres.—A tablet has been affixed by the L.C.C. on 88 Curtain Road, Shoreditch, to commemorate the site of "The Theatre", Shoreditch, the first theatre in London. In 1591 there were 45 theatres in London, with seating accommodation for 53,341 persons; 38 music halls and variety theatres, with accommodation for 56,401 persons; and 790 other places licensed for public entertainments.

COMMUNICATIONS.

Roads.

The total mileage of public roads in Great Britain is approximately 178,000 miles, of which 153,000 are in England and Wales, and 25,000 in Scotland. The cost of maintenance in 1914-15 was £19,051,000, and in 1921-2 about £45,500,000. The roads of Great Britain have been classified by the Ministry of Transport, and out of the total mileage of 178,000, 24,048 miles have been included in Class I and 14,638 miles in Class II.

The maintenance and repair of bridges and main roads is within the jurisdiction of the County authorities, other roads being maintained by Borough, Urban and Rural Councils. The motor licence duties (referred to below) are paid into a special *Road Fund* which is administered by the Minister of Transport. Grants are made from the Road Fund to highway authorities towards the cost of maintenance and improvement of roads and bridges. During the year 1923-24 the grants from the Road Fund amounted to £17,440,000. The bulk of this money was directed to assisting highway authorities in the maintenance and improvement of Class I and Class II roads, and in the construction of new and important arterial roads expedited for the relief of unemployment.

Road Taxes

The total receipts from the taxation of road vehicles between Dec 1, 1922, and Nov 30, 1923, amounted to £13,313,334. The aggregate number of motor licences issued during this period was 1,066,000, while licences in respect of private and hackney horse-drawn carriages numbered 235,083. The average receipt in respect of a whole year licence was £16 18s 6d for cars taxed on horse-power, £2 11s 6d for motor bicycles, £21 7s for commercial goods vehicles, and £25 11s 6d for motor cabs.

	No of Licences	Tax Receipts £
Motor cars	382,538	5,875,488
Motor-cycles	391,087	1,087,215
Commercial vehicles	181,235	3,703,033
Road locomotives	1,082	54,087
Motor ploughs, &c	17,018	1,480
Motor tractors, &c	1,480	24,254
Motor cabs	78,358	1,914,659
Tramcars	14,147	10,608
Horse-drawn carriages	82,517	142,543
Horse-drawn cabs	32,566	24,412

Motor Vehicles in the World.

The National Automobile Chamber of Commerce (New York) estimates the number of Motor Vehicles (Passenger Cars) (1924).—

United States	13,464,608
Canada	554,874
United Kingdom	469,490
France	352,259
Australia	109,157
Germany	100,329
Argentina	85,000
Italy	45,000
New Zealand	44,864
India	44,843
All other Countries	577,398

Total..... 15,847,824

When population was taken into account, there were 7 persons per car in the U.S., 13 in Canada, 74 in the U.K., 93 in France, 44 in Australia, 453 in Germany, 99 in Argentina, 490 in Italy, 27 in New Zealand, and 6,490 in India.

In 1923 the exports of "automotives" were valued at \$189,737,018 for 151,866 motor vehicles, and from Canada \$43,688,448 for 69,920 vehicles.

Railways.

On Jan 1, 1923, the Railways of Great Britain were amalgamated into four groups, composed as under—

The Southern Railway (2,129 miles), consisting of the L & S W, S E & C, and L B & S C lines, employing 70,479 persons in 1923.

The Great Western Railway (3,765 miles), consisting of the G W, and the Barry, Rhymney, and Taff Vale lines, employing 109,376 persons in 1923.

The London, Midland & Scottish Railway (7,464 miles), consisting of the L & N W, Midland, Furness, Glasgow & S W, Highland, North London, and North Staffordshire lines, employing 268,835 persons in 1923.

The London & North Eastern Railway (6,464 miles), consisting of the G E, N E Great Central, G N, North British, and G N of Scotland lines, employing 202,232 persons in 1923.

The combined mileage of these four groups in 1923, was 20,314 miles, with a track mileage of 26,849 miles without (and of 51,828 miles with) sidings; the total capital involved is about £1,060,000,000. Ireland had 3,442 miles of railway open on Dec 31, 1920, with capital of £45,500,000.

In addition to the above lines the *London Electric Lines* employed 6,170 persons, the *Metropolitan*, 4,001, and the *Metropolitan District*, 4,080 persons, in 1923.

At March 29, 1924, the total number of railway workers in Great Britain was 700,573, an increase on the figure for the corresponding date in 1923 of 18,795 or 2.8 per cent. A return issued by the Minister of Transport shows that the numbers employed by the four new groups and the London railways compared as follows—

Year	Males		Females	
	Adults	Juniors	Adults	Juniors
1921	665,133	43,322	26,205	1,200
1922	613,094	40,268	24,462	978
1923	615,267	43,616	21,754	1,141
1924	631,149	45,554	22,332	1,538

Railway Accidents

743 persons were killed and 23,240 injured on the railways of Great Britain in 1923. Both figures represent an increase on the totals for 1922, which were 722 and 19,462 respectively.

	Killed	Injured
Passengers	78	3,438
Railwaymen	248	19,063
Other persons	417	739

Total..... 743 23,240

3 passengers lost their lives in accidents to trains, whilst 449 suffered injuries, 24 were killed and 799 injured by falling between trains and platforms, or on to ballast, platforms, &c., when attempting to enter or alight from trains, 7 were killed and 10 injured by falling off platforms and being struck or run over by trains, 6 were killed and 8 injured when crossing lines at stations, 25 were killed and 39 injured by falling out of carriages during the running of trains, and 4 were killed and 313 injured by other accidents 1,093 passengers were injured by the closing of carriage doors. The high proportion of deaths under "other persons" is due to the fact that this includes 137 trespassers who lost their lives, and 185 suicides.

Canals.

There are 4,673 miles of canals and canalised rivers in Great Britain and Ireland (England and Wales, 3,641 miles, Ireland, 848 miles, Scotland, 184 miles), no additions to the mileage having been made for several years. In 1905 the inland waterways carried 43,161,927 tons of merchandise, the revenue being £3,680,770 and expenditure £1,891,213. In 1921 the tonnage returns from 2,879 miles of canals were 11,893,000 tons. Of the total mileage 1,363 miles were (1905) owned or controlled by railway companies (the longest systems being the Shropshire Union, 202 miles, Grand Junction, 189 miles, Birmingham, 159 miles, and Leeds and Liverpool, 145 miles). The total paid-up capital of all the canals was (1905) £47,550,768. The existing system is at its greatest development in the midland counties of England, and in Lancashire and Yorkshire. A Royal Commission, appointed in 1906, reported, in 1909, in favour of a development scheme under an *Inland Waterway Board*, to improve the existing system. Their principal proposal was the formation of four main routes (from a centre in South Staffordshire) to the Thames (London), the Mersey (Liverpool), the Humber (Hull), and the Severn (Gloucester), the proposed routes to accommodate barges up to 100 tons. The *Manchester Ship Canal*, opened in 1894, has a total length of 36 miles, and connects Manchester with the Mersey port of Liverpool, in 1913 the tonnage carried through the canal was 5,760,161 tons, and in 1923 the tonnage of toll-paying traffic was 5,363,940 tons, and the tolls, dues, &c., £1,384,743.

Tramways.

The total mileage of tramways and light railways open in Great Britain on Dec 31, 1922, was 2,579. The total receipts in 1922 were £32,523,000, the working expenses £26,835,000, and the net receipts £5,688,000, the total paid-up capital being £86,095,000. 4,256,269,000 passengers were carried. In addition there were 21 miles of "trackless trolley" routes.

Mercantile Shipping.

On June 30, 1922, the Mercantile Marine of Great Britain and Ireland consisted of 8,430 steam and motor vessels (19,088,638 tons) and 419 sailing vessels (200,999 tons), a total of 8,849 vessels (19,295,637 tons). In 1921 the "engagements of seamen" for service on ocean-going ships numbered 422,445, as against 604,830 in 1923, the percentage of British subjects being 94.45, of foreigners other than Asiatics 3.05, of Chinese 0.6, and of other Asiatics and Africans 1.0.

Shipbuilding.—The output of the various countries of the world in 1923 was 701 vessels of

1,643,181 tons, the British share being 179 steamers (of 553,223 tons, 21 motor vessels of 87,244 tons and 22 barges of 5,184 tons, a total of 222 vessels of 645,651 tons. The Clyde output was 173,201 tons, Tyne 137,408 tons, Belfast 127,426 tons, Tees 66,573 tons, and Wear 51,561 tons.

Wrecks.—In 1913 140 sailing vessels (23,082 net tons) and 108 steam vessels (103,824 net tons), a total of 248 vessels (126,906 net tons) were totally lost at sea. In 1922 the figures were 41 sailing vessels (2,828 gross tons) and 129 steam vessels (111,205 gross tons), a total of 170 vessels (114,033 gross tons). In 1913 the passengers lost by wrecks numbered 172 and members of crews 466, a total of 638 lives, in 1922 the passengers numbered 15 and the members of crews 382, a total of 403 lives. The years with the heaviest losses of life at sea were 1912 and 1914. In 1912 the total of 2,335 included 673 of the crew and 825 passengers on *S S Titanic*, in 1914 the total of 1,778 included 171 of the crew and 840 passengers on *S S Empress of Ireland*.

Ocean Shipping in British Ports.

Total net tonnage of British and Foreign sailing and steam vessels entered and cleared (with cargoes in ballast) at all ports in Great Britain and Ireland—

Year	Entered	Cleared	Total.
1913	82,128,569	82,661,022	164,809,591
1919	49,652,399	49,101,023	98,753,322
1920	55,717,823	57,342,701	113,060,524

Coastwise Shipping

The net tonnage of all vessels with cargoes and in ballast engaged in the coastwise trade of Great Britain and Ireland in 1913 was 65,273,838 net tons for arrivals and 65,111,086 net tons for departures; in 1922 the net tonnage of arrivals was 51,575,178 (British, 47,189,317 tons) and of departures 51,273,158 (British, 46,864,734 tons).

Posts, Telegraphs and Telephones.

The carriage and custody of the mails has been maintained by the State "from time immemorial." The telegraphs were transferred to the State on Jan. 28, 1870, the telephones on Jan. 1, 1912. The submarine telegraph cables connecting the British Isles with the various Dominions and Foreign Countries are maintained and worked partly by the State and partly by private companies.

The number of telephones per 100 of population in Great Britain and Northern Ireland, U.S.A., and certain other countries (1923), is shown below:—

U.S.A.	15.0	Great Britain and
Denmark	8.6	N Ireland (1924) 2.9
Sweden	5.7	Netherlands 2.7
Norway	6.2	Austria 2.2
Switzerland	4.6	France 1.5
Germany	3.7	Italy (1921) 0.3

Savings Banks—On Dec 31, 1923, there were 11,856,765 active deposit accounts in the Post Office Savings Banks, with the sum of £273,070,983 due to depositors. In 1921 there were 2,340,371 accounts open in the *Trustee Savings Banks*, with £99,304,794 due to depositors. On Dec 31, 1923, Government Stock to the amount of £200,450,586 stood to the credit of holders in the books of the Post Office Savings Banks, and £20,442,788 was held for depositors in *Trustee Savings Banks* (1921).

Wireless Telegraphy.

Post Office as Licensing Authority—By the Wireless Telegraphy Act, 1904, it was made illegal to install or work wireless telegraphy in the United Kingdom or on board British ships in territorial waters except with the Postmaster General's licence. The Merchant Shipping (Wireless Telegraphy) Act, 1919, made it compulsory for all British sea-going ships over 1,600 tons to carry wireless apparatus. The Post Office conducts the inspection of such apparatus under the Act, and also the examination of Wireless Operators and Watchers for the Postmaster General's Certificate.

Ship and Shore Service—The ship and shore stations of the Marconi Company and Lloyds, 10 in number, were bought by the Postmaster General in 1909. The service has since been reorganised and now comprises 12 stations, viz.—Cullercoats, Fishguard, Grimsby, Land's End, Malin Head, Niton, North Foreland, Port Patrick, Seaforth, Valentia, Wick, and Devizes.

Anglo-Continental Wireless Services—Post Office wireless services, auxiliary to the cable services, are now in operation with the following Continental countries—Germany, Italy, Poland, Esthonia, Hungary, Czechoslovakia, Yugoslavia, and Roumania.

The services with Germany, Poland and Esthonia are carried on *via* the Stonehaven Station (near Aberdeen), which is also available for communication with Scandinavia and Iceland during cable interruptions, while the services with Italy, Hungary, Czechoslovakia, Yugoslavia and Roumania are carried on *via* the Northolt Station (near London). The latter station is also used for the transmission of news and commercial intelligence intended for reception in certain European countries and for the transmission of press messages to Halifax (Nova Scotia).

Oxford and Cairo Stations—The high-power stations at Leafeld, near Oxford, and at Abu Zabal, near Cairo, were completed in August, 1921, and April, 1922, respectively, and a regular service between these stations was opened in May, 1922, for the transmission of telegrams between Great Britain on the one hand, and Egypt, Palestine, Iraq, Transjordan, Syria, Abyssinia, Erythraea, and Italian Somaliland on the other hand. The Oxford station is also used for the broadcasting of the British official news messages, for the transmission of press messages

to Halifax (Nova Scotia), and for long-distance communication with ships.

New Super-power Station at Rugby—A new super-power station is now in course of erection at Rugby, and is expected to be completed in the spring of 1925. It will have 12 masts at the out-set, each 820 feet high. The aerial will be about 14 miles long, and about 4 mile wide. A site of about 14 square miles has been acquired for the purpose. The station will have a power of 1,000 kilowatts and will be capable of communication with any part of the globe.

Marconi Company's Stations at Carnarvon and Ongar—The only privately-owned wireless stations in this country at present carrying on commercial services with other countries are the Marconi Company's stations at Carnarvon, used for communication with the United States, and at Ongar, used for communication with France, Switzerland, Spain, and Austria. The Anglo-French service has been in operation since January, 1921; the Anglo-Swiss service was opened in April, 1922, and the Anglo-Austrian service in January, 1924. The Anglo-Spanish service, which was in operation before the war, was formerly carried on from Poldhu, but was transferred to Ongar in April, 1922. The Ongar station is also being used as a temporary measure for the service with Canada formerly carried on by the Company's station at Clifden (Ireland), which has now been abandoned. Pending the settlement of the terms of the formal licences which it is proposed to grant to the Company, these stations are being operated under temporary permits.

The approximate expenditure and revenue in connection with the Leafeld (Oxford), Cairo, and Northolt stations during 1923-24 were:—

	Expenditure (including interest and depreciation)	Revenue
Leafeld (Oxford)	£45,300	£42,200
Cairo	46,000	10,600
Northolt	12,300	7,800

Communication by Air.

In 1919 a *Trans-Atlantic Aerial Post* was shown to be practicable by the successful flight of an aeroplane from St John's, Newfoundland, to Clifden, Ireland, and by the voyage of H M Airship R 34 from Scotland to New York, and from New York to England. The *Air Mail Services* now in operation are shown on p 279.

The largest *Airship* yet constructed was the R 38, which was wrecked while over the Humber (Aug 24, 1921) with the loss of 44 lives. The remaining British airships are as follows:—

R 33	cubic feet of gas 1,958,000
R 80	" " " 1,200,000
R 36	" " " 2,101,000
R 37	" " " 2,101,000
L 64*	" " " 1,950,000
L 71*	" " " 2,420,000
Cardington Airship (building)	cubic feet of gas 5,000,000

The L 64 is 642 feet long, the L 71 is 743 feet long, the R 38 had a capacity of 2,700,000 cubic feet and was 605 feet in length.

It is estimated that the times by airship for the following journeys would be:—

England-Egypt	2½ days.
England-Karachi (India)	5 "
England-Johannesburg (S. Africa)	7 "
England-Perth (W. Australia)	10½ "

* Surrendered Zeppelin airships.

THE KINGDOM OF ENGLAND.

Position and Extent—The Kingdom of England occupies the southern portion of the island of Great Britain and lies between $55^{\circ} 46'$ and $49^{\circ} 57' 30''$ N latitude (from the mouth of the Tweed to the Lizard), and between $1^{\circ} 46' E$ and $50^{\circ} 43' W$ (from Lowestoft to Land's End). England is bounded on the north by the summit of the Cheviot Hills, which form a natural boundary with the Kingdom of Scotland, on the south by the English Channel, on the east by the Straits of Dover (Pas de Calais) and the North Sea, and on the west by the Atlantic Ocean (which washes the Cornish coast), the Principality of Wales and the Irish Sea. The total area of the kingdom is 50,811 square miles. At the Census of 1921 the population numbered 35,678,530 (an increase of 1,633,240 in the decennial period).

Relief—There is a natural orographic division of England into the hilly districts of the north, west and south west, and the undulating downs and low lying plains of the east and south east. In the extreme north the *Cheviot Hills* run from east to west and divide England from Scotland, culminating in the Cheviot, 2,676 feet above mean sea level. Divided from the Cheviots by the Tyne Gap is the *Pennine Chain*, running N by W to S by E, with their highest point in Cross Fell, 2,930 feet above mean sea level. West of the Pennines are the *Cumbrian Mountains*, which contain in *Scarf Fell* (3,210 feet) the highest land in England, and east of the Pennines are the *Yorkshire Moors*, their highest point being *Urra Moor* (2,489 feet). South of the Pennines there are heights above 2,000 feet in the *Peak of Derbyshire* (highest point 2,088 feet), and in *Dartmoor* (High Willhays, 2,039 feet). In the western county of Shropshire are the isolated *Wrekin* (1,335 feet), *Long Mynd* (1,674 feet), and *Brownlee* (1,805 feet). In Herefordshire the *Black Mountain* reaches 2,320 feet, in Worcestershire the *Malvern Hills* reach 1,395 feet, in western Monmouthshire are the *Sugar Loaf* (1,955 feet) and *Coity* (1,905 feet), and the *Cotteswold* (or *Otswold*) Hills of Gloucestershire contain *Cleeve Cloud* (1,134 feet).

Hydrography—The *Thames* is the longest and most important river of England, with a total length of 220 miles from its source in the *Cotteswold Hills* to its outflow into the North Sea. The lower river is navigable by ocean-going steamers to London Bridge, and small craft reach *Lechlade*, 160 miles from the mouth. The *Thames* is tidal to *Teddington* (60 miles from its mouth), and its upper stream is connected with the *Severn* by a canal at *Lechlade*, the *Wilts and Bucks canal* enters at *Abingdon*, and the *Wye canal* at *Reading*. The principal tributaries are the *Cherwell*, *Lee*, *Kennet*, *Wey*, *Mole* and *Medway*. The *Thames* forms county boundaries almost throughout its course, and on its banks are situated the capital of the British Empire, *Windsor Castle*, the home of the Sovereign, *Eton College*, the first of the public schools, and *Oxford*, the oldest university in the kingdom. The *Severn* is the longest river in Great Britain, rising in the north-eastern slopes of *Plinlimmon* (Wales) and entering England in Shropshire, with a total length of 220 miles from its source to its outflow into the *Bristol Channel*, where it receives on the left the *Bristol Avon*, and on the right the *Wye*, its other tributaries being the *Vyrnwy*, *Tern*, *Stour*, *Teme* and *Upper* (or *War-*

wickshire) *Avon*. The *Severn* is tidal below *Gloucester*, and a high bore or tidal wave sometimes reverses the flow as high as *Tewkesbury* (23½ miles above *Gloucester*). The scenery of the greater part of the river is very picturesque and beautiful, and the *Severn* is a noted salmon river, some of its tributaries being famous for trout. Navigation is assisted by the *Gloucester and Berkeley Ship Canal* (26½ miles), which admits vessels of 350 tons to *Gloucester*, other canals connecting with the *Thames*, *Trent*, *Dee* and *Mersey*. The *Severn Tunnel*, which carries the *Great Western Railway* under the river, 14 miles below the *Sharpness Bridge*, was begun in 1873 and completed in 1886 (at a cost of £2,000,000) after many difficulties from flooding, &c. The tunnel is 4 miles 624 yards in length (of which 2½ miles are under the river). Of the remaining English rivers those flowing into the North Sea are the *Tyne*, *Wear*, *Tees*, *Ussie* and *Trent* from the *Pennine Range*, the *Great Ouse* (160 miles) from the *Central Plain*, and the *Ow* and *Stour* from the hills of *East Anglia*. Flowing into the English Channel are the *Sussex Ouse* from the *Weald*, the *Itchen* from the *Wiltshire and Hampshire Hills*, and the *Axe*, *Teign*, *Dart*, *Tamar* and *Exe* from the *Devonian Hills*, and flowing into the *Irish Sea* are the *Mersey*, *Ribble* and *Eden* from the western slopes of the *Pennines* and the *Derwent* from the *Cumbrian Mountains*. The *English Lakes* are noteworthy rather from their picturesque scenery and poetic associations than from their size. These lie mainly in *Cumberland*, but partly in *Westmorland* and *Lancashire*, the largest being *Windermere* (20 miles long), *Ullswater* and *Derwentwater*.

Islands—The *Scilly Islands* form part of the county of *Cornwall*, and are distant 25 miles from *Land's End*. The group consists of about 40 islands, with a total area of about 4,000 acres, only *St Mary's*, *Tresco*, *St Martin's*, *St Agnes* and *Bryher* being inhabited, the total population in 1921 being 1,749. The capital is *Hugh Town*, in *St Mary's*. The climate of the *Scilly Islands* is unusually mild, and vegetation is luxuriant, semi-tropical plants flourishing in the open. The *Isle of Wight* forms an administrative county and is separated from *Hampshire* by the *Solent* and *Spithead*. The total area is 147.81 miles, with a population in 1921 of 94,697. The climate is mild and healthy, and many watering places have grown up during the last century. The capital is *Newport*, at the head of the estuary of the *Medina*, *Cowes* (at the mouth) being the chief port, other centres are *Ryde*, *Sandown*, *Shanklin*, *Ventnor*, *Freshwater*, *Yar mouth*, *Totland Bay* and *Bembridge*.

Climate—The south-westerly winds from the Atlantic Ocean penetrate to the heart of the country, affecting the temperature of the greater part of the kingdom, and only the coastal regions of the east have a modified continental climate. The mean annual temperature is about 50° Fahrenheit, varying from 52° in the *Scilly Islands* to 48° at the mouth of the *Tweed*, and generally the west of England is mild and wet in winter and cool and less wet in summer, while the east is cool and dry in winter and spring and hot and less dry in summer and autumn, the wettest region being the *Lake district* of *Cumberland* and the driest in the *Thames estuary* and the *Lincolnshire Wash*.

EARLY INHABITANTS

Prehistoric Man—A skeleton found at *Galley Hill*, near Northfleet, Kent (in 1895), has been ascribed to a man of Central Asian race of the Early Stone Age, and stone implements of the remote Eolithic, Palæolithic and Neolithic periods are abundantly found throughout England. The Neolithic period is held to have merged into the Bronze Age about 2500 B.C., and a date between these years has been given to *Stonehenge* (presented by Sir C. H. E. Chubb to the Nation in 1908, and now preserved as a national monument). *Stonehenge* (10 miles N. of Salisbury, Wiltshire) consists of two circles of menhirs (the largest monolith being 22½ feet in height), only 16 remaining in position in the outer circle, while two of the five triple sets are still in position in the inner circle. The use for which the temple or monument was erected is the subject of many conjectures.

The Celtic Invasion—In the latter part of the Bronze Age the *Goidels*, a people of Celtic race, and in the Iron Age another Celtic race of *Brythons*, invaded the country and brought with them Celtic civilization and dialects, place names in England bearing witness to the spread of the invasion over the whole kingdom.

The Roman Conquest—Julius Cæsar raided Britain in 55 B.C. and 54 B.C., and in 43 A.D. the conquest of the country was undertaken by the Roman Emperor Claudius, who sent Aulus Plautius with a well-equipped army of 40,000 men, and himself visited Colchester (Camulodunum) and Londinium. The British leader from 48-51 A.D. was *Caractacus* (strictly Caraticus), who was finally captured and sent to Rome. By 70 A.D. the conquest of South Britain was completed, a great revolt under *Boadicea* (strictly Boudicca), Queen of the Iceni (Norfolk), being crushed in 61 A.D. In 122 A.D. the Emperor Hadrian visited Britain and built a continuous rampart, known as *Hadrian's Wall*, from Wallend to Bowness (Tyne to Solway), remains of which are still traceable. The Romans administered Britain as a Province under a Governor, with a well defined system of local government, each Roman municipality ruling itself and the surrounding territory. Colchester, Lincoln, York, Gloucester and St. Albans stand on the sites of five Roman municipalities, while London was the centre of the road system and the seat of the financial officials of the Province of Britain. A well preserved Roman town of about 100 acres was first uncovered in the 18th century at *Silchester* (Calleva Atrebatum), 10 miles south of Reading, and since 1890 the whole site has been investigated. Four main groups of roads radiated from London, and a fifth (the Fosse) ran obliquely from Emme Street (at Lincoln), through Leicester, Cirencester and Bath to Exeter. Of the four groups radiating from London one ran S.E. to Canterbury and the coast of Kent, a second to Silchester and thence to parts of Western Britain and South Wales, a third (now known as *Watling Street*) ran through Verulamium (St. Albans) to Chester, with various branches, and the fourth reached Colchester, Lincoln, York and the eastern counties. Christianity reached the Roman Province of Britain from Gaul in the 3rd century (or possibly earlier), the Bishops of Londinium, Eboracum (York), and Lindum (Lincoln) attending the Council of Arles in 314. The Roman garrison of Britain was much harassed in the 4th century by Saxon pirates, who invaded the eastern counties from the Wash

to Spithead, while about 350 A.D. incursions in the north of Irish (Scotti) and Picts became most formidable, and towards the end of the century many troops were removed from Britain for service in other parts of the Roman Empire. Early in the 5th century Gaul was taken from the Romans by Teutonic invaders, and Britain was cut off from Rome, officials were no longer sent to the island, the garrison was left to defend itself, and appears to have been driven inland by the Northern and Saxon invaders, and to have been conquered and absorbed by the Celtic inhabitants, whose language and customs re-emerged.

Anglo-Saxons and Normans—The Celtic Britons appear to have called in the Saxons to resist the raids of the Picts and Scots, and eventually the *English* (Angles, Saxons and Jutes) drove the Britons into the mountain fastnesses of the West (Strathclyde, Wales and Cornwall), the name of *Welch* (old English *Waelisc* = Foreign) being given to the islanders by the invaders from the continent. The area thus conquered was divided into several kingdoms, of which the chief were Northumbria (Bernicia and Deira), Mercia (Middle Angles), and Wessex. The heathen Angli (whose gods Ti, Woden, Thunor and Frigg are commemorated in "Tuesday, Wednesday, Thursday and Friday") were converted to Christianity by a mission under Augustine (dispatched by Pope Gregory in 597), which established Archbishoprics at Canterbury and York, and the whole of England appears to have been converted by the end of the 7th century. In the 8th century Offa, King of Mercia, is stated to have built a wall and rampart, afterwards known as *Offa's Dike*, from the mouth of the Dee to that of the Wye, as a protection against the Welsh. The greatest of the English kingdoms was *Wessex*, with its capital at Winchester, and the greatest of the Wessex kings was *Alfred the Great* (871-901), who resisted the incursions of the Northmen (Danes) and fixed a limit to their advance by the Treaty of Wedmore (878). In the 10th century the Kings of Wessex recovered the whole of England from the Danes, but subsequent rulers were unable to resist the invaders, and England paid tribute (*Danegelt*) for many years, and was ruled by Danish Kings from 1016 to 1042, when Edward the Confessor was recalled from exile. In 1066 Harold (brother-in-law of Edward and son of Earl Godwin of Wessex) was chosen King of England, but after defeating a Northumbrian revolt under his brother Tostig (aided by an invading army of Harold Godraade of Norway) at Stamford Bridge in Yorkshire (Sept. 25), he was himself defeated at the *Battle of Hastings* (or *Sautlache*) on Oct. 14, 1066, and the Norman Conquest secured the throne of England for Duke William of Normandy. Since the *Norman Conquest* all attempts to invade England have been defeated.

ENGLISH COUNTIES

For Administrative purposes England is divided into 50 *Administrative Counties* (under the Local Government Act of 1888). The boundaries of these Administrative Counties differ in many cases from those of the older Geographical Counties, while the areas of the 72 *County Boroughs* created under the Act of 1888 are excluded from the County Areas, and the population of the Boroughs is separately enumerated. The area, population and chief officers of the Administrative Counties are shown overleaf.

LORDS LIEUTENANT, HIGH SHERIFFS, AND CHAIRMEN OF Q S

County or Shire	Lord Lieutenant	High Sheriff, 1924-5	Chairman of Q S
(1) Bedford	Samuel H Whitbread, C.B.	Sir G. Lawson Johnston K.B.E.	Anthony H Wingfield
(2) Berks	James Herbert Benyon	Samuel Garcia Asher	Louis W Jelf-Petit
(3) Bucks	Col Lord Cottesloe, V.D.	Lt-Col F T H Bernard	Lord Palmoor, K.C.V.O.
(4) Cambridge	Charles R W Adeane, C.B.	G R Cunliffe-Foster	(T) Musgrave Flancas
(5) Isle of Ely	Col Sir W Bromley Davenport, K.C.B., C.M.G., C.B.E.	Lt-Col Charles Lyon	(His Hon Judge Fariant
(6) Cheshire			H C Yates
(7) Cornwall	John C Williams	Cornelius C Morley	G T Pethetick Col E Tieffry, C.M.G., O.B.E.
(8) Cumberland	Earl of Lonsdale	Philip H Holt	G A Rimington
(9) Derby	Duke of Devonshire, K.G.	Brig Gen G M Jackson	H. St J D. Raikes, K.C., C.B.E.
(10) Devon	Earl Fortescue, K.C.B.	Sir Ian M Heathcote Amory, Bt., C.B.E.	Lord Coleridge, Sir T H Kekewich, Bt., Sir F G Newbolt, K.C.
(11) Dorset	Earl of Shaftesbury, K.P.	Maj K R Balfour	J C Swinburne-Hanham
(12) Durham	Earl of Durham, K.G.	Sir Frank Brown	His Hon Judge Greenwell, C.B.E.
(13) Essex	Lord Lambourne, C.V.O.	Lt-Col Sir F Carne- Rasch, Bt.	Collingwood Hope, K.C., C.B.F.
(14) Gloucester	Earl Beauchamp, K.G.	Sir L E H M Darell, Bt., D.S.O.	Sir F A Hyett
(15) Hants	Maj-Gen Rt Hon J E B Seely, C.B., C.M.G., D.S.O.	Viginti-Tertius Thompson	Duke of Wellington, K.G.
(16) Isle of Wight	Sir John Cotterell, Bt.	Maj Stewart Robinson	His Hon Judge Ingham
(17) Hereford	Viscount Hampden, K.C.B., C.M.G.	Brig-Gen Sir B H Hen- derson, K.C.M.G., C.B.	Sir A Reynolds, E A Mitchell-Innes, K.C., C.B.E.
(18) Hertford			G F Rowley
(19) Huntingdon	Earl of Sandwich	G R Cunliffe-Foster	Lord Harris, G.C.S.I., G.C.I.E.
(20) Kent	Marquess Camden	R H Style	Sir Coley Child, Bart
(21) Lancashire	Lord Shuttleworth	Arthur Moore Lamb	Percy J Habbet, J Open- shaw, F Brocklehurst, H W Deacon, C.B.E.
(22) Leicester	Duke of Rutland, K.G.	William Lindsey Everard	Sir A G Hazleigg, Bt
(23) Lindsey			(Vacant)
(24) Kesteven	Earl of Yarborough	Clement Henry Newsum	Earl of Ancaster
(25) Holland			Fitzalan Howard
(26) London	Marquess of Crewe, K.G.	Sir S E Palmer, Bt	Sir E Wallace, K.C.
(27) Middlesex	Duke of Bedford, K.G.	Alfred Hollington	Sir Montagu Shauppe, K.C.
(28) Monmouth	Lord Tiewen, C.B., C.M.G.	Maj A I R Butler	Sir H M Jackson, Bt., C.B.E.
(29) Norfolk	Earl of Leicester	Augustus L Jessopp	William Carr
(30) Northampton			Sir C Knightley, Bt
(31) Peterborough, Soke of	Marquess of Exeter	Philip Leslie Agnew	H B D Woodcock
(32) Northumberland	Duke of Northumberland C.B.E., M.V.O.	Col Philip Blencowe Cookson, C.M.G., O.B.E.	Sir F. Blake, Bt., C.B.
(33) Nottingham	Duke of Portland, K.G.	Sir Arthur Ernest Blake, K.B.E.	Col Sir L Rolleston, K.C.B., D.S.O., C C Curtis, H. Mellish, C.B.
(34) Oxford	Duke of Marlborough, K.G.	G Boscawen Randolph, O.B.E.	Sir Edward L O'Malley
(35) Rutland	Earl of Ancaster	F T Walker	W H. Neill
(36) Salop	Earl of Powis	Capt H A Van Bergen	R Lloyd Kenyon
(37) Somerset	Marquess of Bath, K.G.	Maj A C Duckworth	Hon W B Lindley
(38) Stafford	Earl of Dartmouth, K.C.B.	Lt-Col A F Nicholson	Sir R Hardy, Bt.
(39) Suffolk E.	Sir T C T Warner, Bt. C.B.	Sir Herbert Hambling, Bt.	Lord Walsingham, C.H. Lomax, R. E White
(40) " W			A. Maitland-Wilson
(41) Surrey	Lord Ashcombe, C.B.	Henry Oberlin Serpell	Sir Charles Walpole
(42) Sussex, E			G. M Freeman, K.C.
(43) " W	Lord Leonfield	Sir S. H Kent, K.C.B.	W. P. G Boxall, K.C.
(44) Warwick	Lord Leigh	Robert Darley Guinness	Lord Ilkeston
(45) Westmorland	Lord Hothfield	Gerald E Thompson	Earl of Lonsdale
(46) Wilts	(Vacant)	Washington Merritt Grant Singer.	His Hon. Judge Randolph, K.C.
(47) Worcester	Viscount Cobham	Capt E. G Spencer	J W. Willis Bund, C.B.E.
(48) Yorks, E.R.	(Vacant)	Churchill, M.C.	Sir A. Macdonald, Bt.
(49) " N.E.	Sir Hugh Bell, Bt., C.B.	Henry Whitworth	E. E. Turton, M.P.
(50) " W.R.	Earl of Harewood		(W. F Tempest

CHAIRMEN OF C.C., CLERKS OF THE PEACE, CHIEF CONSTABLES AND M.O.H.

Chairman of C.C.	Clerk of the Peace	Chief Constable	Medical Officer
(1) Duke of Bedford, K.G.	W. W. Marks	Lt.-Col. F. A. D. Stevens, C.B.E.	Prof. H. R. Kenwood, C.M.G., M.B.
(2) James Herbert Beayon	H. J. C. Neobard, O.B.E. (LL.B.)	Lt. Col. A. Poulton, C.B.E.	G. C. Taylor, O.B.E., M.D.
(3) L. H. West, O.B.E., LL.D.	G. C. Crouch, M.C.	Maj. O. Mayne, O.B.E.	S. J. C. Holden, M.D.
(4) M. V. J. Webbitt	A. Talrum, O.B.E.	W. Varney Webb	Frank Robinson, M.D.
(5) Sir William H. Clarke	C. E. Copeinan, C.M.G.	Maj. W. R. Hartcup, C.B.E.	James P. Walker, M.D.
(6) Sir William Hodgson	Reginald Potts	Lt.-Col. P. Malcolm, D.S.O., M.V.O.	Meredit Young, M.D.
(7) William Hawk	W. Leslie Platts	Lt.-Col. H. B. Protheroe-Smith	E. M. Clarke, M.D.
(8) Rev. Canon A. Sutton	C. C. Hodgson, O.B.E.	Lt. Col. H. S. Turnbull	F. H. Morison, M.D.
(9) E. C. Barnes, C.B.E.	N. J. Hughes-Hallett, O.B.E.	Maj. F. R. Anley	F. Barwise, M.D.
(10) Sir Henry Lopes, Bt.	Brian S. Miller	Capt. H. R. Vyvyan	G. Adkins, M.D.
(11) Earl of Shaftesbury, K.Y.	E. A. Fooks	Major L. W. Peel Yates	J. Elliott Robinson, M.B.
(12) F. F. Brass, O.B.E., M.A.	Harold Jevons	George Moyley, C.B.E.	T. E. Hill, O.B.E., M.B.
(13) W. Chisenhale-Marsh	J. H. Gould	Capt. J. A. Unett, D.S.O.	W. A. Bulrough, M.B.
(14) Lt.-Col. R. J. Kerr	E. T. Gardom, O.B.E.	Maj. F. L. S. Clarke	J. Middleton Martin, M.D.
(15) Earl of Northbrook	F. Vicars Barber	Maj. St. A. B. Waide	R. A. Lyster, M.D.
(16) Sir G. Baring, Bt.	John Dufton	Capt. H. C. Adams-Connot, M.V.O.	James Fairley, M.D.
(17) G. Cresswell	J. R. Symonds	Horace F. M. Munro	Peter Lowe, M.B.
(18) E. B. Barnard, O.B.E.	Sir C. A. Longinore, K.C.B.	Lt. Col. A. L. Law	H. Hyslop Thomson, M.D.
(19) G. F. Rowley	J. Percy Maule	Lt.-Col. A. G. Chichester, C.B.E.	C. B. Moss-Floodell, M.D.
(20) Col. F. S. W. Cornwallis, C.B.E.	W. B. Prosser, C.B.E.	Maj. H. E. Chapman, O.B.E.	Alfred Greenwood, M.D.
(21) Sir H. F. Hibbert, Bt.	G. Hammond Etherington, O.B.E.	H. P. P. Lane, C.B.E., M.V.O.	J. J. Butterworth, M.D.
(22) Lt.-Col. R. E. Martin, C.M.G.	W. J. Free	E. Holmes, O.B.E.	T. Robinson, M.D.
(23) Lord Heneage	Eric W. Scorer	(Capt. C. Mitchell Innes, C.B.E.)	R. Ashleigh Glegg, M.D.
(24) Sir C. Welby, Bt., C.B.	A. D. Piper	(C. B. E.)	A. H. Lowe, M.B.
(25) J. W. Gleed, M.A.	H. C. Maris	(Metrop. Police Area)	H. D. Jennings, M.B.
(26) (see pp. 566-569)	John Dix	(Metrop. Police Area)	Sh. W. Heaton Hamer, M.D.
(27) Benjamin Todd	S. S. W. Hart, M.B.E.	Victor Bosanquet	John Tate, M.R.C.S.
(28) L. Forestier-Walker, M.P.	Thomas Hughes		D. Roeyn Jones, C.B.E., M.B.
(29) (Vacant)	Hugh Christopher Davies	Capt. J. H. Mander	J. T. C. Nash, M.D.
(30) Sir W. R. D. Atkins, K.C., M.P.	H. Millington, O.B.E.	(J. D. K. MacCallum, C.B.E.)	J. C. E. Paget, M.R.C.S.
(31) Marquess of Exeter	Walter J. Deacon	Capt. F. James, O.B.E.	(C. Rolleston, M.D.)
(32) Sir F. Blake, Bt., C.B.	Charles D. Forster	Col. F. J. Lemon, D.S.O., D.S.O., R.N.	W. F. J. Whitley, M.D.
(33) Viscount Galloway, C.B.	Tweedale Meaby	Capt. E. K. Arbuthnot, Fredk. Wm. Golder	(Vacant)
(34) W. H. Ashhurst, C.B.E.	James Rose, M.A.	Maj. Jack Becke	Charles Coles, M.D.
(35) Earl of Ancaster	B. A. Adam		C. Rolleston, M.D.
(36) Col. H. H. Heywood, Lonsdale, D.S.O.	F. Crowte		James Wheatley, M.D.

AVERAGE HEIGHTS AND WEIGHTS

The average heights and weights of men in the United Kingdom have been tabulated as follows. The weights include clothing, which is generally calculated at one-twenty-fourth of the whole.

	Average Height	Average Weight
Scotsmen ...	5 ft. 8½ in.	12 st. 11 lb.
Irishmen	5 ft. 8 in.	10 st. 13 lb.
Englishmen	5 ft. 7½ in.	11 st. 2 lb.
Welshmen	5 ft. 6½ in.	11 st. 4 lb.

THE PRINCIPAL ENGLISH CITIES

LONDON

LONDON, the capital of England and of the British Empire, and the greatest city in the world, is situated on both banks of the River Thames, 50 miles from its outflow into the North Sea. The various areas of London, with the population of each (according to the Census of 1921), are shown below

Area	1911	1921
County of London	74,816	4,483,249
City of London	675	13,766
London Police Districts	443,424	7,476,168
Proposed "London Health Area"	3,045,120	9,680,234

The City of London (see pp. 567-3) administers London within its ancient boundaries, where the Saxon Port Reeve became Bailiff in 1066, Mayor in 1192, and Lord Mayor in 1354. The City is the financial and business centre of London, and includes the head offices of the principal English banks, insurance companies, and mercantile houses, in addition to buildings ranging from the historic interest of the Roman Wall, the Norman Tower and the 14th century Guildhall, to the massive splendour of St Paul's, and the architectural beauty of Wren's spires (Bow Church, St Bride's, St Dunstan's in the East, &c.), for which (and for other City buildings) see pp. 570 et seq.

The City of Westminster, which is bounded by the City of London on the east, by Chelsea and Kensington on the west, by Paddington, St Marylebone and Holborn on the north, and by the Thames and Chelsea on the south, was formed into a borough by the London Government Act of 1899, and was created a city by Royal Charter of Oct. 19, 1900, the Council consisting of a Mayor, 10 Aldermen and 60 Councillors. Extending from the eastern end of the Strand to Kensington Gardens, and from Oxford-street to the Thames, it includes within its boundaries a large number of the finest buildings in London. The Abbey and the Roman Catholic Cathedral, the Houses of Parliament and the Law Courts, Buckingham Palace and St James's, and the principal Government offices, Clubs, and Theatres are situated in Westminster, which also includes the fashionable residential districts of Mayfair and Belgravia, the chief buildings being described on pp. 570-584. Westminster is the richest of the London areas, the rateable value of property being £8,131,854 in 1922, the product of each rd in the £ being £33.883.

Metropolitan Boroughs—Under the London Government Act of 1899 the administrative functions of the various vestries in the Metropolitan districts surrounding the City of London were transferred to 28 Metropolitan Boroughs (see p. 560), of which one became afterwards the City of Westminster. The area covered by these boroughs extends northwards to include Stoke Newington, southwards to Wandsworth and Lewisham, eastwards to Woolwich, and westwards to Hammersmith.

London County Council—For County purposes the affairs of London are administered by the London County Council (see pp. 566-69), which was created by the Local Government Act of 1888.

Miscellaneous Authorities—The Poor Law is administered in the Metropolitan area by the Metropolitan Asylums Board (see p. 206), and by 31 Boards of Guardians; for Police purposes the administration is invested in the City Corpo-

ration as to the City Police (see p. 233) and in the Home Office as to the Metropolitan Police (see p. 233). The authority for the supply of water is the Metropolitan Water Board (see p. 206), while the River Thames is administered as to its tidal portion by the Port of London Authority (see p. 222) and above Teddington by the Thames Conservancy (see p. 219), the light-house and pilotage authority being Trinity House (see p. 224). The bridges (see p. 574) are maintained in the City of London by the Bridge House Estates Committee of the Corporation of the City, and in the remaining area by the London County Council. The lighting of London is carried out by private enterprise, and in some cases by the Borough Councils, while locomotion is provided by the London County Council as the Tramway authority, and by private enterprise as to underground or other railways and motor vehicles.

BIRMINGHAM.

BIRMINGHAM (Warwickshire), the chief centre of the hardware trade of the world, is 213 miles N W of London. The municipal area is 43,601 acres (about 68 square miles), with a population at the census of 1921 of 919,438.

The chief industries are brass working, jewellery and precious metals, iron, machinery, small arms and ammunition, railway rolling stock, glass making, electro plating, motor engineering, cycles and chemicals.

The principal buildings are the Town Hall, built in 1823-1850 on the lines of the Temple of Jupiter Stator at Rome, with a large hall, the Council House and Corporation Art Gallery and Museum (1878), the University (Aston Webb, 1909), the Central Library, the 13th century Church of St Martin (rebuilt 1873), the Cathedral (formerly St Philip's Church, built by Aicher, a pupil of Wren's), the Roman Catholic Cathedral of St Chad (Pugin), and the Wesleyan Central Hall. A memorial bust of Abraham Lincoln was unveiled in 1921. Birmingham was incorporated as a borough in 1838, and was created a city in 1889; it is governed by a Lord Mayor and City Council of 30 Aldermen and 90 Councillors. The city returns 12 members to Parliament. The origin of the name is obscure, as Bromwicham, "the home on the hill by the heath," is disputed. The city was a Saxon town, and William de Birmingham was Lord of the Manor in the early part of the 13th century.

Principal City Officers

Rt Hon Lord Mayor (1924-25), Percival Bower, MBE
Recorder, Sir Ryland Dent Adkins, KC (1920).
Spendary Magistrate, The Rt. Hon Lord Ilkeston (1910).
Town Clerk, F H C Wiltshire (1918).
Clerk of the Peace, Joseph James (1905).
Coroner, Isaac Bradley (1897).

LIVERPOOL

LIVERPOOL (Lancashire), on the right bank of the river Mersey, 3 miles from the Atlantic and 201 miles N W of London, is one of the greatest trading centres of the world and the principal port in the United Kingdom for the Atlantic trade. The municipal area is 24,108 acres (which includes 2,883 acres in the bed of the river Mersey) (about 33 square miles, excluding the bed of the river), with a population at the census of 1921 of 803,118. The total net register tonnage of vessels on which dues were paid during 1923

was 18,537,234 tons, while the value of the seaborne trade of the port was stated at £532,990,145 for 1923, and at £481,200,149 for 1922. The docks, on both sides of the river, have a linear quayside of about 37 miles, and the Gladstone dock will accommodate the largest vessels afloat. The dock authority is the Mersey Docks and Harbour Board. The chief import is cotton, those next in importance being grain, provisions, sugar, fruit, oil, timber and tobacco.

The principal buildings are the Cathedral, erected from the designs of Sir Gilbert Scott and consecrated in 1924; when completed this will be the largest ecclesiastical building in England, St George's Hall, erected 1838-1854, from the designs of Harvey Lonsdale Elmes, at a cost of £300,000, and regarded as the finest modern example of classical architecture, the Town Hall, erected 1754 from the designs of Wood, the Walker Fine Art Gallery, the University, the Royal Infirmary; the Municipal Offices, and the Custom House.

Liverpool was incorporated as a borough early in the 13th century and was created a city in 1880. The Corporation consists of a Lord Mayor and a City Council which comprises 38 Aldermen and 113 Councillors. The City returns 11 members to Parliament. The name is believed to be derived from Norse words meaning the "Pool of the Slopes".

Principal City Officers

Rt Hon Lord Mayor (1924-1925), Thomas Dowd
Recorder, Edward G. Henneville, K.C. (1909)
Police Magistrate, Stuart Deacon (1910).
President, Court of Passage, Sh. Wm. F. Kyffin Taylor, K.B.E., K.C.
Coroner, A. G. Inglis
Town Clerk, Walter Moon, £3,300 (1922)
Clerk of the Peace, R. D. Cripps
Medical Officer of Health, A. A. Sumner, M.D., D.P.H.

MANCHESTER

MANCHESTER (Lancashire), the centre of the world's cotton trade, is 28½ miles N.W. of London. The municipal area is 21,690 acres (about 34 square miles), the population at the census of 1921 being 730,307.

Manchester is the distributing centre of the cotton spinning and weaving of Lancashire for the whole world, and of butter and foodstuffs for the most densely populated part of England. It also contains large engineering and machinery works and factories of hats, clothing, india-rubber goods, chemicals, &c. The city is connected with the Mersey by the *Manchester Ship Canal* (opened in 1894), which has a total length of 25½ miles, a depth of 28 feet, and a minimum width at the bottom of 120 feet. The value of the seaborne trade of the port is stated at £86,515,435 for 1921, and at £92,023,169 for 1922, the net tonnage of ships entered and cleared in 1922 was 2,845,377 and 2,848,616 respectively. In 1923 the weight of sea-borne merchandise which passed on the Waterway amounted to 5,207,648 tons, as compared with 4,081,571 tons in 1922.

The principal buildings are the Town Hall, erected in 1877 from the designs of Alfred Waterhouse, R.A., the Royal Exchange, built in 1869, enlarged at cost of £800,000 and reopened by the King, 1921, the Free Trade Hall, erected from the designs of Walters, in 1856, on the site of the "Peterloo Massacres" (Aug. 16, 1819) in St. Peter's Fields, the Art Gallery; the Whitworth Institute, the 17th century Chetham Library, the Rylands

Library (1899), which includes the Athorp collection, the University (Owens College), and the 15th century Cathedral (formerly the parish church). Manchester is one of the principal centres of political, literary and scientific advancement, and the Hallé Concerts have placed the city in the forefront of musical development. The *Manchester Guardian* newspaper exercises a widespread influence throughout the English-speaking world.

The town received a charter of incorporation in 1838 and was created a city in 1853. The Lord Mayor presides over a Corporation of 35 Aldermen and 105 Councillors. Manchester returns 10 members to Parliament. The Latin name of the city was *Mancunium*.

Principal City Officers

Rt Hon Lord Mayor (1924-1925), F. J. West
Recorder, Arthur Jacob Ashton, K.C. (1914)
Syndicalist Magistrate, Edgar Brierley (1902)
Town Clerk, P. M. Heath (1922)
Clerk of the Peace, E. M. Redhead

LEEDS

LEEDS (Yorkshire, West Riding) is favourably situated in the coal and iron districts of England, 185 miles N.N.W. of London, and is the centre of the woollen industry and the wholesale clothing trade. The city has also the largest share of the leather trade of the United Kingdom, in addition to large rope works, and factories of thread, linen, glass and earthenware, with metal casting, machinery and machine tools, steam engines, railway wagons, and other engineering works. Leeds is connected with the Mersey in the west by the Leeds and Liverpool Canal, with the Humber in the east by the Aire and Calder Navigation, and is an important railway centre.

The municipal area is 28,090 acres (nearly 44 square miles), the population at the census of 1921 being 458,232.

The principal buildings are the Town Hall (1858), the Royal Exchange (1872), the Philosophical Hall, the Municipal Buildings and Art Gallery, the University and the Leeds Institute of Science, Art and Literature (1865). The Parish Church (St. Peter's) was rebuilt in 1840, the 17th century St. John's Church has a fine interior with a famous Renaissance screen, the 17th century Mill Hill Chapel was rebuilt in 1849. Kirkstall Abbey (about 3 miles from the centre of the city), founded by Henry de Laci in 1152, is one of the most complete examples of Cistercian houses now remaining.

Leeds was first incorporated by Charles I. in 1626, made a county borough in 1889, and was created a city in 1893. The Lord Mayor presides over a Corporation of 17 Aldermen and 51 Councillors. The city returns 6 members to Parliament. The earliest forms of the name are *Loidis* or *Ledes*, the origin of which is obscure.

Principal City Officers

Rt Hon Lord Mayor (1924-1925), Charles G. Gibson
Recorder, John Albert Compton, K.C. (1919)
Stipendiary Magistrate, Horace Marshall (1910)
Clerk of the Peace, Sir Arthur Copson Peake (1896)
Town Clerk, Thomas Thornton (1924)

SHEFFIELD

SHEFFIELD (Yorkshire, West Riding), the chief centre of the heavy steel and cutlery trade, is situated in the extreme south of Yorkshire 159 miles N.N.W. of London, at the junction of

the Sleaford, Portea, Rivelin and Loxley with the river Don. The city has an area of 21,625 acres (about 49 square miles), with a population at the census of 1921 of 519,299. The principal industries are the manufacture of heavy steel (armour plates, rails, tyres, axles, engine castings, &c.), cutlery, and instruments, in addition to engines and general machinery, tanning, confectionery, bicycles, iron and brass founding, silver refining, brush making, and many other industries. Sheffield plate (silver rolled on other metals) made during the years 1742-1840, when electroplating superseded the process, is greatly prized by collectors.

The principal buildings are the 14th century Parish Church (St. Peter's), the Town Hall (1897), the Cutlers' Hall (1832), Corn Exchange, Market Hall, Museum, Mappin Art Gallery, Ruskin Museum and the University.

The Sixteen town of *Esatefeld* was created a county borough in 1888 and a city in 1893, the Chief Magistrate becoming a Lord Mayor in 1897. The Corporation includes 17 Aldermen and 51 Councillors. Sheffield returns 7 members to Parliament.

Principal City Officers

Rt Hon Lord Mayor (1924-1925), A. J. Bailey
Recorder, William James Waugh, K.C. (1915)
Master Cutler (1924-1925), W. W. Wood
Town Clerk, William E. Hart (1913)
Clerk of the Peace, G. E. Smith

BRISTOL

BRISTOL (Gloucester and Somerset), astride the River Avon and within 8 miles of the estuary of the River Severn (Bristol Channel), is a city and seaport 119 miles W. of London, with a municipal area of 18,445 acres (29 square miles) and a population at the census of 1921 of 376,975.

The principal industries are shipbuilding, rope making, chocolate, sugar and tobacco factories, glass and earthenware, soap, leather and chemical works, breweries, and copper, lead and iron works. The docks comprised within the Port are the City Docks, 6 miles from the entrance to the river Avon, the Royal Edward and Avonmouth Docks, at the mouth of the river, and the Pontishead Docks, to the westward of the river entrance. The net tonnage of ships entered in 1922 was 2,965,014 tons, and of those cleared 2,898,138 tons, the value of the seaborne trade being stated at £41,328,272 for 1921. The principal imports are grain, fruit, oils, ore, timber, hides, cattle and general merchandise, and the chief exports are galvanised iron, tin-plates, machinery, manufactured oils, chemicals, strontia, and unmanufactured clay.

The chief buildings, in addition to the 14th century Cathedral (rebuilt by Street 1868-1888), the 14th century Church of St. Mary, Redcliffe (described by Queen Elizabeth as "the fairest, goodliest and most famous parish church in England"), and the 15th century Temple Church, are Canynge's House, the Merchant Venturers' Almshouses, St. Peter's Hospital, the Council House, Guildhall, Exchange (erected from the designs of John Wood in 1743), Colston Hall, the University and Clifton College. The *Clifton Suspension Bridge*, with a span of 702 feet over the Avon, was projected by I. K. Brunel (the designer of the *Great Eastern*) in 1836, but was not completed until 1860.

Bristol was a Royal Borough before the Norman Conquest, and in 1899 its Chief Magistrate (Sir Herbert Ashman) became a Lord Mayor.

The Corporation includes 23 Aldermen and 69 Councillors. The city returns 5 members to Parliament. The earliest forms of the name are *Brigstowe* and *Briston*.

Principal City Officers

Rt Hon Lord Mayor (1924-1925), Ernest Brookhouse Richards
High Steward, His Grace the Duke of Beaufort, T. D.
Recorder, William Blake Odgers, K.C. (1912)
Sheriff, J. Burris
Town Clerk, Edmund J. Taylor

KINGSTON UPON HULL

HULL (officially "Kingston upon Hull") is situated in the East Riding of Yorkshire, at the junction of the Hull with the Humber, 22 miles from the North Sea and 121 miles N. of London. The municipal area is 9,359 acres (about 15 square miles), with a population of 287,150 at the census of 1921.

Hull is the principal seaport for shipping the manufactures of Yorkshire and Lancashire to Northern Europe, and among its principal imports are grain from Russia and America and timber from Scandinavia, in addition to iron, fish, butter (from Denmark and Siberia), and fruit. The net tonnage of the shipping entered and cleared in 1929 was upwards of 3,000,000 tons, the value of the seaborne trade of the port being stated at £148,023,115 for 1929, and at £172,951,919 for 1920.

The chief buildings, in addition to the Docks, are the Parish Church (Holy Trinity), 272 feet in length (the longest parish church in England), the Guildhall (1915), Exchange (1866), Chamber of Commerce, Corn Exchange, Market Hall, City Hall, Custom House Dock Offices, Royal Institution (1854), Wilberforce's House and Trinity House (1753). A Municipal Art Gallery is in course of establishment under the gift of Mr. T. R. Fens.

The name of *Hake-upon-Hull* was changed to Kingston-upon-Hull by Edward I. in the 13th century. The town was incorporated in 1276 and made a county borough in 1888. The Corporation consists of a Lord Mayor, 16 Aldermen and 48 Councillors. Hull returns 4 members to Parliament.

Principal City Officers

High Steward, Rt. Hon. T. R. Fens, F.C.
Rt Hon Lord Mayor (1924-25), A. D. Willoughby
Recorder, Henry Thomas Kemp, K.C. (1917)
Sheriff, Francis Patrick Finn
Town Clerk, H. A. Leary, M.A., LL.B.
Coroner, Col. Alfred Thorpey

BRADFORD

BRADFORD (Yorkshire, West Riding), 192 miles N.W. of London and 8 miles W. of Leeds, in the coal and iron district, is the centre of the woollen and worsted trade. The city is connected with the Mersey in the west and with the Humber in the east by canals, and is an important railway centre. The municipal area is 22,879 acres (about 36 square miles), with a population at the 1921 census of 285,979.

The principal textile industries are worsteds, woollens, silks and cottons, and there are also important engineering and iron works, and quarries of freestone.

The chief buildings, in addition to the 15th century Cathedral (formerly the Parish Church), are the Town Hall (1873), Exchange (1867), Cartwright Memorial Hall (1904), commemorating the inventor of the power loom, Temperance Hall (1837), Grammar School, Technical College (1882), and the Mechanics' Institute (1837).

The Saxon township was created a parliamentary borough in 1832, a county borough in 1888, and a city in 1907. The Corporation consists of a Lord Mayor, 21 Aldermen and 63 Councillors. Bradford returns 4 members to Parliament.

Principal City Officers

Rt Hon Lord Mayor (1924-1925), J H Palin
Recorder, Thomas Rowland Drake Wright (1905)
Stipendiary Magistrate, Beaumont Moirice (1914)
Town Clerk, N L Fleming (1920)

NEWCASTLE UPON-TYNE

NEWCASTLE UPON TYNE (Northumberland), on the north bank of the Tyne estuary, 8 miles from the North Sea and 272 miles N of London, has an area of 8,452 acres (13 square miles) and a population of 278,400 at the Census of 1921.

The city is conveniently placed on the estuary, in the neighbourhood of the Northumberland and Durham coalfields. Its exports include coal, chemicals, pig iron, iron and steel manufactures and machinery, the chief imports being wheat and grain, fruits, iron, iron ore and steel, petroleum, sulphur ore, timber and wood, and potatoes. The net tonnage of ships cleared in 1921 was 7,343,323 tons. The chief industries are shipbuilding, metal works and machinery, chemicals, glass, brick, tile and earthenware, and rope making.

The principal buildings are the (11th century) "New" Castle, of which the walls, keep and chapel are well preserved, the Cathedral (St Nicholas), St. Andrew's Church (11th century), St. John's (14th century), St. George, Jesmond, the Roman Catholic Cathedral of Hexham and Newcastle, the Corporation Buildings, Guildhall (1658), Moot Hall (1810), Exchange (1860), Central Public Library and Laing Art Gallery, Wood Memorial Hall (1870) and the Custom House. The city is connected with the south bank of the Tyne by four bridges, of which the old High Level Bridge (1849) was designed by Robert Stephenson and carries the railway and roadway, the new High Level Bridge (1906) carries the railway only.

The pre-Norman borough of *Monkchester* was re-named Newcastle in the 11th century when the castle was erected as a defence against the Scots. In 1400 it was made a county borough, and in 1859 was incorporated. The City Corporation now includes a Lord Mayor (1906), 19 Aldermen and 57 Councillors. Newcastle-upon-Tyne returns 4 members to Parliament.

Principal City Officers

Rt Hon Lord Mayor (1924-1925), Walter Lee
Recorder, His Honour Llewellyn Archer Atherley Jones, K C, (1906)
Sheriff, Arthur William Lambert
Town Clerk and Clerk of the Peace, Arthur Maule Oliver, O B E (1907)

NOTTINGHAM

NOTTINGHAM (Nottinghamshire), the principal manufacturing centre of hosiery and lace, stands on the left bank of the Trent, where the tributary stream Leen enters the river, 125 miles N.N.W. of London. The municipal area is 10,935 acres (17 square miles), and includes an open market-place of 5½ acres in the centre of the city, with a population at the Census of 1921 of 266,400.

The city is connected with the North Sea and the Atlantic by the river Trent and canals and is

an important railway centre. The principal industries are cotton, silk and men's hosiery, lace, bleaching, dyeing and spinning, tanning, engineering and cycle works, brewing, and the manufacture of tobacco, &c.

The chief buildings are the 11th century Nottingham Castle (restored in 1878, and now the City Museum and Gallery of Art), St. Mary's, St. Peter's, and St. Nicholas's Churches, the Roman Catholic Cathedral (Pugin, 1845-4), the Guildhall and Sessions Court (1887), Shire Hall, Albert Hall, Exchange, University College, Hospital and Eye Infirmary.

Snotengaham or *Notingham*, "the home of the sons of Snod" (the Wise), is the Anglo-Saxon name for the Celtic *Tugogobanc*, "Cave Homes". The city possesses a Charter of Henry II, and was created a city in 1897. The Corporation comprises a Mayor, 16 Aldermen and 48 Councillors. The city returns 4 members to Parliament.

Principal City Officers

Mayor (1924-1925), James Clarkson
Recorder, Hugo J. Young, K C (1920)
Sheriff (1924-1925), Robert Archibald Young
Town Clerk (1912) and Clerk of the Peace (1921), William John Board, O B E
City Coroner, Charles Lambert Rothera

Urban and Rural Population.

The population of England and Wales in 1,126 Urban and 672 Rural Districts showed the following changes at the Census of 1921 compared with that of 1911 —

	1911	1921
Population—		
Urban	28,162,936	30,034,385
Rural	7,907,556	7,850,857
Percentage of Total—		
Urban	78 1	79 3
Rural	21 9	20 7

In 1891 the percentages were Urban 72 0, Rural 28 0, in 1901, 77 0 and 23 0.

THE PRINCIPALITY OF WALES.

PHYSICAL GEOGRAPHY.

Position and Extent.—The Principality of Wales occupies the extreme west of the central southern portion of the island of Great Britain, with a total area of 7,467 sq. miles, and a population (1901) of 2,206,712. It is bounded on the N. by the Irish Sea, on the E. by the Bristol Channel, on the E. by the English counties of Cheshire, Salop, Hereford and Monmouth, and on the W. by St. George's Channel. The greatest length from N. to S. (Point of Air to Barry Island) is 136 miles, and the greatest breadth from W. to E. (St. David's Head to the English border) is 92 miles. Separated from the mainland by the Menai Straits is the Welsh island-county of Anglesey or Môn (276 sq. miles), communication with which is facilitated by the Menai Suspension Bridge (1,000 ft. long), built by Telford in 1826, and by the tubular railway bridge (1,100 ft. long) of the L. & N.W. Railway, built by Stephenson in 1850. Holyhead harbour, on Holy Isle (N.W. of Anglesey), provides accommodation for a fast steam packet service to Kingstown and Dublin (70 miles).

Population.—The population at the Census of 1901 was 2,206,712 (01, inclusive of Monmouthshire, 2,657,412).

Relief.—Wales is generally mountainous, the chief systems being those of North Wales (Snowdon 3,571 ft., Carnedd Llywelyn 3,484 ft., Carnedd Dafydd 3,426 ft.), Berwyn (Aran-fawdd 2,970 ft.), Powys (Pumlumon 2,462 ft., Drygan Fawr 2,113 ft., Radnor 2,163 ft.), and the Black Mountain, Brecknock Beacons and Black Forest ranges (Carmarthen Van 2,632 ft., Brecon Beacon 2,862 ft., Pen-y-gawr fawr 2,660 ft.).

Hydrography.—The principal river of those rising in Wales is the Severn (see England), which flows from the slopes of Pumlumon to the English border, dividing Montgomeryshire on its way. The Wye (130 miles) also rises in the slopes of Pumlumon, and flows between Radnor and Brecon on its course to England. The Usk (56 miles) flows into the Bristol Channel, through Monmouthshire. The Dee (70 miles) rises in Bala lake and flows through the Vale of Llangollen, where an aqueduct (built by Telford in 1803) carries the Pontcysyllte branch of the Shropshire Union Canal across the valley. The estuary of the Dee is the navigable portion, 14 miles in length and about 5 miles in breadth, and the tide rushes in with dangerous speed over the "Sands of Dee." The Towy (68 miles), Teifi (50 miles), Taff (40 miles), Dorey (30 miles), Tŷf (25 miles), and Coswary (24 miles), the last named broad and navigable, are wholly Welsh rivers.

The largest natural lake in Wales is Bala (Llyn Tegid) in Merionethshire, 4 miles long and about 1 mile wide. Lake Vyrnwy is an artificial reservoir, about the size of Bala, and forms the water supply of Liverpool, while Birmingham is supplied from a chain of reservoirs in the Elan and Claerwen valleys.

EARLY HISTORY.

Celts and Romans.—The earliest inhabitants of whom there is any record appear to have been subdued or exterminated by the Goidels (a people of Celtic race) in the Bronze Age, and a further invasion of Celtic Brythons followed in the ensuing Iron Age. The Roman conquest of South Britain and Wales was for some time successfully opposed by Caradog (Caratacus), King of the

Silures, a tribe inhabiting the present counties of Glamorgan, Brecon, Radnor and Monmouth. In A.D. 78 the conquest of Wales was completed under Julius Frontinus, and communications were opened up by the construction of military roads from Chester to Caereon-on-Usk and Caerwent, and from Chester to Conway (and thence to Carmarthen and Neath). Christianity was introduced (during the Roman occupation) in the 4th century, and the faith thus established was preserved (after the withdrawal of the Roman garrison) by native effort, and was carried to the northernmost corners of the British Isles by missionaries to the Hebrides and to the Orkneys and Shetlands.

The Anglo-Saxon Attacks.—The Anglo-Saxon invaders of South Britain drove the Celtic Goidels and Brythons into the mountain fastnesses of Wales, and into Strathclyde (Cumberland and S.W. Scotland) and Cornwall, giving them the name of *Walisc*, or Welch (=Foreign). The West Saxons' victory of Deorham (577) isolated the *Walisc* of Wales from those of Cornwall, while the battle of Chester (633) similarly cut off communication with the *Walisc* of Strathclyde. In the 8th century the boundaries of the Welch were further restricted by the annexations of Offa, King of Mercia, and counter-attacks were largely prevented by the construction of an artificial boundary from the Dee to the Wye (Offa's Dyke). In the 9th century Rhodri Mawr united the country against further incursions of the Saxons by land and against the raids of Norse and Danish pirates by sea, but at his death his three provinces of Gwynedd (N.), Powys (Mid.) and Deheubarth (S.) were divided among his three sons—Aneurdd, Mervyn and Cadell—the son of the last-named being Howell Dda, who codified the laws of the country, while Llewelyn ap Seissyllt (husband of the heiress of Gwynedd) again united the provinces and reigned as Prince from 1013-1022.

The Norman Conquest.—After the Norman conquest of England William I. created Palatine counties along the Welsh frontier, and Robert FitzHamon, the Norman Earl of Gloucester, raided South Wales and erected fortresses from the Wye to Milford Haven. Henry I. introduced Flemish settlers into South Wales, but after his death the Welch rose under the leadership of Gruffyth ap Rhys and routed the Norman-Flemish forces at the fords of the Teifi (Cardigan) in 1136. From the early years of the 13th century the house Gwynedd, in the north, gained an ascendancy over the whole of Wales, and Llewelyn ap Iorwerth was in constant strife with England for recognition as an independent sovereign; but Llewelyn, the son of Iorwerth, was killed in 1242 during hostilities between the Welch and English, and his brother David was captured and executed by the English in 1263. On Feb. 7, 1301, Edward of Carnarvon, son of Edward I., was created *Prince of Wales*, a title thenceforward borne by the heir apparent to the throne of England.

The Welch are a distinct nationality, with a language and literature of their own, and the national bardic festival (Eisteddfod), instituted by Prince Rhys ap Grifith in 1176, is annually maintained. These *Eisteddfodau* (sessions) form part of the *Gorwedd* (assembly), which is believed to date from the time of Prydian, a ruling prince in an age many centuries before the Christian era.

CARDIFF

CARDIFF (Glamorgan) at the mouth of the river Taff (Caer Taff), the port of the South Wales coal fields, has a municipal area of 13,628 acres, and a population at the census of 1921 of 219,688. The net tonnage of ships entered at the port in 1922 was 10,629,059 tons, and of those cleared 10,609,580 tons. The principal industries include ship repairing, rope making, steel, copper, lead and zinc works, iron and steel foundries, patent fuel works, engine wagon works, flour mills, chemical factories, paper mills, breweries, jam, vinegar and ice factories, tin plate and paint works. The chief imports are grain, timber, pitwood, ore, fruit, butter, cheese, frozen and chilled meat, potatoes. The exports include coal, coke, patent fuel, iron and steel manufactures, tin plates, &c.

The principal buildings are Cardiff Castle, built in the 11th century, the National Museum of Wales, Public Library, the University College of South Wales and Monmouthshire, the Registry of the University of Wales, Technical College, City Hall and Law Courts, and Glamorgan County Hall. The city returns 3 members to Parliament.

City Officers

Rt. Hon Lord Mayor (1924-5) W H Pethybridge.
Stipendiary Magistrate, W St J F. Williams.
Recorder, Lt.-Col. Sir Rhys Williams, Bart.,
D.S.O., K.C., M.P. (1922).
Town Clerk & Clerk of the Peace, Cecil G Brown

SWANSEA

SWANSEA (Glamorgan), at the mouth of the River Tawe, is the chief centre of the copper, tinplate and spelter industry of the United Kingdom, and contains the largest tube works in the country. The trade of the port also includes coal, patent fuel, ores, and the import and export of oil (National Oil Refineries). There is also a large ship-repairing industry. The net tonnage of ships entered in 1922 was 3,359,327 tons, and of those cleared 2,253,605 tons. The trade is principally with France, Italy and Belgium. The municipal area is 24,193 acres, with a population at the census of 1921 of 159,600. Included in the borough is the health resort of Mumbles.

The principal buildings are the Norman castle (re-built in 1230), the Royal Institution of South Wales, founded in 1825 (containing Museum and Library), and the 17th century Grammar School, founded by Hugh Gore. Swansea was chartered by King John, and incorporated as a borough by Henry III. The borough returns 2 members to Parliament.

City Officers.

Mayor (1924-25),
Recorder, R. E. L. Vaughan-Williams, K.C.
Town Clerk, H. Lang-Coath

THE KINGDOM OF SCOTLAND.

Position and Extent—The Kingdom of Scotland occupies the northern portion of the main island of Great Britain and includes the Inner and Outer Hebrides, and the Orkney, Shetland, and many other islands. The Kingdom lies between $60^{\circ} 51' 30''$ and $54^{\circ} 38' N$ latitude and between $1^{\circ} 45' 32''$ and $6^{\circ} 14' W$ longitude, its southern neighbour being the Kingdom of England, with the Atlantic Ocean on the N and W, and the North Sea on the E. The greatest length* of the mainland (Cape Wrath to the Mull of Galloway) is 274 miles, and the greatest breadth (Buchan Ness to Applecross) is 154 miles. The total area of the Kingdom is 31,520 square miles (land and water). The population (at the census of 1921) was 4,882,288, an increase of 121,394 since the census of 1911, or 2.5 per cent.

Relief—There are three natural orographic divisions of Scotland. The *Southern Uplands* have their highest points in Merick (2,764 feet), Rinn of Kells (2,668 feet), and Cairnsmuir of Carsphairn (2,612 feet), in Kirkcudbright, Hartfell (2,651 feet) in Dumfries, and Whitecomb (2,695 feet), in Peebles. The *Central Lowlands* include the valleys of the Tay, Forth and Clyde, and the cities of Edinburgh, the capital of the Kingdom, and Glasgow, its principal seaport. The heather-clad *Northern Highlands* extend almost from the extreme north of the mainland to the central lowlands, and are divided into a northern and southern system by the *Great Glen*, they contain, in the central Grampian Hills, *Ben Nevis* (4,406 feet), the highest point in the British Isles, and Ben Muich Dhui (4,296 feet). The *Cheviot Hills* form a natural boundary between Scotland and England, their highest point being Cheviot Hill (2,676 feet).

Hydrography—The principal river of Scotland is the *Clyde* (106 miles), one of the most important rivers in the world, with the greatest commercial estuary in Scotland. The Clyde is formed by the junction of Daer and Portrail water, and flows through the city and port of Glasgow to the Firth of Clyde. During its course it passes over the picturesque *Falls of Clyde*, the largest falls in the British Isles, Bonington Linn (30 feet), Corra Linn (84 feet), Dundaff Linn (10 feet), and Stonebyres Linn (80 feet), all occurring within a stretch of 4 miles, above and below Lanark. The *Tweed* (96 miles) forms a boundary between Scotland and England at Berwick, and has important woollen industries ("Tweeds") in its valley. The *Tay*, noted for its salmon, and the longest river in Scotland (117 miles), flows into the North Sea, with Dundee (the centre of the jute industry) on the estuary, which is spanned by the *Tay Bridge* (2 miles 73 yards), opened in 1897 to replace that destroyed by a gale (Dec 28, 1897). The *Dee* (90 miles), a noted salmon

river, flows through scenery of unequalled beauty to the North Sea at Aberdeen. The *Spey* (110 miles), the swiftest flowing river in the British Isles, and also noted for its salmon and its scenery, flows into the Moray Firth. The *Forth* (66 miles), navigable to Stirling, is spanned by the *Forth Bridge*, constructed 1882-9 at a cost of £3,000,000, with a length of 5,330 feet (with approaches 8,295 feet.)

The *lochs* are the principal hydrographic feature of the Kingdom, both on the mainland and in many of the Islands. The largest in the Kingdom and in Great Britain is *Loch Lomond* (24 miles long), with Lochs Awe, Tay, Rannoch and Erlich in the Grampian valleys, *Loch Ness* (24 miles long and 800 feet deep), with Lochs Oich and Lochy, in the Great Glen; and Lochs Shin (20 miles) and Maree in the northern Highlands.

Orkney—About 6 miles N of the Caithness coast, separated from the mainland by the *Pentland Firth*, is the island county of Orkney, a group of 90 islands and islets ("holms" and "skerries"), of which one-third are inhabited. The total area of the group is 375½ square miles, with a population (1921) of 25,896. Kirkwall, in *Pomona* (or mainland), the largest island of the group, is the capital of the county. Many of the Orkney (and Shetland) Islands contain *brochs* (Pictish towers) and other Pictish and Scandinavian remains. *Scapa Flow*, between Pomona and Hoy, was the war station of the Grand Fleet from 1914-9 and the scene of the scuttling of the surrendered German High Seas Fleet (June 23, 1919).

Shetland—About 50 miles N of Orkney (with the detached Fair Isle at 25 miles N) is the island county of Shetland, a group of about 100 islands and islets, of which 29 are inhabited. The total area of the group is 551 square miles, with a population (1921) of 27,921. Lerwick, in *Mainland* (the largest and principal island), is the capital of the county. *Faer Isle*, the southernmost of the group, is famous for hand-knitted hose, and *Unst* for the finest of the Shetland woollen work, for which the county is famous. *Muckle Flugga*, about 1 mile N of Unst, is the most northerly of the group and of the British Isles ($60^{\circ} 51' 30'' N$ lat.).

Western Islands—Off the W. coast, at varying distances, and extending from Sutherland to Argyll, are over 500 islands and islets, of which 202 are inhabited. The total area of these Western Islands is 2,822 square miles, with a population of close on 80,000, but owing to the mountainous surface of the land only about 300 square miles are under cultivation. The *Inner Hebrides* include the island of *Skye* (643 square miles)—capital, Portree, famous as the refuge of Prince Charlie after his defeat at Culloden, Invernesshire, in 1746), which contains the *Chailins* (Sguri-na-Banachdich, 3,243 feet), *Red Hills* (Ben Callich, 2,403 feet), and many other picturesque mountains, *Mull* (367 square miles),

* *Land's End to John o' Groat's*—The customary measurement of the Island of Great Britain is from the site of John o' Groat's house, near Duncansby Head, Caithness (at the N.E. extremity of the island) to Land's End, Cornwall (at the S.W. extremity), a total distance of 597 miles in a straight line and (approximately) 900 by road. But the site of the house of John de Groot (with its 8 doors and octagonal table, to solve the question of precedence between John and his 7 brothers) is about 4 miles S.W. of Duncansby Head, while Dunnet Head (also in Caithness) extends further N than Duncansby. John de Groot is believed to have obtained permission to settle in Caithness (from the Netherlands) in the reign of James IV. (1488-1513).

* *The Hebrides*—Until the closing years of the 19th century "The Hebrides" included other Scottish islands in the Firth of Clyde, the peninsula of Kintyre (Argyllshire), the Isle of Man, and the (Irish) Isle of Rathlin. The origin of the name is stated to be the Greek *Hebudes*, latinized as *Hebrides* by Pliny, and corrupted to its present form. The Norwegian name *Sudreygar* (Southern Islands) was latinized as *Sudoresares*, a name that survives in the Anglican bishopric of "Sodor and Man."

containing *Ben More* (3,185 feet), *Ben Bui* (2,354 feet), and *Ben Creach* (2,280 feet), *Jura* (166 square miles), with a chain of hills culminating in the *Paps of Jura*, *Beinn-an-Oir* (2,572 feet), and *Beinn Chasaidh* (2,407 feet). *Islay* (233 square miles), and many smaller islands. *The Outer Hebrides*, separated from the mainland by the *Minch*, include *Lewis-with-Harris* (770 square miles), celebrated for its homespun "Tweed," *North Uist*, *South Uist*, *Barra* and other islands. Thirteen miles *W. of Stornoway* (the largest town of Lewis and of the Hebrides) are the "Druidical" remains of *Callernish*, a well-preserved series of monolithic circles, cruciform in general arrangement, but generally regarded as a heathen monument of the remote Stone Age.

Climate—The climate of Scotland is influenced by the much indented coast line and (like that of South Britain) by the *Gulf Stream Drift*, which emerges from the Gulf of Mexico as a strong current about 30 miles in width, with a speed of about 4 miles per hour; the stream gradually loses its velocity and becomes shallower and cooler, until at about 35° N lat. (off Cape Hatteras) it ceases to be a distinct stream and its surface waters are carried across the Atlantic by the prevailing westerly winds. The climate is more bracing and less treacherous than that of England, the average duration of sunshine on the east coast being greater than on the east coast of England, while the south-western section is no wetter or more relaxing than the corresponding section of England. The mean winter temperature is in the neighbourhood of 35°, and that of summer about 58° Fahrenheit.

EARLY HISTORY

Prehistoric Man—North Britain appears to have been invaded in Palaeolithic times by a succession of races, who died out or were exterminated by other immigrants. The earliest race of which there is any record is that since known as the *Picts*, believed to be of non-Aryan origin, and stated to have been named *Picts* by the Romans on account of the tribal habit of painting the body. The *Picts* seem to have inhabited the whole of North Britain and to have spread over the north of Ireland. *Picts' Houses* are most frequent in the northern counties of Caithness and Sutherland and in the Orkney Islands, and it is generally believed that the *Picts* were driven northwards by later Celtic immigrants. Celtic *Goidels* and *Brythons* arrived from Belgic Gaul during the latter part of the Bronze Age and in the early Iron Age, and except in the extreme north of the mainland and in the islands the civilization and speech of the people were definitely Celtic at the time of the Roman invasion of Britain.

The Roman Invasion.—In A.D. 80 Julius Agricola extended the Roman conquests in Britain by advancing into *Caledonia* as far as the "Grampian" Hills, but after a victory at *Mons Graupius* (since corrupted to "Grampius") he was recalled, and no further advance was made for about 60 years, when the Roman frontier was carried to the isthmus between the Forth and Clyde and marked by the *Wall of Pius*, towards which ran military roads from the Cheviots. The Roman occupation of Southern *Caledonia* was not so effective as that of South Britain, and before the close of the second century the northern limit of Roman Britain had receded to *Hadrian's Wall*, from the Tyne to Solway Firth, where it was maintained until about 450 A.D.

The Scots—During the later years of the Roman occupation the garrison was continually harassed by Pictish tribes north of the Wall, aided by Scots (the Gaelic tribe then dominant in Ireland), and when the garrison was withdrawn these *Picts* and *Scots* were the principal enemies of the Celtic *Brythons*, who are believed to have called in the Saxons to protect them from the invasions of their neighbours. A relic of the struggle between Pict and Brython is still to be seen in the *Cathai*, or *Picts' Wark Dyke*, of Roxburgh (from *Torwoodie*, near *Galashiels*, to *Peel Fell* in the Cheviots). *Christianity* was introduced into Southern *Caledonia* about 380 by missionaries from Romanized Britain, who penetrated to the northern districts and islands. After the withdrawal (or absorption) of the Roman garrison of Britain there were many years of tribal warfare between the *Picts* and *Scots*, the *Brythonic Waelisc* (Welsh) of Strathclyde (North-west Scotland and Cumberland), and the Anglo-Saxons of the *Lothians*. The *Waelisc* were isolated from their kinsmen in Wales by the victory of the West Saxons at *Chester* (613), and towards the close of the 9th century the Scots under *Kenneth Macalpine* became the dominant power in *Caledonia*. In the reign of *Malcolm I* (943-954) the *Brythons* or *Waelisc* (Welsh) of Strathclyde were brought into subjection, the lowland kingdom of the English (*Lothian*) being conquered by *Malcolm II* (1005-1034). From the close of the 11th century until the middle of the 16th there were constant wars between Scotland and England, the outstanding figures in the struggle being *William Wallace*, who defeated the English at *Stirling Bridge* (1297), and *Robert Bruce*, who won the victory of *Bannockburn* (1314). *James IV* and many of his nobles fell at the disastrous battle of *Flodden* (1513), and in 1563 *James VI*, the Stuart King of Scotland and the heir to the Tudor line of England (his mother, *Mary* "Queen of Scots," was the great-granddaughter of *Henry VII*), succeeded *Queen Elizabeth* on the throne, his successors reigning as Sovereigns of Great Britain. After the abdication (by flight) of *James VII* and *II*, the crown devolved upon *William III* (grandson of *Charles I*), and *Mary* (daughter of *James VII* and *II*) and, their issue failing, upon *Anne* (second daughter of *James VII* and *II*). *Anne's* children died young, and the throne devolved upon *George I* (great-grandson of *James VI* and *I*). In 1689 *Graham of Claverhouse* "roused the Highlands" on behalf of *James VII* and *II*, but died after a military success at *Killiecrankie*. In 1715, armed risings led to the indecisive battle of *Sheriffmuir*, but the movement died down until 1745, when the "Young Pretender" defeated the Royalist troops under *Sir John Cope* at *Preston Pans* and advanced to *Derby* in England (1746). From *Derby*, the adherents of "James VII and III" (the title claimed for his father by the Young Pretender), fell back on the defensive, and the *Jacobite* movement was finally crushed by the Royalist troops under the Duke of Cumberland at *Culloden* (April 16, 1746).

The Hebrides did not become part of the Kingdom of Scotland until 1266, when they were ceded to *Alexander III*, by *Magnus* of Norway. Orkney and Shetland fell to the Scottish Crown as a pledge for the unpaid dowry of *Margaret* of Denmark, wife of *James III*, in 1266, the Danish suzerainty being formally relinquished in 1290.

HIS MAJESTY'S HOUSEHOLD IN SCOTLAND.

Great Steward of Scotland, H R H the Prince of Wales, &c (Duke of Rothesay)

His Majesty's Household

Hereditary High Constable, Earl of Erroll, K.T., &c
Hereditary Master of Household, Duke of Argyll
Hereditary Standard-Bearer, Lt.-Col H Scrymgeour-Wedderburn
Hereditary Aimour-Bearer (claimed by), Sir Douglas Archibald Seton-Stewart, Bart
Hereditary Cup-bearer (claimed by), Sir Windham Frederick Caumtichel-Austinther, Bart
Hereditary Usker of the White Rod, The Walker Trustees
Hereditary Keeper of Holyrood Palace, Duke of Hamilton and Brandon
Do, Falkland and Rothesay, Marquess of Hute, &c
Hereditary Keeper of Dunstaffnage, Dunoon, and Carrick, Duke of Argyll
Hereditary Keeper of Stirling Castle, Earl of Mar and Kellie, &c
Dean of the Chapel Royal and of the Order of the Thistle, Very Rev Andrew Wallace Williamson, &c, &c, &c
Chaplains in Ordinary, Very Rev A Wallace Williamson, &c, &c, &c
 Rev S J Ramsay Sibbald, M.A., &c
 Rev Robert H Fisher, D.D., Rev A M Macdonald, &c, &c
 Very Rev Prof W P Paterson, D.D., Rev John White, D.D.
Honorary Chaplain, Rev William S Jaffray, &c
Domestic Chaplain, Rev John Strutton, &c
Historiographer, Prof R Sangster Rait, &c, &c, &c
Painter and Limner, Robert Gibb, &c
Sculptor, J Pittendrigh MacGillivray, &c, &c, &c
Honorary Physicians, Sir J Mackenzie, M.D., F.R.S., Sir R W Philip, &c

SCOTTISH NATIONAL LIBRARY
 By the public-spirited generosity of Sir Alexander Grant Bart., the project for the institution of a National Library for Scotland has now been rendered possible. Sir Alexander Grant's gift of £100,000 as a permanent endowment for the proposed library has enabled the Government to accept the offer made by the Faculty of Advocates to transfer to the nation as a gift the contents of the Advocates' Library.

EDINBURGH

EDINBURGH, the Capital of the Kingdom, has a municipal area of 32,402 acres, and a population (Census of 1921) of 420,281 (over the enlarged area). The boundaries were extended in 1920 so as to include the Burgh of Leith and part of the suburban district of the County of Midlothian. The city is built on a group of hills and contains in Princes Street the most beautiful thoroughfare in the world. The principal buildings are St. Giles's Church (restored 1879-83), and St. Mary's (Scottish Episcopal) Cathedral (Sir Gilbert Scott), the Castle (which contains, in St. Margaret's Chapel, the oldest building in Scotland), Parliament House (the present seat of the judicature, containing the Advocates' and Signet Libraries), the University, the General Register House (Robert Adam), Royal Scottish Academy, National Portrait Gallery, and Holyrood Palace (containing parts of the royal palace of James IV and V). The city is governed by a town council of 71 members, and sends 6 members to Parliament (including the member for Leith).

Rt Hon Lord Provost (1924-25), Sir William Lowrie Sleight.

Town Clerk, Andrew Grierson, F.S.C., J.P.
 City Chamberlain, Robert Paton.

GLASGOW

GLASGOW, a Royal Burgh, City and County of a City, and the principal commercial centre in Scotland, has a municipal area of 19,183 acres, and had a population of 1,034,074 at the Census of 1921 (an increase of 25,682 as compared with 1911). The city occupies the north and south banks of the Clyde, one of the chief commercial estuaries of the world, and its trade was valued at £80,299,380 in 1923, the tonnage of the ships entering being 6,022,322 tons, of those cleared 6,226,430 tons. The principal industries are iron and steel works, shipbuilding, chemicals, leather, woollens, muslin-weaving, distilling, ink-making, tobacco, cotton-mills and furniture. The chief buildings are the Early English Cathedral, built early in the 12th century, and incorporating part of an earlier structure, the University (Sir Gilbert Scott), the City Chambers, the Royal Infirmary and the Western and Victoria Infirmaries, the Art Galleries and the Mitchell Library. The City is governed by a town council of 113 members, and sends 15 members to Parliament.

Rt Hon Lord Provost (1924-25), Matthew Walker Montgomery

Town Clerk, Sir John Lindsay, K.B.E., J.P., D.L.
 City Chamberlain, John A. Reid, J.P.

* The Cities of Edinburgh, Glasgow, Dundee, and Aberdeen are each a County of a City, and the Lord Provost of each is entitled, by virtue of his office, to be appointed Lord Lieutenant.

DUNDEE.

DUNDEE, a City, Parliamentary, Municipal and Royal Burgh, on the left bank of the River Tay, 4½ miles N of Edinburgh, has a municipal area of 6,548 acres, and a population (Census 1921) of 168,315 (an increase of 8,036 since 1911). The principal buildings are University College (St. Andrews University), the Technical Institute, High School, Albert Institute and the Caird Hall Buildings. The harbour affords dock accommodation of nearly 35 acres. The principal industries are jute manufacture in all its branches, and various forms of linen weaving, the making of preserves, shipbuilding, engineering, dyeing, and brewing. The City is governed by a town council of 34 members and sends 2 members to Parliament.

Rt. Hon. Lord Provost (1924-25), William High

Town Clerk, W. H. B. Martin.

Treasurer, G. A. Johnston.

ABERDEEN

ABERDEEN, a City and a Royal, Municipal and Parliamentary Burgh, 130 miles N E of Edinburgh, received its charter as a Royal Burgh from William the Lion in 1179. The municipal area is 6,748 acres, with a population (Census 1921) of 158,969 (a decrease of 4,922 since 1911). The tonnage of the ships entered in 1923 was 706,927 tons. The chief industries are granite quarrying and working, white fish, salmon and herring fisheries, engineering, chemicals, brewing, distilling, shipbuilding, paper-making, and woollen, jute and linen manufacture. The principal buildings are the East and West Churches of St. Nicholas, Municipal Offices, Marischal College, King's College, Roman Catholic pro-Cathedral, Public Library, H M Theatre, Art Gallery and Museum, and the Cathedral of St. Machar (14th century). The City is governed by a Town Council of 34 Members, and sends 2 Members to Parliament.

Rt. Hon. Lord Provost (1924-25), William Meff
Town Clerk, James W. Davidson.

In Scotland the principal local court is the Sheriff Court. The Sheriff is the Appeal Judge, but the Judge Ordinary is the Sheriff-Substitute. The jurisdiction of the Sheriff Court is both civil and criminal. In civil questions the jurisdiction is unlimited in regard to the money value of the cause. On the criminal side the Court has cognizance of all serious crime with the exception of murder and three other charges, but the power of punishment is limited to fine and imprisonment; it does not extend to penal servitude.

The Sheriff Clerk is the Clerk of the Sheriff Court, and his duties correspond nearly to those of a Registrar in the English Courts.

Prosecutions are conducted by Crown officials at the public expense, the Lord Advocate and his deputies prosecute in the High Court, the Procurators-Fiscal in the Sheriff Court.

The Convener of the Sheriffs is Sheriff Alexander L. M'Clure, Aberdeen.

The Address of the Secretary of the Sheriffs-Substitute Assoc is County Buildings, Dunfermline.

* NORTHERN IRELAND.—Under the *Government of Ireland Act, 1920*, six of the Ulster Counties (Antrim, Armagh, Down, Fermanagh, Londonderry and Tyrone), with the Parliamentary Boroughs of Belfast and Derry, form the Government of Northern Ireland, with its capital at Belfast.

† The estimated population of Northern Ireland on June 30, 1922, was 1,254,000, and of Belfast 425,000.

‡ IRISH FREE STATE.—Under the *Irish Free State (Agreement) Act, 1922*, the Provinces of Leinster, Munster and Connaught, with the Ulster Counties of Cavan, Donegal and Monaghan, form the Irish Free State, with its capital at Dublin.

§ The estimated population of the Irish Free State on June 30, 1923, was 3,165,000, and of Dublin 431,000.

PHYSIOGRAPHY.

Position and Extent.—Ireland lies in the Atlantic Ocean, to the West of Great Britain, and is separated from Scotland by the North Channel and from Wales by the Irish Sea and St. George's Channel. The land area of the island is 32,531 sq. miles and its geographical position between $51^{\circ} 26'$ and $55^{\circ} 21'$ N. latitude and from $5^{\circ} 25'$ to $10^{\circ} 30'$ W. longitude. The greatest length of the island, from N.E. to S.W. (Torr Head to Mizen Head), is 300 miles, and the greatest breadth from E. to W. (Dundrum Bay to Armagh Head) is 174 miles.

Relief.—The island is occupied for the greater part of its area by the *Central Plain*, with an elevation of 50 to 350 ft. above mean sea level, with isolated mountain ranges near the coast line. The principal mountains, with their highest points, are the *Sperrin Mountains* (Sawel 2,240 ft.) of County Tyrone; the *Mountains of Mourne* (Slieve Donard 2,796 ft.) of County Down, and the *Wicklow Mountains* (Lugnaquilla 3,039 ft.); the *Derispreagh Mountains* (Errigal 3,466 ft.) of County Donegal, the *Connemara Mountains* (Twelve Pins 2,695 ft.) of County Galway *Macgillicuddy's Reeks* (Carrantuohill 3,414 ft., the highest point in Ireland); and the *Galtee Mountains* (3,018 ft.) of County Tipperary, and the *Knockmealdown* (2,609 ft.) and *Comeragh Mountains* (2,479 ft.) of County Waterford.

Hydrography.—The principal river of Ireland (and the longest in the British Isles) is the *Shannon* (240 miles), rising in County Cavan and draining the central plain. The *Shannon* flows through a chain of loughs to the city of Limerick, and thence to an estuary on the western Atlantic seaboard. The *Slaney* flows into Wexford Harbour, the *Liffey* to Dublin Bay, the *Boyne* to Drogheda, the *Lee* to Cork Harbour, the *Blackwater* to Youghal Bay, and the *Suir*, *Nore*, and *Barrow* to Waterford Harbour.

As in Scotland, the principal hydrographic feature is the *Loughs*, of which *Lough Neagh* (150 sq. miles), is the largest in Ireland and the British Isles, others being the *Shannon Chain of Allen*, *Boderg Forbes*, *Ree* and *Derg*, and the *Irish Chain of Gowna*, *Oughter*, *Lower Erne* and *Erne*, in the central plain, *Melenn*, *Gill*, *Gara* and *Conn* in the north; and *Corrib* and *Mask* (joined by a hidden channel) in the south. In County Kerry, to the east of *Macgillicuddy's Reeks*, are the famous *Lakes of Killarney*.

Climate.—The climate of Ireland is more equable than that of Great Britain, and the rainfall is more evenly distributed. The variation in mean temperature is only about 3° Fahrenheit, the summer extremes being 59° in the N. and 62° in the S.

HISTORICAL SKETCH.

Primitive Man.—Although little is known concerning the earliest inhabitants of Ireland, there are many traces of neolithic man throughout the island, while the use of bronze implements appears to have become known about the middle of the 17th century B.C. In the later Bronze Age a Celtic race of *Goidels* appear to have invaded the island, and in the early Iron Age *Brythons* from South Britain are believed to have effected settlements in the south-east while *Picts* from North Britain established similar settlements in the north. The Roman invaders of Britain did not penetrate to Ireland, and during the first century of their occupation of Britain the dominant tribe in Ireland was called by the Romans *Scoti*, and this tribe eventually established themselves in the north of the neighbouring island.

Legendary History.—According to Irish legends, the island was settled by a Milesian race, who came from *Scythia* by way of Spain, and established the *Kingdom of Tara*, about 500 B.C. The supremacy of the *Aidri* (high king) of Tara was acknowledged by eight lesser kingdoms (Munster, Connaught, Ailech, Ortel, Ulidia, Meath, Leinster, and Ossory) ruled by descendants of the eight sons of *Miled*. The basalt columns on the coast of Antrim, eight miles from Portrush, known as the *Giant's Causeway*, are connected with the legendary history of Ireland as the remains of a bridge built in the time of *Finna MacCoul* (Fingal) to connect Antrim with Scotland (Staffa).

Christianity.—Christianity appears to have been known to many of the people of Ireland before the 4th century A.D., although it did not become general until the advent of St. Patrick. St. Patrick was born in Britain about 380, and was taken to Ireland as a slave about sixteen years later, escaping to Gaul at the age of 22. In 432 he was consecrated Bishop at Auxerre and landed in Wicklow to establish and organise the Christian religion throughout the island.

The Northmen.—The Roman conquest of Britain was not extended to Ireland and little is known of the history of the country until the invasions of *Northmen* (Norwegians and Danes) towards the close of the 8th century A.D. The Norwegians were distinguished as *Fingegall* (White Strangers) and the Danes as *Dulgegall* (Black Strangers), names which survive in "Fingall," "Macbougall" and "MacDowell," while the name of the island itself is held to be derived from the Scandinavian *Irland* (Land of the Irish), the Provinces of Ulster, Leinster and Munster being survivals of the Norse *Uladstadr*, *Lauginstadr* and *Munamstadr*. The outstanding events in the encounters with the Northmen are the *Battle of Tara* (900), at which the Hy-Nell king *Maelschlainn II.* defeated the Scandinavians of Dublin and the Hebrides under their king *Amalbh Cuarán*, and the *Battle of Clontarf* (1014) by which the Scandinavian power was completely broken. After *Clontarf* the supreme power was disputed by the O'Briens of Munster, the O'Neills of Ulster, and the O'Connors of Connaught, with varying fortunes.

The Anglo-Norman Invasion—In 1152 Dermot MacMurrough (Diarmait MacMurchada), the deposed king of Leinster, sought assistance in his struggle with Ruaidrí O'Connor (the *Ardrí*, or high king, of Ireland), and visited Henry II, the Norman king of England. Henry authorized him to obtain armed support in England for the recovery of his kingdom and Dermot enlisted the services of Richard de Clare, the Norman Earl of Pembroke, afterwards known as *Strongbow*. Strongbow landed at Waterford (Aug. 23, 1170) with 200 knights and 1,000 other troops for the reconquest of Leinster, where he eventually settled, after marriage with Dermot's daughter. In 1172 (Oct. 18) Henry II himself landed in Ireland, with a force larger than Strongbow's, and obtained homage from the Irish kings, but Anglo-Norman rule underwent many fluctuations in the succeeding centuries, being confluent in the early 15th century within the English "Pale" of 600 square miles.

Tuators and Statute—In the reign of Henry VII. English rule was greatly extended, and the administration of Irish affairs was anglicised by Robert Poyning, Lord Deputy of Ireland, who summoned the *Parliament of Drogheda* (Dec. 1494), at which were enacted the Statutes of Drogheda, afterwards known as *Poyning's Law*, making the legislature of Ireland subordinate to and dependent on that of England. A later parliament conferred on Henry VIII. the title of King of Ireland, and in Elizabeth's reign the conquest of the island was completed. In the time of James I. an apparently trivial incident, the introduction of the potato (1616), profoundly influenced the future of the nation, as it required little labour to cultivate, and "Kaleigh's fatal gift" soon became so much the main food of the Irish that a potato famine caused almost universal starvation. In the same reign also many of the leading families of the north-eastern counties fled the country after participation in an abortive rebellion, and then lands were distributed amongst English and Scottish colonists, adherents of the Reformed Church, the number of Protestant settlers constantly increasing in succeeding years.

The Commonwealth—Cromwell's campaign in Ireland (1649-1650) was carried on with ruthless cruelty and universal military success, terminating in the subjugation of the island and the legislative union with England, but further estrangement was caused between the Roman Catholics and the Protestant Colonists.

The House of Orange—At the Revolution of 1688 the Irish Protestants adhered to the cause of William and Mary, and William III. defeated the Roman Catholic adherents of James II. at the *Battle of the Boyne* (July 1, 1690) and at the *Battle of Aughrim* (July 12, 1691).

The Act of Union—The Jacobite risings of 1715 and 1745 found no adherents in Ireland, but various insurrections took place in the 18th century, culminating in the rebellion of 1798, after the suppression of which the *Act of Union* (Jan. 1, 1801) combined the Irish and British legislatures. Catholic Emancipation was enacted by the Parliament of the United Kingdom in 1829, and extensive relief works were carried out to mitigate the severities of famine from 1831-1847. In 1845 the population reached its highest point (8,295,061) of whom the vast majority were dependent for food on the success of the potato crop.

Home Rule—The demand for a separate Parliament for Ireland was first advanced at Westminster by an Irish party under the leadership of Isaac Butt (born 1813, died 1879), who was succeeded by Charles Stewart Parnell (born 1846, died 1891) by whose efforts the necessity of granting a measure of Home Rule to Ireland was impressed upon one of the great political parties of Great Britain. After many failures to pass a Bill through both Houses of Parliament a Home Rule Bill was eventually placed on the Statute Book in 1914, with a suspensory clause for the duration of the War. In the later stages of the War, however, the extreme party of Irish politicians developed their organization under the name of *Sinn Féin* ("Ourselves Alone") and demanded complete severance from Great Britain and the recognition of an Irish Republic, and of its elected legislature (*Dáil Eireann*). Various efforts were made by the Cabinet of the United Kingdom to arrive at a solution of the Irish problem, which was complicated by the separatist demands of the extremists (in open rebellion against the Government), and the desire of the Protestants of Ulster to remain united with Great Britain, with the additional problem of the minorities of Protestants in the Southern counties. The *Government of Ireland Act, 1920*, superseded the Act of 1914 and established two governments in Ireland, with an executive and legislature of two chambers in Southern Ireland and in Northern Ireland, and a Council of Ireland to co-ordinate the work of the two legislatures. This Act was accepted and was brought into operation in Northern Ireland, the Northern House of Commons being duly elected and the Senate formed, Sir James Craig becoming the first Prime Minister of Northern Ireland. The Republicans (*Sinn Féin*) of Southern Ireland refused to accept the Act, and lengthy negotiations took place between *Sinn Féin* representatives and the Cabinet of the United Kingdom, resulting ultimately in the signing of a "Peace Treaty," Dec. 6, 1921, which was ratified by *Dáil Eireann*, Jan. 7, 1922.

The Irish Free State—Under this Treaty there was set up in Southern Ireland the *Irish Free State* (*Saorstát Eireann*), "a co-equal member of the Community of Nations forming the British Commonwealth of Nations."

TRADE OF IRELAND

Trade of Ireland—The value of the Irish import and export trade is shown below—

Year	Imports	Exports
	£	£
1913	74,467,000	73,877,000
1918	126,016,000	152,931,000
1919	158,716,000	176,022,000
1920	203,750,000	204,715,000
1921	118,971,000	129,621,000

The trade of 1921 was classified as under—

	Imports	Exports
	£	£
Farm Produce, Food and Drink	46,500,000	74,089,000
Raw Materials	13,082,000	2,968,000
Manufactures	59,389,000	52,564,000

Trade with Great Britain, 1921

Imports from Great Britain	£93,000,000
Exports to Great Britain	127,000,000

Northern Ireland.

Chairmen of Quarter Sessions.

Armagh and Fermanagh, G. C. Green, £1,400

Down, A. H. Bates, 1,400

Tyrone, I. Linehan, K.C., 1,400

EDUCATION

In 1924 there were 2,092 National Schools affording Elementary Education to 298,131 pupils, 78 Intermediate Schools, with 6,253 pupils, 30 Technical Schools, with 17,892 pupils, and the Queen's University at Belfast, with 79 Professor and Lecturers, and 1,240 students

FINANCE

Taxation is imposed in Northern Ireland on account of certain "Reserved Services" by the Imperial Government, which collects and remits the balance after cost of collection, to the Northern Exchequer, with regard to other services the Parliament of Northern Ireland has control. The Northern Government makes a contribution to the Imperial Exchequer in return for services carried out by the Imperial Authorities

PRODUCTION AND INDUSTRY

Agriculture and Live Stock—In 1922 there were 410,630 acres under corn crops (oats, 399,722 acres, 223,950 under green crops (potatoes, 168,567), 29,127 under flax, 10,379 under fruit, and 481,710 under hay, a total acreage of 1,155,786. The production (1922) in tons was oats, 306,594, potatoes, 1,251,709, turnips, 764,005, flax, 4,699, hay, 782,557. The *Live Stock* included 830,331 cattle, 499,041 sheep, 117,277 pigs, 58,145 goats, 115,363 horses, 508 mules, and 10,447 asses

Minerals—About 1,140 persons were engaged* in the various mines and quarries in 1922, the principal output being igneous rock, 254,030 tons, chalk, 88,147 tons, 305 tons of coal were won in 1921

Manufactures—Belfast is the principal industrial centre. Linen manufactures provided employment for over 80,000 persons in 1922, the number of looms being 40,000, and of spindles, 1,000,000, the value of the Exports in 1922 exceeded £11,000,000. The shipyards employed over 29,000 persons in 1922, the output exceeding 250,000 tons annually.

Communications.—In 1924 there were 765 miles of railway and 180 miles of canal. The tonnage of vessels arriving (with cargoes and in ballast) at the port of Belfast in 1922 was 616,154 net tons, and the departures, 558,660 tons.

The Irish Free State—Saorstát Éireann.

THE GOVERNOR GENERAL.

His Excellency Timothy Michael Healy, K.C., born 1855, appointed Governor General Dec. 6, 1922.....£10,000

CONSTITUTION AND GOVERNMENT

UNDER the Irish Free State (Agreement) Act, 1922, the Irish Free State (*Saorstát Éireann*) is a coequal member of the Community of Nations forming the British Commonwealth of Nations. The Constitution, as issued by the Crown, June 16, 1922, contains five Sections, of which Section I is declaratory of Fundamental Rights (1) The coequality of the Irish Free State (2) Power of government derived from the people, in accordance with the Constitution (3) Irish domicile for seven years, or Irish parentage on either side, conferring Irish nationality, and men and women having equal rights as citizens (4) Irish the national language, English being recognised as an official language (5) No titles or honours may be conferred on any citizen, except with the approval or advice of the Executive Council (6) Liberty of the person inviolable (7) Dwelling of each citizen inviolable (8) Freedom of conscience and profession and practice of religion, and no law establishing or prohibiting religion may be passed (9) Free speech and right of lawful assembly (10) Free education for all citizens (11) Natural resources of the State inalienable

Section II provides for a legislature (*Oireachtas*) of the King and two houses, the Chamber of Deputies (*Dáil Éireann*) and the Senate (*Seanad Éireann*), the former elected by secret ballot and by direct vote of all citizens above the age of 21 years who comply with the existing electoral laws and consisting of not less than one member for each 30,000 of the population and not more than one member for each 20,000 of the population. The latter, consisting of 26 Senators and of 2 Senators from each University, elected by all citizens above the age of 30 years who comply with the existing electoral laws. Every citizen who has reached the age of 21 years is eligible for the Chamber of Deputies, the Senate is composed of citizens who have reached the age of 35 years and have done honour to the nation by reason of useful public service, or who are specially qualified as representing important aspects of the nation's life. Parliament shall hold at least one session each year and members are required to take the following oath:

I do solemnly swear true faith and allegiance to the Constitution of the Irish Free State as by law established, and that I will be faithful to His Majesty King George V, his heirs and successors by law in virtue of the common citizenship of Ireland with Great Britain and her adherence to and membership of the group of nations forming the British Commonwealth of Nations.

Provision is made for the "Initiative" of proposals for laws or constitutional amendments on a petition of 50,000 voters on the register, and for the submission of any bill passed by both houses to a "Referendum" for the decision of the people.

In this Section also Article 45 declares that the Parliament (*Oireachtas*) has the exclusive right to regulate the raising and maintaining of such armed forces as are mentioned in the scheduled Treaty in the territory of the Irish Free State, and every such force shall be subject to the control of the Parliament. Save in the case of national invasion, the Irish Free State shall not be committed

to active participation in any war without the assent of the Parliament.

Section III vests the Executive Authority in the King and provides that it shall be exercised in accordance with the law, practice, and constitutional usage governing the exercise of the executive authority in the case of the Dominion of Canada, by the representative of the Crown. The Executive Council (*Aireacht*) is responsible to the Chamber, and consists of not more than twelve Ministers (*Aire*) appointed by the representative of the Crown, of whom four ministers shall be members of the Chamber, and a number not exceeding eight chosen from all citizens eligible for election to the Chamber, who shall not be members of Parliament during their term of office, and who, if at the time of their appointment they are members of Parliament, shall by virtue of such appointment vacate their seats, provided that the Chamber may from time to time, on the motion of the President of the Executive Council, determine that a particular Minister or Ministers, not exceeding three, may be members of Parliament, in addition to the four members of the Chamber above mentioned.

Section IV establishes a Judiciary, consisting of Courts of First Instance, and a Court of Final Appeal to be called the Supreme Court (*Cúirt Oachtarach*). The Courts of First Instance include a High Court (*Ard Chúirt*), invested with full original jurisdiction in and power to determine all matters and questions whether of law or fact, civil or criminal, and also Courts of local and limited jurisdiction with a right of appeal as determined by law. The decision of the Supreme Court shall in all cases be final and conclusive, and shall not be reviewed or capable of being reviewed by any other Court, Tribunal or Authority whatsoever. Provided that nothing in the Constitution shall impair the right of any person to petition his Majesty for special leave to appeal from the Supreme Court to his Majesty in Council or the right of his Majesty to grant such leave.

Section V contains certain Transitory Provisions to meet the special circumstances incidental to the establishment of the Legislature, &c.

THE EXECUTIVE.

EXECUTIVE COUNCIL

(a) *Ministers who are members of, and who constitute, the Executive Council of the Irish Free State*

<i>President of the Executive Council, Liam T. MacCosgair (William T. Cosgrave)</i>	£2,500
<i>Vice-President and Minister for Justice, Caoimhghín Ó hUigín (Kevin O'Higgins)</i>	1,700
<i>Minister for Finance, Eamán de Blaghd (Ernest Blythe)</i>	1,700
<i>Min. for Industry and Commerce, Pádraig MacGiollaigáin (Patrick McGilligan)</i>	1,700
<i>Minister for Education, Eóin Mac Néill (Professor John MacNeill)</i>	1,700
<i>Minister for External Affairs, Deasamhúhain MacGearailt (Desmond Fitzgerald)</i>	1,700
<i>Minister for Defence, Liam T. MacCosgair (William T. Cosgrave)</i>	1,700

Other Ministers.

(b) *Ministers who are not members of the Executive Council.*

Minister for Lands and Agriculture,
Pádraig Ó hógáin (Patrick Hogan).

Minister for Fisheries, Fionán Ó Lóingsigh
(Finian Lynch).

*Minister for Local Government and Public
Health,* Seumas de Búrca (James Burke).

Minister for Posts and Telegraphs, Seamus
Breathnach (James J. Walsh).

Officers.

Parl. Secretary to the Executive Council,
Eamon O Dugain (Edmund Duggan).

Parl. Sec. to the Pres., Seumas Ó. Dólaín
(James Dolan).

Attorney General of the Irish Free State,
Seán Ó Broin (John O'Byrne, K.C.).

Sec. to the Executive Council, Diarmuid
O hEigeartaigh (Diarmuid O'Hegarty).

*Assistant-Secretary to the Executive
Council,* Mícheál MacDonnachadha
(Michael McDonnaphy).

High Commissioner in London.

J. MacNeill, York House, Regent Street, S.W. 1.

THE LEGISLATURE

The Legislature (*Oireachtas*) consists of a Senate (*Seanad Éireann*) of 60 members, of whom 30 are elected by the Chamber of Deputies and 30 are nominated by the President of the Executive Council, 15 of the latter holding office for 12 years and 15 for 6 years, and of a Chamber of Deputies (*Dáil Éireann*) on a population basis (153 at present) elected on the principles of Proportional Representation. The maximum duration of the Chamber is 4 years.

Speaker of Dáil Éireann, Mícheál
O hAodha (Michael Hayes). £1,700

Deputy Speaker of Dáil Éireann, Pádraig
O Máille (Patrick O'Malley). 1,000

Clerk of the House, Colm O Murchadha
(Colm Murphy).

Party Strength (Dáil Éireann).

Treaty	67
Anti-Treaty	44
Farmers	14
Labour	16
Independents	13

Total 153

*. Members of Dáil Éireann, other than Ministers, are allowed £30 a month towards expenses, together with free travelling facilities between Dublin and their constituencies.

THE JUDICATURE.

The Supreme Court of the Irish Free State has appellate jurisdiction from decisions of the High Court.

Lord Chief Justice, Hugh Kennedy . . . £5,000

Pres. of the High Court, Timothy Sullivan £5,000

Judges, Supreme Court, Rt. Hon. C. A. O'Connor, Gerald FitzGibbon . . each £4,000

Judges, High Court, J. Creed Meredith;
T. L. O'Shaughnessy; W. E. Wylie;

W. J. Johnston; J. A. Murnaghan each £3,500

DEFENCE

The command of the armed forces of the Free State is vested in the Executive Council and is exercised by the Minister of Defence. Such forces as may be deemed necessary are raised and maintained under the Defence Forces Act, 1923, the numbers being determined by the Legislature.

EDUCATION.

Primary Education, with compulsory attendance in many counties, is directed by the State, which also pays the teachers and contributes to the cost of the buildings; the estimated expenditure on Primary Education in 1922-3 was £3,863,921. Secondary Education is in private hands and is largely conducted by Religious Orders, the State contribution in 1922-3 being £132,750. There are two Universities in Dublin, of which the National University has 3 constituent colleges (Cork, Galway and Dublin), in 1922 the Professors, &c., at the two Universities numbered 220, and the students 3,412.

FINANCE.

The Budget for 1924-5 estimates the expenditure of the Free State at £31,872,702. The Budget for 1923-4 estimated the expenditure at £42,000,000 (Army, £10,564,500. Compensation for property losses, £10,382,500. Old Age Pensions, £3,377,000. Secret Service, £50,000; Civil Guard, £1,147,039; Criminal Investigation Department, £47,554; General Prisons Board, £225,631; Local Government, £955,202; Agriculture, £400,082; Education, £3,954,489. Post Office, £2,831,854. Industry and Commerce, £395,445. Metropolitan Police, £327,537. Governor-General's Establishment, £11,423. The principal source of revenue is a duty of 3½ per cent. on imports.

PRODUCTION AND INDUSTRY

Agriculture and Live Stock—In 1922 there were 1,022,775 acres under corn crops, 730,924 under green crops, 4,935 under flax, 10,922 under fruit, and 2,062,504 under hay, a total of 3,832,219 acres. The principal produce in 1922 was oats, 573,228 tons, potatoes, 2,179,532 tons, turnips, 2,673,770; tons, mangolds, 1,298,943 tons, flax, 849 tons; and hay, 3,843,362 tons. The Live Stock included 4,326,294 cattle, 3,067,473 sheep, 919,449 pigs, 192,298 goats, 429,102 horses, 25,276 mules, and 221,991 asses.

Minerals—Over 2,000 persons were employed in the mines and quarries in 1921; 82,232 tons of coal were won in 1921.

Fisheries—Over 13,000 persons were employed in the fisheries in 1922, the total value of all fish landed being £281,639.

TRADE

The trade with Great Britain and Northern Ireland in the twelve months ending March 31, 1924, amounted to £45,262,852 for Imports (Produce or Manufacture of Great Britain, &c.) £36,476,341; Foreign Merchandise, £9,786,511; and £43,934,368 for Exports from Irish Free State to Great Britain and Northern Ireland.

COMMUNICATIONS.

Shipping—The principal ports are Cork (including Queenstown) and Dublin. The net tonnage of all vessels arriving and departing (with cargoes and in ballast) in 1922 was as under:—

Foreign Trade.		
Port	Arrivals	Departures
Cork	2,905,176	2,819,225
Dublin	573,355	281,622
Coasting Trade.		
Port	Arrivals	Departures
Cork	556,153	591,496
Dublin	2,517,949	2,540,293
Wexford	210,102	211,293

Railways—In 1924 there were 3,032 miles of railway carrying 16,124,573 passengers in 1922.

Canals—There are 223 miles of canal and about 200 miles of navigable rivers in the Free State.

THE ISLE OF MAN (MONA),

an island in the Irish Sea, in lat. $54^{\circ} 3' - 54^{\circ} 25' N$ and long. $4^{\circ} 18' - 4^{\circ} 47' W$, nearly equidistant from England, Scotland, and Ireland. The total land area is **145,225 acres (227 sq. miles)**, with a population (1922) of **49,233**. The cultivated area (1922) was **83,847 acres**, and the live stock included **5,153 horses, 19,250 cattle, 75,507 sheep, and 4,350 pigs**. In the 9th century a body of malcontents from Norway emigrated to the western isles of Scotland, and their prosperity drew upon them the anger of the Norwegian monarch Harold, who in the year **870** sent forth a great expedition and conquered the Orkneys and the Shetlands, the Western isles, and Man. For three centuries the Norwegian rule remained intact, but when, in **1263**, Alexander III. defeated the famous Haco, at the battle of Largs, all these islands fell under Scottish rule. On his accession to the English throne, Henry IV. seized on the Isle of Man, and in **1406** bestowed it on the Stanley family. In **1567** the Crown purchased it for the sum of **£417,144**.

The land is rich in minerals, lead, iron, blende and slate, and exports large quantities of agricultural produce. Fifty miles of railway have been constructed, and about **23 miles** of electric tram road.

Man is governed by a separate Legislature, called the Tynwald, consisting of two branches—the Governor and Council and the House of Keys. The House of Keys (possibly from the Scandinavian *keise* = chosen) is one of the most ancient legislative assemblies in the world. It consists of **24 members**, elected by the male and female owners and occupiers of property, **3 from each sheading, 3 from Douglas, and 1 each from Castletown, Peel and Ramsey**. Bills after having passed both Houses are signed by the members, and then sent for the Royal Assent. Unless signed by the legal quorum of each House a Bill is not sent for the Royal Assent, the quorum of the Upper House or Council being the Governor and two Members, and of the Lower House or Keys thirteen Members, the majority of the whole number (**24**). After receiving the Royal Assent, it does not become law until promulgated in the English and Manx languages on the Tynwald Hill. On the promulgation taking place a certificate thereof is signed by the Governor and the Speaker of the House of Keys. In **1923** the Tynwald offered the Imperial Government the sum of **£200,000** as the Island's contribution to the cost of the Great War.

CAPITAL, Douglas. Pop. (1921), **20,192** (Castletown is the ancient capital), the other towns are Peel and Ramsey.

THE CHANNEL ISLANDS

situated off the north-west coast of France (at distances of from ten to thirty miles) are the only portions of the *Dukeedom of Normandy* now belonging to England, to which they have been attached ever since the Conquest. They consist of Jersey (28,717 acres), Guernsey (55,654 acres), and the following dependencies of Guernsey—Alderney (1,062 acres), Brechou (74), Geth Sark (1,035), Little Sark (239), Herm (320), Jethou (44), and Lihou (38). The total of **47,083 acres, or 73 1/2 square miles**. The 1921 census population of Jersey was **49,494**, and of Guernsey, &c., **40,120**, total, **89,614**.

The climate is mild, and the soil exceptionally productive. The land under cultivation in **1926** was **49,678 vergées** (2 1/2 vergées = 1 acre), the principal product of the soil of Jersey being potatoes, tomatoes, and wheat, and of Guernsey green crops and oats, fruits and tomatoes. The famous Jersey and Guernsey breeds of cows have earned a well deserved celebrity. The principal officer in each island is the Lieut.-Governor, who represents the King-Emperor (the Duke of Normandy). French is the official language of the local legislatures, called the *States*, and of the Royal Court, and is still spoken by the people, but English is now permissible in the Legislative Assembly. The Bailiff, appointed by the Crown, presides over the *States* and over the Royal Court or judicial body. The islands being all but exempt from imperial taxation they possess a very large trade. The chief town of Jersey is St. Helier, on the south side, the principal town of Guernsey is St. Pierre Port, on the east coast.

THE COST OF LONDON GOVERNMENT.

The authorities comprise the Corporation of the City of London, the London County Council, the Metropolitan Water Board, the Metropolitan Asylums Board, twenty-eight Borough Councils, and twenty-eight Boards of Guardians. War bonuses account for a large part of the increases shown under "salaries and wages" in the last year of the period.

	1913-14	1920-21		1913-14	1920-21
City Corporation	£ 1,174,308	£ 2,050,291	Metro Water Board	£ 3,035,026	£ 5,085,546
London County Council	£ 1,686,389	£ 2,684,734	Metro Asylums Board	£ 1,168,778	£ 3,207,561

Of the total expenditure set out above, the amounts spent on salaries and wages rose as follows, between the pre-war year and 1920-21: City Corporation, £444,586 to £657,331; London County Council, £5,830,540 to £14,814,737; Metropolitan Water Board, £432,802 to £1,228,825; Metropolitan Asylums Board, £210,416 to £1,341,147.

THE CORPORATION OF THE CITY OF LONDON.

LONDON was famed for its vast conflux of traders and its abundant commerce even in the first century of the Christian era. From the Romans it is said it received municipal institutions, which have endured in their main features to the present day. In Saxon times it was in reality a small independent State, and its burgesses maintained their independence even after the Battle of Hastings. William the Norman only gained possession of their city by means of a treaty with them, and about eight years after he granted a charter, which is still preserved. It is addressed to William the Bishop, Godfrey the Portreeve, and all the Burgesses and promises that they shall be "law worthy" (i.e., possessed of privileges) as they were in the days of Edward the Confessor. The Portreeve, however, received the Norman title of Bailiff, which, in 1197, was changed to Mayor, the first holder under the new name being Henry Fitzalwin, who filled the office for 24 years. On his death a new charter was granted by King John in 1214, which directed the Mayor to be chosen annually, which has ever since been done, though in early times the same individual often held the office more than once. A familiar instance is that of "Whittington, thrice Lord Mayor of London" (in reality four times, A.D. 1397, 1398, 1406, 1419), and many modern cases have occurred. The title of *Lord Mayor* was not in general use in the outer world until about 1545. The Lord Mayor is elected at Michaelmas, he is sworn into office on November 8, and on the following day presented to the Lord Chief Justice at the Royal Courts of Justice, to take the final declaration of office—the pageant, conducted with some degree of civic state, being popularly known as the *Lord Mayor's Show*.

Aldermen were first appointed by a charter of Henry III in 1242, and were elected annually between 1377 and 1394, when a charter of Richard II directed them to be chosen for life. The *Common Council* was at an early date substituted for a popular assembly called the *Wok-mote*. At first only two representatives were sent from each ward, but the number has since been greatly increased, some wards having as many as 16 members, and none less than four. *Sheriffs* (as well as aldermen) were Saxon officers, who usually had charge of a large district. The time of their appointment for London is uncertain, but they appear in ancient records as early as A.D. 1130. At first they were only the officers of the Crown, and were named by the Barons of the Exchequer, but King John gave them, in the first year of his reign, permission to choose their own Sheriffs. The citizens, however, lost this privilege, as far as the election of Sheriff of Middlesex is concerned, by the Local Government Act, 1888, but they continue as heretofore to choose the Sheriffs of the City of London. They are appointed on Midsummer Day, and enter on office at Michaelmas.

Officers—The Recorder was first appointed in 1298. The Chamberlain is an ancient officer. There were at one time two Chamberlains—the King's Chamberlain and the Chamberlain of the Guildhall. The former appears to have fallen into abeyance c. 1319. The first contemporary record of the office of City Chamberlain is 1276. The Town Clerk (called Common Clerk) and Common Serjeant (now appointed by the Crown) are mentioned as officers in the charter of Edward II, A.D. 1319, but the offices can be traced to a much earlier date than this.

The Right Honourable the Lord Mayor 1924-1925.

Col. Sir Alfred Louis Bower, Kt., born 1850, Common Councillor, 1895, Alderman of Langbourn, 1917, Sheriff of London, 1913, Lord Mayor of London, 1924. Address, The Mansion House, E.C. 2. £10,000.

Private Secretary (50th year), Sir Wm. J. Soulshy, K.C.V.O., C.B., C.I.E.

The Aldermen.

* The above is abstracted from the 2021 "City's Cash Account" of the series extant—A.D. 1923 to 1923-24. (The Accounts earlier than A.D. 1923 were believed to have been destroyed in the Fire of London, but two years' Accounts, from Queen Elizabeth, have been discovered among the Corporation Archives, as exceptions to that belief.) The Volumes are in full detail, signed by the Auditors, and in perfect preservation. The above extract is from the 240th Annual Printed Account of the Corporation, A.D. 1924 to 1924-25. The Accounts are prepared and stated as directed by Resolutions of the Court of Common Council of the 5th June, 1903, the 21st December, 1906, and 25th January, 1917, upon Reports of the Coal and Corn, and Finance Committee, and they are printed in conformity with the 7th Standing Order of the Court of Common Council. The Accounts are made up to the end of March and are issued in the form prescribed by those Orders, and show the Income and Expenditure applicable to the year on the various Funds.

THE CITY GUILDS (LIVERY COMPANIES).

In the majority of cases the designation of the Company gives a clue to the trade which gaverise to the guild, the Broderers (Embroiderers), Cbrd-wainers (cobblers), Fletchers (arrow makers), Loriners (bridle, bit, and spur makers), Poulterers (poulterers), Scavengers (legal writers), Upholders (upholsterers), and Vintners (wine sellers) retaining the ancient name of the trade. The order of precedence is given in parentheses after the name of each Company

8,983 Liverymen of the (Guilts are entitled to vote at elections in *Common Hall* (see p. 561). The actual net number is, however, smaller, as many belong to more than one Guild, and only those who have residential or other qualification in the City have the *Parliamentary* vote in that district. The Liverymen of the Haberdashers and the Loriners are the most numerous liverymen, the Fletchers the least, comprising only twenty

Proposed "London Health Area"	3,045,120	9,201,484	9,610,234

Parliamentary Boundaries—In consequence of changes under the Representation of the People Act (1918) the Administrative County of London now includes the whole of the Metropolitan Parliamentary Divisions. It also comprises the City of London and the 28 Metropolitan Boroughs.

The Metropolitan Police District extends over a radius of 15 miles from Charing Cross, exclusive of the City of London, with an assessable value for 1924 of £62,830,255, and embraces an area of upwards of 600 square miles. The number of new houses built since 1879 up to and including the year 1922 is 650,406.

CRIME IN LONDON

Principal Crimes Committed, Persons Apprehended, Property Stolen and Recovered, &c. in the Metropolitan Police District in five years 1919-1923.

DRUNKENNESS IN LONDON.

The convictions for drunkenness in the Metropolitan Police District during certain years were as follows.—1913, 64,713; 1918, 9,901; 1919, 20,674; 1920, 29,956; 1921, 27,410—Jan-June, 12,736; July-Dec, 14,674; 1922, 30,799—Jan-June, 15,295; July-Dec, 15,504; 1923, 30,024—Jan-June, 15,203; July-Dec, 14,821.

THE LONDON COUNTY COUNCIL.

Offices, The County Hall, Westminster Bridge, S.E. 1, and Old County Hall, Spring Gardens, S.W. 1.

Hours 9.30 to 5 (Monday to Thursday), 9.30 to 5.30 (Friday), 9.30 to 11.30 (Saturday).

Meets on Tuesday at 2.30 p.m.

THE London County Council was constituted under the Local Government Act of 1888. London is an administrative county, covering an area of 177 square miles.

The City of London is an electoral division of the county. The County of the City of London is a county for non-administrative purposes, such as quarter sessions, justices, &c.; and the Metropolis outside the City is a county for non-administrative purposes, by name the County of London, in which the justices continue their judicial duties.

The Council comprises a chairman, 20 aldermen, and 124 councillors, together 145, or, if the chairman be also an elected member or alderman, 144. The term of office for aldermen is 6 years, and half retire every 3 years. The councillors are elected for 3 years. The councillors are elected directly by the ratepayers, and the councillors elect the aldermen. The positions of aldermen and councillors are the same, except as to the term of office.

The method by which the Council discharges the multitudinous duties entrusted to it is a generous delegation of powers to committees under well defined rules, subject to the reservation to the Council itself of all questions of principle, and to periodical reports of action taken.

The Finance Committee have important statutory powers. No costs, debt or liability exceeding £50 may be incurred by the Council except upon a resolution passed on an estimate submitted by the Finance Committee. The Council is the principal money-raising body for all the local authorities in the county, and has a net debt, according to the latest returns, of £54,910,000 (of which £22,300,000 represents debt incurred for revenue producing undertakings), and an annual expenditure of about twenty-seven millions, of which about twelve and a half millions are expended on education. The Mental Hospitals Committee administer the duties falling on the Council under the Lunacy Acts and the Mental Deficiency Act, 1913. The Council has mental hospitals and other institutions for the care of mental defectives with accommodation for over 20,000 patients. The Housing Committee perform the duties cast upon the Council by the various Housing Acts, including the clearance of insanitary areas and the building of working-class dwellings. These duties have involved expenditure under the following heads: (1) Non-Assisted Schemes (the dwellings on which are self-supporting) which were carried out prior to the passing of the Housing, Town Planning, &c. Act, 1919, (2) the Assisted Scheme under the Act of 1919. Any financial loss on this scheme in excess of the produce of a penny rate is borne by the State, (3) the Assisted Scheme under the Housing, &c. Act, 1923, which provides for a State subsidy of £6 a year for 20 years in respect of each house erected in accordance with the provisions of the Act, and (4) the Assisted Scheme under the Housing (Financial Provisions) Act, 1924, where the State subsidy is £9 a year for 40 years in respect of each house erected under the Act, provided that the contribution from the rates does not exceed £4 10s for each house for a similar period. The total capital expenditure incurred up to March 31,

1924, in respect of the first three schemes was £15,500,000, and the Council has decided to proceed with the construction of 20,000 houses, as and when opportunity affords and supplies of labour and materials are available, within the terms and conditions of the Act of 1924.

The Improvements Committee are responsible for the carrying out of street improvements and the construction of bridges (outside the City of London) and tunnels across the river Thames. In addition to various street improvements now being carried out the Council is reconstructing Waterloo Bridge, and powers were obtained in the Session of 1924 to reconstruct Lambeth Bridge and to carry out street improvements in connection therewith.

The Metropolitan Main Drainage system covers about 140 square miles, including certain districts outside the county, and comprises 370 miles of main, storm-relief, intercepting and outfall sewers, eleven pumping stations, two sewage precipitation stations, and six sludge vessels. The sewage is conveyed to the outfalls at Barking and Crossness, and there the solid matters held in suspension are precipitated, and the sludge is taken out to sea. The Council is carrying out experimental work in connexion with other systems of sewage treatment. The total capital outlay on main drainage is over £14,000,000, and further expenditure, amounting to several millions, is in progress for a scheme to relieve certain districts from flooding after heavy falls of rain and for the replacement of the older sludge vessels by others of larger capacity.

The Council is the Tramway Authority for London. The system (including about 9 miles belonging to the Leyton Urban District Council but worked by the London County Council) extends over 164 street miles, all of which are electric lines (mostly underground conduit). Practically the whole of this great system is worked by the Council, and through running with various systems outside the County of London is now maintained, to the great advantage and convenience of the travelling public. The total capital outlay on tramways amounted, on March 31, 1924, to £16,256,000, and the net debt outstanding to £8,848,000. The results of working for the year 1923-24 were gross receipts £4,374,057, surplus on working £545,454, deficiency, after payment of interest on capital outlay and providing for repayment of debt, £160,228, which was met out of the Reserve Fund.

The Education Committee comprises thirty-eight members of the Council and twelve co-opted members, of whom not less than five are required to be women. The Council has approved a programme of educational work extending over a period of three years from April, 1925, providing for developments in all branches of education at a total capital cost of over £2,300,000, and involving ultimately additional annual expenditure of £800,000.

Amongst the Other Powers and Duties of the Council may be mentioned the following:—Sanctioning of loans required by the councils of the metropolitan boroughs; acquisition and mainte-

nance of parks and open spaces the sanctioning of local sewers, controlling the building line, and the naming of streets and numbering of houses, supervising buildings and district surveyors, dangerous structures, cattle diseases, controlling storage of explosive substances and petroleum, infant life protection, gas, gas-meter, and electricity-meter testing, testing weights and measures, licensing of slaughter-houses and of cow-houses, supervision of common lodging-houses, the granting of music and dancing licences, public health, including treatment of tuberculosis and diagnosis and treatment of venereal diseases, historic buildings and monuments, inspection of factories and certain other buildings to secure means of escape from fire, administration of the Shops Act, the Children Act, and the Midwives Acts, licensing and inspection of employment agencies, registration of massage establishments, licensing of premises under the Cinematograph Act, registration of motor cars, collection of duties on motor cars, dog and establishment and certain other local taxation licences, registration of War charities, and welfare of blind persons

A Motor Ambulance service has been installed with eleven stations spread over the county and special facilities for calls by telephone. The Shorne estate, near Gravesend, which was acquired by the Council under the Land Settlement (Facilities) Act, 1919, for the settlement of ex-service men upon the land, has now been transferred to the Kent County Council.

The Expenditure of the Council, including loans to other local authorities, is met by two chief sources of supply—capital money raised by the issue of Stock, Bonds or bills, or by the use of the Sinking Fund of the Council's debt, and current income raised in a county rate or by the revenue of undertakings. Certain contributions, including education grants, are also received from the Imperial Exchequer. All borrowings by the Council are subject to the provision of a sinking fund, under Treasury approval, sufficient to repay all expenditure generally within a period of 60 years (in a few cases the limit is 80 years). The total Stock outstanding at 31st March, 1924, was £77,412,385, out of total issues of £84,632,379. These figures are ex-

clusive of the issues of Bonds, the amounts outstanding at 31st March, 1924, being £1,705,200 London County 3½ per cent Bonds, and £1,050,155 6 per cent Local Bonds for Housing. The revised Rating for the year 1924-25, as shown by the statement on p. 567 (which relates to rate and debt accounts only), amounts to 3s 9½d in the pound over the whole county,

including the City, and a further rate over the county outside the City of 4½d in the pound, together as 1½d. Of the total rate, 2s 4d is for education. The total rate for 1923-24 was 4s and for 1922-23, 4s 6d. The Assessable Value of the County of London on 6th April, 1924, was £49,856,229—a 1d rate over the whole county producing £207,734.

THE ELEVENTH LONDON COUNTY COUNCIL.

Elected March 2, 1922, for three years

Chairman (1924-25)

Vice-Chairman

Deputy Chairman

J Herbert Hunter

Major Isidore Salmon, C B E, D L, M P

Henry Mills

Note.—“Open Daily” means every Week-day, and not on Sundays, except where stated.

CATHEDRALS AND CHURCHES.

ST PAUL'S CATHEDRAL, City of London, E C 4.—The masterpiece of Sir Christopher Wren (1675-1720) cost £747,660. Splendid architecture, monuments to celebrated men, famous music. The cross on the dome is 365 ft above the ground level, the inner cupola 238 ft above the floor. “Great Paul” in S W tower, weighs 17 tons. Organ by Father Smith (enlarged by Willis) in case carved by Gimson Gibbons (who also carved the choir stalls), fragments of rock from Mount Calvary and carved stones from the Temple at Jerusalem affixed to wall of south choir aisle. Nave and transepts free, piers to the following parts (on week-days only). Library, whispering gallery, and stone gallery, 6d, golden gallery, 1s, crypt, 6d, ball, 2s, total, 3s. Service on Sundays at 8, 10.30, 3.15, and 7. Week days at 8, 10.15, 4. (Services are choral.) Among the distinguished statesmen, warriors and artists buried in the crypt or commemorated in the Cathedral are Nelson, Wellington, Napier, St Vincent, Rodney, Cornwallis, Abercrombie, Moore, Gordon, Wolsey, Roberts, Brock, Ross of Bladensburg, Pakenham, Gibbs, Dundas, Wren (“st monumentum requies, circumspice”) Reynolds, Donne, Turner, Benjamin West, Abbey, Leighton, Sullivan, and many others. In 1921 a bust of George Washington, presented by American subscribers, was placed in the crypt. The garden contains in S portion an ornamental device with legend varied from year to year. At the N E corner of the Cathedral is St Paul's Cross, erected in 1210, on the site of a cross and open-air pulpit removed by order of the Long Parliament. To the S of the Cathedral are remains of the Chapter House and Cloisters of “Old St Paul's”, destroyed by the Fire of London in 1666. Cut into the paving-stones at the foot of the steps at W entrance is an inscription commemorative of Queen Victoria's thanksgiving in 1897.

WESTMINSTER ABBEY, near the Houses of Parliament, S W 1 (built A D 1050-1760).—Open on week days at 8 a.m. Admission to Royal Chapels by fee of 6d, except on Mondays (open free), wax effigies, 6d. Norman undercroft, 3d. Open on Sundays for service only. Holy Communion at 8. Morning Prayer and Holy Communion at 10.15. Evening Prayer at 3. Litany and Sermon at 6.30. Daily—Holy Communion at 8 a.m., School Service at 9.30, choral services at 10 and 3. Chapel of Henry VII, Chapter House, and Cloisters, King Edward the Confessor's shrine, A D 1269, tombs of kings (Edward I, Edward III, Henry V, Mary, Queen of Scots, Queen Elizabeth), and many other monuments and objects of interest, especially the grave of “An Unknown Warrior” at the W end of Nave (1920), and Poets' Corner. The Coronation Chair encloses the “Stone of Scone,” brought from Scotland by Edward I in 1297. Graves of Gladstone, Isaac Newton, Charles Darwin, Charles Dickens, Lord Macaulay, Dr Johnson, Chaucer, Tennyson, Browning, Handel, memorial to Viscount Howe (killed before Fort Mifflin in 1758); the memorial to Major John André, Adjutant-General of the British forces in America, the tombs of General John Burgoyne and of Colonel Enoch Markham, memorials to Wolfe (Quebec) and Col Townsend (Ticonderoga), bust of Longfellow, memorial windows to British Airmen and British Y M C A who fell

in the Great War, coloured window and tablet to Lowell and tablet to Walter Hines Page, in vestibule of Chapter House. The Chapel of the Pyx is open on Tuesday and Saturday.

SOUTHWARK CATHEDRAL, south side of the Thames, S E 1.—Finest mediæval building in London after the Abbey, and mainly 13th century. Known as St Mary Overie previous to 1540. Burial place of Gower, Massinger, and Bp Andrewes, &c. Open 7.30 a.m. to 6 p.m., free. Sunday services, 7.30, 8, and 11 a.m. (choral) and 6.30 p.m. (choral). Week-days 7.30, 8 and 5 p.m. (choral). The tomb of John Gower (1330-1408) is between the Bunyan and Chaucer memorial windows, in the N aisle, the altar screen (erected 1530) has been partly restored. The Early English Lady Chapel (behind the choir) is the scene of the Consistory Courts of the reign of Mary (Gardiner and Bonner). Shakespeare memorial in S aisle, with recumbent figure and window above, the gift of British and American subscribers. The chapel of St John the Divine, in the north transept, once used as a magistrate's court, was restored at the cost of Harvard students, as a memorial of their founder, John Harvard, who was baptized in the Church Nov 20, 1607 (part of Harvard's estate was derived from the sale of the Queen's Head Inn, Southwark, inherited from his mother).

ALL HALLOWS, Barking-by-the-Tower, E C 3.—15th century church, containing a very fine series of brass effigies; Jacobean pulpit with Sussex ironwork and font cover ascribed to Gimson Gibbons. William Penn, Quaker, was christened here, and a tablet has been erected by the Pennsylvania Society of New York. John Quincy Adams, sixth President of the United States, was married here in 1797.

ALL SAINTS, Margaret Street, W 1.—Built by Butterfield in 1859. Ritualistic and noted for its music.

BOW CHURCH (ST MARY LE-BOW), Cheapside, E C 2.—Rebuilt by Wren (see p 572), after the Fire, with beautiful steeple (222 ft) 17th century crypt and church open daily (except M) 10 A.M. to 5 P.M. Since 17th century anyone born within sound of the bells of Bow Church has been designated a “Cockney.” The 17th century church was built on stone arches or “bows.”

CHRIST CHURCH, GREYFRIARS, E C 1.—The church of the former Greyfriars Monastery was destroyed in the Fire, and Christ Church was rebuilt by Wren. The organ (repaired 1921) is by Renatus Harris, and the marble font is attributed to Gimson Gibbons. Until removal to Hotham (1902) the boys of Christ's Hospital (Blue Coat School), the site of which is now occupied by the G.P.O., attended services at Christ Church and the galleries contain seats with raised benches for the “Greycians.” Blue Coat School boys still attend annually on St Matthew's Day (Sept 22) “Spital Sermon” is preached at Christ Church at Easter.

CHRIST CHURCH, Victoria Street, Westminster, S W 1.—Vicar, Rev P T R R Kirk, M.A.

GUARDS' CHAPEL, Wellington Barracks (Birdcage Walk, St James's Park, S W 1).—Chapel redecorated in 1878. Open to visitors Tuesdays, Wednesdays, Thursdays and Fridays, 10 to 12 and 1 to 4. Parade service on Sundays at 11 a.m. (tickets of admission can be obtained on application to the Chaplain, R.M. Chapel, Wellington Barracks), evening service (open to the public) at 6 p.m.

HOLY TRINITY, Minorities, Aldgate, E. 1.—(Dis-mantled and now a Sunday school). Contains a mural monument with the arms of the Earls of Dartmouth and of a member of that family (Legges) in which the arms of George Washington are quartered with those of the Legges.

MARYLEBONE CHAPEL, High Street, Marylebone, W. 1.—The former Parish Church of the village of Marylebone (now replaced by St. Marylebone Church), was rebuilt in early 18th century. In the churchyard lie Allan Ramsay (poet), Hoyle (whist), Ferguson (astronomer), Charles Wesley (hymn writer) and his son Samuel Wesley (musician).

ST ALBAN, Brooke Street, Holborn, E. C. 1.—A brick building by Butterfield (1858). Anglo-Catholic and noted for its music, organ by Willis & Vicar, Rev H. Ross. Services on Sundays. Holy Eucharist at 7 and 8; choral at 9.30, solemn, with sermon, at 11, matins, 10.30. Litany, baptisms, and churchings at 2.15, children's service and catechising, 3, evensong at 6.30, frequent mission services. Open daily, 6.45 a.m. to 9 p.m.

ST ANDREW BY THE WARDROBE, Queen Victoria Street, E. C. 4 (near the site of the King's Wardrobe). Rebuilt by Wren.

ST ANDREW UNDERSHAFT, St. Mary Axe, Leadenhall Street, E. C. 3.—An early 16th century church, contains a monument of Stow, the London antiquary, and a memorial of Holbein. The organ is by Renatus Harris, the rival of Father Smith.

ST ANNE'S, Wardour Street, Soho, W. 1.—Built in 17th century and noted for its music. Monument of William Hazlitt in the churchyard.

ST. BARTHOLOMEW'S Priory Church, Smithfield, E. C. 1, the oldest church in London (A.D. 1123).—Rector, Rev. W. F. G. Sandwith, M.A. Fine old Norman building, with tomb of the first prior, Rahere. N. transept restored and reopened in June, 1893. Crypt and Lady Chapel open, cloisters opened Dec. 2, 1906. Services daily 11.30 p.m. except Sat. 11 a.m. and Thurs. 2.15 and 6.30 p.m. Open free daily (Sundays for service only, 8.45, 11.0; 6.30.)

ST BENET, Paul's Wharf, Upper Thames Street, E. C. 4.—Rebuilt by Wren, 1683; Inigo Jones, 1573-1652, and his father and mother, were buried in former church. St. Benet is the Metropolitan Welch Church.

ST BRIDE'S CHURCH, Fleet Street, E. C. 4.—Rebuilt by Wren, with beautiful spire (226 ft.) Samuel Richardson, the novelist, is buried in the nave. In the old church Lovelace, Sackville and Wynnyn de Worde were buried, and Samuel Pepys was baptized.

ST CLEMENT DANES, Strand W. C. 2.—Rebuilt by Wren on site of earlier church assigned to the Danish settlers. The traditional burial place of Harold Harefoot (King Harold I, see p. 98) son of Canute. The organ is by Father Smith, the bells are those celebrated in the familiar nursery rhyme "Oranges and Lemons," and the air is among those played on the chimes (since 1920). Owing to the historical association of this church with the kingdom of Denmark, Danish ceremonies are now and then performed there. Dr. Johnson's pew in gallery and monument outside E. end.

ST CLEMENT'S, Clement's Lane, Lombard Street, E. C. 3.—Rebuilt by Wren, contains handsome carvings on pulpit and font, and some chained books.

ST DUNSTON IN THE EAST, Idol Lane, Lower Thames Street, E. C. 3.—Rebuilt by Wren with

fine tower and spire, rest of church rebuilt, 1877-1881; contains many monuments.

ST EDMUND, KING AND MARTYR, Lombard Street, E. C. 3.—Rebuilt by Wren, with altar at north end, organ by Renatus Harris. Restored and re-opened 1919, after damage by Air Raid, July 2, 1917.

ST ETHELBURGA'S, Bishopsgate, E. C. 2 (14th and 15th century).—On April 19, 1507, Henry Hudson (the navigator who gave his name to Hudson's Bay and to the Hudson River), his son John, and his ten sailors took communion in St. Ethelburga's, "purposing to goe to sea fourte days after."

ST GEORGE'S, Hanover Square, W. 1 (18th century, famous for fashionable marriages).—"George Eliot," Mr. Asquith, and Theodore Roosevelt were among those married here.

ST GEORGE'S, Southwark, S. E. 1.—(Rebuilt 1736) contains the tombs of Bishop Bonner (1497-1569) and Edward Cocker (1631-1675), the author of Cocker's "Arithmetick." (The expression, "according to Cocker," refers to this book.)

ST GILES'S, Cripplegate, E. C. 1 (14th century).—Contains the graves of John Milton, John Foxe, and Sir Martin Froisher, the Elizabethan seaman, who attempted to discover a north-west passage to Cathay, and commanded the *Primrose* as vice-admiral to Drake in his expedition to the West Indies.

ST HELEN'S, Bishopsgate, E. C. 2.—The "Western Sister Abbey of the City" from its numerous monuments; building dates from 13th century. Contains a Shakespeare memorial window presented by Mr. William Prentice, an American. In St. Helen's Place the foundations of an earlier church were uncovered during rebuilding operations in 1222.

ST JAMES'S GARLICKHITHE, Garlick Hill, E. C. 4, has four stained glass windows, one of which was seriously damaged by a bomb by a German air raider on June 13, 1917. It is proposed that the window should not be completely replaced, and that year by year on the anniversary of the outrage the congregation should assemble for a service of thanksgiving for meritorious preservation from sudden and violent death. The "Bomb" Sermon will be a modern counterpart of the "Lion" Sermon (see St. Katherine Cree, below).

ST JAMES'S, Piccadilly, W. 1.—Built by Wren, with font and wood carvings by Grinling Gibbons. Lord Chesterfield and Lord Chatham were baptized in St. James's.

ST JOHN'S, St. John's Square, Clerkenwell, E. C. 1.—Built in early 18th century, includes part of the ancient priory of St. John (12th century crypt).

ST KATHERINE CREE, Leadenhall Street, E. C. 3. Rebuilt in early 17th century and ascribed to Inigo Jones. Contains a Katherine wheel E window, an organ by Father Smith, Archbishop Laud's prayer book and bible, and a monument of Sir Nicholas Throgmorton. The "Lion" sermon is preached here annually before the Lord Mayor and Corporation of London to commemorate the escape of a Lord Mayor (Sir John Gayer) from a lion in Algeria (Oct. 16, 1630).

ST MAGNUS THE MARTYR, Lower Thames Street, E. C. 3.—Rebuilt by Wren, with steeple (185 feet) and lantern of great beauty, contains the tomb of Miles Coverdale (1488-1563), translator of the Bible, who was rector of St. Magnus (1564-1566) and Bishop of Exeter (1567-1577).

ST MARGARET, Lothbury, E C 2.—Rebuilt by Wren, contains Grinling Gibbons carvings (font, chancel screen, and pulpit)

ST MARGARET'S, Westminster, S W 1.—Founded 12th or 13th century; buildings date from 15th century, with frequent "restorations." The parish church of the Dominions beyond the Seas, and perhaps the most American spot in all London. The window over the western door was put up in 1882, at the cost of Americans, to the memory of Sir Walter Raleigh, who was executed in Old Palace Yard hard by, and whose headless body, and the body of his son Carew, lie in the chancel. The quatrain below is by James Russell Lowell (*See also* Tower of London). The Milton window, at the west end of the north aisle, was the gift of Mr G W Childs, of Philadelphia, and bears an inscription by Whittier. Below the window is a tablet to Sir Peter Parker, who sailed the *Menelaus* up the Chesapeake during the war of 1812-14, and was killed while leading a landing party. On the south wall is a memorial window to Phillips Brooks, Bishop of Massachusetts, and over the vestry door is a window erected to Lady Arabella Stuart by an American lady. The church also contains the grave of Elizabeth, daughter of Robert Dinwiddie, Governor of Virginia.

ST MARGARET PATTEENS, Rood Lane, East-cheap, E C 3.—Rebuilt by Wren, with a leaden spire, contains two canopied pews and other curious survivals and relics.

ST MARY, Aldermanbury, E C 2.—Rebuilt by Wren, contains the tomb of Judge Jeffreys and a marble monument to Lieutenant John Smith, "drowned off Staten Island in 1782." John Hemmings and Henry Connell (*Shakespeare's editors*) were buried in the old church.

ST MARY WOOLNTH (above the City and South London Tube Station), King William Street and Lombard Street, E C 3.—Built by Hawksmoor early 18th century, organ by Father Smith, contains a memorial to Sir Wm Phipps, Governor of Massachusetts, who died in London in 1695.

ST MICHAEL PATERNOSTER ROYAL, College Hill, Upper Thames Street, E C 4.—Rebuilt after the Fire by Strong (a pupil of Wren's), contains the tomb of "Dick Whittington (*see* p. 567) and a Grinling Gibbons altarpiece.

ST OLAVE, Hart Street, Mark Lane, E C 3.—A 15th century church, which survived the Fire of London, contains the tombs of Samuel Pepys and his wife, and a monument of John Watts, "President of the Council of New York," also a memorial (formerly in All Hallows Staining) to Monkhouse Davison and Abram Newman, the exporters of the chests of tea which were thrown into Boston Harbour, Dec 16, 1773. On Trinity Monday the Master and Brethren of Trinity House (*q.v.*) attend service here.

ST PAUL'S, Covent Garden, W C 2.—Built by Inigo Jones. The tombstones round the exterior of the church record the burial places of Samuel Butler (*Hudibras*), Sir Peter Lely (Painter), Wycherley (Dramatist), Grinling Gibbons (Wood Carver), Dr Arne ("Rule, Britannia"), and Macklin (Actor).

ST PETER'S, Cornhill, E C 3.—Rebuilt by Wren, contains a carved choir screen also ascribed to him. The organ is by Father Smith.

ST SEPULCHRE, Holborn, E C 1.—Part of this church escaped the Fire (*see* footnote, col. 2). The organ is by Renatus Harris, in a case attributed to Grinling Gibbons. Memorials in the church to Roger Ascham (Queen Elizabeth's

tutor) and Capt. John Smith, "sometime Governor of Virginia and Admiral of New England," who would have been put to death but for the intercession of Pocohontas (Princess Pocohontas is buried in Gravesend, *see* p. 585).

ST STEPHEN'S, Coleman Street, E C 2.—The Rev John Davenport, who, with other refugees, landed at Boston in 1637, and founded the colony of New Haven, Connecticut, in the following year, was vicar of this church from 1624 to 1633. The colony was composed in part of former residents of this parish. The tablet in the church to Davenport's memory was erected by one of his American descendants.

ST STEPHEN'S, Walbrook, E C 4.—Rebuilt by Wren (and considered, with Bow Church, *q.v.*, and St Bride's, *q.v.*, one of his greatest successes), contains the tomb of Sir John Vaubrugh (architect and dramatist), and a painting by Benjamin West.

SAVOY CHAPEL, Savoy Street, Strand, W C 2 (re-built about 1505, on site of 13th century Savoy Palace, restored after disastrous fire in 1864).—Graves of Gavin Douglas and George Withers, and memorials of D'Oyly Carte, Laurence Irving. Sunday services at 11.15 and 6.

ST SWITHIN'S CHURCH, St Swithin's Lane, E C 4 (rebuilt by Wren after the Fire of London, but since modernised).—Contains embedded in its external (S) wall *London Stone*, the milliarium from which in Roman times the miles (*milia passuum*) were measured. This stone is mentioned in King Henry VI, Pt II.

THE TEMPLE CHURCH, south side of Fleet Street, E C 4.—The largest of the five remaining round churches in England, the other four being the Churches of the Holy Sepulchre at Cambridge, Northampton, Little Maplestead (Essex), and Ludlow. The Norman church, restored 1840-1845, is open to the public on week-days, 10.30 a.m. to 4 p.m., Saturdays excepted. Organ by Father Smith. Church service (famous music) on Sunday afternoons at 3 without orders, orders for service on Sundays at 11 a.m. may generally be obtained by writing to the Master of the Temple or Under Treasurer, E C 4. Service is discontinued in Aug and Sept. *Master of the Temple*, Rev W H Draper, M.A.

WREN'S CHURCHES.—Many of the "Churches in the City of London" were destroyed by the Fire of London (Sept. 2-6, 1666). Fifty of these were rebuilt by Wren during the rebuilding of St Paul's Cathedral, and many of them contain wood carvings attributed to Grinling Gibbons. The total cost of the fifty churches was £263,786 10s. 4½d., the most expensive being St Mary-le-Bow, £5,450 6s. 8½d. (£7,388 8s. 7½d. for "Bow Tower"), and the cheapest, St Vedast-Poster (£1,853 15s. 6d.).

Church of Scotland.

SCOTTISH NATIONAL CHURCH, Crown Court, Russell Street, Covent Garden, W C 2. Sundays 11.15 and 6.30. *Minister*, Rev J Moffet, B.A.

ST COLUMBA'S, Pont Street, Belgrave Square, S W 1. Sundays 11 and 6.30.

* The City Churches now standing which survived the Fire of London are—All Hallows, Barking by the Tower; St Andrew Undershaft; St Bartholomew the Great; St Ethelburga, Bishopsgate; St Giles, Cripplegate; St Helen, Bishopsgate; St Katherine Cree, and St Olave Hart Street. Of St Sepulchre, Holborn, only the south porch and the tower remain; of All Hallows, Staining, only the tower; St Andrew, Holborn, escaped the Fire, but it was in a ruinous condition at the time and was reconstructed by Wren, the old tower being refaced with Portland stone in 1704.

Congregational

BRIXTON INDEPENDENT CHURCH, 364 Brixton Road, S W 9.—Rev. B. Snell, M.A. Sundays 11 and 6.45, Thursdays at 8 p.m.

CITY TEMPLE, Holborn Viaduct, E.C. 1.—Sunday morning at 11, evening at 7.—Rev. F. W. Norwood, D.D.

CHRIST CHURCH, Westminster Bridge Road, S.E. 1.—*Pastor*, Rev. William C. Poole, Ph.D. (*Pastor Emeritus*, Rev. F. B. Meyer, D.D.) Opened on July 4, 1876, the centenary of American Independence. The Lincoln Tower and Spire, 200 feet high, shows the Stars and Stripes wrought into the stone, and the British lion and the American eagle at the angles of the tower. The cost of the tower and spire, £7,000, was largely defrayed by Americans, in gratitude for Dr. Newman Hall's sympathy with the Union during the American Civil War. Sunday services, 11 o and 7 o.

FELLOWSHIP GUILD SERVICES, instituted by Miss Maude Royden and Dr. Percy Dearmer at Kensington Town Hall in March, 1920, and removed in June, 1921, to Eccleston Guild-house, Eccleston Square, S.W. 1. Sundays, Music and address, 3.30, and service and sermon, 6.30.

HARECOURT CONGREGATIONAL CHURCH, St. Paul's Road, Canonbury, N. 1.—Founded about 1648 in Hare Court, Aldersgate, and removed in 1857 to Canonbury. John Bunyan died at the House of a Deacon of Harecourt, and the communion plate is of the Cromwellian period. *Pastor*, Rev. Hugh Parry. Sundays, 11 and 6.30, Wednesdays, 7.30 p.m.

THE KING'S WEIGH HOUSE, Duke Street, Grosvenor Square, W. 1.—Rev. W. E. Orchard, D.D. Sundays, 11 a.m. and 7 p.m. Thurs. 7.30 p.m.

PILGRIM FATHERS' MEMORIAL CHURCH, New Kent Road, S.E. 1.—The oldest Congregational Church in London (A.D. 1646), was enlarged by American subscribers in 1856 as a memorial to the Southwark men who sailed in the *Mayflower*.—Sundays at 11 and 6.45. Tuesdays at 8.

UNION CHAPEL, Islington.—Sundays, 11 a.m. and 7 p.m., Wed. 8 p.m. *Minister*, Rev. J. P. Stephens.

WESTMINSTER CONGREGATIONAL CHURCH, Buckingham Gate, S.W. 1. *Pastor*, Rev. J. A. Hutton, D.D.—Sundays, 11 and 7.

WHITEFIELD'S CENTRAL MISSION (London Congregational Union), Tottenham Court Road, W. 1.—Founded by the Rev. George Whitefield, M.A., in 1756 (Whitefield, with the Wesleys, brought about the great Evangelical revival of the 18th century. He also established an orphanage in Georgia, U.S.A., and died at Newburyport, Mass.) Institutional Church founded by Rev. C. Silvester Home, M.A., M.P., in 1903. *Superintendent Minister*, (vacant), *Organizing Sec.*, Harry E. Gaze. Sunday services, 11 and 7. Men's Meetings, 3.15. Tuesday Service, 8 p.m. Institute and Clubs for young people open daily.

Baptist.

METROPOLITAN TABERNACLE, Newington, S.E. 11 (Mt. Spurgeon's, 1861-1892).—(Built 1861, reopened after destruction by fire in 1898, free of debt, Sept. 1900, cost of rebuilding, £44,576.) Sunday, 11 and 6.30; Thursday, 7.30. *Pastor*, Rev. H. Tydeman Chivers, *Asst. Pastor*, Rev. Wallace Pettman.

WESTBOURNE PARK, Porchester Rd., Bayswater, W. 2.—*Pastor*, Rev. S. W. Hughes. Sundays, 11 a.m. and 7 p.m. Wednesdays, 7.30 p.m.

REGENT'S PARK CHAPEL, Park Square East, N.W.—*Minister*, Rev. F. C. Spurr. Sundays, 11 and 7.

Wesleyan.

WESLEY'S CHAPEL, City Road, E.C. 1. "The Cathedral of Wesleyan Methodism." Contains many relics of John and Charles Wesley and other great founders of Methodism. As the "Mother Church of Methodism" visitors attend from all parts of the world. A scheme of reconstruction and renovation will be carried through in 1925.—Sunday morning at 11, evening at 6.30. John Wesley's tomb in graveyard behind chapel. In front is Wesley's House and Museum. *Minister*, Rev. George H. McNeal, M.A., 49 City Road, E.C. 1. Opposite Wesley's Chapel is *Bunhill Fields Burial Ground*, City Road, the burial place of Dr. John Owen (1583), John Bunyan (1688), Daniel Defoe (1731), Dr. Watts (1748), William Blake (1828), and Susannah Wesley (1742), also the tomb (which, however, cannot now be identified) of Nathaniel Mather, the second son of Richard Mather, the founder of the family from which came Increase Mather, of Boston, U.S.A. To the west of the cemetery is the *Friends' Burial Ground*, with the grave of George Fox, founder of the Society of Friends.

CENTRAL HALL, Westminster, S.W. 1.—Open daily, 10 to 6. *Sunday Preacher*, Rev. Dinsdale T. Young, D.D.

KINGSWAY HALL, Kingsway and Great Queen Street, W.C. 2.—Sundays at 11, 3.30, and 7.

Roman Catholic.

WESTMINSTER CATHEDRAL, Ashley Place, Westminster, S.W. 1 (close to Victoria Station), built 1895-1903 from the designs of J. F. Bentley (the campanile is 283 feet high).—*Sundays*: Low Masses, 6, 6.30, 7, 7.30, 8, 8.30, 9 (with short Sermon), Capital High Mass, 10.30; Low Mass with Sermon, 12, Solemn Vespers and Benediction, 3.15, Compline, Sermon and Benediction, 7. *Week-days*: Low Masses, 7, 7.30, 8, 8.30, 9, Capital High Mass, 10.30, Vespers, Compline and Benediction, 3.15, Matins and Lauds, 6, Sermon and Benediction, 8.15. *Holidays of Obligation*: Low Masses, 6, 6.30, 7, 7.30, 8, 8.30, 9, Capital High Mass, 10.30; Low Mass, 12, Solemn Vespers, Compline and Benediction, 3.15, Devotions, Sermon and Benediction, 8.15. Church open 6.30 a.m. to 9.30 p.m. Cardinals Wiseman and Manning buried in crypt.

ST. GEORGE'S CATHEDRAL, Lambeth Road, S.E. 1.—Built by Pugin 1840-8 (tower not yet built), near Waterloo Station and Lambeth North "Tube." *Sundays*: Low Masses, 7, 8, 9.30 (children), 12 (with short sermon), High Mass, 10.30, Vespers (Sermon and Benediction), 6.30 p.m. *Week-days*: Low Masses, 7, 7.30, 8, 10. Sermon and Benediction on Tuesdays, Thursdays and Fridays at 8.15. *Holidays of Obligation*: Low Masses, 6, 7, 8, 9, 10, High Mass, 11. Vespers and Benediction, 8 p.m. Church open, 6.30-12 and 2.30-9.30.

THE ORATORY, Brompton, S.W. 1.—Sundays: Low Masses, 6.30, 7, 7.30, 8, 8.30, 9, 10, High Mass, 11, Low Mass and Sermon, 12, Vespers, 3.30, Evening Service and Benediction, 7. *Week-days*: Low Masses, 6.30, 7, 7.30, 8, 8.30, 10. Evening Service and Sermon daily, 8 (except Saturday). *Holidays*: High Mass, 11, Low Mass, 12. Thursdays and Saturdays, 4.30, Benediction, Great Day—St. Philip's, 26 May, High Mass, 11; Solemn Vespers, 4.30, Benediction, 8.

Dutch Reformed.

AUSTIN FRIARS, Old Broad Street, E C 2 — 14th century church, assigned by Edward VI to Protestant refugees and ultimately to the Dutch, contains many 14th century and later tombs.

Christian Science.

CHRISTIAN SCIENCE — *First Church of Christ Scientist* (Sloane Terrace, S W 1), *Second* (Palace Gardens Terrace W 1), *Third* (7 and 8, Curzon Street, Mayfair, W 1).

Jews.

SPANISH AND PORTUGUESE SYNAGOGUE, Bevis Marks, E C 3 — Founded during Commonwealth, present building erected in 1701. The oldest Jewish synagogue in the country.

GREAT SYNAGOGUE, St James's Place, Duke Street, Aldgate, E C 3 — Founded in 1692 (present building 1790).

PUBLIC AND PRIVATE BUILDINGS.

ADELPHI, Strand, W C 2 — Adelphi Terrace and district commemorate the four architect brothers (*adelphi* = brothers), James, John, Robert and William ADAM, who laid out the district (formerly Durham House) at the close of the 18th century. James, John, Robert, and William Streets (the last named is now Durham Street) commemorate the brothers, who were the founders of the Adam style of architecture and internal decoration. In the neighbourhood of the Adelphi was York House, built by the Duke of Buckingham in 1655 (the Water Gate of which still stands in Embankment Gardens, q.v.), the commemorative streets being *Charles Street*, *Villiers Street*, *Duke Street*, *Of Lane*, *Buckingham Street* (*Of Lane* is now "York Place").

AUSTRALIA HOUSE, Strand, W C 2 — A handsome and imposing building, erected 1911-4 by the Commonwealth of Australia as the offices of the High Commissioner for the Commonwealth. The Agents-General for NEW SOUTH WALES, VICTORIA, SOUTH AUSTRALIA, and TASMANIA are accommodated in Australia House. QUEENSLAND and WESTERN AUSTRALIA have separate offices in the Strand.

BANK OF ENGLAND, Threadneedle Street, E C 2 (Not open to sightseers) — The Bank of England was founded in 1694, and although a joint stock bank has always been closely connected with the Government. The present building was erected from the designs of Sampson (1734) and Sir John Soane (1788). A "Bank Guard" is furnished every evening by the Battalion of Foot Guards on duty.

BEDLAM (BETHLEM ROYAL HOSPITAL), St George's Circus, Blackfriars Road, S E 1 — The oldest institution in the world for treatment of persons of unsound mind (originally founded in Bishopsgate in first half of 13th century) was removed to present site in 1815. Cribb's figures of Madness from the intermediate (17th century) buildings in Moorfields are now in the Guildhall Museum.

BELGRAVIA — A fashionable district of London west of Buckingham Palace and south of Hyde Park, extends from Grosvenor Place on the east to Sloane Street on the west, and includes Belgrave, Chester, Lowndes, and Eaton Squares and Cadogan Place.

BRIDGES — The bridges over the Thames (from East to West) are the *Tower Bridge* (opened in 1894), with its bascules, affording a fine view of the Pool and of the metropolis, *London Bridge* (opened after rebuilding in 1831, and until 1750 the only bridge over the Thames in Lon-

don), with the Monument (q.v.) and Fishmongers' Hall. *Southwark Bridge* (opened in 1849, and rebuilt by the Corporation of London, 1921), *St Paul's Bridge* (proposed to be built by the Corporation of London); *Blackfriars Bridge* (opened in 1869 and widened by the Corporation of London in 1908), width, 105 ft., *Waterloo Bridge*, width, 421 ft. 6 ins (opened in 1827) commanding a fine view of western London, *Hungerford Bridge* (for pedestrians only), *Westminster Bridge* (built in 1750 and then presenting a view that inspired Wordsworth's sonnet, rebuilt and reopened in 1862, width, 84 ft.) with *Thornycroft's Boudicca* at the north-western end. This bridge leads from Westminster Abbey to the Houses of Parliament to the County Hall (q.v.) and St Thomas's Hospital, *Lambeth Bridge* (opened in 1862) leading to Lambeth Palace and Bethlem Hospital (now open or foot-passengers only), *Canwhall Bridge* (rebuilt in 1906) leading to Kennington Oval, *Victoria Bridge* (1858) and *Albert Bridge* (1873), *Chelsea*, leading from Chelsea Hospital to Battersea Park, *Battersea Bridge* (opened in 1891), *Wandsworth Bridge* (opened in 1873), *Putney Bridge* (opened in 1886) where the Oxford and Cambridge Boat Race is started for Mortlake, *Hammersmith Bridge* (rebuilt 1887), *Barnes Bridge* (for pedestrians only), and *King Edward VII. Bridge*, *Kew* (rebuilt in 1902), leading to the Royal Botanic Gardens, *Kew*. A new bridge at Richmond is projected by the County Councils of Surrey and Middlesex.

BUCKINGHAM PALACE, St James's Park, S W 1. (Not open to the public) — Was purchased by King George III in 1762 from the Duke of Buckingham, and was altered by Nash for King George IV. The London home of the Sovereign since Queen Victoria's accession in 1837. Re-fronted in stone (part of the Queen Victoria Memorial) by Sir Aston Webb in 1913.

BURLINGTON HOUSE, Piccadilly, W 1 — Occupied by Royal Academy of Arts (for annual exhibitions, see "Picture Galleries"), British Academy, Royal, Antiquarian, Astronomical, Linnean, Chemical and Geological Societies.

CANONBURY TOWER, Canonbury, N 1 — A social club for tenants of the Marquess of Northampton's estates in the vicinity (in the remains of the 16th century house of the Priors of St Bartholomew). Contains the "Spencer" and "Compton" oak panelled rooms. Other relics of Canonbury House can be seen in the vicinity.

CEMETERIES — For *Bunhill Fields*, see p. 573. In *Kensal Green Cemetery*, North Kensington, W 10 (70 acres), are tombs of W. M. Thackeray, Anthony Trollope, Sydney Smith, Shirley Brooks, Wilkie Collins, Tom Hood, W. Mulready, George Cruikshank, John Leech, Leigh Hunt, Brunel ("Great Eastern"), Ross (Arctic), Charles Kemble and Charles Matthews (Actors), Robert Owen (Social Reformer). In *Highgate Cemetery*, N 6, are the tombs of George Eliot, Herbert Spencer, Michael Faraday, and G. J. Holyoake. In *Abney Park Cemetery*, Stoke Newington, N 16, are the tomb of General Booth, founder of the Salvation Army, and memorials to many Nonconformist Divines. In the *South Metropolitan Cemetery*, Norwood, S E 27, are the tombs of C. H. Spurgeon, Lord Alverstone, Douglas Jerrold, John Belcher, R. A., Theodore Watts-Dunton, Dr. Moffat (Missionary), Sir H. Bessemer, Sir H. Maxim, Sir J. Barnby, A. Manns, and J. Whitaker, F.S.A. (*Whitaker's Almanack*). **CREMATORIA** — *Ilford* (City of

London), *Norwood*, and *Golders Green* (12 acres), adjoining *Hampstead Heath*. Since cremation was first instituted in 1885 there have been 25,418 cremations in Great Britain. Of these, 10,394 have been carried out at *Golders Green*, 4,855 at *Woking*, 3,476 at *Manchester*, and the remainder at 11 different centres in Great Britain.

CENOTAPH, Whitehall, S W 1—(Literally "empty tomb") Monument erected "To the Glorious Dead," as a memorial to all ranks of the "Sea, Land and Air Forces who gave their lives in the service of the Empire during the Great War." Erected as a temporary memorial in 1919 and replaced by a permanent structure in 1920. Unveiled by the King-Emperor on *Armistice Day, 1920*.

CENTRAL CRIMINAL COURT, Old Bailey, E C 4—Built by Corporation of London, 1902-1907. Fine murals and paintings by Sir W B Richmond and Professor Gerald Moira in Great Hall. To be viewed on Tuesdays and Fridays (from 10 to 4) when sittings of the Court so permit. Application to be made to the Keeper.

CHARTERHOUSE, in Charterhouse Square, E C 1, a Carthusian monastery, purchased in 1611 by Thomas Sutton and devoted by him as a home for aged gentlemen (60), "Brothers of Charterhouse," for particulars see *Times*, p 12, Feb. 5, 1921. The buildings are partly 14th (but mainly 16th) century. Chapel, great hall, and staircase. Mon, Wed, and Fridays, admission 12, at 3 p.m. Service on Sundays at 11 a.m., and on week-days at 9.30 a.m. and 6, 7 or 8 p.m. Buildings not shown on Sundays. Roger Williams, the founder and governor of Rhode Island, U.S.A. was on June 25, 1621, elected a scholar of Sutton's Hospital.

CHELSEA, S W 3—A western metropolitan borough (see p 560), with a fine embankment between Victoria and Battersea bridges over the Thames (see p 578). "Chelsea Old Church" (All Saints) contains memorials of Sir Thomas More, Sir Hans Sloane, Shadwell (poet laureate), Woodfall (printer of "Junius"), and many others. Steele, Smollett, Turner, Rossetti, Whistler, Leigh Hunt and Carlyle (see p 582) lived there. The borough was formerly famous for buns and porcelain.

CHELSEA ROYAL HOSPITAL (founded by Charles II in 1682, and built by Wren, opened in 1694). Royal Hospital Road, Chelsea, S W 3, for Old and Disabled Soldiers. Flags and other War Trophies in the Great Hall. Accommodation for 558 In-pensioners. The extensive grounds include the former Ranelagh Gardens. Open daily and on Sunday afternoons. Governor, General Rt Hon Sir Neville G Lyttelton, G.C.B., G.C.V.O. Lieut-Governor and Secretary, Maj-Gen H C Sutton, C.B., C.M.G.

COLLEGE OF ARMS OR HERALDS' COLLEGE (see also p 189), Queen Victoria Street, E C 4—The Royal "Officers of Arms" ("Kings, Heralds and Pursuivants of Arms") were incorporated by Richard III, and acquired "Derby House" on the site of the present College building from Queen Mary I. The building now in use was rebuilt after the Fire of London. The Powers vested by the Crown in the Earl Marshal (The Duke of Norfolk) with regard to all State ceremonial, and the granting and use of Armorial Bearings, are exercised by this College. Enquiry may be made to the Officer on duty in the Public Office every day between 10 a.m. and 4 p.m.

COUNTY HALL, Westminster Bridge S E 1—The Headquarters of the London County

Council (see pp 566-569) built on the Pedlar's Acre, Lambeth, from the designs of Ralph Knott, with a river façade of 700 ft. Cost £3,239,293. The building contains a council chamber, reception hall, &c.

CUSTOM HOUSE, Lower Thames Street, E C 3—Built early in 19th century, with a wide quay on Thames. The Long Room is 190 ft long. DAVID COPPERFIELD LIBRARY. Somers Town. DEAN WACE HOUSE, 7 Wine Office Court, E C 4—(To be opened in March, 1925).

DEVONSHIRE HOUSE, Bishopsgate, E C 2—Built in late 16th century, and since 1667 the headquarters of the Society of Friends, where many documents relating to William Penn, &c. may be seen.

DICKENS MUSEUM AND LIBRARY, 48 Doughty Street, W C 1 (Dickens Fellowship) *Pres W Pett Ridge*.

ELY PLACE, Holborn Circus, E C 1—The site of the London house of former Bishops of Ely. The 14th century chapel, now St Etheldreda's (R.C.) Church, is open daily until dusk, a charge of 3d is made for admission to the crypt.

EMPIRE MEMORIAL HOSTEL (British and Foreign Sailors Society), 747 Commercial Road Poplar, E 14.—A memorial erected by the women of the Empire to men of both sea services who lost their lives in the service of their country. The hostel contains 220 beds, a restaurant and recreation-rooms. Open daily, incl Sunday, free; night porter in attendance.

FOUNDLING HOSPITAL, Guilford Street, Russell Square, W C 1—Founded in 1739 by Capt. Coram, of the Merchant Marine, for exposed and deserted young illegitimate children. Coram also bequeathed funds for the benefit of King's Chapel, Boston, Mass. The chapel services are largely attended by the public. The hall contains many fine pictures by Hogarth, Gainsborough, &c.

FULHAM PALACE, Bishop's Avenue, Fulham, S W 6—The courtyard is 15th century, remainder 18th century. Residence of the Bishop of London. Grounds of 37 acres, surrounded by ancient moat. Previous application to visit should be made to the Bishop's Secretary.

GUILDHALL, King Street, City, E.C. 2 (dating from early 13th century).—Grand Civic Hall, where Sovereigns and Princes are entertained. Freedoms conferred, and the great City functions take place. Offices and Council Chamber of the Corporation of the City of London (see p 561). Admission free to Library (containing Plan of London in 1570, Deed of Sale with Shakespeare's signature, first, second and fourth folios of Shakespeare's plays, William I's Charter to the City, &c.), and Newspaper Room, 10 a.m. to 6 p.m. Librarian, Bernard Kettle.

GUY'S HOSPITAL, St. Thomas's Street, S E 1—Founded by Thomas Guy (a bookseller), in 1721: the main entrance and quadrangle (with statue of founder) are early 18th century. 560 beds.

HOLBORN VIADUCT, E C 1, was constructed in 1867-1869 by order of the Corporation of the City of London from the designs of William Haywood, to carry the roadway over the valley of the Fleet river (the "Hole-bourne"). The Holborn Viaduct is 1,400 ft long, and is mainly of iron construction. The cost (£1,571,000) was borne by the City of London, the loan raised for the purposes of the improvement being secured on the Coal and Corn dues, these dues were abolished in 1889 and 1902, and the loan is otherwise discharged.

HONOURABLE ARTILLERY COMPANY'S HEAD-QUARTERS, City Road, E.C. 1.—The H.A.C. (Sec. Maj. G. G. Walker, D.S.O., M.C.) received its charter of incorporation from Henry VIII. in 1537, and has occupied its present ground since 1642. Four of its members—Duncan Keayne, Sedgwick, and Spencer—who emigrated in the seventeenth century, founded in 1628 the Ancient and Honourable Artillery Company of Boston, U.S.A. American soldiers and sailors may view the armoury, on request.

HORSE GUARDS, Whitehall, S.W. 1.—Archway and offices built abt 1750. The headquarters of the Commander-in-Chief until 1904. The mounting of the guard (1st or 2nd Life Guards, or Royal Horse Guards) at 11 a.m. (10 a.m. on Sundays) and the dismounting at 4 p.m. are picturesque ceremonies. Only those on the Lord Chamberlain's list may drive through the gates and archway into Horse Guards' Parade. *Horse Guards' Parade*, where the Colour is "trooped" on the King's Birthday, has been enlarged to 300,000 sq. ft. (Trafalgar Square is 169,850 sq. ft.). Parliament Square, 135,000 sq. ft., Leicester Square, 100,000 sq. ft.).

HOUSES OF PARLIAMENT, Westminster, S.W. 1.—The "Palace of Westminster" was rebuilt in 1840-1850 from the designs of Sir Charles Barry and Augustus Pugin, at a cost of £2,108,000.—Open to visitors on Saturdays, and on Easter and Whit Mondays and Tuesdays, if neither House be sitting. Admission at the Norman Porch, House of Lords, on the above-mentioned days, from 10 a.m. to 3.30 p.m. Admission to the Strangers' Gallery of the House of Commons, during session, by member's order, or order obtained on personal application at the Admission Order Office in St Stephen's Hall. The Victoria Tower (House of Lords) is 336 ft. high, and when Parliament is sitting the Union Jack flies by day from its flagstaff. The Clock Tower of the House of Commons is 320 ft. high and contains "Big Ben" (15½ tons), named after Sir Benjamin Hall, First Commissioner of Works when it was hung in 1856. A light is displayed from this tower when Parliament is sitting.

INNS OF COURT—The *Innes* and *Middle Temple*, S. of Fleet Street, E.C. 4, and N. of Victoria Embankment, to which the gardens extend, occupy (since early 14th century) the site of the buildings of the Order of Knights Templars, the *Temple Church* (q.v.) surviving. Middle Temple Hall is Elizabethan, and in Middle Temple Gardens Shakespeare (Henry VI, Pt. I) places the incident which led to the "Wars of the Roses" (1455-1485). *Lincoln's Inn*, from Chancery Lane to Lincoln's Inn Fields, W.C. 2, occupies the site of the palace of a former Bishop of Chichester and of a Black Friars monastery. It was founded early in the 14th century. The new Hall is modern, the Library is 15th century, and the old Hall early 16th century, the Chapel (Inigo Jones) early 17th century. *Lincoln's Inn Fields* (q.v.) contains many fine old houses with handsome interiors. *Gray's Inn*, Gray's Inn Road, W.C. 2, was founded in late 14th century. The Hall is 16th century (the "Comedy of Errors" was performed there in 1594), the Gardens were laid out (according to tradition) by Lord Chancellor Bacon (died 1626). No other "Inns" are active, but *Staple Inn* is worth visiting as a relic of Elizabethan London; it has a picturesque gabled front on Holborn (opposite Gray's Inn Road), and the Hall, with hammer beam roof, is intact; in rear of the hall

is a picturesque Dutch garden, restored by the present owners of Staple Inn (the Prudential Assurance Company). *Clement's Inn* (near St. Clement Dane's Church), *Clifford's Inn*, Fleet Street and *Thames Inn*, Holborn Circus. *Sergeants' Inn*, Fleet Street, and another (now demolished) of the same name in Chancery Lane, were composed of Sergeants-at-Law, the last of whom died in 1899.

KENSINGTON PALACE, W. 8.—Enlarged by Christopher Wren for King William III. (1697), and continued as a royal residence until 1760. The birthplace of Queen Victoria in 1819. Open on Sundays, 2 to 6, winter 2 to 4. *Kensington Gardens* (q.v.) adjoin.

LAMBETH PALACE S.E. 1.—The official residence of the Archbishop of Canterbury, on south bank of Thames; the oldest part is 13th century, the house itself is early 19th century. For leave to visit the historical portions, applications should be made by letter to the Archbishop's Secretary.

LAMBETH PALACE LIBRARY—Open to readers on Mondays, Wednesdays, Thursdays, and Fridays, 10 to 4 (May to July, 10 to 4.30) and forenoon of Tuesdays. A large collection of Kentish books, prints, and Diocesan history. Closed at Christmas and Easter, in September, and early part of October.

LAW COURTS, Strand, W.C. 2.—The Royal Courts of Justice were erected from the designs of G.E. Street (completed by Sir A. Blomfield and A.E. Street) in 1874-1882 at a cost of £1,000,000 (the site cost £1,500,000 in addition). Until they were occupied by the Supreme Court of Judicature (established in 1873 by the fusion of High Court, Chancery, Queen's Bench, Common Pleas, Exchequer, Probate, Divorce, and Admiralty) the Courts met in Westminster Hall (q.v.). The Central Hall is 138 ft. long.

LITTLE BRITAIN, Smithfield, E.C. 1.—Benjamin Franklin lived in Little Britain on his first coming to London. It was then a centre of the book-selling and printing trade, and Franklin is reputed to have set type in the works which extended into the Lady Chapel of St Bartholomew's Church (q.v.).

LIVERY COMPANIES' HALLS—The "Twelve Great Companies" (see p. 564) have magnificent halls, but admission to view them has generally to be arranged beforehand.

LONDON HOSPITAL, Whitechapel High Street and Road, E. 1.—Founded 1759. Hospital contains 930 beds.

LONDON MONUMENT (commonly called "The Monument"), Pudding Lane, Eastcheap, E.C. 3.—Built from designs of Wren, 1671-1677, to commemorate the *Great Fire of London*, which broke out in Pudding Lane, Sept. 2, 1666. The fluted Doric column is 202 feet high (the flames of fire 42 feet in addition), and is based on a square plinth, with fine carvings on W. face. Splendid views of London from gallery at top of column. Admission 3d. 9 to 6 (Oct. April to 4).

LORD'S CRICKET GROUND, St. John's Wood Road, N.W. 5.—The headquarters (since 1814) of the Marylebone Cricket Club, the premier cricket club in England and the governing body of cricket Oxford and Cambridge, and Eton and Harrow matches in July. Lord's is also the Middlesex County Cricket Club headquarters, and the scene of some of the principal matches of the season. Admission to ordinary matches 2s., to special matches 2s. or 3s. (including tax). Tennis Court in building behind members' pavilion,

where interesting games are played. The public can obtain reserved seats on payment.

MANSION HOUSE, City, E C 4—The official residence of the Lord Mayor, the Egyptian Hall and Ballroom are the chief attractions. Admission by order from the Lord Mayor's Secretary.

MARKETS—The London markets (administered by the Corporation of the City of London) provide foodstuffs for 8,500,000 to 9,000,000 people. The dead meat market at Smithfield is the largest in the world, the supplies marketed amounting to nearly 500,000 tons annually. *Central Meat, Fish, Fruit, Vegetable, and Poultry Markets*, Smithfield, *Leadenhall Market* (Meat and Poultry), *Bullingate (Fish)*, Thames Street, *Spitalfields, E 1* (Vegetables, Fruit, &c.), *Cattle Market* (Mon and Th, and Fri for Horses) and *Abattoirs*, Caledonian Road, N 1, *Foreign Cattle Market*, Deptford (temporarily closed). Other markets are—*Covent Garden, W C 2* (established under a charter of Charles II in 1665) and *Borough Market, S E 1*, for Vegetables, Fruit, Flowers, &c.

MARLBOROUGH HOUSE, Pall Mall, S W. 1 (Not open to the public)—Built by Wren for the great Duke of Marlborough about 1710, and purchased as a London residence for the Prince of Wales in 1863. Now the London house of Queen Alexandra.

MAYFAIR—A fashionable district of London, north of Buckingham Palace and east of Hyde Park, extends from Oxford Street (N) to Piccadilly (S), and from Bond Street (E) to Park Lane (W), includes Curzon Street and Grosvenor and Berkeley Squares. The most fashionable shopping centres of London are included in Mayfair in Old and New Bond Street and Oxford Street. *Regent Street* almost adjoins Mayfair.

MONUMENTS—**VICTORIA MEMORIAL** in front of Buckingham Palace, **ALBERT MEMORIAL**, South Kensington, **AIR, Victoria Embankment**, **BEACONSFIELD, Parliament Square**, **BELGIAN, Victoria Embankment**, **BOADICEA** (more correctly "Boudicca"), Queen of the Iceni, E Anglia, Westminster Bridge, **BURNS, Embankment Gardens**, **BURGHERS OF CALAIS** (replica of Rodin's statue), Victoria Tower Gardens, Westminster, **CAVALRY Hyde Park, CAVELL, St Martin's Place, CENOTAPH, Whitehall, CHARLES I** (erected Jan 29, 1675), Trafalgar Square, **CHARLES II** (Gimling Gibbons), inside the Royal Exchange, **CLEOPATRA'S NECKLE** (68½ ft high, erected 1878), Thames Embankment (the Sphinx, W of pedestal, and the surrounding stonework, bear scars from an Air Raid), **CAPTAIN COOK** (Brook), the Mall, **CRIMEAN, Broad Sanctuary, OLIVER CROMWELL** (Hoynicroft), outside Westminster Hall, **DUKE OF CAMBRIDGE, Whitehall, DUKE OF YORK** (124 ft), St James's Park, **EDWARD VII**, Waterloo Place (Mackennal), **GEORGE III, Cockspur Street, GEORGE IV** (Chantry) riding without stirrups, Trafalgar Square, **GLADSTONE**, facing Australia House, Strand, **GUARDS, Waterloo Place, IRVING** (Brook), N side of National Portrait Gallery, **JAMES II** (Grinling Gibbons), The Mall; **ABRAHAM LINCOLN** (St Gaudens), facing Westminster Abbey; **LONDON TROOPS, Royal Exchange, MILTON, St Giles's, Cripplegate, MONUMENT, THE** (see above), **NELSON** (142 ft), Trafalgar Square, with Landseer's lions (cast from guns recovered from the wreck of the *Royal George*); **FLORENCE NIGHTINGALE, Waterloo Place**; **"PETER PAN"** (Frampton),

Kensington Gardens; **RICHARD CŒUR DE LION** (Marochetti), Old Palace Yard; **ROBERTS, Horse Guards' Parade, ROYAL ARTILLERY, The Mall, ROYAL MARINES, The Mall**; **SCOTT** (Antarctic), Waterloo Place, **SHAKESPEARE** (Fontana), Leicester Square, **GEORGE WASHINGTON** (Houdon), Trafalgar Square, **WELLINGTON, Hyde Park Corner, WELLINGTON** (Chantry) riding without stirrups, Royal Exchange, **JOHN WESLEY, City Road, WOLSELEY, Horse Guards Parade.**

PATENT OFFICE AND LIBRARY, 25 Southampton Buildings, W C 2 (built 1865)—The library (199,623 volumes) is open daily, from 10 a.m. to 9 p.m. (In 1923 the Patent Office sealed 17,073 patents, registered 7,794 trade marks, and 17,807 designs, and made a profit of £81,797.)

PEOPLE'S PALACE, Mile End, E 1—Recreation Room and Winter Gardens, Concerts, Swimming and Private Baths, Billiard Tables, &c. Concerts every Sunday, 3.30 p.m. (free). Evening, 6.30 p.m. (small charge for admission).

PORT OF LONDON—The administration of the Port of London is under the "Port of London Authority" (see p. 212) whose offices adjoin Trinity House, Tower Hill, and extend to Cuthbert Friars. The offices were designed "on a really grand scale" by Sir Edwin Cooper, the square building of Portland stone has a façade facing the estuary and is surmounted by a "temple of Neptune." The *River Thames* has a total length of 210 miles from its source in Gloucestershire to its mouth at the Nore. The tidal portion below Piddington Lock (70 miles) forms the Port of London, where one-third of the commerce of the United Kingdom is carried on. The value of the trade of the port was stated at £564,333,772 for 1922, and at £579,095,002 for 1923. The Port is served by the following Docks—*St Katherine's Dock, E 1* (23 acres), handling marine shells, spices, tea, marble, &c., *London Docks* with Eastern Dock and Shadwell Basin, Wapping, *E 1* (100 acres), ivory, spices, rubber, wine, wool, tinned goods, &c., *Surrey Commercial Docks, Rotherhithe, S E 16* (320 acres), timber, grain and Canadian produce, *West India Docks, E 14* (242 acres), rum, sugar, grain, timber and frozen meat, *Milwall Docks, Poplar, E 14* (231 acres), the principal centre of the grain trade of London, *East India Docks, Poplar, E 14* (68 acres), Cape and American traffic, *Royal Victoria and Albert Docks, E 16* (1,100 acres), frozen meat, grain and tobacco, *King George V, North Woolwich, E 16*, opened in 1921 (68 acres), provides accommodation for the largest steamers afloat. *Tilbury Docks* (595 acres), about 26 miles below London Bridge, for Australasian and Eastern routes.

POST OFFICE—The "General Post Office" is in King Edward Street, *E C 1*, a handsomely-fronted, ferro-concrete building (Tanner), with marble inlaid hall, opened in 1910. The public Hall is open for usual postal business from 6.45 a.m. to 9 p.m. (Sat 8 p.m.). In the neighbourhood are G.P.O. North and G.P.O. West (the Central Telegraph Office).

PRINCE HENRY'S ROOM, 17, Fleet Street, E C 4 (bought by the L.C.C. in 1900, and open free to 4 or 5) is a timbered 17th century house, and contains a Jacobean plaster ceiling and Jacobean and Georgian panelling.

PUBLIC RECORD OFFICE, Chancery Lane, W C 2 (built 1851-1856)—Contains a collection of the National Records since the Norman Conquest brought together from various repositories (the Tower, State Paper Office, &c.). Search rooms

open daily, with certain exceptions, from 10 to 4.30; Saturdays, 10 to 2. The *Public Record Office Museum* (open Mon to Fri, 2 to 4 p.m.) contains *Domesday Book* (a vellum volume) made by order of William the Conqueror in 1086, and "Domesday Chest", letters patent of John Balliol swearing fealty to Edward I (1292), receipt book of Henry VII., letters of Nelson (and the log of *H.M.S. Victory*), Wellington's Waterloo dispatch, petition to George III from Congress, letter from Washington to George III., autographs of Chaucer, &c., Lord Monteagle's anonymous warning concerning the Gunpowder Plot (1605), bull of Pope Clement VII. confirming Henry VIII. as "Fidei Defensor" (1534), the "Scrap of Paper", and many other documents of permanent interest, also monuments from the old Rolls Chapel (1377), part of an arch of which is preserved.

ROMAN LONDON—Traces of the Roman occupation of London from the 1st century B.C. to the 5th century A.D. may still be seen *in situ*. There are remains of Roman baths at No. 5 Strand Lane, Strand, W.C. 2, and at the Coal Exchange, Lower Thames Street, E.C. 3. Portions of the Roman Wall which encircled London are still visible, including a bastion below the pavement of the yard of the General Post Office (facing Giltspur Street). Other pieces of the wall may be seen in the disused churchyard of St. Alphage, Aldermanbury, E.C. 2, in the churchyard of All Hallows on the Wall, London Wall, E.C. 2, in Roman Wall House, Jewry Street and Crutched Friars, Aldgate, E.C. 3; below Leadenhall Market, and near the S.E. corner of the White Tower of the Tower of London, a small portion of Roman brickwork was uncovered in March, 1922, on a site adjoining St. Peter's, Cornhill, E.C. 3. Many relics of Roman London may be seen in the Guildhall, British and London Museums (q.v.).

ROYAL EXCHANGE, Cornhill, E.C. 3, founded by Sir Thomas Gresham, 1566, opened by Queen Elizabeth 1571, rebuilt 1667-9 and 1842-1844.—Admission free. Statues of Queen Elizabeth, Charles II., Queen Victoria, Sir Thomas Gresham, Wellington (Chantry, riding without stirrups), Peabody, and others, frescoes in the ambulatory by Leighton, Abbey, Brangwyn, Wyllie, and others. Change, the busy time from 3 to 4 p.m. The chimes of the Royal Exchange (re-cast 1922) play English, Scottish and Irish melodies at 9 a.m., 12 noon, and 3 and 6 p.m.

ROYAL GEOGRAPHICAL SOCIETY, Kensington Gore, S.W. 7.—Map Room open to public, free.

ROYAL MINT, Tower Hill, E.C. 1 (building erected 1810), where gold, silver, and bronze are coined. Admission by order only, application for which should be made to the Deputy Master of the Mint, about 4 weeks in advance of intended visit. Hours of admission, 10 to 3 Mon to Fri, 10 to 11 Sat.

ST. BARTHOLOMEW'S HOSPITAL, Smithfield, E.C. 1.—Founded A.D. 1123 by Rahere (see St. Bartholomew's Priory, p. 571). Present buildings mainly 18th and 19th centuries; main entrance 1702. The Great Hall contains a series of portraits including Henry VIII., Harvey, Abernethy, Pott, Radcliffe, &c. Hospital for 760 beds. The Church of St. Bartholomew the Less (rebuilt 1823) is within the hospital precincts, Inigo Jones was baptised in former church.

ST. GEORGE'S HOSPITAL, Hyde Park Corner, W. 1.—Founded in 1733. Hospital for 340 beds. Present buildings date from 1829.

ST. JAMES'S PALACE, in Pall Mall, S.W. 1.—(Not open to the public). Built by Henry VIII. (according to tradition, from designs by Holbein), the Gatehouse and Presence Chamber remain, and part of the Chapel Royal. A royal residence from 1698 to 1837. *Royal Levees* held here during the season. Representatives of Foreign Powers are still accredited "to the Court of St. James's," and (by the King's permission) the Conference of the Allies was held there in February, 1921.

ST. JOHN'S GATE, Clerkenwell, E.C. 1.—Now the Chancery of the Order of St. John of Jerusalem, and formerly the gate of the Priory of that Order, of which the gate (early 16th century) and Church (crypt 12th century) alone survive. The Gatehouse may be inspected by written permission of the Secretary of the Chancery.

ST. THOMAS'S HOSPITAL, Albert Embankment, S.E. 1.—Founded 1223. Present buildings (7 red brick houses) by Curry, 1868-71, 1,000 beds.

SMITHFIELD, E.C. 1.—Sir William Wallace was executed there (1305) in the reign of Edward I., and Wat Tyler was "despatched" by Lord Mayor's Walworth (1381) in the reign of Richard II. Anne Askew, a Protestant martyr (1546), was burned there in the reign of Henry VIII., and under Mary I. (1553-1558) many suffered there for the Protestant faith. (A memorial is affixed to the W. wall of St. Bartholomew's Hospital.) The last to suffer for religion at Smithfield was Bartholomew Leggett, Unitarian (1612), in the reign of James I. At the corner of Cock Lane (W. side of West Smithfield) is a small gilt figure commemorating the spot where the Fire of London was finally checked by the demolition of houses, Sept. 6, 1666. Smithfield Market occupies the W. side of West Smithfield.

SOMERSET HOUSE, Strand, W.C. 2, and Victoria Embankment, W.C. 2.—The beautiful river facade (600 feet long) was built at the close of the 18th century from the designs of Sir W. Chambers, the remainder of the building is early 19th century. Somerset House was the property of Lord Protector Somerset, at whose attainder in 1552 the palace passed to the Crown, and it was a royal residence until about the close of the 17th century. The building is now occupied by the *Board of Inland Revenue* and by the *Principal Probate Registry* and the office of the Registrar-General of Births, Marriages and Deaths. In the Probate Registry (Central Hall) are the wills (*inter alia*) of Shakespeare, Milton, Newton, Van Dyck, Pitt, Dr. Johnson, Nelson, Wellington and Burke.

STOCK EXCHANGE, E.C. 2. (Strangers not admitted).—Known in the City as the "House," was founded in 1773 and now consists of about 3,000 members. A "jobber" does business only with other members, a "broker" is the intermediary with the public. Speculators for a rise in prices are "bulls," those for a fall are "bears." *Chairman of the Committee for General Purposes*, Archibald H. Campbell; *Secretary, General Purposes Committee*, Edward Satterthwaite, C.B.; *Secretary, Trustees and Managers*, R. M. Brydone, Office, 23, Throgmorton St., E.C. 4.

THAMES EMBANKMENTS—The Victoria Embankment, on the N. side (from Westminster to Blackfriars), was constructed by Bazalgette for the Metropolitan Board of Works, 1860-1870 (the

* The "Sword of St. Paul" appears in the 1st quarter of the City Arms, not "Walworth's dagger" as once commonly believed.

seats, of which the supports of some are a kneeling camel, laden with spicery, and of others a winged sphinx, were presented by the Grocers' Company, and by Rt. Hon W. H. Smith, M.P. (in 1874), the Westminster to Vauxhall section, on the S (Surrey) side, 1860-1869, the Chelsea Embankment, 1871-1874. The total cost exceeded £2,000,000. Sir Joseph William Bazalgette (1810-1881) also constructed the London main drainage system, 1858-1865, at a cost of £4,600,000. A medallion has been placed on a pier of the Victoria Embankment to commemorate the engineer of the Thames waterside improvements ("Flumini vincula posuit"). The County Hall of the L.C.C. includes an embankment on the Surrey side.

THAMES TUNNELS—The *Rotherhithe Tunnel* (foot passengers and vehicles), constructed by the L.C.C. and opened in 1908, connects Commercial Road East, with Lower Road, Rotherhithe, the total length is 1 mile 440 yards, of which 510 yards are under the river. The cost of the tunnel and its approaches was £1,560,041. The *Blackwall Tunnel* (foot passengers and vehicles) was constructed by the L.C.C. and opened in 1897, connects East India Dock Road, Poplar, with Blackwall Lane, East Greenwich. The total length of the tunnel is nearly 1½ miles, of which 407 yds. are under the river. The cost of the tunnel with its approaches was about £1,406,000. *Greenwich Tunnel* (foot passengers only) constructed by the L.C.C. and opened in 1902, connects the Isle of Dogs, Poplar, with Greenwich. The length of the subway is 406 yards, and the cost was about £180,000. The *Woolwich Tunnel* (foot passengers only), constructed by the L.C.C. and opened in 1912, connects North and South Woolwich below the passenger and vehicular ferry from North Woolwich Station, E. 16, to High Street, Woolwich, S.E. 18. The length of the subway is about 500 yards, and its cost was £85,862. The *Thames Tunnel* (1300 feet) was opened in 1843 to connect Wapping (N.) with Rotherhithe (S.). In 1866 it was closed to the public, and purchased by the East London Railway Company. The *Tower Subway* for foot passengers was opened in 1870, and has long been closed.

TOWER HILL, E.C. 1 and E.C. 3, was formerly the place of execution for condemned prisoners from the Tower, the site of the scaffold being marked in the gardens of Trinity Square.

TOWER OF LONDON, E.C. 3 (built by William the Conqueror, A.D. 1066-1087)—Admission to Jewel House, on all week days, 6d.; White Tower and Armouries, including Vaults, 6d.; to Bloody Tower, on all week days, 6d. Free on Saturdays (except Jewel House and Bloody Tower) by tickets issued at the office at gateway. Open from 1 May to 30 Sept., 10 a.m. to 6 p.m.; 1 Oct. to 30 April, 10 a.m. to 5 p.m. Not open on Good Friday, Christmas Day, or Sunday. *Constable, Field-Marshal Lord Methuen*, G.O.B., G.C.M.G., G.C.V.O., *Lieutenant, Gen. Sir F. J. Davies*, K.C.B., K.C.M.G., K.C.V.O., A.D.C., *Major and Resident Governor, Lt.-Col. Dan Burges*, F.R.C.E., D.S.O., *Keeper of the Jewel House, Major-Gen. Sir George J. Young*, husband, K.C.M.G., K.C.I.E., C.B., *Curator of the Armouries, Charles Foulkes*, F.S.A. The Yeoman Warders ("Beefeaters") retain their picturesque Tudor uniforms. During the Great War the use of the Tower as a prison was revived. Sir William Wallace, King David II and King James I of Scotland, the "Little Princes" (Edward V. and his brother), Anne Boleyn, Katherine Howard, Lady Jane Grey, Queen

Elizabeth, Sir Walter Raleigh, William Penn, Crommer, Ridley and Latimer and many others were imprisoned in the Tower.

TRAFALGAR SQUARE, S.W. 1.—This space was laid out in the second quarter of the 19th century. In the Square are the *Nelson Monument* 142 feet high, with Landseer's lions round the base, and statues of *Havelock, Napier, and Gordon*. The plinth of the Nelson Monument was badly damaged by fire during the (unofficial) celebrations on Armistice Day (Nov. 11, 1918). In the façade of the N. Wall of Trafalgar Square are metal standard measures.

WESTMINSTER HALL, S.W. 1 (built by William Rufus, A.D. 1087-1100 and altered by Richard II., 1377-1399), adjacent to and incorporated in the Houses of Parliament.—Westminster Hall is part of the Palace of Westminster and survived the fire, which destroyed the remainder of the Palace (Oct. 16, 1834). The Hall is 200 feet long, 68 feet wide, and 90 feet high. The hammer beam roof of carved oak, dating from 1399, is one of the principal attractions. King Charles I was tried in the Hall. For admission, see regulations as to Houses of Parliament.

WHITEHALL, opposite Horse Guards, S.W. 1.—Erected by Inigo Jones as a banqueting-house for the projected Whitehall Palace. King Charles I. was beheaded here.

PARKS, SPACES AND GARDENS.

The Parks and Open Spaces in the following list are maintained as indicated by distinguishing marks:— * by the Crown, † by the Corporation of London, § by the London County Council, ‡ by the Metropolitan Borough Council.

City and West Central District

† **BUNHILL FIELDS BURIAL GROUND** (4 acres), see p. 573.

§ **VICTORIA EMBANKMENT GARDENS** (10 acres), E.C. 4 and W.C. 2, containing the *Watergate* of York House (Inigo Jones).

Western District

‡ **AVONDALE PARK** (4 acres), Pottery Lane, Notting Hill, W. 11.

§ **BROOK GREEN**, (5 acres), Hammersmith, W. 6.

* **BUSHY PARK** (1,200 acres), see p. 582.

* **GREEN PARK** (52 acres) W. 1.—Between Piccadilly and St. James's Park with *Constitution Hall*, leading to Hyde Park Corner.

* **HAMPTON COURT GARDENS** (54 acres)

* **HAMPTON COURT GREEN** (17 acres).

* **HAMPTON COURT PARK** (700 acres)

* **HYDE PARK** (364 acres)—From Park Lane, W. 1, to Kensington Gardens, W. 2, containing the *Serpentine*. Fine gateway at Hyde Park Corner, with *Apsley House*, the *Achilles Statue*, *Rotten Row* and the *Ladies Mile*. To the north-east is the *Marble Arch*, originally erected by George IV. at the entrance to Buckingham Palace and re-erected in present position in 1850.

* **KENSINGTON GARDENS** (275 acres) W. 2.—From western boundary of Hyde Park to Kensington Palace containing the *Albert Memorial*.

* **KEW ROYAL BOTANIC GARDENS** (288 acres), see p. 583.

§ **MARBLE HILL** (66 acres).—Twickenham, Middlesex (opposite Richmond, Surrey)—A beautiful park, running down to the riverside, on the left bank of the Thames, includes a mansion, formerly the residence of Mrs. Fitzherbert, morganatic wife of George IV. Twickenham contains Pope's Villa (rebuilt) and the poet's tomb in the parish church, near which is York

House, where Queen Anne was born At *Strauberry Hill* is Horace Walpole's house with ornamental garden

†**PADDINGTON RECREATION GROUND** (26 acres), N 2.

WESLEY'S HOUSE MUSEUM, 47 City Road, E.C. 1.—Open week-days from 10 to 1 and 2 to 4, charge 6d.

EXHIBITIONS, &c.

BRITISH EMPIRE EXHIBITION, Wembley. President, H.R.H. the Prince of Wales. The British Empire Exhibition of 1925 was the greatest exhibition of its kind ever held. The Home Government, India and all the Dominions and Colonies had special pavilions in the grounds which cover an area of 216 acres. The Palace of Engineering, which is six times the size of Trafalgar Square, contained the finest collection of engineering exhibits ever brought together in any one exhibition. Huge Amusements Park, gardens, restaurants, bandstands, conference hall, internal railways. Ten minutes from Baker Street and Marylebone connected with all main lines. It is hoped to continue the Exhibition in 1925, and when "Whitaker" was sent to press there appeared to be every prospect of an equally successful Exhibition at Wembley in 1925.

CRYSTAL PALACE, S.E. 10.—The Great Pleasure Resort, originally designed for the International Exhibition in Hyde Park (1851) removed and re-erected on the crest of Norwood Hill. Open daily (except Sundays) from 10 a.m. Festivals, Shows, musical and other entertainments. The famous Fine Art Courts and collection of Statuary have recently been restored. 28 acres of recreation under cover and 200 acres of parkland.

MADAME TUSSAUD'S EXHIBITION, Marylebone Road, N.W. 1 (adjoining Baker Street Station).—Portrait models of celebrities past and present. Napoleon, Wellington, Nelson, and other relics. Open from 10 to 10. 1s (tax ad.); children half-price.

OLYMPIA, Addison Road, W. 14. Various Exhibitions in 1925, and the Royal Tournament (June), followed by the International Horse Show.

ROYAL AGRICULTURAL HALL, Upper Street, Islington, N. 1.—Cattle Show in December, World's Fair in Dec and Jan, Dog Show in Feb, Horse Shows in Feb. and March, Yachting Exhibition in March, Drapery Exhibition in April, Printing Exhibition in May, London Fair and Market in July, Confectionery and Grocers in Sept., Shoe and Leather and Dairy in Oct., Brewers, Public Works and Transport Exhibitions in Nov.

ROYAL BOTANIC GARDENS, KEW.—Accessible by railway, omnibus, "tube" and electric tram. Open daily, M., W., Th., Sat., Sun and Good Fri. free. Tu. and Fri. (Students' days), 6d. 10 to sunset or 9 p.m. (summer time) (Houses 1 p.m. to 5 p.m. or sunset). Closed on Christmas Day.

ROYAL BOTANIC SOCIETY'S GARDENS, Regent's Park, N.W. 1.—Daily from 9 a.m. (Sundays 9.30 a.m.) to sunset. On Thursdays and Saturdays, 6d., other days 1s or by orders from Fellows.

ROYAL HORTICULTURAL SOCIETY, Vincent Square, S.W. 1, holds fortnightly exhibitions at Vincent Square, S.W. 1, and occasional large shows in the grounds of Chelsea Hospital (May).

WHITE CITY, Shepherd's Bush.—British Industries Fair (1925), Feb. 15 to 27. See of British Industries Fair, 35 Old Queen Street, S.W. 1.

ZOOLOGICAL GARDENS, Regent's Park, N.W. 8 (opened A.D. 1828, the King's menagerie transferred from the Tower of London, 1834).—Admission on week days from 9 a.m. till sunset (warning bell is rung 15 minutes before closing time); Mondays 6d., other weekdays, 1s, children under twelve, 6d. Special prices for parties and schools, on application to the Secretary. On Sundays admission to the gardens

can only be obtained by an order from a Fellow of the Zoological Society. A military band plays on Saturday afternoons in summer from 4 p.m. An aquarium (admission on Monday 6d., other days 1s., children under 12, 6d.) was opened in 1924.

In 1923 visitors to the "Zoo" numbered 1,613,125, an increase of 185,276 compared with 1922, the receipts for admission being £55,125.

MUSIC.

ROYAL OPERA, Covent Garden, W.C. 2.—Grand Opera during London Season (in 1922 the Grand Opera season was revived) *Fancy Dress Balls* at Covent Garden on Fridays during winter.

QUEEN'S HALL, Langham Place, W. 1.—Promenade Concerts by the New Queen's Hall Orchestra, from second week in Aug. to end of Oct. *Conductor*, Sir Henry J. Wood (M., Wagner, T., Classical, W., Operatic, &c. Th. Popular, F., Beethoven, Sat., Popular.) Symphony Concerts throughout year. Sunday Concerts, after noon and evening. See also Royal Philharmonic Society, below.

ROYAL ALBERT HALL, South Kensington, S.W. 7.—Royal Choral Society, London Ballad, and other Concerts, Meetings, Balls, Bazaars, Exhibitions, &c. Concert every Sunday at 3. *Manager*, Hilton Carter, M.V.O.

ROYAL PHILHARMONIC SOCIETY, 19 Berners Street, W. 1.—*Hon. Sec.*, J. Mewburn Levison. Series of orchestral concerts commenced 1883 and continued without break to present time. Season, Nov.—April at Queen's Hall.

KNELLER HALL, Twickenham.—Royal Military School of Music. Wednesday concerts are held from 3rd Wed. in May to last Wed. in Sept., 1st and 3rd Wed. at 3.30 P.M., all other Wed. at 7.30 P.M.

ÆOLIAN HALL, 135, Bond Street, W. 1.

ALEXANDRA PALACE, Wood Green, N. 22.

PHILHARMONIC HALL, Great Portland Street, W. 1.

STEINWAY HALL, 15 Lower Seymour Street, Portman Square, W. 1.

WIGMORE HALL, Wigmore Street, W. 1.

METROPOLITAN SPORT.

AQUATICS (*Hon. Sec.*, *Amateur Rowing Association*).—The *Oxford and Cambridge Boat Race*, rowed almost continuously since 1825 (first race 1829) takes place about last Saturday in March. The course is $4\frac{1}{4}$ miles from Putney to Mortlake. *Henley Regatta* occupies four days towards the close of the London season, and some of its principal races are now of an international character. *Doggett's Coat and Badge* (see Eltham, p. 585) are competed for annually by Thames watermen on Aug. 1, from London Bridge to Chelsea. The *Wingfield Stulls*, marking the amateur championship of the Thames, are competed for, between Putney and Mortlake, in July.

ATHLETICS.—The Amateur Championships are generally held on the first Saturday in July at Stamford Bridge Grounds, Fulham Road, the headquarters of the London Athletic Club, under the auspices of the *Amateur Athletic Association* (A.A.A.), 10, John Street, Adelphi, W.C. 2. The *Women's Amateur Athletic Association* (*Sec.*, Major Marchant, Polytechnic, Regent Street, W. 1) is affiliated to the A.A.A. The *Oxford and Cambridge Sports* are held at Queen's Club, Hammersmith, usually on the Friday before the Boat Race. *Boxing* is managed by the English Bowling Association, C. E. Woodruff, *General Sec.*, 9-10, Pancras Lane, Queen Street, E.C. 4.

Amateur Boxing is managed by the Amateur Boxing Association, 4, Aldgate High Street, E. 1, and Professional Boxing by the National Sporting Club, 43, King Street, Covent Garden, W.C. 2. *Cricket* is governed by the M.C.C. at Lord's (see p. 576). The grounds of Surrey County Cricket Club at Kennington Oval and of Essex County at Leyton are also easily accessible. The *Croquet Association* offices (*Sec.*, Charles Crawley) are at 4, Southampton Row, W.C. 1. *Rugby Football* in the Metropolitan area is played by amateurs only, the international home matches between England and Wales, Scotland, Ireland and France taking place at Twickenham. The Oxford and Cambridge match is also played at Twickenham. The principal Metropolitan Clubs are Blackheath (Rectory Field), the Harlequins (Twickenham), Richmond (Athletic Ground), London Scottish and Rosslyn Park (Old Deer Park, Richmond). *Sec. of the Rugby Union*, Commdr. S. F. Cooper, R.N. *Officers*, Twickenham. Association Football is principally professional, the leading Metropolitan clubs being Arsenal (Highbury, N.), Chelsea (Stamford Bridge), Clapton Orient (Millfields Road, Homerton, E. 9), Fulham (Craven Cottage, S.W. 6), Millwall (New Cross, S.E. 14), Queen's Park Rangers (Shepherd's Bush, W.), Tottenham Hotspur (Tottenham, N.), and West Ham United (Upton Park, E.). *Secretary of the Football Association*, F. J. Wall, *Office*, 42, Russell Square, W.C. The governing body for Amateur Gymnastics is the Amateur Gymnastic Association of Great Britain and Ireland (*Hon. Sec.*, C. J. West, Grassmead, Lingfield, Surrey). *Lawn Tennis* Headquarters are at the All England Lawn Tennis Club at Wimbledon, S.W., where the Championship of the world is decided early in July (or late in June). The controlling body is the *Lawn Tennis Association*, 49, Queen Victoria Street, E.C. 4. *Polo* is played at Hurlingham Club (Fulham, S.W. 6), and at Ranelagh Club (Barnes, S.W. 13). *Tennis* is played at Queen's Club, Prince's Club, and Lord's, and there is a Tennis Court at Hampton Court Palace (built by King Henry VIII in 1520).

RACE MEETINGS.—The *Derby* is run at Epsom (14 miles from London) last Wednesday in May or first Wednesday in June. *Ascot Week* at Ascot Heath, near Windsor, about a fortnight after the Derby. The principal meetings are at *Newmarket Heath*, meetings near London are Sandown Park (Esher), Kempton Park (Sunbury), Hurst Park (W. Molesey), Gatwick (Reigate), Lingfield (E. Grinstead), *Goodwood Races*, which mark the close of the London season, are held in the Duke of Richmond's Park, near Chichester, Sussex in July. The *Grand Military Steeplechase* is at Sandown Park. The *Grand National Steeplechase* (the principal race of the steeplechasing season) is held at Aintree, near Liverpool, about the last Friday in March.

ENVIRONS OF LONDON.

BARNET AND HADLEY GREEN.—Scene of Battle, A.D. 1471. Memorial Pillar to Earl of Warwick. Hadley Woods.

BROOKLANDS, Weybridge.—Motor and motorcycle races.

BURNHAM BEECHES and FLEET WOOD, Bucks.—Magnificent sylvan scenery (374 acres), purchased by the Corporation of London for the benefit of the public in 1879. Fleet Wood (65 acres) presented in 1921. During summer omnibus runs daily, Sundays included, from Slough Station, G.W.R., passing within 250 yards of "Gray's Elegy" Church, see "Stoke Poges."

BUSHY PARK (1,100 acres).—Adjoining Hampton Court, contains many fine trees and avenue of horse-chestnuts enclosed in a fourfold avenue of lines, planted by King William III. "Chestnut Sunday" (when the trees are in full bloom with their "candles") is usually about 1st to 15th May. A herd of tame deer is maintained in the Park.

CROYDON, Surrey—London Terminal (Customs) Aerodrome.

CUFFLEY, Herts—Memorial to Capt. W. L. Robinson, F.R.S., on spot above which the first German Zeppelin (L 21) was destroyed on British soil, Sept. 3, 1916.

DULWICH, S.E. 21 (5 miles from London) contains *Dulwich College* (founded by Edward Alleyn in 1579), *Dulwich Picture Gallery*, built by Sir John Sloane (open free daily, 10 to 4, 5, or 6, and on Sunday afternoons during the Summer), the *Horniman Museum* (see p. 582), and *Dulwich Park* (72 acres). In *Dulwich Village* the rural characteristics of the pre-suburban period are preserved.

ELTHAM, Kent (10 miles from London by S.E. & C.R.) Remains of 13th-15th century Eltham Palace, the birthplace of John of Eltham (1316), son of Edward I. The hall, built by Edward IV., contains fine hammer beam roof of chestnut. In the churchyard of St. John the Baptist is the tomb of Thomas Doggett, the comedian and founder of the Thames Waterman's championship.

ENFIELD, Middlesex (10 miles from London by G.E. or G.N.R.). Opposite Market Place is part of Princess Elizabeth's Palace, with fine carvings; the Parish Church contains well-preserved brasses and monuments.

ENFIELD LOCK, Middlesex (11 miles from London by G.E.R.). Royal Small Arms Factory may be visited by appointment (intending visitors must be British subjects and should apply beforehand by letter).

EPING FOREST (5,560 acres, purchased by the Corporation of London for £250,000 and thrown open to the public in 1882), the present forest is 11 miles long by 1 to 2 miles wide, about one-tenth of its original area. In 1920 the deer in the forest numbered 87. **LOUGHTON, BUCKHURST HILL, CHINGFORD, HIGH BENCH, on Great Eastern Railway**. Beautiful forest scenery.

ETON COLLEGE—22 miles from London. The most famous of English schools, founded by Henry VI. in 1440, the scholars numbering 1,131 in May 1923. Buildings date from 1523.

GRAVESEND, a borough and river port, 22 miles from London (S.E. & C.R.). A favourite resort for Londoners. St. George's Church (1727) contains a pulpit of Virginian wood, erected in 1704, and a stained glass window (the gift of ladies of Virginia) in memory of Princess Pocahontas, who was buried in the former church in 1617. Gravesend was formerly considered to be the entrance to London (Tilbury fort and docks are on the opposite bank), and King Edward VII. received Queen Alexandra there, March 7, 1903 (three days before their wedding).

GREENWICH, S.E. 10—A south-eastern metropolitan borough (see p. 560) with a frontage of 4½ miles on the Thames. *Greenwich Hospital* (since 1873, the Royal Naval College) was built by Charles II., from designs by Inigo Jones, and by Queen Anne and William III., from designs by Wren, on the site of an ancient royal palace, and of the more recent *Placentia*, an enlarged edition of the palace, constructed by Humphrey, Duke

of Gloucester (1391-1447), son of Henry IV. Henry VIII., Queen Mary I. and Queen Elizabeth were born in the Royal Palace (which reverted to the crown in 1447) and King Edward VI. died there. The Painted Hall of Greenwich Hospital (Thornhill), Nelson Relics, &c., free on weekdays (except Friday) from 10 and on Sundays from 2 till 4 or 6, according to time of year. In the principal quadrangle is a marble statue of George II., by Rysbrack. *Naval Museum*, interesting Collection of Models, &c., open daily, except Friday and Sunday, from 10 till 4 or 6. Chapel open daily except Sundays and Fridays, and after 4 p.m. on Saturdays. *Greenwich Park* (188 acres) was enclosed by Humphrey, Duke of Gloucester, and laid out by Charles II. from the designs of Le Notre. On a hill in Greenwich Park is *Greenwich Observatory* (founded 1675) the zero meridian of longitude and of "Greenwich Time." Admission to the Observatory only by permission of the Astronomer Royal. The parish church of Greenwich (*St. Alge*) was rebuilt by Hawksmoor (Wren's pupil) in 1718, and contains a pulpit and other carvings attributed to Grinling Gibbons. General Wolfe (Heights of Abraham) and Tallis ("the father of Church Music") are buried in the church. Henry VIII. was christened in the former church. The Ministerial *Whitebait Dinner*, held for many years at the "Ship" Hotel, was last held in 1894.

HAMPTON COURT—Sixteenth century Palace built by Cardinal Wolsey, and added to by Sir Christopher Wren for William and Mary, 15 miles from London. Fine view of river. Beautiful gardens with maze and prolific grape vine (planted in 1768). Old Royal Apartments and collection of pictures. Tennis Court, built by King Henry VIII. in 1530. Open every week-day (except Friday) and on Sundays. Hours: Jan., Feb., Nov., Dec., 10 to 4; Sun 2 to 4; Mar., Apr., Oct., 10 to 5; Sun 2 to 5; May, June, July, Aug. and Sept., 10 to 6; Sun 2 to 6. Admission, Mon., Wed., Thur. and Sat., 6d.; Tues., 1s. (children half price). Sun and Bank Holidays, free. *Bushy Park* adjoins the Lion Gates of Hampton Court Palace.

HARROW-ON-THE-HILL—10 miles by Metropolitan and other railways. Large public school (620 scholars in Sept. 1922), founded by John Lyon in 1571. The "Fourth Form Room" dates from 1608.

JORDANS and CHALFONT ST. GILES, near Beaconsfield, Bucks., contain the Old *Quaker Meeting House* (1688) at Jordans, in the burial ground of which lies William Penn (Pennsylvania); a barn in the farm ground is believed to have been built out of the timbers of the *Mayflower* by the 17th century owner of Jordans (Gardener). At Chalfont St. Giles is the cottage where Milton lived during the Great Plague (1665-1666).

KINGSTON-UPON-THAMES, Surrey (about 22 miles from London), is the ancient place of coronation of the Kings of Saxon England. The Coronation Stone (hence the name "King's Stone") is preserved within railings in the market place.

RICHMOND, S.W. 14, contains the red brick gateway of *Richmond Palace* (Henry VIII., 1485-1509) and many buildings of the periods of Queen Anne (1702-1714) and George II. (1727-1760), including *White Lodge* in Richmond Park, the residence of the Duke and Duchess of York, and the home of Queen Mary's mother (the Prince of Wales was born there June 23, 1804). The *Star and Garter Home* for Disabled Soldiers, Sailors,

and Airmen (the Women's Memorial of the Great War) was opened by Queen Mary in 1924. *Richmond Park* (2,500 acres) contains herds of fallow and red deer. From the *Terrace Gardens*, Richmond Hill, can be obtained a wonderful view of the Valley of the Thames.

RUNNEMEDE.—A meadow of about 100 acres, on S bank of Thames (part of the Crown Lands), between Windsor and Staines. From June 15-23, 1215, the hostile Barons encamped on this meadow during negotiations with King John, who rode over each day from Windsor. The 48 "Articles of the Barons" were accepted by the King on June 15, and were subsequently embodied in a charter, since known as *Magna Carta*, of which several copies were sealed on June 19. About half a mile N E of the meadow is the privately owned *Magna Carta Island*, which is claimed as the actual site of the sealing.

RYE HOUSE, at Hoddesdon, on the River Lee. Scene of the celebrated plot. Old castle and dungeons, pictures, oak fireplaces, chests and panels, Queen Elizabeth's bed, the Great Bed of Ware (mentioned in "Twelfth Night").

ST ALBANS.—A city in Hertfordshire, on the river Ver, 22 miles N W of London. The abbey church, built partly of materials from the old Roman city of Verulamium by Paul of Caen, was consecrated in 1125. Parts still remain of the Norman structure. The city was the scene of the overthrow of Henry VI in 1455, and of the Earl of Warwick in 1461. On a printing press set up in the abbey the first English translation of the Bible was printed. Ruins of ancient City of Verulam, St Michael's Church, with tomb of Lord Bacon.

STOKE POGES (2 miles from Slough station on G.W. Ry.) contains the 14th century church with the Churchyard of Gray's "Elegy" and "Ode on a Distant Prospect of Eton College." The poet was buried in the church in 1771. There is an eccentric "Bicycle" Window (1643) in an external cloister.

WALTHAM ABBEY (or **WALTHAM HOLY CROSS**), 13 miles from London (G.E.Ry.).—The Abbey ruins, Harold's Bridge (13th century), the Nave of the former cruciform Abbey Church (the oldest Norman building in England, and the traditional burial place of King Harold II, 1066) and a Lady Chapel of Edward II, with crypt below. At Waltham Cross, 1 mile from the Abbey, is one of the crosses (partly restored) erected by Edward I to mark a resting place of the corpse of Queen Eleanor on its way to Westminster Abbey. (Ten crosses were erected, but only those at Geddington, Northampton and Waltham remain, "Charing" Cross originally stood on the spot now occupied by the statue of Charles I. at Whitehall.)

WINDSOR CASTLE (begun by William the Conqueror, A.D. 1066-1087)—22 miles from London, by Great Western and South Western Railways. When the Court is not in residence, the State Apartments of Windsor Castle are generally open to the public, during His Majesty's pleasure, on every week-day except Friday. The charges for admission are Adults, 1s.; children, 6d. On Bank Holidays half the usual fees are charged. Charitable societies, one-half in each case; the proceeds to go, by the King's command, to local charities. An authorised guide book can be obtained at the office, price 6d. The hours of admission to the State Apartments are from

1 April to 30 June, between 11 and 4, 1 July to 30 Sept, 11 to 5, and from 1 Oct to 31 March, between 11 and 3. The Albert Memorial Chapel and the Round Tower are open on the same days and at the same hours as the State Apartments, except that the Round Tower is closed during the winter (1 Oct to 31 March). The royal stables and riding school may be viewed daily between the hours of 1 and 3. St George's Chapel may be viewed on week-days (Fridays excepted), between 12.30 and 3 in summer and 4 in winter.

WOOLWICH—9 miles from London; S E & C R Dockyard Station for Barracks, Rotunda, &c. *Old Dockyard*, *Extensive Barracks for Royal Artillery*, *Royal Army Service Corps*, &c. Common for military evolutions. *Rotunda Museum* daily, free, from 1 April to 30 Sept, 10 a.m. to 12.45 p.m. and from 2 p.m. to 5, 1 Oct to 31 March, from 10 to 12.45 and from 2 to 4, Sundays, April to Sept, 2 to 5, Oct to March, 2 to 4 p.m.

RAILWAY (TERMINAL) STATIONS.

(See also p. 520)

The terminal stations of the Railways radiating from London are shown below. Many of these stations are linked up by *Underground Railways*, as indicated by distinguishing marks.—* *Metropolitan and District*; † *Central London* ("The Tube"), ‡ *Baker Street and Waterloo* ("The Bakerloo"), § *Charing Cross, Euston, and Hampstead* ("Hampstead Tube"); ¶ *Great Northern, Piccadilly and Brompton* ("Piccadilly Tube"), (a) *Great Northern and City* ("Metropolitan Tube"), (b) *City and South London*, (c) *Waterloo and City*.

LONDON THEATRES IN 1923-24.—The most notable play of the year was *Saint Joan*, Bernard Shaw's version of the Story of Joan of Arc, in which Miss Sybil Thorndike scored a great success at the New Theatre. Bernard Shaw's "Pentateuch," or play cycle, *Back to Methusalem*, which had been produced at Birmingham in the preceding year, was introduced to London at the Court, and attracted considerable attention. There was a Barrie boom early in the year, four of Sir James's plays running at the same time, and two arresting war dramas attained success. *Havoc*, by Harry Wall, at the Haymarket, and *The Conquering Hero*, by Allan Monkhouse, at the Queen's. A religious play, *The Fool*, which had created a furore in the United States, was received with enthusiasm at the Apollo. Among the leading dramatists represented in the year's productions were John Galsworthy, C K Munro, Alfred Sutro, Eden Philpotts, Arnold Bennett, A. A. Milne and W Somerset Maugham. Towards the end of the year the "Old Vic," re-opened after alterations, and resumed its place as the regular home of the national poet.

Record Runs—The "record run" at a London theatre, in pre-war days, was held by *Charley's Aunt* (1,466 consecutive performances). The present record is 2,238 consecutive performances of *Chu Chin Chow*, which was produced at His Majesty's on Aug. 31, 1916, reached its 1,467th performance on Oct. 17th, 1919, and was withdrawn after its 2,238th performance (having brought in over £700,000) on July 22, 1921. Other long runs are *Beggar's Opera* (1,453), *Our Boys* (1,352), *The Maid of the Mountains* (1,352), *A Little Bit of Fluff* (1,241), *A Chinese Honeymoon* (1,075), *Romanos* (1,048).

CINEMATOGRAPH THEATRES.—It has been stated that there are upwards of 4,000 Picture Palaces and Cinematograph Theatres in Great Britain and Ireland. The latest tendency is for first-rate authors and artists to co-operate for the production of high-class work, and the general level of the productions shows an upward movement.

The United States is the pioneer country for film production. One consequence is the growth in population of Los Angeles from 319,198 in 1910 to 576,063 in 1920. During 1921, although the trade declined considerably, the United States exported about 40,000,000 feet of unexposed film, and about 130,000,000 feet of filmed pictures, the estimated value being approximately £3,000,000. Canada is the largest purchaser of United States film productions, importing some 8,000,000 feet of film. Great Britain's imports greatly exceed exports. From all sources, of films blank and exposed, 90,000,000 feet were imported in 1921. Re-exports amounted to 17,000,000 feet, and exports of British films to 13,000,000 feet. According to the 1922 report of his Majesty's Senior Trade Commissioner for South Africa, American films are sold in that country at an average price of 5½d. per foot, whilst the British price is 3d. per foot. In the United States the revenue from the Cinema industry is estimated at £120,000,000, or four times the total given for Great Britain. The number of theatres is estimated at between 14,000 and 18,000 in the United States alone. During December, 1922, every one showed films selected, for propaganda purposes, by the American Legion's Americanisation Commission.

In the Metropolitan Police Area and City of London *Motor Cabs* are fitted with a taximeter, which records the fare by a combination of time and distance. In addition to the legal fare and charges for luggage and extra persons, the Secretary of State has authorised an additional charge of 6d. for every hiring of a *Horse Cab*. Notice in relation to the increased charge must be conspicuously displayed inside *Horse Cabs*.

MOTOR CABS

FARE payable for the hiring of a *Motor Cab* fitted with a *Taximeter*

- (a) Not exceeding one mile, or for a period of time not exceeding ten minutes s d
 - (b) Exceeding one mile or ten minutes — s d
 - (1) For each quarter of a mile, or for a period of time not exceeding two and a half minutes o 3
 - (2) For any less period or distance o 3
- In addition to the above the driver is entitled to charge the following extra payments —
- (1) Luggage — Whether hired by distance or by time—for each bicycle, child's mail cart, or perambulator, 6d., for each package carried outside o 3
 - (2) Extra persons — When licensed to carry more than two persons—for each additional person beyond two, the whole journey o 9
- Provided that one child or two children under the age of ten years shall count as one person

HORSE VEHICLES

Exclusive of the extra 6d. noted in the leading paragraph

FARES BY DISTANCE (Cabs either with or without a Distance Recorder, but without a *Taximeter*) If hired and discharged within the Four-Mile Radius, for any distance not exceeding two miles s d

The driver may notify, by means to be approved by the Commissioner of Police, that he is willing to accept a fare of 6d. for any journey not exceeding a mile s d

For every additional mile or part of a mile If hired *outside* the Four-Mile Circle, wherever discharged, for the first and each succeeding mile or part of a mile s d

If hired *within*, but discharged *outside* the Four-Mile Circle, where distance not exceeding one mile, 1s., exceeding one mile, then for each mile *ended* within the circle, 6d., and for each mile or part of a mile *ended* outside s d

FARES BY TIME *Inside* the Four-Mile Circle Four-wheeled Cabs, for one hour or less, 2s., two-wheeled Cabs s d

If above one hour, for every quarter hour of the whole time and for any less period, four-wheeled Cab, 6d., if two-wheeled Cab s d

If hired *outside* the Circle, wherever discharged, for one hour or less whether a four-wheel or a hansom s d

If above one hour, then for every quarter hour of the whole time and for any less period s d

If hired *within*, but discharged *outside*, the Four-Mile Circle, the same s d

EXTRA PAYMENTS — *Hires of Cabs should particularly notice these regulations, as disputes generally arise from their not being clearly understood*

Whether hired by DISTANCE OR BY TIME, or whether within or without the radius

LUGGAGE — For each bicycle, child's mail cart, or perambulator, 6d.; for each package carried outside the carriage s d

NOTE — Luggage carried on the footboard of a hansom-pattern cab so that the doors do not close over it is deemed to be outside within the meaning of this clause

EXTRA PERSONS — For each above two (one child or two children under 10 years of age count as one person) s d

WAITING — When hired by distance, and at the request of the hirer made to wait for every 15 minutes completed — If hired within the Four-Mile Circle, 4 wheels, 6d., 2 wheels s d

If hired without Circle, 2 or 4 wheels s d

GENERAL REGULATIONS

GENERAL REGULATIONS — The fares by *Taximeter Motor Cabs* are based upon a combination of time and distance. When the cab is kept waiting, delayed by traffic, or caused to travel at the rate of less than six miles an hour, then the charge is by time. When travelling at a speed of six or more miles an hour, then the charge is by distance. Fares for horse-drawn cabs are according to distance or time, at the option of the hirer, expressed at the commencement of the hiring, if not otherwise expressed, the fare to be paid according to distance, but driver can refuse to be hired by time between 8 p.m. and 6 a.m.

DRIVER, if hired by distance, is not compelled to drive more than six miles, nor more than one hour if hired by time. Further, if hired by time, the driver may be required to drive at any rate not exceeding four miles an hour, if required to drive more than four miles within the hour he may demand, in addition to the fare regulated by time, for every mile or any part exceeding four miles, the fare regulated by distance.

AGREEMENT to pay more than legal fare is not binding.

If the driver agree beforehand to take any sum less than the proper fare, the penalty for demanding more than the sum agreed upon is 40s.

The driver of every cab shall have with him, and when required produce, the Authorized Book of Distances, and every driver of any cab shall, if so required, deliver to the hirer a printed ticket, showing cab number, name and address of Proprietor, &c.

Driver may demand a reasonable sum as a deposit from persons hiring and requiring him to wait at any place, over and above the fare to which the driver is entitled for driving thither. Penalty 40s., if driver, having received such deposit, refuse to wait, or go away before the expiration of the time for which the deposit shall be a sufficient compensation, or if the driver shall refuse to account for such deposit.

The London Cab Act, 1896, enacts that if any person hires a cab, knowing, or having reason to believe, he cannot pay the fare, or, fraudulently endeavours to avoid payment of a fare, or, having failed, or refused, to pay a fare, refuses, or gives a false address, is liable, in addition to the fare, to a penalty of 40s.

The fares legally demandable by a stage carriage are those painted in a conspicuous manner on the inside of every such carriage, and they are recoverable in a summary way before a Justice of the Peace, in the same way as fares for a hackney carriage.

All property left in any cab shall be deposited by the driver (and in the case of a stage carriage, by the conductor, or driver if no conductor) at the nearest Police Station within twenty-four hours, if not sooner claimed by the owner; such property to be returned to the

person who shall prove to the satisfaction of the Commissioner of Police that the same belonged to him, on payment of all expenses incurred, and of such sum to the driver as the Secretary of State has by order prescribed. Property found in a stage carriage by a passenger must be given up to the conductor under a penalty of £10.

All inquiries, &c. relating to public carriages should be addressed to the Public Carriage Office, New Scotland Yard; but inquiries as to property left in a cab or stage carriage should be made at the Lost Property Office, New Scotland Yard Office hours, 10 to 4.

LAMPS TO BE LIGHTED.

The following regulations apply to lighting and carrying of lamps on vehicles.—

Motor Cars—A white light placed on the extreme off-side, and visible within a reasonable distance toward which the car is proceeding or intended to proceed. This lamp should show a red light to the rear unless a red light is fixed on the rear of the vehicle. To be lighted one hour after sunset and kept till one hour before sunrise.

A lamp for the illumination of the rear number plate to be lighted *half an hour* after sunset to *half an hour* before sunrise.

Motor Cycles—A white light to the front, but if it has a side-car attached, a red light to the rear must also be shown during the period between *one hour* after sunset and *one hour* before sunrise.

The lamps need not be placed on the extreme off-side unless the side-car is attached or projects beyond the off-side of the motor bicycle.

The front or rear plate must be illuminated *half an hour* after sunset to *half an hour* before sunrise.

Horse Drawn—If only one lamp is carried it must be on the extreme off-side to show a white light to the front visible for a reasonable distance during the period between *one hour* after sunset and *one hour* before sunrise. If a light is shown to the rear it must be red.

N.B.—In certain localities a red light or red reflex light is requisite.

If a load projects more than 6 ft to the rear a red light must be shown to the rear.

Traction Engines must show two efficient lights to the front and a red light at the rear between the hours of one hour after sunset and one hour before sunrise from April 1 to Sept. 30, and between sunset and sunrise the remaining six months.

The lamps must be provided with shutters to enable them to be temporarily screened.

HARVESTING—County Councils have power to make orders exempting vehicles used for the purpose of harvesting from carrying lights.

STAGE CARRIAGES licensed in the Metropolitan Police District must carry a lamp inside, properly lighted, between sunset and sunrise when plying for hire.

HACKNEY CARRIAGE STATISTICS

During 1923 there were licensed public carriages—Hansoms, 15, clarences—animal 332, mechanical 7,674, omnibuses—animal 8, mechanical 5,117; char-a-bancs, 316; tramway cars—mechanical 3,224, total, 16,676. Drivers and conductors—Cab drivers—animal 460, mechanical 9,471; stage drivers—animal 2, mechanical 14,168, composite licences (stage driver and conductor)—animal 9, mechanical 2,354, conductors, 15,784, total, 42,248.

HACKNEY AND STAGE CARRIAGE DRIVERS before obtaining a licence are required to pass an examination as to their ability to drive, and hackney carriage drivers, in addition, have to pass an examination as to their knowledge of town. It extends to a knowledge of the principal squares, clubs, hospitals, hotels, theatres, streets, and public buildings in London. During 1923, of 618 men examined, 302 were successful. The proportion of drivers to mechanical hackney carriages is approximately 12.3 drivers to 10 carriages.

LOST PROPERTY

Of lost property, 130,670 articles were deposited, of which 50,122 were claimed by the owners. The number of awards paid to drivers, &c. was 47,018.

STREET ACCIDENTS, GREAT BRITAIN, 1923.

In addition to the accidents on the various railways of Great Britain, there were no fewer than 83,102 accidents caused by vehicles on streets and roads in 1923. Of this number 2,979 were fatal and 80,122 non-fatal, compared with 2,768 fatal and 67,429 non-fatal accidents in 1922.

Cause	Fatal	Non fatal
Electric trams	98	5,124
Horse-drawn vehicles	237	6,198
Motor omnibuses	335	5,177
Other motor vehicles	2,100	47,907
Pedal cycles	209	15,716

Totals 2,979 80,122

Division	Fatal	Non fatal
England	2,557	72,056
London	684	31,209
Birmingham	65	1,625
Liverpool	63	2,405
Manchester	48	1,386
Wales	137	2,234
Scotland	285	5,832
Glasgow	35	1,256
Edinburgh	36	1,376

In 1923 there were 109,425 street accidents in Paris, of which 150 were fatal.

METROPOLITAN PASSENGER TRAFFIC

Conveyances	1920	1921
Tramways	1,062,986,520	1,009,043,113
Omnibuses	935,946,002	931,751,042
Tube Railways	265,587,941	216,996,197
Other Local Railways (Met., District, &c.)	424,000,000	371,000,000
Suburban Lines	368,000,000	324,000,000

LONDON FLAG DAYS

Since the time when accounts were first insisted upon upwards of £1,530,000 has been collected for various charitable objects at an administrative expense of, approximately, 12½ per cent. Of the total amount available for charities a large proportion has gone to hospitals, which in 1922 benefited to the extent of £209,787, as against £53,550 in 1921. Of a total of £206,613 raised in 1922, £179,923 was collected, and donations amounted to £26,680. Expenses absorbed £25,502, leaving a balance for distribution of £171,111, or approximately 87 per cent.

TITHE RENT CHARGE

THE Tithe Rent Charge is normally based on the septennial average price of wheat, barley, and oats, the basic price per imperial quarter being taken at 55s. 2d. for wheat, 32s. 8d. for barley, and 22s. for oats, but has been fixed until Jan. 1, 1926, by the Tithe Act (1922) at £209 3s. 11d.

On Jan 1, 1922, there were 10,663 Registered Clubs in England and Wales, an increase of 460 since Jan 1, 1921. In Wales (incl Monmouthshire) the number on Jan 1, 1922, was 433, which are included in the former total

THE CHILTERN HUNDREDS

RESIGNATION OF MEMBERS OF PARLIAMENT — No duly elected member of the Commons can resign his seat, he must apply for some office of profit under the Crown, and so vacate his seat under the Act of Settlement, 1707 (6 Anne, c. 7), and the usual practice is to apply for the Stewardship of the *Chiltern Hundreds*, or of the Manor of Poynings, or Northstead, or the Escheatorship of Munster, whereupon the seat is declared vacant (under the Place Act of 1722, which expressly permitted acceptance of such offices to serve as an excuse for resignation) and a new writ is issued by the Speaker.

PRIME MINISTER'S RESIDENCE.

DOWNING STREET, Whitehall, S.W. 1.—Named after a politician of Charles II.'s reign. No. 10 is the official town residence of the Prime Minister, No. 11 of the Chancellor of the Exchequer, and No. 12 is the office of the Government Whip. *Chequers*, a country residence for Prime Ministers (from Jan. 1, 1921), was accepted by Mr Lloyd George in 1917 (with an endowment to maintain the estate, &c.) from Lord and Lady Lee of Fareham. In 1921 the *Chequers Estate* of 700 acres was added to the gift by Lord Lee. *Chequers* is a Tudor mansion in the Chilterns, about 3 miles from Princes Risborough, Bucks, and contains a collection of Cromwellian portraits and relics.

NOTE—WHITAKER'S ALMANACK was first published in 1868 (for the year 1869), and since 1887 there have been two editions. For 1925 the Popular Edition (in paper cover with Zodiac design) consists of 600 pages, and is sold for 3s. net; the Half-Bound Edition (in red and green cloth cover), consists of 900 pages, and is sold for 6s. 0d. net.

The Indian Empire.

601

THE INDIAN EMPIRE extends over a territory larger than the Continent of Europe without Russia. Legally, "British India" means all territories governed by the King-Emperor through the Governor-General of India, or through any governor or other officer subordinate to the Governor-General of India; while "India" means British India, together with any territories of any prince or chief under the suzerainty of His Majesty, exercised through the Governor-General of India or through any governor or other officer subordinate to the Governor-General of India (Act 52-3 Vict., c. 63, s. 18). There are tracts of tribal territory on the N.W. and N.E. frontiers under the political influence, though not yet under the administrative rule, of the Indian Government.

Boundaries.—The political boundary of India marches with Persia and Afghanistan from the Gulf of Oman to Poval Schveikovski on the Taghdumbash Pamir. From this point the frontier—in many parts not yet clearly defined—touches the Chinese Empire and Nepal, till the limits of French Indo-China are reached on the Upper Mekong. The Indian frontier, on leaving the Mekong, marches with Siam till it reaches the sea at Victoria Point, half-way down the Malay peninsula. Beyond the sea the Indian Empire includes the Andaman and Nicobar Islands, the Laccadive and Minicoy Islands, Aden and Perim, besides protectorates over Socotra, Bahrain, and various chiefships along the coast from Aden to the Persian Gulf. Continental India, including Baluchistan, reaches from 8° to 37° N. latitude, and from 61° to 101° E. longitude. Delhi, the new capital, lies in 77° E. long.

Area and Population.—The total area of India proper is about 1,805,000 square miles, with a population of nearly 319 millions (about three-fourths of the population of the British Empire). The British Provinces, as distinguished from the Indian States, comprise 61 per cent. of the area, and nearly 78 per cent. of the population. The details are as follows:—

PROVINCE, STATE, OR AGENCY	Area in square miles (1921)	PERSONS				Difference per cent 1921 & 1921
		1921			Total	
		Males	Females	Total		
Ajmer Merwara	2,711	269,566	225,705	495,271	508,395	+ 12

* Districts and Administered Territories.

Physical Features.—Excluding Burma, which forms no part of the Indian peninsula, we may broadly divide the country into three sections, viz., the Himalayan region, the northern river-plains, and the southern table-land.

The Himalayas.—The Himalayas (which lie partly beyond the frontier), with their southern offshoots, form the natural northern boundary of India. The Himalayan range runs for 1,500 miles from N.W. to S.E., with a varying breadth of 150 to 200 miles, and attains a general height of 20,000 feet above the plain, culminating in the loftiest peaks yet measured on the globe—Mount Everest, 29,141 feet, Kunchinjunga, 28,146 feet, and Dhaulagiri, 26,826 feet, near the centre of the range, and Mount Godwin Austen, 28,250 feet, near its junction with the Hindu Kush. The line of perpetual snow is at about 16,000 feet. The Himalayas collect and store up water for the plains below. The slopes afford a representation of the tropical zone (especially on the southern slopes to the E.), the temperate zone (particularly to the S.W. of the range), and the arctic zone as the upward journey is taken from the plains. In the Himalayas are several sanatoria, including Murree, Simla, Mussoorie, Naini Tal, and Darjiling. Himalayan vegetation includes such varied species as the tree-fern, ilex, pine, oak, fir, deodar (cedar), rhododendron, barley, oats, millet, and many domestic vegetables. The fauna are as varied as the flora, and include the bison, musk-deer, yak, wild sheep and goat, bear, elephant, monkey, and tiger, with eagles, partridges, and pheasants. Between the Himalayas and the plains to the S.E. is the great fever-haunted Terai or Duar jungle, densely forest-covered and full of big game.

The Great Plain.—The northern river-plains, lying at the foot of the Himalayas, comprise the rich alluvial plains watered by the Indus, the Ganges, the Lower Brahmaputra, and their tributaries. At no great distance from one another, four rivers take their rise in the Himalayas. The sources of two are on the north side—the Indus, which flows westward for 1,800 miles, and the Tsan-po or Brahmaputra, which flows eastward for nearly 1,500 miles. The other two, on the southern slope, are the Sutlej, which, after flowing W. and S.W. for 900 miles and collecting various other streams, joins the Indus, and the Ganges, which, during a journey S.E. and E. of about 1,550 miles, drains almost all the Bengal plain. The Brahmaputra, after flowing along the northern side as far as the eastern extremity of the Himalayas, turns sharply to the S., then to the W., and finally joins the Ganges, 75 miles from where their combined streams enter the Bay of Bengal. Thus the Himalayas supply India with the water gathered on both slopes. The Indus and Ganges, with their tributaries, are the source of an extensive system of irrigation by canals. The richest, most populous, and most historically famous part of India lies in the basins of these great rivers. Formerly the Ganges was the only great highway of Bengal, it is still the fertiliser and the water-carrier. But a close network of railways is increasingly used for transport. The richness of the Indo-Gangetic plain, with its ample rainfall, enables it to support a dense population, almost wholly agricultural. The density of the population rises in some districts to 900 per square mile. On the other hand, in Baluchistan there are only 6 persons to the square mile. The population has increased most in the densest areas, and pressure on the soil is severe in parts of Bihar and the United Provinces. In Northern India there are two harvests, *rabi* (spring) crops being reaped in March and April, *kharif* (autumn) crops in October to December. In the north we find wheat, pulse, maize, millet, barley, and tea, while in the south, indigo, cotton, sugar-cane, jute, oilseeds, tobacco, opium, and spices are produced. Among the fauna are monkeys, panthers, tigers, leopards, hyenas, jackals, squirrels, elephants, deer, crocodiles, and snakes. Salt, mica, and coal are the chief minerals. The Ganges delta yields rice, bamboos, and a large variety of palms. The Aravalli range, the primeval chain of India, divides Rajputana from the Central India States. To the N.W. of the peninsula lies the mountainous, barren, and thinly populated region of Baluchistan.

The Deccan—Just as the Himalayas on the N. and the Hindu Kush and Suleiman Mountains on the N.W. form natural barriers of defence for Hindustan, so do the Vindhya Mountains, running almost due E. from the head of the Gulf of Cambay, north of the Nerbudda River, form a firm southern boundary to the river-plains of Northern India. Southern India, or the Deccan, is a plateau of triangular shape and very old geological formation, bounded on two sides by the Malabar and Coromandel coasts, which converge at Cape Comorin, and on the third by the Vindhya. The Eastern and Western Ghats all but complete this environing triangle of mountain ranges. In the extreme N.W., south of the Vindhya, and parallel to them, but north of the Western Ghats, we find the Nerbudda and the Tapti flowing westwards, their basins being sharply defined by the Satpura Mountains, which lie midway between them. As the Western Ghats lie close to the coast, and afford no exit for rivers, there are no streams on the Malabar coast south of the Tapti; all the rivers flow eastwards, through defiles in the Eastern Ghats, into the Bay of Bengal. The four chief rivers are the Mahanuddy, in the extreme N.E. (530 m.), the Godavery (900 m.), the Kistna (800 m.), and the Cauvery (472 m.), at intervals further to the south. The physical geography of Southern India has shaped its history: the S.W. coast, shut in by mountains,

is very primitive and moves slowly; the S.E., open and easy of access by sea and towards the interior, has made great progress. The mountain slopes of this region, especially those of the Western Ghats, which rise to 8,000 feet in the Nilgiris, are still covered with the splendid vegetation of primeval forests. Teak, ebony, satinwood, sandalwood, palm, and bamboo abound. The jungles in the E. are very deadly. The tiger, bison, leopard, deer, and various smaller game afford sport. Snakes are found everywhere. In the valleys and on the higher plains many valuable crops are raised, chiefly rice, millet, cotton, oilseeds, coffee, tea, indigo, tobacco, and chunchona. The black cotton soil is very fertile. There is irrigation by dams, wells, tanks, and canals. The southern tableland has furnished considerable supplies of minerals. At present the minerals principally worked are coal, manganese ore, mica, monazite, and gold.

Burma.—Beyond the Bay of Bengal is the large province of Burma, watered by the Irrawaddy and its tributaries and by the Salween. The delta region is flat, further inland are hills and rolling downs; while the north is mountainous. Rice is the chief staple. Millet, cotton, sesamum, and tobacco are also grown. The forests, particularly of teak, make a considerable contribution to the exports. Petroleum is produced on a considerable scale, and jade, wolfram, and rubies are mined. The fauna include monkey, jackals, tigers, elephants, bison, and deer.

Climate.—About half of India is within the tropics, but the greatest extremes of heat and cold are in the N.W. In the Himalayas the climate is moist and cold. In Northern India it is dry, and the winters are rather cold. In tropical Southern India the climate is more equable. Calcutta, Bombay, and Madras all have an equable climate, owing to proximity to the sea. India depends for its fertility upon the monsoon rains. The S.W. monsoon brings moisture from the ocean south of the Equator, and reaches the west coast early in June and the northern provinces late in June. The mountains arrest these currents and precipitate rainfall, which averages 60 inches in the sub-Himalayan region, 39 inches in the Indo-Gangetic plain, and 30 inches in the Deccan, but is small in Sind and Rajputana. Madras benefits by the N.E. monsoon in the autumn.

Population.—The fifth general census of India was taken on the 18th March, 1921. The final census returns gave a population of 318,942,480, as compared with 315,156,396 in 1911 (for details see p. 601), an increase in the ten years of about 1·2 per cent. The census total of 1921 is divisible into 247,003,293 (or over 77 per cent.) for British India, and 71,939,187 (or over 22 per cent.) for Indian States. India is not over-populated, for two-thirds of the people live on one-quarter of the area. In Burma, Assam, and elsewhere a much larger population might subsist. There were in 1921 33 towns with a population of over 100,000. Urban areas of over 5,000 people comprise only about 10 per cent. of the total population.

Caste.—Owing to the operation of the caste system India is broken up into a large number of mutually exclusive aggregates, the members of which are forbidden by an inexorable social law to marry outside the group to which they themselves belong. A caste may be defined as a collection of families, or groups of families, bearing a common name, which usually denotes or is associated with a specific occupation. The boundary of a caste may be said to be fixed by the rule restricting intermarriage, but its social status depends on the occupation of its members and their habits in respect of diet. The chief castes are—Sheikh (33,388,000), Brahman (14,255,000), Chamar (11,225,000), Ahir (9,032,000), Rajput (8,773,000), Burmese (7,827,000), Jat (7,375,000), Maratha (6,566,000).

Religions.—The population by religions in 1921 includes 216,734,586 Hindus (68 per cent. of the total), 68,735,233 Muhammadans (21 per cent.), 11,571,268 Buddhists (3·6 per cent.), nearly all in Burma, leaving nearly 7 per cent. for all other religions, including 4,754,064 Christians (seven-twelfths of whom are in Madras, Travancore, and Cochin), 3,238,803 Sikhs, 1,178,596 Jains (a decline), 101,778 Parsis, and 9,774,611 described as Primitive or Animists, who believe in magic and strive to propitiate impersonal forces. The Muhammadans, who are increasing faster than the Hindus, are infected with the caste system and other Hindu characteristics. The number of Indian Christians has increased nearly threefold since 1872.

Occupations.—Over 72 per cent. of the population was in 1921 dependent on pasture and agriculture. Industrial occupations support 33,000,000 persons, of whom nearly one-fourth are dependent on textile industries. The most important of these are industries connected with cotton, which employ nearly 6,500,000 persons, the majority of whom depend on hand-weaving. The public services support over 4,825,000 persons.

Sex.—Marriage is almost universal owing to religious obligations. The movement against infant marriage and enforced widowhood is gaining ground. There were in 1921 over 26,834,000 widows in India. The males outnumbered the females in 1921 in the proportion of 1,000 to 945.

Languages.—India has 222 vernacular languages, of extraordinary variety. The languages spoken by 316,056,000 persons in 1921 are grouped in seven families. The principal languages are Western Hindi (spoken by 96,714,000 persons), Bengali (49,295,000), Telugu (23,601,000), Marathi (18,798,000), Tamil (18,780,000), Punjabi (16,231,000), Rajasthani (12,681,000), after which come Orissa, Kanarese, Gujarati, Burmese, and Malayalam. Hindustani, a dialect of Hindi, has become the literary language of Hindustan, and is the *lingua franca* of India. English is understood by many.

LARGE CITIES WITH POPULATIONS EXCEEDING 110,000 (including Cantonments).

A Brief Sketch of Indian History.

ALEXANDER'S invasion of India (326 B.C.) is the first landmark of Indian history. A dim outline of earlier events can be traced from the evidences of race and language, from the traditions contained in ancient Indian literature, from accounts by later Greek and Chinese writers, and from coins and inscriptions. The oldest Indian books are supposed to date from about 1500 B.C., they are written in Sanskrit, a language akin to Persian and to the principal European languages. The writers of these books were Aryans, a race which, as their traditions indicate, came into India from north of the Hindu Kush. They found in India, and conquered, a population of yellow-skinned type in the Himalayan districts, and a short, dark-skinned race, of low civilisation, in the rest of India. Of both these types there are still survivors. The religion and metaphysics of the Aryans are to be found in the *Vedas* and *Upanishads*, their epics, the *Mahabharata* and *Ramayana*, extol their mythical heroes; while in the *Code of Manu* we find a picture of Indian society, rather as the priestly caste of the day wished it to exist, than as it actually existed. The ascendancy of the Brahman priesthood over the soldier class of Kshetrijyas is repre-

sented as fully established. The system of caste, originating in the attitude of the *Aryas* (kinsmen) to the dark and servile aborigines, generally prevails, and the people are organised in village communities. In the sixth century B.C. a new religion arose, called Buddhism. Its founder was Gautama, a prince of the Kshetrijya caste, who took the name of Buddha, the "awakened," and died about 487 B.C. His supposed remains were discovered near Peshawar in 1909. His tenets are contained in the *Tripitaka*, the Buddhist gospel. Buddhism was, in India itself, mainly a social reform, a revolt against the pride of caste and the exclusiveness of the Brahman priesthood. It prevailed widely from 250 B.C. to 350 A.D., but was never quite general, and existed side by side with Brahmanism, which it never succeeded in ousting. At length it lost ground, less through persecution than through a change in popular feeling, and before the twelfth century it had become practically extinct in India itself, though it still flourishes not only in Siam, China, and Japan, but also in Nepal, Burma, and Ceylon. Its decline in India was accompanied by a revival of Brahmanism, much modified.

According to Herodotus the twentieth satrapy

The latest principal publications relating to India, published in 1924, are:—Statistical Abstract, 1921-22 to 1920-21 (Cmd. 2033), Moral and Material Progress Report, 1923; Indian Budget for 1924-25 (H.C. 113), Home Accounts, 1922-23, Explanatory Memorandum regarding the Accounts and Estimates of 1924-25 (Cmd. 2266), Estimate of Revenue and Expenditure, 1923-24, Indian Finance Act, 1924 (H.C. 25), Constitutional Reform. Premature retirement on proportionate pension (Cmd. 2025), Census, 1921 (Cmd. 2004); Report of the "Lee" Commission on the Superior Civil Services (Cmd. 2128); Progress of Education in India, 1917-22 (4 vols.); Report of the Tariff Board on the Steel Industry; Report of the Indian Mercantile Marine Committee; Elections in India, 1923 (Cmd. 2154). They can be purchased through any Bookseller, or direct from H.M. Stationery Office, Imperial House, Kingsway, W.C.2.

One-Inch Ordnance Survey Maps are published by the Survey of India, and can be obtained from the India Office Sale Agents, Messrs. E. Stanford, Ltd., 22 to 24 Long Acre, London, W.C.2 (12. 6d to 22. 6d each).

of Persia at one time included part of the north-west of India. Alexander (356 B.C.) did not penetrate beyond the tributaries of the Indus, though he sailed down the river. At his death his Indian possessions fell to Seleucus, whose ambassador, Megasthenes (306 B.C.), has left an account of the country under the rule of Chandragupta, the Greek Sandrakottus. Megasthenes describes the democratic village communities of the Punjab, speaks of the people as brave and truthful and adverse to litigation, and notes the absence of slavery. Asoka (272-232 B.C.), the grandson of Chandragupta, whose edicts on stone pillars throw light upon this period, was a convert to Buddhism, which became the State religion. Our last contributors to a knowledge of India before the period of continuous authentic history are the Buddhist pilgrims from China who visited the country between 399 and 639 A.D.

The influence of the Greek conquest was swept away by the Scythians, who poured in many waves, between about 165 B.C. and 325 A.D., over Northern India. Their inroads left a lasting influence on the character of the population, and profoundly modified the religious beliefs and domestic institutions of the Hindus. The sixth century was a period of confusion. The emperor Harsha (590-606), after many years of fighting, made himself master of Northern India, and ended his reign in piety and peace. From about 650 to 950 anarchy prevailed.

The Arab conquest of Persia, towards the middle of the seventh century, brought the successors of Muhammad to the Indus, and in N.W. India they made some temporary acquisitions, but three centuries were to pass before the foundations of a durable Muhammadan empire were laid. It was in 990 that Mahmud of Ghazni (in Afghanistan) began a long series of incursions into India, no fewer than fifteen expeditions taking place between 999 and 1027, one of which carried him beyond the Jumna, while another ended in the capture of Somnath, in Kathiawar. The succeeding dynasties of Afghan kings held power in India for 300 years, but their advance was gradual, for it was not till 1206 that Delhi was taken and the greater part of Hindustan annexed by Kutub-din, whose memory is perpetuated by the Kutub Minar, near Delhi. The first Muhammadan invasion of the Deccan took place in 1294.

THE MOGUL EMPIRE.—The Muhammadan Mongols, or Moguls, after overrunning Central and Western Asia, arrived in 1219, under Genghis Khan, on the frontiers of India, but did not cross the Indus. During the reign of the last monarch of the Taghlak line, the famous Tamerlane (or Timur) burst into India at the head of a mighty host, captured and sacked Delhi in 1398, and laid waste a great part of Hindustan. A period of weak dynasties followed, frequent invasions from without, and general misrule and anarchy within, paved the way for larger conquests by the Mogul Emperors. In 1526 Babar, a direct descendant of Timur, overthrew the last of the Afghan kings at Panipat, and founded the MOGUL EMPIRE, which at his death extended from the Oxus river in Central Asia to the borders of the Gangetic delta. His son, Humayun (1530-56), lost the whole of the territory conquered by Babar, but recovered a portion of it (including Delhi) shortly before his death. His victor was Sher Shah Sur, who reigned from 1540-1545. Akbar the Great, Humayun's son (1556-1605), spent a

long reign in firmly establishing the empire, at his death his dominions extended over Kabul, Kandahar, and all India north of the Nerbudda. Moreover, of the Muhammadan kingdoms of the Deccan, Ahmednagar, Berar and Bidar were absorbed, and Bijapur and Golconda forced to pay tribute. Akbar followed up his conquests by important financial reforms. He was tolerant in religion, and just to all classes of his subjects. Among the great men of his time were the Hindu, Todai Mall, his able finance minister, Abul Fazl, the historian of his reign, and Faiz, the poet. Jahangir (1605-27) received in 1616 Sir Thomas Roe, the ambassador of James I. Under Shah Jahan (1627-1658) the Mogul Empire reached the zenith of its glory. Many stately buildings, including the Taj Mahal at Agra, testify to his magnificence and taste. The close of Shah Jahan's reign was embittered by the rivalries of his four sons. Aurangzeb (1658-1707) defeated and killed his brothers and kept his father a prisoner till death (1666). Aurangzeb had great ability and courage, but religious intolerance, distrust and dissimulation characterised his chequered career. His reign, in some respects splendid, ended in failure. He brought the Mogul Empire to its greatest extent by conquering and incorporating all India as far south as Tanjore. But from this time the decline of the empire began. Four sons disputed the right of succession, and Bahadur Shah (1707-12) secured the crown. After four short-lived emperors Muhammad Shah (1719-48), grandson of Bahadur, came to the throne. His viceroys became rebellious, and so contributed to the success of the Mahrattas, who subdued the Deccan. About 1724 part of the Deccan became practically independent under Nizam-ul-Mulk (ancestor of the present Nizam). In 1738, to avenge an alleged insult, Nadir Shah of Persia invaded India, captured Delhi, gave orders for a general slaughter of the inhabitants, and carried off enormous plunder. All the country west of the Indus was lost to the empire. On the death of Muhammad, the phantom rulers, Ahmad Shah (1748-1754) and Alamgir II (1754-1759), occupied the throne, and were succeeded by Shah Alam (1759-1806), who came to terms with the British.

THE MAHRATTAS.—As the Moguls declined, the power of the Mahrattas increased. They were Hindus, and their country was in the Western Ghats, to the east of Bombay. The founder of their power was Sivaji (1627-1680), a chieftain of the family of Bhonsla, who became famous by his raids in the Deccan, and aimed at founding a Hindu kingdom. Balaji Vishwanath (1712-1750) Peshwa, or Prime Minister, succeeded in making that office of paramount importance and hereditary in his family, Sivaji's descendants thenceforth holding a merely nominal position. Under the Peshwas, aided by Scindia, Holkar, and the Gaekwar, who formed independent States about this time, the Mahrattas rapidly extended their territory and influence, conquering Gujarat, Malwa, Berar, and Orissa. Although they were severely defeated at Panipat in 1761 by Ahmad Shah, the Afghan invader, they remained for some time the first power in India, and were the most dangerous opponents of the English. Too often their rule degenerated into a system of organised plunder. With the Pindaris, a horde of freebooters who followed in their train, they became a scourge to the country. It was not until both Pindaris and Mahrattas were finally

overthrown in 1518 that India enjoyed the blessings of internal peace. The Mahratta empire, containing within itself the seeds of disintegration, was fated to bend before the superior sway of Europeans, who had gradually extended their power in India.

THE SIKHS—The Punjab lay beyond the reach of the Mahrattas. There the decay of the Mogul empire gave the opportunity, not to a nation, but to a religious sect, united by military discipline, to establish territorial dominion. The founder of the Sikh religion was *Nanak Shah*, a Hindu reformer, born near Lahore in 1469. He preached the one God, purity of life, and abolition of caste. He had ten successors, named *gurus* or apostles, ending with *Gurind Singh* (1708). The sect, though cruelly persecuted, survived, and gradually adopted a political organisation. It became a power under *Ranjit Singh* (1780-1839), who, revolting against the Afghan Amir, by whom he had been appointed Governor of Lahore, founded the kingdom of the Punjab. The powerful army he had organised brought on the collision with the British, and after two wars the Sikh kingdom was annexed, and became the province of the Punjab (1849).

EUROPEAN ADVENTURE—From time immemorial the lucrative trade of Europe with India and the farther East has enormously enriched in turn each nation that has held it. In the 15th century it was mainly possessed by the Venetians on the European side, and by the Arabs on the Eastern side. The chief trading centres of the Arabs were Calicut, Omuiz, Aden, and Malacca. Seeing the large profits to be derived from this trade, the rising nations of Europe in the 15th century sought to obtain a share. Hence the ardour of the navigators who set out to discover an ocean route to India. The sea route round the Cape of Good Hope was discovered by Vasco da Gama, who anchored before Calicut in May, 1498. From that time until they lost their naval supremacy, a century later, the Portuguese enjoyed practically a monopoly of Indian trade. The first Portuguese viceroy, Francis of Almeida (1505-1509), established numerous factories and fortresses, while his successor, Alfonso de Albuquerque, captured Goa (1510), and extended the Portuguese dominion, notably on the Malabar coast. This dominion for 60 years from 1512 was tantamount to an entire regulation of the Asiatic coast trade with Europe from the Persian Gulf to Japan. It was stained by great cruelty. Up to the union of the crowns of Spain and Portugal in 1580 under Philip II, the Portuguese brought Indian products to Lisbon, whence the Dutch carried them to other parts of Europe. But when Philip II, on account of the Dutch revolt, shut Lisbon against them, the Dutch were driven to trade directly with the East. In 1602, by amalgamating existing trading companies, they formed "The Dutch East India Company," and the principal Portuguese settlements in the East were gradually captured. By 1661 the Portuguese held only those remnants of their Indian possessions which they still hold. The Dutch, who had some small trading factories, were in turn forced by the British to relax their hold on India. French and Danish East India Companies were established in 1601 and 1616 respectively. The latter achieved little, but, as will be seen directly, the French had a brief but brilliant period of influence in the middle of the 18th century.

ENGLISH DOMINION—At the close of the 16th century the English became eager to share in the profits of Indian commerce. After some smaller ventures, the London East India Company was incorporated by Queen Elizabeth by royal charter on 31st December, 1600. There were 217 subscribers of the capital of £68,373, and the official title was "The Governor and Company of Merchants of London trading to the East Indies." A second charter in 1609 made the Company's privileges perpetual. The Portuguese resisted the new competitors, who nevertheless obtained a permanent footing at Surat after several stubborn engagements off Swally in 1612. In 1615 the British ambassador, Sir Thomas Roe, supported by the Emperor Jahangir, greatly improved the position of the Company. In 1639 the English acquired a strip of land on the east coast, built a factory there, fortified it, and named it Fort St. George, in 1653 this settlement of Madras became a Presidency. In Charles I's reign rival enterprises led to confusion and practical excesses, but in 1657 co-operation and discipline were secured by the charter granted by Cromwell to a single company comprising the whole body of merchants. The charter was renewed by Charles II, in whose reign the Company enjoyed great prosperity. When, in 1662, Charles II. married Katharine of Braganza, a part of her dowry from Portugal was the Island of Bombay, in 1668 he transferred all his rights over it to the Company for an annual payment of £10. In 1687 Bombay replaced Surat as the seat of the western Presidency. Although in 1633 the Company had obtained certain treaty rights in Bengal from the Mogul, and in 1651 a factory had been established at Hooghly, yet in that part of India they held no territory as in Bombay and Madras. In 1688 the Muhammadan rulers forced them to abandon their settlement, but being invited to return, they laid, in 1690, amid swamp and jungle, the foundations of the Presidency of Fort William, which was destined to develop into the city of Calcutta. In 1693 a new charter was granted to the company. In 1698 a charter was granted to a rival company called "The English East India Company," to distinguish it from the old "London Company." After a brief period of conflict and trade losses, the rival companies came to terms in 1702, and in 1708 they were amalgamated under the title of "The United Company of Merchants of England trading to the East Indies."

When Great Britain engaged in war with France in 1744, the rival Companies of England and France came into collision, with the result that Madras was captured in 1746. Had Dupleix been well supported from home, he might have founded a French empire in India. The first reverses of the English were retrieved by Clive, whose gallant defence of Arcot (1751) was followed up by a series of brilliant movements, culminating in the utter defeat of the French army by Coote at Wandiwash in 1760, and in the capture of Pondicherry in 1761, which completed the ruin of the French Company. Since then the territory retained by the French in India has been insignificant, and in it they are forbidden by treaty to hold any considerable military force. The tragedy of the Black Hole of Calcutta (1756) summoned Clive from Madras, and his victory at Plassey over the Nawab of Bengal in 1757 made British influence predominant.

Clive was appointed first Governor of Bengal in 1758. In 1760 he returned home, and in 1763 the English were again embroiled in Bengal, but completely defeated their opponents at Buxar (1764). In 1765 Clive (now Lord Clive) returned to Bengal as Governor, and before he left finally in 1767 he succeeded in reforming the services, in which great abuses existed. Owing to Clive's efforts, the Company in 1765 received from the Emperor at Delhi the *dawans* or fiscal administration of Bengal, Bihar and Orissa, with the Northern Circars (Madras), and 25,000,000 people came under their government. Thus were laid the foundations of England's territorial dominion in India.

After an interval of misrule Warren Hastings (1773-85) was appointed Governor of Bengal, and in 1774 Governor-General, on the creation of that office under the Regulating Act of 1773. He vigorously reformed the revenue system and judicial procedure. Hastings was the first great administrative organiser of the British possessions. He greatly increased the power and territory of the Company, notwithstanding the opposition of his Council. Mysore in 1760 had been seized by Hyder Ali, a Mussulman adventurer and a powerful and inveterate enemy of the English. By repelling Hyder Ali's memorable invasion of the Carnatic (1780), and defeating the triple alliance of the Nizam, the Mahrattas, and Hyder Ali, Hastings probably saved British India. On his return to England he was impeached on a number of charges, but acquitted.

The first administration of Lord Cornwallis (1786-93) was marked by a thorough reform of the Company's Civil Service, by the introduction of a permanent settlement of the land revenue, by a reform of the judicial system, and by the third Mysore War, in which he defeated Tippoo, the son and successor of Hyder Ali. The rule of Sir John Shore (1793-98) was uneventful.

The administration of the Marquess Wellesley (1798-1805) was distinguished by many important events. Tippoo, as hostile to the English as Hyder, was in 1798 in secret correspondence with the French, who were then dominant in the military councils of the Nizam and of Scindia, were established in Mauritius, and under Napoleon, then engaged in his Egyptian campaign, were aiming at a great Eastern Empire. Lord Wellesley saw the necessity of crushing this dangerous Power, and the Fourth Mysore War ended in the capture of Seringapatam (1799), the death of Tippoo, and the conquest and restoration of Mysore to a representative of the family of Hindu Rajas whom Hyder Ali had dethroned. The Treaty of Bassein (1802) broke up the Mahratta confederacy, but led to the Second and Third Mahratta Wars, which curtailed the power of Scindia and Holkar, and increased the strength and extent of the Company's dominions. Lastly, Lord Wellesley developed, if he did not initiate, a system of subsidiary alliances with Native States, which aimed at making the British the one paramount Power, while giving greater security than the balance of power attempted by his predecessors. Wellesley doubled the territories of the Company, and transformed a mercantile body into a political power with a preponderating influence throughout India. During the brief second administration of Lord Cornwallis (1805), and that of Sir G. Barlow (1805-7), Wellesley's policy of subsidiary alliances was reversed.

Lord Minto (1807-13) established peaceful relations with the Punjab, Afghanistan, and Persia, through the mediation of Metcalfe, Elphinstone, and Malcolm respectively. On the renewal of the Company's charter in 1813 the monopoly of Indian trade was abolished.

Under the Marquess of Hastings (1814-23) a severe struggle with Nepal ended with the Treaty of Sagoull (1816), which still regulates India's relations with that State. The annexation in 1818 of the territory of the Mahratta Peishwa enlarged Bombay Presidency to its present dimensions. Lord Hastings in the same year crushed the marauding Pindaris of Central India, who had devastated the country in all directions. Reviving Lord Wellesley's policy of alliances, he settled on their existing basis the relations of the Supreme Power with the feudatory States of Rajputana and Central India. He encouraged education. Lord Amherst (1819-28) succeeded Lord Hastings. Encroachments on British districts by the King of Ava and his insolent refusal of all redress led to the first Burmese War, which cost 20,000 lives and nearly £4,000,000, but gave to India the provinces of Aracan and Tenasserim, and, practically, Assam.

While Lord William Bentinck was Governor-General (1818-25), steam communication with India was introduced, suttee (or widow-burning) was abolished, educated natives were admitted more freely into the service of the Company, and various reforms were passed affecting education, the liberty of the Press, finance, and justice. The new charter of the East India Company in 1833 abolished the remaining monopoly of Chinese trade, introduced reforms in the constitution of the Indian Government, made the North-West Provinces a separate administration, and abolished the restrictions on the residence of British subjects in India. The resolution of Lord Auckland (1835-42) to support Shah Shuja against Dost Muhammad brought on the first Afghan War (1839-42), and the serious disaster attendant on the fatal retreat from Cabul. The administration of Lord Ellenborough (1842-44) saw the conquest of Sind by Sir Charles Napier and its annexation (1843). Lord Hardinge (1844-48) conducted in person the first Sikh War, and fought a series of severely contested battles, ending with Sobraon (1846).

Lord Dalhousie's administration (1848-56) was fruitful in events. The Second Sikh War resulted, after severe fighting, in the submission of the Sikhs and the annexation of the Punjab (1849). The second Burmese War (1852), deprived the King of Burma of Pegu. Lord Dalhousie promoted the introduction of railways and the telegraph. He established cheap postage, promoted steam navigation with England via the Red Sea, and opened the Ganges Canal. His annexation policy was much criticised at home. It proceeded on the principle that British being preferable to native rule, gross misrule or a break in the natural succession justified, in the interest of the subject populations, the transfer of a native State to the British Government. In 1849 this "doctrine of lapse" was applied to Satara, and in 1853 Jhansi similarly became British territory; while on the death of the last of the Mahratta Princes of Nagpur, his territory was annexed, and became the Central Provinces in 1853. In 1856, after repeated warnings to the tyrannical ruler of Oudh, that kingdom was also annexed, without bloodshed or fighting.

Earl Carnarvon (1857-66), who succeeded Lord

Dalhousie, left England pledged to pursue a policy of peace, but he was destined to face the greatest crisis that has threatened British rule in India. A mutiny of sepoy broke out on the 10th May, 1857, at Meerut, and spread through the whole Bengal Army. Delhi was for some months in the possession of the rebels, and many chiefs joined the revolt. The siege of Delhi, the massacre at Cawnpore, the relief of Lucknow, and the Central India campaign stand out among the stirring events of that momentous time. Although the control of Indian affairs was vested in the Cabinet through the Board of Control, the great mutiny was laid to the charge of the East India Company, whose eventful annals were brought to a close by the transfer of the entire administration of India to the Crown.

INDIA UNDER THE CROWN—The "Act for the Better Government of India" established the authority of the Crown, and a Proclamation to the Princes, Chiefs, and People of India, dated the 1st Nov., 1858, announced the resolution of Her Majesty to assume the government of the territories in India "heretofore administered in trust by the Honourable East India Company." Legislative Councils were established. Lord Canning was succeeded in 1862 by Lord Elgin, who, however, died in Nov., 1863.

Sir John (Lord) Lawrence (1861-69) reformed the finances, which had been seriously burdened by the heavy military expenditure necessitated by the Mutiny. His administration was marked by the Bhutan War (1864) and by the terrible Orissa Famine of 1866. He encouraged irrigation.

Lord Mayo (1869-72) effected many administrative reforms, instituted State railways, promoted the construction of roads and canals, and inaugurated the system of provincial finance, which has since been extended.

During the tenure of office of *Lord Northbrook* (1872-76) the late King Edward VII., then Prince of Wales, visited India. The Viceroy devoted attention to finance and to famine relief. In 1875 the reigning Gaekwar of Baroda was deposed for misrule and disloyalty.

Lord Lytton's administration (1876-80) was made eventful by a terrible famine in Southern India and by the Second Afghan War. In 1877 the Queen assumed the title of EMPRESS OF INDIA.

The peaceful term of the *Marquess of Ripon* (1880-84) was marked by the extension of local self-government, and by fiscal, judicial, educational, and other reforms.

His successor was the *Marquess of Dufferin* (1884-88). In 1885-6 occurred the Third Burmese War, by which Upper Burma with the Shan States was annexed. The N.W. frontier of Afghanistan was delimited, the frontier of India strengthened, and the army increased. The first Indian National Congress met in 1885.

The *Marquess of Lansdowne* (1888-94) continued his predecessor's policy of strengthening the army and consolidating British influence on the frontier. The Indo-Afghan boundary was defined, and a serious outbreak in Manipur was suppressed. He took the first step in currency reform by closing the Indian mints to the free coinage of silver. He reconstituted the Legislative Councils in 1892 by introducing a more popular element, and conferring a limited right of interpellation and criticism in financial matters.

The viceroyalty of *Lord Elgin* (1894-99) was full of events. In 1895 an outbreak in Chitral made necessary a large military expedition to relieve

the garrison. Plague broke out in 1896, and has raged more or less severely ever since. In 1896-7 an area of 307,000 sq. ms., with a population of 70 millions, was visited by a grievous famine. In 1897 the border tribes from Chitral to Baluchistan rose against the British garrisons. In the Tirah campaign that followed over 40,000 troops were employed. Several boundaries were settled under Lord Elgin, notably those with Russia on the Pamirs and with France on the Mekong. The frontiers of Afghanistan, Persia, and China were also defined. The general Customs tariff, abolished in 1882, was reimposed in 1894.

Lord Curzon (1899-1904 and 1904-5) succeeded Lord Elgin. In 1899 the pound sterling was made legal tender in India concurrently with the rupee, at the exchange of Rs. 15 to £1. In 1899-1900 occurred one of the worst famines on record, the tracts affected covering 475,000 sq. ms. with a population of 60 millions. Lord Curzon's term of office was a period of reform and reconstruction. He appointed Commissions of Inquiry on irrigation, railways, universities, agricultural banks, excise, and police, all of which suggested important reforms. He instituted agricultural banks and departments, and initiated legislation to free the cultivators from the money-lenders. The famine codes were amended. A new province, under the direct control of the Governor-General in Council, was created, called the North-West Frontier Province (1901). The Aden and the Perso-Afghan boundaries were delimited. An Imperial Cadet Corps of native princes and nobles was inaugurated. Educational policy was reviewed and reforms introduced. A much-needed reform of the police was undertaken. Lord Curzon also secured a perpetual lease of Berar from the Nizam. In 1904 a mission with a military escort proceeded to Tibet, and secured a favourable treaty. During Lord Curzon's absence in England for a few months in 1904 *Lord Ampthill* occupied the post of Viceroy. Lord Curzon was reappointed in Dec., 1904. In 1905 the treaty with Afghanistan was renewed. The Viceroy reduced the dimensions of Bengal, and constituted a new province, called Eastern Bengal and Assam, by combining parts of Bengal with Assam. He carried out great reforms in the Army in conjunction with Lord Kitchener (appointed Commander-in-Chief in 1902), but, differing from certain proposals made by the latter, and finding that he lacked the support of the Home Government, he resigned (Aug., 1905).

Lord Minto succeeded in Nov., 1905. The Prince of Wales (now H.M. King George) made a tour in India during the winter of 1905-6. For some years after 1905 there was agitation among Bengalis owing to the partition of Bengal, and a Seditious Meetings Act was passed in Nov., 1907. In his Budget speech in 1907 the Secretary of State, Viscount Morley, foreshadowed important reforms in Indian administration, deemed to associate the people more closely with the Government. He nominated two Indian members to his own Council, and an Indian member to the Governor-General's Council. He appointed Commissions to inquire into railways, into the possibilities of financial and administrative decentralisation, and into the conditions of factory labour, and action was taken on their reports. In 1908 the unrest in Bengal assumed an anarchical character. To mark the fiftieth anniversary of the transfer of India to the Crown a royal proclamation was

issued in Nov., 1908, promising extended self-government. Owing to the continued unrest in 1909 and 1910, a Press Act, to control printing presses, was passed.

Lord Hardinge succeeded in Nov., 1910. The Indian Legislative Council in June, 1911, prohibited indentured emigration from India to Natal after 1 July, 1912, and a new Seditious Meetings Act was passed. A great Durbar was held at Delhi on 12 December, 1911, by H M King George, to announce his Coronation. On this occasion the King-Emperor also made announcements of new and far-reaching steps in Indian policy, viz., the transfer of the seat of Government from Calcutta to Delhi, and the creation of a Governorship for the presidency of Bengal, of a Lieut.-Governorship for Bihar, Chota-Nagpur, and Orissa, and of a Chief Commissionership for Assam. Delhi was chosen as the capital on geographical, historical, and political grounds. The provincial changes involved a partial rescission of the partition of Bengal and the abolition of the province of Eastern Bengal and Assam, created in 1905. Bengal as reconstituted is a compact Bengali-speaking province, placed under a Governor in Council. A new province, Bihar and Orissa, was formed, including Chota-Nagpur and the Sambalpur district. Assam again became a separate province, under a Chief Commissioner. The reconstituted provinces came into existence on 1 April, 1912. In pursuance of recommendations by the Decentralisation Commission, enhanced powers in respect of appointments and expenditure were granted to local governments having a quasi-permanent provincial settlement. Moreover, greater permanency was arranged for in financial settlements with the provinces, the control of the Government of India being relaxed. In Dec., 1912, the Viceroy took formal possession of the new headquarters at Delhi. The State entry was marked by an attempt on the life of the Viceroy. The outbreak of *The Great War* in August, 1914, was the signal for an outburst of loyalty and devotion to the King-Emperor on the part of the princes and peoples of India. Practically all the ruling chiefs placed their military forces and the resources of their states at the disposal of the Government.

Following on the outbreak of war serious disturbances were started in the Punjab and elsewhere by emigrants returning from Canada and the United States imbued with revolutionary ideas. Order was restored as a result of measures taken under the Defence of India Act, which was passed in March, 1915. Several tribal risings on the North-West Frontier were promptly and rigorously suppressed. Lord Hardinge's term of office as Viceroy was extended from November, 1915, to March, 1916. The Viceroy announced in March, 1916, that it had been decided eventually to abolish the system of indentured emigration from India. Lord Hardinge put forward proposals for post-war constitutional reforms.

Lord Chelmsford succeeded in April, 1916. The year 1917 was marked by certain symptoms of unrest and the development of an agitation for constitutional changes towards self-government, or, in its extreme form, "Home Rule for India."

The Public Services Commission, appointed during Lord Hardinge's administration, reported. Three leading Indians attended the Imperial War Cabinet. Action was taken against the Mahsuds

and Mohmands on the North-West Frontier. The Lahore and Burma conspiracy trials were concluded and the leaders sentenced.

Towards the end of 1917 the Secretary of State visited India in connexion with a development of constitutional progress. The year 1918 was marked by some symptoms of unrest, the Rowlatt Committee, appointed in 1917, reported, and revealed evidence of the association of the Bengal seditionists with German plots, anti-Moslem riots broke out in Bera, and Muhammadans organised agitation leading to disturbances in Madras and Calcutta. The operations against the Marris were closed. The Bombay Government took the first steps towards obligatory primary education, a policy of more complete local self-government was decided on by the Government of India. The Home Rule League continued its activities. The influenza epidemic spread to India, and it is estimated that over 12 million deaths in British India and Indian States resulted. The Industrial Commission, appointed in 1916, issued a report. In 1919 a bill was introduced into Parliament embodying the proposals of the "Montagu-Chelmsford Joint Report," and eventually passed. During the year considerable distress occurred in consequence of the partial failure of the 1918 autumn crops throughout Northern India and the Peninsula, and relief measures were undertaken. Serious disturbances in the Punjab and Delhi, resulting in many deaths, followed on a "passive resistance" movement, inaugurated by Mr. Ghandi against the "Rowlatt" Bills, introduced by the Government of India, on the recommendation of the "Rowlatt" Committee, for renewing some of the powers which the Government had provided themselves during the War to deal with sedition. The movement spread to Bombay, and the local government was forced to deport Mr. Honnman, the Editor of the *Bombay Chronicle*. The murder of the Amir and the subsequent events in Afghanistan were followed by an Inroad of Afghans and some frontier tribes into India, necessitating prompt military action by the Government of India. The "Sadler" Commission on the Calcutta University reported during the year, and made drastic proposals for recasting the Indian secondary and university educational system. Noteworthy features in the progress of India during the year were the appointment of an Indian, Lord Sinha, as Under-Secretary of State for India in the Home Government, and the representation of India at the Peace Conference by two Indians, H H the Maharajah of Bikanir and Lord Sinha. The policy underlying the Government of India Act, 1919, mainly based on the recommendations of the "Montagu-Chelmsford" Report, viz., the increasing association of Indians in every branch of the Administration, with a view to the progressive realisation of responsible government, was carried forward a further stage in 1920 by the Home Parliament, which, by rules, laid down the details of the constitution of the new Central and Provincial Governments (see p. 612). One section of the India Home Rule for India party, dissatisfied with the Act, threatened non-co-operation with the Government in the future working of the reforms, and with the assistance of some Muhammadans, Mr. Gandhi, a Hindu, commenced a movement to carry out the threat, but the support of the "Moderate" wing of the party, including that of Mrs. Besant,

was given to the Government. A prominent and distinguished Indian, Lord Sinha, was designated as the first Governor of Bihar and Orissa. The Amir's representatives visited India and discussed with officers of the Indian Government the possibility of a resumption of more friendly relations. Bolshevik propaganda created an unhealthy political atmosphere in some quarters. Fighting with the Mahsuds on the North-West frontier continued throughout the year, in consequence of which the Viceroy announced Government's intention to occupy Central Waziristan, and to continue the railway from Jamrud towards the Khyber Unrest, due in some measure to labour trouble, evidenced by an unprecedented number of strikes, and partly to unsatisfied political aspirations, was prevalent during the year. Government, in pursuance of its policy of making India commercially more self-supporting, instituted several inquiries into various trades and industries, and appointed a committee to inquire as to whether the adoption of a system of preferential tariffs would be beneficial. Further steps towards employing more largely Indians in the various Government services and for the improvement of conditions of service and pay of both European and Indian members of the same were taken. Several large works programmes were sanctioned. The recommendation of the Exchange and Currency Committee for the linking of the rupee to gold and the adoption of an exchange rate equivalent to one-tenth of the gold contents of the sovereign, i.e., an exchange rate of Rs 10 to the £, was adopted. With a view to increasing banking facilities steps were taken to establish a large Imperial Bank. A *High Commissioner for India* in London, with a separate establishment, responsible to the Government of India for certain agency work, previously performed by the India Office, was appointed. The Army in India and the Medical Services Committees respectively reported. The Army in India Committee attempted to determine the part to be played by the Army in India in a scheme of Imperial Defence and to analyse the steps which must be taken to make the Army, both in its administration and its personnel, more efficient and more attractive to the right type of soldiers.

In January, 1922, the new Indian Legislature, Provincial Councils, and the Chamber of Princes, were inaugurated by the Duke of Connaught.

Lord Reading succeeded in April, 1922. The battle between constitutionalism and revolution continued. Unrest, riots, agrarian disturbances, strikes, and movements designed to embarrass the Government were prevalent. A conflict between Sikhs at Nankana resulted in many deaths. Mr Gandhi, the Ali brothers, and their associates, continued to advocate non-co-operation with the Government and boycott of the reforms. The utterances of the Ali brothers forced Government to order their arrests. The Moplahs, Muhammadan fanatics of Malabar, repeated the ordinary processes of law, and a widespread outbreak of violence ensued, directed against Government, civil officers, and Hindus, forced the authorities to take strong military measures for its suppression. Frontier disturbances and fighting continued. Failure of the crops in some parts necessitated the opening of relief works. The deficit in the Budget, due mainly to war commitments, compelled Government to impose

additional taxation. Special missions were sent to Afghanistan and Tibet. The Railway Committee reported and recommended drastic changes, including the termination of the system of management of railways by Government companies domiciled in England. The Jalis Committee reported, and Government announced its intention to abolish the Andamans penal settlement. Large development and irrigation schemes were sanctioned.

In November the Prince of Wales visited India. In 1922 the battle between constitutional and unconstitutional agitation proceeded. The Government avoided any excessive severity *vis-à-vis* the movement, but arrested Mr Gandhi, who was sentenced to six years imprisonment. Attempts were made to secure greater powers for the Indian legislature, for the immediate abolition of the distinction between votable and non-votable items in the Budget, and for the submission of the whole Budget to the vote of the Assembly. A Committee was appointed with a view to making retrenchments and securing economy in the national expenditure. The Budget showed a deficit necessitating additional taxation. The Government found it necessary to give to Ruling Princes some measure of protection against attacks in the Press, and the Indian States (Protection against disaffection) Bill was brought forward in the Legislature, but leave to introduce it was refused. Lord Reading decided to make use of the special powers vested in the Governor-General under the Government of India Act, and, as the passage of the Bill was, in his judgment, essential for the interests of British India, certified it under section 67 of the Government of India Act.

The Fiscal Commission (Sir Ibrahim Rahimtoola, President), reported and made the following recommendations:—The adoption of a policy of protection; the constitution of an advisory Tariff Board to investigate the claims of particular industries, a more industrial bias to be given to primary education; provision of opportunities for the training of Indian apprentices; development of organisations for increasing the mobility of labour; legislation against dumping; precautions against imports from a country in which the exchange is seriously depreciated, and against any system of export bounties granted by foreign countries, measures for meeting complaints against the railway rates policy and coastal rates, and consideration of the possibility of legislation against shipping rebates. The principles recommended for the guidance of the Tariff Board, as regards an industry claiming protection, are: (1) that it possesses natural advantages; (2) that without the help of protection it is not likely to develop at all, or not so rapidly as is desirable, (3) that it will eventually be able to face competition without protection. Industries essential for national defence should be adequately protected, raw materials and industrial machinery should ordinarily be admitted free and partly manufactured goods, used in Indian industries, should be taxed as lightly as possible; the taxation of articles to which protectionist considerations do not apply should be regulated in accordance with the financial needs of the country. The existing cotton excise duty was condemned; the British Government should announce its intention of allowing the Government of India and the Indian Legislature to decide what action

is necessary, in the interests of India. Export duties should be moderate and imposed only for revenue purposes, and only on articles in which India has a monopoly or semi-monopoly. The advantages of recognising the principles of Imperial Preference were pointed out, but their application should be governed by certain principles, viz.—the approval of the Legislature, no diminution of the protection required by Indian industries, and no economic loss to India after taking into account the economic gain from preference granted by the United Kingdom. In the case of other parts of the British Empire, the principle of reciprocity should be followed. No obstacle should be raised to the free inflow of foreign capital, but Government monopolies and concessions should be granted only to companies registered and incorporated in India, with a rupee capital, having a reasonable proportion of Indian directors, and affording facilities for training Indian apprentices.

A minority of the Commission, consisting of the President and four Indian members considered that immediate steps should be taken to adopt an intense policy of industrialism, and that any discrimination necessary in the interests of the consumers must be decided by the Government of India and the Legislature. Imperial preference cannot be accepted until India has attained responsible Government, but Indian opinion might be inclined to accept the immediate application of Imperial preference provided India were placed at once on the same footing as the self-governing Dominions in the matter. Even under the present political status of India matters might be arranged to bring about in practice the position which the Dominions enjoy, by arranging that the power of initiating, granting, &c., Imperial preference should vest in the non-official members of the Legislature. Negotiations might be opened with the Dominions on the basis of reciprocity, and on condition that the right of the Indian people to a status of complete equality is recognised.

The Hon V. Srinivasa Sastri visited the Dominions, as a representative of the Government of India, to discuss with the leaders of political thought the disabilities of Indians in the self-governing Dominions. In external affairs the subject uppermost in the minds of the Indian people was the revision of the Treaty of Sevres. There was peace on the tribal frontier except in Waziristan. Some of the Waziri and Mahsud tribal sections entered into satisfactory engagements. The Government of India engaged in attempts to arrive at a better understanding with the Union of South Africa regarding the recommendations of the Asiatic Inquiry Commission. The machinery of the Legislature was extended by the appointment of advisory Standing Committees for the various departments. Twenty-three Acts and Regulations supplementing the criminal law were repealed. The Assembly agreed to the proposal to devote 150 crores of rupees (£100,000,000), to the rehabilitation of railways during the next five years. A Central Advisory Board for Railways was established.

In 1923 Burma was constituted a Governor's Province. A Royal Commission, with Lord Lee of Fareham as Chairman, was appointed to consider and report on the organisation and general conditions of the Superior Civil Services of India. The "Inchcape" Retrenchment Com-

mittee, appointed in 1922, reported and recommended a total reduction in the Budget of Rs 19½ crores (£12,833,000 at 15 rupees to the £), the largest cuts being in military expenditure (Rs 10½ crores = £7,000,000), railways (Rs 4½ = £3,000,000), posts and telegraphs (Rs 137 lakhs = £913,000). The Budget again disclosed a deficiency and the Government proposed to raise the salt tax. Its proposals were defeated in the Assembly, whereupon Lord Reading certified the Bill under the provisions of section 67B of the Government of India Act as essential for the interests of British India. A demand for the adoption of a policy of Protection was brought forward in the Assembly. The Government proposed an alternative motion, accepting the principle of Protection but declaring that it should be applied with discrimination and recommending the appointment of a Tariff Board for one year to investigate the question in a purely advisory capacity. This alternative, which aims at the fostering of the development of industries in India, was accepted unanimously, although strong speeches in favour of free trade in the interests of the agriculturist and labourer were made. The action of the Government implies a policy of discriminating protection hitherto the Indian tariff has been a revenue tariff. A trade Convention was concluded with Afghanistan. A Bill was passed providing for the removal of existing racial distinctions in the criminal procedure applicable to Indians and non-Indians. The new frontier policy was further developed by the completion of various roads for mechanical transport within Waziristan and along the Derajat border. Jandola and Razmak were held by regular troops pending the completion of this road programme. The question of the status of Indians in Kenya excited much interest and controversy. After full consideration His Majesty's Government decided on the adoption of a communal system of representation, under which Indians in Kenya will be granted a wide franchise, and provision will be made for five elected Indian unofficial members on the Council. The policy of segregation as between Europeans and Asiatics in the townships is to be abandoned and the question of immigration is to be further examined. The highlands are to be reserved for white settlers. Indians are to be compensated with the reservation of territory in the lowlands. Whilst on these points decisions favourable to Indians were pronounced the policy of the Home Government conflicts on others with the views of the Government of India and the aspirations of Indians, and demands were made in the Indian Legislature for retaliatory measures. The Secretary of State (Viscount Peel), the Maharajah of Alwar and Sir Tej Mahadur Sapru represented India at the Imperial Conference, at which a Resolution was passed recommending each Dominion of the Empire concerned to set up a Commission to consider, in conjunction with a Commission of equal number from India, how far the principle laid down by the Imperial Conference of 1921 that Indians lawfully resident overseas should not suffer derogation of rights of citizenship, has been given effect to and to what extent it can be further applied. Demands for the expansion of the Indian Constitution were made in the Indian Legislature, but the Secretary of State declined to submit the question to Parliament, on the ground that the experience of the working of the new Con-

stitution had not yet been adequately tested. In 1904 the elections for the Legislative Assembly and the Provincial Councils were held. The total electorate was 990,979 for the Legislative Assembly and 5,810,345 for eight Provincial Councils. The Swarajists obtained a majority in the Central Provinces and increased their numbers in nearly all the other Provincial Councils and in the Legislative Assembly. When the new Councils met Government proposals were blocked and the Governor-General was again forced to "certify" the Budget after it had been rejected in the Legislative Assembly. In the Central Provinces and Bengal the Governors were compelled, in consequence of the opposition, to take over all the "transferred" subjects from the Indian Ministers. Conspiracies and methods of violence to further political aims were revived during the year, and the Bengal Government was given special powers to deal with violent crime. The Punjab was greatly disturbed by the Sikh invasion of the Nabha State. The Royal Commission on the Superior Civil Services, appointed in 1903, reported and recommended financial improvements for the Indian Civil and other Services, the estimated cost of which for the first year is nearly 200 lakhs of rupees. No change in the organisation and control of certain of the All-India Services, employed in fields for which the Governor-General acting with his Council is responsible, was suggested. For the other All-India Services, employed mainly by the Provincial Governments, the recruiting should in future be in the hands of the Provincial Governments employing the officers. The Central Services under the Government of India, in fields which have not been delegated to Provincial Governments, should be recruited by the Secretary of State in some cases, in others by the Government of India. Further Indianisation of the Services was recommended, viz., 60 per cent. of Indians in the Indian Civil Service as compared with 30 per cent. at present, in the Police 50 per cent., and in the Forests Services, 75 per cent. During the year a Legislative Council was set up in Coorg.

IMPERIAL LEGISLATION—Legislation for India in England is chiefly of a constitutional or financial character. *The Regulating Act* (1773), which created the first Governor-General, a Council of five members, and a supreme court with a chief judge, was the first statute that recognised the East India Company as a ruling body. Pitt's *India Act* (1784) left the business and most of the patronage to the Court of Directors, but gave the supreme civil and military authority to a Board of Control, whose president represented India in the House of Commons. In 1793 the Company's charter was renewed, in 1813, on a further renewal of the charter, the trade of India was thrown open, while on the next renewal in 1833 the Company's monopoly of the China trade was abolished, and they became a non-commercial governing body. In 1853 the Company's charter was renewed for the last time, and the Indian Civil Service was thrown open to competition. By "An Act for the Better Government of India" (1858), all the territories governed by the East India Company were transferred to the Crown, and all the powers exercised by the Company and the Board of Control were vested in the Secretary of State for India, assisted by a Council. Under this Act, as amended by Acts of 1860, 1907, 1915 and 1919, at least one-half of the members of

Council must have served in India for 10 years, and must not have left India more than 5 years prior to their appointment. The number of members may be 12 and must not be less than 8, and is at present 8. Their term of office is now 5 years, with power of extension. There are now 3 Indian members. In 1877 (under the Royal Titles Act) Queen Victoria assumed the title of Empress of India. By the Indian Councils Act (1909) the imperial and provincial Legislative Councils were enlarged, their powers of interpellation and criticism enhanced, and the elective element extended, special provision being made for the representation of landholders, the professional classes, Muhammadans, and European and Indian traders and planters. The executive councils of Madras and Bombay were increased in size, and power was given to constitute executive councils in provinces under Lieut.-Governors. The Government of India Act (1912) created a Governor of Bengal, established an Executive Council for Bihar and Orissa, and authorised the creation of legislative councils in provinces under Chief Commissioners. The Indian High Courts Act (1911) empowered the Government of India to increase the number of High Court judges from 15 to 20, to establish new High Courts, and to appoint temporary judges. An Act to consolidate the Imperial Legislation relating to the Government of India was passed in 1915. The Government of India Act, 1919, confers on provinces a larger measure of independence of the Government of India. It distinguishes the functions of local governments and local legislatures from the functions of the Governor-General in Council and the Indian Legislature, it provides for the devolution of authority in respect of provincial subjects to local governments, for the allocation of revenues to those governments and for the use under the authority of the Governor-General in Council of the agency of local governments in relation to central subjects, it provides for the transfer of some provincial subjects to the administration of the Governor acting with Ministers. It gives borrowing powers to local governments. It lays down that the major provinces shall be governed, in relation to reserved subjects by a Governor in Council, and in relation to transferred subjects by a Governor acting with Ministers, appointed from among the elected Members of the local legislative Council. It confers extended powers on local legislatures. For the Supreme or Central Government, it provides that the Legislature shall consist of the Governor-General and two Chambers, viz., the Council of State and the Legislative Assembly. It provides for the appointment of an Auditor-General and a Public Services Commission on India. A Statutory Commission is to be appointed 10 years after the commencement of the Act for the purpose of enquiring, among other matters, as to the desirability of a further extension of the principle of self-government in India.

INDIAN LAW—The law administered in the Indian courts consists mainly of: (1) The enactments of the Indian Legislative Councils (imperial and provincial) and of the bodies that preceded them; (2) statutes of the British Parliament applicable to India; (3) the Hindu and Muhammadan laws of inheritance and domestic law; (4) the customary law affecting particular castes and races.

The Government of India.

EMPEROR OF INDIA—H I M GEORGE V.

Secretary of State—The Right Hon Earl of Bokenhead, P C

THE SECRETARY OF STATE FOR INDIA is the head of the Indian Administration in England, and as a member of the Cabinet he is solely responsible to, and represents the supreme authority of, Parliament. Subject to the provisions of the Government of India Act and rules made thereunder, the Secretary of State can impose his orders on the Government of India. In matters requiring secrecy (*e.g.*, foreign policy and the affairs of Indian States) the Secretary of State can act on his own authority without consulting his Council, and in most other matters can overrule the majority of his Council. Indian Government business in England is transacted at the India Office and at the office of the High Commissioner for India (*see pp. 95 and 202-3*).

The King-Emperor appoints the Governor-General, the Governors of the 9 major Provinces (Bengal, Madras, Bombay, the United Provinces, Bihar and Orissa, the Punjab, the Central Provinces, Assam and Burma), the Commander-in-Chief, the Members of the Executive Councils of the Governor-General and of Governors, and the Judges of the High Courts. The term of these appointments, except judgeships, is usually 5 years.

Subject to the Secretary of State's direction, the supreme executive authority in India, in both civil and military affairs, is the Governor-General in Council. The Governor-General's Executive Council now contains 7 members including the Commander-in-Chief (three of whom must have served in India 10 years), as well as himself. Ordinarily, the opinion of the majority prevails, but the Governor-General is empowered in special circumstances to overrule the majority. In accordance with the Government of India Act, 1909, and rules thereunder, the *Indian Legislature* consists of the Governor-General and two Chambers, viz., the Council of State and the Legislative Assembly (*see p. 614 as to their constitution*). Except as otherwise provided by or under the Act, a Bill is not deemed to have been passed unless agreed to by both Chambers. The Act confers powers on the Governor-General of securing essential legislation in emergencies, subject to disallowance by His Majesty in Council, of returning Bills for reconsideration, and of vetoing proposed legislation affecting the safety or tranquility of British India. The Indian Budget is submitted to both Chambers, and is voted on by the Legislative Assembly except in regard to certain specified heads, but the Governor-General in Council can act, notwithstanding a refusal or reduction of grants, where essential to the discharge of his responsibilities, and he may authorise expenditure necessary for the safety and tranquility of British India or any part thereof. Differences of opinion between the two Chambers may be referred for decision by the Governor-General to a joint meeting of members of both Chambers appointed for the purpose. Although the Government does not command a majority in the Indian Legislature, it is necessarily given the power to reject adverse votes, since its responsibility is not to the Indian Legislature, but to Parliament.

The seat of the Supreme Government is at Delhi, the summer headquarters being still at Simla.

Business is conducted by 9 Departments—Finance, Foreign and Political, Home, Legislative, Commerce, Industries and Labour, Education, Health and Lands, Army, and Railway. Each Department is in the charge of a Secretary to Government (the Foreign and Political Department has both a Foreign and a Political Secretary), and is under the care of a member of the Viceroy's Executive Council, who has authority to deal with affairs of minor importance, and to select what is worthy of the consideration of the Governor-General and his Council. The Governor-General himself superintends the Foreign and Political Department. The *Finance Department* deals with public accounts, loans, taxation, opium, currency, banking, mints, &c. The *Foreign and Political Department* conducts relations with external politics, relations with Foreign States, frontier tribes, relations with Indian States and Dependencies within the limits of India, and, through its Political Residents and Agents in the various Indian States, supervises their administration and regulates their relations with the paramount Power. The Political Residents in the Persian Gulf and Muscat, look after the commercial and political interests of India in those quarters. The *Home Department* deals with the internal politics, civil service, judicial affairs, prisons, police, &c. The Legal Member of Council takes charge of Government Bills in connexion with the *Legislative Department*. The department of *Commerce* deals with trade and shipping, ports, &c. The department of *Industries and Labour* deals with industries, stores, labour, public works, post-office, telegraphs, civil aviation, communications, irrigation, factories, &c. The Army is under the *Army Department*, of which the Commander-in-Chief has charge in Council. The *Education, Health and Lands Department* has the control of education, local government, sanitation, land revenue and surveys, agriculture, famine, meteorology, forests, foodstuffs, &c. Railway administration is entrusted to a *Railway Department*, which is in the charge of the Commerce Member of Council.

British India is divided into 15 *Local Governments and Administrations*, viz. —Under Governors, Madras, Bombay, and Bengal, still termed Presidencies, the United Provinces, the Punjab, Bihar and Orissa, the Central Provinces, Assam, and Burma, under Chief Commissioners, who are under the immediate authority of the Governor-General in Council, the North-West Frontier Province, British Baluchistan, Delhi, Ameer-Merwara, Coorg, and the Andaman and Nicobar Islands.

The Governors of Madras, Bombay and Bengal are permitted to communicate direct with the Secretary of State.

The unit of administration throughout British India is the District, the executive head of which is the District Officer, called Collector-Magistrate or Deputy-Commissioner, as the case may be. In subordination to a Commissioner, who corresponds direct with the Provincial Government,

he has control in every department of administration, and is the responsible head of his jurisdiction. There are about 270 Districts in British India.

There are separate *High Courts* for both civil and criminal cases in Madras, Bombay, Bengal,

Bihar and Orissa, and in the United Provinces of Agra and Oudh, the Punjab and Burma. Appeals may be carried to the English Privy Council. The Central Provinces, Berar, Oudh, Sind, and North-West Frontier Province have each a *Judicial Commissioner's Court*.

Sindia Circle, Engineer, A. Brebner, CIE Rs 2,150

PROVINCIAL GOVERNMENTS AND ADMINISTRATIONS.*

Under the Government of India Act 1919, and rules made thereunder, the local governments are given a large measure of independence of the Supreme Government. The Act distinguishes the functions of local governments and local legislatures of the Provinces from the functions of the Governor-General in Council and the Indian Legislature. The Supreme Government is given authority over certain subjects, classified as "Central," such as defence, political relations, railways, tariffs, etc. Other administrative heads, classified as "Provincial"—viz., local self-government, public health, education, public works, water supply, land revenue administration, famine relief, agriculture, excise, administration of justice, &c., are wholly or partly handed over to Provincial Governments with responsibility, subject to certain limitations, within their own areas, for administering them. In the nine major or "Governor's" Provinces—i.e., Madras, Bengal, Bombay, the United Provinces, Bihar and Orissa, the Central Provinces, the Punjab, Assam and Burma—provincial subjects are further divided into "reserved" and "transferred subjects," the administration of, and responsibility for, which rests with the Governor and his Executive Council and with the Governor and Ministers respectively. Ministers are chosen from among the elected members of the

Legislative Council by, and hold office during the pleasure of, the Governor. They are directly responsible to the Legislative Council for the administration of the "transferred" subjects, but can be overruled by the Governor if he considers them policy inconsistent with the discharge of his responsibilities.

The Act legislates for a transition from a bureaucratic to a self-government system and for the gradual transfer of more subjects to the Ministers. Matters of departmental or minor importance are dealt with, as a rule, by the Governor, his Council, and the Ministers sitting in conclave, but the decision on reserved subjects rests with the Governor in Council, and that on transferred subjects with the Ministers, subject to the Governor's intervention and control.

Legislative Councils have an elected majority, and normally a life of three years, but may be sooner dissolved by the Governor. The previous sanction of the Governor-General in Council is required to the introduction of certain classes of Provincial Bills. The Governor has powers of veto in regard to proposed legislation affecting the safety or tranquillity of his Province or any part of it, or of another Province, and can secure legislation essential to the discharge of his responsibilities for reserved subjects. Such Bills must be sent to the Governor-General for the signification of His Majesty's pleasure, but in emergencies the Governor-General may assent to them, subject to disallowance by His Majesty in Council. The

* The areas and populations of the separate provinces are for British territory only. The figures are according to the Census of 1921.

Governor has powers of assenting to, or withholding assent to, or of returning for reconsideration, other Bills, but must in certain circumstances send them for consideration to the Governor-General, who may reserve them for His Majesty's pleasure.

Provincial Budgets are voted on by the Legislative Councils, but the Governor has power to act, in respect of a demand for reserved subjects, notwithstanding a refusal or a reduction of grants, if the demand is essential to the discharge of his responsibilities for the subject, and in cases of emergency he can authorise such expenditure as may be necessary for the safety or tranquillity of his Province. Certain heads of expenditure do not require an annual vote—a deadlock is thus avoided in case of irresponsible action by the Legislative Council in the matter of supply.

Of the members nominated to the Indian Legislature and Provincial Legislative Councils some represent certain communities and interests. Males over 21 (25 in the case of Burma) years of age possessing certain qualifications (residence within the constituency and the possession of certain property qualifications, the payment of land revenue, rent, local taxes, income-tax or municipal rates) are eligible for the franchise. Women are not qualified for registration, but the disqualification may be removed in certain circumstances in any Province, or in all. The franchise is low, and gives the vote to small cultivators and some wage earners. The electorate of 1911 comprised over 5,000,000 persons.

(1) **MADRAS** (area, 122,260 sq. miles, pop. 42,718,985) was not only the oldest, but the most important of the three original Presidencies before Clive's conquest of Bengal, though it was small in extent until the annexation of the Carnatic in 1801. With a coast-line of 1,730 miles the province has no good natural harbour, but an artificial harbour has been constructed at Madras at great expense. The province is not naturally fertile, though irrigation systems in the river deltas have enormously increased the produce of the soil, and have yielded a large profit to the State. Rice, millet, and other food-grains, oilseeds, cotton, indigo, spices, tobacco, tea, &c., are cultivated. Manganese ore is mined and exported. Madras is served by the South Indian and by the Madras and Southern Mahratta Railways, the latter connecting it with Bengal on the north and Bombay on the west. About 89 per cent of the people are Hindus. There are 1,361,000 native Christians, mainly Roman Catholics. Many natives of the Presidency emigrate to Burma and Ceylon, some only temporarily. The languages principally spoken are Tamil, Telugu and Malayalam. Madurai (138,894) and Trichinopoly (120,422), famous for their Hindu temples, are the chief cities after the capital.

(2) **BOMBAY**—The Island of Bombay was part of the dowry of the Infanta of Portugal (1662), and was made over by Charles II to the East India Company in 1668. The greater part of the present territory was obtained by annexations from the Mahrattas, and by the lapse of the Satara State. Sind was conquered in 1843. The province (including Sind, but not Aden and Perim, which are also attached to it) contains 122,979 square miles (about equal in size to the British Isles), with a population of 29,291,729. Eastern Sind is desert. The administration of Sind (which occupies about two-fifths of the Presidency) is in some respects separate. About 75 per cent of the people of the Presidency are Hindus, and 20 per cent Muhammadans. The Parsis (83,000) who are very prominent in trade, are mainly found in Bombay. Marathi, Gujarati, Sindhi, Kanarese and Western Hindi, are the principal languages. Millet and other food-grains and oil seeds are cultivated. Cotton is largely produced for export and for manufacture in the constantly extending cotton-mills of Bombay and Ahmedabad. The chief railway systems are the Bombay, Baroda and Central India with the lines worked by it to the north, and the Great Indian Peninsula (with the Indian Midland) eastwards, south-eastwards is the Madras and Southern Mahratta system; while Karachi (Sind) is the port for the extensive North-Western Railway system. Ahmedabad (274,007), Poona (212,795), Sholapur (129,582), Surat (117,434), and Karachi (216,803), the

capital and chief port of Sind, are the most important cities For Aden and Petim, see p 623

(3) **BENGAL** (area of newly-constituted province, 76,843 sq miles, with population of 46,695,536) was placed under a Lieutenant-Governor in 1854. The old Bengal Presidency included practically all Northern and Central India, but subsequently the province consisted of part of Bengal proper with Bihar, Orissa, and Chota-Nagpur. Fifteen districts of Eastern Bengal were detached in 1905 and combined with Assam, while one district from the Central Provinces was added to Bengal. This partition was revoked in 1911, and Bengal now includes five Bengali-speaking divisions. About 54 per cent. of the population are Muhammadans and 43 per cent Hindus. The principal languages are Bengali and Western Hindi. For the most part the province is a great alluvial plain, very populous and productive. The chief products are rice, jute, oilseeds, sugar, tobacco, silk, tea, and coal. The East Indian Railway is the great

artery of the Ganges Valley. The Eastern Bengal Railway, running north, and the Bengal-Nagpur, south, from Calcutta, are also important. Important cities are Dacca (119,450), now the second capital, and Howrah (195,301), a great jute manufacturing centre adjoining Calcutta

(4) **THE UNITED PROVINCES OF AGRA and OUDH**, called "North-Western Provinces and Oudh" until 1902 (area, 106,295 sq. miles, pop. 45,375,787), forms the upper part of the great Ganges plain to the W of Bengal, lying between the Himalayas and the hilly border of the central plateau. Originally (excluding Oudh) it formed part of the Bengal Presidency, but in 1835 a separate administration was formed under a Lieutenant-Governor. OUDH was annexed in 1856 and placed under a Chief Commissioner. After 1877 the two administrations were combined. The chief products are wheat, rice, barley, pulse, tobacco, millet, cotton, sugar, and oilseeds. About 85 per cent. of the population are Hindus and 14 per cent. Muhammadans. Western Hindi is the chief language. The province is served by the East Indian, Oudh

and Rohilkhand, and Rohilkhand and Kumaon Railways. Among the important cities may be named the ancient city of Agra (185,532), containing the Taj Mahal and other great works of architecture, the sacred Hinducity of Benares (198,447), the great manufacturing centre, Cawnpore (216,436), Lucknow (240,566), Bareilly (129,459), and Allahabad (157,220).

(g) The PUNJAB (area, 99,846 sq. miles, pop. 20,685,024) occupies the N.W. angle of the great northern plain of India, and derives its name from the "Five Rivers" which, descending from the Himalayas, traverse the plain and unite in the Indus. It was annexed in 1849. Up to 1853 it was under a Board of Administration, who were then superseded by a Chief Commissioner, who was made Lieutenant-Governor in 1859, when also the Delhi Division was transferred to the Punjab from the North-West Provinces. The Punjab is mainly agricultural, and, owing to the scanty rainfall, depends largely for its harvests on vast irrigation canals, which are still being greatly extended, and are highly remunerative. The principal crops are wheat, millet,

barley, maize, pulse, oilseeds, sugar, and cotton. The Punjab possesses rich deposits of rock-salt, which, with wheat and other grains and cotton, form the principal exports. Timber is scarce. 55% of the population are Muhammadans, and 32% are Hindus. The Sikhs number about 3,107,000 in the Punjab and Punjab States, to which they are mainly confined. Panjabi, Western Punjabi and Western Hindi are the chief languages. The various branches of the North-Western and Southern Punjab Railways serve the province. Amritsar, the sacred city of the Sikhs, has 160,218 people.

(6) BURMA is bounded by Tibet on the north, by China, French Indo-China, and Siam on the east, and by Assam, Bengal and the sea on the west. It is the largest province, having a total area of 253,707 sq. miles, about equal to Spain and Portugal, with a population of 13,222,292. These figures include the Shan States and Chin Hills. Many immigrants come from Bengal, Madras, and China. Tenasserim and Arakan were annexed after the first Burmese war in 1826, Pegu after the second war in 1852, and Upper Burma and the Shan States after the third war in 1885. The Shan States form a minor administration distinct from that of Burma though under the same Executive Government and not subject to the jurisdiction of the Burma Legislature. The province

is thinly peopled, but, owing to remarkable prosperity, the population has increased 9 per cent in 10 years. The inhabitants belong to numerous tribes, who are distinguished by a variety of manners, languages, and religions. Burmese and Shanghaie are the chief languages. Buddhism, now almost confined to Burma, so far as the Indian Empire is concerned, is the religion of 85 per cent. of the people. The Burmese are much better educated than the natives of India proper, education being conducted by Buddhist monks. The delta country of Lower Burma is flat, but above Promé there is upland, hilly country. Rice, the main product of the delta region, is largely milled at Rangoon and exported. The principal export after rice is teak, which comes from the extensive forests of Burma and the Shan States, and overland from Siam. Burma is fairly rich in minerals, especially petroleum, rubies, jade-stone, and wolfram. The Irrawaddy and its chief tributaries, the Chindwin, the Shweli, and the Myittha, form important waterways. The main stream is navigable beyond Bhamo, 900 miles from its mouth, and carries much traffic. There are considerable exports by land to Western China. The Burma Railways have reached Myitkyina, on the Upper Irrawaddy, while a branch has been built to the Shan States, which lie in the Salween basin.

(7) BIHAR AND ORISSA (area of new province, 83,181 sq miles, with pop of 34,000,180). This province, which came into existence on 1 April, 1922, comprises Bihar, Orissa, and Chota-Nagpur, hitherto forming part of Bengal, as well as the Sambalpur district transferred to Bengal from the Central Provinces in 1905. Bihar is liable to extreme temperatures. The population is

exceedingly dense. Orissa and Chota-Nagpur are ill-watered and liable to drought. Orissa has a variety of races and a considerable seaboard. The highlands of Chota-Nagpur are thinly peopled and contain a large aboriginal population. The Patna High Court came into existence on March 1, 1926. Bihar and Orissa yields the greater part of India's output of coal and mica. Rice, wheat, oilseeds, sugar, and tobacco are cultivated. 82% of the people are Hindus, and the great Hindu temple of Juggernaut is at Puri, in Orissa. There is a variety of languages, Western Hindi and Oriya being the chief. The railway systems are the East Indian, Bengal and North-Western, and Bengal-Nagpur.

(8) THE CENTRAL PROVINCES and BERAR (area, Central Provinces alone, 82,109 sq miles, pop 10,837,444). The Central Provinces were formed in 1861 out of territory taken from the North-West Provinces and Madras, but originally belonging to the Mahratta Kingdom of Nagpur. The country, hilly and forest-clad, contains a large population of aboriginal tribes. The people are mostly Hindus, and they speak mainly Western Hindi and Marathi. The province, which is served by the Indian Midland, Great Indian Peninsula, and the Bengal-Nagpur Railways, possesses coal and manganese ore, and produces rice, wheat, millet, pulse, oilseeds, and cotton. There are cotton mills at Nagpur.

Since 1st October, 1905, BERAR has been amalgamated with the Central Provinces. Berar (area, 17,767 sq miles, pop 3,075,316), which lies to the north of Hyderabad, was placed in British hands by the Nizam in 1853, in payment of arrears, and its revenues were charged with the future cost of the Hyderabad Contingent (which was in 1903 incorporated in the Indian Army). In 1905 Berar was leased in perpetuity to the Government of India on payment of £157,000 a year to the Nizam. Berar is purely

agricultural. It is very fertile, and yields cotton, millet, oilseeds, &c. The chief language is Marathi, and most of the people are Hindus.

(9) **ASSAM** (area, 53,015 sq miles, pop 7,606,230), was constituted a separate administration in 1874 out of certain Bengal districts, most of which had been ceded by Burma in 1825. It was combined in 1905 with part of Bengal to form a new province, Eastern Bengal and Assam, but again became a separate administration in 1912. A range of mountains divides Assam into the Surma and Brahmaputra valleys, of which the chief towns are Sylhet and Gauhati respectively. The people are mainly Hindus and Muhammadans, and the chief languages are Bengali and Assamese. The Assam-Bengal railway serves the province. Tea and rice are the principal products. Assam contains nearly 900,000 immigrants from other parts of India, chiefly coolies for tea-gardens. **Seat of Government**, Shillong.

(10) **THE NORTH-WEST FRONTIER PROVINCE** was constituted in 1901 by the transfer from the Punjab of portions of the districts of Hazara, Peshawar, Kohat, Bannu, and Dera Ismail Khan (area, 13,429 sq miles, pop. 2,251,340, partly

estimated). Attached to the Province are the five trans-border political agencies of Malakand, Khyber, Kurram, Tochi, and Wano, together with tribal areas under the control of the Deputy Commissioners of the five settled districts first above mentioned. The officer in charge is directly responsible to the Government of India. The people are chiefly Muhammadans, and the chief languages are Pashto and Western Punjabi. The province produces wheat, barley and other grains, oilseeds, cotton, &c. It has a considerable trade with Afghanistan.

CHIEF CITY, Peshawar Population, 104,452
Chief Commr, H N Bolton C S I, C I E Rs 4,000

Secretary to Chief Commr, Major R E H Griffith, C I E Rs 1,000-2,500
Judicial Commr, P J G J Phipps, C M G, C I E, M C Rs 3,850

Rev. Sec, Lt-Col W J Keen, C I E, C B E Rs 3,000
Public Works Secs, Col H A D Fraser, C B (*Bldgs.*), Rs. 2,050, R Cannell (*Irign.*) Rs 2,150

(11) **AJMER-MERWARA** (area, 2,711 sq miles, pop 495,271), ceded in 1818, lies within Rajputana. The Governor-General's Agent in Rajputana is *ex officio* Chief Commissioner of Ajmer-Merwara and the chief executive and judicial authority 73% of the people are Hindus. Rajasthani and Western Hindi are the chief languages.

CHIEF CITY, Ajmer Population, 113,512
Chief Commissioner, R E. Holland, C S I, C I E Rs 4,000

(12) **COORG** (area, 1,528 sq miles, pop 163,838), annexed in 1834. The Resident at Mysore is *ex officio* Chief Commissioner and the chief executive and judicial authority.

Chief Com, W P Barton, C S I, C I E Rs 4,000

(13) **BRITISH BALUCHISTAN** (area, 54,228 sq ms, pop 420,648) was constituted a separate administration in 1888, under the Governor-General's Agent in Baluchistan, who also controls the affairs of the native States of Baluchistan up to the Persian frontier. The districts it comprises (Sibi, Quetta, Pishin, Thal-Chotiali, Nushki, Zhob, Chagai, Nasirabad, and the Bolan) were acquired partly from Afghanistan by the treaty of Gundamak (1879), partly from the Khan of Kalat by arrangement. Baluchistan consists largely of mountains and sandy deserts, and is sparsely populated. A large part of the people lead a pastoral, nomad life. In religion they are Sunni Muhammadans, and Pashto is the chief language. The Afghan-Baluch frontier was demarcated in 1896-7. To Chaman, on this frontier, a railway runs *via* Quetta and is continued to Mirjawa. The Khan of Kalat, the head of a loose confederacy, receives about £19,000 per annum for quit-rents, subsidy, &c. British troops occupy Quetta, commanding the Bolan Pass, and have the treaty right to occupy any other position.

Chief Commissioner in Baluchistan, S. E. Pears, C S I, C I E

Secretary to the Chief Commissioner, Major J L. R. Wei
Rev. and Judl. Commr, Lt-Col. A D G Ramsay, C I E, O B E Rs 3,250

(14) **DELHI**—This province (area, 593 sq miles, pop. 488,168) was constituted on October 1, 1912, out of the Punjab division of Delhi, in pursuance of the policy announced by H.M. the King-Emperor at the Delhi Durbar in December,

1911, to move the capital of India and its seat of Government from Calcutta to Delhi.
Chief Commissioner, E. B. Abbott, C.I.E.

Rs. 3,000

(15) The ANDAMANS and NICOBARS (area, 3,143 sq miles; pop 27,086) form a chain of islands in the eastern part of the Bay of Bengal. Since 1858 Port Blair, in South Andaman, has been used as an Indian penal settlement. Much valuable timber, worked by convict labour, is obtained. The Nicobar Islands, almost due south of the Andamans, were first occupied by the British in 1856. They comprise 19 islands. The principal products are coco-nuts.

Chief Commissioner, Lt.-Col M. I. Ferrar, C.I.E., O.B.E.

Rs. 3,000

The Laccadive Islands comprise 14 islands (nine inhabited), distant 200 miles from the Malabar coast of the Madras Presidency, in which they are included. (Pop 10,600 in 1911.)

Aden and Perim—From old time the peninsula of Aden, situated on the southern coast of Arabia and lying on the Red Sea trade-route between Europe and the East, has been an important trade centre. Its trade decayed after the Portuguese discovery of the Cape route, but with the opening of the Suez Canal it regained more than its old importance. It was occupied by the British in 1839. It is now a great coaling-station and port of call

and an emporium for the trade of the adjacent African and Arabian coasts. It is the only fortified point between Egypt and Bombay, and may be regarded as an outpost of the Indian Empire. Aden and Perim—a small unfortified island serving as a coaling station at the southern entrance to the Red Sea, occupied in 1857—form part of the Bombay Presidency, and have an area of 80 square miles and a population of 56,500. Aden is a free port. The chief industries are salt and cigarette manufacture. The traffic in arms and ammunition is subject to special regulations. The total seaborne trade in 1922-23 was £9,378,000. In 1922-23, 1,122 vessels called at Aden, and 281 at Perim. The British Government has treaty engagements with, and subsidises, the neighbouring Arab tribes, both inland and along the coast (Hadramaut), the Straits of Bab-el-Mandeb to Muscat territory at Ras Sair.

Aden. Political Resident, Maj. Gen. T. E. Scott, C.B., C.I.E., D.S.O. per annum Rs. 3,000

The Kuma Muria Islands, to the S. of Oman, have been in British possession since 1854. In 1834 the East India Company occupied Sokatra (area, 1,400 sq miles), 150 miles from Cape Guardafui, which has a pastoral Muhammadan population roughly estimated at 5,000, mainly Arabs. A formal protectorate was established in 1886. The Sheikh receives a small subsidy, and is pledged not to cede the island to any foreign Power.

INDIAN APPOINTMENTS.

THE higher civil administration of British India is recruited from four sources—1. Open competitive examination in England and India. 2. The Indian Army. 3. The patronage of the Secretary of State. 4. The patronage of the Local Governments.

The Civil Service of India.—The annual examination ordinarily commences in London July-August. Candidates must be over 21 and under 24 on Aug. 1 in the year of examination. Application for permission to compete must be made on or before June 1, on forms that can be obtained from the Secretary, Civil Service Commission, London, W. 1. Examination fee, £8. Selected candidates are on probation in England for one or two years, and receive an allowance of £300 if of European domicile, or £350 if of Indian domicile, if they pass their probation at one of the Universities or Colleges approved by the Secretary of State, conduct themselves well, and comply with all the rules laid down for their guidance. A final examination is held in Indian law, language, &c. A first-class passage to India will be engaged for selected candidates. In case of failure to pass the final examination, or to execute the usual covenant and to proceed to India, all allowances received must be refunded. The salary of a covenantal civil servant commences usually at Rs. 7,000 a year. The Regulations for competitive examinations to be held in India can be obtained from the India Office, London.

The Indian Army.—Candidates for commissions in the Indian Army are required to pass the Army Entrance Examination held by the Civil Service Commissioners. Candidates must be between 17½ and 24 years of age (in the case of candidates already serving in the

Army the upper limit of age will be 21). Of the cadetships for the Indian Army offered, some are allotted to King's India Cadets nominated by the Secretary of State for India, and the remainder being offered to candidates in the order of their passing the entrance examination. A few direct appointments to the Unattached List for the Indian Army are made by the War Office from candidates nominated by the principal Universities in the United Kingdom. At the end of the period of training at Sandhurst, cadets recommended for commission are gazetted to the Unattached List for the Indian Army. On appointment to an Indian regiment, an officer's minimum initial pay is (at the present moment Rs. 425 a month (equals £42 10s at the statutory exchange of 2s per rupee). Regulations and examination papers can be obtained from His Majesty's Stationery Office, Imperial House, Kingsway, W. C.

Indian (Imperial) Police Force.—A competitive examination will be held in London and other centres on June 10, 1925, in conjunction with the Army and Air Force Examination. A fee of £4 will be required from candidates examined in London, and a fee of £5 from those examined in other centres. The regulations provide that a candidate must be a European British subject, and that if he (being a European British subject) or his father or his mother was not born within His Majesty's dominions and allegiance, then at the time of his birth his father was a British subject and still is or continued to be until his death a British subject. Indian and Burmese candidates will be eligible if they have been resident in the United Kingdom for not less than five years. Candidates must be above 21 and under 25 years of age on Aug. 1, 1925; must be unmarried, and if

they marry before reaching India will be required to forfeit their appointments. Applications to compete at the examination must be made on forms to be obtained from the India Office, Whitehall, London, and must be returned not later than April 28, 1925. Successful candidates will be required to undergo a strict medical examination, will be examined as to their ability to ride, and will be required to provide themselves with uniform, towards which a contribution of £30 will be made by the India Office. Newly-appointed officers may be required to provide themselves, in India, with a horse and saddle, towards the cost of which the Government may contribute up to Rs 600. Free passage to India will be granted to probationers. The initial pay is Rs 325 per month, plus an overseas allowance of Rs 125 per month in the case of probationers with non-Indian domicile. The pay proceeds by increments to Rs 675, and thence to Rs 1,350 per month, subject to efficiency bars, with prospects of promotion to higher posts. Officers are subject to certain Leave, Pension, and Provident Fund Rules, details of which may be obtained from the India Office.

The patronage of the *Secretary of State for India* is small, and is now chiefly dependent on the requirements of the Government of India in the Judicial Department. Some appointments to the *Indian Educational Service*, which includes teaching and inspecting posts, are made on the recommendation of a Selection Committee, from among candidates who must have received a liberal education. The age is usually from 23 to 30. Appointments are in the first instance for two years, the salary beginning at Rs 400 a month, rising by annual increments of Rs 50 a month to Rs 1,250, with prospects of promotion if service is extended. Officers of non-Indian domicile receive additional ("Overseas") pay of Rs 150 per month during the first few years, but the amount is increased later. Initial salary and date of increments will be ordinarily determined in future by age. Appointments of *Chaplains* of the Church of England and the Church of Scotland to the Indian Ecclesiastical establishments are normally made, on the occurrence of vacancies, by the Secretary of State for India from amongst candidates nominated by the Indian Chaplains Board of the Church of England and the General Assembly's Committee on Indian Churches respectively. Church of England candidates must be between 27 and 34 years of age, and Church of Scotland candidates must be under 34 years of age. On appointment chaplains are on probation for two years and receive a salary of Rs 600 per month, rising by annual increments to Rs 1,300 per month.

Indian Public Works and State Railways Departments. Until further notice the Secretary of State in Council will, during each year, make a number of appointments of Asst. Executive Engineers in the Public Works and State Railway Depts. of the Government of India. In making these appointments he will act with the advice of a Selection Committee. Application forms can be obtained from the Secretary, Public Works Dept., India Office, London, and should reach the India Office not later than the April 1. Every European candidate must have attained the age of 21, and not attained the age of 24, on the 1st Aug. of the year in which the examination takes place. At present 10 per cent. of the appoint-

ments made in England are reserved for Indians. Selected candidates will be required to undergo further training on works in India for a period of at least one year. During this period they will be on probation and their final appointment will be made dependent upon the result of such probation. The pay and allowances of Europeans so appointed commence at Rs 525 a month. The pay rises by annual increments to Rs 1,625 per month, with possibilities of promotion to higher posts. There is a prospect of pension, and there is also a Provident Fund. Appointments are usually made in June in each year. From time to time appointments to the Locomotive, Carriage, Wagon and Traffic Departments of Indian State Railways are made, full information regarding which can be obtained from the Public Works Secretary, India Office, London.

Indian Forest Service.—In making appointments, the Secretary of State for India in Council acts with the advice of a Selection Committee. Applications for appointment must be made on a printed form to be obtained from the India Office, Whitehall, London, S.W. 1. Candidates must be not less than 19 but under 22 years of age on January 1. No person will be deemed qualified who shall not satisfy the Secretary of State that, save as provided in the Regulations, he is a British subject. A European candidate must be prepared to give an undertaking, if selected, that he will not marry before he reaches India. If he marries, after giving such an undertaking, he forfeits his appointment. Every candidate must be of good physique, and good character. Candidates must have obtained a degree with Honours in some branch of National Science in a University of England, Wales, or Ireland, or have passed the Final Bachelor of Science Examination in Pure Science in one of the Universities of Scotland. A degree in Applied Science will not be considered as fulfilling these conditions. A fair knowledge of either German or French is required. Weight will be attached to the possession of a diploma or degree in Forestry. The Secretary of State reserves the right to require candidates to pass a competitive examination. Selected candidates are required to undergo a strict medical examination. Before appointment a probationer is required to undergo a special course of instruction and to pass examinations in special subjects. The period of probation is in ordinary cases two years. The probationers are required to defray all expenses of lodging, board, tuition, and excursions to forest centres while at the University. The Secretary of State for India in Council makes payments to each probationer at the rate of £300 a year, not exceeding a total of £600. In the case of probationers of Indian domicile the rate will be £350 a year, not exceeding a total of £700. The grant of the allowances is subject to certain conditions. On appointment to the Indian Forest Service a probationer's salary commences at Rs 325 (plus an overseas pay of Rs 150 in the case of officers in non-Indian domicile) per mensem, and rises by increments to Rs 1,600, with prospects of promotion.

Further information regarding these and other Indian appointments can be obtained on application from the Under-Secretary of State, India Office, Whitehall, London, S.W. 1. Pay, Leave, and Pension Regulations of the Indian Services are contained in the Civil Service Regulations, which can be consulted at the India Office.

† Gross receipts less working expenses.

NET REVENUE AND EXPENDITURE

The figures of Gross Revenue just given include the net receipts of railways and other commercial undertakings without any deduction on account of interest charges, the total receipts from the sale of opium, and the receipts of certain spending departments, while the figures of Gross Expenditure include the interest charges of commercial undertakings, and the cost of cultivation and manufacture of opium. This method of compiling the figures causes the revenue available for administrative purposes and the expenditure on such purposes to appear greater than they really are. A statement of the net revenue and expenditure of the Central Government for the three years under review is therefore given in the table below, which shows the net revenue derived from commercial undertakings, after deducting all expenditure including interest charges, similar adjustments being made under other heads of revenue and expenditure by deducting (1) the cost of cultivation and manufacture of opium from sale receipts, and (2) the receipts of the spending departments from the gross expenditure incurred by them. The cost of the establishments maintained for the collection of revenue is not shown as a deduction from revenue, but as a separate head of expenditure.

Under the Government of India Act, 1919, provision was made for the definite assignment to each of the Provincial Governments of a part of the revenues of India. The revenues so allocated consist, in the main, of the receipts accruing from provincial loans and from those provincial subjects which are revenue producing, the principal heads of which are land revenue, irrigation, stamp duties and excise. In addition, a local government is given a share in any expansion of income tax due to an increase of the assessed incomes within the Province. This division of the sources of revenue leaves the Central Government, under present conditions, insufficiently provided. It has, therefore, been arranged that an annual contribution shall be made by eight of the nine local governments to the Central Government. The annual contributions fixed at the outset aggregate 982 lakhs of rupees (Madras 348, Bombay 36, Bengal 63, United Provinces 240, Punjab 175, Burma 64, Central Provinces 22, Assam 15, Bihar and Orissa nil), but these contributions will cease at the earliest possible moment. As a special measure the annual contribution made by Bengal has been remitted for three years with effect from 1922-23. The revised financial arrangements came into force from April 1, 1921, as from which date all "provincial" revenue and expenditure ceased to be included in the estimates and accounts of the Central Government.

† Including 277 lakhs for redemption of liabilities involved in the purchase of railways.

BURDEN OF TAXATION.—If taxation proper be divided among the population of British India, without allowing for certain portions of Salt, Excise, and Customs duties which fall on persons in the Indian States, the burden in 1922-23 was estimated at Rs. 3.9 per head, or, if land revenue

* A lakh is 100,000 rupees

† Including contributions to Central Government

(which is akin to rent) be added, Rs. 5.3 per head. The Budget of 1929-30 introduced a duty of 50 per cent on excess profits, but this tax was discontinued in 1920-21. The Budget for 1920-21 amended the super-tax law. The Budget for 1921-22 imposed additional taxation under the heads of postal charges, railway surcharge, import duties and taxes on income. The Budget for 1922-23 increased railway passenger fares, postage rates, the general customs *ad valorem* duty on imported goods, the income-tax, and the super-tax. The Budget for 1923-24 raised the salt tax from Rs. 1½ to Rs. 2½ a maund. The Budget for 1924-25 reduced the salt tax to Rs. 1½ per maund and imposed a specific duty on certain materials for match manufacture.

DEBT AND ASSETS.—On March 31, 1924, the debt of India (Central and Provincial Governments) amounted to Rs. 68,989 lakhs (sterling and rupee debt having been combined at the rate of Rs. 10=£1). Miscellaneous obligations (Savings Bank balances, &c.) amounted to about Rs. 97½ crores, besides a charge of £60,095,000 for various railway annuities. Its advances to Native States, corporations, agriculturists, &c., stood at Rs. 869 lakhs. Other assets were the Gold Standard Reserve of £39,999,000, and the cash balances in England and India, £10,167,000 and Rs. 3114.4 lakhs respectively.

LAND REVENUE.—This is the oldest and the most important source of revenue. The State is the paramount landlord in India, and the land revenue is the States' share in the rent of the soil. In most of Bengal and Bihar and Orissa, about one-fourth of Madras, and part of Assam the land revenue has been permanently fixed; elsewhere generally the assessments, or settlements, are revised periodically (usually once in 20 or 30 years). The nature of the settlements varies in different provinces. In parts of Bengal and Bombay, the greater part of the United Provinces, the Punjab, the N.W. Frontier Province, and the Central Provinces the settlement is with large proprietors or proprietary village communities (*zamindars*), and the estate is assessed as a whole. Elsewhere (especially in Burma, Berar, Bombay and Sind, Assam, and most of Madras) the *ryotwari* tenure prevails, and each ryot, or peasant proprietor, holds direct from the State. In temporarily settled *zamindari* districts the land revenue usually amounts to about 50 per cent of the rental paid to the landlord by the cultivating tenant, while in temporarily settled *ryotwari* districts the revenue varies from 20 per cent of the gross produce down to much smaller proportions, averaging about 8 per cent. Private improvements are exempt from assessment. The gross land revenue paid to the State (Central and Provincial Governments) in 1922-23 amounted to 3,535 lakhs (£23,570,000).

THE OPIUM REVENUE.—Poppy may now be grown only in parts of the United Provinces (Bengal opium) and in the Central Indian (Malwa) native States. Except in these States the manufacture is a Government monopoly. In 1922-23, 2,890 chests of Bengal opium were sold for export, in addition to 4,796 chests sold direct to Governments of Hong Kong, Straits Settlements and Netherlands (Indies), &c. The gross revenue from Bengal opium, including the value of opium sold by the Excise Department for consumption in India, was £2,525,000. The expenses of production, &c., were £1,244,000. Formerly, most of the opium exported from India

was consumed in China, but the Government of India, in furtherance of the efforts of the Chinese Government to suppress the growth and consumption of opium in China, decided in 1907 to reduce progressively the amount of Indian opium exported to China, and as from March 31, 1917, export of Indian opium to China is prohibited.

EXCISE—Licence fees and duties are levied on the manufacture and sale of intoxicating liquors, opium, and other drugs. The revenue, owing partly to stricter administration, and partly to enhanced duties, has greatly expanded in recent years, and amounted to lakhs 1,855 (£12,370,000) gross in 1923-24 (Central and Provincial Governments).

CUSTOMS—The net revenue was 4,135 lakhs (£27,350,000) in 1922-23. (For tariff see page 631.) The export duty on rice yielded 108 lakhs (£720,000), and the countervailing duty on Indian cotton goods 187.3 lakhs (£1,250,000) in 1923-24. The export duty on jute produced 329.2 lakhs (£2,195,000).

INCOME TAX is levied on non-agricultural incomes at the following rates:—

Annual Income	Rate of Tax per Rupee*
Rs. 2,000 and over	5 pies
" 5,000 "	6 "
" 10,000 "	9 "
" 20,000 "	12 "
" 30,000 "	15 "
" 40,000 "	18 "

In the case of companies and registered firms, whatever the total income, the rate is 18 pies in the rupee.

Super-tax is leviable in addition to ordinary income tax on incomes of individuals and registered firms above Rs. 50,000, of Hindu undivided families above Rs. 75,000, at 1 to 6 annas in the rupee, and on the taxable incomes of companies above Rs. 50,000 at a flat rate of 1 anna in the rupee.

STAMPS—Stamps yielded 1,195 lakhs gross (£7,970,000) in 1922-23. About two-thirds of the revenue is from court fees and one-third from commercial stamps.

SALT—The salt duty was reduced from Rs. 2½ to Rs. 2 a maund (84 lb.) in 1903, to Rs. 1½ in 1905, and to Rs. 1 in 1907. It was increased to Rs. 2½ on March 1, 1916, to Rs. 3½ from March 1, 1923, and reduced to Rs. 1½ from March 1, 1924.

FORESTS—About 99,000 square miles of forests are reserved and scientifically worked by the State, while about 150,000 square miles besides are under State control. A third of the revenue comes from Burma.

POSTS AND TELEGRAPHS—The Post Office in 1922-23 conveyed 1,186 millions of letters, postcards, newspapers, &c. and issued 33 millions of money orders. Inland letter rates are the lowest in the world. The length of telegraph wires in India on March 31, 1923, was 438,000 miles, and the number of messages sent in 1922-23 was nearly 19 millions. The capital outlay amounted to Rs. 2,059 lakhs (£13,716,000) at the end of 1922-23. The Indian Postal and Telegraph services were amalgamated on April 1, 1924. The combined services showed for the year 1923 a surplus of 25 lakhs (£1,635,000). The Indo-European Telegraph Department yielded a net profit of 6.48 per cent. during 1922-23. Its

* 12 pies = 1 anna; 16 annas = 1 rupee, 10 rupees = 100 (statutory rate), but at present the rupee has a fluctuating value.

capital expenditure to the end of 1922-23 was £1,218,000.

RAILWAYS—Nearly all the railways in India are owned by the State and administered by a Railway Board, though many are leased to and worked by companies. The mileage open for traffic on March 31, 1923, was 37,618, while the mileage under construction was 852. Of the mileage open about 50 per cent. was on the standard gauge (5½ ft.), and about 41 per cent. on the metre gauge. On March 31, 1923, the total capital at charge was 68,023 lakhs (£453,490,000). The net earnings of the railways in 1922-23 amounted to 3,266 lakhs (£21,771,000). The number of passengers increased to 573 millions, and the goods traffic amounted to 93½ million tons. Rates are very low, third-class passengers travelling on the average over four miles for a penny. The net gain from State railways was 122 lakhs (£813,000) in 1922-23. The total capital expenditure on State and other railways in 1922-23 was about 2,258 lakhs (£15,006,000).

IRRIGATION—The total capital outlay on State irrigation works up to March 31, 1923, was £56,382,000, which, apart from the advantages to cultivators and protection against famine, yielded a profit to the State, after payment of interest charges, of about £2,242,300. The area irrigated by Government irrigation works, excluding the Indian States, amounted to 28½ million acres, while the annual value of the crops raised amounted to nearly 1½ times the total capital expended on the works. Two-fifths of the irrigation revenue comes from the Punjab.

HOME CHARGES—The net expenditure in England, chargeable to Revenue, amounted in 1922-23 to £28,956,500. Interest on Railway Debt and Annuities, £10,045,000; Interest on Ordinary Debt, £2,754,000; other Debt Services, £2,099,000; Stores, £3,593,000, of which £2,447,000 was for Marine and Military Stores, payments for British forces, troop service, &c., £3,655,000; Army non-effective charges, £3,305,000; Civil annuities, pensions, &c., £2,078,000; Furlough payments, civil and military, £1,354,000; home administration, £353,500. The expenditure of the Indian Government in England is met by bills or telegraphic transfers drawn on India by the Secretary of State, and sold by him in London for sterling.

CURRENCY—The principal coin in use is the silver rupee, containing 165 grains of fine silver and 15 grains of alloy, and weighing in all 180 grains troy. Up to 1893 the Indian Mints were open by law for the unrestricted coinage of silver into rupees. Owing, however, to the almost continuous fall in the value of the rupee from 1871 to 1893, legislation in the latter year closed the mints to the public, with a view to eventually fixing the exchange. For a time the rupee continued to fall, but subsequently it rose, and between 1898 and 1916 was practically stable at 1s. 4d. The Act of 1899 made the British sovereign legal tender in India at the ratio of 15 rupees to the sovereign, the rupee, however, remaining also legal tender to any amount, but the ratio was altered to 16 rupees in 1900. In 1907 it was decided that half the profit on silver coinage should be applied to capital expenditure on railways; the other half of the profit, and the whole of the interest, being added to the gold

standard reserve. In June, 1922, it was decided that no portion of the profit was to be used for railway purposes until the total sterling assets of the Gold Standard Reserve amounted to £25,000,000. From April 1, 1921, the interest on investments in the Gold Standard Reserve, when that Reserve reaches £40,000,000, is appropriated in reduction of the rupee securities created for the special purpose of the Currency Reserve. The total receipts from profit on coinage, interest and discount, and profit by exchange up to March 31, 1924, amounted to £46,922,000. Of this sum £1,123,655 has been used for capital expenditure on railways, the remainder has been paid to the Gold Standard Reserve, for the purpose of maintaining the rate of exchange between England and India. On March 31, 1924, the investments of this fund in sterling securities amounted to £39,999,059 (estimated value), while £241 was held in cash in England. India has a paper currency. The 1, 2½, 5, 10, 50, and 100 rupee notes are legal tender everywhere in India, but other notes only within their circles of issue. In 1918 a branch of the Royal Mint was established at Bombay for the minting of gold coins.

ARMY—In peace time, the Army in India consists, first, of British troops, about 68,000; and, secondly, of Indian troops (largely Muhammadans), about 143,000, excluding followers. In addition, the Indian State troops furnished by Indian States contribute 21,000, including cavalry, transport corps, and sappers. Further, there are 37,000 European and Eurasian volunteers (efficients). For police duties and frontier service the regular military is supplemented by frontier militia and local levies. During the period (1902-9) when Lord Kitchener was Commander-in-Chief, considerable changes were effected in the organisation and training of the Army. On June 1, 1907, there was a redistribution of the Army of India. The net military expenditure (including marine) has risen from about £20,000,000 in 1912-13 to about 6,527 lakhs (£43,512,000) in 1922-23. The estimated net expenditure for 1924-25 is 6,025 lakhs (£40,166,000). During the Great War of 1914-18 the Government of India recruited on a voluntary basis over 800,000 combatants and more than 400,000 non-combatants, giving a grand total of about 1·3 million men. 1,225,000 officers and men were sent on service overseas from India, the total Indian casualties were 201,000. In 1917 the bar hitherto precluding the admission of Indians to King's Commissions was removed, the pay and pensions of the Indian soldiery were improved. India has an Auxiliary Force on a volunteer basis. Ague is the chief cause of sickness among British troops, and enteric fever the chief cause of death.

The ROYAL INDIAN MARINE consists of 14 sea-going vessels, and numerous smaller steamers and launches.

Director R.I.M., Bombay, Capt E J Headlam, C.M.G., D.S.O. (p.t.) Rs. 2,800

EDUCATION—Elementary education is based, so far as possible, on an adaptation of indigenous institutions and traditions. Higher education is an imported product. It is popular, and has undoubtedly been attended with beneficial results. As is natural with an imported product, its development is marked by some crudities, and its influence has to some extent been unsettling. It has appealed to the natural intellectuality

of the people, and has succeeded only partially in stimulating practical application. There are 14 Universities, viz., those of Calcutta, Madras, Bombay, Allahabad, Benares (Hindu), Patna, Dacca, Aligarh (Muhammadan), Lahore, Hyderabad, Mysore, Lucknow, Rangoon and Delhi. In State institutions education is secular. The institutions in 1921-22 numbered 208,206, and the scholars 8,381,350, including 1,418,422 females. Of the institutions, about 75 per cent. are maintained by the State or aided by grants, the rest being private and unaided. Of the total expenditure on education in 1921-22, £12,250,000, £2,534,000 came from fees, and £7,665,000 from provincial revenues or local and municipal funds. The census of 1921 showed that only 139 males and 21 females per thousand are literate, in the sense of being able to write a letter and read the reply thereto.

LOCAL SELF-GOVERNMENT, municipal and rural, in its present form, is a product of British rule. The municipalities at the end of 1920-21 numbered 749, controlling a total population of over 18 millions, and receiving an income of £5,341,000 from rates and taxes (octroi, taxes on houses and lands, water, lighting, and conservancy rates, &c.) and £1,299,900 from other sources (excluding loans). Out of 20,396 members of municipal bodies 1,514 were officials and 8,822 non-official. In almost all districts in British India there are local district boards, partly representative. Over 41 per cent. of their total expenditure of about £7,203,000 in 1920-21 was devoted to civil works, 34 per cent to education, and the remainder largely to sanitation and hospitals.

JUSTICE, POLICE, AND PRISONS.—There are about 11,000 officers exercising civil and criminal jurisdiction. Many of the superior and the great majority of the inferior officers are Indians. In 1920, 2,314,000 civil suits were instituted; 2,216,000 persons were tried, and 973,250 convicted, in criminal cases, of whom 470 were sentenced to death, 2,016 to transportation, and 171,961 to imprisonment. The strength of the police in 1920 was 14,122 officers and 192,488 men. There were 773 prisons, with a daily average of 124,075 prisoners. At the convict settlement of Port Blair (Andamans) there were 11,532 prisoners on March 31, 1921.

VITAL STATISTICS—The reporting of vital occurrences is still defective. The recorded death rate for British India in the decennium ended 1913 ranged between 38·21 per 1,000 in 1908 and 28·72 in 1913. It was 35·9 per 1,000 in 1919 and 30·8 in 1920. There were over 22 million deaths from influenza during 1918-19. Fevers of various kinds are by far the commonest cause of death, cholera, dysentery and diarrhoea, smallpox, and (since 1896) plague being other chief causes. The reported deaths from plague up to the end of 1920 were about 10,700,000 in India as a whole. Over 20,000 people were killed by snakes in 1920. In 3,342 hospitals and dispensaries, maintained mostly from public funds, 36,240,000 patients were treated in 1920. The number of persons vaccinated in 1920 was 9,624,000. According to the census of 1921 there were 102,400 lepers.

SURVEYS—The Survey Department superintends forest and cadastral surveys, as well as trigonometrical and topographical surveys, special explorations, and map production. Marine, geological, botanical, and archaeological surveys

are in operation The Meteorological Department is of great service in forecasting rainfall.

TRADE OF INDIA—Among the countries constituting the British Empire, India comes second to the United Kingdom itself in the volume of its sea-borne trade, which almost equals that of Canada and Australia combined. During the five years ending 1913-14 both imports and exports were, on the average, twice as great as they were 25 years ago. The ordinary course of Indian trade shows yearly a large net export of merchandise and a net import of treasure, but in 1920-21 and 1922-23 there was an excess of imports. The table below exhibits the leading figures for the last five years in thousands of pounds sterling (Rupees being converted at the rate of 15 to the £).

During the year 1923-24 as compared with 1922-23 the value of the imports decreased by Rs 1940 lakhs (£12,931,000), and the exports increased by Rs 4,772 lakhs (£31,814,000). In imports the principal articles showing increases were—Vegetable, mineral and animal oils (Rs 164.6 lakhs = £1,097,000), textile fabrics (Rs 95 lakhs = £634,000), woollen yarns and manufactures (Rs 92.5 lakhs = £617,000), vehicles, excluding locomotives for railways (Rs. 91.5 lakhs = £610,000), raw and waste cotton (Rs 77.4 lakhs = £516,000), apparel (Rs 39.6 lakhs = £264,000), tea (Rs 36.7 lakhs = £245,000).

In the export trade (Indian merchandise) black tea increased by Rs 961.8 lakhs (£6,412,000), wheat by Rs 567.8 lakhs (£3,785,000), linseed by Rs 226.7 lakhs (£1,512,000), gunny bags by Rs 221.4 lakhs (£1,476,000), and rape by Rs 177.7 lakhs (£1,184,000). There were decreases in sugar, lac, raw jute, raw wool, cotton twist and yarn.

As will be seen, the bulk of the imports consists of manufactured articles, while two-thirds of the exports consist of food, tobacco, and raw materials.

The following statement shows the chief articles of the foreign trade of India in 1923-24 (converted at Rs 15 = £1) —

IMPORTS (000 omitted)

Cotton Goods	£41,370	Fruits & Vegetables	£1,139

(Note.—Rupee figures converted at rate of Rs 15 = £1.)

CUSTOMS DUTIES.—The general import tariff, which stood at 5 per cent *ad valorem* since 1894, was raised to 7½ per cent. in 1916, to 11 per cent. in 1921, and to 15 per cent. in 1922. The principal exceptions to the general rate are as follows.—Cotton twist, yarn and thread pay 5 per cent, but the duty on other cotton goods is 11 per cent, an Excise duty of 3½ per cent. being levied on those woven in Indian mills. Arms and ammunition, and certain "luxury" articles, including silver manufactures, pay 30 per cent, sugar 25 per cent, cigars and cigarettes 75 per cent, spirits generally Rs 21 As 14 a gallon, salt Rs. 1¼ a maund (82 lb), gold and silver plate 30 per cent., Kerosene As 2 P 6 (with an additional As 6 per gallon on motor spirits, an excise duty of As. 6 per gallon is levied on motor spirit and an excise duty of A 1 per gallon on kerosene produced in India), coal As 8 a ton. Machinery, grain, tea-chests, printing materials, iron, steel, and railway material pay 10 per cent., and a few other articles pay 2½ per cent. The duty on manufactured tobacco is Rs. 2 As 4 per lb, matches Rs 1 As 8 per gross, splints for match-making 4½ As per lb, veneer for making match boxes 6 As per lb, beer As 8 per gallon, perfumed spirits Rs 36 a gallon. Gold, metallic ores, living animals, raw hides, skins, raw cotton and wool, certain agricultural requisites, quinine, and a few other articles are free. There are export duties of As. 3 a maund on rice, Rs 1½ per 100 lb on tea, Rs 4½ per bale of 400 lb. on raw jute other than cuttings, in the case of which the rate is Rs. 1¼ per bale, Rs 20 per ton on jute sacking, Rs. 32 per ton on heesians, and 15 per cent. *ad valorem* on raw hides and skins, with a rebate of two-thirds of the duty on hides and skins exported to countries within the British Empire.

SHIPPING.—In 1922-23 the number of vessels engaged in the foreign trade which entered and cleared at ports in British India was 7,429, with a tonnage of 15,495,000. Of this tonnage, nearly 77 per cent was under the British flag.

PORTS.—The chief ports are Calcutta, Bombay, Karachi, Rangoon, and Madras. These ports are administered by port trusts having wide powers, but subject to Government supervision.

FOREIGN LAND TRADE OF INDIA.—The most important countries in the land trade are Nepal and the Shan States. The imports of merchandise and treasure in 1921-22 were £10,077,000, and the exports £8,387,000.

AGRICULTURE is by far the most important occupation of the people of India. In British territory in 1921-22, 257 million acres were cropped, an increase of 18 million acres as compared with 1920-21. Of the total area cropped nearly 9 per cent. was under wheat, 31 per cent. under rice, and 44 per cent. under other food-grains and pulses, 5½ per cent. under oilseeds, and 5 per cent. under cotton, jute, and other fibres. Jute cultivation has been extraordinarily profitable. Sugar, tea, and tobacco are other important crops. The total area under irrigation was 48 million acres.

BANKS AND CO-OPERATIVE CREDIT SOCIETIES.—Besides the three Presidency Banks, closely associated with the Government, there are joint-stock banks, European and Indian, and many small native banks. Much success has been achieved in rural districts by co-operative credit societies. In 1920-21 there were in British India and Indian States 1,559 central, 42,582 agricultural and 3,322 non-agricultural societies, with a total membership of 1,757,000 and a capital of £17,620,000.

MINERALS.—The output of coal in India in 1922 was 19,011,000 tons. The production has much increased in recent years. Nine-tenths of the total comes from Bengal and Bihar and Orissa. The production of crude petroleum in India (chiefly Burma) has increased from 19 million gallons in 1897 to 299 millions in 1922. The production of salt is about 1,450,000 tons. The production of manganese ore in 1922 was about 474,000 tons, and of saltpetre 11,700 tons. The yield of gold (nearly all from Mysore) was about 438,000 oz in 1922. There is a considerable output of mica and a fluctuating output of rubies and jade. Monazite and tungsten ore have now taken an important place in the list of minerals of economic value produced in India. The output of the former in 1922 was 125 tons, and of the latter 943 tons.

MANUFACTURES.—In India the ancient village handicrafts still survive, though they suffer more and more from the competition of machine-made goods. Cotton-weaving is by far the most important hand industry. Power mills have grown up under European auspices, but are now largely owned by natives. The 280 cotton mills at work in British India and Native States in 1920-21, mostly in Bombay and Ahmedabad, contained 6,652,000 spindles and 118,000 looms. Up-country cotton mills have increased. The production in 1920-21 was 660 million lb. of yarn (mostly of low counts) and 367 million lb. of woven goods. There is a tendency to produce finer yarns and to pay more attention to weaving. The 78 jute mills, mostly situated in or near Calcutta, contained 870,000 spindles and 42,000 looms. There were, in 1920-21, 10 woollen and 8 paper mills, 21 breweries, and various other factories.

TABLE OF THE PRINCIPAL INDIAN RULING PRINCES AND CHIEFS, SHOWING THE SALUTES TO WHICH THEY ARE ENTITLED, AND THE AREA, POPULATION, PREVAILING RELIGION, AND REVENUE OF THEIR STATES.

N B — There are also 13 other chiefs entitled to salutes of 11 guns

† The present chief has a personal salute of two additional guns

STATES OF THE RULING PRINCES AND CHIEFS OF INDIA

THE States in India whose chiefs are in subordinate alliance with, or under the suzerainty of, the King-Emperor, comprise about two-fifths of the area, but only two-ninths of the population of India. Their administration, with a few unimportant exceptions, is not under the direct control of British officials, but it is subject, in varying degrees, to the Supreme Government. The chiefs are entitled to British protection, but have no power of making war and peace, or of sending ambassadors to one another or to foreign States, the military force they maintain is strictly limited, no European is allowed to reside at any of their courts without special sanction, and in case of misrule the Supreme Government can dethrone the chief or temporarily suspend him from the exercise of his powers. In matters of Imperial interest, trade, main lines of railway, &c, the Supreme Government has jurisdiction. Some States pay tribute, most do not. Tributes aggregating £583,000 (£233,000 from Mysore) were paid to the Government of India in 1922-23. Generally speaking, the States are governed by their Princes, Ministers, and Councils, with the advice of a political officer of the Supreme Government. This officer may have charge, as British Resident, of one large State, or may be the Agent for a

group of States. A common characteristic of all Indian States, important or insignificant, is that in their territory British Indian law does not run. For them the Indian Legislature or the Provincial Legislative Councils cannot legislate, and over them the High Courts or Chief Courts of the Provinces have no jurisdiction.

The Assigned Districts of Mysore (Bangalore), Kalat (Quetta), and Belair are still technically Indian States territory. The Shan States, on the other hand, are technically part of British India, though administered by local Sawbwas or petty chiefs. Excluding these territories, the Indian States have a combined area of 711,032 square miles, and a population of 71,939,187. They maintain in the aggregate a considerable body of troops of inferior military organisation in addition to their Indian State forces. Many treaties provide that States shall furnish troops on the requisition of the Supreme Government, and troops of Indian States served in almost every Indian campaign of the 19th century. Lord Curzon inaugurated an Imperial Cadet Corps of Indian princes and nobles. The States vary greatly in size and importance. Hyderabad is nearly as large as Great Britain, and the Nizam enjoys a very large revenue. On the other hand, in Kathiawar and

elsewhere, where family custom has led to minute sub-division, there are many chiefs of single villages. In these petty estates the nominal chief may have some very limited magisterial powers, but the administration is regulated and carried on by the Supremo Government in its executive capacity. The amount of control thus exercised over an Indian State in its internal affairs depends on a number of considerations, and varies from State to State. The rulers have not necessarily any religious or tribal connexion with the majority of their subjects. Thus the Nizam of Hyderabad is a Muhammadan, but most of his people are Hindus. Although the Indian States, large and small, number 693, only about 200 are of any real importance. The majority represent the scattered military chiefships which sprang from the ruins of the Moghul Empire in the 18th century. The rulers of Gwalior, Indore, and Baroda are all descendants of successful generals who then rose to power. Most of these States are of more recent origin than the British power in India. A unique step was taken in 1910, when a new Indian State was created out of the family domains of the Maharaja of Benares.

The salutes enjoyed by the Indian princes indicate their relative importance. Those with eleven guns or more are addressed as His Highness. On pages 632-3 are the names of 73 ruling chiefs who have salutes of eleven guns or more with some particulars of their States. Some well-known Indians of title, such as H. H. the Agha Khan, G. C. S. I., G. C. I. E., the Maharaja of Darbhanga, G. C. I. E., and the Maharajah of Burdwan, K. C. S. I., K. C. I. E., are not ruling chiefs. The States of Hyderabad, Mysore, Baroda, Kashmir, Sikkim, and Kalat, and those belonging to the Rajputana and Central India Agencies, 175 in all, are under the direct supervision of the Governor-General in Council. The remainder, chiefly minor States, are under the supervision or control of various Provincial Governments. The States of first magnitude, which have a superior Resident, are Hyderabad, Mysore, Baroda, Kashmir, Jaipur, Udaipur, Gwalior, Indore, and Travancore and Cochin.

The Indian States may be thus classified—
1. *Hyderabad*, the premier State in India (capital, Hyderabad, pop. 404,187—the fourth city in India). This State is in the centre of the Deccan or central plateau of Southern India. The ruling dynasty is of Turkoman origin, and is descended from Asaf Jah, who became Viceroy of the Deccan in 1724, and then independent of the Moghul Emperor. Telugu and Marathi are the chief languages. Wheat, rice, and cotton are produced. The Nizam's Guaranteed Railway is the principal line. 2. *Mysore*. This State, situated on a plateau in Southern India, was administered by the Indian Government from 1831 to 1881, when it was restored to native rule, under a somewhat strictly framed instrument of transfer. In Dec. 1913, the instrument was replaced by a new Treaty putting the relations between the British Government and the State on a footing more in consonance with the actual position of the Maharaja among the Feudatory Chiefs of India. Kanarese and Telugu are the chief languages. There is a Mysore State Railway. Millets, pulses, and rice are the principal crops. Mysore has important goldfields. 3. *Baroda*, situated in Western India in Gujarat and Kathiawar and much interlaced with British districts. The reigning Gaekwar was the adopted

heir of the ruler deposed in 1875 for misgovernment and misconduct. 4. *The Himalayan Hill States*, west of Nepal, including Kashmir. The important frontier State of *Kashmir* (capital, Srinagar, pop. 141,735) was granted to Gholab Singh by Lord Hardinge, after the First Punjab War (1846). It comprises Jammu, Kashmir, Ladakh, Gilgit, and Baltistan. A British force stationed at Gilgit watches the northern passes and controls the feudatory chiefships of Hunza and Nagar, while on the west the subordinate chiefship of Chitral is occupied by British troops, depending for their support on the Peshawar border. 5. *Sikkim*, a frontier State situated on the borders of Tibet, between Nepal and Bhutan, acknowledged the British protectorate in 1890, when also the boundaries of Tibet were defined by the Sikkim-Tibet Convention. 6. *The Sikh States*, in the Sirhind plain, south of the Sutlej. The most important of these is *Patiala*. 7. *Rajputana*, comprising the ancient sovereignties lying between Sind and the United Provinces. *Rajputana* (pop. 9,844,384) extends some 460 miles from north to south, and is 530 miles in breadth and is larger than the British Isles. About half of the area is desert. It comprises 20 States of varying size and importance. Of these 17 are ruled by hereditary Rajput chiefs, two by Jat chiefs, and one by a Muhammadan. The Governor-General's Agent's headquarters are at Ajmer; he has under him Residents for Eastern and Western Rajputana, and about twenty other officers, distributed among the States to supervise the administration, and give advice when it is required. The most important States are *Jodhpur* (Mawar), *Udaipur* (Mewar), and *Jaipur*. The Rajput dynasties, the most ancient in India, go back before the Moghul Empire, and resemble feudal monarchies. 8. *The States of Central India*, lying to the north of the Nerbudda and to the south and east of Rajputana, although in the aggregate one-third less in extent than those of Rajputana, are nearly four times as numerous. All but 17 are petty chiefships. The most important are *Gwalior* and *Indore*, which include between them one-half of the whole area. The 31 minor States of Bundelkhand (largest, *Rena*) are in political relation with the Central India Agency. *Bhopal*, one of the principal Muhammadan States in India, is now for a fourth generation under female rule. 9. *The Malayalm States of Travancore and Cochin*, lying together in S.W. India. These important States, attached to Madras Presidency, represent ancient Hindu dynasties. 10. *The three northern Muhammadan States of Khairpur* (Sind), Bahawalpur, and Rampur. 11. *Kalat* (including Makran and Kharan) and Las Bela, with tribal areas in the possession of the Marri and Bugti tribes. 12. *Gujarat*, including Kutch and the numerous petty chiefships of Kathiawar. 13. *The Southern Mahratta States*. 14. *The numerous Afghan and Baluch tribes of the N.W. frontier*, inhabiting the mountains from the north of Peshawar to the base of the Suleiman range, a distance of 800 miles. The names of some of these tribes, Waziris, Orakzais, Afridis, &c., have become familiar owing to the many expeditions against them. 15. *The aboriginal Gond and Kol tribes*, under petty princes of aboriginal or Rajput blood, in Chota-Nagpur, Orissa, the Central Provinces, and the Jaipur (Vizagapatam) Agency. 16. *The Indo-Chinese group of States*, and the numerous hill tribes of the N.E. frontier.

Countries Contiguous to India.

NEPAL

Sovereign, His Majesty Maharaja Dhiraja Trilohitana Bii Bikram Jung Bahadur Shah Bahadur Shamsher Jung, *suc* 1911 Salute in British territory, 21 guns

Prime Min, H H Maharaja General Sir Chandra Shamsher Jung, Bahadur Rana, G.C.B., G.C.S.I., G.C.M.G., G.C.V.O., D.C.L. Personal salute in British India, 19 guns

Nepal (area, about 54,000 sq miles, pop 5,600,000) lies between British India and Tibet on the S. slopes of the Himalayas, and includes Mt. Everest (29,141 ft.). Amid the sterile mountains lie many fertile valleys. The lower hills are covered with jungle, in which wild animals abound. Rice, wheat, &c., are grown. Nepal is divided into four provinces. In 1922 its exports to British India were £3,494,000, while its imports amounted to £1,867,000. The chief trade routes are that between Kathmandu and the Bihar and Orissa frontier (76 miles). Nepal exports rice and other grains, hides, oilseeds, *gha*, cattle, jute, &c., and imports cotton goods and yarn, sugar, salt, spices, metals, &c. The revenue, realised chiefly from land rent, forests, customs, &c., is over £1,000,000. The aborigines are Mongolian in type, and their religions are Buddhism and Hinduism. The country was conquered in 1769 by the Gurkhas, who are Hindus and claim to be Rajputs. Their frequent aggressions led to a war with the British in 1814-6. Relations have now long been friendly. The policy of seclusion is, however, consistently followed by the Nepal rulers. The real political power rests with the Prime Minister. This office is always held by a member of his family, the succession being determined by special rules. The present Prime Minister, Sir Chandra Shamsher Jung, paid a most successful visit to England in 1908. The army numbers about 45,000. By arrangement with Nepal, India obtains many fine recruits for its Gurkha regiments. During the Great War, and in the subsequent Afghan war, the Nepal Government rendered unstinted and unconditional assistance to the British Government in men, money and material. A new Treaty was concluded in December, 1923, between the British and Nepalese Governments, by which *inter alia* the internal and external independence of the State was recognised.

CAPITAL, Kathmandu (pop. 80,000)—*British Envoy at the Court of Nepal*, Lieut.-Col. W. F. T. O'Connor, C.S.I., C.I.E., C.V.O. Rs. 3,000

BHUTAN

Bhutan (area, about 20,000 sq miles, pop. about 250,000, mainly Buddhists) also lies on the S.E. of the Himalayas, and its products resemble those of Nepal. In 1863, owing to outrages on British subjects, portions of it were annexed to India, an annual allowance being paid by the Indian Government as compensation. By a treaty in 1910 this allowance was fixed at £6,667, and Bhutan agreed to be guided in its external relations by the advice of the British, who, however, will not interfere in its internal affairs. The former dual government of a spiritual chief and a temporal chief came to an end when the Tongsa Penlop, the chief councillor and virtual ruler, Sir Ugyen Wangchuk, K.C.S.I., K.C.I.E., was chosen hereditary Maharaja in 1907. He has a salute of 15 guns in British territory. The estimated annual revenue is £13,000. Bhutan's total trade with India in 1900-3 was £152,000. There is no British Resident.

CAPITAL, *Pemakha*.

AFGHANISTAN.

Amir of Afghanistan and its Dependencies, H. M. Amu Amanulla Khan, *suc* 1919. Salute in British territory, 21 guns.

Afghan Minister in London, Sardar Abdul Hadi Khan, 25 Knightsbridge, S.W. 1.

Afghanistan lies on the N.W. frontier of India. Estimated area, 245,000 sq miles, and pop. 6,380,500. It is bounded on the W. by Persia (boundary fixed 1857 and 1904), on the S. by Baluchistan (boundary fixed 1866-7), on the N. by Asiatic Russia (boundary fixed 1886-7 and 1893-5), and on the E. by the N.W. Frontier Province (boundary fixed 1895). The northern boundary runs from Zulfikar on the Persian frontier to Kushik, the Russian railway terminus on the branch line from Meiv, and thence N.E. to the Oxus, which forms the boundary from Khamiah to Lake Victoria, whence the line to the Chinese frontier was fixed by the Pannu agreement of 1895. The Indo-Afghan frontier was settled by the Durand agreement of 1893. On this frontier from the Pannu to the Gomal Pass are many Pathan tribes, who are much influenced by mullahs.

Mountains, chief among which are the Hindu Kush, cover three fourths of the country, the elevation being generally over 4,000 feet. There are three great river basins, the Oxus, Helmand, and Kabul. The climate is dry, with extreme temperatures. The population is very mixed. The Duranis have predominated since 1747, especially in Kandahar, next come the Ghilzais (military and commercial) and the Tajiks (aboriginals, who are cultivators or retail traders). All are Sunni Muhammadans, except the Hazaras and Kirizbashis, who belong to the Shiite sect. The national tongue is Pushtu, but Persian is more universally spoken.

Afghanistan is divided into five major provinces, Kabul, Kandahar, Herat, Turkestan, and Badakhshan (with Qataghan, Kafiristan (now Nuristan), and Wakhan), and four minor provinces, the Eastern, Southern, Farah, and Maimana, which are under governors, with subordinate nobles and judges, police, and revenue officers. Amir Abdurrahman (1880-1901) established a strong central government, with a regular civil and military organisation, including offices for public works, posts, police, finance, trade, &c. He first formed a national army, paid and controlled by himself. It comprises about 90,000 regulars and irregulars, but lacks discipline and cohesion. Considerable quantities of rifles and artillery have been purchased in Europe under arrangements made with the Government of India. Factories for arms and ammunition, and for various commercial products, have been erected in Kabul. The Afghan laws are Islamic sacred laws, tribal laws, and those of the Amir, who is the Court of Appeal. They have recently been codified under the name of the "Fundamental Law." Recently steps have been taken to develop education, hitherto controlled by the mullahs. Two schools under French and German superintendence respectively have recently been opened. Most of the people are industrious cultivators, and the country has become fairly settled, peaceful, and prosperous. There are generally two crops a year, one of wheat (the staple food), barley, or lentils, the other of rice, millet,

maize, and *dal*. Afghanistan is rich in fruits. Sheep and transport animals are bred. Silk, woollen, and hair cloths and carpets are manufactured. Salt, silver, copper, coal, iron, lead, rubies, and gold are found. The roads are generally unsuitable for wheeled traffic, but are being improved. Goods are conveyed by pack animals. The chief trade routes to India are the Khatir Pass route, from Kabul to Peshawar (220 miles), along which a motor service was established by the late Amir, and the road from Kandahar to Chaman (70 miles). The Sind-Pishin railway is now completed to the Baluchistan-Persian frontier. The trade of Afghanistan with India in 1922-23 was about £1,400,000. The exports to India are mainly fruits and nuts, raw wool, and *ghu*, while the imports therefrom are chiefly cotton yarn and piece goods, metals, leather goods, tea, and sugar. The Afghan customs duties are heavy. There is a large export of wool to Persia and Russia, cotton and silk goods, sugar, &c., being taken in exchange. The annual revenue is unknown, and consists largely of payments in kind. It may amount to £1,500,000. There are taxes on land, a grazing tax, customs duties, stamps, fines, poll-taxes, receipts from State lands, monopolies, and factories, and mining royalties.

As the result of a British mission to Kabul in 1904-5 the engagements which had existed with the Amir Abdurrahman since 1880 were renewed by the treaty of March 21, 1905. By the Anglo-Russian Convention of August, 1907, Russia declared Afghanistan outside the Russian sphere of influence.

His Majesty the late Amir Habibullah Khan was assassinated on February 20, 1919, his brother, Nasrullah Khan, by a *coup d'état* thereupon seized and temporarily held the reins of government at Kabul, but the Amir's third son, Amanullah Khan, soon after declared himself, and was recognised as Amir. Afghan troops crossed the Indian frontier on May 2, on which the Indian Government took immediate steps to expel them, fighting followed and Dacca was occupied by British troops, but overtures were made by the Amir and a treaty of peace was signed in August. By this treaty Afghanistan is left officially free and independent.

A treaty was signed by representatives of Afghanistan and Great Britain on the Nov. 22, 1921, by which the two Governments agreed to respect one another's internal and external independence, to recognise boundaries then existent, subject to a slight re-adjustment near the Khyber to receive Legations at London and Kabul and consular officers at Delhi, Calcutta, Karachi, Bombay and Kandahar and Jalalabad respectively. The Afghan Government are allowed to import free of customs duty such material as is required for the strengthening of their country. The export of goods to British territory from Afghanistan is permitted. A Trade Convention has been concluded and one to deal with Posts and Telegraphs is under consideration.

CAPITAL, *Kabul* (about 100,000). The chief commercial centre is *Kandahar* (60,000). Other provincial capitals are *Herat* (20,000), *Nazar-i-Sherif* (20,000), and *Khanabad* (5,000).

British Envoy Extraordinary and Minister Plenipotentiary, Lieut.-Col. Sir F. H. Humphrys, K.B.E., C.I.E. (1922).

British Consul at Kandahar, Khan Sahib Mahmud Khan.
British Consul at Jalalabad, Khan Sahib Saiyid Muhammad Shah.

MESOPOTAMIA AND THE PERSIAN GULF—For three centuries England has taken the lead in the Gulf trade. She has suppressed piracy, slavery, and inter-tribal warfare on land and sea, made surveys, and laid down buoys and cables. Vigorous measures have been taken against gun-running. England and India still have the lion's share of the trade, the bulk of which is conducted by Indians, who make Bombay their *entrepôt*. The Arabian shores are low-lying deserts, the Persian coasts mountainous, at the head of the Gulf are great alluvial plains. The heat is intense in summer. Natural harbours are few. The British Government have been entrusted with the mandate for Mesopotamia. Municipal Councils, representative divisional councils, and a Council of State have been set up. Emir Faisal was elected King in 1921. The port of Basra has been greatly developed and a large capital expenditure has been incurred on rail ways during the British occupation. *High Commissioner, Mesopotamia*, Sir Henry Dobbs, K.C.S.I., K.C.I.E. (See also pp. 716-8).

Bahrain (capital, Manama), governed by Sheikh Sir Hamid Isa bin Allal Khalifah, K.C.I.E., C.S.I., and under the protectorate of the Indian Government, is the largest of a group of islands half-way up the Gulf, near the Arab coast (El Hasa). It is the headquarters of extensive pearl fisheries, and a distributing centre for the adjacent mainland. Pearls are the only notable export, rice, cotton goods, dates, sugar, and spices the chief imports. In 1919-20 the value of the exports was £946,000, and of the imports £1,414,000. The people (about 120,000) are Muhammadans. The Sheikh has been in treaty relations since 1820 with the Government of India, who have a Political Agent at Bahrain. In 1880 he engaged not to make treaties with any other State.

The Sultan of *Oman* (Muscat) is in treaty relations with, and subsidised by, the Government of India, who have a Political Agent at his Court.

The independent tribes on the *Pirate* (Arab) Coast from Ras-el-Khema to Odeid are bound under treaties with the Indian Government (dating from 1820, and confirmed in 1853 by a Treaty of Perpetual Peace) to maintain a maritime truce for the prevention of piracy and slavery, and for the cessation of hostilities at sea. Hence then chiefs are sometimes called the "Trucial" chiefs. The British Political Resident in the Persian Gulf is the recognised arbiter and adviser of these tribes, and peace is maintained by the British flag. In 1802 these tribes agreed not to enter into relations with, or cede territory to, any other Power than the British. The trade of the Arab coast ports largely consists in exports of pearls to India *via* Lingah and Bahrain.

Important caravan routes converge at *Koweit*, which has an excellent harbour. The Sheikh is under treaty obligations with the Indian Government.

Political Resident, Persian Gulf, Lt.-Col. A. P. Trevor, C.S.I., C.I.E. Rs. 4,000
Pol. Agent, Muscat, Major R. G. Hinde Rs. 1,750
Do., Koweit, Major J. C. More, D.S.O. . . Es. 1,300
Do., Bahrain, Bt. Major C. K. Daly . . . Rs. 1,100

PERSIA (*q v*) borders on Baluchistan and Afghanistan. The demarcation of the Perso-Baluch frontier, partially carried out in 1875 and 1895, was completed in 1905.

ASIATIC RUSSIA—A portion of what was once the Russian Empire is continuous with Persia and Afghanistan. The Trans-Caspian Railway runs, *via* Merv, to Samarkand and Andijan, with a branch to Tashkent. The Murghab Valley branch from Merv to Kushk on the Afghan frontier, opened in 1898, brings the Russian railways within 70 miles of Herat, and within 450 miles of the Chaman terminus of the Indian railways. Another important strategic line connects Tashkent directly with Orenburg. The Amu-Darya, or Oxus, which separates Bokhara from Afghanistan for 330 miles, is navigated by Russian steamers.

CHINA—India is in contact with two dependencies of China, Chinese Turkestan and Tibet, and one province, Yunnan.

Chinese Turkestan is surrounded by the mountains of Tianshan, the Pamirs, and Kuenlun. There are three difficult passes into Russian Turkestan and two still more difficult ones into India. The boundary between Kashmir and Chinese Turkestan has not been officially defined. There is a British consul-general at Kashgar (Lt-Col R A Lyall). Trade with India is chiefly carried over the Karakoram Pass (8,500 feet) *via* Ladakh, in Kashmir.

Tibet, a plateau seldom lower than 10,000 feet, forms the northern frontier of India (boundary imperfectly defined), from Kashmir to Burma, but is separated therefrom by the Himalayas. India imports from Tibet wool, borax, salt, and musk, in exchange for cotton and woollen goods and grain. The total trade in 1922-23 was about £670,000. Trade passes from Bengal (through Sikkim) and from the Punjab and the United Provinces. Under the Anglo-Chinese Sikkim Convention of 1890, a trade mart was opened at Yatung, but as the Tibetans persistently disregarded the Convention, a political mission was despatched from India, with a military escort. It reached the capital, Lhasa, after sharp fighting, on August 3, 1904. A new Convention was signed (Sept. 7), providing for the erection of boundary pillars between Sikkim and Tibet, for three trade marts, with British and Tibetan agents, for unrestricted traffic by existing routes, and for payment of an indemnity. The Tibetans pledged themselves not to alienate any territory or grant concessions to, or permit the intervention of, any foreign Power. By the Convention of Peking (April, 1906) China accepted the Conventions of 1890 and 1904, and declared that no foreign State should interfere in Tibet, while England also undertook not to interfere in the administration of Tibet or annex territory. By the Anglo-Russian Convention of Aug. 1907, both Powers recognised the suzerain rights of China in Tibet, agreed to maintain its territorial integrity, to refrain from intervention in its internal administration, to treat with Tibet only through the Chinese Government, not to send representatives to Lhasa, not to assign any territory to either Power, and not to obtain railway, mining, or other concessions, but direct relations between British commercial agents and Tibetan authorities under the Conventions of 1904 and 1906 are permitted. In Dec. 1905, the ruler of Tibet, the Tashi Lama, visited India. The Dalai (or Sacred) Lama, who fled before the British advance on Lhasa, returned to Tibet in Jan.,

1920. The Chinese had meanwhile strengthened their hold over the administration, despite the opposition of the Lamas, or monks, who resented the loss of their authority. In Feb. 1920, the Dalai Lama again fled to India, pursued by Chinese troops. He was then deposed by the Chinese Emperor. The British Government refused the Dalai Lama's appeal for their intervention, but allowed him to remain at Darjiling. He left India in June, 1921, for Lhasa, where sharp fighting occurred between the Chinese and Tibetans, the former being worsted. In August, 1922, the British Minister at Peking presented a Note to the Chinese Government, urging that China should not actively intervene in internal administration in Tibet. To this the Chinese Government agreed, and representatives of the British, Chinese, and Tibetan Governments met in conference at Simla in Oct., 1923, to discuss the relations between the three countries. A convention, the terms of which have not been made public, was initiated by the three representatives, but the Chinese Government have so far refused to ratify it.

Yunnan is a Chinese province to the N.E. of Burma. By Anglo-Chinese agreements of 1894 and 1897 a boundary was fixed between Burma and Yunnan, and arrangements were made regarding trade, extradition, &c. Part of the boundary is still undefined. By an agreement of 1896 Great Britain and France agreed to share equally all privileges or advantages that might be conceded by China in Yunnan. Trade with Yunnan is chiefly by a difficult route from Bhainio, in Upper Burma. The direct trade was about £1,595,000 in 1922-23. Burma imports from Yunnan hides, raw silk, &c., and exports cotton goods, &c. Teng-yueh and Samao, near the Burma frontier, are treaty "ports." There are British consuls at Teng-yueh and Yunnan-fu.

SIAM (*q v*) matches with Burma for many hundreds of miles through mountainous country, and considerable trade is carried on over this frontier, mainly with Chienngai. Burma imports from Siam teak, cattle, silk goods, &c., and exports cotton goods, &c. In 1922-23 the value of the total trade was about £504,000. The boundary of Burma and N.W. Siam was demarcated in 1898-3. France in 1904 recognised the portion of Siam west of the Menam basin, including the Malay peninsula and adjacent islands, as within the British sphere of influence.

Canada was originally discovered by Cabot in 1497, but its history dates only from 1534, when the French took possession of the country. The first settlement (Quebec) was founded by them in 1608. In 1759 Quebec succumbed to the British forces under General Wolfe, and in 1763 the whole territory of Canada became a possession of Great Britain by the Treaty of Paris of that year. Nova Scotia was ceded in 1713 by the Treaty of Utrecht, the Provinces of New Brunswick and Prince Edward Island being subsequently formed out of it. British Columbia was formed into a Crown colony in 1858, having previously been a part of the Hudson Bay Territory, and was united to Vancouver Island in 1866. By the British North America Act, passed in 1867, the Provinces of Canada (Ontario and Quebec), Nova Scotia, and New Brunswick were united under the title of THE DOMINION OF CANADA, and provision was made in the Act for the admission at any subsequent period of the other provinces and territories of British North America.

The Dominion of Canada occupies the whole of the northern part of the North American Continent (with the exception of Alaska and part of the coast of Labrador), from 49° North latitude to the North Pole, and from the Pacific to the Atlantic Ocean. The boundaries between Quebec and the Labrador coast region of Newfoundland are expected to be settled shortly by a Judicial Commission.

Relief.—From a physical point of view Canada may be divided into an eastern division, a western division, the Red River Valley, in long. 97°, forming the separating line, and a northern division. The eastern division comprises two areas, presenting radically distinct aspects—(1) The south-eastern area, bounded by the line of the Gulf and River St. Lawrence, from Belle Isle to Montreal, thence by a line running directly south to Lake Champlain, which is generally hilly, and sometimes mountainous, with many fine stretches of agricultural and pastoral lands. (2) The southern and western area, presenting, in the main, a broad, level, and slightly undulating expanse of generally fertile country, with occasional step-like ridges or rocky escarpments. The main hydrographical feature is the chain of lakes, with an area of 95,000 square miles, contributing to the great river system of the St. Lawrence. The northern division, embracing nearly two-thirds of the Dominion, with an average elevation of 1,000 feet above the level of the sea, is pre-eminently a region of waterways, and including the great Laurentian mountain range. In this area are found the other great river systems, the Nelson and the Mackenzie. The western division referred to may also be said to possess two areas equally distinct in character. The first stretches from the Red River Valley to the Rocky Mountains. Here, between lat. 49° and 54°, is the great Prairie Region, rising to the west in three terrace-like elevations, the lowest of which is 700 feet, and the third about 3,000 feet above the level of the sea. North of the 54th parallel the country passes again into forest. The second area, from the western edge of the Prairie to the Pacific coast, is a distance of 400 miles, and contains the Rocky Mountains (Mount Robson, 13,668 feet) and the Selkirk and Cascade Ranges, whose summits are from 4,000 to 16,000 feet high, the country being on the whole densely wooded. The highest mountain peaks in Canada are Mount Logan, 19,850 feet, and Mount St. Elias, 18,008 feet, both in the Yukon.

Climate.—The climate in the eastern and central portions of the Dominion presents greater extremes of cold and heat than in corresponding latitudes in Europe, but in the south-western portion of the Prairie Region and the southern portions of the Pacific slope the climate is milder. Spring, summer, and autumn are of about seven to eight months' duration, and the winter four to five months. The soil is generally fertile and all the products of the temperate zone are cultivated.

GOVERNORS-GENERAL OF CANADA SINCE 1867

Name	Date of Appointment	Date of Assumption of Office
Viscount Monck	June 1, 1867	July 1, 1867
Sir John Young (Lord Lisgar)	Dec. 29, 1868	Feb. 2, 1869
Earl of Dufferin (Marquess of Dufferin and Ava)	May 22, 1872	June 25, 1872
Marquess of Lorne (Duke of Argyll)	Oct. 5, 1878	Nov. 25, 1878
Marquess of Lansdowne	Aug. 18, 1883	Oct. 23, 1883
Lord Stanley of Preston (Earl of Derby)	May 1, 1888	June 11, 1888
Earl of Aberdeen	May 22, 1893	Sept. 18, 1893
Earl of Minto	July 25, 1898	Nov. 12, 1898
Earl Grey	Sept. 26, 1904	Dec. 10, 1904
Field-Marshal H. R. H. the Duke of Connaught and Strathearn, K.G.	Mar. 21, 1911	Oct. 13, 1911
Duke of Devonshire, P.C., K.G., G.C.M.G., G.C.V.O.	Aug. 8, 1916	Nov. 11, 1916
General Lord Byng of Vimy, G.C.B., G.C.M.G., M.V.O.	June 3, 1921	Aug. 11, 1921

GOVERNMENT.

Canada is a self-governing Dominion within the British Empire, its constitution resting on the British North America Act of 1867, under which the Dominion of Canada came into being on July 1, 1867 (Dominion Day). The Executive power is vested in a Governor-General appointed by the Sovereign and aided by a Privy Council.

Governor-General and Staff.

<i>Governor-General and Commander-in-Chief</i> , General Lord Byng of Vimy, G.C.B., G.C.M.G., M.V.O. (1921)	\$10,000
<i>Secretary</i> , A. F. Sladen, C.M.G., C.V.O.	\$6,000
<i>Private Secretary</i> , Major P. K. Hodgson, O.B.I.

THE LEGISLATURE

Parliament consists of a Senate and a House of Commons. The Senate consists of 26 members, nominated for life by the Governor-General, distributed between the various provinces thus: 24 for Ontario, 24 for Quebec, 20 for Nova Scotia, 20 for New Brunswick, 4 for Prince Edward Island, 6 for British Columbia, 6 for Manitoba, 6 for Alberta, and 6 for Saskatchewan; each Senator must be thirty years old, a resident in the province for which he is appointed, a natural-born or naturalised subject of the King, and the owner of a property qualification amounting to \$4,000. The Speaker of the Senate is chosen by the Government of the day. The House of Commons is elected every five years at longest, and the

next (25th) Parliament will consist of 245 members, elected as follows: 82 for Ontario, 65 for Quebec, 24 for Nova Scotia, 22 for New Brunswick, 27 for Manitoba, 24 for British Columbia, 4 for Prince Edward Island, 26 for Alberta, 27 for Saskatchewan, and 1 for Yukon. The House of Commons is also composed of natural-born or naturalised subjects of the King, no property qualification is necessary, its members are elected upon a very wide suffrage, and at the General Election in Dec 1921 women exercised the franchise on the same terms as men for the first time in a Federal Election. For electoral purposes each province is divided into districts, returning a member on a majority of votes taken by ballot. The members of the House themselves elect their Speaker, and twenty, including the Speaker, form a quorum. Members of the Upper and Lower Houses receive \$4,000 per Session, with travelling expenses and deductions for non-attendance.

The Houses of Parliament were destroyed by fire on Feb 6, 1916, the new buildings being started the same year, the foundation stone was laid by H R H the Duke of Connaught (Gov Gen), Sept 2, 1917, and the corner stone of the main tower by H R H the Prince of Wales, Sept 1, 1919. The Speaker's Chair in the new House of Commons (a replica of that at Westminster) was presented in 1921 by Viscount Ullswater (ex-Speaker of the House of Commons of the United Kingdom) on behalf of the Empire Parliamentary Association of the Houses of Lords and Commons.

The Senate

THE JUDICATURE

The Judicature—Justice is administered, as in England, by judges, police magistrates, and justices of the peace, of whom the first-named are appointed by the Governor-General, for life, from among the foremost men at the bar in the several provinces. The highest court is the Supreme Court of Canada, composed of a Chief Justice and five puisne judges, and holding three sessions in the year at Ottawa. The only other Dominion Court, viz., the Exchequer Court of Canada, is presided over by separate judges, and its sittings may be held anywhere in Canada. The Provincial Courts include the Court of Chancery, Court of King's Bench, Court of Error and Appeal, Superior Courts, County Courts, General Sessions, and Division Courts. The duties of coroners are generally analogous to those in force in England, as are also methods of civil and criminal procedure, while trial by jury prevails.

Supreme Court of Canada

<i>Chief Justice of Canada, Hon. F. A. Anglin</i>	\$15,000
<i>Puisne Judges, Hon. J. Idington, Lt. Hon. Lyman Poole Duff, Hon. Pierre B. Mignault, Hon. E. L. Newcombe, Hon. T. Rinfret</i>	each 12,000
<i>President of the Court of Exchequer for the Dominion, Hon. A. K. McLean</i>	10,000
<i>Puisne Judge of the Exchequer Court, Hon. Louis A. Audette, LL.D.</i>	9,000
<i>Registrar of the Supreme Court, E. R. Cameron, K.C.</i>	6,000
<i>Registrar of the Exchequer Court, C. Moise, K.C., D.C.L.</i>	5,000

DEFENCE

The Militia of Canada is classified as Reserve and Active, the latter being subdivided into Permanent and Non-permanent Forces. The Permanent Force consists of 15 units of all arms of the service, with an establishment limited to 10,000 (with a strength in 1924 of 3,500). The Non-permanent Active Militia is made up of cavalry, artillery, machine-gun, signalling and other corps, with a total establishment of 10,568 officers and 112,893 other ranks. The Reserve Militia is a framework designed to serve as a basis for contingent military organisation, drill and training are voluntary and entail no expense to the public.

Expeditionary Force in the Great War—The number enlisted up to the cessation of hostilities was 595,441, of whom 418,052 were sent overseas. Over 80% of all enlistment was voluntary. The total outlay for the War is estimated at \$2,000,000,000.

Royal Canadian Navy.

The Royal Canadian Navy consists (Aug. 1924) of 2 Destroyers and 4 Mine-sweepers on the Active List and 1 Light Cruiser and 2 Submarines on the Reserve List, with a personnel of 467 officers and men. There is also a Naval Reserve (500) and a Naval Volunteer Reserve (1,000).

Royal Canadian Mounted Police.

Headquarters Ottawa

Hon. Commandant, H. R. H. the Prince of Wales, K.G.
 Commissioner, Cortlandt Starnes
 Asst. do, G. S. Worsley
 Liaison and Intelligence Officer, Col. C. F. Hamilton
 Secretary, G. T. Hann.

EDUCATION.

Education is under the control of the Provincial Governments, the cost being met by local taxation, aided by grants from the several Provincial Governments. There are (1922) 28,924 elementary and secondary schools (attendance at the former being compulsory except in the Province of Quebec), with 1,859,447 pupils, and 65 colleges with 20,086 students. The 23 universities had 31,792 students in 1921-22.

The live stock included 3,530,641 horses, 9,246,231 cattle, 2,753,860 sheep, 4,405,316 swine, and 45,469,292 poultry.

In dairy produce the total Dominion output of butter was 163,556,759 lb., valued at \$56,929,008, and of cheese 151,504,353 lb., valued at \$28,633,461.

Fur Farming—A comparatively new industry, but one which is assuming appreciable proportions, is that of fur farming. There were 1,240 fur farms in the Dominion in 1923, mainly in Prince Edward Island, 1,179 of which were fox farms, the remainder being divided between mink, raccoon, marten, skunk, fisher, Karakul sheep, beaver, and muskrat. The total number of animals on the farms at the end of 1923 was 40,125, valued at \$6,325,668, born in captivity, 26,980, sold from farms, 7,106, value \$1,314,683, pelts sold, 9,539, value \$860,468, the total sale for live animals and pelts being \$2,175,151 as compared to \$1,537,525 in 1922.

Fisheries—The fisheries are an important source of wealth, and include salmon, cod, halibut, whitefish, herrings, mackerel, and lobsters. The total value of the catch in the calendar year 1923 was \$22,565,545 as against \$21,908,076 in 1922 and \$60,750,544 in 1918, the banner year of the fishery harvest. The capital invested in vessels, &c., engaged in catching operations in 1923 was \$27,672,866, and the number of men employed 68,964. The number of canning and curing establishments in operation in 1923 was 938.

Lumbering—The net value of production, including (a) logging operations and (b) mill operations, was in 1921 \$233,909,759, and in 1922 \$230,108,403, a decrease of approximately 2 per cent. The principal items of production in 1922 were sawn lumber \$84,554,172, shingles \$10,397,080, and laths \$5,690,328, miscellaneous mill products \$13,683,000. Products of logging operations which do not reach the sawmill were valued at \$115,783,823 in 1922.

Industrial Statistics—Industrial establishments of all kinds in 1922 had a total capital of \$3,125,772,761, the value of the products being \$2,439,843,766. These industries employed 462,573 hands, the total pay roll for whom was \$497,113,554.

Minerals—The metals produced in 1923 were as follows: Gold, 1,223,601 oz. (\$25,294,076), silver, 17,754,706 oz. (\$11,518,008), copper, 87,942,458 lb. (\$12,682,182), nickel, 62,453,843 lb. (\$18,332,077), lead, 110,730,730 lb. (\$7,949,359), cobalt, 966,020 lb. (\$2,753,157), zinc, 60,038,000 lb. (\$3,988,514), asbestos, 231,231 tons (\$7,508,138), coal, 16,984,022 tons (\$73,504,361), gypsum, 559,778 tons (\$1,165,953), salt, 202,960 tons (\$1,553,645), natural gas, 14,675,760 M cu ft (\$5,875,150). The total value of the mineral output, 1923, was \$224,019,832.

Canals — In 1923 the vessels passing through the canals of the Dominion numbered 30,451 of 16,343,779 tons. There are six systems under control of the Dominion Government with a total waterway of 1,594 miles (of which 117 miles are constructed canals).

Posts and Telegraphs — There were 12,288 post-offices on Mar 31, 1923. The postal revenue was \$28,865,374 in 1923-24. In 1923 there were almost 4,000 rural mail delivery routes on which were erected 202,467 boxes. The length of Government telegraph lines in 1922 was 11,455 miles, and of other lines 41,641 miles. In 1923-24 there were 33,457 wireless and radio stations, 31,609 of which were private receiving stations. A long-distance station is operated at Glace Bay, Cape Breton, N.S. with a range of 3,000 miles. Messages during 1923-24 numbered 372,464. Twenty-eight Government steamers are equipped with wireless, having an average range of about 175 miles.

On December 31, 1922, there were 944,089 telephones and 2,396,805 miles of telephone wire in use, earnings, \$39,559,149; expenses, \$29,966,181.

Provinces of the Dominion.

ONTARIO

Area and Population—The Province of Ontario contains a total area of 407,262 sq miles, with a population (1921) of 2,933,662, an increase since the last census (1911) of 406,370. Of the total population 1,226,379 live in towns, townships, and villages, and 1,707,283 in cities.

Government—The Government is vested in a Lieutenant-Governor and a Legislative Assembly of 111 members elected for four years which meets every year at Toronto. Executive Council of eleven members (three without portfolio) act as the Ministry of the Province.

Agent-General for Ontario in the British Isles, William C Noxon, 163, Strand, London, W C 2

Assistant, S E Percival.

Finance.—The Ordinary Receipts of the Provincial Government for 1923 were \$34,110,212.62, and the Ordinary Expenditure \$49,305,439.15.

Agriculture and Live Stock—The total area is 234,163,200 acres, and in 1923 the area of cleared land was 15,054,463 acres, of which 10,206,961 acres were under field crops. The total value of the agricultural production in 1922 was \$441,418,000. Cheese factories produced 99,535,415 lb of cheese in 1923 valued at \$18,842,102, and creameries made 54,773,180 lb of butter valued at \$19,443,505. In 1923 there were 673,371 horses, 2,838,087 cattle, 907,673 sheep, 1,734,734 pigs, and 15,203,384 poultry. Free grants of land are obtainable in the great clay belt of Ontario, opened up by the Temiskaming and Northern Ontario railway. Improved farms, orchards and smallholdings can be bought on reasonable terms in the older settled parts of the Province. There is a scheme of land settlement, with free land and financial assistance for returned soldiers, both Imperial and Canadian. There is always a demand for farm workers.

Iron Products—The total production of log and timber products and wood pulp amounted in 1921 to \$52,507,720, or 25 per cent of the lumber and pulp trade of the whole Dominion.

Manufactures—Ontario is the chief manufacturing province of Canada. The total value of its manufactures in 1922 was \$1,274,424,802. There were, in 1922, 237,319 employees, an invested capital of \$1,643,187,941, and an annual wage bill of \$268,662,730. The chief manufacturing centres in 1922 were Toronto (\$304,065,052), Hamilton (\$100,280,131), Ottawa (\$49,202,686), Oshawa (\$40,131,834), London (\$35,487,959), and Ford (\$31,690,257).

Minerals—Ontario is the leading mineral Province in the Dominion, the output in 1923 being \$68,284,658. The principal metals are gold, \$20,082,586, silver, \$6,905,741, nickel, \$9,563,416, and copper, \$3,456,067.

Hydro-Electric Power—One of the greatest Government-owned public utility organisations in the world is the Ontario Hydro-Electric Commission, supplying light and power from Niagara and elsewhere. These works are now developing 750,000 horse power, and a further development of 250,000 horse-power is now under construction.

Principal Cities—CAPITAL, TORONTO, population (1921) 521,893, with great shipping interests on the Lakes, and the chief centre of industrial and commercial activity. Hamilton, the "Birmingham of Canada" (141,151), Ottawa, the Federal capital (107,845), with a large lumber trade and woodenware manufactures, London (60,959), Brantford (29,440), Kingston (21,753), Peterborough (20,004), Windsor (38,591), Port William (20,541), Kitchener (21,763), Guelph (18,128), St Catharines (19,891), Sault Ste Marie (21,092).

QUEBEC

Area and Population—The Province of Quebec contains an area estimated at 706,834 square miles, with a population (1921) of 2,361,199, an increase since the last Census of 355,433. In 1912 the Province was enlarged by 351,780 square miles by the addition of the greater part of the Labrador Peninsula, known as Ungava (or New Quebec).

Government—The Government of the Province is vested in a Lieutenant-Governor, the Council of Ministers, a Legislative Council consisting of 21 members appointed for life, and a Legislative Assembly of 86 members elected for five years to represent the same number of electoral districts in the Province.

Lieutenant-Governor, Hon. N. Pérodeau \$10,000
Aide de-Camp, Lt. Col. J. D. Papineau hon

Executive

Prime Minister and President of the Council & Attorney-General, Hon. L. A. Taschereau

Lands and Forests, Hon. Honoré Mercier \$12,000

Provincial Treasurer, Hon. Jacob Nicol, K.C. 6,000

Agriculture, Hon. J. E. Caion 6,000

Provincial Secretary, Hon. A. David 6,000

Public Works and Labour, Hon. A. Galt-peault 6,000

Colonization, Mines, and Fisheries, Hon. J. E. Perrault 6,000

Roads, Hon. J. L. Peirou 6,000

Without Portfolio, Hon. E. Moreau, Hon. M. Madden, Hon. J. Lapierre

The Legislature

Speaker, Legislative Council, A. Fugeon \$4,000

Speaker, Legislative Assembly, Hon. J. N. Bouché 4,000

The Judiciary

King's Bench—**Chief Justice**, Hon. Eug. Lafontaine \$10,000

Provincial Judges, Hons. R. A. E. Green-shields, Ed. Guérin, C. E. Dorion, A. R. Hall, S. Letourneau, E. E. Howard, J. M. Telher, V. Allard, Alphonse Bernier, A. Rivard each 9,000

Superior Court—

Chief Justice, Hon. Sir F. X. Lemieux, LL.D., born 1851 \$10,000

Just. of Peace, Hon. J. E. Martin 9,000

Do (acting), Hon. J. S. Aichbald 9,000

Provincial Judges, Hons. M. F. Hackett, A. A. Bruneau, D. Monet, L. P. Demers, P. G. Martineau, W. Mercier, A. M. Tessier, C. Archer, W. A. Weir, C. Pouliot, B. Letellier, L. A. Panneton, A. Globensky, C. Lane, Pierre d'Anteuil, L. J. H. Loran-ge, E. J. Flynn, A. E. Delorimier, L. Coderre, C. A. Duclos, F. S. MacLennan, G. F. Gibson, L. N. Du Plessis, A. Sevigny, E. F. Survever, P. Cousineau, L. J. A. Déry, J. Demers, C. A. Wilson, Gonsalve Desautels, Arthur Tahan, L. R. Roy, I. N. Belleau, A. Stein each \$9,000

Circuit Court—

Judges, Hons. C. Le Beuf, John D. Purcell, A. Dorion, J. B. Archambault

Court of Sessions of the Peace—

Montreal—Hons. J. L. DeCaie (Chief Justice), F. T. Enright, Gustave Penault, Amédée Monet, Victor Cusson

Quebec—Hons. Art. Lachance (Chief Justice), P. A. Choquette

Agent-General for Quebec in England (vacant)

Asst. do., Capt. C. H. Veige, 38 Kingsway, W.C.2

Finance—The annual revenue for the year 1923-4 was \$23,170,733 and the actual expenditure \$21,867,293. The Debt is stated at \$56,638,801.

Production and Industry—The total value of manufactured products in 1922 was \$696,143,225 (1923, \$899,900,253), the principal manufacturing centres being (1922) Montreal (\$406,846,230),

Quebec (\$28,470,352), Three Rivers (\$19,315,504), Shawinigan Falls (\$11,541,506), Sherbrooke (\$11,236,117) and Hull (\$10,642,332). The lumber industry is still by far the most important trade, but the settled portion of the country has been too much denuded of wood, and the provincial Government has found it necessary to organise an effective service of rangers to prevent the destruction of trees by forest fires. The forest lands cover an area of over 130,000,000 acres, of which 45,000,000 are under licence to cut timber. The wood pulp industry is assuming great importance, several large factories have recently been built, and the value of the output, which was only \$2,516,683 at the census of 1911, was, in 1923, \$58,566,143. Improved farms may often be obtained in the eastern townships, largely occupied by settlers from Great Britain, at from £4 to £6 per acre, including dwelling-house, outbuildings, and fencing, while unimproved lands may be bought from the Government at 60 cents per acre, and the purchase-money paid in five instalments. The area of land subdivided for the purpose of settlement unsold on June 30, 1924, was about 7,000,000 acres. In 1923 the value of dairy industry products was cheese 46,770,556 lb (valued at \$8,768,782), and butter 60,179,616 lb (valued at \$20,741,454). In 1923 there were in the Province 341,651 horses, 1,781,751 cattle, 822,997 sheep, 797,726 swine, and 6,482,256 poultry.

Education—The Superintendent of Instruction, assisted by a Council of 44 members, is invested with the central control of Education. The schools, both Roman Catholic and Protestant, are maintained partly by local taxation and partly by Government grants. There were, in 1922, 7,805 schools with 570,430 scholars, including the high and superior schools and 14 normal schools supported by the State. There are also Schools of Agriculture, Commercial and Classical Studies, and four Universities—two Protestant (McGill University Montreal, and Bishop's College, Lennoxville), and two Roman Catholic (Laval University, Quebec, and Montreal University).

Principal Cities—CAPITAL, QUEBEC (population, 95,193), historic city visited annually by thousands of tourists, and one of the great seaport towns of Canada, and Montreal (population, 618,506), the commercial metropolis, and the principal centre of the Canadian grain export trade, situate at the confluence of the Ottawa and St. Lawrence Rivers. Ocean-going steamers ascend the St. Lawrence as far as Montreal. Other important cities are Hull (24,117), Sherbrooke (23,515), Trois Rivières (22,367), Verdun (25,001).

NOVA SCOTIA

Area and Population—NOVA SCOTIA is a peninsula between 43° 25'–47° N lat and 59° 40'–66° 25' W long, and is connected with New Brunswick by a low fertile isthmus about thirteen miles wide. It comprises an area (with Cape Breton Island) of 21,428 square miles (360 miles of which consists of lakes, rivers and inlets of the sea) with a total population, at the Census of 1921 of 523,837, an increase since the last census of 31,499 persons.

Government—The Government is administered by a Lieutenant-Governor, aided by an Executive Council, a Legislative Council of 21 members, and a Legislative Assembly of 43 members.

Lieut.-Governor, Hon. MacCallum Grant. \$9,000

Executive.

Premier and Minister of Public Works and Mines, Hon E H Armstrong	\$7,000

Judge, Vice-Admiralty Court, Hon H Mellish	1,000

Agent-General for Nova Scotia in England,
John Howard, 33 St James Square,
S W 1 8,000

Agriculture and Live Stock—About 10,000,000 acres are fit for tillage, and the soil is of good average fertility. The climate is delightful, the winter being less severe than in most of the other parts of the Dominion. In 1922 there were about 5,000,000 acres of land occupied, of which about 2,000,000 acres were under crop, 3,000,000 acres in pasture and partially wooded lands, and about 70,000 acres in gardens and orchards. Fruit is extensively cultivated, and Nova Scotia apples yielded a crop of 1,700,000 barrels in 1922, the principal fruit belt being the Annapolis Valley. The products of the farms in 1922 were valued at \$26,045,100. Improved farms of 100 to 250 acres, with house and buildings, may be obtained at from £100 to £1,000, whilst the Government offer uncleared Crown lands at \$80 per 100 acres, or 80 cents per acre for any additional quantity. Through the Land Settlement Act, the Government gives practical assistance to skilled farmers. There is a Government agricultural college and experimental farm at Truro for men and women, and a well-equipped technical college at Halifax. In 1922 the live stock included 271,048 cattle, 258,537 sheep, and 851,885 poultry.

Manufactures.—In 1922 the total value of the manufactures was \$66,542,692. The capital invested was \$27,799,273, and 13,320 hands were employed, the principal industrial centres being Dartmouth (\$21,021,421), Sydney (\$12,497,273) and Halifax (\$9,120,745).

Fisheries—The total value of the fish marketed in 1922 was \$11,780,000, and the number of persons employed was about 25,000.

Minerals—The mineral product in 1922 was valued at \$30,534,176, the coal deposits are extensive and are estimated to last for 200 years. 6,179,690 gross tons were produced in 1922. Iron ores are plentiful, and extensive manufactures of iron and steel are carried on at Sydney and Sydney Mines, Cape Breton.

Principal Cities.—CAPITAL, HALIFAX (population 58,372), one of the terminals of the Inter-colonial Railway Branch of the Canadian National Railways, with a magnificent harbour, is one of the principal winter ports of Canada, and the entrepot of a large trade with the West Indies and South America. A shipyard for the building of large ocean-going steamers is one of the leading industries. Other towns are Sydney (22,545), Glace Bay (17,007).

CAPE BRETON ISLAND

Cape Breton Island, formerly a distinct Colony, now incorporated with Nova Scotia, contains an area of 3,975 square miles, with a population of 131,495 inhabitants. The chief city, Sydney (pop 22,545), on the eastern coast, has valuable collieries in the neighbourhood and is the site of the largest steel works in Canada. The plate mill recently erected will supply the steel plates required by the various steel shipbuilding plants of Canada. The Canadian National Railway connects the island with the mainland.

NEW BRUNSWICK

Area and Population—NEW BRUNSWICK is situated between 45°—48° N lat and 63° 47'—69° W long., and comprises an area of 27,985 square miles, with a population in 1921 of 387,876, an increase since the last census of 35,987 persons. It was first colonised by British subjects in 1761, and in 1783 by the inhabitants of New England, who were dispossessed of their property in consequence of their loyalty to the British Crown.

Government—The Government is administered by a Lieutenant-Governor, assisted by an Executive Council, and a Legislative Assembly of 48 members elected by the people.

Lieutenant-Governor, Hon William F Todd, LL D	\$9,000

William B. Chandler each 9,000

Court of Vice-Admiralty
Judge, Hon. Sir J. Douglas Hazen \$1,000
Court of Divorce and Matrimonial Causes
Judge, Hon. O. S. Crockett 500

Finance—The ordinary receipts for 1923 were \$3,445,878, and the ordinary expenditure \$3,708,971

Agriculture and Live Stock—The total land area is 18,663,000 acres, of which 909,945 acres were under field crops in 1923. The total value of the field crops in 1923 was \$20,864,300. The live stock (1923) included 212,901 cattle, 157,808 sheep, 66,182 pigs, and 50,644 horses. Fine grains of land are offered, and settlement encouraged. Improved farms are obtainable at reasonable rates. The fisheries include salmon, cod, mackerel, herring, and shad, value of the fisheries (1923) \$4,548,535. In 1923 the cheese factories in operation produced 825,369 lb, value \$161,497, and the creameries 1,231,471 lb of butter (\$456,557)

Manufactures—The value of the total output of manufactured goods in 1922 was \$64,614,137, the principal manufacturing centre being St. John (\$27,027,086). The chief industrial pursuits arise from the produce of the forests and the fisheries. Natural gas has been found in immense quantities in Albert County, and the south-eastern section of the Province is remarkably rich in oil shales. Coal is found, also silver, lead, antimony, copper, iron, manganese, and other valuable minerals in considerable quantities.

Principal Cities—CAPITAL, FREDERICTON, population (1921), 8,114. St. John (pop. 47,166) is one of the principal winter ports of Canada, and is connected by C. P. R. and Intercolonial Railways with Montreal, Moncton (17,488)

MANITOBA

Area and Population—Manitoba, formerly the Red River Settlement, is situated in about the centre of the continent, between 49°—60° N. lat. and 95°—101° W. long., with a total area of 251,822 square miles and a population (1921) (census) of 610,118, an increase since the last census of 148,724, or 32.23 per cent.

Government—The Government is administered by a Lieutenant-Governor, assisted by an Executive Council of 6 Ministers, who are members of the Legislative Assembly of 55 members, each in receipt of an annual sessional allowance of \$1,500.

Lieut.-Governor, Hon. Sir James A. M. Aikins (1 Aug., 1926) \$9,000

Executive

Prime Minister, President of the Council, and Minister of Agriculture and Immigration, Hon. John Bracken \$6,400

Provincial Treasurer and Minister of Telephones, Hon. F. M. Black 6,600

Attorney-General, Hon. R. W. Craig 5,400

Public Works, Hon. W. R. Clubb 5,400

Education, Hon. Charles Cannon 5,400

Municipal and Public Utilities Commissioner, Hon. D. L. McLeod 5,400
Provincial Secretary, and Lands and Railways Commissioners, Hon. Albert Proulx 5,400

The Judicature

Court of Appeal—
Chief Justice, Hon. W. E. Perdue \$10,000
Justice Judges, Hon. C. P. Fullerton,
J. E. Pendergast, R. M. Dennistoun,
C. B. E., W. H. Trueman each 9,000

King's Bench—
Chief Justice, Hon. T. G. Mathers 10,000
Justice Judges, Hon. D. A. Macdonald,
A. C. Galt, J. P. Curran, A. K. Dysart,
J. E. Adamson each 9,000

Finance—The revenues of the provincial government for the year ended Aug. 31, 1923, were \$9,711,243 and the expenditures \$10,672,312, debt \$71,619,254.

Agriculture and Live Stock—The total land area in Manitoba is 148,432,640 acres of which 6,719,522 acres were cultivated in 1923. The soil is fertile and productive, immigration is invited and encouraged and liberal grants of land are made to settlers. The value of the crops in 1923 was \$60,706,700. The live stock included 368,407 horses, 791,711 cattle, 93,162 sheep, 291,236 swine, 3,289,051 poultry. The dairy output was 250,000 lb of cheese, 10,770,150 lb of creamery butter (\$3,648,251), and 9,095,318 lb of dairy butter (\$2,000,970), the total dairy products being valued at \$12,497,944, and the poultry products at \$1,045,700, the honey production was 3,041,712 lb, worth \$456,256, an average of 156 lb per hive.

Manufactures—The total value of the manufactured products in 1922 was \$94,417,608. The capital invested in manufacturing enterprises amounted to \$84,562,378 and the hands employed 13,789. The chief industrial centres being Winnipeg (\$67,804,075), St. Boniface (\$11,394,288), Brandon (\$4,005,610), and Portage la Prairie (\$2,403,651). In 1923 the Province had 4,585 miles of railway.

Principal Cities—CAPITAL, WINNIPEG, population (1921), 179,087, the third largest city in Canada. Brandon (15,397), St. Boniface (12,821), Portage la Prairie (6,766).

BRITISH COLUMBIA

Area and Population—British Columbia has a total area estimated at 355,855 square miles, with a population (Census of 1921) of 524,522, the census of 1911 gave 392,480 (251,619 males and 140,861 females), an increase since the former Census of 213,823.

Government—The Government consists of a Lieutenant-Governor and an Executive Council, together with a Legislative Assembly of 48 members.

Lieut.-Governor, Hon. W. C. Nichol \$9,000
Private Sec., H. J. S. Muskeet 2,400

Executive

Premier & President of Council, Hon. John Oliver \$9,000

Minister of Education, Finance and Industries, Hon. J. D. MacLean, M. D. 7,500

Minister of Agriculture, Hon. E. D. Barrow 7,500

donald each 9,000

Local Judge in Admiralty, Hon Archer
Martin 1,000

Agent-General in London, W A McAdam (acting),
British Columbia House, 1 Regent Street, S W 1

Finances—The ordinary receipts of the provincial government in 1923 were \$19,618,904, and the expenditure \$20,799,467

Agriculture and Live Stock—The field crops of British Columbia were valued in 1923 at \$18,912,000, which was a falling off from previous years. The fruit crop in 1922, however, was the heaviest on record. The live stock (1923) included 54,017 horses, 264,144 cattle, 53,336 sheep, 42,845 swine and 2,165,516 poultry. The butter output totalled 2,961,154 lb., valued at \$1,250,485, and the cheese 290,086 lb., worth \$65,855

Production and Industry—The total value of the output of manufactures in 1922 was \$148,996,468, the principal manufacturing centres being Vancouver (\$63,172,964), Victoria (\$8,777,622), New Westminster (\$6,561,061) and Prince Rupert (\$2,093,713). The yield of the other industries in 1921 was minerals, \$38,045,000, lumber, \$54,394,000, fisheries (1920), \$22,329,161. There are extensive coal measures, and a vast and compact area of merchantable timber, the mines have produced over \$80,722,782, and are still in the early stages of development. Only one-tenth of the available agricultural and fruit lands is at present settled, and there are miles of pulpwood as yet unexploited. There are undeveloped deposits of magnetite and hematite iron. The climate is healthful and temperate. The principal exports are fish, coal, gold, silver, minerals and timber.

Principal Cities—CAPITAL, VICTORIA. Population 1921, 38,727. Other centres are Vancouver (117,217), New Westminster (14,495), Nanaimo (9,088).

PRINCE EDWARD ISLAND.

Area and Population—Prince Edward Island lies in the southern part of the Gulf of St. Lawrence, between 46°-47° N lat and 62°-64° 30' W long. It is about 130 miles in length, and from 4 to 34 miles in breadth, its area is 2,184 square miles (rather larger than that of the English county of Norfolk), and its population (Census, 1921) 88,615 (47,069 males and 46,659 females in 1911), a decrease since the last census of 5,113 persons. The island was first settled by the French, who held it for many years as a fishing station. The British took it from them

in 1745, but afterwards restored it. They seized it again, however, during the Seven Years' War (1756-1763) and compelled the greater part of the French inhabitants to leave, and from that time it has remained British.

Government—The Government is vested in a Lieut.-Governor and an Executive Council, and a Legislative Assembly of 30 members elected by the people, 15 as Councillors (with a property qualification) and 15 as Assembly-men (on manhood suffrage).

Lieut.-Governor (1924-1929) Hon Frank Richard Heartz ... \$7,000

Executive

Premier and Attorney-Gen., Hon James D Stewart ... \$4,000

Prov. Sec and Treas and Minister of Agriculture, Hon John H. Aves ... 2,000

Minister of Public Works, Hon John A. McDonald ... 2,000

Without Portfolio, Hons J A McNeill, A P Frowse, W J McMillan, Leonard Wood, Murdoch Kennedy, A F Arsenault

Speaker, Legislative Assembly, L. L. Jenkins

Departmental Offices

Provincial Auditor, John Anderson ... \$1,800

Sup. of Education, H. H. Shaw ... 2,000

Assist. Sec and Treas and Clerk of Elec. Council, Arthur Newberry, I.S.O. ... 2,200

Sec. Public Works, L. B. McMillan ... 1,650

Registrar of Deeds and Commissioner of Public Lands, Francis Koughan ... 1,200

The Judiciary

Chief Justice, Hon John A. Matheson ... \$10,000

Judge of Vice-Admiralty Court, William S Stewart

Assistant Judges, Hon Francis L. Hazard, Hon Aubin E. Arsenault each 9,000

Agriculture and Live Stock—The value of the field crops in 1923 was estimated at \$10,174,000. The soil consists for the most part of a rich red loam, uniform in character and peculiarly suited to the growth of grasses. Nearly the whole of the land is now cleared, and improved farms can be bought at from \$20 to \$60 an acre (including buildings), according to condition and locality. The breeding of silver black foxes in captivity is an established and profitable industry. There are about 450 fox ranches, conducted by incorporated companies and private partnerships or individuals. The live stock included 32,314 horses, 130,578 cattle, 83,933 sheep, 42,011 pigs and 827,450 poultry.

Manufactures—The total value of the manufactures in 1923 was \$4,405,037, against \$2,326,708 in 1900.

Principal Cities—CAPITAL, CHARLOTTETOWN (Pop. 12,347), on the shore of Hillsborough Bay, which forms a good harbour. Other towns are Summerside (3,230), Souris (1,100), and Georgetown (882).

ALBERTA

Area and Population—The Province of Alberta has an estimated area of 255,285 square miles, including about 2,500 square miles of water, with a population (1921) of 588,454, an increase since the 1911 census of 214,159.

Government—The Government is vested in a Lieutenant-Governor and Legislative Assembly composed of 60 members, elected for five years,

representing 51 electoral districts into which the Province is divided. The Executive Council consists of eight members

Lieut.-Gov., Hon. R. G. Blett, LL.D. (1915) \$9,000

Executive

Premier and Minister of Municipal Affairs, Hon. Herbert Greenfield \$8,500
 Attorney-General and Provincial Secretary, Hon. J. E. Brownlee .. 6,000
 Public Works, Hon. Alex. Ross 6,000
 Provincial Treasurer, Hon. R. G. Reid 6,000
 Education, Hon. P. E. Baker 6,000
 Agriculture and Health, Hon. George Hoadley 6,000
 Railways and Telephone, Hon. V. Winfield Smith 6,000
 Without Portfolio, Hon. Miss Irene Pailby 4,800
 Clerk of the Executive Council, J. D. Hunt

Speakers of the Legislative Assembly, Hon. O. L. Macpherson \$2,500

The Judiciary

Chief Justice, Hon. Horace Harvey \$10,000
 Puisne Judges, Hon. C. A. Stuart, N. Du B. D. Beck, W. C. Simmons, W. L. Walsh, J. D. Hyndman, W. C. Ives, M. S. McCarthy, T. M. Tweedie, A. H. Clarke .. each 9,000

Agriculture and Live Stock—There is a succession of wheatfields, homesteads, villages, and towns, and settlers from the U.S., Eastern Canada, and the British Isles arrive in annually increasing numbers. The total area in crops, 1923, was 12,000,000 acres. The Department of Agriculture in the Provincial Government has established nine Demonstration Farms at different points, and on six of these are free schools of agriculture. Free homesteads are available for thousands of settlers in desirable localities. The value of the field crops in 1923 was estimated at \$150,397,067, wheat, \$508,722,304, oats, \$32,193,644, hay and clover, \$2,427,258, grain hay, \$12,591,972, potatoes, \$8,533,144, barley, \$5,615,842. The live stock included 844,519 horses, 411,446 milch cows and 1,117,751 other cattle, 335,243 sheep, and 706,753 swine. The creamery butter made totalled 17,750,000 lb., valued at \$5,724,335, and cheese 1,850,000 lb., valued at \$356,125.

Manufactures—The total value of the output in 1922 was \$51,509,887, against \$1,313,375 in 1900, the principal manufacturing centres being Calgary (\$17,833,762) and Edmonton (\$17,386,618). CAPITAL, EDMONTON Population, 58,821. Calgary (63,300) Lethbridge, Medicine Hat, Red Deer, and Westaskin are the principal cities of the Province.

SASKATCHEWAN

Area and Population—The Province of Saskatchewan lies between Manitoba on the east and Alberta on the west, and has an area of 251,700 square miles, the population at the Census of 1921 being 757,510, an increase of 109,675 persons since the Census of 1911.

Government—The Government is vested in the Lieutenant-Governor, aided and advised by an Executive Council of seven members. The Province is divided into 66 electoral districts. Lieutenant-Governor, Hon. H. W. Newlands, K.C. \$9,000

Premier, President of Council, Provincial Treasurer, and Minister of Railways, Hon. C. A. Dunning \$7,500

Minister of Agriculture and Municipal Affairs, Hon. C. M. Hamilton 6,000
 Public Works and Telephones, Hon. A. P. McNab 6,000

Provincial Secretary and Public Health, Hon. J. M. Uhrich 6,000

Attorney-General and Minister in Charge of Bureau of Child Protection, Hon. J. A. Cross 6,000

Minister of Highways and Minister in Charge of Bureau of Labour and Industries, Hon. J. G. Gaidner 6,000

Minister of Education, Bureau of Publications, and King's Printer, Hon. S. J. Latta 6,000

Speaker of the Legislative Assembly, Hon. George A. Scott

The Judiciary

Chief Justice, Court of Appeal, Hon. Sir Frederick W. G. Haultain, born 1857 \$10,000

Puisne Judges, Hon. J. H. Lamont, W. F. A. Turgeon, J. McKay and W. M. Martin .. each 9,000

Ch. Justice, King's Bench, Hon. J. T. Brown 10,000

Puisne Judges, Hon. H. Y. MacDonald, H. V. Bigelow, J. T. L. Embury, C.M.G., G. E. Taylor, D. MacLean and P. E. McKenzie .. each 9,000

Agriculture and Live Stock—Saskatchewan is the largest wheat producing province of the Dominion, and one of the most productive grain areas in the world. In 1923 wheat yield totalled 252,000,000 bushels. The approximate value of agricultural products in 1923 was \$448,076,000, grain and field crops, \$249,213,000, live stock, \$163,500,000. The live stock included 1,245,875 horses and mules, 1,535,087 cattle, 137,240 sheep, and 699,867 swine.

Industries—The capital invested in manufacturing enterprises in 1922 was \$30,268,144, and the value of the manufactured products \$38,672,828, the principal industrial centres being Regina (\$14,228,413), Moose Jaw (\$8,756,133), and Saskatoon (\$7,272,562).

CAPITAL, REGINA. Population (1921), 24,430. Other large centres are Saskatoon (25,740), Moose Jaw (19,300), and Prince Albert (7,558).

TERRITORIES.

THE YUKON TERRITORY was constituted a separate political unit in 1898. It is governed by a Gold Commissioner and a Territorial Council of three elected members. The area of the Territory is 207,076 square miles. The population in 1921 was 4,157 (2,819 males and 1,338 females). Mining is the chief industry. The gold output for the year ending March 31, 1923, was \$1,042,536.

Gold Commissioner, Geo. P. Mackenzie \$6,500
 Legal Adviser, etc., John Black
 Disbursing Officer, G. A. Jeckell
 Judge, Hon. C. D. Macaulay

THE NORTH-WEST TERRITORIES, as now constituted, have been divided into 3 Provincial Districts, Mackenzie, Keewatin, and Franklin. They are governed by a Commissioner and 6 Councillors appointed by the Governor in Council. The area of the Territories is 1,242,224 square miles. Population in 1921, 7,988.

Commissioner, N. W. T., W. W. Cory, C.M.G.
 Deputy do., R. A. Gibson
 Public Administrator (Mackenzie), H. Milton Martin (Edmonton).

1923	7,046	11,034	18,080	3,646	18,818	22,464	1,357

PHYSIOGRAPHY.

The Island of Newfoundland is situated between $46^{\circ} 37' - 51^{\circ} 37' N.$ latitude and $52^{\circ} 41' - 59^{\circ} 30' W.$ longitude, on the north-east side of the Gulf of St. Lawrence, and is separated from the North American Continent by the Straits of Belle Isle. The island is about 317 miles long and 316 miles broad, and is triangular in shape, with Cape Bauld (N.), Cape Race (S.E.), and Cape Ray (S.W.) at the angles. The coast is extremely rugged, and the coastal regions are mountainous, the north and east being cold during winter and early spring owing to the quantities of ice brought down from the Greenland seas. The interior is undulating and is covered with fells (round hills) interspersed with lakes, rivers, and swamps, but containing many fertile valleys, where the climate is favourable to agriculture, and a great wealth of forests, mainly of spruce, fir, pine, and birch. The climate is salubrious, and the people are a strong, brave, healthy, hardy, industrious race. The thermometer seldom falls below zero in winter, and ranges in the shade in summer from 70° to 80° .

GOVERNMENT

Newfoundland, the oldest English colony, was discovered by John Cabot on June 24, 1497, the first land seen was hailed as *Prima Vista*—the present Cape Bonavista. The island was afterwards visited (1500) by the Portuguese navigator Gaspar de Cortereal, and soon became the centre of an extensive fishing industry, with settlements of Portuguese, Basque, and French. In August, 1583, the island was formally occupied by Sir Humphrey Gilbert, in the name of Queen Elizabeth, and by the Treaty of Utrecht (1713) the whole island was accorded to be British. A Governor was first appointed in 1728, and in 1855 "Responsible Government" was accorded to the island.

The executive is entrusted to a Governor, appointed by the Crown, aided by an Executive Council, with a Legislature of two houses. The *Legislative Council* is appointed by the Crown and consists of 24 members, the *House of Assembly* consists of 36 members, elected by the people, every male British subject aged 21 being entitled to the franchise.

GOVERNOR

Governor, His Excellency Sir William Lamond Allardyce, K.C.M.G. (1922) . . . \$15,000
 Private Sec., Capt A. G. S. Goodfellow
 Aide-de-Camp, Major A. R. Moncreiff, M.C.

THE MINISTRY (June 9, 1924)

Premier & Minister of Education, Hon Walter S. Monroe \$4,000
 Colonial Secretary, Hon J. R. Bennett 4,000
 Justice, Hon W. J. Higgins, K.C.
 Finance & Customs, Hon Sir J. C. Crosbie, K.B.E. 4,000
 Posts & Telegraphs, Hon W. J. Woodford 4,000
 Without Portfolio, Hon A. B. Moirne, K.C., M. S. Sullivan, Rd. Cramm, F. G. Bradley, Jos J. Long
 Not in the Cabinet
 Minister of Agriculture & Mines, W. J. Walsh \$4,000
 Minister of Public Works, C. E. Russell, J.P. 4,000
 Minister of Marine & Fisheries, W. C. Winsor . . . 4,000

LEGISLATURE

The *Legislative Council* consists of not more than 24 members, appointed for life, the *House of Assembly* of 36 members, elected by the people for 4 years.
 President of the *Legislative Council*, Hon James D. Ryan \$500
 Speaker of the *House of Assembly*, Hon. Cyril J. Fox 750

JUDICATURE.

Chief Justice, Hon Sir W H Horwood \$8,000
Assist Judges, Hon G M Johnson, Hon
 F M Kent each 7,000
Registrar, Rt Hon Sir W F Lloyd, P C,
 K C M G, D C L, K C

DEFENCE

Newfoundland contributed 11,922 men to the fighting forces of the Empire during the War, in addition to 3,000 enlisted in Canadian and other forces

EDUCATION

Education is denominational, and is assisted by Government Primary and Secondary schools were attended in 1922 by 55,152 pupils The Government grants in 1922 amounted to \$814,495

RELIGION

At the Census of 1911 and 1921 the following statistics were obtained —

Religion	1911	1921
Roman Catholics	81,177	86,576
Church of England	78,616	84,665
Methodists	68,045	74,305
Presbyterians	1,876	1,876
Salvation Army	10,121	13,023
Various	2,767	2,688

FINANCE

The revenue, expenditure and debt of Newfoundland for the six years ended June 30, 1921, are stated as under (\$1 at par = 4s 2d or \$4 86 = £1 sterling) —

Year	Revenue	Expenditure	Public Debt
	\$	\$	\$
1913-14	3,920,176	3,920,178	30,450,765
1917-18	5,528,540	6,197,876	35,445,785
1918-19	5,535,725	6,766,389	42,032,786
1919-20	10,597,562	9,247,007	43,033,036
1920-21	8,438,040	10,951,489	49,033,067
1921-22	8,269,681	9,127,543	55,030,027
1922-23	8,876,773	9,552,302	54,957,765

EXTERNAL TRADE.

The external trade of the island for the five years ended June 30, 1922, is stated as follows —

Year	Imports	Exports	Total
	\$	\$	\$
1913-14	15,193,726	15,134,543	30,328,269
1919-20	40,533,388	34,865,438	75,398,826
1920-21	28,909,727	22,441,267	51,350,994
1921-22	18,209,853	19,478,417	37,688,270
1922-23	19,321,824	20,956,863	40,278,687

The trade was chiefly distributed in 1922-23 as under —

Country	Imports from	Exports to
United Kingdom	\$3,130,605	\$6,961,491
United States	7,001,069	1,859,647
Canada	8,251,715	1,679,678
Portugal	60,222	2,671,177
Spain	129,889	2,832,451

The principal imports are flour, textiles, coal, hardware, and provisions, the principal exports are codfish, cod and seal oil, pulp and paper, herrings, seal-skins, tinned lobsters, iron pyrites, and other minerals, the total value of the fishery products in 1922-23 was upwards of \$12,374,169

PRODUCTION AND INDUSTRY.

The inhabitants are chiefly located on the coast-line of the shore and bays, nearly 10,000 being engaged in fishing—for cod in summer, a large proportion of which is exported to South

America—and seal fishing in winter and spring Agriculture, mining, and lumbering are also engaging attention and affording means of employment, while large pulp and paper mills have been erected The larger portion of the interior is practically in a state of nature, but the railways have opened up large tracts of rich agricultural, mineral, and timber lands hitherto of small value. A valuable discovery of copper has been made at Little Bay, about 200 miles from St John's

COMMUNICATIONS

Railways—There were 905 miles of railway open in 1923 and 47 miles of private line The trans-insular line runs to Port-aux-Basques, via Exploits River and Bay of Islands, with branch connections to Placentia, Bonavista, Bay de Verde, Hearts Content, Trepassey, the principal settlements in Conception Bay, and to Lewisporte (in Notre Dame Bay) Communication between various points on the coast and Sydney, C B, is maintained by a fleet of 14 first-class steamers

Posts and Telegraphs—There were 850 post-offices in 1923 (130 of which were also telegraph offices) and 89 telegraph offices additional, dealing with 4,000,000 letters and post-cards, 3,600,000 newspapers and books, and 273,800 parcels 250 telephone stations are open, mostly in post offices. There are 4,600 miles of telegraph line and 1,000 miles of telephone wire Postal and telegraph revenue, £81,356, expenditure, £281,163

Shipping—On Dec 31, 1923, the Mercantile Marine of Newfoundland consisted of 3,238 sailing vessels of 143,340 tons, and 148 steam vessels of 18,480 tons In 1922-23 the tonnage of vessels entered and cleared at Newfoundland ports was 2,294,080 tons, of which 1,342,595 tons were British

TOWNS

The CAPITAL, ST JOHN'S (population 38,264), contains two cathedrals, several banks, and numerous public buildings Other towns are Harbour Grace (3,825), Bonavista (4,052), Carbonear (3,320), and Twillingate (3,217)

HIGH COMMISSIONER

High Commissioner in London, Capt Victor Gordon, 58 Victoria Street, S W 1

LABRADOR.

Labrador, a dependency of Newfoundland, forms the most easterly part of the North American continent, and extends from Blanc Sablon, in the Straits of Belle Isle, on the south, to Cape Chidley, at the entrance to Hudson's Straits (or to Cape Wolstenholme), on the north, the boundaries between Quebec and Labrador being a matter of keen controversy which is expected to come up for settlement before the Judicial Committee of the Privy Council Labrador possesses valuable cod, herring, trout, and salmon fisheries One of the grandest spectacles in the world is provided by the Great Falls of Labrador, on the Hamilton River The inhabitants of this 850 miles of coastal America are mainly Eskimos, engaged in fishing and hunting. There are no towns, but there are Moravian Mission stations at Makkovik, Hopedale, Nain, Okak, Hebron, and Killisnoak Pulp and paper mills have been founded at Sandwich Bay and Hamilton Inlet to deal with the almost inexhaustible supply of timber

PHYSIOGRAPHY.

The Australian Commonwealth includes the Continent of Australia and the Island of Tasmania.

Australia (mainland) is probably the oldest of all land surfaces in either hemisphere, and may be regarded as the largest island or the smallest of the Continents, being surrounded by the following waters — *North*, the Timor and Arafura Seas and Torres Strait, *East*, Pacific Ocean, *South*, Bass Strait (which separates Tasmania from the Continent) and Southern Ocean, and *West*, Indian Ocean. The total area of the Continent is 2,948,366 English square miles, the island of Tasmania having an area of 26,215 square miles, and making a total area for the States and Territories of 2,974,581 square miles. The coast-line of Australia is approximately 12,210 miles, and the geographical position of the Continent is between $10^{\circ} 41' - 39^{\circ} 8'$ South latitude and $113^{\circ} 9' - 153^{\circ} 39'$ East longitude; the greatest length East to West is 2,400 miles, and from North to South 1,971 miles. Its nearest distance to England is about 11,000 miles.

From a physical standpoint the continent of Australia is divisible into an eastern and a western area, the former containing a regular coast-line with a good harbourage, roadsteads, rivers, and inland waterways, and a greater development of fauna and flora, the latter a broken coast-line with estuaries rather than rivers, and but little inland water communication. The whole continent is, roughly speaking, a vast, irregular, and undulating plateau, part of which is below the level of the sea, surrounded by a mountainous coast-line, with frequent intervals of low and sandy shore on the north, west and south. The Great Barrier Reef extends parallel with the East coast for 1,200 miles, at a distance of about 60 miles from the mainland. A large part of the interior, particularly in the west, consists of sandy and stony desert covered with spinifex, and containing numerous salt-marshes, though reaches of grass-land occur here and there. The geological formation of Australia is remarkable for its simplicity and regularity, the *strike* of the rocks is, with a single exception, coincident with the direction of the mountain-chains, from N to S, and the tertiary formation to be found in the N, S, and W. develops in the S.E. into a gigantic tertiary plain, watered by the Darling and the Murray Rivers. Nearly all round the coast, however, and in eastern and south-eastern Australia, stretching far inland from the coastal range, is a rich grazing country, admirably adapted to the rearing of sheep. The most extensive mountain system takes its rise near the S.E. point, and includes a number of ranges known by different names in different places, none of them being of any great height. The principal rivers are the Murray, with its tributaries, the Murrumbidgee, Lachlan, and Darling, in the S.E. part of the island, which fall into the sea on the south coast; on the east coast, the Hawkesbury, Hunter, Clarence, Richmond, Brisbane, Mary, Burnett, Fitzroy, and Burdekin, on the west, the Swan, Murchison, Gascoyne, Ashburton, Fortescue, De Grey, and Fitzroy, on the north, the Drysdale, Ord, Victoria, and Daly, and the Roper, the Flinders, and Mitchell, which debouch into the Gulf of Carpentaria. Lakes are numerous, but nearly all are salt, the scarcity of the natural water supply has been, however, mitigated by successful borings. Minerals comprise gold, silver, copper, iron, and coal in large quantities, antimony, mercury, tin, zinc, &c.

Climate — The seasons commence about March 21 (Autumn), June 21 (Winter), Sept. 22 (Spring), and Dec. 22 (Summer). The climate is extremely dry, but, except in the tropical coast-land of the north, the continent is everywhere highly beneficial to Europeans, the range of temperature being smaller than that of other countries similarly situated.

GOVERNMENT.

The Government is that of a Federal Commonwealth within the British Empire, the executive power being vested in the Sovereign (through the Governor-General), assisted by a Federal Executive Council of nine Ministers of State and such honorary Ministers who may be appointed thereto. The Commonwealth was constituted by an Act of the Imperial Parliament dated July 9, 1900, and was inaugurated Jan. 1, 1901. Under the Constitution the Federal Government has acquired and may acquire certain defined powers as surrendered by the States, residuary legislative power remaining with the States. Trade and customs passed under Federal control immediately on the establishment of the Commonwealth, posts, telegraphs and telephones, naval and military defence, lighthouses and quarantine on proclaimed dates. The Commonwealth also now controls such matters as Old Age Pensions, Patents and Copyrights, Naturalization, Navigation, &c. A complete list of the matters regarding which the Commonwealth may legislate is given in Chapter I. (Part V.) of the Constitution. The right of a State to legislate is not abrogated except in connexion with matters exclusively under Commonwealth control, but where a State law is inconsistent with a law of the Commonwealth the latter prevails to the extent of the inconsistency.

GOVERNOR-GENERAL
Governor-General, His Excellency the Rt
Hon Lord Forster, P.C., C.M.G. (1920) £10,000
Military Secretary, Hon C. H. Mul-
holland, C.B.E., D.S.O.
Aides-de-Camp, Capt G Pitt-Rivers, Capt
A Lawrence; Lieut W J Seymour, O.B.E.
Official Secretary, J. H. Stirling, O.B.E.
Executive Council (Feb. 9, 1923)
*Prime Minister and Minister for External
Affairs*, Rt Hon Stanley Melbourne
Bruce, P.C., M.C. £2,100
Treasurer, Hon E. C. G. Page 1,650
Minister for Home and Territories, Rt
Hon G. F. Pearce, P.C. 1,650

Bureau*, Stirling Taylor

Works and Railways —
Secretary, W. D. Bingle, I.S.O. £1,140
Director-General of Works, Col P. T. Owen
(and allowance £150) 1,250
Commissioner, Commonwealth Railways,
N. G. Bell 1,800
Repatriation Commissioners, Col J. M.
Semmens, O.B.E., V.D., Lieut-Col
L. E. Tilney, D.S.O., Major A. H. Teece,
M.C.

THE LEGISLATURE

The Federal Parliament consists of a Senate and a House of Representatives. The Senate contains 36 members, six from each of the Original States, elected for six years by universal suffrage. The House of Representatives, similarly elected for a maximum of three years, contains members proportionate to the population, with a minimum of 5 Representatives for each State. The House of Representatives, 1924, is made up of 28 for New South Wales, 20 for Victoria, 10 from Queensland, 7 from South Australia, 5 each from Tasmania and Western Australia, and 1 (entitled to debate but not to vote) from the Northern Territory. Members of the Upper and Lower Houses receive £1,000 per annum, with travelling expenses.

President of the Senate, Hon Thomas Givens
Speaker, House of Representatives, Rt Hon
William Alexander Watt, P.C.

THE JUDICATURE

There is a Federal High Court with a Chief Justice and 6 Judges, having original and appellate jurisdiction, subordinate to the final Appeal Court of the Empire, the Judicial Committee of the Privy Council.
Chief Justice, Rt Hon Sir Adrian Knox,
P.C., K.C.M.G. £3,500

Judges, Rt Hon Isaac Alfred Isaacs, P C,
Hon Henry Bourne Higgins, Hon
Frank Gavan Duffy, Hon. Charles
Powers, Hon George Edward Rich,
Hon Hayden Eiskine Staikie . . each £3,000
Arbitration Court, President, Hon Charles
Powers 3,000
Deputy Presidents, Hon Sir John Quick,
Noel Augustin Webb . . . each 2,000

DEFENCE

Navy.

The Australian fleet consists of the *Melbourne* (flag-ship), *Sydney*, *Brisbane*, *Adelaide*, 3 sloops, 12 destroyers, and several auxiliaries. H M A S *Sydney* destroyed the German cruiser *Emden* at Cocos Island on Nov 9, 1914. The personnel of the fleet is mainly Australian in character, although still supplemented to some extent by Imperial officers and men. The seagoing forces on May 15, 1924, consisted of approximately 377 officers and 3,200 petty officers and men. There is also a R A N Brigade composed of members of the Citizen Naval forces, a section of the Commonwealth Compulsory Military Training System.

Army.

By a Federal Law of 1910 military training is compulsory on all male citizens between the ages of 12 and 26—in *Cadet Corps* 12-18, and *Citizen Soldiers* 20-26, with short periods of training in the field. The Universal Training Law was continued in 1922, but its operation is restricted to the more populous centres, and confined to youths of 16-18 years. Australia had, up to the end of the Great War, enlisted no fewer than 416,809 men, fully equipped for service in the war. New South Wales, 164,030, Victoria, 112,399, Queensland, 57,705, South Australia, 34,959, West Australia, 32,231, Tasmania, 15,485. The Australian forces behaved with the greatest gallantry whenever engaged with the enemy. To December 31, 1919, their record of Honours and Decorations was F 65, C M G 3, K C M G 9, C M G 149, K C B 9, C B 42, K B E 2, C B E 33, O B E 125, M B E 99, D S O 619, R V O 2, R R C 147, M C 2,366, D C M 1,756, M M 9,926, M S M 1,176, A M 3, D F C 58, A F C 16, A F M 2, and 1,032 foreign decorations. The *Total Casualties* in the A I F were killed, 59,342, wounded, 166,819, sick, 87,957, not specified, 218—total, 314,336.

The *total cost of the War* to the Commonwealth Government from August, 1914, to the end of June, 1924, was £543,462,000, of which amount £193,879,513 was charged against revenue.

Air.

The permanent strength of the Australian Air Force as at June 1, 1924, was 51 officers and 297 airmen. The sum of £422,882 was provided on the 1923-24 Estimates for Air Force and Civil Aviation purposes.

FEDERAL FINANCE

Years	Revenue	Expenditure	Balance payable to States
	£	£	£
1919-20	52,783,102	46,062,610	6,720,492
1920-21	65,517,608	58,677,445	6,840,163
1921-22	64,897,046	57,861,511	7,035,535
1922-23	64,720,635	57,535,684	7,185,551

The Customs and Excise Revenue is collected by the Commonwealth and partly repaid to the

States at the rate of 25% per head of the population.

DEBT.

The total of the Commonwealth Public Debt on June 30, 1923, was £410,996,316, including a War Loan from the British Government of £90,388,604. Adding the indebtedness of the States to that of the Federal Government (and making allowances for certain amounts included in both) the total public debts of Australia amounted (June 30, 1923) to about £905,484,946. The Commonwealth has undertaken responsibility for the Northern Territory Debt and the Port Augusta-Coodnadatta Railway Debt, whose combined amounts were £3,902,914 at June 30, 1923. The other State Debts remain at the charge of the State Governments.

Banking—On June 30, 1923, the Australian liabilities of the Banks of Issue throughout the Commonwealth amounted to £317,766,716, and the Australian assets to £327,458,496. At the close of the financial year 1922-23 there were 3,598,901 depositors in the Savings Banks, the amount of deposits being £171,645,812.

PRODUCTION AND INDUSTRY

The estimated values of the products of Australia in 1921-22 and 1922-23 were—

	1921-22	1922-23.
Agricultural	£81,890,000	£84,128,000
Pastoral	69,254,000	91,475,000
Dairying, &c	44,427,000	43,542,000
Forests and Fisheries	10,373,000	10,845,000
Mining	19,977,000	20,316,000
Manufacturing	120,751,000	131,848,000
	£346,662,000	£382,208,000

Agriculture and Live Stock—The total land area of Australia is estimated at 1,903,731,840 acres, of which 16,543,555 were under cultivation in 1922-23.

Crop	Acreage	Produce
Wheat	9,763,861	109,454,842
Oats	1,014,376	14,982,155
Barley	342,196	6,548,935
Maize	313,202	7,388,314
Hay	3,338,456	4,148,992
Sugar Cane	216,886	2,315,982

Live Stock

	1921	1922
Sheep	82,226,470	78,803,261
Cattle	14,441,309	14,326,673
Horses	2,438,182	2,350,490
Pigs	960,385	985,930

In 1923 Australia produced 640,964,689 lb of wool (as in the grease), against 631,514,435 lb in 1921-2, 234,995,009 lb of butter, 23,710,559 lb of cheese, and 62,475,970 lb of bacon and hams.

Mineral and Minerals—In 1923 the value of gold produced was £3,134,114, silver and lead, £3,014,301 (1922), copper, £844,126 (1922), tin, £395,755 (1922), coal, £10,486,419 (1922), the value of all minerals produced in 1922 being £20,316,160.

Manufactures—In 1922-23 there were in Australia 19,173 industrial establishments, employing 412,410 hands, wages paid amounted to £71,133,152; value of plant and machinery, £86,081,910, of lands and buildings, £74,381,308, of materials used, £186,082,663, value added by

* In addition, the following amounts were spent from 1922-23 to 1923-24: 1922-23, £24,600,000; 1923-24, £28,000,000; 1922-23, £2,000,000; 1923-24, £7,146,643.

manufacture, £140,414,473; and total value of final output, £326,497,136

Labour Statistics—In 1923 there were 383 Trade Unions with 699,743 members, of whom 90,923 were women. The estimated total number of employed persons over 20 years of age in 1923 was 1,149,530 males and 275,080 females. The number of unemployed members of trade unions averaged 7 per cent. The average cost of food, groceries and housing combined, in the six capital towns was 6 per cent more in 1923 than in 1921, and 70 per cent more than in 1911. Wholesale prices increased during 1923 by 10.6 per cent, and were 94.4 per cent higher than in 1911. Average nominal weekly rates of wage rose from 91s 6d in 1922 to 94s 6d in 1923, but owing to the higher cost of living effective wages were in 1923 6.2 per cent higher than in 1911. During 1923, 274 industrial disputes occurred, involving 76,321 workers and entailing an estimated loss of 1,145,977 working days, and £1,275,506 in wages.

EXTERNAL TRADE

The value of gold and silver coin and bullion is included in the totals.—

Year	Imports	Exports	Total
1918-19	102,335,159	113,963,976	216,299,135
1919-20	98,974,292	149,823,509	248,797,801

Share of the various States in the external trade of Australia in 1922-23 —

State	Imports	Exports*
New South Wales	£55,020,083	£42,581,874
Victoria	46,720,100	33,768,701
Queensland*	10,782,906	15,782,072
South Australia	10,846,619	13,683,003
Western Australia	6,788,165	9,679,496
Tasmania*	1,588,198	2,460,374
Northern Territory	12,804	14,627

£131,757,835 £117,870,147

* Goods transferred from one State to another for transhipment to an overseas country are counted as an export from the State whence they were finally despatched from Australia, thus, much of the produce of Queensland is credited to New South Wales and of Tasmania to Victoria.

COMMUNICATIONS.

Railways—Total length of Government (and private) railways open at June 30, 1923, private lines being included in the totals and shown in parentheses —

State	Miles open
New South Wales	5,689 (371)
Victoria	4,394 (60)
Queensland ..	7,280 (1,275)
South Australia	3,503 (55)
Western Australia	4,845 (836)
Tasmania	896 (233)
Federal Capital Territory	5 —
Northern Territory	199 —

Total 26,711 (2,830)

Of the private railway mileage 1,001 miles were open for passengers and goods, the remainder for special traffic only. The gross earnings of all Government lines in 1922-23 were £39,524,527, working expenses £29,513,440, and net earnings £10,011,087, being at the rate of $\text{2s } 5\text{d}$ per train mile, and representing a return on the total cost (£29,524,527) of 3.95 per cent, as against 3.43 per cent in 1921-22. In 1922-23 passenger journeys numbered 353,322,989, and 32,127,075 tons of goods and live stock were carried on the Government railways, the train miles run being 61,926,739.

Tramways—There are 608 miles of tramways in Australia, 460 miles of which are of electric, 94 of steam, 46 of cable and 8 of horse traction. The several Governments control 449 miles, municipal authorities, 113 miles, and the remaining 46 miles are operated by private companies and individuals. The principal gauge in use is 4 ft 8½ inch (491 miles) 95 miles are at 3 ft 6 inch, and the remainder, 5 ft 3 inch and 2 ft 0 inch gauge. The total capital cost of tramways at June 30, 1923, was £21,385,939, (electric, £17,587,960, steam, £1,420,328, cable, £2,357,751, and horse, £19,899).

The revenue of electric tramways for the year 1922-23 was £5,908,803, working expenses £4,675,289, and net revenue £1,233,514, or 5s 5d per car mile. 53,791,000 car miles were run and 580,473,000 passenger journeys recorded.

Shipping—The entrances and clearances of vessels engaged in overseas trade at the various Australian ports in the 5 years 1918-1923 were as follows (tonnage in brackets) —

Year	Entered	Cleared
1918-19	1,350 (2,329,060)	1,264 (2,941,426)
1919-20	1,476 (4,041,544)	1,505 (4,044,963)
1920-21	1,830 (4,758,916)	1,844 (4,744,102)
1921-22	1,567 (4,560,381)	1,544 (4,520,897)
1922-23	1,489 (4,737,854)	1,446 (4,502,925)

Of the vessels entered (1922-23), 1,093 of 3,649,237 tons were under the British flag (Australia, 297, of 645,867 tons, U.K., 665, of 2,754,316 tons, N.Z., 57, of 66,521 tons, Canadian, 34, of 110,095 tons, other British, 40, of 72,438 tons), and 396 of 1,088,617 tons under foreign flags (Dutch, 42, of 121,264 tons, French, 55, of 114,102 tons, Japanese, 74, of 243,935 tons, Norwegian, 63, of 148,873 tons; United States, 69, of 194,180 tons, other foreign, 93, of 246,263 tons).

Shipping entering the ports of the capital cities during 1922-23 was Sydney 8,377 vessels of 8,823,432 tons, Melbourne 4,170 (7,015,030), Brisbane 1,203 (3,121,839), Adelaide 4,037 (4,065,796),

Fremantle 601 (2,664,643) and Hobart 604 (529,248). At December 31, 1923, there were 2,489 vessels of a total net tonnage of 486,381 on the shipping registers of the several states.

Posts and Telegraphs—In year ended June 30, 1923, there were 8,494 post and receiving offices, dealing with 839,553,255 letters, &c., there were 6,987 telegraph stations, with 154,080 miles of wire, transmitting 15,828,629 telegrams, receiving 533,977 and dispatching 539,629 cablegrams in 1922-23. At the end of year, 1922-23, 281,703 telephones were connected with 2,825 telephone exchanges, approximately 274,000,000 "local" and 15,746,837 "trunk line" calls were recorded for the year.

Motor Vehicles—At June 30, 1923, there were 172,745 motor vehicles registered in the several States. These comprised 116,658 cars, 42,649 motor cycles and 13,438 commercial vehicles. The revenue derived from motor registration fees and motor tax, &c., was £619,447 for the year.

Civil Aviation—58 aeroplanes of various types were registered under the Department of Civil Aviation at June 30, 1923. During the year 4,709 flights of a total duration of 3,246 hours were effected. 241,866 miles were flown, and 4,984 passengers carried. On the subsidized aerial mail routes 109,999 letters were carried in Western Australia and 8,821 in Queensland.

CAPITAL—CANBERRA, in the Federal Capital Territory, transferred to the Commonwealth by the State of New South Wales on Jan. 1, 1911, is being laid out as the capital of the Commonwealth. Meanwhile the seat of Government is MELBOURNE.

Trade Commissioner in the East Straits Settlements, E. T. Sheaf, Singapore

NORTHERN TERRITORY.

The Northern Territory occupies the centre of the Australian continent between 120°—138° East longitude as far as 26° South latitude, and its administration was taken over by the Commonwealth on Jan. 1, 1911.

The area is estimated at 523,620 sq. miles. The population on March 31, 1924, was 3,677 (exclusive of full-blood aborigines).

Limited portions of the country are considered to be quite suitable for tropical and semi-tropical agriculture, and the Federal Government grants suitable areas rent free for the original settler's lifetime or for 21 years (whichever shall be longer). The staple industry is pastoral, cattle and horses do well south of the 15th parallel. For the months of April to September the climate is delightful. From October to December it is hot and humid, from January to March is the wet season, when travelling becomes extremely difficult. The chief rivers are Victoria, Adelaide, Daly, Roper, Liverpool, Gwyder, McArthur, and the Robinson. The first five are navigable from 40 to 100 miles from their entrance for boats drawing 4 feet. Pearl fishing is carried on round the coast, the shell being of good quality. There are considerable mineral resources, gold, silver, lead and tin being indicated, and when communications are opened up, the industry will become important.

The only railway is from Darwin to Emmagalan (200 miles). A further extension to Daly Waters (160 miles) is being proceeded with.

Darwin, the seat of Government, occupies an elevated site 80 feet above high water mark, overlooking Port Darwin, one of the finest harbours in Australia, and contains the offices of the Administrator and officials of the Territory. The cable owned by the Eastern Extension Company lands at Darwin from Singapore. The town is healthy and free from malaria. The Darwin Botanical Gardens are about 1½ miles from the town.

<i>Judge Supreme Court, D. A. Roberts</i>	1,000
<i>Special Magistrates, E. Copley Playford, Norman Bell</i>	

PAPUA.

The Territory of Papua, which was placed under the authority of the Commonwealth of Australia in 1906, comprises a part of the New Guinea mainland situated between the meridians of 141° and 150°50' E longitude, and between the 5th and 12th parallels of South latitude, also the Trobriand Group of islands, Woodlark, the d'Entrecasteaux Group, the Louisiades, the Configi Group, and the Laughlan Group. The total area of Papua is 90,540 sq miles, of which 87,786 are on the mainland. There is an Executive Council of seven members who, with three non-official members, form the Legislative Council. The white population in 1923 was 1,086. The official estimate of the native population is 275,000. In 1923, 60,044 acres were under crops (46,360 coconuts, 7,171 rubber and 5,828 sisal hemp). Owing to heavy rainfall Papua is well watered and possesses a large number of streams. The best known rivers are the Mily (650 miles long and navigable by steam launch for 500 miles) and the Purari. The climate is favourable to the cultivation of all tropical products.

	1921-22	1922-23
Revenue	£123,288	£120,624

CAPITAL, Port Moresby.	

TERRITORY OF NEW GUINEA.

The part of "German New Guinea" over which Australia was given a mandate is situated in latitude between the Equator and 8½° S, and in longitude between 140° E and 156° E. It consists of Kaiser Wilhelm Land (70,000 sq miles), Bismarck Archipelago (1,800 sq miles), and the two northernmost Solomon Islands (3,400 sq miles) (Bougainville, and Buka). The principal river in Kaiser Wilhelm Land is the Sepik, which is navigable for 250 miles.

The climate is hot and moist along the coast, with a steady drop as the higher altitudes are reached. It is suitable to the growth of all tropical products. In 1922-23 there were 172,218 acres under crops (coconuts, 167,428, rubber, 3,382). The white population in 1923 was 1,308, the native population in 1922 was 197,258 (Natives living in areas not under complete Government influence are not included in the above total, as no reliable estimate can be made).

Australia has full power of administration and legislation over the Territory as an integral part of the Commonwealth, and may apply to it her own laws. The mandatory must promote to the utmost the material and moral well-being and the social progress of the inhabitants. The natives must not be militarily trained, and no naval and military bases are to be established.

NORFOLK ISLAND.

This island is about 930 miles from Sydney and 400 miles from New Zealand. It is about five miles in length, by three in breadth, and was discovered by Capt. Cook in 1774. Its area is 8,528 acres and circumference 20 miles. The climate is mild, with a mean temperature of 68° and an annual rainfall of 55 inches. The descendants of the mutineers of the *Bounty* were brought here from Pitcairn Island in 1856. The population in April, 1921, was 717.

<i>Administrator, Lieut.-Col. E. T. Leane, C.B.E.</i>	
<i>President Laws Council, A. Randall</i>	

States of the Commonwealth.

I. NEW SOUTH WALES.

The State of New South Wales is situated almost entirely between the 29th and 37th parallels of S lat and 141st and 154th meridians of E long, and comprises an area of 310,372 square miles (inclusive of 940 square miles of Federal Capital area)—i.e., more than five times that of England and Wales, and nearly three times the size of the United Kingdom.

POPULATION

Census	Males	Females	Total
1881	411,149	340,319	751,468
1891	612,562	515,672	1,128,234
1901	712,456	646,672	1,359,128
1911	888,850	789,896	1,678,746
1921	1,071,501	1,028,870	2,100,371

Births, Deaths, and Marriages.

Year	Births	Deaths	Marriages
1914	53,615	18,777	17,353
1920	53,974	20,901	20,181
1921	54,634	20,034	18,518
1922	55,214	19,178	17,583
1923	54,112	21,051	17,507

Vital Statistics—Annual rate per 1,000 of population in 1923—Births, 24.68, Deaths, 9.60, Marriages, 7.99. Deaths under 1 year per 1,000 births, 61.0.

Religions.

All religions are free. There is no State Church. About three-fourths of the people are Protestants, the members of the Church of England in New South Wales, according to the Census of 1921, number 1,027,301, Roman Catholic 482,575, Presbyterian 219,932, Methodist 181,977, Congregational (Independent) 22,235, Baptist 24,722, Salvation Army 9,490, and Hebrew 10,150.

PHYSIOGRAPHY

Relief—The Eastern or coastal district is traversed by a mountain range known as the Great Dividing Range, the names distinguishing the various portions of the Range in N.S.W. being (from N to S), Macpherson, New England, Laverpool, Main or Blue Mountain, Cullumbin, Goulburn, Monaro, and Murrumbidgee Ranges—the highest points being Mount Kosciuszko, 7,328 feet, and Townsend 7,266 feet.

Rivers—The eastern or coastal district is watered by the Tweed, Brunswick, Richmond, Clarence, Bellinger, Macleay, Hastings, Manning, Karuah, Hunter, Hawkesbury, George, Shoalhaven, Clyde, Murrumbidgee, Bega, Towamba, and Snowy Rivers. The western portion of the country is not so well watered, but immense reservoirs are being constructed for irrigation purposes, and there are many artesian bores. The Darling and the Murrumbidgee are both tributaries of the Murray, which has a total length of 1,600 miles, 1,200 miles forming part of the boundary between the States of New South Wales and Victoria.

Climate—New South Wales is situated entirely in the Temperate Zone. The climate is dry and very healthy. At the capital (Sydney) the average mean shade temperature is 63.1°; the mean temperature in the shade for the north coast is 66° to 69°, south coast 54° to 63°,

northern tableland 56° to 59°, southern tableland 45° to 57°. North-western slopes, the mean annual temperature ranges from 64° to 66°. In the Central-western slopes 59° to 64°, and in the Western Division from 61° to 70°.

GOVERNMENT

New South Wales was first colonised as a British possession in 1788, and after progressive settlement a partly elective legislature was established in 1843. In 1855 "Responsible Government" was granted, the present Constitution being founded on the Consolidating Act of 1902. The executive authority is vested in a Governor (appointed by the King), assisted by a Council of Ministers.

GOVERNOR

Governor of New South Wales, His Excellency Admiral Sir Dudley Rawson Stratford De Chair, K.C.B., M.V.O., born 1864 (1923) £5,000

Private Secretary, Com. D. Grant, R.N.
Official Secretary, H. S. C. Budge.
Lieutenant-Governor, Hon. Sir William Forster Cullen, K.C.M.G., LL.D., born 1855.

Inspector-Gen of Police, James Mitchell, O B E	1,500	THE LEGISLATURE	
Inspector-Gen of Mental Hospitals, Eric Sinclair, M D	1,400	Parliament consists of two Houses, the Legislative Council and the Legislative Assembly. Members of the Legislative Council (81 in August, 1924), are appointed by the Crown for life. Members are not entitled to remuneration, but travel free on the State railways and tramways. The Legislative Assembly consists of 90 members, representing 24 electoral districts. Each member of the Legislative Assembly receives £600 per annum, and members travel free over the Government railways and tramways in the State, and are provided with official stamped envelopes for the free transmission of correspondence through the post. The Women's Legal Status Act, 1928, removed disqualification regarding the election of women to be members of the Legislative Assembly. Several women have since contested seats, but none has been elected. With few exceptions all natural-born or naturalised persons 21 years of age, who have resided 6 months in the Commonwealth, 3 months in the State and one month in the electoral district, are entitled to the franchise, which was conferred upon women in 1902, and was first exercised by them in 1904. The Proportional Voting System is in force. The ballot papers contain the names of candidates in alphabetical order and voters are required to mark candidates in the order of preference. At the last State General Election in March, 1922, of 636,662 male electors enrolled and qualified to vote in contested electorates 466,949, or 73.3, voted, and similarly of 614,361 female electors 408,515, or 66.5, voted.

THE JUDICIATURE

The judicial system includes a Supreme Court (with a Chief Justice and seven Puisne Judges), Land and Valuation Court, an Industrial Arbitration Court, District Courts, Courts of Quarter Sessions, Petty Sessions and Children's Courts. Trial by jury has been in force since 1824.

Supreme Court

<i>Chief Justice, Hon. Sir W. P. Cullen, K.C.M.G., LL.D. (Hon. P. W. Street, acting)</i>	£3,500
<i>Puisne Judges, Hon. P. W. Street; Hon. A. Gordon, Hon. D. G. Ferguson; Hon. J. M. Harvey, Hon. A. G. F. James, Hon. J. L. Campbell, Hon. L. M. L. Owen, C.B.E.</i>	each 2,600
<i>Land and Valuation Court Judge, His Honour Mr Justice Herbert Pike</i>	2,600
<i>Ch. Judge in Equity and Judge in Bankruptcy, Hon. P. W. Street</i>	
<i>Judge in Divorce & Matrimonial Causes, Hon. L. M. L. Owen, C.B.E.</i>	
<i>Probate Judge, Hon. J. M. Harvey</i>	
<i>Industrial Arbitration Court Judge, His Honour Mr Justice W. Edmunds</i>	£2,500
<i>Additional Judges, His Honour Judge Rolin, His Honour Judge Curlewis, His Honour Judge Beehy</i>	each 1,500

District Courts

His Honour Judge Scholes, His Honour Judge Cohen, His Honour Judge Bevan, His Honour Judge Armstrong, His Honour Judge White, His Honour Judge Mocatta and His Honour Judge Edwards

1,500

(The several District Court Judges are also Chairmen of the Courts of Quarter Sessions and Judges of the Court of Review within their respective districts, and Judges of the Court of Marine Inquiry.)

Children's Courts and Fair Rent Courts have also been established

Crown Solicitor, J. V. Tillett

£2,000

EDUCATION.

Education.—Education is compulsory between the ages of 7 and 14 years. It is non-sectarian and free at State primary schools. The total enrolment in 1923 in 3,243 State schools was 330,082, and the average daily attendance 254,633. The State expenditure on Education (exclusive of Technical Education) was £3,888,712. The University of Sydney, with which 5 colleges are affiliated, including the Women's College, was incorporated in 1851, and had 2,755 students (2,133 male and 622 female) in 1923. The total number of students at State Technical classes numbered 23,496, and 1,113 attended at the State Agricultural College and Farms. In addition to the State schools there were, in 1923, 681 private colleges and schools, with 80,723 scholars, exclusive of many business and shorthand schools and schools at Charitable Institutions, &c.

FINANCE.

The Revenue and Expenditure and Public Debt of New South Wales for the five years ended June 30, 1923, are stated as under:—

Year	Revenue, including Advances repaid	Expenditure, including Transfers and Advances	Public Debt.
1920	£28,650,406	30,210,023	152,776,082
1921	34,031,396	34,476,802	164,336,492
1922	35,637,820	36,966,525	176,674,387
1923	36,145,944	38,348,436	183,571,556
1924	37,361,809	37,951,419	210,493,974

To the total revenue during 1922-23, Railways and Tramways contributed £19,082,302, and other Business Undertakings, £2,678,502. A sum of £2,600,198—equal to £1 4s 9d per head of the population—was returned to the State by the Commonwealth Government, in lieu of Customs and Excise revenue collected by the latter. Revenue from Taxation amounted to £7,799,118. Included in the total Expenditure were the following:—Interest upon Public Debt and Special Deposits, £1,827,102 (exclusive of interest charged to Business Undertakings); Public Instruction, £3,941,200; Business Undertakings, including interest on capital, £2,228,765. Similar details for 1923-24 are not yet available.

Banking, &c.—There were (June 30th, 1924) 17 banks within N.S.W., with total assets, £144,660,959, including advances, £122,873,479; coin, bullion, and Australian Government Notes, £23,822,600; and liabilities, £114,318,567, including deposits, £111,820,251. The savings bank deposits on March 31, 1924, amounted to £64,989,300, representing 1,290,642 depositors. The amount assured in Life Assurance Societies in New South Wales in 1923 was £76,387,712. Ordinary and £13,381,335 Industrial. The membership of Friendly Societies was 214,663, and the funds at June 30, 1923, were £2,727,991. Members of Trade Unions numbered 262,494, the funds of 212 Unions at Dec 31, 1922, being £229,104.

Shipping.—Excluding coastal trade, 3,332 vessels entered ports of N.S.W. during 1923-24, the net tonnage being 8,956,152, the clearances were 3,263 vessels of 9,041,437 net tonnage. Sydney is the chief port. In 1923-24 the shipping entries at Sydney, including coastal, were 8,518 vessels of 9,022,037 net tonnage. The dock accommodation at Sydney includes four large graving docks, five floating docks, and six patent slips.

Railways.—The railways and tramways of New South Wales with the exception of a few short lines, representing about 128 miles, are controlled by the State. At June 30, 1924, the mileage of the State railways open for traffic was 5,223, the capital cost amounted to £93,385,167, and the net earnings for the year 1923-24 to £4,699,086, or 3s 11½d per train mile. There were also 228 miles of State tramways, the capital cost being £10,758,958, and the net earnings £542,385, or 4d. per train mile.

Posts, Telegraphs and Telephones.—The postal, telegraphic, and telephonic services are administered by the Federal Government. In 1922-23 there were 2,599 post offices in New South Wales. The postal matter carried included 254,196,263 letters and postcards, 66,647,279 newspapers, 34,569,781 books, packets and parcels, and 8,138,901 telegrams were received and despatched. The telephone line connections numbered 87,352.

TRADE.

The overseas imports into New South Wales during 1922-23 were valued at £58,225,404, and the overseas exports at £43,135,665.

PRODUCTION AND INDUSTRY.

Agriculture is one of the principal industries of the State; 4,656,459 acres, excluding areas double-cropped, were under cultivation during the year ended June 30, 1923, producing 28,667,949 bushels of wheat, 3,287,523 bushels of maize, 1,250,772 bushels of oats, besides other kinds of grain, with 35,726 tons of potatoes and 27,122 cwt of dried leaf tobacco. Sugar-cane to the extent of 147,992 tons was crushed, and 771,206 gallons of wine, and 1,084,707 bushels of citrus fruit, and 233,526 cases of bananas, almost every kind of fruit and vegetable is grown. The area sown for wheat for the year 1922-23 was 3,909,440 acres, including 301,230 acres which were fed off. The wheat yield was 33,040,000 bushels of grain and 700,060 tons of hay.

Land Alienation—The total extent of land alienated and in process of alienation on June 30, 1922, was 64,473,761 acres, while the area of land leased for pastoral occupation and home stead, mining, and other purposes at the same date was 112,050,378 acres.

Livestock—The great plains are admirably adapted for sheep-farming, and several breeds of sheep, including the celebrated merino, which was introduced in 1797. On June 30, 1923, there were 660,031 horses, 958,287 dairy cows, 2,292,893 all other cattle, 34,862,747 sheep, 340,853 swine, 31,440 goats, and 819 camels. In 1922-23, 293,571,000 lb (stated as in the grease) of wool were produced, in addition to 693,852 cwt of tallow, 773,723,597 lb butter, 5,198,905 lb cheese, and 19,245,866 lb bacon and ham. During 1922-23 there were 137,300 persons permanently employed in rural occupations, 120,900 being males, and 16,400 females.

Values of Rural Industries—The agricultural industry was valued in 1922-23 at £21,301,000, dairying and farm-yard produce at £13,445,000, and pastoral industry at £34,009,000, a total of £68,755,000.

Forests, Fisheries and Trapping—The value of these industries in 1922-23 was £4,810,000, and 6,900 persons were employed.

Mining Industry—The goldfields were discovered in 1851. Coal, coke, copper, silver lead, zinc, bismuth, tin, iron, antimony, asbestos, platinum, alunite, wolfram, scheelite, molybdenite, cobalt, marble and kerosene shale diamonds, rubies, opals, and other precious stones are also found. The total value of minerals won during 1923 was £14,232,009, coal accounting for £8,607,802, silver, silver lead and ore £2,026,862, and gold £79,998. The value of machinery at all mines was £8,772,740, and tools used, £213,897. The value of land, buildings, &c., was £4,047,277. The mining industry gave employment to 27,767 miners during the year.

Manufacturing Industry—In 1922-23 there were 6,702 manufacturing and works, the employees numbered 152,266, of whom 114,970 were males and 37,296 females, the amount of £27,050,730 being paid in salaries and wages. Male workers received on an average £213 16s 5d and females £97 4s 8d. The capital value of land, buildings and fixtures amounted to £34,559,510, and of machinery, tools and plant £37,548,766. The machinery in use represented

613,898 h p, including steam, 398,675 h p; gas, 20,514 h p; electricity, 191,348 h p; water, 55 h p; oil, 3,306 h p. The value of goods manufactured or work done was £122,735,140, materials used, £77,222,401, and fuel consumed, £4,021,068, the production, i.e., value added to raw materials, was £51,491,671. Iron and steel are produced at Lithgow and Newcastle.

The principal products of the factories during 1922-23 were—

	Quantity	Value at Works
Saw milling native logs	147,108 217 sup ft	£1,838,804
Bacon and ham	17,505 343 lb	801,801
Butter	69,255 086 lb	6,130,755
Biscuits	39,959 144 lb	1,294,625
Jams and preserves	34,145 056 lb	1,660,201
Pickles and sauces	9,660 098 punts	243,997
Flour	354,724 tons	4,177,739
Bran and Pollard	148,910 tons	1,217,163
Milk, condensed &c	3,702 485 lb	244,586
Raw sugar (cane)	371,596 cwt	559,782
Beer and stout (on which excise was paid)	24,432 133 gal	2,290,750
Aerated waters condols &c	7,322,494 doz	794,935
Tobacco, cigars, and cigarettes	12,203,800 lb	4,232,009
Boots &c	1,207,444 pairs	1,833,547
Bricks	368,404 346 no	1,288,727
Cement	201,222 tons	897,122
Gas	8,932,921 342 cub ft	1,705,349
Electric light and power	443,281,236 units	2,757,360
Wool, scoured (Greasy Wool)	16,850 750 lb	1,712,183
" " (skins)	12 983 936 lb	1,572,753
" " Tops and Noils	5 944 066 lb	1,734,224
Tweed and Cloth	1,929 916 yards	666,575
Meat, tinned	4 459 504 lb	168,395
Soap	356 669 cwt	822,977
Tallow	257 804 cwt	596,652
Leather	21,413 476 lb	1,202,882
Coke	725 263 tons	851,472
Pig Iron	738 112 tons	

The production of steel during the year 1923 was rails, 27,692 tons, bars and sections, 42,132 tons, billets, 658 tons.

The control of the fisheries of the State is in the hands of the Board to supervise the industry, and a Commission administers the Forestry Act. The value of production of forests, fisheries and trapping, in 1922-23, was £4,810,000. The total value of all primary industries in 1922-23 was £83,984,000, manufacturing £51,492,000, making a total for all industries £135,476,000, which is equal to £62 6s 10d per head of population.

INDUSTRIAL ARBITRATION.

Matters relating to the conditions of industrial employment in New South Wales are determined by a Court of Industrial Arbitration, which is empowered to make awards fixing the lowest rates of wages, the hours and times of work, rates of payment for overtime, &c., and the proportionate number of apprentices and improvers in any industry, and granting preference of employment to members of any trade or industrial union of employees. Industrial agreements between employers and employees may be enforced as an award. Awards were formerly made by subsidiary tribunals known as Wages or Industrial Boards, constituted for each industry, but their functions are now absorbed by Judges of the Industrial Arbitration Court. At June 30, 1923, there were 299 awards and 118 industrial agreements in force. The industrial laws provide for the registration of industrial unions of employers and employees, and for mediation in industrial disputes. Under certain conditions strikes may be recognised as lawful, except strikes by Government employees, or by persons engaged in military or naval contracts, or by employees in an industry of which

the conditions are regulated by award or industrial agreement; but when an award has been in operation for twelve months, the employees may decide by secret ballot to withdraw from its conditions.

When a strike occurs or is contemplated, the Minister for Labour may order a secret ballot to ascertain if the majority of the employees favour a strike.

A "Board of Trade of New South Wales" was constituted in 1918 with extensive powers regarding industrial matters, one of its functions being to declare the rate of living wage for adult employees of each sex, to be used as a standard in determining rates of wages.

A Declaration made March 7, 1924, fixed the Living Wage for adult employees at £4 2s per week for males and £3 18s 6d per week for females.

Industrial matters which extend beyond the limits of one State are determined by the Commonwealth Court of Arbitration and Conciliation.

LOCAL GOVERNMENT.

For purposes of Local Government, with the exception of an area of 125,454 square miles in the sparsely-populated western division, the State is divided into 184 municipalities and 136 shires, governed by councils which are elected triennially. The councils are empowered to levy rates on the value of land, to float loans, to acquire land and works, to construct and maintain streets, jetties, wharfs, &c., to make regulations regarding cattle slaughtering, maintenance of public places, traffic, street and main lighting, public health and safety, management of parks, &c.

The basis of rating is almost wholly on the unimproved capital value of land, which in 1922 was £123,823,897, for municipalities, including the city of Sydney, and £135,380,748, for shires.

Gross Income		Shires
1915	£2,902,562	£1,066,121
1920	4,282,062	1,355,416
1921	5,063,677	1,547,601
1922	5,612,002	1,648,107

Gross Expenditure.		Shires
1915	£2,738,836	£1,018,870
1920	4,187,301	1,325,748
1921	5,079,601	1,557,388
1922	5,443,409	1,663,881

TOWNS

SYDNEY, the chief city and capital, stands on the shore of Port Jackson, with a water frontage of 188 miles, the depth of water at the Heads is not less than 80 feet, and at the wharves from 30 to 50 feet. There are extensive plants for loading ships, and for storing and loading grain in bulk, also for replenishing coal and oil bunkers. For 12 miles Sydney Harbour extends inland, the finest harbour in the world, and is surrounded by scenery of surpassing beauty. The total area of water in the port is 14,284 acres, of which 3,000 acres have a depth of from 35 feet to 160 feet, the rise and fall of the tide is from three to six feet. The city extends four miles north and south by three miles east and west, and contains 12½ miles of streets, and a population of 209,970 (Dec., 1923); or, including suburbs, 2,037 miles of streets, and a population of 928,400. In addition to the Government buildings, there are the branch Royal Mint, the

University and Colleges, National Art Gallery, museums, botanic gardens, zoological gardens, free public libraries, observatory, conservatorium of music, two cathedrals, numerous churches, and some large public hospitals. The parks within the metropolitan area are 4,347 acres in extent, in addition to which the National Park measures 33,800 acres and Kuring-gai Chase 35,300 acres. Kurnell, 248 acres and Parramatta Park, 252 acres. Other large towns are Newcastle (with suburbs), 90,350; Broken Hill, 22,900; Bathurst, 9,410; Bankstown, 13,380; Armidale, 5,440; Fairfield, 6,040; Dubbs, 5,000; Goulburn, 12,000; Granville, 14,880; Parramatta, 15,290; Lismore, 9,270; Maitland, 12,460; Grafton and South Grafton, 6,110; Albury, 8,110; Tamworth, 7,360; Lithgow, 12,840; Wagga Wagga, 8,090; Orange, 7,630; Auburn, 15,430; Wollongong, 7,340; Katoomba, 9,860; Lidcombe, 11,780; Liverpool, 6,450.

Approximate time in transmission of mails from London to Sydney, 32 days.

DEPENDENCY

LORD HOWE ISLAND (436 miles north-east of Sydney) Lat. 33° 33' 4" S., Long. 159° 4' 16" E. Area, 3,220 acres. Pop., Dec., 1921, 111. The island is of volcanic origin and Mount Gower reaches an altitude of 2,540 feet. The affairs of the Island and the control of the Kentia palm seed industry are vested in a Board of Control Office, Chief Secretary's Department, Sydney.

II—VICTORIA.

The State of Victoria comprises the south-east corner of Australia, at that part where its territory projects farthest into the southern latitudes, it lies between the 34th and 36th parallels of South latitude, and the 142nd and 150th meridians of East longitude. Its extreme length from east to west is about 420 miles, its greatest breadth is about 250 miles, and its extent of coast-line nearly 600 miles, the entire area being 87,884 square miles.

POPULATION.

Year	Males	Females	Total
1918	684,167	753,266	1,437,433
1919	729,879	763,369	1,503,241
1920	753,710	774,441	1,528,151
1921	764,905	785,798	1,550,703
1922	788,625	801,637	1,590,263
1923	805,545	818,824	1,624,369

Increase of the People.

Year	Births	Deaths	Marriages
1918	31,601	15,177	9,196
1919	31,621	19,770	11,706
1920	36,214	16,822	14,898
1921	38,594	16,166	13,676
1922	36,288	15,155	12,996
1923	35,877	17,219	13,126

Religion.

There has been no State aid to religion since 1875. Members of the Church of England in 1921 numbered 601,809; "Protestants" 28,626, Presbyterians 237,072, Methodists 123,829, Baptists 32,305, Church of Christ 22,250, Independents 15,893, and Roman Catholics 322,965.

PHYSIOGRAPHY.

Relief.—The Australian Alps and the Great Dividing Range pass through the centre of the State, and divide it into a northern and southern watershed, the latter sloping down to the ocean

and containing, especially in the south-east, well-wooded valleys

Rivers—The Murray River forms the northern boundary of the State, and has many Victorian tributaries. The capital stands upon the Yarra-Yarra, which rises in the southern slopes of the Dividing Range

Climate—The mean temperature over a period of 68 years was 58.4° Fahrenheit, the thermometer rising (on the average four days during the year) above 100° in the shade, and falling (on the average for about two nights in the year) below 32° F. The average number of days on which rain fell was 137, and the average yearly rainfall was 25.61 inches

GOVERNMENT

Victoria was originally known as the Port Phillip District of New South Wales, and was erected into a separate colony in 1851, with a partially elective legislature. In 1855 Responsible Government was conferred. The executive authority is vested in a Governor appointed by the Crown, aided by an Executive Council of 12 members.

GOVERNOR.

Governor of the State of Victoria, Rt Hon The Earl of Stradbroke, K C M G, C B, C V O, C B E, V D (born 1862) (1920) £5,000
Aide-de-Camp, Capt C M Keppel Palmer
Lieut.-Governor, Hon. Sir William Hill Irvine, K C M G (1918)

THE MINISTRY (November 13, 1924)

Prime Minister, Hon J Allan .. £1,551
Treasurer and Minister of Education and Labour, Hon Sir A J Peacock . . . 1,207
Chief Secretary and Minister of Public Health, Hon F S Argyle . . . 1,207
Minister of Crown Lands and Immigration, Hon A. Downward . . . 1,207
Attorney-General and Minister of Railways, Hon S W Eggleston . . . 1,207
Minister of Agriculture, Hon W. Bourchier . . . 1,207
Minister of Forests and Leader in Council, Hon S. Richardson . . . 1,207
Minister of Works and Mines, Hon. G. I. Goudie . . . 1,207
Ministers without Portfolio, Hon J McDonald, M L A., Hon E J. Mackrell, M L A., Hon W R. Crockett, M L C, Hon. M. McGregor, M L C

HEADS OF DEPARTMENTS.

Public Serv. Commissioner, C. S. McPherson. £1,250
Auditor-General, J A Norris . . . 1,250
Secretary to the Premier, G S McLean . . . 650
Clerk Executive Council, F. W. Mabbott
Chief Secretary's Department, Under-Secretary, W. P. Heatherhaw . . . 900
Under-Treasurer, H A Pitt . . . 1,250
Director of Education, F. Tate, I.S.O. . . 1,250
Law Department, A. T. Lewis . . . 950
Registrar of the Supreme Court and Registrar of Titles, N. R. Currey . . . 728
Secretary Lands, W. McIver . . . 1,750
Chairman State Rivers and Water Supply Commission, W. Cattinach . . . 2,000

Director Agriculture, S S Cameron . . . £1,000
Secretary Public Works and Mines, A H Merrin . . . 950
Pub. Health, Chairman, Dr E Robertson . . 1,000
Secretary Labour, H M Murphy . . . 950
Hospitals for Insane—Inspector-General, Dr W E Jones . . . 1,500
Victorian Railway Commr., Harold W Clapp (Chairman), £5,000, W M Shannon, F B Molomby . . . each 1,750
Chief Engineer for Railway Construction, C H Perrin . . . 1,000
Secretary, E C Evers . . . 900
Forests Commissioner, Owen Jones (Chairman) £1,000, W J Code, A V Galbraith . . . each 800
Govt. Statist, A M Loughton . . . 780
Penal and Gaols Deputy-Inspector-Gen., C S McPherson
Industrial Schools Secretary & Inspector, L Thomas . . . 780
Chief Commr. of Police, A Nicholson . . . 900
Public Librarian, R La Touche Armstrong . . 950
Astronomer, J M Baldwin . . . 728
Botanist, W Laidlaw . . . 689
Curator of Estates of Deceased Persons, W B House . . . 850
Parliamentary Draftsman, J T Collins, M A . . . 1,500
State Insurance, Commissioner, W H Holmes . . . 1,000
State Electricity Commission, Lieut.-Gen Sir J Monash, G C M G, K C B . . . 3,000

AGENT-GENERAL IN LONDON

Agent-General in London, Hon George Fairbairn, Melbourne Place, Strand, W C 2
Secretary, H G W Neale . . . £624
 Melbourne, distant 11,267 miles, transit, 32 to 37 days.

THE LEGISLATURE

Parliament consists of two Houses—the *Legislative Council* of 34 members, elected for the 17 Provinces for 6 years, one-half retiring every 3 years, and the *Legislative Assembly* of 65 members, elected for a maximum duration of 3 years, for the 65 electoral districts, by universal adult suffrage. The electors for the Council number 380,035, and those for the Assembly 900,427.

President of the Legislative Council, Hon Francis Grenville Clarke . . . £750
Speaker of the Legislative Assembly, Hon. John Mouser . . . 1,000

THE JUDICATURE.

There are magistrates' courts, and general sessions and county courts, and a Supreme Court with a Chief Justice and five Puisne Judges
Chief Justice, Hon. Sir William Hill Irvine, K C M G . . . £3,000
Puisne Judges, Their Honours Sir Leo F B Cussen, F. W. Mann, W. J. Schutt, W. G. S. McArthur, J R MacFarlan . . . each 2,500
County Court Judges, W. H. Moule, J S Wasley, H C Winneke, C J Z Wolnarski, W. H. Williams, G. J. Dethridge . . . each 1,500
Income Tax Commissioner, R. M. Weldon . . 1,100

Deputy Commissioner of Land Tax, M
Murphy £800
Crown Prosecutors, H C G Macindoe, £500
£1,250, J A Gurnier, S Leon 750

EDUCATION

Primary Education is compulsory, secular and free between the ages of 6 and 14, there being 248,882 children on the registers in 1922, the average attendance being about 69 per cent. Secondary Education is principally under private control, 60,105 pupils being in attendance at the 486 schools in 1922. There is a State aided University at Melbourne, with four affiliated colleges (Trinity, Ormond, Queen's, and Newman) and a School of Mines at Ballarat.

FINANCE

The revenue and expenditure and State Debt for five years are given as follows—

Year	Revenue	Expenditure	Debt
	£	£	£
1919	13,044,088	12,979,407	80,678,644
1920	15,866,184	15,754,459	87,047,739
1921	19,054,475	18,941,698	97,317,831
1922	20,357,733	20,297,279	109,099,199
1923	21,634,677	21,611,309	118,562,029

Banking, &c.—There were (Dec 31, 1923) 16 banks, with total assets £96,577,390, within the State, and liabilities £97,593,150. The savings bank deposits at June 30, 1924, amounted to over £54,000,000.

PRODUCTION AND INDUSTRY

Agriculture.—Agriculture has of late years much improved, wheat and oats chiefly being cultivated, the dairy industry has also made marked progress. Of the 6,975,711 acres under cultivation in 1923-24, 2,454,117 were wheat crops and 520,654 oats, and 1,277,606 acres were cut for hay. In 1922-23, 1,717,490 gallons of wine were produced. The estimated value of production in 1922-23 was (including manufacturing values) £101,121,372.

Live Stock.—There were in 1924, 738,149 milch cows, producing 84,355,939 lb of butter and 3,754,958 lb of cheese, and 853,218 other cattle, 11,059,761 sheep, 259,795 pigs, and 486,075 horses.

Minerals.—The gold production in Victoria has declined very considerably, the amount produced in 1923 being 95,403 oz (£405,245). Other minerals raised consisted principally of coal, antimony, tin and gypsum.

Trade and Industry.—Wool, gold (including specie), wheat, flour, biscuit, and butter are the staple productions of the State, and the manufactures (7,096 factories, &c., employing 152,625 hands in 1922-23) are mainly for home consumption. The chief exports overseas are wool, lead, butter, wheat, flour and biscuit, leather, skins and hides, tallow, live stock, jams and jellies, milk and cream and preserved and frozen meats. The principal overseas imports of the State are iron and steel, machines and machinery, metals and metal manufactures, silks, velvets, &c., apparel and attire, bags and sacks, tea, cottons and lineus, woollens and timber.

TOWNS

MELBOURNE, the chief city and seat of federal government, is an episcopal see, and is distinguished for its university, museum, mint, public

gardens, observatory, public library, hospital, its churches and other institutions. With its suburbs it contained (31st December, 1923), a population of 852,850 inhabitants. Other towns are Ballarat, 39,960. Geelong, 37,100. Bendigo, 33,490. Warrnambool, 7,950. Castlemaine, 7,170. Mordialloc, 6,900; Carrum, 6,000; Wonthaggi, 5,600. Mildura, 5,550. Ararat, 5,500; and Hamilton, 5,110.

Transmission of mails, approximate, 30 days.

III.—SOUTH AUSTRALIA.

The State of South Australia is situated between 26° and 37° S lat and 129° and 141° E. long, the total area being 380,070 sq miles.

POPULATION

Year	Males	Females	Total
1917	213,691	233,139	446,830
1918	219,723	237,965	457,688
1919	240,226	241,389	481,615
1920	245,325	245,852	491,177
1921	252,170	250,433	502,603
1922	257,501	255,909	513,410

NOTE.—About 30,000 were on Active Service during War.

Increase of the People.

Year	Births	Deaths	Marriages
1917	11,326	4,365	3,252
1918	11,357	4,390	3,190
1919	11,060	5,475	3,855
1920	12,028	5,083	4,681
1921	11,974	5,982	4,383
1922	12,001	4,608	4,143

Birth rate 23.71, death rate 9.1, marriage rate 8.18 per 1,000 of population. Infantile mortality, 47.33 per 1,000 births, being one of the lowest rates in the world.

Religions.

Religion is free and receives no State aid. At the Census, 1921, the persons belonging to the principal religious denominations were as follows—Church of England, 165,966, Methodists, 122,634, Congregationalists, 15,289, Baptists, 23,033, Lutherans, 24,606, Roman Catholics, 64,054, Presbyterians, 22,659, and Churches of Christ, 15,039.

PHYSIOGRAPHY

Relief.—The eastern portion of the State is divided longitudinally by the *Flanders Range*, which extends from the eastern side of the Gulf of St Vincent to the Lakes Torrens and Eyre. The western portion is partly desert which can never be brought into cultivation. The northern portion of the State, between Lake Eyre and 26° South latitude (the northern boundary since the transfer to the Commonwealth of the Northern Territory), is also unpromising in comparison with the fertile land that surrounds the hill country of the east.

Rivers.—Except for the Murray, which flows for some 250 miles through the south-eastern corner into the Southern Ocean, there are no rivers of importance in South Australia.

Climate.—The mean annual temperature at Adelaide is 63°, the winter temperature (July-August) averaging 53°, and the summer (November-March) 71°. During the summer months the maximum temperature at times exceeds 100°.

but owing to the purity and dryness of the atmosphere the inconvenience is comparatively slight.

The average annual rainfall at Adelaide, derived from 84 years' record, is 21.08 inches. This total is rather higher than the approximate average annual rainfall over the whole of the agricultural areas extending from Melrose to Cape Northumberland.

In the Mount Lofty Ranges the mean yearly rainfall in places exceeds 40 inches, while on the Adelaide plains the precipitation has fallen as low as 16 inches.

GOVERNMENT

South Australia was proclaimed a British Province in 1836, and in 1851 a partially elective legislature was established. The present Constitution rests upon a Law of Oct. 24, 1856, the executive authority being vested in a Governor appointed by the Crown, aided by a Council of 6 Ministers, and the Lieutenant-Governor.

GOVERNOR

Governor of South Australia, His Excellency
Lieut.-Gen. Sir George Tom Molesworth Bridges, K.C.M.G., C.B., D.S.O.,
born 1871 (1922) £5,000

Private Sec., Legh Winsor, M.V.O.
A.D.C., Capt. H. H. Hambleton, O.B.E.
Lieut.-Governor, Hon. Sir George John Robert Murray, K.C.M.G., LL.M., born 1863 (1916)

MINISTRY

(£7,750 is allotted as salaries to Ministers)

Premier and Treasurer, and Minister of
Irrigation and Repatriation, Hon. John
Gunn

Attorney-General and Minister of Housing,
Hon. William Joseph Deunay

Chief Secretary and Minister of Health
and of Railways, Hon. James Jelly

Minister of Crown Lands and of Agriculture,
Hon. Thomas Butterfield

Minister of Education, of Public Works,
and of Industry, Hon. Lionel Laughton
Hill

Minister of Mines and of Marine and of
Immigration, Hon. A. A. Kirkpatrick

HEADS OF CHIEF DEPARTMENTS

AGENT-GENERAL IN LONDON

Agent-General in London, Hon. Sir Edward
Lucas, Australia House, W.C. 1,200

Secretary, J. B. Whiting 650

Trade Commissioner, R. M. K. Lewis .. 750

THE LEGISLATURE

Parliament consists of a *Legislative Council* of
20 members elected for 6 years, one-half retiring
every 3 years, and a *House of Assembly* of 46
members, elected for a maximum duration of 3
years. Election is by ballot, with universal adult
suffrage for the House of Assembly for all British
subjects, male and female, there is a small
property qualification for electors to the Legisla-
tive Council, who numbered 86,513 (21,401 women)
in 1922, those for the Assembly numbering
277,760.

President of the Legislative Council, Hon.
Sir J. L. Stirling, K.C.M.G. ... £800

Speaker of the House of Assembly, Hon.
— McKelvey .. 800

THE JUDICATURE

Law and Justice—The Supreme Court is presided over by the Chief Justice and three Puisne Judges, there are Courts of Vice-Admiralty and Insolvency, as well as Local Civil Courts, with stipendiary magistrates and the usual Police Courts. The Supreme Court convictions average about 50 annually, which is at the rate of 1 in every 10,000 of the population.

Chief Justice and Judge of Vice-Admiralty,

Hon Sir G J R Murray, K C M G, B A, LL B £2,500

Second Judge, Hon Sir J Hannah Gordon 2,000

Third Judge, Hon T S Poole, LL B 2,000

Fourth Judge, Hon H A Parsons, LL B 2,000

EDUCATION

Public Education (Primary, Secondary and Technical) is provided by the State, and controlled by a responsible Minister, it is secular, compulsory, and free, there are 991 State schools, with 2,101 teachers and 81,079 scholars, the expenditure in 1921-22 was £491,000. The Government grants Exhibitions and Scholarships, carrying the holders to higher schools and the University. Private schools number 171, with 816 teachers and 13,951 scholars. There is an endowed University at Adelaide, founded in 1874, with 781 undergraduates, and 1,166 other students, all classes are open to women. A State School of Mines and Industries has also been established with branches at 7 country centres, and technical education is also provided. The public library, museum, art gallery and local institutes are supported or assisted by the State.

FINANCE

The Revenue and Expenditure and Public Debt for the five years ended June 30, 1919-1923, are stated as follows—

Year	Revenue	Expenditure	Debt
	£	£	£
1919	5,798,313	5,876,811	42,650,206
1920	6,584,788	6,457,039	43,753,146
1921	7,151,366	7,543,640	48,556,554
1922	7,771,754	7,826,241	54,388,688
1923	8,429,322	8,418,000	64,451,873

Most of the revenue is derived from inland revenue, railways, and territorial receipts, while most of the expenditure is on account of public works and railways, and interest on public debt.

Banking—There are 10 banking institutions in Adelaide, in addition to the Commonwealth Government Bank, with 295 branches and agencies, and £36,591,527 authorised capital, having a total liability of £23,402,000 and assets £22,557,000 in June, 1923. The savings banks on June 30, 1923 had 433,000 depositors with £18,249,000 to their credit. Over 80 per cent of the population have Savings Bank accounts. The total banking deposits, £37,373,764, averages nearly £75 per head of population.

PRODUCTION AND INDUSTRY

Agriculture (1921-22)—Of the total area about one-half is farmed or grazed, and 5,300,000 acres cultivated—under wheat 1,500,000 acres, hay 600,000, oats 200,000, barley 200,000, orchards and vineyards 75,000, and potatoes 5,000 acres,

with 1,700,000 acres lying fallow. Wheat produced 29,000,000 bushels. Oranges, lemons, apples, apricots, peaches, and all stone fruits, and olives are successfully grown, and fruit drying is profitable. There were 41,500 acres of vines, with a production of 6,370,000 gallons of wine, 76,000 cwt. of currants, and 66,000 cwt. of raisins. Considerable quantities of fruits (fresh and dried) and also wine are annually sent to overseas countries, principally the United Kingdom and the other Australian States. Brandy and other spirits are also produced. The land is also very suitable for the growing of all kinds of root crops and vegetables.

Live Stock (June 30, 1922)—There were 6,257,052 sheep, cattle 419,197, horses 267,639, pigs 87,667.

Minerals—Copper and gold, silver, lead, manganese, bismuth, iron, gypsum, salt, phosphate rock, coal, &c., are found, the total mineral output being valued at £330,000 (1922). Nearly £33,000,000 of copper have been produced since the foundation of the State.

Manufactures—In 1922 there were 1,422 factories, employing 31,171 hands, the gross value of the output being £23,854,857, and the wages paid £5,313,927. Plant, machinery, land, and buildings were valued at £9,607,286.

Value of Production, 1921-22—(100s, total value, £11,610,373, average per head, £23 (cereals, hay, &c., £2,482,093, orchards, vineyards and gardens, £2,128,280), manufactures, £9,621,280, pastoral, £4,128,057, minerals, £202,549, dairying, £1,839,178, poultry, &c., £1,027,634, fisheries and game, forestry, &c., £825,270. Total value of production, £29,974,341, average £60 per head.

Trade and Commerce, 1921-2—The total value of the Imports was £9,047,242 (U.K. £5,733,274, or 63 per cent, other British countries £1,170,429, or 13 per cent, foreign countries £2,137,579, or 24 per cent). The total value of the Exports was £14,747,260 (U.K. £6,727,610, or 46 per cent, other British £3,022,889, or 20 per cent, foreign countries £4,996,761, or 34 per cent). The main items are wheat, flour, wool, meats, skins and hides, butter, tallow, leather, minerals, wines, fruits (fresh and dried), and minerals from Broken Hill.

Communication—There are 3,500 miles of railway in South Australia, 118 miles of electric tramways, 44,000 miles of roads and several good harbours. The River Murray is used for conveying the produce grown on the irrigation settlements along its banks. There are 805 post offices in the State, which transmit annually 50,000,000 letters, 9,000,000 newspapers, 6,000,000 packets and parcels, and also 2,100,000 telegrams.

Shipping (1921-2)—Ships entered numbered 1,087, tonnage 3,524,380, British 1,002 (3,236,140 tons), foreign 85 (288,240 tons).

TOWNS

ADELAIDE, the chief city and capital, population (1922) 270,329, inclusive of suburbs within 10 miles radius. Other towns are Moonta (4,000), Kadina (3,500), Wallaroo (5,500), Port Pirie (10,500) on the east, and Port Augusta (3,000) on the west of Spencer Gulf, and Kapunda (2,200), Gawler (4,500), and Peterborough (2,500) on the line from Adelaide to the north, Victor Harbor (2,800) in the south, and Mt Gambier (6,000) in the south-east.

Transmission of mails, approximate, 29 days.

IV.—QUEENSLAND.

This State, situated in lat 10° $40'$ — 26° S. and long. 138° — 152° E., comprises the whole north-eastern portion of the Australian continent. Queensland possesses an area of 570,500 square miles (i.e., equal to more than $5\frac{1}{2}$ times the area of the United Kingdom)

POPULATION.

Census.	Males	Females	Total
1881	125,345	88,200	213,545
1891	223,779	169,939	393,718
1901	277,003	221,126	498,129
1921	398,969	359,003	755,972

Increase of the People.

Year	Births	Deaths	Marriages
1918	19,560	7,158	4,821
1919	18,699	8,866	5,431
1920	20,257	7,946	6,670
1921	20,333	7,143	5,965
1922	19,988	7,153	5,876
1923	19,984	7,893	5,815

Religion.

Since 1861 no State aid has been afforded to religion. At the Census of 1921 there were 309,786 Church of England, 172,662 Roman Catholics, 91,620 Presbyterians, 77,566 Methodists, 17,891 Lutherans, 14,735 Baptists, and 44,132 other Christians, with 4,267 Muhammadans and Pagans, besides "Indefinite," "No religion," &c

PHYSIOGRAPHY

Relief—The Great Dividing Range on the eastern coast of the continent produces a similar formation to that of New South Wales, the eastern side having a narrow slope to the coast and the western a long and gradual slope to the central plains, where the *Kubby's Range* divides the land into a northern and southern watershed.

Rivers—The Brisbane, Burnett, Fitzroy, and Burdekin rise in the eastern ranges and flow into the Pacific, the Flinders, Mitchell, and Leichhardt in the Gulf of Carpentaria, and the Barcoo and Warrego rise in the central ranges and flow southwards.

Climate—At Brisbane the average temperature for 1923 was 69° , the maximum and minimum shade temperatures being 98° and 41° , mean barometer, 29.960. The coastal regions are warm and moist, the plateaus dry and temperate, whilst in the very far west the rainfall is scanty. The rainfall during 1923 was 23.23 inches, and there were 91 wet days.

GOVERNMENT

Queensland was constituted a separate colony with Responsible Government in 1859, having previously formed part of New South Wales. The executive authority is vested in a Governor (appointed by the Crown), aided by an Executive Council of 10 members.

GOVERNOR.

Governor of Queensland, His Excellency the Rt. Hon. Lt. Col. Sir Matthew Nathan, G.C.M.G., born 1864 (1900) ... £3,000
Private Sec., H. M. Saunders, ... 300
Asst. Sec., Capt. G. H. Turner, M.C. 300
Official Sec., F. Ryder, ... 325

Secretary, P. J. Dillon	585

THE LEGISLATURE

Parliament consists of a *Legislative Assembly* of 72 members elected by universal adult suffrage.
Speaker, Hon. W. Bertram .. £1,000
Chairman of Committee, G. Pollock .. 700
Clerk, C. A. Bernays .. 625

THE JUDICATURE

There is a Supreme Court, with a Chief Justice, and six Puisne Judges, an Industrial Court, with a President and another Judge, and Inferior Courts at all the principal towns presided over by Police Magistrates.

Chief Justice Supreme Court, Hon. T. W. McCawley .. £2,250
Pres., Indus. Court, Hon. T. W. McCawley
Puisne Judges, L. O. Lukin, W. A. B. Shand, M. A. W. Macnaughton and T. O'Sullivan, K.C. (Southern), J. W. Blair (Central), R. J. Douglas (Northern) each 2,000

EDUCATION

Primary Education is compulsory, secular, and free. In 1923 there were 1,629 State schools, 124 Provisional schools, and 11 High schools in operation, with 4,129 teachers and an average daily attendance of 102,279 children, and 169 private and 10 grammar schools, with 1,120 teachers and an average attendance of 22,510. A State-aided University was established during 1910.

FINANCE

The revenue, expenditure, and debt of Queensland for the five years ended June 30, 1923, are stated as follows—

Year	Revenue	Expenditure	Debt
	£	£	£
1920 ..	11,293,743	11,266,910	69,680,764
1921	12,601,031	12,591,201	80,382,052
1922 ..	12,311,378	12,499,970	85,691,228
1923 ..	12,599,403	12,784,382	88,005,001
1924 ..	13,428,939	13,415,332	91,128,596

Banking.—The banking assets (1923) £32,553,571, liabilities £31,465,987. The deposits on Dec. 31, 1923, were £30,232,044. The Commonwealth Bank of Australia also has a branch in Queensland. The assets on 31st December, 1923, amounted to £23,271,413, and the liabilities to £26,667,332. These liabilities include the depositors' balances in the hands of the Commonwealth Savings Bank Branch, amounting to £20,340,430 (equal to an average of £55 13s. 4d. to each depositor).

PRODUCTION AND INDUSTRY.

Agriculture and Live Stock.—Of the total area of 459,120,000 acres the Government have parted with the fee simple of 17,349,949 acres, under a system of deferred payment, 7,358,971 acres more

are in process of alienation, and an additional area of 129,353,840 acres leased out for sheep and cattle runs, 79,783,557 acres for grazing farms and homesteads, 32,529,120 acres are held under occupation licence, 454,586 acres under gold-mining and mineral lease, 303,833 for special purposes, and 3,147,890 acres perpetual lease, and scrub selections 72,886 acres, 12,588 acres sold as perpetual leases, leaving 96,759,790 practically unoccupied. Wheat, oats, and barley flourish on the Darling Downs, while a still larger area is devoted to maize, which yields an average crop of about 22 bushels per acre. Both English and sweet potatoes are cultivated, as also are coffee, cotton, oranges, peaches, pine-apples, grapes, bananas, coco-nuts, mangoes, plums, and various English fruits. India-rubber and sisal hemp plantations have also been recently started. In the year 1923, 269,175 tons of sugar were produced. The live stock in 1923 included 6,396,514 cattle, 16,756,101 sheep, 661,593 horses, and 132,243 pigs. Wool, meat, and butter are the principal products.

Forestry.—There are about 24,000,000 acres of commercial timberland in Queensland, of which there have been reserved for forestry purposes 4,763,568 acres. There are three types of forest—the cabinet wood jungles, which yield the spangled silky oak wood, the valuable so-called "Maple," really Silkwood, the rich red Rose mahogany, and many other softwoods and medium hardwoods suitable for ornamental joinery, the widespread Eucalyptus type, which produces the extraordinarily strong and durable constructional hardwoods suitable for girders, sleepers, piles, flooring, &c., and most important at the present state of development, the pine forests, the products of which are in high request for ordinary building, joinery, and plywood purposes. The Queensland pines are of supreme quality, consisting largely of Kauri equivalents, such as Hoop and Bunya Pine, and in small supply Kauri itself. The western Cypress pines yield an aromatic coniferous hardwood which is white and resistant and is used for common house-building purposes. In 1923 the wealth produced by the timber industry of Queensland was between three and four million pounds, and there were 4,452 hands employed in the sawmills alone. At the end of 1923 some 7,000 acres of cut-out State forests had been subjected to reforestation treatment by the Queensland Forest Service which employs 376 men, and is engaged actively in timber farming and wood-trading operations.

Minerals.—The total mineral output in 1923 was £2,200,782. There are rich deposits of gold, copper, tin, lead, silver, antimony, limestone, ironstone, and wolfram, while coal is found in several districts. The gold output in 1923 was valued at £376,883; silver, £99,422; copper, £430,746; tin, £114,945; coal, £295,227; wolfram, nil; molybdenite, £2,069; lead, £147,233; opals and gems, £23,809; arsenic, £27,780; cobalt, £43,449.

Commerce.—The chief articles of export overseas, the produce of the State, in 1922-3 were: Wool, £10,428,712; meat, including extract, and bacon, hams, and pork, £1,884,196; hides and skins, £526,597; tallow, £391,439; butter, cheese, and milk, £1,884,871.

TOWNS.

CAPITAL, Brisbane. Population Census, April 4, 1921, 210,032. Estimated Dec. 31, 1923, 235,687. The contour of the Queensland coast-line and

the relative position of its inland parts operate against any centralisation similar to that at Melbourne, Sydney, or Adelaide, and numerous ports of considerable size extend along the coast—Brisbane, Rockhampton (24,282), Maryborough (20,625), Townsville (22,248), Port Douglas, Mackay (6,320), Thursday Island, Cooktown, Cairns (7,455), Bowen, and Bundaberg (9,276). Other places of importance are Ipswich (20,526), Toowoomba (20,702), Charters Towers (9,499), Gympie (6,519), Mt Morgan (7,214), Warwick (6,095), Roma, and Cloncurry.

Transmission of mails, approximate, 32 days

V.—TASMANIA.

Tasmania is an island in the South Pacific Ocean, off the southern extremity of Australia, from which it is separated by Bass Straits, about 140 miles wide, in which are situated the Furneaux Group and King Island, included within the State. It lies between 40° 33'—45° 39' S lat, and 144° 39'—148° 23' E long, and contains an area of 26,215 square miles.

POPULATION.

Census Year	Males	Females	Total
1891 . .	77,560	69,107	146,667
1901	89,624	82,851	172,475
1911 .	97,591	93,620	191,211
1921	107,767	106,110	213,877

Period	Birth Rate	Death Rate	Infant Mortality	Marriage Rate
1900-09	28.9	10.8	84	7.6
1910-14	30.0	10.6	80	7.9
1915-19...	28.0	10.0	70	6.9
1921...	26.97	10.32	78	7.83
1922 .	27.07	9.29	56	7.8

Religion.

All religions are free. In 1921 there were 82,128 members of the Church of England, 28,581 Roman Catholics, 24,975 Methodists, 15,735 Presbyterians, 4,880 Congregationalists and Independents, and 4,757 Baptists.

PHYSIOGRAPHY

The surface of the country is generally undulating forest land, with mountains from 1,500 to 5,000 feet in height, and expanses of level, open plains. There are numerous streams, the Derwent and the Tamar being the largest. The climate is fine and salubrious, and well suited to European constitutions, the hot winds of Australia do not reach the Island. At Hobart in 1921 the mean annual temperature was 55.5°, the mean temperature for Dec., Jan., and Feb. being 62.5°, and that of June, July, and Aug. 48.6°. The western side of the island is very wet, the eastern side having a rainfall similar to that of eastern England, the average rainfall varies from 20 inches to 100 inches in different parts.

GOVERNMENT

The island was first settled by the British in 1803 as an appendage to New South Wales, from which it was separated in 1825. In 1851 a partly elective legislature was inaugurated, and in 1856 Responsible Government was added. In 1901 Tasmania became a State of the Australian Commonwealth, and the State executive authority is vested in a Governor (appointed by the Crown), aided by an Executive Council or responsible Ministers.

GOVERNOR.

Governor of Tasmania, His Excellency Sir James O'Grady, KCMG, OBE (1924) £2,750
Private Sec.,

Lieut. - Governor, Hon Sir Herbert Nicholls, Chief Justice

EXECUTIVE COUNCIL (Oct 26, 1923)

Premier, Treasurer, and Minister of Railways, Hon J. A. Lyons £1,200

Chief Secretary and Minister of Mines, Hon, J. A. Gny 1,000

Lands, Public Works, Agriculture and Forestry, Hon J. Belton 1,000

Attorney-General and Education, Hon A. E. Ogilvie 1,000

Without Portfolio, Hon. A. Lawson

UNDER-SECRETARIES, &C

Under-Secretary, D'Arcy Addison, ISO, MVO £650

Under-Treasurer, P. J. Strutt 650

Auditor-General, E. Pretzman 850

Registrar-General, J. P. Loughton 540

Govt. Statistician, L. F. Giblin 575

Public Service Commissioner, R. J. Meagher 750

Commissioner of Police, Lt.-Col J. E. C. Loid, CMG, DSO 675

Sec. for Public Works, E. O. Rowland 625

Conservator of Forests, L. G. Irby 600

Chief Engineer and General Manager, Hydro-Electric Dept., J. H. Butters, CMG, MBE 1,450

Commissioner of Taxes, H. E. Downie 750

Do., Railways, J. Miscamble 1,700

Director of Education, G. V. Brooks 850

Surveyor-General and Secretary for Lands, E. A. Counsel, ISO 625

Director of Pub. Health, E. S. Morris, MB 1,000

Government Printer, J. Vail 600

Director of Agriculture, L. A. Evans (actg) 544

Engineer of Works, W. R. Reynolds 675

Secretary for Mines, W. A. Pretzman 550

State Shipping Dept., W. Robinson 800

State Insurance Dept., E. A. Reid 800

Government Geologist, Loftus Hills, B. Sc 600

Commissioner of Stores, G. F. Dawson 600

AGENT-GENERAL IN LONDON

Agent-General in London, Lt.-Col R. Eccles

Snowden, Australia House, Strand, W.C.2

Secretary, H. W. Elv £500

THE LEGISLATURE

Parliament consists of two Houses, a Legislative Council of 18 members, elected for six years; and a House of Assembly of 30 members, elected by proportional representation for three years, the electors for the latter being all adult Tasmanians who have resided continuously in the State for 6 months, the electorate for the Council is smaller, having a property or educational qualification for both sexes.

President of the Legislative Council, Hon

Tetley Gant, CMG £500

Speaker of House of Assembly, Hon

J. W. Evans, CMG 500

THE JUDICATURE

There are justices of the peace and courts of petty, general and quarter sessions, and a Supreme Court with a Chief Justice and two Puisne Judges

Chief Justice, Hon. Sir H. Nicholls (b. 1868) £1,800

Puisne Judges, Hons N. K. Ewing, H. Crisp each 1,500

Solicitor-General, L. E. Chambers 750

Registrar Supreme Court, W. O. Wise 625

Recorder of Titles, A. A. Richardson 675

EDUCATION.

Primary education is compulsory, secular, and free, there being 500 State schools in 1922, with 39,000 children on the registers. Secondary education is also provided by the State (6 high schools with 800 scholars), and by private endowment. There is a University at Hobart, and technical schools at Hobart, Launceston, Queenstown and Zeehan.

FINANCE

Year	Revenue	Expenditure	Debt
1901	£826,163	£923,731	£8,551,005
1913-14	1,238,086	1,235,013	12,265,012
1920-21	2,105,449	2,189,157	18,776,206
1921-22	2,181,395	2,302,077	21,945,411
1922-23	2,174,061	2,472,533	22,439,176

Banking—June 30 1923, the banks of issue had total deposits £7,243,000, the savings bank deposits were £4,411,000.

PRODUCTION AND INDUSTRY

Agriculture and Live Stock—Of the total area of 16,778,000 acres there were, in 1922-23, 293,708 acres under crops. The live stock included 216,704 cattle, 1,551,273 sheep, 49,743 pigs, and 38,439 horses. The wool production was 9,634,624 lb. The butter produced amounted to 5,270,243 lb.

Electrical Energy—The Hydro-Electric Department of Tasmania has completed an important waterpower development at the Great Lake, in the centre of the State. The capacity of the present installation is 63,000 h.p., and is shortly to be increased to 75,000 h.p. The present plant is supplying the industrial needs of Hobart and district in the south, and Launceston and district in the north of Tasmania, as well as the Derwent Valley district.

Forestry Department—Total area of timber land estimated at 9,000,000 acres. "The Forestry Act" provides for the dedication by the year 1928 of 1,500,000 acres as State forests. Timber resources of the State are now being placed on a sound basis, and under the control of a Conservator of Forests, managed on forestry principles. 14,040 acres have so far been dedicated as State forests. Timber reserves total 1,608,150 acres. Area held under lease or forest permits for sawmilling, logging, &c., 271,870 acres. The amount of timber milled for 1922 was 48,224,222 super feet, valued at £411,650. This is exclusive of timber used for piles, poles, fencing, and for practically all sleepers. Undressed overseas exports for 1922-3 (excluding exports to States within the Commonwealth) approximated 4,770,565 super feet. Exports beyond the Commonwealth are chiefly for harbour works and sleepers.

Minerals—The chief minerals produced are copper, tin, silver, lead, coal and osmiridium, the value of all minerals produced in 1922 being £877,906.

Manufactures—The chief factories for export are metallurgical, fruit preserving, woollen mills and confectionery, the value of the gross output in 1921 was £5,796,625, the capital invested in the 686 establishments being £4,096,959.

TOWNS.

CAPITAL, Hobart. Population (1921), 51,895. Other towns are Launceston (pop. 27,256), Devonport, Ulverstone, Burnie, and Queenstown. Transmission of mails, approximate, 31 days.

VI.—WESTERN AUSTRALIA.

Includes all that portion of the continent west of 120° E long., the most westerly point being in 112° 52' E. long., and from 13° 30' to 35° S. lat. Its extreme length is 1,500 miles, and 1,000 miles from east to west, and its total area 975,500 square miles.

Physical Features.—Large areas of the State, for some hundreds of miles inland, are hilly and even mountainous, although the altitude, so far as ascertained, rises nowhere above that of Mount Bruce (4,024 ft.) in the north-west division or that of Bluff Knoll (3,640 ft.) in the Stirling Range in the south-west. The greater portion of the far interior may be described as a great tableland, with an altitude of from 1,000 to 2,000 ft. above sea-level, the surface of which consists in places of sand-dunes, varied by wide stretches of clayey soils. Long, straggling rivers, broken during the summer into a series of pools cross the country as far inland as the hills extend, widening in many cases nearer the coast into large sea-estuaries. Of the area of Western Australia, which is equal to more than half that of European Russia, probably about two-thirds is suitable for pastoral purposes, immense tracts having already been proved eminently so. Some 44,000,000 acres are as yet neither alienated nor in process of alienation in the 8 W Division, the portion more immediately fitted for agricultural purposes, especially for the production of wheat, wine, and fruit. Considerable areas, however, are already under cultivation. Gold, coal, and other minerals in abundance are found in many parts, and wide stretches of land are covered with forests of great commercial value.

POPULATION.

Year	Males	Females	Total
1919	174,981	152,879	327,860
1920	176,895	154,428	331,323
1921	178,500	157,213	335,713
1922	183,386	160,222	343,608
1923	189,429	164,386	353,815

At the census of April 4, 1921, the population was ascertained to be 377,013 males, 155,200 females, total 532,213. The tide of immigration from the United Kingdom and elsewhere has again set in, and in view of the scope Western Australia offers for further settlement, the State authorities are aiding this movement. It is confidently expected that a better knowledge of the great resources of this as yet very meagrely peopled part of the Empire will more and more attract large numbers of suitable settlers from Great Britain and other populous countries, particularly as the Western Australian Government is again offering every inducement to the *bona fide* immigrant.

Natural Increase of the People.

Year	Births	Deaths	Marriages
1919	6,937	3,590	2,194
1920	8,149	3,388	2,931
1921	7,807	3,480	2,656
1922	8,131	3,167	2,446
1923	7,854	2,920	2,367

Religions.

There is no State aid to religions. At the census of 1911 there were 109,435 persons

belonging to the Church of England, 56,616
Roman Catholics, 34,348 Methodists, and 26,687
Presbyterians

PHYSIOGRAPHY.

The coastal regions of the west and of the north are undulating, with an interior slope to the unsettled central portion of Australia. The Darling and Hamersley ranges of the west have a western slope to the Indian Ocean, into which flow many streams, notably the Swan, Murchison, Gascoyne, Ashburton, Fortescue, and De Grey. In the north the Fitzroy flows from the Leopold range into the Indian Ocean, and the Drysdale and Ord into the Timor Sea.

Climate—The average temperature of Perth (lat. 32° S) for the past 26 years was 64° 2', while the mean for the barometer for 38 years was 30·017 inches. There are wet and dry seasons, the former lasting from May to October. The total rainfall at Perth during 1911 was 23·38, during 1912 27·85, during 1913 38·28, during 1914 20·21, during 1915 43·61, during 1916 35·16, during 1917 45·64, during 1918 39·58, during 1919 30·66, during 1920 40·35, during 1921 41·09, and during 1922 31·86, the average for the past 47 years being 33·86.

The climate is one of the most temperate in the world, especially in the south-western portion, where excessive cold is never and excessive heat very rarely known. The summer heat, which is mostly dry, with hardly any rainfall, is during the greater part of the hot season relieved by cool sea-breezes in the afternoon. The winters are rainy, but with occasional dry spells of perfect weather.

GOVERNMENT

Western Australia was first settled by the British in 1829, and in 1890 it was granted a partially elective legislature. In 1890 responsible government was granted, and the Administration vested in a Governor, a Legislative Council, and a Legislative Assembly. The present constitution rests upon an Amending Act of 1899, further amended by the Constitution Acts Amendment Act, 1911, the Executive is vested in a Governor appointed by the Crown and aided by a Council of responsible Ministers.

GOVERNOR

Governor of Western Australia, His Excellency Lieut.-Col. Sir William Robert Campion, K.C.M.G., D.S.O., born 1870 (1924) £4,000
Private Sec., Maj. B. Kerr-Pearse, M.V.O.
Aide-de-Camp, (Vacant)
Hon. Aide-de-Camp, Maj. P. W. Dobson, M.C.
Lieutenant-Governor, Hon. Sir Robert Furze McMillan, born 1858 (1921).

EXECUTIVE COUNCIL (May, 1924)

Premier, Colonial Treasurer and Minister for Forests, Hon. Philip Collier, M.L.A. £1,500
Minister for Lands, Immigration and Industries, Hon. William C. Angwin, M.L.A. 1,300
Minister for Mines and Agriculture, Hon. Michael F. Troy, M.L.A. 1,300
Minister for Railways, Justice and Police, Hon. John C. Willcock, M.L.A. 1,300
Minister for Public Works, Water Supply, &c., Hon. Alexander McCallum, M.L.A. 1,300
Colonial Secretary and Minister for Education, Health and the North-West, Hon. J. Michael Drew, M.L.C. 1,300

PERMANENT STAFF

Public Service Commr., G. W. Simpson £1,000

Chief Engr. Way and Works, H. A. Cresswell 1,000
Chief Accountant, L. H. Gwynne 800
Comptroller of Stores, W. H. C. Blomfield 750
General Manager, Tramways and Electricity Supply, Wm. H. Taylor 1,000

AGENT-GENERAL IN LONDON

Agent-General in London, Hon. H. P. Colebatch, C.M.G. **Offices**, Savoy House, 115-116, Strand, W.C. 2 £1,500
Secretary, C. B. Rushton (and allowance, £182) 672

THE LEGISLATURE.

Parliament consists of a **Legislative Council** of 30 members elected for 6 years, and a **Legislative Assembly** of 50 members elected for 3 years by universal adult suffrage, the electorate of the Council is restricted by a property qualification, that of the Assembly being subject to residence and registration.

President of the Legislative Council, Hon. Sir E. H. Wittenoom, K.C.M.G. £700
Speaker of the Legislative Assembly, Hon. Thomas Walker 700

THE JUDICATURE.

There are magistrates' courts and general and quarter sessions, and a Supreme Court with a Chief Justice and three Puisne Judges.

Chief Justice, Hon Sir R. F. Macmillan, K.T. £2,000
 Puisne Judges, Hon. R. B. Burnside, J. A. Northmore, and T. P. Draper, C.B.E. each 1,700

EDUCATION.

Education—Education is compulsory and free, and numerous elementary schools are under the control of the Minister of Education. There are a training college, technical schools, a school of mines and a Goldfields High School at Kalgoorlie (State Secondary Schools in various centres and the capital), and a University. The total amount expended on education during the year ended June 30, 1924, was £580,548, in addition a grant of £17,000 was made to the University.

It has been consistently the object of successive Governments to place within the reach of each child in the State every advantage of education, from the kindergarten to the university.

FINANCE

The revenue and expenditure and gross public debt of the State for the 5 years ended June 30, 1920-1924, are stated as under—

Year	Revenue	Expenditure	Debt
	£	£	£
1920	5,863,501	6,531,725	46,822,003
1921	6,789,565	7,476,291	49,039,668
1922	6,907,106	7,639,241	54,959,778
1923	7,207,492	7,612,856	58,485,854
1924	7,865,594	8,094,753	62,768,281

Banking—There were, including the Commonwealth Bank of Australia, 11 cheque-paying banks, formerly banks of issue, in the State on June 30, 1924, with total assets £17,062,809 and liabilities £13,837,303. The amount due to depositors in the State Savings Bank at June 30, 1924, was £5,669,074, in the School Savings Bank, £72,662; and in the Commonwealth Savings Bank the amount due to depositors in Western Australia on March 31, 1924, was £2,053,540.

Wai Funds—The public contributions in Western Australia to a variety of Wai Funds up to Dec 31, 1920, totalled approximately £1,188,650, or between £3 10s and £4 per head of the mean population during the war period.

PRODUCTION AND INDUSTRY

Crops and Live Stock—Of the total area (624,588,800 acres) about 2,223,300 acres were under crops in 1923-24, wheat for grain accounting for 1,656,925 acres. In 1923 the live stock included 953,764 cattle, 6,595,867 sheep, 61,478 pigs, 30,824 goats, and 181,944 horses. There were about 5,000 acres of vineyards.

Land Settlement and Aquaculture—It is only a few years since the immense capabilities of the State as one of the world's potential great wheat-producers were more generally realised. In those few years the area under wheat for grain has increased annually by leaps and bounds, the acreage in 1908 being only 279,609, whilst in 1916 it was 1,734,117. From 1916, owing to the War, a temporary retrogression set in, the acreage in 1924 being, as above stated, 1,656,925. Large numbers of English and other migrants were then annually settled on the still unoccupied agricultural areas of the State. With the energetic policy of development now once more initiated by the Government, assisted therein by

the British Emigration Scheme, land settlement is again progressing rapidly, and Western Australia is absorbing an increasing stream of migrants. A very large portion of the South-Western division of the State, containing many millions of acres, is especially suitable for wheat-growing, whilst the valleys of the Swan (or Avon) and other rivers and the hills in many portions of the State produce grapes, apples, oranges and other excellent fruit in the greatest variety. The export trade in dried and other fruits during the last few years has assumed considerable dimensions.

Manufacturing Industries—There were on December 31, 1922, a total of 1,323 industrial establishments in the State employing either machinery or at least four hands. The total number of persons employed in them was 20,253. The combined output of these establishments was computed at £12,870,741.

Forestry—The forests are among the most extensive within the Commonwealth, and contain some of the very finest hardwoods in the world. Two of these, Jarrah (*Eucalyptus marginata*) and karri (*Eucalyptus diversicolor*), are largely exported. The quantity of timber cut during 1923 is computed to have been over 190 million super feet.

Minerals—The groups of the Coolgardie gold-fields (covering a vast portion of the interior and extending to the 125th meridian), as well as other fields, are being constantly worked, the production of gold being 504,512 oz. in 1923, and 249,488 oz. in the first six months of 1924. The total amount produced in the State from 1886 to June 30, 1924, is 35,594,368 fine oz. Magnetic iron, lead, copper, and tin ores exist in large quantities, as also coal.

Trade—The principal ports are Fremantle, Albany, Bunbury, Geraldton, and Broome. The opening of the Trans-Australian Railway in Oct 1917 afforded another means of ingress and egress, both for travellers and merchandise. The imports chiefly consist of provisions, sugar, tea, tobacco, spirits, beer, soap, machinery, ironmongery, clothing of various kinds, &c. The principal exports are of wool, gold, jarrah timber, silver, tin, copper ore, sandalwood, barks for tanning, pearls and pearl-shells, hides and skins, wheat, flour, fruit, &c. The values of some of these were for the year ended June 30, 1924—Wool, £4,237,122; timber, £1,367,713; sandalwood, pearl shell, hides and skins, £1,112,580; wheat, £2,542,626; and flour, £824,743.

During 1922-23 the total imports into Western Australia were valued at £13,777,679, including £4,010,895 from the United Kingdom, and £7,277,343 from other States of Australia. The exports totalled £11,105,220, including £4,106,769 to the United Kingdom and £1,131,675 to other States of Australia.

TOWNS.

CAPITAL, Perth. Population (1923) of Metropolitan area, including Fremantle, 171,869.

Perth, the capital, stands on the right bank of the Swan River estuary, 12 miles from Fremantle. The King's Park (approximately 1000 acres), on a hill overlooking the city and the wide estuarine reaches of the river, possesses unique natural beauty. Other towns are Fremantle (including suburbs, 25,526), Albany (3,980), Kalgoorlie and Boulder (over 16,000), Bunbury (4,478), Claremont (5,508), Geraldton (4,270), Midland Junction (4,935), and Northam (3,823).

THE DOMINION OF NEW ZEALAND.

Contributed by the Right Hon. W. F. Massey, P.O., Prime Minister of New Zealand.

THE climate of New Zealand is probably the healthiest in the world, and to that statement there is ample testimony in the low death-rate in the Dominion. The variation in the climate of the three islands of New Zealand seems to have been specially adjusted by Nature to suit virtually all tastes. The northern end is semi-tropical, and there oranges and lemons can be grown out of doors. It has, indeed, become a habit of the residents to claim that the territory in which they live is winterless. If absence of frosts and snow means that the people of the north are without a winter, then they are right in the praiseworthy appellation applied to their land. At the southern end of the Dominion—there are nearly 1,000 miles between extreme north and extreme south—the climate is like that of Scotland. The population in the two southern provinces is mostly of Scottish descent, and Scottish in their characteristics. They are industrious, hardworking and energetic settlers, enthusiastically loyal to King, Country and Empire, as is typically the New Zealander.

In scenery and the grandeur of its natural features, New Zealand stands out pre-eminently. In almost every part of the three islands there is the same endowment of scenic beauty. From Auckland in the north, to Southland in the south, a range of snow-capped mountains like the European Alps runs practically through both big islands and gladdens the heart with their majesty and magnificence. With mountain and glacier and forest and lake and torrent, the finest scenery it is possible to imagine is provided. New Zealanders must be a free people now and in the future, and will, as the poet puts it, look up to their hills and thank Heaven the land is free—

“Free as the torrents are that leap our rocks
And plough our valleys without asking leave,
Or as our peaks that wear their caps of snow
In very presence of the regal sun.”

The Thermal Springs of the North Island of New Zealand have become world famous. The large areas in which they are located are dotted over with lakes and springs, some cold, some hot, even to boiling point, and geysers spouting here and there to varying heights. In places the roar of steam (generated by subterranean heat caused by chemical action) escaping to the surface, adds to a scene weird and wonderful, such as can be witnessed in very few countries of the world. Many of the hot springs of the Dominion are possessed of important curative properties. Around a number of them there are bath-houses, comfortably fitted up, in which sufferers from rheumatic complaints particularly may “take the waters,” and indulge in a course of baths as recommended by medical experts skilled in the knowledge of the healing properties of the different springs. During the summer months—from November to March—a very large number of tourists come from all parts of New Zealand and overseas to enjoy the sights of the wonderland, or to test the efficacy of its waters. And remarkable results have been achieved in the treatment of sufferers.

The fishing in the cold lakes and streams of the Thermal District of the Dominion is among the best in the world. There rainbow trout,

especially, have grown to abnormal size. Trout of 20 lb. in weight are not infrequent. In the southern lakes and rivers, both Atlantic and Pacific salmon are increasing very rapidly, and enthusiastic fishermen from England, the United States, and other countries come to New Zealand year after year to enjoy the fishing alone. It is a fact, though by some hard to believe, that in the thermal regions fish may be caught in one stream or lake, and cooked in a boiling spring only a very few yards away.

Besides the three major islands which New Zealanders regard as the mainland, numbers of other islands are under the control and guardianship of the Government of the Dominion. There are, for example, the Chatham Islands which are occupied by settlers, both Maori and European, who use them mostly for sheep-farming purposes. Then there is the Western Samoa Group, formerly belonging to and under the control of Germany, which were occupied by New Zealand troops a few days after war was declared. The celerity with which the Samoan Islands were taken makes interesting reading. The news of the declaration of war came to New Zealand on August 5, 1914. Ten days later two ships, with 2,000 of the Dominion's soldiers on board, fully equipped, sailed out of Wellington Harbour for Samoan territory, nearly 2,000 miles away, escaped the German cruisers which were in the Pacific, and landed without a casualty on the principal island of the group. The German Governor and his officers surrendered. Since then, Samoa has been under the control of New Zealand, held under a mandate from the League of Nations accepted by His Majesty. The Samoa Islands are fertile and the climate healthy. The natives are now quite reconciled to their new friends of the British Empire. Brigadier-General G. S. Richardson, formerly of the New Zealand Expeditionary Force of the Great War, holds the position of Administrator of the Islands, and his work has been a great success. Then there are the Cook Islands where the natives, like the Samoans, are Polynesian. The natives are civilised, their children are educated by European teachers, and the young people are being taught the latest methods of scientific agriculture, suitable to a tropical climate.

New Zealand is interested, along with the Governments of Great Britain and Australia, in working the phosphate deposits of Nauru and Ocean Islands. The Union Group, close to Samoa, is also likely to be placed under the administration of the New Zealand Government. From these islands up near the Equator, to the Ross Sea at the Antarctic is a somewhat far cry, but at the request of the British Government, and with the object of protecting the whale and seal fisheries there, New Zealand has consented to the extension of its boundaries to take in that territory. The whale fisheries in the Ross Sea are well worth looking after, over sea whales being caught there by American whalers in a few weeks during last whaling season.

New Zealand and her Dependencies occupy a unique position, not only in the British Empire, but in many other parts of the world, and as population and national wealth increase, their influence and usefulness are bound to become very much greater than they are to-day.

The Dominion of New Zealand.

PHYSIOGRAPHY.

The Dominion of New Zealand is distant about 1,200 miles south-east of the mainland of Australia, and consists of three main islands in the South Pacific Ocean, known as the North, South, and Stewart Islands having a length of 1,100 miles, between $34^{\circ} 22'$ and $47^{\circ} 18'$ South latitude and 162° East longitude - 173° West longitude, with several groups of smaller islands lying at some distance from the principal group.

Geographical.—The two principal islands of New Zealand have a total length of 1,040 miles, the total coast-line reaching 4,330 miles. A large portion of the surface is mountainous in character. The principal range is that of the Southern Alps, having its culminating point in Mount Cook (12,349 ft.). The North Island mountains include several active and dormant volcanoes Mt Ruapehu (9,175 ft.) and Mt. Ngauruhoe (7,515 ft.) are the most important. Of the numerous glaciers, the Tasman (18 miles by 1½) is the largest. The North Island in particular is noted for its hot springs and geysers. For the most part the rivers are too short and rapid for considerable use in navigation. The more important include the Waikato (220 miles in length), Wanganui (140) and Clutha (210). Lakes (Taupo, 238 sq. miles in area; Wakatipu, 112; and Te Anau 132) are abundant; many of them of great beauty.

Meteorological.—Owing chiefly to its great length, New Zealand's climate varies very considerably in its different divisions. In general it is mild with an abundant rainfall. Snow is rarely seen except upon the higher levels. Annual averages—North Island, mean temperature 56° F., rainfall 48 in. (days with rain 159), South Island, mean temperature 52° F., rainfall 43 in. (days with rain 150)

GOVERNMENT.

The west coast of the South Island of New Zealand was discovered by Abel Jansen Tasman, the navigator (voyaging under the direction of the Netherlands' East India Company), on December 13, 1642. The islands were visited in 1769 by Captain Cook, who returned to them in 1773, 1774, and 1777. In 1793 the Government of New South Wales despatched H.M.S. *Daedalus* to the islands on a diplomatic mission. The first settlement of Europeans was made in 1814, but no colonisation took place until 1825. In 1840 British sovereignty was proclaimed, and on May 3 1841, New Zealand was, by letters patent, erected into a separate colony distinct from New South Wales. On Sept. 26, 1907, the designation was changed to *The Dominion of New Zealand*. The Constitution rests upon the Act of 1852, under which the executive authority is entrusted to a Governor (now Governor-General) appointed by the Crown and aided by a Council of Ministers, with a Legislature of two houses.

GOVERNOR GENERAL.

Governor-General and Commander-in-Chief of New Zealand His Excellency General Sir Charles Fergusson, Bart., G.C.M.G., K.C.B., D.S.O., M.V.O., born 1865, apptd. 1924 £7,500
Private Sec. G. J. Little
Official Secretary, A. Cecil Day, C.B.E.
Military Sec. and A.D.C.,

A.D.C.

Hon. A.D.C.'s, Col. H. Hart, C.B., C.M.G., D.S.O., Col. R. Young, C.B., C.M.G., D.S.O., Col. A. E. Stewart, C.M.G., D.S.O., Col. Hugh Stewart, C.M.G., D.S.O., M.O., Lieut.-Col. R. C. Allen, D.S.O.
Hon. Physician, Col. E. J. O'Neill, C.M.G., D.S.O., M.B.
Hon. Surgeon, Maj.-Gen. Sir Donald J. McGavin, C.M.G., D.S.O., M.D.

* EXECUTIVE COUNCIL, 1924

His Excellency the GOVERNOR-GENERAL.
Prime Minister and Minister of Finance,
Stamp Duties, and Minister in Charge
of Land and Income Tax, State
Advances, Valuation, Electoral, and

* Members of the Executive Council travelling within the Dominion on public service are entitled to an allowance not exceeding £2 per diem when so engaged, but not during attendance at a session of the General Assembly. A house allowance of £200 is also paid where a Government residence is not provided.

HIGH COMMISSIONER IN LONDON.

<i>High Commissioner in London, Col. Hon. Sir James Allen, K.C.B., New Zealand Government Offices, 415 Strand, W.C.2</i> ..	£2,000
<i>Secretary, Alexander Crabb</i>	925

THE LEGISLATURE.

Parliament consists of a General Legislative Council appointed by the Governor (prior to 1891 the appointments were for life, since that date for 7 years only), at present consisting of 41 members, and a House of Representatives consisting of 80 members elected for 3 years. Four of the members are Maoris elected by the natives. Women are entitled to vote and to be elected Members of the House of Representatives (Women's Parliamentary Rights Act, 1919). Members of the Upper House receive £315 per annum and of the Lower House £450 per annum, in each case with travelling expenses and deductions for non-attendance.

<i>Speaker of the Legislative Council, Hon. Sir W. C. F. Carnarvon</i>	£720
<i>Speaker of the House of Representatives, Hon. C. E. Statham</i>	900

THE JUDICATURE

The judicial system comprises a Supreme Court and Courts of Appeal, also Magistrates' Courts, having both civil and criminal jurisdiction.

<i>Chief Justice, Rt. Hon. Sir Robert Stout, P.C., K.C.M.G., LL.D.</i>	£2,250
<i>Puwha Judges, Hons. Sir W. A. Simm, T. W. Stringer, J. H. Hosking, A. L. Heidman, J. R. Reed, C.B.E., A. S. Adams, W. C. MacGregor, K.C. (and a vacancy)</i> ..	each 2,000

In 1923, 45,837 civil cases were tried in Magistrates' Courts, while summary convictions in criminal cases were 37,104. In 1923 convictions (or sentences) in Supreme Courts were 1,663. Civil cases to number of 422 were tried, judgment being entered for a total amount of £300,698.

POLICE.

On March 31, 1924, the strength of the Police Force was 1,027 of all ranks, equivalent to 1 for every 3,322 of the population. Average cost of police protection per inhabitant was, in 1923-24, 5s. 8½d.

LOCAL GOVERNMENT.

For purposes of local government the Dominion is divided into counties and ridings, with incorporated boroughs, under elected county and municipal councils, town, road and harbour boards. Electors are adult ratepayers of both sexes.

<i>Revenue of local bodies, 1922-23</i>	£10,521,732
<i>Receipts and revenue, 1922-23</i>	7,399,674
<i>Expenditure, 1922-23</i>	15,625,597

PASSPORTS.

With certain exceptions, no person over 15 years is permitted to land unless in possession of a passport issued by a competent British authority.

DEFENCE.

Army.

The New Zealand Defence Forces consist of the Permanent Force, the Territorial Force and the Senior Cadets.

Units of the N Z Permanent Forces are the New Zealand Staff Corps, the Royal New Zealand Artillery, the New Zealand Permanent Air Force, the New Zealand Permanent Staff, the New Zealand Army Ordnance Corps, the New Zealand Army Pay Corps, and the New Zealand Permanent Army Service Corps. These are responsible for the training of all branches of the New Zealand Forces and for all administrative matters connected therewith. The Territorial Force consists of 9 regiments of Mounted Rifles, 21 batteries of Artillery, 3 Depôts of Engineers (Field), 3 Depôts Corps of Signals, 3 Brigades of Infantry, 3 Depôts Army Service Corps, and 3 Depôts Medical Corps. The Dominion, for purposes of defence, is divided into 3 Commands, each of which produces one third of the above Units. The Force is capable of producing, on mobilization, 1 Division and 3 Brigades of Mounted Rifles, and also produces the machinery for the duplication of this Force, and the provision of the necessary requirements to maintain it in the Field. The Senior Cadets are reorganised in Battalions and receive physical and elementary military training. There are a large number of Rifle Clubs in the Dominion established for the encouragement of rifle shooting. Military training is compulsory on all male citizens between the ages of 14 and 25, in the Senior Cadets from the age of 14 to 18, and in the Territorial Force from the age of 18 to 25, and in the Reserve from the age of 25 to 30.

During the South African War, New Zealand despatched 20 Contingents, totalling 6,500 men, to the assistance of the Imperial Forces in South Africa. On the outbreak of the Great War, the Dominion contributed a Force which captured and garrisoned German Samoa, and an Expeditionary Force for service in Europe. The latter force was engaged in Egypt and Gallipoli, and being subsequently expanded to a Division and a Brigade of Mounted Rifles, continued to operate on the Western Front and in Palestine until the termination of hostilities. During this period of service the Expeditionary Force absorbed 100,000 men, and 10,000 more were ready for embarkation or under training when the Armistice was signed. Seventeen thousand of the Dominion's soldiers lost their lives on service. The New Zealand Troops established a very high reputation for their gallantry and general behaviour under all circumstances. The tremendous amount of transport work involved in the conveyance of the Forces to Egypt, France, Britain, Gallipoli and Samoa was carried out with extraordinary success, not one New Zealand Transport having been lost while conveying troops.

Navy.

In 1909 New Zealand presented the battle-cruiser *New Zealand* to the Imperial Government.

The Naval Defence Act, 1913, provides for the establishment of a New Zealand Naval Force by

voluntary enlistment for a prescribed period of not less than two years, members on discharge to be drafted into the New Zealand Royal Naval Reserve for such period as may be prescribed for service only in time of war; the ships and personnel forming the Force to pass under the control and to be at the disposition of the Imperial Government in time of war. A commencement was made with the formation of a New Zealand Division immediately prior to the war, when H M S *Philomet* was commissioned with ranks and ratings lent from the Royal Navy to serve as a training ship for the formation of a small Naval Force. The *Philomet* was employed under the orders of the British Admiralty throughout the war and no opportunity was afforded for the commencement of a scheme of training. This vessel has been placed in commission again, and also carries out the duty of depot ship at Auckland. In 1919 Admiral of the Fleet Viscount Jellicoe of Scapa, G.C.B., O.M., G.C.V.O., visited New Zealand in H M S *New Zealand* and presented his report, making recommendations and suggestions for the Naval Defence of the Dominion. In 1920 H M S *Chatham* was loaned free of charge to New Zealand by the Imperial Government and was commissioned on 1st October with officers and men of the Royal Navy. A commencement was made in May, 1921, with the recruiting of New Zealand boys and youths for training as seamen and stokers. H M S *Chatham* was relieved in May, 1924, by H M S. *Dunedin*, an oil-burning light cruiser of the latest type. A Naval Board was constituted, charged with the control of all matters relating to the Naval Forces, upon the policy directed by the Minister, and vested with the executive command of the Naval Forces the Board to be composed of the Minister of Defence (President) and the following members: the Commodore Commanding New Zealand Station (1st Naval Member), the Chief Staff Officer to the Commodore (temporarily, as and Naval Member), the Secretary to the Commodore Commanding (Secretary to the Board). By Order-in-Council of the 20th June, 1921, it was provided that the ships and personnel comprising the New Zealand Naval Forces shall be described respectively as forming and belonging to "The New Zealand Division of the Royal Navy," which shall be the official designation of the Force. H M S. *Veronica* (Sloop), which had been on the New Zealand station since 1920, was recommissioned in May, 1924, for further service on the station. H M S *Tararua* arrived in New Zealand waters from England in March, 1922, and was recommissioned in March, 1924.

FINANCE

Revenue and expenditure (Consolidated Fund) and debt of New Zealand for the 5 years ended March 31, 1924 —

Year	Revenue	Expenditure	Gross Debt
1920	£26,081,340	£23,781,924	£201,170,755
1921	34,260,961	28,068,729	206,324,319
1922	28,127,007	28,466,837	219,054,385
1923	27,579,443	26,263,760	218,953,324
1924	27,960,370	26,128,005	221,616,361

Taxation by General Government.—The total taxation for the year ended March 31, 1924, was £16,416,870, representing £12 6s. 1d. per head of population.

Customs and Excise Duties	£7,870,309
Land-tax	1,426,463
Income-tax	3,781,532
Death Duties	1,817,315
Other taxes	1,821,251

Land Valuation.

Unimproved value of North Island. South Island land	£111,127,022	£119,653,969
Value of Improvements	121,025,442	71,587,361

Capital value	£362,162,464	£191,241,330
-------------------------	--------------	--------------

Banking.—At the end of 1923 there were six banks of issue doing business, two of which were New Zealand banks. Total assets (average of four quarters of year), £59,541,235, liabilities, £56,204,292, value of notes in circulation, £6,593,068.

Post-office and private savings banks had, at the close of the year 1923-24, 827,599 depositors, having £51,315,000 to their credit.

EDUCATION.

The State system of education is free, secular, and compulsory. There were (December, 1923) 2,266 public primary schools, with 6,167 teachers and 214,778 scholars, there are also 294 registered private primary schools, with 26,020 scholars, and, in addition, 124 village schools for the Maoris with 6,186 scholars. The higher education of boys and girls in the cities and large towns is carried on in 37 endowed colleges and grammar schools, and in 14 technical high schools. In addition there are 68 secondary dept. of district high schools, 17 private secondary schools, and 11 schools for Maoris. The University of New Zealand (to which are affiliated Auckland University College, Victoria University College, Canterbury College, and the University of Otago, the four colleges having 4,202 students in 1923) has power to confer degrees.

PRODUCTION AND INDUSTRY.

Agriculture and Forestry.—The total area of the Dominion (excluding annexed islands) is 66,390,262 acres, and 43,572,465 acres of this were in occupation in 1924, this acreage representing 86,140 holdings. New Zealand is a pastoral rather than an agricultural country, but the quantity of wheat and oats grown is sufficient for the Dominion's requirements. The area under wheat in 1923-24 was 173,864 acres, giving a yield of 4,174,537 bushels. An area of 63,842 acres of oats was threshed, the yield totalling 1,964,511 bushels; while 326,650 acres were converted to chaff, hay, or ensilage. Other acreages were barley, 21,226; rye-grass, 43,487, and potatoes, 20,970. An area of 487,370 acres was sown in turnips and mangolds. Amongst the forest productions are the Kauri pine (found only at the northern extremity of the islands), much valued for shipbuilding and for its resin (Kauri gum). New Zealand flax is used for the manufacture of ropes and twine.

Live Stock.—The cattle in 1924 numbered 3,563,676; sheep, 23,775,776; pigs, 474,100; and horses, 330,535. The pastures of the South Island produce the celebrated sheep of the Canterbury Plain.

Minerals.—Coal-mining is one of the largest industries, the output in 1923 being 1,669,834 tons, the approximate total output to the end of 1923 being 57,221,143 tons. Gold-mining, both alluvial and quartz, is an important in-

dustry in many districts, and rich iron ore, in the form of iron sand, has been found in Taranaki, and in the form of brown hematite at Parapara, near Nelson.

EXTERNAL TRADE.

The total imports and exports of the Dominion are valued as follows, for the 5 years 1919-23:—

Year	Imports	Exports	Total
1919	£30,671,698	£53,970,075	£84,641,773
1920	61,595,828	46,441,946	108,037,774
1921	42,942,443	44,828,827	87,771,270
1922	35,012,501	42,726,249	77,738,750
1923	43,378,493	45,967,165	89,345,658

The principal articles of import and export in 1923 were:—

	Imports	Exports
Apparel	£2,819,297	£10,904,658
Books and Music	480,410	2,642,866
Boots and Shoes	1,200,581	3,531,273
Coal	520,302	120,777
Drugs and Chemicals	1,126,785	665,666
Fancy Goods and Toys	629,868	206,090
Fruit, fresh, preserved	723,827	340,579
Hosiery	566,991	384,173
Hardware and Ironmongery	613,196	
Iron and Steel	2,437,823	
Machinery and Machines	3,007,509	
Manures	347,230	
Motor Vehicles	3,494,402	
Oils	2,315,463	
Paper and Stationery	1,342,786	
Silks	643,131	
Spirits	916,178	
Sugar	1,454,911	
Tea	818,977	
Textile Piece Goods	5,231,853	
Timber	628,620	
Tobacco, Cigars, &c	1,484,508	
Wool		£10,904,658
Butter		2,642,866
Frozen Meat		3,531,273
Cheese		120,777
Sheep-skins Pelts		665,666
Tallow		206,090
Gold		340,579
Kauri Gum		384,173
Hides		
Preserved Milk		
Timber		
Rabbit Skins		
Sausage Skins		
Phosphorus Fibre		

The external trade of 1923 was shared by the principal counties as under:—

Country	Imports from	Exports to
United Kingdom	£24,002,671	£37,324,665
Australia	4,259,323	2,642,866
United States	6,696,723	3,531,273
Fiji	859,577	120,777
Canada	2,930,626	665,666
Japan	548,622	206,090
France	127,121	340,579
India and Ceylon	1,434,024	384,173

COMMUNICATIONS.

Railways.—In March, 1924, there were 3,022 miles of Government railway lines in working order, and more under construction, and 125 miles of private lines, together with an excellent coaching system. The number of passengers carried in 1923-24 was 23,836,312, while goods

carried amounted to 6,935,227 tons. Revenue and expenditure were £6,984,211 and £5,403,766 respectively

Shipping—During 1923 the vessels entered inwards numbered 664 (tonnage, 2,111,879), and those entered outwards 646 (tonnage, 2,060,502), exclusive of coasting vessels

Posts and Telegraphs—The annual postal circulation was (1923) 258,625,252 letters and post-cards, 38,138,697 newspapers, 79,546,000 books and packets, and 6,886,858 parcels, and the work is effected by 2,130 post-offices. There are 12,954 miles of telegraph line, with 52,910 miles of wire. The telephone service is highly efficient and universal in all centres. Telegrams transmitted during year, 14,476,866

TOWNS

CAPITAL, WELLINGTON, in the North Island

The estimated population of the Urban Areas, at March 31, 1924, was as follows—Wellington, 114,510. Auckland, 172,925. Dunedin, 75,755. Christchurch, 115,360. Invercargill, 30,520. Napier, 18,205. Gisborne, 15,365. Palmerston North, 18,310. Nelson, 11,400. Timaru, 16,710. Wanganui, 24,895. New Plymouth, 14,470. Hamilton, 16,120. and Hastings, 14,035

THE ISLANDS OF NEW ZEALAND

The following islands form part of the Dominion proper—*North Island* and adjacent islets, *South Island* and adjacent islets, *Stewart Island* and adjacent islets, and *Chatham Islands*, between 43° 30' S lat and 175° 40'–177° 15' W long. Chatham Islands have a population of 209 Europeans and 245 Maoris and half-castes. They support large flocks of sheep and some cattle.

The following are included in the geographical boundaries of New Zealand as proclaimed in 1847—*The Three Kings* (discovered by Tasman on the Feast of the Epiphany), in 34° 9' S lat and 172° 8' 8" E long (uninhabited). *Auckland Islands*, about 200 miles south of Bluff Harbour, in 50° 31' S lat, and 166° 13' E long. The islands contain several good harbours, but are uninhabited. *Campbell Island* (uninhabited). *Antipodes Group* (49° 41' 15" S lat, and 178° 43' E long) uninhabited, and *Bounty Islands* (47° 43' S lat, 179° 0' 30" E. long) uninhabited.

The following islands have been annexed to New Zealand—

The Kermadec Group, between 29° 10' to 32° 30' S lat, and 177° 45' to 179° W long, includes Sunday, Macaulay, Curtis Islands, and L'Esperance, and some islets. The group is uninhabited.

Cook Islands, included in the boundaries of New Zealand since June, 1901, consist of the islands of Rarotonga, Aitutaki, Mangaia, Atin, Mauke, Mitiharo, The Heveys (Manuae and Aoutu), Takutea, Palmerston, Penrhyn (or Tongareva), Maua Niki, Rakahanga, Pukapuka (or Danger), Niue (or Savage), Suvariov, and Nassau. The population at the Census of 1921 numbered 13,209, all except 360 being Natives. The chief products are bananas, oranges, and other tropical fruits, copra, coffee, pearl-shell, and hats (Niue). The trade is chiefly with New Zealand and the United States of America. The exports (1923)

were valued at £131,937, and the imports at £149,778. Rarotonga is the chief island, with a native population of 3,287, and a population other than native of 216. The government is administered locally under the direction of New Zealand. The Island Council of the Cook Islands is under the direction of the Resident Commissioner at Rarotonga. The five Arikis of Rarotonga are of equal rank and are all members of the Council. Rarotonga is a place of call for the mail steamers between Sydney, N.S.W., and Wellington, N.Z., and San Francisco, U.S.A. Resident Commissioner, Rarotonga, H.F.

Ayson (and allowance £100) £915
Resident Comm. Niue, G.N. Morris 700

Ross Dependencies—By Imperial Order in Council of July 30, 1923, the coasts of the Ross Sea, with adjacent island and territories, were proclaimed a British Settlement under the control of the Governor-General of New Zealand.

The Mandated Territories are—

Western Samoa, consisting of the islands of Savaii, Manono, Apollima, Upolu, Fauatapu, Namua, Nuutele and Nuulua (the remaining islands of the Samoan group belonging to the U.S.), have a total area of 1,050 square miles and a population at the Census of 1921 of 35,402. The largest islands are Savaii (660 square miles) and Upolu (340 square miles). Upolu contains the harbours of Apia and Saluafata, of which the former is the capital. In 1899 a disastrous tidal wave wrecked three U.S.A. warships and the "Eber" and "Adler" of the German Navy, *H.M.S. Calliope*, of the British Navy, effecting its escape. The disaster is recorded in "A Footnote to History," by R.L. Stevenson, whose home was at Vailima (near Apia), where also he is buried. The natives of the islands are Christians of different denominations, including a few adherents of the Latter Day Saints (Mormons). Coco-nuts (copra), and cocoa are the chief products of the islands.

Administrator, Maj-Gen G.S. Richardson, C.B., C.M.G., C.B.E.

Nauru Island, just South of the Equator, was captured by an Australian Expedition in 1914, and is administered by the United Kingdom, the Commonwealth of Australia and the Dominion of New Zealand. The island has a population of about 1,000. There are valuable deposits of phosphates on the island.

THE EMPIRE'S LONGEST TUNNEL.

The official opening of the Otira Tunnel took place on August 4, 1923, the Prime Minister declaring the tunnel open. The Otira (or Arthur's Pass) Tunnel is the longest in the British Empire and the seventh longest in the world. It will give direct rail communication between the East and West Coasts of the South Island, the respective terminals being Christchurch, and (on the other side of the Southern Alps) Greymouth. Time-table trains have made the through trip as from August 6th. The tunnel, which is 5½ miles in length, cost £1,515,576, including the electrification of eight miles of track, electric locomotives being used in the tunnel.

NOTE.—"The Dominion of New Zealand," an article contributed by the Rt. Hon. W. F. Massey, P.C., Prime Minister, will be found on p. 678.

The Union of South Africa.

685

AREA AND POPULATION.

Provinces and Capitals.	Area (English Sq. Miles)	Census of 1921.	
		White.	Total
Cape of Good Hope (Cape Town)	276,966	650,609	2,782,719
Natal (Pietermaritzburg)	35,284	136,838	1,429,398
Transvaal (Pretoria)	110,450	543,485	2,087,636
Orange Free State (Bloemfontein)	49,647	188,556	628,827
South-West Protectorate	322,200	19,432	227,739
Total	794,547	1,538,920	7,156,319

Of the total population of the Union (1921), 3,536,992 were males, and 3,391,588 were females. The increase for the Union (1904-11) was 15·41 per cent. For the Provinces it was as follows—Cape, 6·44 per cent.; Natal, 7·69 per cent.; Transvaal, 32·78 per cent.; Orange Free State, 36·37 per cent.

The increase for the Union (1911-21) was 15·99 per cent. For the Provinces it was as follows—Cape, 8·49 per cent., Natal, 19·71 per cent.; Transvaal, 23·81 per cent., Orange Free State, 19·066 per cent.

* Increase due to influenza epidemic.

PHYSIOGRAPHY.

Boundaries.—The provinces of the Union extend from the southernmost point of the African Continent to the course of the Limpopo River, i.e., from 34° 50' - 22° South latitude, and include all the British territories within those limits, with the exception of Basutoland and the Swaziland and Bechuanaland Protectorates, while provision is made for the future inclusion within the Union of those territories and of the territories of the British South Africa Company.

Relief.—The southernmost province contains many parallel ranges, which rise in steps towards the interior. The south-western peninsula contains the famous *Table Mountain* (3,582 feet), while the *Great Zwartbergen* and *Lange Bergen* run in parallel lines from west to east of the Cape province. Between these two ranges and the *Roggeveld* and *Neuwveld* to the north is the Great Karoo Plateau, which is bounded on the east by the *Succenbergen*, containing the highest summit in the province (Compassberg, 7,800 feet). In the east are ranges which join the *Drakensbergen* (11,000 feet), between Natal and the Orange Free State.

The Orange Free State presents a succession of undulating grassy plains with good pasture-land, at a general elevation of some 3,800 feet, with occasional hills or kopjes. The Transvaal is also mainly an elevated plateau with parallel ridges in the *Magalies* and *Waterberg* ranges of no great height. The veld or plains of this northernmost province is divisible into the Hooge Veld of the south, the Banker Veld of the centre, and the Bush Veld of the north and east, the first and second forming the grazing and agricultural region of the Transvaal and the last a mimosa-covered waste. The eastern province of Natal has pastoral lowlands and rich agricultural land between the slopes of the *Drakensberg* and the coast, the interior rising in terraces as in the southern provinces.

Rivers.—The *Orange*, with its tributary the *Vaal*, is the principal river of the south, rising in the *Drakensbergen* and flowing into the Atlantic between the Protectorate of South-West Africa and the Cape of Good Hope. The *Limpopo*, or Crocodile River, in the north, rises in the Transvaal and flows into the Indian Ocean through Portuguese East Africa. Most of the remaining rivers are furious torrents after rain, with partially dry beds at other seasons.

HISTORICAL SKETCH.

The *Cape of Good Hope* was discovered in 1486 by Bartholomew Diaz, the commander of one of the many expeditions sent out by successive Kings of Portugal to discover an ocean route to India. Diaz merely doubled the Cape and returned home. Eleven years later, in 1497, Vasco da Gama not only doubled the Cape and landed in what is now Natal, but successfully accomplished the voyage to India. The Portuguese, however, did not make any permanent settlement at the Cape, although it was used by their vessels, and subsequently also by those of England and Holland, as a place of call in going to and from the East Indies. In 1652 the Netherlands' East India Company took possession of the shores of Table Bay, established a fort, and occupied the adjacent lands, in order to be always ready with supplies for their passing ships. In 1814 the Cape was formally ceded to the British Crown.

Natal derives its name from the fact of its discovery on Christmas Day, 1497, by the celebrated Portuguese navigator, Vasco da Gama. The first European settlement was formed (1824) by a small party of Englishmen, who came by sea and established themselves on the coast where Durban now stands. Natal was then a part of the great Zulu kingdom under T'Chaka. Between 1835 and 1837 another settlement was formed by a large body of Dutch Boers, who came with their waggon overland from the Cape Colony and settled in the northern districts, where to this day the Boers preponderate. In the year 1843 Natal was proclaimed as British and annexed to the Cape Colony. In 1856 it was erected into a separate colony, with representative institutions, and in 1893 acquired responsible government.

The *Transvaal* was formed as the *South African Republic* by parties of Dutch Boers from the English colonies who "trekked" into the interior of the continent and wrested the land across the Vaal river from the native chiefs. The discovery of the goldfields within its borders led to the settlement of large numbers of foreigners, and eventually to hostilities with the British Government. A war of nearly three years' duration was fought with great tenacity, and its close was marked by the inclusion of the South African Republic within the British Empire, "responsible government" being granted almost immediately.

The *Orange Free State* was founded, in much the same way as the *Transvaal*, by Boer emigrants from Cape Colony, and its independence was granted in 1854. Its subsequent history is identical with that of the *Transvaal*.

Delville Wood.—The title deeds of Delville Wood, containing the graves of South African troops who fell there during the battles on the Western Front in France during the Great War, are held by the Government of the Union of South Africa, and Delville Wood is part of South Africa.

GOVERNMENT.

The Union of South Africa is constituted under the South Africa Act, 1909 (9 Edw. VII., cap. 9), passed by the Parliament of the United Kingdom on September 20, 1909. In terms of that Act the self-governing Colonies of the Cape of Good Hope, Natal, the *Transvaal*, and the Orange River Colony became united on May 31, 1910, in a legislative Union under one Government under the name of the Union of South Africa, those Colonies becoming original Provinces of the Union under the names of the Cape of Good Hope, Natal, the *Transvaal*, and the Orange Free State respectively.

The Union Government is seized of all State property, and the Railways, Ports, Harbours and Customs are administered by Union Commissioners for the benefit of a Consolidated Revenue Fund. The former debts of the Provinces are administered by and form a first charge upon the funds of the Union. Provision is made in the Act of 1909 for the admission to the Union of Rhodesia, and for the transfer to the Union Government of the administration of protected and other native territories. The Union was inaugurated by H.R.H. the Duke of Connaught, K.G., in 1910.

The Government publishes annually an "Official Year Book of the Union of South Africa," giving full statistics and descriptive information on all matters of public concern.

The seat of the Government is Pretoria; the seat of the Legislature is Cape Town.

The Executive is vested in a Governor-General appointed by the Sovereign, and aided by an Executive Council, with a Legislature of two Houses.

Governor-General (Pretoria), Brigadier-General the Earl of Athlone, G.C.B.,

G.C.M.G., G.C.V.O., D.S.O., A.D.C. (1924) £10,000

Secretary, Major J. U. F. C. Alexander, O.B.E. 900

Private Secretary and Comptroller, Captain R. C. Hargreaves, M.C. 400

THE LEGISLATURE

The *Senate* consists of 40 members. For ten years after the establishment of Union eight are nominated by the Governor-General in Council and 32 are elected, eight for each Province. The first election was made prior to the establishment of the Union by the two Houses of each of the Colonial Legislatures sitting as one body, and a vacancy will be filled by the choice of the Provincial Council in respect of whose Province a vacancy occurs.

The *House of Assembly* consists of 125 elected members, 51 of whom represent the Cape of Good Hope, 17 Natal, 50 Transvaal, and 17 the Orange Free State. Members of both Houses must be British subjects of European descent.

<i>President of the Senate</i> , Hon. H. C. van Heerden	£1,200
<i>Speaker of the House of Assembly</i> , Hon. E G Jansen	2,000

LOCAL GOVERNMENT

A Provincial Council in each Province has power to legislate by ordinance on certain subjects specified in the Act, and on such other subjects as may be delegated to it. All ordinances passed by a Provincial Council are subjected to the veto of the Governor-General in Council. Members of the Provincial Council are elected on the same system as Members of Parliament, but the restriction as to European descent does not apply. Provincial administration is in the case of each Province vested in an Administrator, with an Executive Committee of four members. The Provincial Council in each case consists of the same number of elected members as there are electoral divisions of such Province for the House of Assembly, unless that number is less than 25 (as in the cases of Natal and the Orange Free State), when the number is 25. Each Council exists for a period of three years. Direct taxation is permitted for Provincial purposes, and legislation is authorised on certain specified subjects.

Administrators of the Provinces

<i>Cape</i> The Hon Sir N F. de Waal, K C M G, LL D	£2,500
<i>Natal</i> The Hon Sir G. T. Plowman, K C M G	2,000

Staff employed in Government Service (excluding Railways), 1922-23, 34,899	

DEFENCE

The South Africa Defence Act 1912, became law on June 14, 1912. This Act, as amended by the South Africa Defence Act Amendment Act of 1922, provides for the establishment of Defence Forces comprising—

1. *The South Africa Permanent Force*, which consists of—

- (i) The South African Staff Corps
- (ii) The South African Instructional Corps.
- (iii) The South African Naval Service
- (iv) The South African Field Artillery.
- (v) The 1st Regiment, South African Mounted Riflemen.

(vi) The South African Permanent Garrison Artillery.

(vii) The South African Engineer Corps.

(viii) The South African Air Force.

(ix) The South African Service Corps.

(x) The South African Medical Corps.

(xi) The South African Ordnance Corps.

(xii) The South African Veterinary Corps.

(xiii) The South African Administrative, Pay, and Clerical Corps.

The South African Naval Service includes the officers and men of the South African Division of the Royal Naval Volunteer Reserve engaged for whole-time service.

2 *The Coast Garrison Force*

3 *The Citizen Force*

4 *The Royal Naval Volunteer Reserve*

5 *Special Reserves*

Every citizen between the ages of 17 and 60 is liable to render personal service in time of war, and those between 17 and 25 are liable to undergo a prescribed peace training with the Active Citizen Force spread over a period of four consecutive years. The Act states, however, that only 50 per cent. of the total number liable to peace training shall actually undergo that training unless Parliament makes financial provision for the training of a greater number.

The establishment of Rifle Associations is a marked feature of the Act, citizens between the ages of 21 and 25 who are not entered for peace training with the Active Citizen Force are to be compelled to undergo training during these four years in a Rifle Association, thus ensuring that, in course of time, all citizens will at least know how to handle and use a rifle. Provision is also made in the Act for the cadet training of boys between 13 and 17 in urban and other populous areas, where facilities can conveniently be arranged.

The Union is divided into 15 military districts. To each military district has been allotted various units of different arms, to which the citizens entered for peace training in their 20th and 21st years are posted.

The object of the amending Act is to provide for a small standing army with an efficient Air Force and the nucleus of a Naval Service for coastal defence. Under the Act the Permanent Force is relieved of all Police duties in peace time for which they were liable under the Act of 1912, and becomes a purely military force. The provision of a Police Reserve to take the place of the South African Mounted Riflemen, when on active service, is no longer necessary, and has been expunged from the Act of 1912 accordingly.

EDUCATION.

In the South Africa Act, Section 85 (iii), it is provided that "Education, other than higher education, for a period of five years and thereafter, until Parliament otherwise provides, shall be and remain under the jurisdiction of the respective Provincial Councils." For practical purposes it has been provisionally determined that all post-matriculation instruction shall be deemed to constitute higher education. The Department of Education, under the Minister, is therefore concerned with—

(1) The University of South Africa, established April, 1918, as successor to the University of the Cape of Good Hope, with the following constituent Colleges—(a) Rhodes University

College, Grahamstown (1904) (h) Huguenot University College, Wellington (1907) (i) Grey University College, Bloemfontein (1910) (d) Transvaal University College, Pretoria (1910) (f) Natal University College, Pietermaritzburg (1909) (g) Potchefstroom University College (1911) (2) The University of Cape Town (1918—in succession to the South African College—1829) (3) The University of Stellenbosch (1918—in succession to the Victoria College). (4) The University of the Witwatersrand (1921—in succession to University College, Johannesburg—1910). The Department is further charged with the Teachers' First Class Certificate examinations.

The total number of students at these Colleges in 1923 was 4,166. The State expenditure on higher education in 1923 was £253,800.

Provision is made on the Vote of the Department of a grant-in-aid to the Potchefstroom University College (124 matriculated students in 1923) and to the South African Native College at Alice, Cape Province, an institution for the higher education of natives, which was formally opened in February, 1916, and has present accommodation for more than 50 students.

Primary Education and Education other than Higher Education.—The central direction of public education (other than higher education) is exercised by the Provincial Education Department in each of the four Provinces of the Union. Each Department is controlled by a Director or Superintendent of Education. In the Cape Province practically all the schools are State-aided. In Natal they are partly State schools, and partly State-aided. In the Transvaal and Orange Free State they are in the main State schools. In all Provinces primary education is free.

Number of Schools in the Union in 1922.—For white scholars, 4,750; for coloured scholars, 3,288; total, 8,038.

Number of Scholars and Teachers in 1922.—White scholars, 331,081; coloured scholars, 251,872; total, 582,953. Teachers, 20,829.

Expenditure from State Funds in 1922.—Cape, £2,514,412; Natal, £575,245; Transvaal, £2,556,905; Orange Free State, £822,293; total, £6,468,855.

In all Provinces Normal Colleges and other institutions for the training of teachers are maintained by the Education Departments.

Superintendent General of Education, Cape,

W J Viljoen, M.A., Ph.D.

Supt. of Education, Natal, H Bryan, M.A.

Director of Education, Transvaal, H S Scott (Acting)

Director of Education, Orange Free State, C F Schmidt, B.A.

UNION FINANCE

The ordinary Revenue and Expenditure of the Union (exclusive of Railways and Harbour Administration) for the five years ended March 31, 1924, are stated as under:—

Year	Revenue	Expenditure
	£	£
1919-1920	26,882,057	20,771,950
1920-1921	29,676,186	25,597,718
1921-1922	28,824,270	28,409,025
1922-1923	27,234,515	24,065,556
1923-1924	24,252,828	24,340,698

DEBT

The Public Debt of the Union at March 31, 1924, was £208,232,528, composed as follows:—

Rate	Funded Debt	Floating Debt
	£	£
3% . . .	54,098,740	2,077,400
3½% . .	28,530,744	22,500
3¾% . .	3,000,000	19,500
4% . . .	27,430,789	14,918,200
4½% . .	13,033,900	721,266
5% . . .	40,833,699	3,559,390
6% . . .	19,986,400	
	£186,914,272	£21,318,256

At 31st March, 1923, the Funded Debt was £175,281,582 and the Floating Debt, £24,404,286.

PROVINCIAL FINANCE

Prior to the passing of the Provincial Relations Act the four Provincial Administrations (Cape of Good Hope, Natal, Transvaal, and Orange Free State) received no revenues beyond the amount voted by Parliament by way of subsidies for the performance of the services and duties assigned to them. On the passing of the Act (April 1, 1913) certain revenues were transferred and assigned to the various provinces, and, in addition, subsidies were voted by Parliament equal to half the normal or recurrent expenditure. The Cape Province receives an additional amount equal to one-half the expenditure by local bodies. Natal and Orange Free State Provinces receive additional grants of £100,000 each, and Natal receives a special grant in lieu of trading and liquor licences payable to local authorities.

The ordinary Revenue and Expenditure for the seven years ended March 31, 1923, were as follows:—

Financial Year	Revenue transferred or assigned	Subsidies	Total Ordinary Revenue	Total Ordinary Expenditure
	£	£	£	£
1915-16	1,134,566	2,069,628	3,204,194	3,365,705
1916-17	1,423,666	2,345,517	3,769,183	3,708,684
1917-18	1,723,049	2,611,435	4,334,484	4,255,051
1918-19	2,093,753	3,028,428	5,122,178	5,272,710
1919-20	2,405,134	3,553,581	5,958,715	6,368,052
1920-21	3,596,766	4,477,998	8,074,764	8,217,256

* Not enumerated

Manufactures.—The development of local industries has been most marked during the last three years, the scarcity of overseas supplies, with the consequent increase in prices, having served as a very effective measure of protection, under which enterprise has flourished to a degree previously unknown. New industries have sprung up in the principal centres of trade, and existing industries have largely extended their operations. From the recently published returns of manufactures in the Union, the total output during the year 1917-18 was £60,806,910 sterling, 1918-19, £70,934,098. 1919-20, £94,913,844, 1920-21, £98,307,910, 1921-22, £79,446,299, and 1922-23, £74,426,292. Amongst the new industries which have been established during the period of the War may be mentioned the

following—Wattle extract; industrial alcohol (motor fuel) from molasses; calcium carbide, sulphate of ammonia, bottle-making, starch from maize, iron smelting (still in the initial stage), arsenic production, detinning of scrap tin, copper manufacture, &c. As indicating the production during 1922-23 of certain specified industries, the following figures may be of interest—

PARTICULARS OF CERTAIN MATERIALS USED OR TREATED AND OF ARTICLES PRODUCED IN SPECIFIED INDUSTRIES DURING 1922-23

Total value of materials used	—	2,148,416

Mines and Minerals—Gold mining still continues the chief source of the country's wealth. At the outbreak of war the diamond mines closed down. The value of the mineral output of the Union in 1922 was —

Gold ..	38,862,794	Silver	197,888
Diamonds	6,038,207	Salt	114,225
Coal ..	3,713,706	Asbestos	121,453
Copper ..	404,511	Osmium	43,580
Tin ..	170,337	Cornudum	22,543
Lime ..	239,992		

The mineral production for the Union of South Africa was as follows —

Gold		
1919	... 8,331,651 fine oz.	£35,390,609
1920	8,158,455	34,654,922
1921	8,128,710	34,528,564
1922	7,009,858	29,775,984
1923	9,149,073	38,822,794

The labour employed in the gold industry in December, 1923, Transvaal, was 18,358 whites and 188,839 coloured; 17,920 whites and 188,229 coloured were working in the Transvaal in December, 1922.

Diamonds		
1919	... 2,656,651 metric carats	£11,734,495
1920	2,612,511	14,762,809
1921	2,828,036	3,103,448
1922	669,859	2,266,631
1923	2,053,095	6,038,207

The labour employed in diamond mining, including individual diamond digging, was in December, 1923, Transvaal, 5,439 whites, 10,872 coloured; Cape, 3,265 whites, 14,682 coloured. O.F.S., 597 whites, 4,357 coloured, a total of 9,355 whites and 20,911 coloured. The value of diamonds owned throughout the world was stated to be £600,000,000 in 1922, one half being owned by residents in U.S.A.

Coal.		
(Tons of 2,000 lb)		
1923.		
Transvaal	6,742,289 tons	£1,771,091
Cape	6,359	4,604
O.F.S.	865,496	240,194
Natal	4,308,892	1,697,817
Totals	11,917,036	£3,713,706

The labour employed in coal mining in December, 1923, was Natal, 809 whites, 16,925 coloured, Transvaal, 770 whites, 14,632 coloured, Cape, 8 whites, 60 coloured, O.F.S., 133 whites, 2,336 coloured, a total of 1,720 whites and 33,953 coloured.

Silver
There are no silver mines in the Union. The output, valued at £197,888 in 1923, represents silver contained in gold bullion and base metal ores.

Copper
(Tons of 2,000 lb)
In 1923, 6,613 tons of concentrates were produced in the Transvaal, 2,846 tons of matte and ore, valued at £159,713, were shipped from the Cape during 1923.

Tin
(Tons of 2,000 lb)
In 1921 1,416 tons of tin concentrates, valued at £138,670, were shipped from the Transvaal, and 9 tons, valued at £1,018, from the Cape. The Union figures for 1923 are 1,422 tons, valued at £170,337, 1,422 tons were produced in the Transvaal and 3 tons in the Cape Province.

Other Minerals
The value of the total mineral production of the Union for 1923 was £54,630,492. The value of miscellaneous products (bricks, cement, &c.), £1,644,105; quarry products, £100,922; lime, £239,992; lead, £133,573; magnesite, £2,943; graphite, £1,837.

EXTERNAL TRADE

The total value of the Imports and Exports in the five years 1919-1923 (exclusive of specie) was as follows —

Year	Imports	Exports	Total Trade
1919	£50,791,205	£106,402,627	£157,193,832
1920	101,827,104	98,796,483	200,723,587
1921	57,800,316	74,354,154	132,154,470
1922	51,413,450	64,978,524	116,391,974
1923	57,814,440	81,047,094	138,861,534

COMMUNICATIONS.

Railways—The first railway in South Africa was commenced in April, 1859, the first sod being turned by the then Governor of the Cape of Good Hope, Sir George Grey. This was very shortly followed by Natal, who started the construction of a line running from Durban. Another two lines finally linked up at Heidelberg in 1895. The Cape line was opened for public traffic to Stellenbosch in 1862 and to Wellington in 1863, while a track to Wynberg was opened to traffic in 1864. Little progress was however made in succeeding years, and it became evident that the development of the country could not be left to private enterprise. The existing Cape lines were therefore purchased by the Government on Jan. 1, 1873, and in 1876 Natal followed by acquiring the railways in that colony. Increased working at once took place, and the construction of four lines was pushed inland from Cape Town, Durban, Port Elizabeth, and East London. Bloemfontein was reached in 1890, and two years later a line to Germiston linked up with the system already established in the Transvaal.

The total open mileage of Government-owned lines at the end of March, 1923, was 10,987 miles (comprising Cape 4,254, Orange Free State 1,342, Transvaal 2,644, Natal 1,416, and South-West Africa 1,331), of which 10,063 miles are 3 ft 6 in gauge and 924 miles a ft gauge. The capital expenditure on Government railways up to March 31, 1923, amounted to £108,658,662. The gross earnings for the year ending March 31, 1923, were £20,146,797, and the net profit, after payment of interest, £636,559. Working expenditure (excluding depreciation) amounted to £14,680,606, or 72.9 per cent of the gross revenue, as compared with £15,546,602, or 74.7 per cent of the gross revenue for the previous year. The Cape to Cairo Railway, projected by Cecil Rhodes, had advanced to Bulawayo by 1902, 1,362 miles from Cape Town, and 3,600 miles from Cairo. In 1922 there were certain small links to be completed along the Congo River, where steamers fitted the gaps, and a big link between Stanleyville and El Obeid. The Trans Zambezi Railway, from Dondo (on the Beira Mashonaland line) to the Zambezi, was opened July 1, 1922, thus placing the Union in direct communication with Nyasaland.

Posts and Telegraphs—On March 31, 1924, there were in the Union 2,887 post and telegraph offices open. 153,705,000 letters and cards, 99,915,000 newspapers, books, and circulars, 5,441,000 parcels, 3,210,000 registered articles, 17,156,000 official letters and other articles, and 5,381,000 telegrams were received and despatched during the year ended March 31, 1924. The number of money orders issued during the year ending March 31, 1924, was 419,006, while 366,177 were paid, 3,031,874 postal orders were issued, and 2,611,703 paid. The revenue of the Department of Posts, 1922-23, was £1,741,376, expenditure, £1,643,617. The revenue of the telegraph service was £457,007, that of the telephone service, £799,590, and the expenditure £1,142,174. 9,347 miles of telegraph line, carrying 40,696 miles of wire, and 4,215 miles of telephone route, carrying 207,538 miles of wire, were open in 1923-24. There are 4 wireless stations in the Union. During 1923-24, 14,103 messages, valued at £4,146, were sent, as compared with 14,288 messages in 1922-23, valued at £4,498. The number of depositors in the

Government Savings Bank on March 31, 1924, was 202,482, the amount to their credit being £6,244,824.

Shipping—In 1923, 4,377 vessels (12,692,729 net tons) entered and 4,349 vessels (12,642,864 net tons) cleared at the ports of the Union of South Africa.

RAILWAYS AND HARBOURS BOARD

The railways, ports, and harbours of the Union are administered and worked under the control and authority of the Governor-General in Council, exercised through a Minister of State, who is advised by a Board consisting of three Commissioners.

The management and working of the railways and harbours are subject to the control of the Minister of Railways and Harbours, carried on by the General Manager, who is governed by such regulations as the Minister may from time to time frame, after consultation with the Board. The constitution of the Board at date is as follows.—

Chairman, Hon. C. W. Malan, Minister of Railways and Harbours.

Members, Hon. T. O. O. M. G., The Hon. J. F. B. Rissik, and C. T. M. Wilcocks.

Secretary, C. M. Hoffe.

Chief Officers

Gen. Manager, Johannesburg, Col. Sir William Wilson Hoy, K.C.B.

Asst. do., Johannesburg, R. B. Gettliffe.

Asst. do., Bloemfontein, P. F. Potter.

Asst. do., Cape Town, J. W. Carr, D.S.O.

Asst. do., Durban, J. R. Mote, M.I.C.E.

Chief Civil Engineer, Johannesburg, R. C. Wallace, M.I.C.E.

Chief Mechanical Engineer, Pretoria, F. R. Collins, D.S.O.

Chief Accountant, Johannesburg, G. A. Reid.

Chief Railway Storekeeper, Johannesburg, H. J. Lyddon.

Catering Manager, Johannesburg, A. H. Simmons.

Publicity Manager, Johannesburg, A. H. Tatlow.

South-West Africa.

Administered under Mandate as an integral part of the Union of South Africa.

Administrator, G. H. Reitz Hofmeyr, O.M.G.

Secretary, H. F. Smit.

SOUTH-WEST AFRICA lies between S lat 17° 23' and the Orange River. There is in addition a narrow strip lying between 18°-18° 30' S lat extending from 21° to 25° E long. This is known as the Caprivi Zipline, and gives access to the Zambezi river. The estimated area of the country is 325,440 square miles, and the population amounts to approximately 227,739, of whom 19,432 are Europeans. These figures include the estimated population of certain areas, which it was found impracticable to enumerate in connection with the recent census, viz. Ovambo-land, 90,030; Kuring Kuru, 20,010; Kaokoveld, 10,970; Franzfontein, 300. Running more or less parallel to the coast, and roughly at a distance of 60 to 100 miles from it, is a broken range of mountains, from which there is a gradual slope to the sea. The country between these mountains and the coast is barren desert except towards the North, and is known as the Namib. Towards the East from these mountains the land slopes eastward and forms the western edge of the great Kalahari Plateau. The Northern and Southern boundaries are the Okavango and Cunene, and the Orange Rivers, all perennial streams of considerable volume, and on the Orange are the

Great Falls, twice the height of Niagara. All the other rivers in the country are dry except occasionally in the rainy season, but in most of them water can always be obtained at suitable places by sinking a shallow well. Of these the most important are the Kuiseb, Swakop, Omaruru, Ugab, and Hoarusib in the West, Great and Little Fish Rivers in the South, the Elephant, Black and White Nosob in the South-East, and in the North are broad sandy beds named by the natives Omuatambas. The townships are dependent almost entirely for their water on wells or springs. At such places as Windhoek and Grootfontein in the latter give a strong supply. Along the Auob River, in the Gibeon District, artesian water has been discovered in such quantity as to have converted what was formerly a dry river bed into a stream running for 70 miles before it disappears into the sand. Sink-hole lakes occur in the "Karst" region extending from Grootfontein to Outjo. The Etoscha Pan, which lies across Lat 19 and its intersection with Long 16, and is about 70 by 40 miles in extent, is a geographical feature of great interest. In the summer during the rainy season it sometimes becomes filled with water partly from the Cunene River, 100 miles away, which then overflows its banks. In the winter it is dry and is frequented by game of all kinds in large numbers. Except by means of pumping, the waters of the Orange River are not available for agricultural purposes so far as South-West Africa is concerned, as the stream flows in a deep valley with precipitous sides and can only be crossed at one or two places. In 1919, Professor E. H. L. Schwartz, F.R.S. (Professor of Geology at Rhodes University College, Grahamstown), propounded a scheme for making permanent use of the waters of the Cunene by building across it a small dam which would ensure that the Etoscha Pan was continuously filled. His scheme also embraced the Okavango, most of the waters of which at present drain away into the Zambesi, but which in former times ran into Lake Ngami and the Makalaki Lake, both situate in the Bechuanaland Protectorate. He advanced the theory that if these waters are turned to their original purpose the whole of South Africa will benefit by increased rainfall. Among the mountain features of the country, which is geologically of great interest, are the Chaikab (3,520 ft.) near Luderitz, the Khomas Highlands (6,000) near Windhoek, the Onyati (7,198), 40 miles N.E. of Windhoek, the Anas (6,500), just south of Windhoek, the highest peak of which is the Moltebliek (8,148 ft.), the Omatako in the North (8,790 ft.), the Gansberg (7,662) in Great Namaqualand, the Erongo, the Waterberg, the Brandberg and many others, including the large extinct volcano near Berseba named Gotsi Gubib. The climate is dry. Rain falls only in the shape of thunderstorms and in the later summer months. The actual rainfall varies from ¼ inch at the coast to 4 inches in the southern portion of the interior and 20 in the northern. Very little agriculture is undertaken, and except at one or two places such as on the Auob River and in the Grootfontein neighbourhood, few cereals are grown. Several irrigation schemes are now being considered, and settlers are being encouraged to undertake water conservation. The soil is of a high fertility in the greater part of the territory, and an extensive dam-making programme is expected to give an appreciable fillip to agricul-

tural production. Apart from mining the staple industry of the country is stock raising, and it is remarkably well suited for this; in the South for small stock and in the centre and North for cattle. Horse breeding is also undertaken successfully. Except in the desert the veld is for the most part of the thorn-bush type so prevalent in many parts of North, East and South Africa. After the annual rains grass of good food value grows plentifully, and when ripe retains its nutritive qualities as hay for some three years, even though remaining in the soil. In the far North palms and some useful trees are to be found. Though somewhat hot in summer, in winter the climate is magnificent. At Swakopmund, owing to the influence of the Benguela current, the temperature varies but little throughout the year, and this town compares not unfavourably with any other watering place in South Africa. The principal source of revenue lies in the diamond fields of Luderitz. The existence of diamonds in this area was discovered on April 11th, 1867, by a Cape coloured boy who had formerly worked in the Kimberley mines, and they are now worked in considerable quantities. In 1903 the output was 433,229 carats. About half of the value goes to the Administration as revenue. Recently all the important German companies were bought out by the Consolidated Diamond Mines, Limited, a company with its headquarters in Capetown, and in which various Johannesburg, British and American financiers are interested. The deposits lie on or near the surface, and working is easy, save for the absence of water and fuel. Electricity is furnished from a central station at Luderitz. An electric railway has been built to serve the fields and runs as far as Bogenfels, 70 miles to the South. Copper mining is also carried on to a considerable extent, the principal mine being at Tsumeb in the North, and producing about 5,000 long tons a month. This is by far the most productive metalliferous mine in the territory, and one of the most successful base mineral ventures in South Africa. Game abounds throughout the whole country. Game-fowl are to be found practically everywhere, and there are many other game birds, and every variety of small buck and also kudu and gemsbok exist throughout the land, while in certain places hartebeest, wildebeest and eland run in considerable numbers. The species of lesser bustard known as Ruppell's korhaan is believed only to be found in this territory. In the less frequented parts of the northern portion of the country elephant, rhinoceros and giraffes exist, and on the Cunene and Okavango many varieties of game are met with. Lions abound in the Kaokoveld and the north-western portion of the country.

The native races are:—In the South, Hottentots. In the centre, Beersos and Bergdamares, with the exception of the Rehoboth district which is occupied by a mixed race known as the Bastards; and in the North, Ovambos. To the North and East there are many small bushmen tribes, some pure bushmen, but the remainder a mixture of aboriginal native tribes and bushmen. The Kaokoveld (the North-Western area) is very scantily inhabited by Hottentots and Ovatombas, and contains no white inhabitants with the exception of a few trek Boers from the Boer Settlement in Angola. It is very mountainous, and in many places well supplied with water.

The Administration of the country is vested

in the Government of the Union of South Africa by mandate, and is actually exercised by the Governor-General, who has, however, delegated most of his powers to an Administrator appointed by the Union Government. The seat of the Administration is Windhoek, which lies practically in the centre of the country and is 5,590 ft. above sea level. The Territory is divided into 17 Districts ruled over by Magistrates as the representatives of the Government. The Territory of Walvis Bay, which is actually part of the Cape Province of the Union, is administered so far as possible as a portion of South-West Africa, and its magnificent harbour will undoubtedly in the future prove of great benefit. The only other harbour which can be made use of is at Luderitz. A regular service of steamers from Capetown to these two ports has now been in existence for some time, as also a monthly service direct from Rotterdam of passenger and cargo boats. The power of Legislation is vested in the Administrator under the authority delegated to him by the Governor-General of the Union. There is no Parliamentary representation in the country, but an Advisory Council has been appointed to assist the Administrator in his task of governing the country. It consists of nine members, representatives of all classes and interests in the country, and one is specially appointed on behalf of the natives. Among other industries than those already referred to are the export of fish, sealskins, guano, horns, hides, wool, ostrich feathers, marble, lead and other ores. A brisk trade with the Union has sprung up in slaughter cattle, and a scheme for the establishment of Cold Storage with a view to creating an export trade with Europe in meat is under consideration. The country is sparsely inhabited by Europeans, and large tracts of Crown land are available on easy terms for settlement by persons of moderate capital as farmers. Enquiries in this connection should be addressed to the Senior Officer, Lands Branch, Windhoek, S.W.A.

The railway system in South-West Africa, now controlled and worked by the South African Railways and Harbours Administration, and connected with Union Lines (De Aar to Nakop Protectorate border 344 miles), comprises:—

Union Lines—		Miles
Broad Gauge		
Walvis Bay to Swakopmund Border	...	20
De Aar to Nakop Border	...	344
South West Territory Lines—		
Broad Gauge (2 feet 6 inches):		
Nakop (border) to Swakopmund	770
Seehelm Junction to Luderitz	...	198
Narrow Gauge.		
Usakos to Tsumeb	280
Otavi to Grootfontein	57
Otjiwongo to Otjiwo	46
*Kalkfeld to Iron Mine	7
In addition, the Administration works 99 miles of privately owned lines		
The Capital of the Protectorate is Windhoek (white population, 1901, 3,460), other inland towns being Keetmanshoop (white population, 1901, 1,000), Aroab, Bethanie, Gibson, Gubbis, Grootfontein, Karibib, Okahandja, Omaruru, Otjiwarongo, Otjiwo, Rehoboth, Warmbad and Maltahöhe. The ports are Swakopmund (white population, 1901, 1,070) and Luderitz Bay (white population, 1901, 1,000).		

* Private siding

Provinces of the Union of South Africa.

CAPE OF GOOD HOPE

The Province of the Cape of Good Hope reaches in S lat from 26° to 34° 50', and in E long from 16° 25' to 30°. The extent of the country is, N E to S W 750 miles, and from N.W to S E 800 miles, with a coast-line of nearly 1,300 miles

European	329,394	321,215	650,609
Non-European	1,019,195	1,112,915	2,132,110
Total	1,348,589	1,434,130	2,782,719

Of the non-European population in 1921, 7,696 were Asiatics, 1,640,162 were Bantu, and 484,252 were of mixed and other races. Of the European population in 1921, 81,685 were primary producers, 38,370 industrial, 14,366 transport and communication, 45,122 commercial, 26,490 professional, 11,308 personal service, 7,991 independent, 412,141 dependent, 13,116 others. Of the coloured population, the great majority are engaged in agricultural or domestic employments.

Year	Births	Deaths	Marriages
1919	49,039	48,011	14,294
1920	54,029	44,790	14,783
1921	53,801	41,538	13,165
1922	58,055	36,002	13,982
1923	57,747	37,266	13,889

Religion — In 1921 there were 1,684,506 Christians — 546,065 Dutch Churches, 358,827 Anglican Churches, 395,696 Presbyterians, 115,641 Congregationalists, 134,085 Methodists, 76,421 Lutherans, 47,293 Roman Catholics, 16,102 Baptists, and 24,476 other Christian sects. Mohammedans 24,513, Jews 21,244, Heathen 1,002,450, other 49,606

Education — The Province is divided into 124 school districts, each under the control of a School Board, two-thirds of the members being locally elected, and one-third nominated partly by Government and partly by Municipal or Divisional Councils. Education is compulsory for children of European extraction. The necessary grants are provided from Provincial Council revenues, primary education being free.

Aided Schools, Dec 31, 1922, 4,552 average enrolment for year, European scholars, 132,865, average attendance, 123,194, average enrolment, non-European scholars, 161,736, average attendance, 134,348. There are 137,581 European pupils and 160,085 non-European pupils. There are 10,011 teachers. Government expenditure on education, exclusive of Higher Education (for which see Union of S.A.), for 1913-14, £253,448;

1914-15, £919,485, 1915-16, £927,856, 1916-17, £976,294, 1917-18, £1,106,059, 1918-19, £1,435,385, 1919-20, £1,676,208, 1920-21, £2,003,567, 1921-22, £2,450,629; 1922-23, £2,514,412.

Charitable Institutions, Hospitals, Pauperism. — In the hospitals 22,612 in-patients were treated during 1922, and there were 115,082 out-patient attendances at Government-aided Hospitals.

Harbours and Works — There are magnificent harbours at Table Bay (Cape Town), Port Elizabeth, East London, and Mossel Bay. There are electric tramways in Cape Town, Port Elizabeth, East London, and Kimberley.

Administration — The Province is administered by an Administrator, appointed for five years by the Governor-General, aided by a Provincial Council of 51 members (elected for three years). There is an Executive Committee of four members in addition to the Administrator, who is Chairman of the Committee.

Local Government — There are 129 municipalities, each governed by a Mayor or Chairman and Councillors, a certain number of whom are elected annually by the ratepayers. There are 75 Village Management Boards.

Administrator, Hon Sir N. Frederic de Waal, K.C.M.G. £2,500

Executive Committee, A. I. Chappina, G. H. Geldenhuys, D. Retief, G. F. Zondagh

Prov. Sec., A. Weisbecker

CAPITAL, CAPE TOWN. Total population (1921),

white and coloured (with suburbs), 207,404

Cape Town is 5,979 miles from Southampton, transit, 16 days

NATAL

The Province of Natal comprises an area of 35,284 square miles, (including Zululand, 10,427 square miles), with a seaboard of 360 miles

	Census 1921	Males	Females
Population			
Europeans	136,838	70,477	66,361
Indians and Asiatics	141,649	80,314	61,335
Natives and other coloured	1,150,911	556,809	594,102

Total 1,429,398 707,600 721,798

In 1923 the European births registered numbered 3,240, deaths 1,392, and marriages 1,179. The race question in Natal is complicated by the presence of large numbers of Indian subjects of the Crown, brought over during the latter half of the nineteenth century to supply the deficiency of local labour.

Education — A University College has been founded at Pietermaritzburg, and there are 175 primary schools (exclusive of 164 farm schools), and 15 beyond primary schools for white children, 1 art school, 1 agricultural and trades school. There are also 2 Technical Institutes, 47 Asiatic schools, 499 native schools, and 21 other coloured schools, which receive Government aid, and a large number of private schools.

Administration — The government is administered by an Administrator, aided by a Provincial Council of 25 members (elected for 3 years). There is an Executive Committee of 4 members. Administrator, Hon Sir G. T. Plowman, K.C.M.G. Executive Committee, W. P. Bowden; J. Dyson; F. J. Fahey; A. J. McGibbon

Provincial Secretary, John M. Herschensohn.

PIETERMARITZBURG, the capital and seat of the Provincial Government, is situated about 34 miles inland from Port Natal. Total population (white and coloured), 36,033 in 1901.

In Durban (population, 1901, 146,310), or Port Natal, is the only harbour of any importance on the south-east coast. The entrance is now safe and navigable for any vessel at any time, the average low-water depth at the entrance, the bar being no longer existent, for 1908 being 33 ft. 7 in.

Natal, 6,800 miles; transit, 20 days

ZULULAND.

Zululand, annexed in 1897, comprises about two-thirds of the country formerly under Zulu kings, and is bounded on the south and south-west by the Tugela River, on the south-east by the Indian Ocean; on the north by the Portuguese possessions; and on the west by the new territory (formerly Utrecht and Vrijheid districts of the Transvaal) and Swaziland. The *Amputaland Protectorate*, created by proclamation of Nov. 22, 1897, was annexed to Zululand on Dec. 27, 1897, and now forms part of the Province. The *Northern Districts* territory (consisting of the Magisterial Divisions of Vrijheid, Utrecht, Paulpietersburg, and Babanango) was annexed to Natal on January 27, 1903

THE TRANSVAAL

TRANSVAAL, 1901

Race	Males	Females.
European	284,388	259,097
Native	847,446	648,423
Other Coloured .	27,596	20,686

The Province of the Transvaal has a total area of 110,450 square miles, about 20,000 square miles lying within the tropics. The Census of 1901 showed a population of 2,087,636, of whom 1,199,430 were males and 928,206 females, the population comprised 543,485 Europeans or whites, 1,495,869 natives, and 48,282 other coloured races. In 1903 there were 20,667 births (15,539 European), 15,453 deaths (5,771 European), and 6,688 marriages (4,317 European)

Religion—The religious statistics for 1901 are:—

Churches	Whites.	Others
Dutch Churches	287,630	49,578
Anglican	98,849	94,543
Presbyterian	31,715	12,407
Methodists	37,981	143,441
Roman Catholics	23,419	14,490
Lutherans	4,583	136,335
Other Christians	19,542	64,437
Jews	33,515	4
Hindus, &c.	1,804	15,499
No Religion	4,597	1,023,417

Education—There were 1,153 schools for white children in 1901, with an average enrolment of 119,117 and an average attendance of 109,744, 5 normal colleges, and 4 normal college preparatory classes. There were also 393 native schools, 4 Asiatic schools, and 23 coloured schools, with 36,225 pupils.

Administration.—The government is administered by an Administrator, aided by a Provincial Council of 30 members (elected for 3 years). There is an Executive Committee of 4 members.

Administrator, Hon. J. H. Hofmeyr
Executive Committee, B. D. G. Pienaar, J. F. Brown, E. de Sousa, T. C. Stoffberg.
Provincial Secretary, D. E. van Velden.

The Capital is PRETORIA, pop. 1901, 74,022 (white 45,361, coloured 28,661). Pretoria, which is also the seat of the Union Government, is pleasantly situated on the River Aaples, and has wide, shady streets and magnificent buildings. The principal town is JOHANNESBURG, 5,500 feet above sea level, about 35 miles S.W. of the capital. Johannesburg is the centre of the Witwatersrand goldfields, and possesses magnificent buildings. Among its other industries are printing, brickmaking, brewing, tobacco manufactures and iron foundries. The population in 1901 was 282,131 (white 151,836, coloured 136,295).

Pretoria is distant from London 7,300 miles; transit, via Capetown, 19 days.

ORANGE FREE STATE

The Province of the Orange Free State has a total area of 50,386 square miles, and is divided into 24 districts. The population at the last five censuses was—

Year	White	Coloured	Total
1890	77,716	129,787	207,503
1904	142,679	244,636	387,315
1911	175,189	352,985	528,174
1918	181,678		
1921	188,556	440,271	628,827

In 1901, of the whites, 97,776 were males and 90,780 females, and of the coloured races, 223,597 were males and 216,674 females.

The number of births registered in 1903 was 4,828, deaths 1,570, marriages 1,310 (white persons). The registration laws affecting births and deaths apply to white persons only.

Religion—The Census of 1901 showed the following results:—Dutch Churches, 207,536, Anglican Churches, 50,807, Presbyterians, 13,562, Congregationalists, 2,763, Methodists, 135,778, Lutherans, 7,931, Roman Catholics, 9,879, Jews, 4,761, Heathen, 174,697, Others, 607,714

Education—Higher education is under the control of the Union Ministry. In 1902 there were 871 public and aided private schools, with an enrolment of 64,799 pupils, and, except when the parents object, both official languages are taught.

Administration—The government is administered by an Administrator, aided by a Provincial Council of 25 members (elected for 3 years). There is an Executive Committee of 4 members. *Administrator*, Hon. E. R. Grobler.
Executive Committee, Dr. D. G. Conradie, E. A. van der Walt, D. J. de Villiers, H. J. J. van Rensburg.

Provincial Secretary (Acting), R. A. Gregorowski

BLOEMFONTEIN, the Capital and seat of the Provincial Government, had a population of 39,034 (19,267 whites, 19,667 coloured) in 1901. A new sewerage system and an additional water supply are in successful operation. Six new bridges of masonry, 85 ft span, have been built over the Bloem Spruit, which has been straightened to avoid a repetition of the serious flood of Jan., 1904.

Bloemfontein is distant from London 6,900 miles; transit, via Capetown, 19 days.

Imperial Crown Colonies and Protectorates.

NOTE.—The Indian Empire, The Dominion of Canada, Newfoundland, The Commonwealth of Australia, The Dominion of New Zealand, and The Union of South Africa are shown separately.

ASCENSION.

(See ST HELENA.)

BAHAMAS.

The Bahamas (or Lucayas) are an archipelago of the British West Indies, lying between $21^{\circ} 42' - 27^{\circ} 34' N$ lat and $75^{\circ} 40' - 79^{\circ} 5' W$ long, and extending from the coast of Florida on the north-west to Haiti on the south-east. The group consists of about twenty inhabited islands, and an immense number of islets and rocks, comprising an area of about 4,404 square miles, and a population in 1917 of 59,928, the most part being descendants of liberated Africans. The principal islands are: New Providence (containing the capital, Nassau), San Salvador, Abaco, Grand Bahama, Long Island, Eleuthera, Exuma, Harbour Island, Inagua, Andros Island, Watlings Island, Rum Cay, Long Cay, Ragged Island, and Bimini. Originally settled by Englishmen, the Bahamas were, in 1781, surprised by the Spanish, but at the peace of Versailles were restored to the English. The climate is salubrious, and in the winter Nassau, which is outside the tropics, is frequented by many Americans. The chief industry is sponge-gathering, the exports of sponge in 1923 being valued at £111,386. The fruit trade is principally with the United States, bananas, coco-nuts, fruit and vegetables being exported. Tomatoes are being cultivated in large quantities for shipment to the United States. Mahogany, bignum-vitæ, mastic, nonwood, ebony, logwood, and satinwood are found throughout the islands. A fine industry is largely established, the land under the fine plant being about 20,000 acres, and the value of Bahamas hemp fibre exported in 1923, £38,381. The imports are chiefly food-stuffs, wines, spirits, cotton, silk and worsted fabrics, and hardware.

The Government is vested in a Governor, aided by an Executive Council of 9 members, a nominated Legislative Council of 9 members, and an elective Representative Assembly of 29 members.

CAPITAL, Nassau.

	1922-23	1923-24

Nassau is distant from Liverpool 4,000 miles, transit, 14 to 21 days, via New York.

BARBADOS.

the most windward of the West India Islands, is situated in $13^{\circ} 4' N$, and longitude $59^{\circ} 37' W$. It is nearly 21 English miles long by 14 broad at the widest part, and comprises an area of 106,470 acres (about 166 square miles), about 100,000 acres being cultivated. The population (Census of 1921) was 156,312. The principal exports are sugar, molasses, rum, and cotton, and the imports rice, salted meat, corn, salted fish, butter, flour, and Indian corn meal. Liberal provision is made for elementary education, and Harrison's College provides for higher education. Unlike most of the neighbouring islands, Barbados has always remained in the possession of Great Britain, by which it was settled in 1625. In 1885 it was constituted a distinct government, with a Governor, aided by an Executive Council and an Executive Committee, a Legislative Council of 9 members appointed by the Sovereign, and a House of Assembly of 24 members elected yearly on the basis of a moderate franchise.

The CAPITAL and port is Bridgetown (pop. 1921, 13,486), on the shores of an open roadstead (Carlisle Bay).

	1922-23	1923-24
Revenue	£519,213	£444,646

Barbados, distant 3,635 miles; transit, 13 days.

BERMUDA.

The Bermudas, or Somers Islands, are a cluster of about 100 small islands (15 or 16 only of which are inhabited, the rest being mere rocks) situated in the west of the Atlantic Ocean, in $32^{\circ}15'N$ lat and $64^{\circ}51'W$ long, comprising an area of about 10 square miles, and containing a population (1923) of 20,846 (7,183 white, and 13,663 coloured). These islands derive their name from Bermudez, a Spaniard, who sighted them in 1527, but they were first colonised by Admiral Sir George Somers, who was shipwrecked here in 1609, on his way to Virginia. The nearest point of the mainland is Cape Hatteras, in North Carolina, 580 miles distant.

The Government is administered by a Governor, who is also commander-in-chief of the military forces. He is advised by an Executive Council of 6 members, appointed by the Crown. There is also a Legislative Council, composed of 9 members appointed by the Crown, and a representative House of Assembly consisting of 36 members.

The climate is mild and healthy. There are no streams or wells, and the inhabitants are dependent on the rainfall stored and preserved in tanks. Vegetation is prolific, the principal trees being the Bermuda cedar (juniper), formerly of great importance for shipbuilding. The islands produce large quantities of onions, potatoes, and green vegetables, which are largely exported, together with cut flowers and lily bulbs, to New York. Arrowroot and bananas are also grown, but meat, flour and other articles of consumption are imported from the U.S. and Canada. Fish are plentiful round the coasts. The islands are much frequented as a health resort by Americans and Canadians.

BORNEO.

Borneo is a large island in the Eastern Archipelago, extending from lat $7^{\circ}4'N$ to $4^{\circ}10'S$, and from long $106^{\circ}50'E$ to $119^{\circ}30'E$. It is about 850 miles in length and 600 in breadth, and contains an area of 284,000 square miles, divided by the equatorial line into two nearly equal portions. The population is probably about 1,846,000, consisting chiefly of Dyaks, Malays, Kyans, Papus or Negritos, Chinese, Bajans, Dusuns, Muruts and Bugis (the aboriginal Celébes). The island was discovered by the Portuguese in 1521, and at the present time rather more than two-thirds of the island is included within "Netherlands' India." The remainder of the island is under British protection.

BRITISH NORTH BORNEO.

The territory of British North Borneo occupies the northern part of the island, with a total area of about 31,000 square miles, and a coast-line of about 900 miles. The population is 257,804, consisting mainly of Muhammadan settlers on the coast, aboriginal tribes inland, and a large number of Chinese traders, artisans, and agricultural labourers. The interior is mountainous (Mount Kinabalu, 13,455 feet) and is densely timbered.

The two chief towns are Sandakan, on the north-east coast, and Jesselton, on the west coast. All legislation is passed by the Legislative Council, which consists of 7 official and 5 unofficial members, who have the local title of Honourable. The appointment of the Governor is subject to the approval of the Secretary of State. For administrative purposes the whole State is divided into 5 Residencies. The laws are based on the Indian codes of criminal and civil procedure, amended and adapted by local ordinances. There is an Imam's Court for Muhammadan law.

	1921	1922	1923
*Revenue	\$3,156,381	\$3,078,436	\$3,050,648
Expenditure	2,021,249	1,928,244	1,973,721
Exports	7,908,136	8,205,709	10,404,393
Imports	7,720,013	6,865,144	6,608,462

The chief products are timber, tobacco, rubber, copra, cutch, bird's-nests, salt fish, damar, sago, coco-nuts, rattans, and all varieties of jungle and sea produce. The country is suitable for the cultivation of sugar, tapioca, coco-nuts, kapok, ground nuts, rubber, pepper, and gambier on a large scale. Gold has been found. Coal of good quality is now being produced at the rate of 7,000 tons per month at Selatit, in the south-eastern corner of the territory.

	1922	1923
Exports of Leaf Tobacco	\$221,692	\$1,147,593
" Rubber	2,660,276	4,806,539
" Timber	1,460,670	1,591,090

A railway runs from Jesselton, the chief port on the west coast, and down the coast to Beaufort, the centre of the rubber industry, where it turns inland to Melalap. In the interior, there is a branch from Beaufort to Weston (20 miles). There are several wireless stations. There is a State bank at Sandakan with a branch at Jesselton.

There is a native military force of 770 men under European officers, with six machine and four mountain guns. There is a Church of England and a Roman Catholic mission, and churches at Sandakan, Kudat, and Jesselton.

BRUNEI

Sultan, HH Sir Mohamed Jemal-ul-alam,
KCMG, suc May 21, 1906

A native State on the north-west coast of the island of Borneo. The total area is about 4,000 square miles, the population being 25,454 (April, 1921), of whom 23,938 are Malays and Bornean races. The territory was placed under British protection in 1888, and on Jan 1, 1906, the Sultan accepted by treaty a British Resident to assist and advise him in the administration. The chief town, Brunei, has a population of nearly 10,000. Native industries include fishing, cloth-weaving, brass foundries, and silversmiths' work. The chief imports are rice, cloth, tobacco, sugar, petroleum, and sundries, the exports are chiefly coal, cutch (mangrove extract), rubber, and sago. The revenue for 1923 was £25,873, and the expenditure £22,074, the debt (Dec 31, 1923) is £51,333. Total imports 1923, £54,887; exports, £105,036. *High Commissioner, The Governor of the Straits Settlements.*

British Resident, Brunei, E. E F Pretty

Brunei is 5 hours by steamer from Labuan, and communication is now regularly maintained, there is a central wireless station at Brunei, with subsidiaries at Labuan and Temburong.

BRITISH GUIANA,

which includes the Counties of Demerara, Essequibo, and Berbice, is situated on the north-east coast of South America and has a total area of 89,480 square miles, with a seaboard of more than 300 miles. The population, Dec. 31, 1923, was estimated at 299,199, of whom 124,453 were East Indian immigrants. The colony is bounded on the south by Brazil, on the east by Dutch Guiana, on the west by Venezuela, and on the north and NE by the Atlantic Ocean. The climate, although hot, is pleasant and healthy. The cultivated portion of the country, amounting to about 135,000 acres (of which 55,130 acres are in sugar-cane and 35,000 in rice), is confined to the sea-coast and to a short distance from the rivers. The coastland is very like the Netherlands, being below the level of the sea, and intersected with canals constructed by its former Dutch owners. At the junction of the boundaries of British Guiana and Venezuela is Mt Koraima, a flat-topped mountain 8,740 feet above sea level, and on the Potaro River (a tributary of the Essequibo) are the *Kaieteur Falls*, with a clear drop of 741 feet and a total fall of 822 feet. The seasons are divided into dry and wet, the two dry seasons lasting from the middle of February to the end of April, and from the middle of August to the end of November. The meteorological records taken on the coast-lands during a period of 76 years show, as regards temperature, that the climate is a very equable one. The mean temperature is 80° 3", its recorded extremes during this long period ranging between 68° and 92°, but these extreme temperatures are very rarely recorded, the usual extremes during a year being 72° and 80°. In the interior the mean temperature is higher—82° 8", its extremes ranging from 66° to 103°. The yearly rainfall is, on the contrary, subject to marked variation, its mean on the coast lands being 94 1/2 inches distilled over 195 days of the year, and its range from 44 9/16 to 132 1/2 inches per year. In the interior the average recorded rainfall is 50 1/2 inches per year ranging from 45 3/4 to 57 9/16 inches per year. The birth rate in 1923 was 39 4, and the death rate 28 3 per 1,000. The chief product is sugar, which forms 60 per cent of the export trade. The leading exports are sugar (£2,132,802 in 1923), rum, diamonds, timber, balata, bauxite, and rice. There are about 13,000 aboriginal Indians; they are occupied largely in fishing, hunting, and raising crops of cassava.

The Government consists of a Governor and a Court of Policy of 25 other members, 7 official and 8 elected, and a Combined Court including the members of the Court of Policy together with six elected Financial Representatives; with an Executive Council, consisting of the Governor, 5 official and 3 unofficial members nominated by the Crown. There are 2,750 miles of post-office telephone wire and 576 of telegraph lines, with 75 post-offices. There are 95 miles of railway.

BRITISH HONDURAS

British Honduras, in Central America, lies within 18° 29' 5" to 15° 53' 55" N latitude and 89° 9' 22" to 88° 10' W longitude. Its extreme length and breadth are approximately 174 m and 68 m respectively, it is bounded on the north and north-west by Yucatan (Mexico), on the west and south by Guatemala, and on the east by the Caribbean Sea. The total area is about 8,598 sq miles, with a population (Census 1921) of 45,317—22,563 males and 22,754 females, the estimated population (Dec 31, 1923) being 46,527—23,078 males, 23,449 females. The climate generally is damp and hot, but not unhealthy. The temperature ranges from 50° to 98°. The average lies between 75° and 80°, but this is considerably tempered by the prevailing sea-breezes. The country consists chiefly of primeval forest, with savannahs and so-called "pine-ridges," which are open sandy plains covered with a wily grass and dotted with pine-trees, affording fair runs for cattle. The ground is level and swampy along the coast-line, and generally flat for about ten or twenty miles inland, after which hills from 500 ft to 4,000 ft high succeed each other to the western boundary.

The staple products are the natural woods of the colony, principally mahogany and logwood. Sugar, rubber and cacao grow readily. Fruit, including bananas, plantains, coconuts, pineapples, oranges, and mangoes also grow well, while inland there are extensive regions of good pasturage. About 60,000 acres are under cultivation. The best description of cacao trees grow wild in the

bush. There are 65 primary schools in the colony, and 5 schools with secondary departments in Belize. The shipping entered and cleared at the port of Belize in 1923 was 536,921 tons. There is a radio-telegraph station at Belize.

British Honduras is governed as a Crown colony. There is an Executive Council of 3 official and 3 appointed members and a Legislative Council of 5 official and 7 appointed members. The Governor is President of both Councils.

CAMEROON.

(Joint Franco-British Administration)

The German Protectorate of Kamerun on the west coast of Africa between (British) Nigeria and French Congo (the Spanish Muni River Settlements occupying a small intervening area), was obtained by conquest by Franco-British forces during the War of 1914-18, and at the conclusion of Peace its administration was confided by the Supreme Council of the Allied Powers to Great Britain and France jointly.

The approximate geographical limits are between 2°-12° N lat and 8° 48'-19° E long, and the area is about 295,000 square miles, containing a population estimated at 3,500,000. The coast line extends from the Rio del Rey to the Muni River. The territory occupies the north-west corner of the Central African Plateau, with Cameroon Peak (13,370 feet) near the capital, on the coast, and the Chebchi and Mandara Mountains on the north-west frontier. The Sanaga is a considerable river flowing into the Atlantic opposite Fernando Po; the Sanaga and Douba (or Ngoko) are tributaries of the

Congo, and the Logone-Shari flows into Lake Chad. The inhabitants are Bantus and Sudanese, with some Haussas and Fula tribes, of whom the latter are Muhammadans and the remainder pagans. Cocoa cultivation is a highly successful industry of recent origin, and the Protectorate is rich in forest produce. The exports are rubber, palm oil, palm kernels, cocoa and ivory, the imports are chiefly clothing and textile goods, meat, fish and provisions.

In 1920 the whole area was divided into a British Sphere and a French Sphere.

British Cameroon

The British Sphere is a wedge-shaped strip, running with the Nigerian border and containing an area of about 28,000 sq miles. It is administered by the Nigerian Government, the capital being BUEA, on the slopes of the Cameroon Mountain. The principal port is Victoria (in Ambas Bay), which is connected by railway with the capital.

CAYMAN ISLANDS

The Cayman Islands, forming a dependency of Jamaica, are situated between the meridians 79° 44' and 81° 26' W., parallels of 19° 15' and 19° 46' N., and consist of three islands, Grand Cayman, Cayman Brac, and Little Cayman, with a total area of 225 square miles. They are said to have been discovered by Christopher Columbus on his return voyage from Porto Bello to Haiti, and called "Las Tortugas." Population (1921) 5,253.

The principal town is Georgetown, in Grand Cayman, population (1921) 1,070.
Commissioner & Judge of the Grand Court,
H. H. Hutchings (house and fees) . . . £600

CEYLON

an island in the Indian Ocean, to the south-east of the peninsula of Hindustan, is situated between 5° 55'–9° 50' N. lat. and 79° 42'–81° 53' E. long. Its area is (with outlying islands) 25,332 square miles, or more than three-fourths of that of Ireland. Its greatest length is from north to south, 270 miles, and its greatest width 140 miles.

The climate varies with the altitude of the district, but on the whole, though tropical, it is healthy, except in the low-lying jungle. The coolest months are December and January, the hottest are April and May.

The population (Census of 1921) was 4,504,549 (including military and shipping), the most important element being the Sinhalese, descendants of colonists from the valley of the Ganges, who first settled in the island about B.C. 543. In 1505 the Portuguese landed in Ceylon and formed settlements along the coast, but about 150 years later they were dispossessed by the Dutch. In 1796 the British took possession of the Dutch settlements on the island, and annexed them to the Presidency of Madras, but six years after, in 1802, Ceylon was erected into a separate Crown colony. In 1815 the King of Kandy was deposed and banished; and his dominions, which had up to that time maintained their independence of European rule, were annexed to the British Crown.

The staple products of the islands are agricultural. The most important for home con-

sumption is rice in its two forms of paddy and husked grain. The principal exports are tea, products of the coconut palm, rubber, plumbago, cacao, cinnamon, cardamoms, ebony, and a little vanilla.

About one-fifth of the island is under cultivation, and the leading areas in 1923, in acres, were—Rice, 750,000, other grain, 102,000, tea, 418,000; coconuts, 900,000, rubber, 390,000, cinnamon, 25,000, cacao, 33,200; and tobacco, 13,000. The live stock in 1923 included 1,383,000 horned cattle, 59,000 sheep, 158,000 goats, 50,000 pigs, and 2,000 horses. Among the more important native industries are gold, silver, brass, ivory and tortoiseshell work, pottery, mats, fans, and wood-carving. Ceylon is famous for precious stones, especially catseyes, rubies, &c., and for the pearl fishery in the Gulf of Mannar, off the N.W. of the island. The manufacture of salt is a Government monopoly.

There are 734 miles of railway open, 617 being 5 ft 6 in. gauge and 117 miles a ft. 6 in., and the post and telegraph offices numbered 612, there being 7,206 miles of telegraph wire.

The Government of Ceylon is administered by a Governor, aided by an Executive Council of 7 members, and a Legislative Council of 49 members. The Legislative Council contains representatives of the various territorial divisions of the island, and special safeguards provide for the representation of minorities and unrepresented interests. Of the 37 unofficial members 34 are elected and 3 nominated by the Governor.

For administrative purposes the island is divided into 9 provinces, at the head of each of which is a Government agent. The larger towns have municipalities, Urban District Councils, or local boards, and in the country districts the natives retain their village councils and tribunals for matters of minor importance.

The MALDIVES ARCHIPELAGO lies to the S.W. of Ceylon, a few degrees north of the equator. Malé, the seat of government, is about 400 miles distant from Ceylon, to which the islands have always been nominally tributary. The Sultan acknowledges his allegiance by sending an annual embassy to Colombo. The natives are Muhammadans. The islands are unhealthy, and the main exports are dried fish, cowrie shells, coconut oil, and tortoiseshell. Colombo, distant from London 6,300 miles, transit, 16 days.

CYPRUS

is an island in the Mediterranean Sea, between N. lat. 34° 33' and 35° 41', and E. long. 32° 17' and 34° 35'. It is about 40 miles distant from the nearest point of Asia Minor, and 60 miles from Latakia, on the Syrian coast. The distance to Port Said, at the entrance of the Suez Canal, is 298 miles. The larger part of the island is an irregular parallelogram, 100 miles long and 60 to 30 broad, from which a narrow peninsula, 5 or 6 miles wide, runs out for 40 miles towards the north-east. The area is 3,584 square miles. The population at the census of 1921 was 330,709, of whom about 20 per cent. were Muhammadans, and the remainder mostly members of the autocephalous Church of Cyprus, which is a branch of the Orthodox Eastern Church. The principal productions are grain of various kinds, sesame, linseed, flax, wine and spirits, silk, olives, locust-beans (carobs), cotton, wool, hides, grapes, oranges, pomegranates, asbestos, aniseed, sponges, sumac leaves, terra umbra, gypsum, salt, pyrites, and chrome. In 1923 the wine export was 92,357 gals., and that of spirits 19,806 gals., the bulk of the wine and spirits going to Egypt and Syria. The climate varies in different localities. In the plains the summer heat is very great, and the British troops suffered when first stationed in

the island. Excellent summer quarters were, however, found in the hills; and, owing to the enforcement of various sanitary measures, the death-rate of the whole island is nearly as low as that of any European country.

Cyprus was formally annexed to the British Empire in 1914. The inhabitants have been granted a political franchise, every man paying direct taxes having a vote. The government is administered, under the Colonial Office, by a High Commissioner, assisted by a Legislative Council composed of 18 members, 6 being official and 12 elected. The island is divided into three electoral districts, each returning one Muhammadan and three Christian members.

For administrative and legal purposes it is divided into six districts. In each district the executive government is represented by a commissioner, and each has a Court of Law presided over by an English judge, who is assisted by two native judges, one being a Christian and the other a Muhammadan. There is also a Supreme Court for the whole island, consisting of two English judges.

The capital is Nicosia (Lefkosia), near the centre of the island, with a population of 191,98 in 1921; the other principal towns are Larnaca (population 9,768), Limassol (13,291), Famagusta (7,276), Kyrenia (1,913), Paphos (4,119), and Morphou (3,500).

Important works at Famagusta have rendered the inner harbour accessible to steamers, and a narrow-gauge railway connecting the harbour with the capital (36 miles) was opened in 1905, and was extended to Morphou, 25 miles, in 1907, and to Evrykhou, 25 miles, in 1915. There is a regular service of steamers from Egypt, and from Italy (*via Trieste*).

EAST AFRICA PROTECTORATE. See KENYA

FALKLAND ISLANDS.

These, the only considerable cluster in the South Atlantic, lie about 300 miles east of the Straits of Magellan, between 51° 15'–53° S. lat. and 57° 40'–62° W. long. They consist of East Falkland (area 2,580 sq. miles), West Falkland (2,038 sq. miles), and upwards of 100 small islands (islets, rocks, and sandbanks), comprising in the aggregate 4,618 sq. miles, and a population in 1921 of 2,094. Mount Adam, the loftiest peak in the colony, rises 2,315 feet above the level of the sea. The Falklands were discovered by Davis in 1592, and visited by Hawkins in 1594. A settlement was made by France in 1764, this was subsequently handed over to Spain, but the latter country recognised Great Britain's title to a part at least of the group in 1771. In 1820 the Argentine Republic established a settlement which was destroyed by the Americans in 1831. In 1833 the islands were again taken possession of by the English for the protection of the whale-fishery, and colonised, being the most southerly organised colony of the British Empire. On Dec. 8, 1914, a British squadron under Adm. Sir Doveton Sturdee defeated a German squadron (von Spee) off the Falkland Islands. The climate, though somewhat bleak, is usually considered healthy, and the temperature is on the whole equable, the thermometer ranging in winter from 20° to 50°, and in summer from 40° to 65°. The islands are chiefly bog-land, and have proved suitable for sheep, 670,000 being carried, the output of wool is about five million lb annually. The population is mainly British, and is principally engaged in sheep-farming and seafaring industries. The chief exports are whale oil and guano, wool, tallow, hides and sheepskins. The only important settlement is Port Stanley, at the head of Port William, on the coast of East Falkland.

The government of the Falkland Islands is vested in a Governor, aided by an Executive Council of 4 members, and a Legislative Council, the members of both being appointed by the Crown.

	1921	1922	1923
Public revenue	£139,230	£174,437	£190,337

Colonial Treasurer, &c., Hon. W. A. Thompson 600

Chief Justice, The Governor.

CHIEF TOWN, Port Stanley. Population (1921), 897.

Dependencies of the Falkland Islands.

The total area of land and sea included in the dependencies of the Falklands is over 3,000,000 square miles. *South Georgia*, an island 800 miles east-south-east of the Falkland Group, with an area of 1,000 square miles, is the only part of the dependencies which is permanently habitable, there being a Resident Magistrate and other officials, and a permanent population (engaged in the whaling industry) at Grytviken Harbour. In the *South Shetlands*, Deception Island contains a harbour at Port Foster, ice-free for about five months in the year, with a land station which arrives and departs with the whaling fleet. The *South Orkneys* also have a seasonal land station, and the Argentine Government have, with the permission of H.M. Government, established a meteorological station, in connexion with a discovery that a cold winter in the Weddell Sea is a precursor of drought in the maize and cereal area of Argentina 3½ years later. The other dependencies, of which the principal units are the *South Sandwich Islands*, and a part of the *Antarctic*, or *South Polar*, continent known as *Graham's Land*, are even more inhospitable than those already named, being nearly covered with snow and ice and almost completely destitute of plant life. In spite, however, of the climatic and other disadvantages, the revenue derived from all the dependencies in 1922 amounted to £122,102, and the local expenditure was no more than £12,930, the surplus (after meeting administrative expenses at Port Stanley) being devoted to local research and development. The trade is considerable, the exports being valued at £2,504,944, and the imports at £389,263 in 1922. The whaling industry carried out from these dependencies is greater than that of the rest of the world combined. Thirteen companies (4 British, 11 Norwegian) caught 6,955 whales in the 1922 season, the landed value of the oil being £2,244,390.

Port Stanley is distant about 8,130 miles, transit, 25 days from Liverpool. Telegrams by cable and wireless telegraphy via Monte Video.

FIJI

This is a group of 300 to 250 islands (of which some are, however, mere uninhabited islets and rocks) in the South Pacific Ocean, about 1,100 miles north of New Zealand, which extend 300 miles from east to west, and 300 north to south, between 15° 45'–21° 10' S. lat. and 176° E.–178° W. long. The gross area of the group is about 7,083 square miles. The islands are of volcanic origin, with lofty mountains, and well wooded. The principal are Viti Levu (Great Fiji) and Vanua Levu (Great Land). The climate is equable and remarkably healthy for Europeans, the average temperature in the shade in the cool season is 70°, rising to 84° in the hot season, extremes lying between 60° and 94°. Vegetation is remarkably luxuriant, the chief productions being the bread-fruit tree, banana, plantain, pea-nuts, yams, and dalo (taro), coco-nut, sugar-cane, rice, maize, and cotton. The principal exports are sugar, copra, bananas, trocas shell, molasses, rubber, maize, hides and pelts, and beche-de-mer. The Governor is appointed by the Crown, and is assisted by an Executive Council consisting of 6 members. Laws are passed by a Legislative Council (of which the

Governor is president) containing 12 nominated members (one specially representing Indian interests), 7 elected members, and 2 native members, appointed by the Governor. Native administration is carried on through the chiefs under the Governor's supervision. The population (1921 Census) was 157,266 (84,475 native Fijians, 60,634 Indians, 3,878 Europeans, and some Polynesians and others).

Comptroller of Customs, Hon. E. J. Marsh 525

Suva is 11,000 miles from London, transit from London, via Vancouver, about 30 days, and via Sydney, about 50 days.

GAMBIA.

The West African river Gambia, which is navigable for some 300 miles from its mouth, was discovered by the Portuguese in 1447, and in 1588, the year of the Spanish Armada, Queen Elizabeth, being then at war with Spain and Portugal, gave a charter to a British Company to trade with the Gambia, and as early as 1618 an effort to do so was made, but it was not successful. In 1686 a fort was built upon a rocky island, and in honour of the new King, was named Fort James, but the English merchants had formidable rivals in the Portuguese and French, and it was not until 1783 that the river was recognised, by the Treaty of Versailles, as British. The Colony had no regular political institutions until 1807, when it was put under the Government of Sierra Leone. The Colony of the Gambia was created in 1843, and was constituted a separate government in

1888. It now consists of the Island of St. Mary, British Kombo, Albreda, the Ceded Mile, MacCarthy Island, and various other islands and territories on the banks of the river. The total area is estimated at 4,132 sq. miles. The population of the Island of St. Mary, at the Census of April 24, 1921, was 9,227, and that of the Protectorate 202,303. The climate is unhealthy during the rainy season, viz. from June to October, but during the rest of the year it is less unhealthy. The chief export is ground nuts, which form seventy per cent of the total exports. They were sent chiefly to Marseilles, where the oil is extracted and used for the same purpose as olive oil, but, since the outbreak of war, the export trade has been mainly with the U.K. Beeswax, palm kernels, hides, and calabashes are also exported, and rice, cotton, maize, and a kind of millet called *kous* are produced in the countries bordering the Gambia, but not in sufficient quantities to meet local requirements. The chief imports are cotton goods, kola nuts, rice, soap, spirits, hardware, sugar, wine, and tobacco. A Company of the W.A.F.F. (4 officers and 120 non-commissioned officers and men) is stationed in the Colony, and there is an armed police force in the settlement (numbering 92 men), which performs both civil and military duties. There are Government wireless stations at Georgetown (MacCarthy Island) and at Bathurst. The Government, which is that of a Crown Colony, is vested in a Governor, assisted by an Executive Council consisting of 3 official members (besides the Governor), and by a Legislative Council of 5 official members and 3 unofficial members, nominated by the Crown.

GIBRALTAR.

a rocky promontory, 2½ miles in length and ¾ of a mile in breadth, and 1,396 feet high at its greatest elevation, near the southern extremity

of Spain, with which it is connected by a low isthmus. It is about 14 miles distant from the opposite coast of Africa. Gibraltar was captured in 1704, during the war of the Spanish Succession, by a combined Dutch and English force, under Sir George Rooke, and ceded by the Treaty of Utrecht, 1713. Since that time it has remained continuously in possession of the British. Of the many attempts to retake it, the most celebrated was the great siege in 1779-83, when General Elliott, afterwards Lord Heathfield, held it for 3 years and 7 months against a combined French and Spanish force. The town stands at the foot of the promontory on the N W side. Gibraltar is a free port, and enjoys the advantages of an extensive shipping trade. During the year 1923 4,421 vessels entered, with a total tonnage of 5,560,875. The chief sources of revenue are the port dues, the rent of the Crown estate in the town, and duties on wine, spirits, tobacco, and beer. There is an enclosed harbour with an area of about 400 acres, three graving docks, and docking accommodation for the largest battleships in the British Navy. The estimated civilian population (1923) was 17,346.

The Governor is in command of the garrison, and is aided in the administration by an Executive Council of 7 members; there is no Legislative Council.

GOLD COAST

The Gold Coast comprises a portion of the coast of the Gulf of Guinea from about 3° 7' W to 1° 14' E of Greenwich. It is divided into three parts—Gold Coast Colony, 23,490 sq. miles, Ashanti, 24,560 sq. miles, and the Northern Territories, 30,660 sq. miles—a total area of 78,650 sq. miles. It extends along the coast line about 334 miles and inland to an average distance of 440 miles, or to the 11° of N. latitude. It is bounded on the west and north by the French colonies of the Ivory Coast and French Sudan, and on the east by Togoland. The population (Census of 1921) was Gold Coast Colony, 1,171,913, Ashanti, 406,193, Northern Territories, 530,355, total, 2,108,461, excluding 2,033 Europeans. The natives are almost all Pagans, but there are 60,000 Muhammadans, and the number of Christians is steadily increasing.
